President's Reception and Prom

The President's reception senior prom in the Billings Friday was the first large soci of senior week. In the receiv were President and Mrs. Bailey, Dean and Mrs. J. Miss Marion Paterson, dean of Prof. and Mrs. Elijah Swift McGinley '27, chairman of prom, and Miss Mary P. '29.

Happy Flint and his Black Serenaders played for the sen which followed the reception. seniors and their guests in la bers enjoyed this social functi always makes a pleasant me senior week.

Senior Women Hold Banquet At Robinson Hall

The women of the senior class held [illegible] at Robinson hall Thursday evening. The tables were decorated with purple and gold, the class colors. Chapman served as toastmistress. Toasts were given as follows: Verdant Freshmen and [illegible] Ina Bagley; "Entered With Honors We Hope" [illegible] Johnson; "Graduate We Will" Evelyn Bowen; "Meantime In Sports Did Try" Anna Ward. "On Campus We Can Take a Vote" Irene Randall; "And the Last Time Together" [illegible] Towards the Future We Look For Fame" Florence [illegible] "While Memory Serves Forever." Charlotte Bean. Miss Paterson brought the evening to a close with a short talk to the members of the class.

Princeton honored 34 alumni with election to Phi Beta Kappa.

JOHN COOLIDGE COMES TO SUMMER SESSION

John Coolidge who is enrolled in the University of Vermont Summer School will be accompanied to Burlington by Russell C. Wood as bodyguard. Wood makes a practice of attending all the lectures and athletic contests with John and even participates at times in golf and tennis with his charge.

It is for doing extra work in English to broaden his knowledge and appreciation of that subject and not for the purpose of boosting his studies at Amherst that John is coming here this summer. After completing the six weeks course here he expects to go to the summer White House in the Black Hills before returning to Amherst for his Senior year.

As Vermont has its Kake Walk festivities, M. I. T. has its annual Circus day.

TRUSTEES AGREE TO DISSOLVE ASSOCIATE ALUMNI ASSOCIATION

Alumni Council Takes Over Work and Duties of the Defunct Organization—Funds Go to Alumni Weekly

It now seems likely that the organization known as the Associate Alumni of the University of Vermont will go out of existence following the meeting of the trustees of the University this morning. About the only function of the Associate Alumni during the past few years has been the sending out and collection of ballots for alumni trustee. Very few alumni have taken any active interest in the organization and it is felt that its functions should be taken over by the more robust Alumni Council.

It was voted at the annual meeting of the Associate Alumni Saturday morning in the College of Medicine building that the functions of the organization be transferred to the Alumni Council that the dues of $1 collected to defray the expenses of sending out the ballots for alumni trustee) be discontinued, and that the assets and liabilities of the Associate Alumni be assumed by The *Alumni Weekly*. The Alumni Council later in the morning voted to assume the function of the Associate Alumni and to accept its assets and liabilities, provided the trustees approve.

According to the report of the treasurer F. W. Kehoe, at the Associate Alumni meeting, that organization has a bank balance of $551.68, which will be turned over to The *Alumni Weekly*. All of the bills of the Associate Alumni are paid, so there are no liabilities for The *Weekly* to assume.

It was announced by Secretary F. W. Kehoe at the meeting of the Associate Alumni that Charles Francis Blair of Buffalo, N. Y., had received the largest number of votes for alumni trustee and that his name would therefore, be presented to the trustees as the nominee of the alumni for the board of trustees. More about Mr. Blair will be found in another column.

The meeting of the Associate Alumni voted to re-elect the present officers of the organization, pending the decision as to whether the Associate Alumni will continue to function.

John O. Baxendale, chairman of the necrology committee, submitted its report, which was duly accepted and adopted.

NOTED SURGEON RATES MEDICAL COLLEGE WITH BEST IN AMERICA

The medical college of the University of Vermont is considered one of the best, if not the best medical school in the United States in the estimation of so good an authority as Dr. Charles H. Mayo of the famous Mayo brothers, internationally known surgeons of Rochester, Minnesota. This information was given to the members of Rotary, at their luncheon by Dr. H. M. Stafford, in charge of hospitals and sanitariums in the city of Manila, Philippine Islands.

Dr. Stafford has a son, Charles, who is in the medical college at the University. The son was sent here at the recommendation of Dr. Charles H. Mayo. When Dr. Stafford wrote to Dr. Mayo, asking why the University of Vermont medical college was selected instead of Johns Hopkins, Harvard or some other of the larger medical schools, Dr. Mayo replied that he considered the medical college of the University of Vermont offered superior medical training.

Dr. Stafford went on to say that he had further learned upon investigation, that the University of Vermont college of medicine is one of only six medical schools in this country whose graduates are allowed to practice medicine in England. The English are very particular about such matters, Dr. Stafford pointed out.

NORWICH CLASS HOLDS DELAYED COMMENCEMENT

Ten years after their Senior year at college the members of the Class of 1917 of Norwich University received their diplomas and enjoyed the excitement of Class Day Exercises. Owing to the entrance of the United States into the World War the class of '17 failed to receive their sheepskins at commencement exercises.

On June 14 under the leadership of Walter A. Upham of Easton, Pa., class president the returned members conducted the annual class step exercise, by placing the numeral bearing piece of granite to its place of honor beside those of the other graduated classes. The class president gave the principal address on the steps of Jackman Hall.

These ceremonies preceded the regular commencement exercises for the class of 1927 by one day.

DIRECTOR ANNOUNCES NEW SUMMER COURSES

Realizing the vital interest which all people have in the matter of personal relations the University of Vermont Summer School which opens July 5, is offering four new courses dealing with that subject. Prof. George G. Groat and Prof. Francis M. Mearle will give the new courses. In addition to these, Prof. Groat will again give his course in Social Conditions and Current Industrial Problems. It will deal with present day industrial problems with special emphasis upon the influence of the World War on social and industrial conditions. The other two courses under taken by Professor Groat are Essentials of Economic and Sociology.

Prof. Earle will give a course in commercial geography, involving study of the production and consumption of the principal raw materials of industry. Attention will be given to the relation between geographic conditions and trade in various countries. The economic geography of New England will also be studied

ALUMNI SCORE LONE RUN AGAINST VARSITY AT COMMENCEMENT GAME

Winchenbach Star of Game With Three Long Hits—Moriarty Appears in Box for First Home Appearance

For the first time this season Moriarity took the mound at Centennial Field Saturday and for seven innings held the old timers at bay. During the seven innings he allowed the hard hitting Alumni a brace of bingles and neither came in the same frame. It was one of the strongest Alumni teams to face the Varsity in some years with practically all of them playing twi-light some where or rather, his hurling was some feat. "Red" Taylor pushed them up for the old timers and the varsity had little trouble in solving his delivery. They found the red head for a total of elven safe hits and the greater part of them were for extra bases.

Winchenbach was the star of the game with a single, a double and a triple to his credit out of three times at bat. For the Alumni Duba was the only man to get more than one safe hit and he collected two singles off from the varsity. Conway and Aronson each had two hits to their credit.

Several wonderful catches were made in the outfield the most notable being the hard running catches that "Bob" Buttles and "Fat" Bell made in the eight inning.

CATAMOUNT ELEVEN UNCERTAIN AS SQUAD LEAVES FOR COLUMBIA

McAvoy Does Not Announce His Final Selections For Game at Morningside Heights—Opposition is Stiff

The Catamount eleven leaves tonight for New York City for its first game of the season, tomorrow, with Columbia as its opponent. The Green and Gold has been working out faithfully and strenuously during the past few days. The squad has shown much more speed and ability than the team did a year ago at this stage, and with breaks up playing the team shows promise of making a comparatively good showing.

COACH MCAVOY

Football mentor who takes Vermont eleven to New York where it will face Columbia.

Columbia has a veteran team on the gridiron, and in view of the fact that Vermont put up such a wonderful fight last year, Leo Crowley, the Columbia mentor, has been striving to put his machine into fast form.

Until the referee's whistle blows for the teams to take the field the starting line-up for Vermont against the New Yorkers will be in doubt. In practice, changes are being made every day. Coach McAvoy hopes to have the smoothest running combination picked by Saturday. The candidates who have made the best showing during the past few scrimmages are: Levine, center; Kropper and Werner, guards; Winchenbach and Knapp, tackles; Palmer and Sirois, ends, Conway, quarterback; Scutakes and Estabrook, halfbacks; Captain Smith, fullback. Before the game is over Courson, Mace and DeRose may see service in the backfield, and Burstein, Leary and Robinson in the line.

After the Columbia game the Vermont team will tackle Harvard in the Stadium at Cambridge. There, too, Vermont will face formidable opposition. Although Coach Horween does not expect to be able to develop a team as good as that of last year he is positive that he will have a hard-fighting, aggressive outfit.

As one runs through the remainder of the schedule one cannot find an easy game. Williams has a veteran team with a powerful offense. In Captain Boynton the Purple has one of the best defensive men it has had in several years. Providence will open the Vermont home season October 15. The Rhode Islanders boast a fast team which is able to cope with the best in the country. Tufts appears at Centennial the following Saturday to seek sweet revenge for the defeat handed it last year at Medford. "Fish" Ellis, the triple-threat star of the Tufts eleven, will bear the bulk of the backfield work. He is sure to stage a pretty exhibition of broken field running, forward passing and punting.

Springfield and Amherst are the remaining out-of-state opponents on the schedule. Amherst has a fast group of men out daily and will be heard from soon, while Springfield has another consistent team in the making. Vermont will have to meet these teams at the height of the season, the Springfield game being a Thanksgiving tilt.

Continued on page 3)

GOVERNOR WEEKS OPENS CHAPEL THIS YEAR

The first chapel exercises of the year were held in the Ira Allen Chapel, Wednesday morning. A large attendance was present with the Freshmen by far in the majority. Also many people not connected with the University took that opportunity to hear Governor John E. Weeks who delivered the short address and led the congregation in prayer.

Governor Weeks spoke mainly to the class of '31 concerning their responsibilities in life. The address was very short due to the limited amount of time available for the exercises, but inspiring and straight to the point. Professor Howard G. Bennett of the music department was in charge of the singing.

LITERARY MAGAZINE TO MAKE ITS APPEARANCE BEFORE THANKSGIVING

Campaign for Subscriptions to Start This Week—Prize Winning Stories, Essays & Poems To Be Published

Vermont's contemplated literary publication will make its début on the campus shortly before the Thanksgiving recess, according to the latest advices from the Editor. The new magazine is being sponsored by the men's and women's honorary literary societies and has been under consideration during the past year. The purpose of the magazine is to stimulate students to write and to give the rest of the student body an opportunity to read new and interesting stories written by their own classmates. The prize winning short stories, essays and poems entered by Vermont students in last year's Inter-collegiate Literary Contest will be the main attractions.

All literary efforts such as short stories, essays, poems or bits of humor will be received by the board and be given impartial consideration. Contributions should be handed in to Miss Rachel Skinner '28, Editor in Chief, 215 South Prospect Street. Six issues a year will be published. As this is the first attempt of this nature at the University it is hoped that the students will give it support by subscriptions.

As yet the magazine has not been definitely christened and the Editor is planning a contest to be held after the appearance of the first issue for this purpose. Saturday morning there will be a table in the corridor of the Old Mill where subscriptions may be obtained. Subscriptions may also be sent to C. H. Overly at 50 Ledge Road, City.

Due to conflicting activities Walter F. Reagan, the business manager-elect has resigned in favor of Charles H. Overly '29. Overly has been interested in the literary publications of the University and is a member of Sigma Delta fraternity. The assistant editors are: Katherine Bassett, Dorothy Cottrell, Constans Holden, George H. James and R. L. Stewart.

SUBSCRIPTION COUPON

Herewith..... pays the sum of one dollar ($1.00) for six copies of the Vermont Literary Magazine during the college year of 1927-28.

(Individual copies are 25 cents)

PROMINENT MEMBERS OF 1924 CLASS ARE MARRIED

Miss Anna Caroline Martin of North Ferrisburg, and Albert Edward Frost of Middletown Springs were married at the bride's home September 6. Both Mr. and Mrs. Frost were graduated from the Troy Conference Academy in 1920 and from the University of Vermont in 1924. Since graduation Mrs. Frost has taught at Troy Conference Academy in Poultney. She is a member of Pi Beta Phi and Mortar Board. The bridegroom has been employed by the Western Union Telegraph Company in New York since graduation. He is a member of Alpha Tau Omega. Mr. and Mrs. Frost will reside in Brooklyn.

There will be a table in the Gymnasium this evening during the Freshman Mixer where subscriptions may be obtained for the new literary publication which will make its first appearance shortly before Thanksgiving.

PRESIDENT BAILEY DELIVERS ADDRESS ON MERIDIAN OF LIFE

Urges the Freshmen to Strive For a High Goal, to Be Found Beyond the Years of College or Prep School Training—Stress Laid Upon Importance of Playing the Game of Life Fairly

VALUE OF MENTAL AND MORAL TRAINING POINTED OUT

Starting the 137th year of the University of Vermont, an opening convocation was held at the Ira Allen Chapel Wednesday, September 14. President Bailey made several announcements and then addressed the student body. This was the first opening convocation to be held in the new chapel.

President Bailey's Address

To the younger generation the transition from the primary grades to the grammar school, from the grammar school to the junior or secondary school, and then to the university may each in itself seem to be the meridian in life. However, each such step in itself represents only a bit of experience. Real value accrues only as one measures the accumulative effect of the various steps. To you who are just entering upon this further journey and perchance think you see your meridian high in your sky, let those of us who are older suggest that that meridian is not yet in sight.

You, members of the class of 1931, evidence by your very presence among us your desire to progress toward the meridian of your hopes. No matter how pertinent, how serviceable our suggestions may be, they are valueless without your honest consideration and the application on your part of certain contemplative processes. The new step you take this morning involves a new set of indicia, a keener sense of the discriminating faculties. Too often students fail to appreciate all that is involved in the transition from secondary school days to university life. The University is generally regarded as the final place of instruction before one enters upon his life's work. Too often the importance of evaluating matters on a university basis is underestimated, is disregarded. Too many entering students expect the same close supervision in University work that was exercised during their school days, and seem to believe that the responsibility for their progress rests in the main with their instructors. Their hopes are vain. Paternalism which is properly exercised in the preparatory school does not exist in University life.

There is no training that will prove so effective a measure of youthful ability as a college course. The young man or woman who seeks a college education without sincerity of purpose not only injures himself or herself but may stand in the way of some deserving student who longs for and is debarred from the opportunity. Too often parents making great sacrifices in behalf of their children find that their efforts are unappreciated. A right minded college athlete of course scorns to play the game contrary to the rules and so each student should be and usually is similarly minded in respect to his educational opportunities and should play fair with his parents, the institution and himself. College halls were not built to shelter the loiterer or the inefficient. The institution accepts no responsibility for laziness or indifference on the part of a student. Our officials whose duty it is to follow the progress of students and to appraise the results of their work will frequently notify parents in cases of remissness, but, after all, the real responsibility rests with the individual student.

It is quite generally the rule among the better American colleges and Universities to refuse a student who has failed elsewhere. A student applying for admission as a transfer is met invariably with this question: "Could you return to the institution from whence you came?" The importance of making good in the case of one's first trial is obvious.

In the academic world there is a term known as "institutional welfare." This quality takes precedence of men and students. Our regulations are simple. From time immemorial, our University men and women have understood that their conduct toward all men is to be regulated by those plain rules of politeness, honor and religion which are binding on every free and virtuous community.

Institutional responsibility implies the presentation of a proper curriculum, the teaching of the various courses according to approved standards, the utilization to that end of such facilities as are available. Student responsibility implies an honest endeavor to assimilate a reasonable amount of the preferred instruction in an understanding manner and an ever present sense of obligation to those at home. This institution will go farther than many. We do not only say to you we offer you our courses of instruction, our facilities and our prestige, but we will assist you in a financial way if your earnestness of purpose indicates that you are deserving of aid.

Some one has quite truthfully said that the finest culture that fits every man and woman for a good and successful life is hard work. There is much of that to be done. The nation that conforms to the right standards will live. Your duty is clear to yourself and to your nation.

May we not say that you have reached the meridian of success in the collegiate world when you have demonstrated a fair and sincere interest in your studies, when you have so conducted yourselves that you have won the regard of your teachers and your fellows, when you have shown yourselves to be possessed of the right spirit whether you lose or win? The enlightenment and discipline acquired in mental and moral training in a university atmosphere are the greatest factors aiding one's progress toward the meridian of life.

When will you have attained the meridian of your life's work? Will it not be when your character has developed to its fullest extent, for the highest type of character is well said to be that which builds for eternity? May your meridian of life represent all that is sound, judicious, honest, and upright. In this undertaking we welcome you heartily and promise you our sincere and sympathetic interest.

PRESIDENT BAILEY

Who addressed the students on "The Meridian of Life" at the opening of college.

ENGINEERS ALLOWED CREDIT FOR MILITARY

Advanced classes in Military Science have proved so popular during the past few years that additional requirements may be necessary to keep the class within the limits set by the War Department. This University is allowed a quota of eighty men in the advance courses and, according to Colonel Black, this number may be exceeded if the Medical Corps is included in it. Credit of three hours is allowed in the college of engineering, and this is thought, by authorities, to be one reason for the increased enrollment.

All Freshmen who have not yet been measured for their uniforms are urged to attend to this matter as soon as possible since the appropriation from the War Department is payable only until the first of November. After that date uniforms will be paid for entirely by the student. The first week of November will see the R. O. T. C. battalion once more fully uniformed and parading on the back campus.

The department has been busy during the past week with the Freshman Physical Examinations. As yet no figures are available concerning them.

ORANGE BLOSSOMS FOR POPULAR INSTRUCTOR

Lawton Moore, popular instructor in Public Speaking and coach of Vermont's successful debating team was married at Philadelphia, August 27, to Miss Helen Watermyer of Philadelphia.

A ten day honeymoon to Atlantic City was enjoyed following the marriage ceremony.

Mr. Moore is starting his second year at Vermont. Last year he coached the Catamount debators to victories over such strong teams as M. I. T., Middlebury and St. Lawrence, which has always been victorious over Vermont heretofore. The season was the most successful passed through in years.

Graduating from Haverford and Michigan state, Mr. Moore has much experience in public speaking and debating. Before coming to Vermont, Moore coached several of the leading Michigan school teams.

Mrs. Moore is a popular member of Philadelphia's younger set. She expects to come to Burlington later in the year where she will reside with the instructor in an apartment at 31 South Prospect Street.

PI PHIS LEAD SOCIETIES IN SCHOLASTIC AVERAGES

Pi Beta Phi leads all the fraternities on the hill in the list of averages recently released by the Registrar. Sigma Delta is at the head of the men's fraternities. The list as announced is as follows:

Pi Beta Phi
Alpha Chi Omega
Kappa Alpha Theta
Sigma Gamma
Delta Delta Delta
Sigma Delta
Alpha Xi Delta
Delta Psi
Phi Mu Delta
Sigma Alpha Chi
Kappa Delta
Sigma Nu
Tau Epsilon Phi
Alpha Tau Omega
Zeta Chi
Kappa Sigma
Lambda Iota

1931 CLASS MEETING

This afternoon at four o'clock there will be a meeting of the Freshman class in the Old Mill chapel for the purpose of class organization and elections of officers for the coming year.

TRY-OUTS FOR GLEE CLUB

Additional try-outs for the Glee Club will be held in the Music Building on Tuesday, September 27 from 7 to 8 P. M. and on Wednesday, September 28 from 4 to 5 o'clock P. M. Let's have a large number out and help make a very successful season for the Glee Club.

Women in the schools of China were hidden from view of their professors by curtains.—*Kansas*.

A Worthy Try

The Lyric extends a hand to the members of the Dramatic Club of the University of Vermont and wishes them success in their production of "Outward Bound" which they will present tonight and tomorrow night. In addition to the usual difficulties which the production of such a play presents, the members of the cast have had to overcome many difficulties which have arisen from the fact that the play is a departure from the usual type of college production. Instead of the usual musical comedy or farce, the Dramatic Club has chosen a play which requires a high degree of dramatic ability on the part of the actors. Such a play is a worthy try and we hope that the production will be successful enough to encourage the club to continue its efforts along this line.

Vermont's Heritage

One morning last week in a discussion of the question that a generation from now will be known as a degree of more wealth [illegible] was mentioned of.

Each of us pays a small tax of [illegible] a percentage on certain goods. So much paid is assessed to our mail. A penny is assessed to another on a chair or a penny is assessed on a paper. A scrap of paper a few inches of ink and the pen scratchings which some one will tear at the most [illegible] the others. He who receives proves that he too must give of the things that have come to him in the warmth and cold the gladness and sorrow of existence as the drama of time goes on.

"For a penniless man has long since parted with the possessions. Pray what could be "acquired"?

It sometimes happens that the fulfillment of a cherished dream finds a host of parents. He can leave to posterity not a material but a spiritual legacy. The person exalted must stand on the opinions of his life and the criterion by which he should be judged.

Towards the past Ira Allen was indebted to the world as a debtor. He paid what he owed in the interests of humanity. His grave is unknown. His death was one of the tragedies of history but who can deny the immortality of his legacy to posterity in the conception of the University.

Splendor of mountains and lovely [illegible] learning friendship [illegible] of truth and service, spirits of success adorn a University in the hills of Vermont. These constitute the heritage. The heirs? There are hundreds of them, many of whom have become famous people of the world. However not the greatest of these of the past years and even present are so important to Vermont today as the newest members of Ira Allen's legacy, the class of 1930.

In the spirit of the Ancient Persian of the Mountain Sarkamos," Vermonters everywhere unite in saying to your class

Hail! [illegible] who after us will come and will go

Sweet may your days be on this place.

M. D.

Regarding "Open House" Nights

"The lightning bug is brilliant, but he hasn't any mind he goes flashing through creation with his headlight on behind." And so in the beginning of college life as in this familiar rhyme many of us have trouble in adjusting our headlights, and they become hindsights making clear only past experiences and not helping us in those experiences which lie before us.

It is human that a student entering [illegible] with the accompaniments of fraternity life almost find it difficult to determine just what procedure he should follow in his own particular fraternity group and [illegible] connected with them.

The fraternities at U. V. M. are open [illegible] of the University. In the hurly-burly of rush season there are no definite regulations for expression. The commonest of making the right fraternity is just [illegible] and appearing in front of the men himself and it is up to him to show his particular group that he deserves to be one of them and that he will make good.

Now you may ask "How am I to get to know the different groups?" The answer is simple. During the month of [illegible] five evenings will be designated by the Interfraternity Council when fraternities may welcome Freshmen at their houses from seven to ten in the evening.

All of the new students are invited to make the rounds. You will, in this way meet most of the big men in college, see the different fraternity houses, get become acquainted with the different crowds in their own environment. In forming your conclusions remember [illegible] that the members make the group desirable not the house nor the fact that the chapter is local or national.

C. M.

A good co-ed institution—marriage.
Minn. Daily

Gertrude—Is she young?

Gwendolyn—Why she's so young that a cigarette is an event, not a habit. *Geo. Washington U.*

George—Heh, wait a minute. There's something in my shoe that hurts.
Arthur—What is it?
My foot. *Geo. Washington U.*

"Where Vermont Men Meet"

Opportunity in Glee Club

We take this opportunity of calling the attention of the student body to [illegible]

Practical Jokers Given Student Life at University Half a Century Ago

University of Vermont was a place forty years ago even it could not boast Dartmouth ball teams. The college property been widely extended, many added a few removed, while nts and customs have changed wn.

ld seem that in those good the cane rush was more on t of the present day hat scram way at Middlebury. There was cane, a very substantial cane, two classes. The class losing had to go caneless for the

This affair was not restricted given time or place, but just Upon one occasion the in chapel. The seething dents went down the stairs the campus, among them the rofessor, Mr. Goodrich. On down Paul Harris, recently as the founder of Rotary, himself gripping the cane along the professor. "Hold on Professor and we'll get the cane" and when rap ended they did have it.

Another time one "Dicky" Hopkins was desirous of founding a glee club. He found a willing music teacher in Harris, and the first practice took place in the Old Mill. Unfortunately the class misunderstood the commands. At the order "go higher" they mounted benches and each other's shoulders, and when requested to go lower crawled about under the seats. Eventually some kind-hearted person lowered the piano, which was about the size of a suitcase, in one of the cupboards.

Military and physical training had their troubles then as now. During one inspection as the Lieutenant strode proudly down the line giving it the once over Dicky discovered a shell in his gun. Unfortunately the Lieutenant did not hear Dicky's question and the disturbed Hopkins took the first bit of advice offered. Carefully pointing the gun at the ground he discharged the shell just behind the officer. Report has it that that worthy rose to quite an elevation.

For several years Coffin had charge of Military at the University. Though a good officer he made himself decidely unpopular by adopting West Point tactics—laying down strict military law to the students in no uncertain terms. The habit of cutting Military was much too common, so a special class was arranged with attendance absolutely compulsory. That class was never held however, for when morning came the Captain's entire uniform was at the top of the flag pole, and the ropes were cut. It cost him just twenty five dollars to recover his property.

Rifle fire was a regular part of the course, coming on Friday as a usual thing. There was then no Converse Hall, Gymnasium or Cage, and the range was directly across the back campus—Old Mill to the pine grove, which still shows the marks of its early bombardments. Several cannon were kept in a shed over towards the site of the present city reservoir. These were seldom used, but on one night a secret few ran them out and fired a salute. In short order the greater part of the city was out in arms prepared to repel another British invasion.

An old barn-like wooden Gymnasium used to stand about where the West Annex now is. Physical Training was not at all popular, however, and to avoid unpleasant discussion over gym work some of the boys set it afire. Soon after a wrecking party equipped with ropes assembled and pulled down the charred skeleton. This done, the evening was still young, so someone suggested straightening the janitor's barn. This barn and house were located near the present boiler house. The ropes were promptly thrown about the ramshackle affair and the straightening begun. The enthusiasm was more than the old barn could stand, however, and it joined the gym.

In those days the janitor was permitted to pasture his cow on the college campus. During the day one of the students climbed to the belfry, hitched a wire to the bell and tossed it (the wire) down the outside of the Mill. When night came (at Hallowe'en) the wire was attached to the grazing cow. As the bell tolled the janitor and members of the faculty sought long and unsuccessfully for the students who were causing the disturbance.

DEAN PATTERSON HOLDS TEA FOR 1931 CO-EDS

Dean Marian Patterson had the women of the Freshman class as her guests at a delightful tea in the Red stone parlors Saturday afternoon from four until six. Ladies of the faculty stood in the receiving line with Dean Patterson. Members of Mortar Board, Senior honorary society, assisted in serving.

To enable the Freshmen to become acquainted more quickly, each girl was given a card on which to obtain the signatures of as many of her class mates as possible. Competition was keen and each guest soon had a wide circle of acquaintances.

Because the occasion brings the new girls together for the first time in a social way, the tea in honor of the Freshmen is rapidly becoming an institution of the opening week of college.

COACH MOORE PREPARES FOR DEBATING SEASON

Coach Lawton Moore is making arrangements for heavy schedule for the debating team this year. The schedule will include Middlebury, Norwich and several of the larger colleges. Although Mower and Wedell were lost to the team by graduation last June, four veterans remain, namely: Hince Leavens, Macomber and Sears. There is much excellent material in the Freshman class from the High School debaters of last year.

Undergraduates interested in law, business administration and religion will have the privilege to try out for the team soon.

Y. W. C. A. ACTIVE AT OPENING OF COLLEGE

The Young Women's Christian Association, under the leadership of Eleanor Davison, '28, entered upon another years of helpful service to the women of the University with the appearance of the 1931 Women's Handbook upon the campus last week. Ruth Westin '28, was editor of the publication.

The Book Exchange, inaugurated last year by Y. W. C. A. and conducted in the Inner Y room was changed this year in so much as that the books were not handled, but those who had books to sell were given the names of those who wished to buy books, the sale was effected at the charge of five cents. Constans Holden who supervised the sale and purchase of books, reported that about one hundred books were placed during the first week.

The members of the Cabinet are holding a retreat this week-end at the home of Eleanor Davison of 29 South Willard Street. The purpose of this meeting is to plan for the coming year and to assure the cooperation of each department in the work of the organization.

The officers of Y. W. C. A. as elected in March are as follows: Eleanor Davison, President; Eleanor Taft, Vice-president; Muriel Richardson, Secretary; Marion Potter, Treasurer; Dorothy Hall, Finance; Eleanor Taft, Membership; Catherine Eckley, Publicity; Elizabeth White, Meetings; Elizabeth Clark, Student Service; Alice Miller, Welfare Work; Mabel Pierce, Deputations; Ruth Westin, Editor of Handbook; Eileen Goodwin, Manager of Handbook; Lillian Marsh, in Charge of Candy Sales. The conference leader will be chosen from the girls who attended Silver Bay.

What price, Soccer? Colgate played Maryland at soccer and the total gate receipts were one dollar. They have it framed now.

Catamount Eleven Uncertain as Squad Leaves for Columbia

(Continued from page 1)

Not much has been heard from Middlebury and Norwich so little can be said at the present time about the State Series. Rice, who did so much damage to the Vermont line and ends last year, has returned to Northfield, and will make the Vermonters hustle to stop him when called upon to carry the ball October 29.

Vermont has a no-scouting agreement with Middlebury, Norwich, Springfield and Harvard, so the students are requested by the athletic department not to circulate any information which may be gained in one way or another about these teams.

The schedule:

Sept. 24	Columbia	There
Oct. 1	Harvard	There
Oct. 8	Williams	There
Oct. 15	Providence	Here
Oct. 22	Tufts	Here
Oct. 29	Norwich	There
Nov. 5	Amherst	There
Nov. 12	Middlebury	Here
Nov. 25	Springfield	There

P. A. is a grand little pal

PRINCE ALBERT is the kind of a smoke you get clubby with, right off the bat. You'll be calling each other by your first names after the very first pipe-load. It is so genuinely friendly, in spirit and in fact.

P. A. treats your tongue and throat as gently as a mother handles a new-born baby. Never a bite. Never a parch. These are details, of course. The thing you'll remember longest is that wonderful *taste!* So cool, so sweet, so soothing.

No matter how hard you hit it up, this long-burning tobacco never hits back. You can go to it before classes, and right through to Lights Out. Get yourself a tidy red tin of Prince Albert today. The School of Experience has never produced a greater smoke than good old P. A.

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

PRINCE ALBERT
—no other tobacco is like it!

LECHNYR PICKS SIXTY MEN FOR VERMONT'S CRACK R. O. T. C. BAND

Many Veterans Answer Call For First Rehearsal—Leaders Expect to Develop a Great Organization

As a result of comprehensive try outs held last week 60 men were picked to compose the 1927-28 University band. Many veterans of past years are among the successful candidates. With these men as a nucleus, Joseph F. Lechnyr, the leader of Vermont's crack band for several seasons, hopes to build up an organization of as great merit and recognized standing as its predecessors. According to a bulletin posted by the well-known leader the following men should report for band rehearsal, Tuesday, September 20, 1927, 4 p. m. at Converse Hall (Band Headquarters)

Cornets—Joseph Merola, Ivan Stanhope, Herman Strauss, Robert Tobin, C. M. Adams, R. S. Derby.

Altos—R. H. Curtiss, Fred Forth.

Clarinets—W. B. Clapp, F. B. Maynard, E. W. Davis, L. S. Peck, A. J. Perrotta, G. W. Colby, F. V. Rich, J. M. Moore, John Ireland, Robert Hyde.

Clarions—C. N. DeRose, A. W. Clain, J. G. Pekala, J. A. Eliot.

Basses—C. S. Paine, Carl Ramm, Theo. Clifford.

Trombones—L. E. Judd, Austin Howard, Clair Hesseltine, P. W. Kinney, C. S. Beyor, A. V. King.

Baritones—A. C. Johnson, C. E. Harwood.

Drums—Jim Kendrick, F. A. Sears, C. E. Reynolds, H. P. Dow, Joe Goldfarb, Robert Hendrick, Harold Adams, Maurice Pisson, Ed Fagan.

Saxophones—B. F. Clark, R. I. Buckley, R. G. Deshaw, Geo. Gould, A. Solomon, L. S. Turner, Thos. McLean, Fred Lynch, John Percival, Julius Belknap.

Flutes and Oboe—S. G. Hanson, Richard Cowles, M. B. Jenks.

Unassigned—Elson Barter, Harlie Chatterton, Gil Gross, Robert Huey, Ernest Mack.

All other candidates for the band should report Tuesday at 4 p. m.

During the first weeks of the college year mail that fails to reach its proper destination is left at the Y. M. C. A. office. From time to time notices are posted giving the names of those having mail. Keep watch for the notices and call for your mail promptly.

The Interfraternity Conference met at the Sigma Phi Place Tuesday evening to discuss fraternity open house nights and rushing rules. No definite action was taken, but in an early issue of the Cynic a schedule of dates will appear.

University of Ohio has a ban on dancing.—*Chronicle.*

YEARLING GRIDMEN BEGIN PRACTICING UNDER COACH RATTAN

Forty Candidates Answer Call of the Gridiron—Cubs Look Promising—Prep School Stars Battling for Positions

Captain Rattan called out candidates for the Frosh eleven Monday and received 40 men as an answer to his summons. Almost every prep and high school in Vermont was represented on the field and there will be a great fight for positions. The candidates looked promising for the beginning of the season, but they have a mammoth job on their hands to be able to turn out a team as good as the Frosh team last year. That team suffered only one defeat during the season and had the honor of being one of the best teams that has ever represented the Freshmen.

Coach Rattan looked over his material and gave them preliminary instruction in falling on the ball, blocking, calisthenics and passing. He will give them stiff work-outs and scrimmages starting the last part of the week. There were some fast and husky boys tossing the ball around who should develop into rugged Kittens.

With the first game against Troy Conference Academy, only a short time away the Rattanites will have to round into shape quickly. It is up to these boys to give the Black Panther Frosh another drubbing this fall. The latest reports from Middlebury proclaim that they have a wealth of good material which promises a tough fight for the local team. With a hard schedule ahead the Kittens will have to step to go through the season undefeated. Each of their opponents usually turns out fast and dangerous teams, the kind that cause a lot of worry. The Frosh schedule:

Oct	1	Troy Conference Academy	Here
Oct	8	Plattsburg Normal School	Here
Oct	22	Forth Ethan Allen	There
Oct	29	Middlebury Frosh	There
Nov	5	Clarkson Frosh	Here

TENNIS COURTS READY FOR VERMONT CO-EDS

The four new tennis courts, located near the Weather Bureau are ready for use. Classes in tennis will be held there every afternoon until four o'clock. After that time these courts may be reserved by women students by signing for them in the Y room.

The advanced tennis classes, coached by Miss Anne Baldwin of Essex Junction will be held on every afternoon at four except Fridays and Saturdays.

Advanced and beginners classes in horseback riding are being organized. The beginners will be instructed by Miss Dorothy Carpenter on Mondays and Wednesdays. Advanced riders will be instructed by Miss Marjory Hill on Tuesdays and Thursdays.

Tennis players may be interested to learn that the surface of the Grassmount court has been refinished and the court lengthened.

Freshman hygiene will begin on October 14.

For Sale—Bull dog. Eats anything, especially fond of children.

Clarence Darrow says that 999 out of 1,000 get a good time out of their college education and that the other one gets the real education.—*Hoya.*

FOGG EDITS ONE OF BEST HANDBOOKS IN YEARS

The Vermont Handbook issued each year for the guidance information, and benefit of the incoming classes, has long been an institution at Vermont. This year's book, under the leadership of Harold H. Fogg, Editor-in-chief, and assisted by Leighton A. Sander, Charles E. Harwood, John G. Medlar and Charles Overly, has some distinctive features which place it ahead of the previous issues. The material, though essentially the same, is rearranged in better sequence. A more complete athletic section is embodied in this year's issue. The most notable addition in this Handbook is a table of contents in the front of the book, which enables the Frosh to locate instantly his desired information.

One of these days it is going to be hard to tell a belt from a skirt.

A feather-weight touch
is all this pen requires—
Stop Pressing!

*And own a Pen that stays in Perfect Trim, or we Make Good Free**

The new model Parker Duofold introduces pressureless writing—and stays in perfect order. We agree your first cost shall be your last.

No hand can distort its point—yet it yields to any style of writing.

We spent 35 years on 47 major improvements. Made sixteen million Pens. Own 32 patents on Pens and 12 on Pencils and Desk Sets.

We discovered how to combine capillary attraction with gravity feed. Thus a feather-weight touch starts ink-flow; the light balanced weight of the Pen is almost enough to keep it writing.

Barrels are now of Parker Permanite—Non-Breakable—28% lighter than rubber formerly used. They come in jewel-like colors—Jade, Lacquer-red, flashing Black, Mandarin Yellow and Lapis Lazuli Blue—all black-tipped.

People are thronging the pen counters to sample this pressureless writing. Only one caution: look for the imprint, "Geo. S. Parker—DUOFOLD."

DENT SENATE VOTES TO PRESENT BUSINESS AT MASS MEETINGS

erning Body Also Considers hoosing of Cheerleaders— Balloting on Thursday and Friday

ent Senate adopted a plan matters of interest to the nts will be brought before mass ngs, at a meeting of the men's ning body held at the Phi Delta House last Thursday evening. was the first meeting of the year. considerable discussion, the Sen- decided that matters of interest student will be brought up at various smokers to be held dur- the year. This plan fills a long- need since the old Student Sen- was abolished two years ago. that time on all matters have before the Student Senate with exceptions. It has been generally that the monthly mass meeting ided for in the Student Senate rter should not be dispensed with. ng to the fact that no time is now wed during the week for student tings, because the time formerly wed has been transferred for pel exercises, there have not been mass meetings.

The governing body also considered way of choosing a cheerleader for coming year. As yet none has n elected. It was voted that all ndidates for the position should ap- ar before the students at the Frosh xer and lead cheers. This Thurs- y and Friday, the Senators will con- ct a poll for cheerleader. A ballot x will be placed in the lower north ll of the Old Mill. All men students e requested to participate in the oosing of the cheerleader.

ACULTY PERSONNEL IS INCREASED THIS YEAR

Several new members have been dded to the faculty of the University nce last year. The greatest number f additions is in the department of conomics. L. Douglas Meredith will e assistant professor of economics. le is a graduate of Syracuse Univer- ity and spent one year in assisting n the department of economics in hat university. Læland L. Briggs will lso be an assistant professor in the ame department. He is a graduate f the University of South Dakota, eceiving his A. B. in 1923 and in the ollowing year his master's degree rom the same institution. For two years he was professor of commerce at McPherson College. During the the college year 1926-27, Mr. Briggs was an assistant in accounting at Northwestern University School of Commerce. He received his master's degree in business administration from Northwestern in 1927. Miss Louise Morgan of Richmond, Univer- ity of Vermont graduate in 1925, will be instructor in the economics depart- ment.

In the mathematics department, P. A. Fraleigh will be an assistant rofessor. He received his A. B. in 917, A. M. in 1918, and his Ph. D. n 1926, all from Cornell. He has aught from 1919 to 1927 inclusive at Cornell University. Walter H. Sears who received his A. B. in 1927 from Harvard will instruct in mathematics. Morris A. Dolliver, who received his master's degree at the University of Maine and E. Allison Flood, who received his M. S. from Brown Univer- sity, will be the new instructors in chemistry.

Phillips Carleton, who received his master's degree from Brown Univer- sity, will be in the English depart- ment. Mr. Carleton spent a year in study of Scandinavian literature in Oslo. In the modern language depart- ment, Blanchard F. Rideout, Harvard 1927, will instruct in Spanish and French. Leon F. Groth, a graduate of the University of Wisconsin, will instruct in German.

Paul A. Moody, who received his doctor's degree from the University of Michigan, will be the assistant pro- fessor in zoology.

Mr. Arthur I. Andrews succeeds Mr. Charles R. Williams as professor of history. Professor Andrews, a gradu- ate of Brown University in 1901, has held the position of professor of his tory at Tufts and Simmons, professor of European history at the University

CYNIC EDITORS OPEN FROSH COMPETITION

All freshmen who are interested in trying out for editorial positions on the Cynic, are requested to meet with the managing editor in the Cynic of- fice Wednesday afternoon at four o'clock. At that time the Cynic sys- tem of competitions will be explained and the candidates will be given in- formation of interest.

According to a statement made by the editors, there will be four competi tions for the editorial staff. One will commence next Wednesday and end late in November. The second will be- gin at the close of the first and end at mid-years. The dates of the two others have not been set. Freshmen who enter the first competition will be given preference over others, in case of ties in their rating.

For the benefit of freshmen, the lo- cation of the Cynic office is in the Northeast corner of the Old Mill, off Room 4, the first floor.

DOLL RE-ARRANGING GEOLOGY SPECIMENS IN UNIVERSITY MUSEUM

Vermont Receives Old Japanese Armor and Uniform of Gen- eral Hayden, a Revolution- ary General From Connecticut

C. G. Doll, an assistant instructor in the Geology department is re-ar- ranging many of the specimens in the museum. All the minerals and stones are being placed separately and very carefully labeled. This enables any- one to clearly understand what each object is. One case has been devoted entirely to the display of native Ver- mont minerals, including granite, mar- ble, slate, etc. All the fossils are be- ing placed in a chronological order.

Recently the museum acquired a very fine suit of Japanese armor which it is estimated must be from three to four hundred years old. It bears a tag with the following in- scription: Bought by Lieutenant Karl R. Rahrer, U. S. N., in Nagasaki, Jap- an, 1883; Given by Rev. Louis A. Arthur class of 1872. The suit is kept in the cannon room in which all kinds of swords, guns, ornaments and an- tiques are very cleverly arranged.

Another article of interest is a gen- eral's uniform worn by Gen. Hayden of Connecticut during the Revolution- ary war. The suit is in fine condition considering its age and the numerous gold buttons which adorn it still shine brightly. It is a gift of Dr. Haskell S. Phelps from New York City, a former student.

The shrunken head, which is a real, human head of some Indian chief shrunk to a size not much larger than a fist has been placed in a very con- spicuous place. Many other objects of interest are to be seen.

Anyone is welcome to look over the museum at anytime they desire and there really should be a greater in- terest taken in it by college students.

About fifty children from St. Joseph's orphanage visited the mu- seum Thursday afternoon and were very well entertained for over two hours.

NORWICH LIFTS BAN ON TOBACCO SMOKING

The ban on smoking in the barracks of Norwich University has been lifted after being in vogue for many years. However, the cadet is still prohibited from smoking on the streets of North- field, on the parade grounds, and even in the stores of the town. It is no wonder that a celebration is in store for the cadets. An offender was not dealt lightly with if he were caught, as he received from one to fifteen de- merits and there were usually around ten or so given. What would the stu- dent body of U. V. M. or Middlebury do if restrictions as to smoking were placed upon them?

These new rulings have done much to change the social life of the horse- men and they may return to the plea- ures of the cigar and cigarette in their barracks.

JUNIORS

Class Meeting Wednesday at 4 in old chapel

WOMEN STUDENTS MAY SOON OUTNUMBER MEN IN ENROLLMENT HERE

Figures Show Women Have 33 More Students Than Last Year While Only 13 More Men Are Listed

According to estimates made by the registrar's office last week there are about 1322 students enrolled in the University this year or 46 more than enrolled during the entire year in 1926. In the academic colleges there are 35 fewer than last year but this difference over the previous year is made up by an increase of 16 Medi- cine students and 57 more students in the two-year teachers' training course. The majority of the increased teach ers' training course is women and combined with the women in the straight academic course threaten to outnumber the men students if the increase keeps up for many years. The increase in the number of women stu- dents is 33 while there are only 13 more men students.

Much sentiment is expressed why there are fewer college students taking the regular academic courses this year than there were last year. It isn't a sign than the University is getting fewer applications for entrance, be cause every year the number of appli cations exceeds the number of the pre vious year. It is quite probable that the standards of the entrance require ments, which have been raised within the past few years, have kept out many. The increased tuition has also played a small part in determining the number in the entering class.

Comparing last year's and this year's enrollment:

1926	Men	Women	Total
Academic Colleges	609	446	1055
Special Students	3	0	3
Teachers' Training	0	109	109
Medicine	99	8	107
Totals	710	566	1276

1927	Men	Women	Total
Academic Colleges	599	421	1020
Special Students	4	9	13
Teachers' Training	8	158	166
Medicine	112	11	123

LITERARY MAGAZINE TO APPEAR IN NOVEMBER

Vermont's new Literary Magazine will probably make its first appear ance just before the Thanksgiving re cess. Rachel Skinner, editor-in-chief and Charles Overly business manager, assisted by the literary board are do ing their best to produce a magazine which will be a credit to the Univer sity. They can and will succeed if they get the support of the student body.

Subscription tables were set up in the gymnasium Friday evening at the Mixer, and also all day Saturday in the Old Mill. A large number of sub scriptions were realized, but it is hoped that the students will continue to support the new magazine and that those who have not subscribed as yet will do so at the earliest opportunity. The subscription rates are one dollar a year for six copies, or 25 cents a single copy.

The first issue will contain some of the prize-winning stories which were written for the Intercollegiate and Tri-collegiate Literary contests held during the past year. More stories are wanted and anyone who is at all literarily inclined is urged to contrib ute to the magazine.

Shortly after the first publication there is to be a contest open to all students to determine a name for the new magazine. One year's subscrip tion to the magazine is offered to the winner in the contest.

NEWS IN BRIEF

Because of the chapel service Wednesday, the freshman stunts scheduled for that day were post poned until Thursday.

Gold Key will meet tomorrow at the Delta Psi House at 7:15. Delinquent freshmen will come as guests of the society, and may expect to be enter tained warmly.

The first class in History of Art I will meet tomorrow at two o'clock.

Sigma Delta announces the re pledging of David A. Huggett ex 30.

Sophomores who wish to scrub for the *Ariel* should signify their inten tions at once. Candidates for the edi torial staff may report to George H James, and for the business side to A R Birchard. Any who have had ex perience and would like to try out for the photographic department should see F. G Shedd. The board this year is going to put forth every effort to make their year book the best ever. The photographic staff have already secured some good snapshots of the freshman activities.

The Interfraternity Council will meet tonight at 7:30 at the Kappa Sigma House to hear the reports from the several fraternities on the pro posed changes in the rushing rules.

Classes in Dramatic Composition will meet the first half year instead of during the second semester, three o'clock Tuesdays and Thursdays in the afternoon in No. 1, North College.

Biblical Literature which is sched uled for the second hour Wednesdays will meet in the Marsh Room in the Billings Library.

Juniors who have not yet handed in a schedule of their free hours are requested to do so at once in order to facilitate the arrangement of ap pointments with the *Ariel* photogra pher.

Try-outs for the University choir for both men and women will be held in the Music Building Tuesday, Sep tember 27, from 4 to 5 p. m. and Wednesday, September 28, from 7 to 8 p. m.

CATAMOUNTS LOSE DEFENSIVE GAME AGAINST COLUMBIA

Morningside Eleven Piles Up 32 Points—Vermont Finishes Game With 10 Men

Vermont opened her football season last Saturday by being snowed under by the strong Columbia eleven. The final period found the Green and Gold on the short end of a 32 to 0 score. Had it not been for frequent fumbles on the part of the opponents the score might have been much larger. Vermont was able to gain only four yards during the entire game. She failed to hold the Morningside Lions for downs once throughout the con test.

The make-up of the Vermont eleven was much the same as had been used in practice sessions during the past week. The line consisted of Palmer and Sirois at the wings, Knapp and

JACK CONWAY
Quarterback on the Fighting Cata mount Eleven

Winchenbach tackles, Kropper and Burstein, guards, and Levine center. The two veterans, Smith and Conway, along with Mace and Estabrook made the backfield. During the last two minutes Coach McAvoy sent in his en tire second team which was made up of Leary, Robinson, Damon, Werner, O'Keefe, and Nelson in the line and Bray, Macomber and Kersey.

As this is Vermont's first game of the season and considering the fact that she was forced to face a veteran team this defeat does not indicate the full strength of the Green and Gold eleven. Columbia has hundreds of men to pick from while Coach McAvoy has to be content with about twenty good men. Also the fact that our *dear* friends down at Northfield suffered a severe defeat at the hands of the "Big Green" is a consoling fact.

Vermont Makes No First Downs

Not a first down was made by the Vermonters and not once did they hold the New Yorkers for downs. They took the ball twice on a fourth down, each time because a Columbia forward pass close to the goal line did not work.

Cornell, the Columbia right tackle, took Vermont's opening kick-off and ran it back to his 46-yard line, and in driving line plays Columbia slowly forced an advance up to the Vermont 40-yard line in two first down. Rieger went through the middle from here for a distinct gain and planted the ball on the 20-yard line. Columbia ran the tackles a good deal on cross slants, but on the 5-yard line Cornell was thrown for a loss running to right end. Two forward passes by Rieger were missed down there and Vermont took the ball on downs after an advance of eighty yards.

Columbia's first touchdown came soon after that. The Lions got the ball on a fumble on the Green's 24-yard line. Hanley and Rieger plowed through for lengthy gains and Madden crossed over through right tackle for a two-yard gain and touchdown. Mad den kicked the goal.

Rieger's Score Nullified

Following the kickoff and a penalty for Vermont, for which Dave Foltz lectured Winchenbach, the right tackle Hanley slipped around right end for fifteen yards with quick, well formed interference. The first period ended near Vermont's goal. There it was lost on a fumble and the sec and quarter opened with Vermont trying to carry it back, which was wasted energy against Columbia's de fense. Vermont punted to Rieger. With the play within striking dis tance of Vermont's goal line, a fumble cost the Blue possession of the ball but Vermont ran into another penalty.

Second Prize . . 75
Third Prize . . 25

Seven Equal Prizes
(fourth to tenth)
Choice of Parker Duofold Junior Pen or Lady Duofold Pen

CONDITIONS OF CONTEST

1. Contestants must be duly registered students of a University, College, or High School. Only one entry permitted from each contestant.
2. Entries are to be mailed before October 25th, 1927, to—Contest Judges, The Parker Pen Company, Janesville, Wisconsin.
3. Judges will be: R. B. Henry, Mgr. Stationery and Book Dept., Carson Pirie Scott & Co., Chicago; H. B. Fairchild, Adv. Mgr., N. Y. Sun, New York; L. A. Crowell, Pres., Crowell, Williams & Co., Inc., Adv. Agency, Chicago. Their judgment shall be final.
4. Prizes will be awarded to the ten having highest merit. In the event of a tie, equal prizes will be awarded to both or all contestants tied.
5. All contributions submitted become the property of The Parker Pen Company, and no entries will be returned to the sender.

Improvements unknown until recently are introduced in the New Model Parker Duofold—Non-Breakable Barrel, and Pressureless Point by means of capillary flow, combined with gravity feed. We spent 35 years on 47 improvements—made 16,000,000 pens—own 32 Pen Patents besides 12 on Pencils and Desk Sets.

How would you advertise this pen? Give us your ideas. Write an ad and win a prize.

Seven well known advantages of the Parker Duofold are told here. The new one—announced April 1st—Factor number 8—is missing. If you find it—if you write an advertisement including it with the following seven—you may win as much as $100 cash or one of nine smaller prizes.

Here Are 7 Factors!

Can you find number 8?

1. Pressureless Point—starts and writes at feather-weight touch—extra strong because of extra thick gold. But tempered so it yields to any hand yet never loses shape.

2. Non-Breakable Barrel—now made of Parker Permanite—28% lighter than rubber formerly used—hand sized, and perfectly balanced.

3. Instant Ink Flow—tip always moist. Capillary attraction combines with gravity to produce pressureless writing.

4. Over-Size Ink Capacity—writes longer on one filling.

5. Duo-Sleeve Cap—a positive safeguard against leakage when cap is kept on tight.

6. Press-Button Filler—concealed inside the barrel out of sight, out of harm's way.

7. Beauty Rivalling Colorful Jewels—lustrous Black-tipped barrels in Jade, Lapis Lazuli, Mandarin Yellow, or Lacquer-Red. Also plain Black and Gold.

8. The Missing Factor! . . What is it?

Try Parker Duofold at your dealer's and ask him about the missing factor. You do not have to buy unless you can't resist. Either way—write an Ad and win a prize. Note conditions of contest.

MARION EVEREST EDITS ATHLETIC HANDBOOK

The editorship of Marion ... with Marion Backus '29 ... Cottrell '29 as associates, ... Handbook of the Women's ... Association was issued dur... week. The book, somewhat ... than that of last year, is ... edited.

... such as the group picture ... W. A. A. Council, and scenes ... tennis court, hockey field and ... of the target, together with ... Old English script, add to ... attractiveness and appeal of the ... Handbook.

... volume includes at the end the ... manship Code of Vermont ... which is reprinted verbatum ... follows:

"Sportsmanship may be defined as ... one's best into everything one ... undertakes and living up to the following ideals:

... dealing. The give and take ... principle.

... lute honesty and cooperation.

... tesy and thoughfulness for ... others.

... yalty. Play the game according ... the spirit as well as the letter of ... rules.

... self-control, self-restraint, self-discipline.

"Honor the game you are playing, for he who plays the game straight and hard, wins even though he loses."

COLLEGIANS PREFER ENCLOSED AUTOMOBILES

Cars, cars and still more cars came back with the largest number of students which has ever been enrolled at Vermont. While a few years ago, even last year, the college car was a stripped-down affair of considerable age, the local collegians are now sporting the best that Dad's money will buy. Enclosed cars with bodies by Fisher are by far the most popular, but other makes are not out-rivaled. The product of the Detroit billionaire are not in favor now, despite their great run during the past years.

With the overwhelming number of motor vehicles on the campus, interest is being turned to the traffic problem it creates. Whereas the South Walk was a subject of considerable ... on until a cement walk was laid ... swamp last spring, the heavy ... traffic at southwest corner of the ... is fast assuming importance. ... and the members of the two ... fraternities on Summit Street must carefully watch their step when they attempt to pass this corner at the end of the last morning hour. The motorists—students and others—are apt to step a little to heavily on their accelerators as they pass this four-corners and the scream of co-eds, the clash of crumpling fenders and the grating of brakes are not infrequently heard here. There has been some agitation to have Gold Key detail some erring frosh to the post of Traffic Officer on the southwest corner.

Intercollegiate News

2,000 Co-eds recently voted the home-loving man to be superior to the cave-man style.

In a recent editorial in *Tech News*, objecting to the name "Aftermath" for the year book of W. P. I., reference is made to the year books of other colleges. "Most colleges have books which mean something. Vermont has its *Anvil*, Cornell its *Cornellian*, Dartmouth has its *War Whoop*, M. I. T. its *Technique*, Army its *Howitzer* and Navy its *Lucky Bag*.—Books carrying names that mean something and tie it up immediately with the college at which it is published." While Vermont appreciates recognition, it is but just that we make the correction, *Ariel* instead of *Anvil*.

New Hampshire University celebrated Mother's Day by inviting their mothers to be their guests the week-end of May 7, and the girl athletes of the University took part in the sports program Saturday afternoon.

The New Hampshire says—"The success of this second Mother's Day will go a long way toward establishing the event as a custom and tradition for the University."

At last the college man has a defender! *College Humor* has decided to show the college man as he really is, on visiting colleges. Also moving pictures will be taken of students and campus.—*Rochester Campus*.

Miami University Band is on strike due to the lowering of credit by faculty from two hours to one.

MORTAR BOARD HOLDS ALL-COED OUTING

Little sister ... [illegible] ... ever! Yes, in fact ... down on the shores of Lake Champlain just about sunset on Thursday for the Mortar Board picnic supper, which was without doubt the most enthusiastically attended and successful ever staged in the history of the women's activities.

Approximately 450 girls witnessed the class stunts and stood patiently in the bread line while Mortar Board members doled out the goodly rations of frankfurters, rolls, pickels, doughnuts and coffee.

The antics of the Eskimard, of the Golfer-Husband and of the Hicktown superintendent, delighted the audience; but the Juniors' interpretation of "Jonah, Go to Ninevah," won the special approval of all. The judges announced their decision in favor of the class of 1929.

As a fitting end of the fête, the girls, everyone a "daughter of Old Vermont," formed an immense circle around the fire and sang; and the beautiful melody of "Champlain" was carried far and wide, while the sparks flew like sky rockets into the sky, the lights in the city flashed on far down the shore and a September twilight deepened into night.

OMICRON NU TREATS HOME EC FRESHMEN

Home Economics Freshmen and transfers were introduced to the Practice House Friday evening when they were guests of Omicron Nu, Senior Honorary Society, at a buffet dinner.

The girls were given the opportunity of meeting the faculty of the Home Economics Department, who were also guests of Omicron Nu.

Miss Terrill gave an interesting account of the history of its mansion, of its compartively recent remodeling and refurnishing. It was found that four members of the class are from New York State, three are from New Jersey, two from Connecticut and one from Massachusetts.

COACH COLLOPY HOLDS BASEBALL PRACTICE

Candidates For Positions On Varsity Nine Are Called For Annual Fall Practice in Cage

Baseball manager Sabin Abell announces that the usual fall practice will start the first Monday in October. This year the fall baseball session is more important than ever before due to the fact that the personnel of the varsity are all seniors. The object in this practice is to develop hitting and to develop a good second string team. This should be of especial interest to the Frosh and other reserve men as there will be plenty of empty berths due to graduation this year.

The practice this fall will be held in the cage, in the rear of the Gym. This place is chosen as last year the baseball practice conflicted with the football practice at Centennial Field. Assistant Coach Collopy will direct the aspirants during the practice. In previous years this time has been spent to little advantage, however, plans for this year are going to make it worthwhile due to the necessity of a strong second team.

COLLEGE HUMOR

First Co-ed—But don't you find that horseback riding gives you a headache?

2nd Co-ed—No, my dear, just the reverse.—*Daily Northwestern*.

Sometimes the cream of college humor is only scum.
—*Heidelberg University*.

Darling, you are the most beautiful woman in the world.

O Harold, how quick you are at noticing things!—*Temple University*

"Yes" remarked Prof. Miller, as he gazed affectionately into the mirror, "all great men are dead, and I am getting sick."—*The Y News*

George: Were you out last night?
Red—Well, not completely
—*The Y News*

Sister steals my matches,
Sister steals my gin,
When sister says her prayers in church,
I meet her eye and grin.
—*Springfield Student*.

Y. M. C. A. INTRODUCES '31 TO COLLEGE AT MIXER

The Frosh Mixer was held at the ... Friday evening, September ... for the purpose of introducing the Freshmen ... to the campus social world. As is customary the Y. M. C. A. was the sponsor of this first social event of the season. An unusually large crowd was in attendance, due probably to the fact that the early part of the evening was devoted to giving the football squad a rousing send-off on its scheduled game with Columbia University of New York. The University R. O. T. C. Band was also present to aid in the singing of old Vermont songs. Short talks were given by Coach McAvoy, Captain Jack Smith and others expressing their confidence in the ability of the team. As the last and by far the loudest cheer died away, the whole squad of a score of men filed out of the gym preparatory to leaving for the station and taking the sleeper for Morningside Heights.

The latter part of the evening was given over to dancing. An orchestra led by Allen Johnson furnished very creditable music. Tickets were sold for Scabbard and Blade and the proceeds were used for the Y. M. C. A. treasury.

At the new John Wesley college dances, tobacco, athletics, fraternities, and liquor are taboo. Why not ban the college students as well and make a good job of it? —*Johns Hopkins*.

Will Rogers recently said that men needed narrower pants and broader minds.

Pupil: Do you know why an ... is ... defeated?
Lady: No, why is it?
Pupil: Because it gives ... something that ought to ... a good ...

Give me an example of period fortune.
Well, I should say an electric chair, because it usually ends a man's career.

To smoke wisely and well, choose Camels

THERE'S an irresistible reason for choosing this famous cigarette. Not for its popularity alone, but for that superior quality that produces it.

Camel wins its prestige with modern smokers by forthright value. It is rolled of the choicest tobaccos that money can buy, and its blending is the taste and fragrance triumph of tobacco science.

The Camel smoker is tobacco fit. He has the best, with no scrimping or denial of cost. There are no four-wheel brakes on Camel; no brakes at all. It is full speed ahead, straight for quality.

Select Camel for smoking pleasure, and you'll join distinguished company. Particular, modern smokers have elected it on the principle of superiority.

JUNIORS ELECT JAMES AS NEW ARIEL EDITOR

Faculty Personnel is Increased This Year

(Continued from page 1)

The new instructor in art will be Edith C Hopkins, who was graduated

Prof. What color is best for a bride?

Stone. I prefer a white one. *Ex.*

"Here's my sediments," said the spectator as he looked down into the attitude. *E.*

Two universities, namely, Penn State and Ohio State have their own police departments.

Faith, Hope, and Love—these three; and the greatest of these is what puts an end to many a college education. —*I. P.*

JUNIORS ATTENTION!

Will all Juniors who haven't signed on a list of their free hours see Jerry Ladue or Arthur Birch ard please do so at once. A representative from White Studio of New York City will be here October 1 to do the work. To insure uniform pictures in the Ariel it is essential everyone to have one taken at the same. A registration fee of about 75 cents will be charged at the sitting but which latter will be credited on all orders for photo purchases. Six will be taken of each student and free retakes when desired. The finest workmanship at a nominal fee. Satisfaction guaranteed. A list will be posted giving a definite time for each sitting. Please go in turn or if it is impossible notify the Editor or Manager at once. Watch the boards.

TO OMIT GAUNTLET FOR DISOBEDIENT FRESHMEN

It has been customary in the past to hold a gauntlet for Frosh disobeying rules during initiation week. This gauntlet was held on Saturday mornings during the half hour between 10 o'clock and 10 30 o'clock which used to be a free period. This year due to the mid-week chapel exercises there is no time between classes on Saturday mornings and the holding of a gauntlet has been impossible.

James McNally of the Lambda Iota fraternity and John Armstrong of the Vermont Independents failed to return to college this year leaving two positions which must be filled in order to have the required number of members in the society.

The society will hold a meeting at the Delta Psi House Wednesday evening at 7:15 o'clock. Disobedient Frosh will probably meet their doom at this time.

COLONEL BLACK NAMES CORPORALS FOR LOCAL INFANTRY BATTALION

Commandant Appoints 41 Sophomores to be Non-Commissioned Officers—Cadet Officers Not Yet Selected

Colonel Black, new commandant the University battalion announces a list of 41 sophomores, who have been designated corporals. The commandant is busy reorganizing the battalion for the coming season in preparation for the stiff federal inspection in the spring. As yet the cadet officers have not been assigned to their companies but it is expected that an announcement naming the officers of the battalion will be forthcoming before long. Corporals holding positions in the band have not yet been announced. The corporals as announced by Colonel Black are:

Corporals to Company A.—Arnold, R. H., Borkland, H. R., Bray, H. T. Chilson, J. W., Dorey, G. D., Frost O. T., Knapp, A. W., Martin, A. M. Reed, F. J., Steele, C. A., Vignone D. J., Allen, F. W.

Corporals to Company B.—Aronson, A. O., Bradish, J. A., Chaffee, N. K. Emmons, J. E., Gray, N. B., Knight P. H., Gourson, Morse, C. L., Robbins, P. S., Stewart, R. L.

Corporals to Company C.—Ball, G. E., Bruce, H. G., Conlin, A. G., Frechette, A. L., Hawley, R. G., Mace, C. H., Perry, P. M., Robinson, P. E., Topping, C. L., Woodward, A. E.

Corporals to Company D.—Beckley, F. E., Levine, H. B., De Rose, C. N., Freedman, S., Kersey, W. R., Macomber, H. M., Sirois, A. G., Tryon, R. H., Woodward, F. H.

VOLUME 46 — BURLINGTON, VT., FRIDAY, SEPTEMBER 30, 1927 — NUMBER 3

VERMONT TO PLAY HARVARD SATURDAY

Catamounts All Set to Give the Crimson a Tough Fight—Scutakes May Start In Backfield

STRENGTH OF HARVARD VARSITY YET UNKNOWN

Vermont will take on the strong Harvard eleven at the Crimson stadium tomorrow. With one defeat under her belt the Green and Gold is out for revenge and although the Catamounts hardly expect to turn the tide on the Crimson, the team is out to make a much better showing than was witnessed last Saturday against the Morningside Lions.

Coach McAvoy has already ironed out some of the rough spots that cropped out in the Columbia game. The line-up will be the same as started in the opener with the possible exception of Scutakes who may start in the backfield in place of either Estabrook or Mace.

According to all dope the strength of the Crimson squad is an unknown factor but nevertheless any coach ought to be able to pick out eleven men who at least know the essential rules of the game from a squad of about two hundred men. On Monday the Harvard camp took on new hope when Wetmore the scrappy quarterback on last year's frosh team reported for practice. It was through his outstanding playing that Harvard beat Yale for the first time since 1919 when Buell and Owen led the Crimson attack. At present he will have to be contented with light workouts as he is still weak from a recent operation. Wetmore, who weighed only 145 pounds when he led the freshmen a year ago, looked Monday as if he weighed only 130 and he might easily have been taken for Eliot Putnam the famous Crimson star.

At present Dana Kelley is first string quarterback. On Monday he led the varsity against the scrubs and they had little trouble in winning 43 to 0. During this scrimmage in which three different varsity teams saw action the work of Everett Donaghy was the outstanding feature. He scored 16 of his team's points mainly by his excellent work in the overhead game. The final touchdown came after he had intercepted a forward pass and raced 70 yards through the entire scrub eleven for the last score of the scrimmage.

At present the Harvard varsity is composed of 40 first string men. These are: Ends—Lord, Strong, Prior, O'Connell, Combs, Douglas, Lewis, and Packard. Tackles—Pratt, Clark, Barrett, Levin, Alcot and Davis. Guards—Simonds, Parkinson, Shariro, Stewart, Tripp and Movius. Centers—Turner, Bell, Bigelow, Shaw and Dorman. Quarterbacks—Kelley, H. Burns, Jones, Brown and Wetmore. Halfbacks—Crosby, Guarnaccia, French, Mason, Donaghy, Holbrook and Harpers. Fullbacks—Moore, S. Burns and Hitch.

Most of the Green and Gold's workouts this week will be confined to signal drill and tackling. Barring serious accidents the Vermont line-up will consist of Conway at quarter, Captain Smith at full, Estabrook and Scutakes at the halves. The line is still a bit uncertain with a hard fight going on for the wing positions. At present Palmer and Sirois look like the winners but both Leary and Gourgeau will probably see action before the game is over tomorrow. Another hard fight is also going on for the guard positions with Kropper, varsity guard last season, having all he can do to hold the position against Werner a second string man in '26. Bachman looks like the logical man for the other guard position. Winchenbach is sure of one tackle while Knapp and Burdeen are fighting it out for the other side of the line. "Bump" Levine is sure of starting at center and looks like a big improvement over last year.

More pupils in United States high schools study Latin than all the other foreign languages combined.

Senior debating for the men began today. The women do not debate. Instead they are required to write an essay apiece on any informal subject. The essays must be in by October 1 in order to get full credit.

The busy Juniors are now arranging for individual pictures for the Ariel

BUTTERFIELD ELECTED LEADER OF FRESHMEN

At a meeting of the Freshman class held Monday afternoon at four o'clock in the Old Mill Chapel, Harvey Butterfield of Burlington was elected president, Carolyn Whitney of Essex Junction vice-president, Morton D Bolton of Pelham, N Y., treasurer and Janice E Davis of Wallingford, secretary

The president was authorized to appoint a committee to draw up a constitution for the class The committee appointed Rebecca Seaver, Carolyn Whitney, Miss Willard, William Loudon, Morton Bolton and Samon

FRATERNITIES HOLDING OPEN HOUSE SATURDAY EVENING FOR FRESHMEN

Every Social Fraternity Invites Members of Class of '31 To Visit Their Houses On Nights Specified

Open house nights are again being held by the Vermont fraternities All the fraternities join in extending the freshmen an invitation to visit the homes of the social societies The dates when the new men may visit the fraternities are given in another column of this issue. The fraternity houses are sometimes difficult to locate for one not acquainted with the University. For the convenience of these men the Cynic publishes the following guide. The locations of the houses may be best indicated by groups; for this reason the classification which follows is used.

There is the group on Pearl Street Lambda Iota House is located at the west corner of North Prospect and Pearl Streets opposite the Medical building. It is at 440 Pearl Street Further down Pearl Street, facing Williams Street is the Kappa Sigma House, 394 Pearl Street.

Sigma Nu Lodge is located in the westerly side of Williams Street between Pearl and College Streets The number is 57.

On College Street are located four houses. Coming down from the campus on the right hand side is the Sigma Phi Place at the corner of College and Williams, and nearly across is the Phi Delta Theta house, number 439. On the right hand side continuing down, at the corner of South Willard Street is the Phi Mu Delta house, number 368. Nearly opposite at 349 College Street is Alpha Tau Omega

Crossing south to Main Street, one finds, down the hill a short distance, Sigma Delta. They inhabit a brown building, a little set back, at number 316 Main Street.

Ascending Main Street to Grassmount and taking the street to the right, Summit Street, one will have little difficulty in finding Sigma Alpha Chi and Delta Psi, facing each other, and both of which are large stone and brick buildings.

Proceeding from Summit Street, take Prospect Street going north and the second street past Pearl Street is Henry Street, where the Zeta Chi house is located Going down on the right hand side the house is at number 62.

Tau Epsilon Phi, the Jewish national fraternity, is north of the Medical building, on Wilson Street, which is at right angles to North Prospect Street.

MARTINETTI AND MORSE ADDED TO CYNIC STAFF

Odino Martinetti '30 and Clifton Morse '30 were made members of the Cynic board at a meeting of the editors held last Tuesday afternoon at the No. 22 North College Both men have been received as a result of the competition held last spring Martinetti is from Barre and he belongs to Phi Mu Delta. Morse is a member of Sigma Phi

Several Freshmen attended a meeting called at four o'clock in the Cynic office in answer to a call for scrubs Any other men who have a desire to try out for positions on the Cynic board are requested to be at the Cynic office at four o'clock this afternoon. All men reporting this week are eligible for the opening contest which is expected to last for two months

COACH E R LATTY

Ex Bowdoin star, who has put the Catamount track team on the map

Track Dope

By E. R. L.

CROSS COUNTRY

The Green and Gold cross-country candidates are reporting to Coach Latty every day who is putting them through a strict training in preparation for the meet with Middlebury in November.

Prospects for a prosperous hill and dale'r's team to represent Vermont this year are very slim due to graduation and scholastic standings The burden will fall on O. T Wood and "Reg" Arnold to place this year, unless some other first class material puts in its appearance pretty soon

O Martinetti had an operation this summer thus leaving him in poor condition to run and it is doubtful if he will be in trim by the time of the meet Other men who are out daily are E. Rowe, Hammond, Lind and Clain

The Frosh team has a few shining lights with such men as Davis, Carrington and Blakely going through the daily routine The Frosh have a meet pending with the yearlings from Middlebury, which is also to be held in November, if arrangements can be made

Coach Latty will welcome any new material that would desire to come out and try to learn the art of cross country All material reports to the gym every day at 4.00 p m

COLLEGE "Y" CONDUCTS EMPLOYMENT BUREAU

During the first two weeks of college the employment department of the Y M C A has been quite busy In 14 days 35 jobs by the hour have been put out which have brought to the students doing the work a total of $78. Six students have been placed where they may earn a portion or all of their room and board which figured on a yearly basis means at least $1 800 Also several fellows have been placed in steady positions paying from $3.50 and up

It is hoped that every fellow in college who needs employment will avail himself of this service. We will do our best to secure employment. At present only thirty-one fellows are signed up for work by the hour If at any time there is a change in your address or telephone number be sure to notify the Y office

FOUR MEMBERS ADDED TO MEDICAL FACULTY

The faculty of the Medical College has been enlarged by four new additions

Anthony Alonge, who will be the instructor in physiology and pharmacology He received his B A from Syracuse University and his M A from Columbia

Thomas B Parks who is the instructor in physiological chemistry He received his A B from the University of North Carolina and an advanced degree from Ohio State University

Embree R Rose who will be the assistant professor of physiological chemistry He received a B A from the University of Indiana and his M A from Harvard

Dr John A Jenney will be the assistant professor of anatomy He received the degree of B S. from Notre Dame University and his M. D. from St. Louis Medical School.

Interfraternity Council Sets Dates of Open House and Rushing Nights

Proposed New System of Giving Out Bids Rejected—First Open House Night Set For October First—Rushing Party Dates and Pledging Night Changed

The Interfraternity Council met Tuesday night at the Kappa Sigma house and after rejecting a new plan of governing the rushing arranged a schedule of open house nights and rushing dates similar to that of last year The defeated plan provided that instead of a formal bid, the freshman would be given an "invitation" to visit the house of the society that was considering pledging him If the freshman received more than one "invitation," he would go first to the fraternity which was his first choice, there he would remain a half hour or longer if he was offered and accepted a pledge pin If he was not pledged, he would then go to his next choice, for half an hour and so on until he joined a fraternity

The differences between last year's schedule and this year's as fixed at the meeting Tuesday, consist in changes in the days of the rushing parties and of the pledging The parties will be held on Monday, Tuesday, Wednesday and Thursday instead of the last four days of the week and the bids will be given out on Friday instead of Sunday It was the complaints about Sunday pledging made by townspeople to the administration that necessitated this revision of the program

The dates set for this year are as follows Open house nights, Saturday, October 1, Wednesday, October 5, Saturday, October 8, Wednesday, October 12 and Wednesday, October 19 The rushing dates will be given out on the Friday following the last open house night, October 21 The rushing parties will be held on Monday, Tuesday, Wednesday, and Thursday of the next week, October 24, 25, 26 and 27 Bids will be given to the Freshmen on Friday, October 28

The Rules

The rules formulated by the Interfraternity Council to govern the rushing are as follows

I Beginning with the first day of football camp, no fraternity or fraternity man shall entertain, discuss fraternity matters with, or extend invitation to membership to any Freshman or new student, until the end of the neutral period after regular bidding time except at open house nights or rushing parties as explained below (The word entertain is interpreted as meaning accompanying at movies, dinner engagements, out-of-town athletic contests, etc.)

II No Freshman or new student shall be allowed in any fraternity house between aforesaid dates, excepting open house nights and rushing parties

III The Interfraternity Council will designate five evenings in October when fraternities may welcome Freshmen at their houses or rooms from seven to ten in the evening Entertainment shall be limited to "smokes," and no fraternity matters shall be discussed at these meetings Personal invitations to open house nights may supplement the general invitation to all students

IV On the Friday following the last of the open house nights, Freshmen shall assemble at 4 p m in the chapel in the Old Mill to receive date cards from representatives of different fraternities A member of the faculty who is a disinterested party and yet competent shall be designated by the Conference to meet the Freshmen as a body and to make such explanations to them as are necessary before they go through the line

V During the following week rushing dates, four in number will be held on Monday, Tuesday Wednesday and Thursday evenings from 6 to 12 p m No fraternity shall make more than one date with any one Freshman

VI From 12 p m Thursday after the last rushing date, until 6 p m Friday shall be a strictly neutral period during which time no active or associate member of an organization belonging to the conference shall hold any communication whatsoever with new students

VII At 4 p m on the Friday following the last rushing date the members of the conference shall meet and bring all their invitations in sealed and addressed envelopes, said meeting to be held in the room in the Old Mill designated by the President of the Conference Within each envelope shall be only the printed form of the invitation properly filled out and an unsealed envelope with the address

(Continued on page 2)

VERMONTER'S CLUB HAS PARTY IN GYMNASIUM

The first Vermonter's Club party of the year will be held tomorrow evening at 7:30 (in the University gymnasium). Because the occasion provides opportunity to meet and know the girls with whom one comes in contact many times throughout the year, the party is one of the highlights of the Club's calendar. At these gatherings custom dictates that each upperclass girl bring her little sister This year a new feature will be introduced in the form of stunts put on by each dormitory

The committee in charge, with Charlotte Stone, president, as chairman, promises one of the best parties that has ever been put on by the organization.

COLONEL G. J. HOLDEN SUCCEEDED BY COLONEL BLACK AS COMMANDANT

Retires From Army Life After Serving at Vermont Eight Years—Colonel Black Formerly With 97th Division

Lieutenant-Colonel Frederick S Black, of the infantry, will succeed Colonel George J Holden, October 1, as commandant of the University R O T C Colonel Holden, who has been connected with the Military Department of the University for the last eight years with the official title of Professor of Military Science, expects to retire from military life

Colonel Holden states that he has no definite plans for the future and he will continue to reside on South Union Street He is connected with a new firm known as Soda Luncheonettes, Inc., but does not expect to devote all his time to that business

Lieutenant-Colonel Black, new commandant, is a native of Maine He graduated from the United States Military Academy at West Point in 1902 Col Black served a three year tour in the Signal Corps, having graduated from the Field Officers' Corps of the Army Signal School in 1913 He also graduated from the field officers' course in Infantry at Fort Benning, Ga., in 1924 The new commandant also is a distinguished graduate of the School of Line at Fort Leavenworth in 1923 and the Army War College at Washington, D C., in 1924

More recently he was on duty with the 97th Division, stationed at Bangor, Maine He came to Burlington last June when he assumed duties on the staff here

LITERARY MAGAZINE MAKES GOOD PROGRESS

Work on the new literary magazine has progressed rapidly. At a recent meeting of the staff of the paper at the Theta House last Monday evening, bids were received from the various printing houses and the job was awarded One of the features of the magazine is the printing of the prize winning stories and poems of the tri-state literary contest of last year. The periodical is to be a six by nine sheet and has about forty pages of reading material The first issue is to come out on the first of November

Subscriptions are being taken by the members of the staff Contributions of stories, essays, or poems will be received at any time A page of original humor will be an attractive feature All contributions should be written legibly in ink or typewritten

Janice Goodrich '30 was elected, at this meeting, as poetry editor of the magazine Miss Goodrich who was one of the prize winners in poetry last year has written for several Vermont publications She is also a member of the Cynic board

Announcements will be made later as to the contest for naming the magazine.

HATS OFF TO THE TEAM

Last week the Green and Gold met [illegible] and was defeated. No one [illegible] Saturday. The game was [illegible] what [illegible] thought [illegible] between the results of this [illegible] game. True enough, our team [illegible] but just often does any team "do"?

Although the fact has been often [illegible] before the students [illegible] the game is played, [illegible] we wish to call to the attention of the student body [illegible] regarding the success [illegible] Vermont football team [illegible] the football field many outstanding [illegible] would be the matter that there would be any cause for comment. All over [illegible] Vermont [illegible] up against hot [illegible] that have a far larger [illegible] from which to pick [illegible] teams that should have caused much added comment than the public has given. We have no real claims to fame in the line of gridiron. We admire fair play in the way we meet our opponents and we always work how to overcome the [illegible] regard it as a purely [illegible] contest. Mathematically thirty [illegible] millions of times greater than anything [illegible] that is not the way to regard the [illegible] in the case of the Vermont [illegible] or any other game.

We like to move up against the big [illegible] we like to associate with [illegible] Why we do we cannot say but the fact remains. So we [illegible] attempt to put up against [illegible] in many cases are fed to them [illegible] at all. If our men were [illegible] real Vermonters with a spirit better than most of us, they [illegible] the proper attitude by the way they do. We are proud of them.

We cannot too much emphasize the importance and need of cooperation between every student and the Cynic. We want criticism though not that of our best friend but of every group. We want to know your ideas of college life, your reactions to the various experiences encountered and with these we expect to find suggestions for changing, altering or reconstructing the present ways of doing things. There is a desire in the heart of every true Vermonter to see his University come forward to an ideal to rise above the limits it has now really entered into. The most important [illegible] to those ends is through the sentiments of the student body. [illegible] the real [illegible] the [illegible]

[illegible] college publications we may mention the new magazine that is being [illegible] this week. This [illegible] magazine has a [illegible] and worth while [illegible] but a short [illegible] has been [illegible] that of a [illegible] for [illegible] them, as in this case, a campus wide [illegible] forward from [illegible] every [illegible] and literary magazine has in the past upset the routine of the former to a terrific degree, added many gray hairs to Cynic editors, and yet has not been able to do justice to the literary qualities found in our midst.

But with the present enterprise there seem to accompany none of the obstacles of the past. Details of procedure, both business and literary have been carefully gone over, and [illegible] have come into our right—we have a literary magazine. Now let's support it.

Council Sets Dates of Open House and Rushing Nights

(Continued from page 1)

[illegible] fraternity upon it. The [illegible] shall [illegible] represented by [illegible] representatives of the [illegible] conference assembled in the Freshmen presenting [illegible] and Confections. In a room adjoining the Conference room each Freshman shall fill out the blanks, "I accept," or "I do not accept your invitation to membership;" and [illegible] invitation in the envelope addressed to the inviting fraternity and return same to the Conference room.

On the day of pledging, when the invitations are being given out fraternity men will remain in their [illegible]

Every invitation shall be in writing, and upon printed forms furnished by the secretary of the Conference. Invitations not accepted shall be returned. This does not apply after pledging day.

VIII Every pledge shall be valid for a period of seven months unless terminated by the pledging fraternity.

Any fraternity directly concerned with a person, who is pledged at another college but before being initiated transfers to Vermont must ratify or disclaim such pledge within ten days after the arrival of said pledgee. The fraternity may ratify or disclaim said pledge by reporting same to the President of the Conference.

IX All pledgees shall wear buttons, unless pledging shall be declared irregular by the Faculty Council, and they shall be strictly honored by all fraternities. It is herewith expressly stated that the Faculty Council alone shall have power to declare a pledge irregular or unlawful.

X Penalties for the infraction of the Rushing Rules will be administered by a Faculty Council comprised of five members of the faculty who are members of fraternities which do not have chapters here.

In dealing with a violation, the Faculty Council shall sit as a court with the offending fraternity as the defendant and the president of the Council (Dean) as a judge. All the evidence shall be presented to the court by both defending and prosecuting fraternities, and then a decision will be made by the court alone in secret session. A majority vote of the court will convict. The names of persons bringing charges will be withheld.

XI The punishment for infraction of the Rushing Rules shall be suspension from the Conference for a period of one year and prohibition from all interfraternity contests. These shall include all interfraternity athletics and Kake Walk. In cases of extremely minor infractions the sentence may be cut to one-half a year from the time the offense was committed. If a fraternity is suspended the knowledge of such and the reasons shall be distributed to the Freshmen of the next year through the Freshman Handbook and it shall be published in the Cynic. Any Freshman or new student involved in an infraction of the rules may be suspended or prohibited from accepting a bid from any fraternity even in the Conference for a period of not less than half a year or more than one year from time infraction was committed.

Campus Comment

To the Editor of the Cynic:

The question which seems to be uppermost in [illegible] would be [illegible] the solution of many problems of the classes of '30 and '31 if you are not getting a real slant of life start kicking a little yourself. That's the only way. Do your stuff, show your stuff. Just because you were not wrong as Freshmen does not mean that you must continue that way. Make yourself a balanced unit of happiness not of disinterested mess of [illegible] misunderstandings [illegible] Socialize more. Mix with your college mates and banish your sour grins, and "blossom out." Be yourself. Don't be queer—fool! I'd swear at you if I felt assured the [illegible] would print my curses.

When young men and women come back for another year of college they have secret yearnings in their hearts to go out for certain activities in which hitherto they have not participated, or attain a greater success in the activities they are already in, or get better marks or something—Fall ambitions as it were. BUT when they get here and see the men with whom they must participate they say this "Oh, he is so much better than I. I haven't a chance." Don't fool yourself. That idea is tommyrot. Absolutely. Doubtless that man has had much more experience than you. He is actually a few rungs ahead of you on the ladder of achievement. And you, you don't realize that. You think he is just naturally endowed with better equipment. Blurb! You can make your equipment what you will. And if you are lazy you will remain the same old back number—the "wall-flower" with a turned-up nose. To be perfectly frank I had rather live with a thief than a lazy man. A thief at least has enough energy to steal, while the lazy man remains stagnant and as time whirls by begins to disintegrate. (Figuratively of course.)

"A man's success in life is in direct proportion to the amount he understands human nature," quoting one of our last year's lecturers. Man, man, that is as true as the heat of the sun. And if you do not mingle with your fellow men, how do you expect to gain an insight into life—be successful in life? You surely can't do it by staying at home and studying the dictionary although it is reported that some wise German idiot did it a few fleeting centuries ago. However, for the sake of an example to posterity, do not attempt to do such an act. If you do, your chin will get moldy and your eyes get bleared, and you yourself will be in a condition of subtle disillusionment.

Live and learn and love. Think what you say, say what you mean, do what you want to do. And you'll be happy and successful, and an example of what you want to be.

Let me add in closing that one must not persue glory and achievement in a selfish way. There is always a limit to natural capacities. Keep within the limits but do what reason and desire demands.

Sorority Notes

DELTA DELTA DELTA

A pretty wedding took place in September when Priscilla became the bride of Frederick Mrs. Welling was a prominent member of the class of '24 and Mortar Board. She was leader Glee Club while in college. ing was a member of the class and of the Alpha Tau Omega ity.

Gray, '27, recently announced her engagement to Clarence '28, Sigma Alpha Chi.

PI BETA PHI

Frances S. Hyde, Pi Beta Kappa was married to Donald C. Johnson August 17, at Benson, Vermont. her graduation Mrs. Johnson has head of the English department Willimantic, Conn., High School. Johnson, who was graduated from in 1920, is Master of French and Spanish in the Country Day School at Providence, R. I. Mr. and Mrs. Johnson will make their home at 3095 Pawtucket Ave., East Providence, P. I.

Dorothy Grow, '23, was married to Robert Kimball on September 17, at Newport, N. H. Mr. and Mrs. Kimball will make their home in Burlington.

Mary Turner, '29, was recently elected to the CYNIC Board.

Mrs. Knight entertained the Mothers' Club at the Athena Club, Thursday afternoon, September 29.

Adelaide McLaughlin, '26, will sail tomorrow, October 1, from New York to study French and Spanish at the Sorbonne in Paris.

ALPHA XI DELTA

The local alumnae recently gave a bridge party and miscellaneous shower at the home of Betsy Kimball Kidder for Marion Kidder in honor of her approaching marriage to Mr. Ralph G. Leonard of Brandon. Other guests of honor were Marion Zottman Janke, who has gone to live in Cincinnati, Ohio and Phyllis Robinson, '28, of Memphis, Tenn.

ALPHA CHI OMEGA

Margaret Clark, ex-'28, was married in August to Norman Toof of North Troy, Vermont.

Marion Preston, '27, and Lois Palmer, '26, were in town over the week-end.

Florence B. Smith, '27, and Doris M. Harbour, '27, spent a few days in town recently.

SIGMA GAMMA

Sigma Gamma announces the pledging of Susan and Harriet Howard, '30, of Burlington on Monday, September 26.

KAPPA DELTA

Kathryn Wright and Helen Lynch, '28, attended the Kappa Delta national convention at Asilomar, California, July 5-10.

Catherine Courtney, '27, is assisting Miss Holbrook in the Education Department.

Alice Crowe, '26, is teaching geometry in Burlington High School.

Mabel Donahue, '27, was a recent visitor in Burlington.

Merta Murro, '28, has recently been elected to the CYNIC Board.

Y. W. C. A. INAUGURATES MEMBERSHIP DRIVE

The Young Women's Christian Association is conducting a vigorous membership drive this week. In the three days just passed sixty Freshmen have become members in addition to the large last year's membership which is being renewed. One dollar is the annual fee.

The second-hand book store, run under the management of the Y. W. C. A. proved to be a success and a great help to the students. Almost a hundred books were sold.

Last week a Retreat was held at the home of Eleanor Davison for the purpose of mapping out the program for the year. All sorts of interesting plans were made for this semester's schedule, which is being published and will be distributed soon.

A captain will be appointed in each dormitory as well as among the town girls, so the promised activities of the association will be forwarded under careful leadership, and may be expected to advance accordingly.

This year is starting with so much enthusiasm that it promises to outdo all previous successes.

WOMEN'S BOARD ADDS TWO NEW MEMBERS

At the last meeting of the Women's Board of the CYNIC which was held Tuesday, Merta Munro of the class of 1928 and Mary Turner of the class of 1929 were elected to membership.

Merta Munro is one of the outstanding student authors on the hill. Her work has been published in the *Boston Post* and in the *Girls' World*, a magazine edited by the Baptist Board of Publication. Her entries in the Inter-collegiate Short Story Contest which was held last year won her third place. They are shortly to be published in the *Vermont Literary Magazine*. She is president of Alpha Theta chapter of Kappa Delta and a member of the Dramatic and Press Clubs.

Mary Turner, a member of Pi Beta Phi, has shown unusual talents in the portrayal of male parts in the productions staged by the Dramatic Club during the past two years. Her literary compositions were of such a high character as to gain her membership in Bluestockings, the women's literary society.

The new members were presented CYNICS autographed by the editor and present members of the Women's Board as slight mementos of their attainment.

STUDENTS ATTENTION!

Earn while you learn. Spare time work after classes. Now helping hundreds of students through college. No finances or experience required. Unusually liberal offer. Write for full particulars today.

MILITARY DEPARTMENT BEGINS REGULAR DRILL

WOMEN'S PRESS CLUB

A social meeting to welcome the new members will be held at the Delta Psi House October 5 with Miss Rachel Skinner as hostess.

NEWS IN BRIEF

Fall practice of baseball starts Monday, October 1. Those wishing to go out report at the Cage at 4 p. m.

The opening games for the 1928 football season have already been scheduled. The first is with Columbia on September 29 and the second with Plattsburgh on October 6.

Captain Rattan announces that rifle team practice will not start before November 1.

Physical training classes will begin, in uniform Monday, October 8. Assignments are now posted on the bulletin boards in the Gym.

The Military Department wants every member of the R. O. T. C. to take notice of the fact that military commences at 7 a. m. on Wednesday instead of at the usual hour 7:30. Too many are tardy or absent on that day.

Nu Gamma of Phi Mu Delta announces the initiation of Francis Osterhus, '29, of Brooklyn, N. Y., Nebel Page, '29, of Hinesburg, Vt., and Paul Bacon, '30, of Burlington.

Fencing team will hold practices every Tuesday, Wednesday, and Friday at two o'clock in the Gym. All candidates should report at once. It is also hoped that the Frosh will be interested.

The physical examination of the R. O. T. C. Juniors, the Varsity and Frosh football squads has been completed.

WORK ON 1929 ARIEL PROGRESSES RAPIDLY

At a meeting of the entire *Ariel* Board at the Delta Psi House on Tuesday afternoon, tentative plans were discussed as to the feature and grind sections of the Annual. Arrangements have been made with photographers for pictures of the Juniors and work will start on them as soon as schedules can be arranged. All Juniors who have not already done so are requested to hand in a schedule of their free hours to any member of the board.

A vacancy has occurred in the grind department and any Junior wishing to apply for the position should see Editor George James at once.

About fifteen Sophomores are wanted to scrub for the business staff of the year book. Applicants should get in touch with Arthur Birchard within the next week. The scrub who gets the most advertising for this year's book will be favored for business manager of the 1930 *Ariel*.

P. A. is some little cheer-leader

EVERY pipe is a Sunny Jimmy-pipe when it's packed with P. A. The tidy red tin chases the blues—and how! Why, you feel better the instant you open the tin and get that marvelous P. A. aroma. Every chore becomes a cheer, and you're sitting on top of the world.

Then you load up and light up. That taste—that never-to-be-forgotten, can't-get-too-much-of-it taste! Cool as a cut-in from the stag-line. Sweet as retaliation. Mild and mellow and long-burning, with a balanced body that satisfies, right to the bottom of the bowl.

You find that P. A. never bites your tongue or parches your throat, no matter how often you stoke and smoke. Get on the sunny side of life with a pipe and P. A. Buy a tidy red tin today and make the personal test. Pipes were *born* for tobacco like this.

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

The Vermont Cynic

VOLUME 46 — BURLINGTON, VT., TUESDAY, OCTOBER 4, 1927 — NUMBER 4

FRESHMEN SUBDUE T. C. A. GRIDSTERS

Rattan's Charges Wallop Southern Team In One-Sided Game—Score Is 39-0

KITTENS SHOW GREAT STRENGTH IN OPENER

Coach Rattan's Kittens defeated the Conference Academy, 39 to 0, Saturday afternoon, in the first gridiron contest of the season at Centennial field. The yearlings excelled in all departments of the game and were given no opposition by the Academy team.

From the beginning it was evident that Coach Rattan has moulded into shape another Frosh team that compares favorably with any in this section of the country. Both on offense and defense the team worked with machine-like smoothness and showed remarkable form for the début game. Coach Rattan deserves much credit for the way the eleven men worked together.

The team has two triple threats in Dave Allan, the former Fitchburg High School star, and Bob Watkins, of Dartmouth Academy. Allan called the signals and directed the team to perfection. His selection of plays was commendable. He did most of the punting and booted the ball between 40 and 45 yards every time. His kicks were high giving the ends plenty of time to get down under the ball. In forward passing, goal kicking, and carrying the ball he also was outstanding. In fact, the clever quarterback played heads-up football every minute and proved a wonderful general for the team. Watkins, the fast, rangy, 195-pound fullback shared the backfield honors with Allan. Every time he was given the ball he did not fail to gain, whether around the end, off-tackle, or through the center of the line. When Allan was relieved near the end of the last period, Watkins stepped into the quarterback's berth and did the kicking and passing as well as the bulk of ball-carrying. It is a fine thing to have two men such as these in the backfield, as both can do anything required of a backfield man, giving them a chance to alternate.

Meikle deserves mention for his ball-carrying, as does Heaton for his fine all-around work. Heaton was called upon to punt once or twice, adding another first-class kicker to the line-up. The line was very strong. On the ends were Tobin and Rugg, two tall, fast men. Against them T. C. A. was helpless, and couldn't gain around either end. Allerton and Segal, who replaced the starting ends, also looked good. The Allan to Allerton forward-passing combination was smooth. Hough and Howard started in the tackle positions and opened some fine holes for the Frosh ball-carriers. Park, at center, played a very good game; his passing was accurate. The guard positions were filled by Scutakes, of Burlington High, and DeCicco, brother of the former Vermont varsity football star, who played with the Boston College Freshmen last year.

First Quarter

T. C. A. kicked off to Watkins at the start of the game. Allan and Watkins made a couple of first downs. After an exchange of fumbles and an exchange of punts, Watkins took the ball to T. C. A.'s 15-yard line on a series of off-tackle plays, and Allan scored on a criss-cross from Watkins to Allan. It was the most sensational play of the game on account of the smoothness and effectiveness with which it was run off. Watkins failed to kick the goal. T. C. A. kicked off again and after a penalty for Vermont for holding, Allan punted but Watkins recovered the ball when the T. C. A. quarterback fumbled the punt. Watkins made a first down when the period ended with the ball on the T. C. A. 15-yard line. Score at end of quarter: Vermont 6, T. C. A. 0.

Second Quarter

Allan and Watkins brought the ball to the two-yard mark with a series of line plunges at the beginning of the period, and Watkins took the ball through center for six points. He kicked the goal. Watkins kicked off for the Frosh. On the first play T. C. A. was penalized 15 yards for off-side play, so the ball was punted out of danger. At this point, Allan completed a pass to Tobin, which was good for

(Continued on page 2)

CAPTAIN W. V. RATTAN *Popular R. O. T. C. professor who coaches the Frosh football team. Rattan's Kittens won their first game against T. C. A.*

PLANS FOR 1929 ARIEL ASSUMING FORM UNDER EDITORSHIP OF JAMES

Hopson and Martinette Appointed to Editorial Staff—Color Section to be Featured in This Year's Book

George H. James, who was recently elected to the office of Editor-in-Chief of the 1929 *Ariel*, has laid plans which he hopes will make this year's book one of the best in the history of the Vermont annuals.

The members of the board who are assisting James are: Junior Album Editors, Charles Harwood and Charles Overly; Sports Editor, Leighton Sanders; Photograph Editor, Frank Shedd; Art Editor, Hans Nilson; Feature Editor, E. Ruel Young; Humor Editor, J. Roger Thompson; Medic Editor, Hanson Twitchell. Assistant Editors, Paul Hopson, Jack Hyland, Siegfried Martinetti, Lee Morgan, George Poole and Harvey Whiting. The women's board consists of the following: Editor, Charlotte Cleveland; Assistants, Florence Scott and Lucy Bracken; Grinds, Dorothy Strong and Catherine Bassett; Athletics, Lucy Morgan. Photography, Lucy Morgan; Art, Irene Witkus.

Due to vacancies left in the Album department by Wayne Griffith and Burton Morse, Paul Hopson and Siegfried Martinetti have been recently appointed to the board.

James had planned to lay the theme of the book on the history of Lake Champlain but this has been the subject of a previous *Ariel* and a new theme will have to be determined. No radical changes are contemplated and as a whole will be patterned after those of former classes. One of the attractions of the new book will be the sections done in color.

Hammersmith-Kortmeyer and Company, who devote their business entirely to college annuals, will have charge of the printing, binding and engraving. The service man will arrive next week to aid the editor in choosing borders, panels and other detail work so necessary in the making of a fine book.

The photographer from the White Studio of New York City will be in charge of all the photographing for the Junior section and is expected to have arrived Saturday. Sittings will be held starting this week Monday. A schedule will be posted on the bulletin boards giving the time and place for the sittings of each Junior. All who have not made arrangements are urged to do so at once, so that the work may be completed as soon as possible. As soon as the pictures are finished work will be started on the grinds.

In order that the *Ariel* may be in the hands of the printer before Easter vacation, so that it will be sure to be issued on time, the Editor calls for cooperation from his classmates.

Expenses of a college student have increased to twice the amount spent 50 years ago.—*Kansan*.

STUDENT POLL ELECTS MILLER CHEERLEADER

John A. Miller '28 of Palisade, New Jersey, was elected cheerleader for the coming year as a result of the poll conducted last Thursday and Friday by the Student Senate. He was elected by a sizable margin over his opponent, John R. Leavens of Maplewood, New Jersey.

"Jack" is a popular member of the Senior class. He has been an assistant cheerleader for several years. Besides cheerleading, "Jack" is manager of the Wig and Buskin society. He is a graduate of Englewood High School, and is a member of Wig and Buskin and the local Sigma Nu chapter.

STUDENT SENATE GIVES OUT SOCIAL CALENDAR FOR 1927-28 SEASON

Social activities for the school year of 1927-28 have been placed in the hands of the Student Senate. This was deemed desirable in view of the fact that there was much confusion and mixing of dates when there was no one in charge. The Calendar has been arranged as follows: September, 16 Freshman Mixer, 23 Vermonters' Club; October, 1 Sororities, 8 Sororities, 14 Boulder Smoker, 15 Boulder, 21 Key and Serpent Smoker, 22 Key and Serpent, 29 Mortar Board; November, 5 Gold Key, 10 Military Ball, 12 Sororities, 19 Fraternities, 23 Fraternities, 26 Fraternities; December, 2 Glee Club, 3 Football Hop, 10 Y W C A, 16 Fraternity Formals, 20 Fraternity Formals; January, 7 Boulder, 27 Fraternities; February, 3 Sophomore Hop, 10 W A A, 11 Open, 18 Open, 24 Kake Walk, 25 Kake Walk; March, 2 Sororities, 3 Sororities, 10 Sororities, 17 Basketball Hop, 24 Fraternities, 29 Fraternities; April, 14 Mortar Board, 21 Key and Serpent, 27 Sorority Formals, 28 Gold Key; May, 4 Sorority Formals, 5 Men and Women's Glee Clubs, 12 Band, 18 Junior Prom, 19 Fraternities, 26 Honor Dance.

GOLD KEY PLANS HOT RECEPTION FOR FROSH

A meeting of Gold Key was held at the Delta Psi house last Wednesday evening. Four men were delegated to take tickets at the gate for the Frosh football game on October 1. It was also decided that a reception would be held for the freshmen at the meeting to be held at the Phi Mu Delta house next Thursday evening. Those Frosh who are invited to attend will be posted on the Old Mill Bulletin boards. It is advisable to be present and a good time is expected by all.

Another matter discussed was that the Owls have the right to elect a man in place of James McNally who did not return to school. This also pertains to the successor of J. T. Armstrong. The Independents will elect a man at their first meeting.

A very interesting discussion took place concerning the first smoker. The society decided that the first smoker will take place before the Providence, Vt. game to be held on the back campus. A big bonfire will be built by Gold Key and it is expected to be a big pep meeting.

Catamounts Score Field Goal Against The Crimson

Harvard Wins Game 21-3 at Cambridge—Team Shows Improvement Over Columbia Game—Breaks of Game Help Harvard in Scoring

BIRCHARD ANNOUNCES ARIEL COMPETITION

Arthur Birchard, business manager of the 1929 *Ariel* announces that he is about to open a competition for the business manager of the 1930 *Ariel*. Mr. Birchard states that the man or men landing highest in the competition will have his recommendation when the election of the business manager for next year's annual is held. All scrubs will be rated according to the work they perform and the amount of advertising which they solicit.

The manager states that altho a few men have reported to scrub for business manager, he can accommodate 15. He requests that each fraternity send out a man to try for the position and that the Independents enter two or three men. The candidates will be rated and recommended strictly on the amount of work they do, as has been indicated before. Anyone interested should see Mr. Birchard at once at the Sigma Nu Lodge.

VERMONT STUDENTS WIN FIRST PRIZE FOR BEST DAIRY CATTLE JUDGING

Second Place For Dairy Products Judging Also Awarded Team—Eleven Colleges Represented in Contest

University of Vermont students have just made a phenomenal record by winning first place in dairy cattle judging and second place in dairy products judging in the intercollegiate judging contests at the Eastern States Exposition at Springfield, Mass. There were more colleges competing this year, eleven in dairy cattle judging and seven in dairy products judging than ever before but Vermont's dairy team made a better showing than any similar group from any state has ever done at this Exposition.

In dairy cattle judging Vermont won first as a team on all breeds, carrying home the trophy offered by the National Ayrshire, Guernsey, Holstein and Jersey Associations. Individual team members ranked first, fourth and fourteenth in judging all breeds and first in judging Guernseys. L. H. Marvin of Essex Junction won highest honors in judging all breeds. R. T. Holden of Bennington won fourth place on all breeds and first on Guernseys. R. E. Reed of Shaftsbury won fourteenth place in judging all breeds in a field of thirty-three competitors.

In the dairy products contest the Vermont team won second place on all products, first on milk, second on cheese and third on butter. The individual winnings were by H. N. Montague of Underhill fifth on all products, second on cheese and fourth on butter, R. T. Holden, first on milk, fifth on butter and eighth on cheese. L. H. Marvin, second on milk and tenth on cheese. Twenty-one men from seven colleges competed.

This is the first time that it has been possible for the University of Vermont to enter a team in this contest and the students as well as their trainers and coaches are to be congratulated on this exceptional record. Besides the $800 dairy cattle trophy, the team brings home several prizes and medals as well as considerable prize money. It received training in dairy products judging under Professor H. B. Ellenberger and Mr. J. A. Newlander and in dairy cattle judging under Assistant Professor W. B. Sifcox, all of the College of Agriculture dairy department staff. Professor M. H. Campbell, who has just joined the department, gave the boys a few days of special coaching just previous to the contest and had them in charge during the cattle judging contest. Professor R. W. Smith, Jr., who has also just joined the dairy department staff, gave them a final work-out and acted as coach during the dairy products contest.

CONWAY KICKS FIRST FIELD GOAL OF SEASON

Showing a complete reversal of form the Green and Gold eleven came through in fine style to hold the ever strong and powerful Harvard eleven to only three touchdowns last Saturday. Not being satisfied with this Jack Conway scored the first points for Vermont when he brought his educated toe into action and booted the first field goal of the season for the Catamounts. However, the outstanding players on the Vermont eleven was Captain Jack Smith who was the mainstay of the secondary defense. Time after time Smith dropped Harvard men in their tracks before they had even hit the line of scrimmage. The entire line also deserves much credit for their stalwart work on the defense. On one occasion they held the fast and heavy Crimson backfield for downs on the one-yard line.

Vermont was evidently out to redeem the rather ragged opposition that they gave Columbia last Saturday and they certainly did the job up in a fine manner. The offense showed up much better than in the previous game and with this game under their belts the Catamounts are out to give Williams the battle of a life time. This makes the second game in which the new Vermont backfield has worked together and their work was of much smoother quality than against Columbia. The line is also beginning to work as a unit and with another week's practice ought to be able to stand up against any backfield left on the Green and Gold schedule.

Breaks of Game Help

The breaks of the game played a large part in the scoring of Harvard's first two touchdowns and also in Vermont's making its goal from the field, which was drop-kicked by Quarterback Jack Conway in the second quarter from the 17-yard line. Harvard threatened in the very first minute of play when Crosby took the opening kick-off and ran it back 40 yards to his own 46-yard line.

A pass over the center of the line from Guarnaccia to Quarterback Kelly brought the ball to Vermont's 38-yard mark, and then Crosby was called on four times in a row to bring it to the 15-yard stripe. Guarnaccia, on a fake end run, went through the left guard for 5 yards, but on the next play Harvard was penalized 15 yards and her first scoring opportunity was wasted, Clark's attempted place kick being blocked.

Conway's fumble of Sam Burns' punt near the end of the opening period paved the way for the first touchdown. Pratt recovered the ball on Vermont's 30-yard line and Guarnaccia and Crosby hammered out the rest of the distance to the goal line through the guards and tackles, Crosby just barely getting over on the fourth down. Sam Burns kicked the goal for the extra point.

Vermont Fumble Is Costly

A second costly fumble by Vermont followed immediately upon Clark's kick-off. On the second down Estabrook fumbled and Dud Bell, Harvard center, fell on the ball on Vermont's 24-yard mark. French, in four successive rushes, carried it to within 7 yards of the goal line and Crosby did the rest, finding a big opening at left tackle on the third down. Brown, who was now playing in place of Kelly, kicked the goal.

Horween now made wholesale substitutions, leaving hardly a member of the starting team in the line-up, and Vermont made its initial first down of the game when Conway took a pass from Smith with two Harvard men on top of him, for a gain of 17 yards. This was one of the weaknesses that Harvard showed, the inability of its backs to break up passes when they were surrounding the receiver.

After Vermont had been forced to kick, Hitch, playing at halfback, fumbled, and Vermont recovered on Harvard's 14-yard line. Conway picked up ten yards in two line plays but a 15-yard penalty put the ball back to the 25-yard line. Here Smith threw another pass to his right end, Sirois, who caught it nine yards away from

Mount Mansfield Received Name 165 Years Ago As Town In N. H.

...nt's higher campus. Mount ... is one of the oldest land ... the State Nearly 165 years ... town of Mansfield in which ... revered mountain is located ... Jerrymine Travise with ... bought the tract of land ... Governor Wentworth of New ... The sum paid in the trans... was $230 40, a sum which would ... office to buy even a small part ... township now Ira Allen, then ... of 20, from Connecticut, was ... survey the land This busi... gave the Founder of the Uni... an opportunity to see the pos... of the New Hampshire ... He saw that the bay and land ... the present city of Burlington, ... be of considerable importance ... future. While on his survey... he entered negotiations to ac... and around the Winooski River ... the Bay of Burlington From ... time on the New Hampshire ... became Ira Allen's home, until ... when he was banished by his ... in the early part of the nine... century. In 1752 the states of ... York and New Hampshire were ... the height of their celebrated dis... over the land between Lake Cham... and the Connecticut River. Brit... officials, among whom were Attor... General Sir Dudley Ryder and So... General William Murray (later ... Mansfield) took up the case. ... Hillsborough and Lord Dart... assisted in adjusting the con... sy. The commissioners decided ... favor of New Hampshire. This de... was subsequently reversed in ... England

Shortly after Lord Mansfield and his associates rendered a decision in favor of New Hampshire Governor Wentworth granted the township to Travise and his associates The grantees felt so much indebted to Lord Mansfield for his favorable decision that they named their town after him Subsequently the noble mountain which is entirely in the limits of the town, was named Mount Mansfield

This fact has been disputed many times by various historians, but its authenticity is now unassailable One theory is that the name Mansfield was taken from Mansfield, Massachusetts Careful research has shown that the Massachusetts town was not named until several years after the grant by Governor Benning Wentworth Some also have advanced arguments to show that the name was transplanted from a town in Connecticut This has also been found to be without foundation, since that town was not named until 11 years after Travise and his company called their grant Mansfield It appears that Mansfield, Vermont, was the first town to receive its name from the famous English lord.

Together with Champlain, Mount Mansfield has been dear to the hearts of Vermont students The history of both are intimately tied up with the history of the University. Ira Allen, the founder, has been connected with the development of all three, which perhaps is the greatest reason, other than the natural beauty, why Vermont students grow to love Mansfield and Champlain.

NEWS IN BRIEF

Wanted for the Freshman Orchestra one saxophone player, a drummer, and a piano In other words a whole new orchestra must be recruited

VERMONTERS' CLUB HAS SUCCESSFUL PARTY

Even the upperclassmen acclaimed the Vermonters Club party held last Saturday night in the gymnasium, the best ever Though it was strictly late in starting, still, as everyone arrived it became a veritable garden party, where each person had a guest they wanted everyone else to meet At the entrance, the hostess president of the Vermonters Club greeted each girl and presented her with a dance order done in black and white and a slip of paper to write her name on, making introductions an unnecessary formality Upperclassmen were honored with the privilege of guiding through the maze of faces to friends worthy of an introduction the distinguished guests of the evening Freshmen

Soon it was time for the entertainment which was announced by the hostess, and given by the girls in the different dormitories The stunts seemed to please all The girls who live on University Terrace portrayed "A Sweet Girl Graduate in cap and gown, whose room was literally a litter of feminine apparel and conventional college room furnishings, including beer bottles, poker chips, and the like Her mother, ancient in more ways than one and the rest of the family of 14 or 15 surprised her in the midst of this mess Her father gave an exhibition of a "good old fashioned spanking"

Robinson Hall girls gave "A Cry in the Night," or a fire alarm The roll of both animate and inanimate animals was called Redstone offered an admirable rendition of the Men's Freshman Rules Faces were washed, paddling was done, and a water fight with much yelling was staged in the dark.

Grossmount gave The Declination of the Decline of the Fair Sex in four episodes. Jane Age, in which the woman courted as much as the man, and all action was fast; Colonial Age which was characterized by slow motion and calm emotion, Roman Age, when women in short like robes were bewigged with heads be held centurions. Stone Age when knock outs and drag homes were the style Allen House offered under the title "A Catastrophe" a shadow playare in which a gourmand satisfies himself and lives to repent in an operating room

Kappa Alpha Theta House held "A Rehearsal of a scene at the bedside of a dying father At first the diction was too soft but after being prompted by the director it improved

Dancing was a feature after the performances and doughnuts and cider constituted the refreshments The party ended by ten o'clock after having given both freshmen and upperclassmen a very enjoyable evening together

Intercollegiate News

Many colleges in the West and East have adopted a new style of class distinction. All classes are to wear some sort of uniform which will set them off from members of other classes in the institutions. Juniors and seniors will wear the traditional blue cords, the sophs are to wear a combination of their class colors, and the frosh are to wear a green suit of the greenest hue. The cost of these outfits is not very great and has the advantage in ... keeps the undergrads from ... expensive clothes or anything ... that it speaks for itself.

...litorial in the first issue of the ...*usetts Collegian* is worthy of consideration, not only by members of the class of 1931, but by every college student. "You are now face to face with problems which have mainly to do with the question that every man must answer sooner or later, 'Why am I in college?' If you come to college to make friends and have a good time, you will find it easy enough while it lasts. If you come to study, you will discover numerous opportunities along that line. If you wish to distinguish yourself in extra-curricula activities, hard work and concentrated effort will reap almost any reward. But if your purpose is to make the most of yourself, the task is difficult, for it demands a delicate balance between work and play, and the outside activities, which lie somewhere between the two."

Student government at Northeastern University will be vested this year for the first time in a student council comprising members of both day schools, engineering and business administration. Previously, each school had its own council working independently of the other.

Here is a good story, from the *Los Angeles Times*, for an outsider to tell at a Dartmouth gathering. It dates from 1908 when the Green was playing in New York City for the first time in history, and it was opposed to Princeton whose fame was better known. A famous old Dartmouth athlete, "Dyke" Varney, '02, was delayed in reaching the Polo Grounds. The first half was over as he hurried to get in one of the entrances. Seeing a man coming out, Varney called to him, "Who's ahead?" The chap replied: "The D's, whoever they are."

Dyke—"How long has your son been in college?"

Hiram—"About four cows, two horses, forty bales of hay, and a couple of loads of pumpkins."—*Oklahoma Whirlwind.*

"I don't suppose you plan to do anything but make a good showing against the Army," a reporter asked Ed Robinson, coach at Boston University, one day last week. "Well," replied Robinson, "you never can tell what will happen in a football game, and the B U team goes into every game with the idea that it will win. That's the spirit of the Terrier camp." Even though the Army won, the score 13-0 proves his statement and both team and coach are to be congratulated

Statistics show that at Princeton the majority of men who are working their way through college come from preparatory schools and not from public high schools.

It is reported that four senior cadets at West Point have recently been suspended for hazing freshmen. This is said to be the first enforcement of discipline in ten years for this offense.

The Athletic Committee at Northeastern has sanctioned soccer as a major sport, placing it on a par with basketball, baseball, and track. Full Varsity recognition will be given to all men on the squad and sweaters and letters will be awarded members who have successfully made the team.

Harvard has made a radical departure from conventional methods of education which will give it the most liberal policy of teaching in the East. The new regulation does not apply to freshmen, however. Classroom work has been reduced from 20 weeks to 23 weeks, but the student is expected to devote his time during these six weeks to individual study and research. The nearest approach to this policy of instruction, is that of Wisconsin University.

He—"I've had this car for years and never had a wreck."

Co-ed—"You mean you've had this wreck for years and never had a car."

A horse is another thing that throws men down.—*Y News.*

Undiscovered country in industry

THE globe's surface no longer holds much undiscovered country, but the pioneer-minded man can still find plenty of it in industry—particularly in the telephone industry.

In the Bell telephone companies throughout the entire country, men are now exploring the 1930's and 40's and 50's, charting the probable trend of population and the requirements for service.

In research and development, and in telephone manufacture as well, the Bell System takes seriously its responsibility to give adequate service now and to gird itself for a long future.

RATTAN'S YEARLINGS TACKLE PLATTSBURG IN SECOND CONTEST

Strength of Kittens Meets Test Tomorrow Against New York Eleven—Hough and DeCicco Among Leading Frosh Gridsters in New England

While the varsity is taking on the strong Williams eleven at Williamstown the Kittens will be tackling Plattsburg Normal School at Centennial Field. This team has the reputation of putting up a great battle no matter how strong the opposition is Coach Rattan will be ready for it. Although there was no chance to find out just how strong the present frosh team is because of the weak opponents that the Kittens tackled last Saturday, it looks as though Coach Rattan has the making of another victorious eleven.

The line is much stronger than last year's wonder team by far. In Hough and DeCicco, Coach Rattan has two

JACK ROBINSON

Veteran linesman and part of Catamounts' stonewall defense.

of the best linesmen playing freshman football in New England. Park and Scutakes also are doing wonders in the front ranks along with Tobin and Howard.

Although Ghost Mitchell is missing from the back field his place is being filled by Watkins a tall rangy player who is a whirlwind on the offense and a brick wall on the defense. In Watwins, Coach Rattan has a man who can handle the team in the absence of Allen, the regular quarterback, a quality which makes him all the more valuable. Allen, a product of Fitchburg High School, handled the team with finesse and experience of a veteran. His passing brought back the memory of Leach to the few old fans that attended the game. Although only one of his passes was completed, it was not his fault as all were right to the mark. Meikle and Heaton the two regular halfbacks also played a fine offensive game and can be depended on to gain plenty of ground against the Normal school boys. Smyth, the first string end, will probably be in the game this week and this will add a lot to the passing game as he is one of the best receivers in yearling football.

CITIZENSHIP WILL BE DISCUSSED BY WOMEN

The American Association of University Women and the Vermont League of Women Voters have been cooperating in a School of Citizenship. The meetings are being held in the Old Mill October 6-7, and all women students are invited to be present.

Yesterday at 2 o'clock there were round table discussions on efficiency in government. The group discussing efficiency in government was led by Professor E. R. B. Flint, of the department of Political Science at Norwich. Daniel H. Carroll, assistant professor of Political Science at U. V. M. was leader in the discussion of popular control of government. At 7:45 there was a talk by Miss Elizabeth Hauser, fourth vice-president of the National League of Women Voters and the National Chairman of Efficiency in Government. Lieutenant Governor S. Hollister Jackson also spoke.

This afternoon at two o'clock there will be also round table discussions on Public Welfare in Government. Clarence B. Cowles Municipal Court Judge, will lead the group discussing the criminal courts and state penal and reformatory system. The discussion on the possibilities of social legislation will be led by H. F. Perkins, Professor of Zoology at the University and director of the State Eugenics Survey.

VERMONT FROSH WANT RACE WITH PANTHER

Coach Latty has issued a challenge to the Middlebury Frosh to a cross-country run with the Vermont Frosh. This run is to be held the day of the Vermont—Middlebury football game and any Frosh who makes the team gets his numerals. Those Frosh who wish to compete in the run should see Coach Latty at the earliest possible moment. The Varsity Cross Country run takes place the same day as does the Frosh run. This is the first opportunity for the Frosh to make their numerals. Frosh, show your College spirit and sign up at once for the meet.

LEON DEAN NEW EDITOR OF THE ALUMNI WEEKLY

The *Alumni Weekly* is now edited by Mr. Leon W. Dean who takes the place of Mr. Louis F. Dow who has resigned the editorship to take up a position of district manager for the Frigidaire Company with headquarters in this city. Mr. Dow has been editor of the *Alumni Weekly* for five years during which time he has increased the efficiency of the paper. He was preceded only by Mr. Jennings who was the editor of the paper when it first appeared as the official Alumni organ of the University. Miss Margaret Patten '19 is the managing editor of the *Weekly*.

Mr. Dean '15 was engaged in newspaper work before coming to the University to teach. He has contributed many short stories and articles to some of the leading current magazines.

The purpose of the paper is to keep the alumni posted on the activities of the various alumni, to keep them informed on the faculty affairs, and to keep them in touch with the most important student activities. The Alumni Office does a great piece of work in following up and keeping in touch with the alumni, and is a great asset to *Alumni Weekly* which ranks high among the publications of its class.

NEW MEN STRENGTHEN VERMONT'S FAMOUS BAND ORGANIZATION

Lechnyr Says Prospects for A Good Band Are Better Than Ever Before—Van Dyke Drum Major—Clark Soloist

In an interview with a CYNIC representative, he reported that prospects for a good band are this year better than ever before.

The band has been strengthened in several sections, notably by members of the freshman class. Joseph Merola is a new addition to the cornet section. He has studied four years under Mr. Lechnyr, is a member of the Burlington Symphony Orchestra, of the Burlington Military Band and belonged to the C. H. S. Orchestra. Herman Strauss has joined the trumpet section. He has been chosen to play trumpet for the Vermonters' Orchestra. In the trombone section, Austin Howard and Clair Hesseltine are new arrivals. The saxophone section will again be headed by Franklin Clark, soloist extraordinary who will no doubt be featured as a soloist this year. The drum section has five new recruits who, in Mr. Lechnyr's words, "play to beat the band." The baritones include C. E. Harwood and A. C. Johnson, the bass section, Theodore C. Clifford. R. H. Curtiss of the alto section has three new freshman assistants, F. Forsh, Harlie Chatterton, and Gilbert Gross. The clarinet section remains the same. Paul Van Dyke is the new Drum Major, which position he also held in a band composed of 250 players at Illinois University. Richard Cowles is a new arrival in the flute section.

Altogether there are 62 players in the band, an increase of ten over last year. Mr. Lechnyr expressed the hope that the band would again accompany the team to Springfield, November 25, as it did last year, when and where the members accredited themselves so creditably in both their cheering and playing.

LINE COACH DRESSER

Assistant to Coach McAvoy—Dresser's line is a feature of the Catamount eleven

ELIGIBILITY DEPARTMENT ADOPTS CARROLL'S PLAN FOR AIDING ATHLETES

Scrubs to be Graded On Work Accomplished and Will be Recommended by Manager For Assistant's Positions

The entire eligibility department met in Dr. Aldinger's office Monday afternoon to receive work assigned by the manager and instructions on the new system to be employed this year, suggested by Prof. Carroll and worked out by a committee consisting of Dr. Aldinger, Prof. Carroll, Manager Fogg, Ass't Manager Douglas and scrub, H. M. Macomber.

Since it has been customary for the manager to recommend the scrubs to become assistant managers at the election after mid-years, it was decided to give them a definite basis for recommendation. The scrubs are to be rated upon their work which is divided into four parts with weights on each part, thus: (1) information concerning men assigned them (answers to questionnaire), 5 points; (2) efficiency in estimating grades of men assigned, two reports before first marks are obtainable at the deans' offices, these to be used as a check on the estimated grades handed in, 35 points; (3) type of assistance given the men needing help, 20 points; (4) results, from deans' offices, records of grades, 40 points.

The first point is considered necessary in judging the ability of an athlete, scholastically, the second in forecasting grades in order to assist needy students, the third in choosing capable tutors, the fourth in that it is an incentive to scrubs to see that those under them do creditable work. The fourth point is the real aim of the department and is necessarily heavy. Every A counts 100%, B 95%, C 90%, D 40%, X 10%, F 0% and it is the average a scrub has that determines what part of the 40 points he receives.

The assistant managers receive credit for the work of their two scrubs and for the efficiency in handling men assigned them.

The scrubs and assistant managers received their assignments, three students to each one. More assignments will follow. The scrubs will hand in the information sheets Saturday noon. The first estimates of grades are due not later than Oct. 14.

This arrangement is planned to bring out the best possible work so that the result will be better than that of last year, which was far better than usual.

The sophomore scrub managers who will have the care of the freshman athletes are Macomber, Lyndl, Moore, Bundy, Bigelow and P. Robbins.

MORTAR BOARD DANCE

The semi-annual Mortar Board dance is to be held on October 22 and not on October 29 as was previously announced

Catamounts Face Strong Williams Eleven With Strengthened Line-Up

Team, In Excellent Condition, Hopes to Bring Back First Victory of the Season—Leary Temporarily Out of the Game

Tomorrow the Catamounts will take on the strong Williams eleven at Williamstown. The boys hope to return with their first victory of the season tucked safely under their arms. If they put up the same kind of an exhibition that they did at Boston last Saturday the Green and Gold will be one victory to the good. At present "Mac's" boys are going like a million dollars and with any kind of luck this week he should journey to Williamstown with the full squad in perfect condition with one exception. This exception is Leary who is out of practice this week because of blood poison in his hand. However Coach McAvoy has an able bunch of ends in Palmer, Robinson and Niron.

The latest change in the Catamount line up is the shifting of Levine from center to guard and substituting O'Keefe last year's varsity center into the pivot position. This gives an added strength to the line as the substituting of O'Keefe from the second team will give the line an added weight and also a little more fight. Burstein has returned to the squad this week and is anxious to make the Williams trip so somebody will have to start bumping in the line to keep this fast guard from making a comeback.

The remainder of the line is the same as tackled Harvard last Saturday with Palmer and Strois at the wings, Winchenbach and Damon tackles, Levine and Nilson guards and O'Keefe center. The backfield will consist of Scutakes and Estabrook halfbacks, Conway quarterback and last but not least Captain "Jack" Smith at the fullback position. Arnold Horween the Crimson coach had nothing but praise for the wonderful work of Captain Smith. He stated that it was the best defensive game ever witnessed by him during his entire football career by a back. This praise coming from such a man should make the student body realize what a wonderful game our fullback put up.

The only thing that is known about the opponents is that they had a tough task in turning back our down state rivals, Middlebury. As far as is known the Blue and White has nothing to brag about this fall but nevertheless they have the reputation of being a bunch of fighters and they may have more than they have thus far advertised.

The probable starting line will be as follows:

VERMONT		WILLIAMS
Palmer, l e		l e, Williams
Winchenbach, l t		l t, Howard
Levine, l g		l g, Lawder
O'Keefe, c		c, Watson
Nilson, r g		r g, West
Damon, r t		r t, McQuatten
Strois, r e		r e, Dougherty
Conway, qb		qb, Smith
Estabrook, l h		l h, Coughlin
Scutakes, r h		r h, Boyton
Capt. Smith, fb		fb, Dewes

JACK SMITH

Captain and mainstay of Vermont's backfield

DELINQUENT FRESHMEN PUNISHED BY GOLD KEY

The Sophomore Society for entertainment of unruly Frosh, to wit, the Gold Key Society, placed a goodly number of Freshmen in the way of a good time at the Phi Mu Delta House Thursday evening. Those of the class of '31 who were requested to be present at the ceremony found it necessary to wait some time while the regular business of the meeting was cared for. This consisted mainly in making preparations for the out-of-doors pep-rainer scheduled for the evening of the twenty-fourth. A roaring big bonfire on the back campus will be one of the biggest features of this first out door smoker before the Providence game. The student body will be assured of plenty of combustible material, for Gold Key is confident that there will be many Freshmen only too eager to fulfill the bidding to supply the blaze.

When the august body of Sophomores had disposed of the petty business and invited their guests into their privacy, one by one, the welkin awoke to the measured and solid impact of stout and lustily swung paddles. And as a consequence, there are many frosh who will attest that the seat of the trouble lay with them.

PLANS ALL READY FOR ACTIVE BOULDER WEEK

Boulder Society, meeting Tuesday evening with President Bailey at a supper given at the Hotel Vermont, made definite plans for Boulder week. The week is to start Monday, October 10 and will include a smoker, the Freshman-Sophomore water fight, a parade to Centennial Field, the Providence football game, the Annual Cane Rush and a dance at the Gymnasium Saturday night.

The first smoker of the year will be held Wednesday evening at seven-thirty, under the direction of Boulder, at the Gymnasium. A number of good speakers have been obtained and with the bonfire Gold Key is to provide it should be an occasion attended by every man student.

Sophomores and Freshmen meet again Thursday afternoon at four on the back campus when the annual water fight will take place. Inaugurated last year, it was won by the stalwart lads of 1929 but this year Sophomores, having learned a lesson should be able to give the Freshmen more than a run for their money.

Boulder has also announced a parade which will start from the Gymnasium at four o'clock on Friday afternoon to Centennial Field. The procession will be led by the University band in its first public appearance this year and every student both man and woman is asked to show the team that the student body is behind them. At this time the University songs and cheers will be rehearsed.

Following the game with Providence and the annual Cane Rush on Saturday afternoon, Boulder is holding a dance in the University Gymnasium Saturday evening.

FRESHMEN VOTE DOWN GREEN AND BLACK

After a long debate the Freshman class turned down the class colors suggested by a committee at a meeting held Wednesday afternoon in the Old Chapel. The proposed colors were Vermont green and black. The choice of the committee was not favored and it was instructed to introduce others at a meeting to be held soon.

The color committee consists of Carolyn Whitney, Helen Willard, Rebecca Seaver, Morton Bolton, William Loudon and E. F. Sammond.

An advisory committee was elected consisting of the officers of the class, Miss Helen Willard of Hartford, Connecticut, William Loudon of Burlington and Boyd Schurman of Batavia, New York.

A constitution was presented to the class by Harvey Butterfield of Burlington, president of the class. The constitution was accepted by a large majority.

Freshmen Visit Fraternities

Open house nights last Saturday and Wednesday brought the majority of the Freshman class to the different fraternity houses. Fraternity members are eager to meet all new students at the university and all men are invited to any of the fraternities. Tomorrow night the third open house night is scheduled between seven and ten o'clock.

Quoted from a London daily

Campus Comment

To the Editor of the Cynic:

I have read with great care the letter printed under the caption "Chapel Comment" and for enlightment to the [illegible] in hand and our self [illegible] by Monsieur Q. E. D. last [illegible] something to show affection [illegible] has enticed my [illegible] I do not know.

The [illegible] to us worthy Editor [illegible] to address my august [illegible] but think that this catchy [illegible] or should one rather [illegible] *Plume* does so [illegible] you know) [illegible] In these hectic days [illegible] pen-names afford one a [illegible] a thing much needed [illegible] I am told.

[illegible] Mr [illegible] by the majestic manner of [illegible] by [illegible] undoubtedly [illegible] government, [illegible] should not be [illegible] What [illegible] other [illegible] but [illegible]

Monsieur Q. E. D. [illegible] The facts are. Herr Professor Doktor X—— was a great student of poetry, and an internationally-known authority on the meters of the poetry of the Eskimo tribes about the North Pole. The worthy Professor came across a [illegible] and one day [illegible] a new word—one [illegible] to the great scholar. Although the word began with the letter Z, still Professor X could not turn at once to the desired place [illegible] and

Lets go to the fair.
What fair?
Fair now. Fair here today and tomorrow.
—Storm.

California will send two eight oared crews to Poughkeepsie in June
—Exchange

THE PROF

The air is filling with words that's killing
As the professor rambles on
His students wrestle with all their mental might
Their strength is almost gone.

Do they ever think what their heads be [illegible]
Do they think? Like hell they!
Concentrating [illegible] one thousand [illegible]
Instead of one ear and out

If I should worry about my plight
In class conclusion wanes.
I'll smile at once for that I fear
My unpleasing sense of doom

Again [illegible] there is no halt
[illegible] pauses as more
[illegible] he cries again
As one passes at the door

Oh, what a [illegible] is in that room
For what's what's made of
One student [illegible] another hoped
He'd never had our prof.

He calls on one and then the fun
Starts in with one big crash
Get off your feet, up from the seat
He orders, with a flash

The student stands with trembling hands
He mumbles some wrong verse,
Sit down you dope, and now I hope
The next one isn't worse.

So, it is plain, why we complain
The whole course is a whow!
For this you see, was made while he
Kept rambling on—and how!

—*Doggerel.*

Once it was that the Professor started to read Grimm's monumental work from A to Z. And most certainly the only thing possible under the circumstances.

And, while I am on the subject, let me suggest that Monsieur Q. E. D. read the dictionary occasionally himself. His spelling and use of words is genuinely original. And deeds usually mean more than verbiage and persiflage.

Herr Q. E. R.

(*Quod erat ruendum*)

To the Women's Editor of the CYNIC:

This year the sohomore women have been "gypped," and it's time something was said on the subject. Up until this year, it has been a tradition on campus for Freshman women to have "Frosh Week," even as Freshman men have. There has been all sorts of fun and anticipation in connection with it, and it has been an excellent opportunity for the keen Sophomore to observe what Freshmen are good sports and what Freshman women need further chastisement.

This year nothing could be done which would "humiliate" the Frosh. They must not be peculiarly or conspicuously dressed, and they must not be made to do anything "ridiculous"—in other words, the Frosh must be treated with dignity and awe befitting their lofty estate.

This is no fault of the Frosh themselves. As usual they are a good crowd and are anxious to do the right thing. A number of them have even been heard to express regret that the so-called rules were so mild. And so everyone is disgruntled, no one pleased, and a fine and useful old tradition lost off.

'30.

Abe—"My girl is a little brick."
Boots—"Mine's pretty hard, too."

COURSE IN OSCULATION FOR MOVIE CURRICULUM

Los Angeles, Cal. (By New Student Service)—Utilitarians who have been spending a few happy years berating [illegible] for their failure to deal in the practical may now be of good cheer. The inevitable has come to pass and the University of Southern California, keeping step with the march of civilization, has introduced a four year course of training for [illegible] industry.

The specified course of study included architecture and fine arts, technique of cinematography, and composition, literature and criticism. As outlined, the study will deal with the technical phases of the motion picture industry. Hollywood has not yet been mentioned in connection with the outlined innovation.

The *New York World* gives proof of its interest in Southern California's venture by submitting a proposed curriculum. This, in part, follows:

"CINEMA 3a. Understudying. How to substitute for Rin Tin Tin without running foul of the dog catcher. 1 hour a week. Prof. Lon Chaney."

"CINEMA 2b. Osculation. While some instruction is given in theory this is primarily a laboratory course. During the first semester the student will work under the direction of the instructor; during the second he will be required to perform the original experiment, to be not less than 100 film feet in length. 8 hours a week, to count as 4. Prof. Richard Barthelmess."

In the meantime registrants in the new course might begin their work studying "The Drop Kick," with Richard Barthelmess and the ten college men who were selected last spring in a nation wide search for cinema talent. They may begin reform movement right at home.

Choir Tryouts

There are several vacancies for men singers in the University Choir. Tryouts will be held in the Music Building Monday 4-5 p. m. Candidates who have already tried out for the Men's Glee Club need not try out again, but should inform Professor Bennett of their candidacy. The choir sings at the Wednesday morning chapel services, and about once a month on Sunday afternoon, and rehearses two hours a week. Members receive an honorarium of 25 cents for each service and rehearsal.

"Let's see, your brother went abroad on a fellowship, wasn't it?"
"Lord no, on a cattle ship."—*Ex.*

MUST CONFORM TO TYPE TO STAY IN SYRACUSE

Syracuse, New York. (By New Student Service)—She was not the "Syracuse type," and "there had been rumors," so Miss Beatrice Anthony almost a year ago, was asked politely to withdraw from the university. She did, but not content with the meager explanation offered her by Syracuse deans and assistant deans, she took the matter to court and thereby started an interesting bit of litigation that is far from ended.

The university, ordered by a supreme court justice's decision to restate the banished student who was not the "type," has made ready for extended combat. With no more explanation than it offered when it took its first step in the ouster epic, it has entered an appeal from the decision in Miss Anthony's favor. Hostilities, now adjourned, will recommence probably in January.

When Miss Anthony could get no more explanation than the curt "not the type" for her summary dismissal she appealed to the court. The university, however, was not inclined to expand on its original statement, seeking refuge and authority in the pledge, acknowledging attendance to be a "privilege and not a right," which all Syracuse students must sign. On this pledge the defense rested, refusing to consider explanations necessary.

The court thought otherwise, and Justice Edward N. Smith declared the pledge void and without legality, and the university, as a semi-public institution acting without authority in dismissing without stating the cause. With her judicial stroke great rejoicing was brought to many students and great sorrow to many deans.

But the university is tenacious. From Chancellor Charles W. Flint down to the merest official flunkey, the university's right to unqualified dismissals is still a matter of firm faith, despite Judge Smith to the contrary. So the fight goes on, and in the meantime Miss Anthony, rudely separated from her educational career at the beginning of her senior year, awaits the final word from on high. She wanted to spend a year teaching after graduation, "but," she said, "if this keeps up much longer I shall be an elderly woman before it is finished."

SPALDING APPEARS IN VIOLIN RECITAL

The subscription series of concerts for the season 1927 1928, will begin Friday evening, October 14, when Albert Spalding, violinist, will appear in a concert in the gymnasium annex The second number in the subscription series will be given by Mme Marguerite D'Alvarez, famous Peruvian contralto, and the third will be given by Mme. Elly Ney, Pianist, celebrated for her playing of Beethoven

Albert Spalding the foremost American violinist now living, and one of the greatest virtuosi of the violin in the world today, was born in Chicago of thoroughly American parentage He studied at first with Jean Baltrago in New York, later going to Florence, where he worked with Chiti. He passed the examination for professorship in the Bologna Conservatory in Italy at the age of 14, consequently going to Paris where he studied with Lefort. He made his professional début in Paris when 18 and toured Europe with tremendous success during the season of 1908 1909, when he made his American début in New York. Mr. Spalding accompanied Walter Damrosch and the New York Symphony orchestra to Europe four years ago, and has made a tour of Europe on his own account each year since Viewed critically, his playing has always been notable for sincere musicianship, superlative technique and a noble tone

Marital Prospects of Phi Betes

Berkeley, Cal. (By New Student Service.)—Women who have spurned membership in Phi Beta Kappa because of its reputation as a bar to matrimony need to reconsider. Two professors at the University of California have completed a study of the comparative matrimonial advantages of the "dumb" and the bright girls, and their conclusions show the grades of the married students to be a shade higher than of the unmarried. Women Phi Beta Kappas at the University, from 1874 to 1910, were found evenly divided in the married and single groups. Feminine scholarship is expected to advance in proportion to the importance of this announcement.

ALBERT SPALDING

Foremost of American living violinists who appears here October 14

PRESS CLUB INVITATION

Initiates to Press Club were welcomed at a social meeting at the Theta house Wednesday afternoon, with Rachel Skinner presiding as hostess Refreshments were served

286 College Street

sance were fierce and uncompromising. At best, the past rush and the fence rush were in favor at this period. They occurred in September the night before the beginning of the college year, and were the freshman's introduction to college life. A crowd of juniors, the traditional aiders and abettors of all freshmen, would march under the windows of the newcomer, giving the Yale cheer, followed by the name of his class. This was an invitation to prepare for the rush, and an offer of moral support.

"The rush occurred on the Hopkins Grammar School lot. 'Each class,' as one Yale man of that period has expressed it, was in the most perfect sardine formation. The members... put their arms around each others' [illegible] and locked each other up [illegible]. They locked each other up so perfectly that the different files not only stepped together but had to breathe together—that is, if there was opportunity to breathe at all.' When the two classes, massed in this formation, met, the 'fight' was terrific. Something had to give way. Generally it was the freshmen—unless their greater bulk or superior brawn outweighed their lack of experience.

"The 'fence rush', sometimes followed the 'push rush.' In this the freshmen also coached by the juniors, lined up on the sidewalk in front of the Grammar School, two or three abreast, and tried to march to Elm Street, one block distant. During the migration the sophomores descended upon them and threw as many of them as possible into the street. The freshmen clung to the fence—and the fence usually followed the freshmen out into the middle of the thoroughfare."

This sort of reminiscence merely hints at the trampling, bruising, scratching and tearing. But it is enough. The day it represents is definitely gone, in defiance of all attempts at resuscitation. Perhaps the police, who have learned to use night sticks and tear bombs, with effect, and who fail to distinguish between college and any other sort of riots, are responsible for the present horseplay that passes as hazing.

But there is a newer and more genteel hazing in vogue now, not the work of sophomores, but of the universities themselves, who dignify their activity with the designation "Freshman Week." The freshman, once delabored with fence rails, barrel staves and fists is now bludgeoned into conformance with lectures on the freshman's duty toward his university, instruction in note-taking, song services, socials, mental tests, and rallies. From the university president he hears a lot of words on the grown-up status and self-reliance of the new student, statements belied by the very nature of the program; from the deans he hears the same, with perhaps something additional on the theme of a sound mind in a sound body; from the campus pastor he hears of "spiritual values"; from the president of the student body he hears of the fine undergraduate traditions that should be respected with a postscript on the great value of extra-curricular activities as preparation for life; from the captain of the football team he learns of fine undergraduate traditions that must be respected; from the editor of the campus paper he hears of more glories of alma mater and another blurb on extra-curricular activities, and so on, ad nauseam.

This process of freshman bewilderment is gaining converts at a rate that is alarming, especially because most of the institutions employing this polite hazing appear at sea regarding their reasons for following the new custom in sheeplike formation. The alleged purpose of Freshman Week is to assist the entering student to early adaptation to his new environment. The freshman must be on the campus several days earlier than the other students, and is then processed. But why?

A study of Freshman Week in 20 schools throughout the county shows little relation between expressed purpose and professed results. "It is heralded by many as the best means which has been found to bridge the chasm between school and community life and college life," which sounds well. Consider now the vagueness of the advantages named by the institutions which answered the questionnaire:

"Get students adjusted earlier; freshmen 'get going' better; beneficial to freshman and old students; less home-sickness and better spirit among freshmen; students get acquainted with college before upperclassmen come, it is possible to put in material that would otherwise be crowded out."

What of the rough-house methods? The student "became adjusted earlier" and "got going better" mainly through sophomore propulsion. But he was left on his own, and if he was not altogether the master of his fate, he at least to some extent was the captain of his soul. He learned by experience and not by unrelated and to-be-forgotten lectures on the care of notebooks, the glories of traditions and the desirability of writing home at frequent intervals. Perhaps he was literally beaten into his place, but he would probably much prefer that to hearing the counterpart of the earlier football captain tell him politely what he *must* do. Left alone, to find his way about and to adjust himself, he is more likely to bridge the gap than he is under the present method of lecture-hazing, and be better off for having adjusted himself as an individual rather than as one part of a standardized whole.

What is it all worth? One school authority answered, "There are no advantages; it merely makes the teachers come back earlier." And he might have added that it brings the inevitable ennui one year closer.—*New Student*

*No Expense After Purchase

Parker's "No Expense After Purchase" offer means that the new model Duofold necessarily must be a pen that stays in perfect order. Otherwise we'd go broke making repairs.

The fact is that trouble has practically vanished since we replaced rubber barrels with Non-Breakable Permanite.

And of course there's never been anything else like the Parker Duofold Point that yields to any hand yet never loses shape.

If you want to taste something new in writing ease—called Pressureless Touch—try the New Model Parker Duofold at the nearest pen counter.

THE PARKER PEN COMPANY
JANESVILLE, WIS.

*No Expense After Purchase

To prove that Parker Duofold Pens will stay in perfect order, Parker agrees to make good free, if one should fail, provided complete pen is sent by the owner direct to Parker with 10c for return postage and insurance.

The best kind of Roommate

Rooming with a Remington Portable adds to the enjoyment of college life. It is always ready to help with your work. Long reports and theses can be turned out in far less time, as compared with laborious long-hand methods.

Then, too, think of the greater neatness and legibility of typewritten work! Any prof, being human, will have a tendency to give this kind of work better marks.

Remington Portable is the recognized leader in sales and popularity. Smallest, lightest, most dependable, most compact standard keyboard portable. Weighs only 8½ pounds, net. Carrying case only 4 inches high.

You can buy it on easy payments.

INDEPENDENTS TO HOLD FIRST MEETING TONIGHT

The first meeting of the Vermont Independents will be held Friday evening. The object for this meeting is the election of president, secretary, treasurer, vice-president. The most important business which will come before the meeting will be the election of a secretary for this year and the election of a new man to replace Armstrong. The society will maintain a basketball and a baseball team this year. All non-fraternity men are earnestly urged to attend this first meeting, so that the Independents may have a representative membership.

CANE RUSH TO FOLLOW THE PROVIDENCE GAME

The annual cane rush will take place directly after the Providence game, October 15. The event is under the supervision of Boulder and Key and Serpent, and the special committee from Boulder in charge of the rush, composed of S. C. Abell and G. S. Talcott, urges that all members of the two societies be present.

Freshmen will gather at the gymnasium before the game, procure their canes, which this year are to be furnished by the University Stores, line up and march down College Street, up Church Street, and up Pearl Street to the field. The rules governing the fight will be the same as those of previous yeans. The canes will be placed on the fifty-yard line, with half of the crooks one way and half the other. An equal number of freshmen and sophomores will line up at equal distances from the center of the field, and at the shot of a pistol will rush toward the canes. The fight will last seven minutes, and the class with the highest score, whole canes being counted two, and crooks with a foot of the stick one, will be the victor. All contestants must wear tennis shoes, and must remain on the field during the fight.

An optimist is one who puts two cents on a letter and then marks it rush. —*Ex.*

PRIZE ENTRANCE EXAM COMING FOR FRESHMEN

Under the will of Hanna Howard a prize of twenty dollars in gold is given to the Freshman who passes the best examination in mathematics required for admission.

The examination will be held Friday, October 14 1927 from 4-6 p. m. in Room 1 South College.

It will cover the mathematics required for admission that is Plane Geometry and Elementary Algebra the examination being more specifically stated on page 126 in the current catalogue.

Any further information consult Professor Thomas Jefferson Smith or any member of the Department of Mathematics.

The idea of women's archery is all right, but why rob Cupid of his work?

Compliments of
C. A. BARBER & CO.
112 Church Street

THE longer you smoke Prince Albert, the more convinced you become that it is the most satisfying tobacco that ever nestled in the bowl of a jimmy-pipe. You get a brand-new thrill every time you open the tidy red tin and breathe that wonderful aroma.

And when you tuck a load into the business-end of your pipe, light up, and open the drafts—say, Mister! Cool as a letter from home, telling you to cut down your expenses. Sweet as an unexpected check in the next mail. Sweet and mild and long-burning.

So mild, in fact, that it never bites your tongue or parches your throat, no matter how swift your pipe-pace. Yet it has that full, rich tobacco-body that lets you know you're smoking and makes you glad you *are*. Try Prince Albert, Fellows, and get the joy that's due you! Buy a tin today and get started!

P. A. *is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.*

PRINCE ALBERT
—no other tobacco is like it!

CATAMOUNTS LOSE THROUGH BREAKS

Lawder, Williams Guard, Collects Two Touchdowns of Game—Smith, Winchenbach and Levine Star for Vermont

VARSITY THREATENS SEVERAL TIMES

Once more Vermont returned home on the wrong side of the score but only because the breaks of the game went against them. Several times during the first period the Catamounts threatened to put the ball across for Vermont's first touchdown but each time late was against them and they failed to score. With the next game on the home field the Green and Gold stood for blood and victory.

Again the wonderful defensive work of Captain Smith featured the Vermont attack. His punting was easily the outstanding feature of the entire game. Time after time Smith would save the Catamounts many yards by his long spiral boots and sometimes not only yardage but also saved Vermont from being scored upon. The work of Lawder, Williams left guard, was also very outstanding. He scored both touchdowns for the opponents which is a very unusual feat for a guard. In the second quarter he scored the first points of the game on a lateral pass from Howe and crossed the Vermont goal while in the fourth quarter he blocked a Vermont punt and recovered the ball back of the Catamounts goal line for the last score of the game.

Winchenbach also starred on the defense for the Green and Gold along with Levine who was playing his first varsity game as a guard.

The line-up:

WILLIAMS		VERMONT
Tenney, le.	le.,	Palmer
Rohrbach, lt.	lt.,	Damon
Watson, lg.	lg.,	Leary
Muller, c.	c.,	O'Keefe
McQuatters, rg.	rg.,	Levine
Jones, rt.	rt.,	Winchenbach
Dougherty, re.	re.,	Sirosis
Smith, qb.	qb.,	Conway
Coughlin, lh.	lh.,	Mace
Boynton, rh.	rh.,	Estabrook
Dawes, fb.	fb.,	Smith

Score by periods:				
Williams	0	6	0	6—12
Vermont	0	0	0	0— 0

Touchdowns—Lawder 2.

Substitutes—Williams: Howard for Rohrbach, Lawder for Watson, Gailor for Lawder, Watson for Muller, Lazelle for Watson, Andersen for McQuatters, Denning for Jones, Thompson for Dougherty, Ashby for Thompson, Putnam for Smith, Howe for Coughlin, Eizner for Howe, Brown for Boynton, McAllister for Brown, Hazzard for McAllister. Fall for Dawes. Vermont: Robinson for Palmer, Kropper for Damon, Scutakes for Mace, Macomber for Estabrook, Leary for Kropper.

Referee—Bratt, Tufts. Umpire—Conway, Syracuse. Linesman—Grant, Springfield. Time of periods—Fifteen minutes.

PRESS CLUB PLAN TO FEATURE ACTIVITIES

With Rachel Skinner as hostess, the first social meeting of the year was held last Wednesday by Press Club at the Kappa Alpha Theta house. Mr. Dean of the English department, the faculty advisor of the organization, was guest of honor. At his suggestion a committee was created to write articles concerning the activities of college students for their respective high school papers. Irene Witkus, Louise Beasley, and Agnes Wheeler were elected to serve on this committee. At this meeting also, Dorothy Dearing was chosen chairman of the Photography committee as successor to Mary Spargo. Regulations concerning attendance were announced as follows: two unexcused absences will cause the member to be automatically dropped; excuses must be procured from one of the officers in advance of the meeting.

Refreshments of cocoa and sandwiches were served by Rachel Skinner, Dorothy Cottrell and Dorothy Dearing.

The Press Club will next gather for a business meeting on October 19, in North College, at 1:30 o'clock.

PROF. THOMAS SPEAKS IN CHAPEL WEDNESDAY

Professor Evan Thomas led a most inspiring service at the Wednesday morning chapel exercise. His topic was taken from the ninth chapter in Luke. According to Professor Thomas each of us has in himself more than he realizes, more than he himself is willing to believe. He has a hidden, a subconscious nature, unknown virtues, and a hitherto unexplored soul. It takes something unusual, something really grand and uplifting to bring out these concealed powers and to encourage man to assert himself to his greatest capacity. He cited the case of the World War when thousands united in a common sacred cause and unselfishly gave all they had to the promotion of democracy and freedom. It was then that men forgot their plain, everyday natures and offered their fullest measure of devotion, and their greatest limits of mental and physical strength, that their country and the world might resume progression. Were we to attempt to develop these powers, were we to earnestly strive to bring into expression the laudable features within us, we would then be aiding our own characterrs and promoting the advance and efficiency of the world.

UNIVERSITY BATTALION HONORS GENERAL WOOD ON BACK CAMPUS

Captain Lauer Read a Short Biography of the Famous Roughrider Who Was Instrumental in Founding the R. O. T. C.

In honor of General Leonard Wood the entire University battalion went through simple rituals Friday morning. Starting the program the band played "The Star Spangled Banner," while every man stood at attention. Captain Lauer, a new addition to the official staff, read a short history of the life of General Wood and made a few remarks to the battalion.

General Wood was born at Winchester, N. H., October 7, 1860. He graduated from Harvard medical school in 1884, and drawn by the lure of the army he became a contract surgeon in the United States Army in 1886. Shortly after his appointment he was sent to Arizona where he was engaged against the hostile Apache Indians. From this he won the congressional medal of honor, and the captaincy. At the outbreak of the Spanish War, Captain Wood led the cowboys and frontiersmen that Roosevelt had organized. He saw fighting at San Juan Hill and La Guasima, where he was made a Colonel and later Brigadier-General. He served as military governor of Santiago, Commander of the Department of Santiago and Puerto Principe and military governor of Cuba, in which position he remained until the government of the island was relinquished to the president of Cuba in 1902. He also served in the Philippine Islands as commander of the Department of Mindano, governor of the More Province and commander of the Philippine Division and Labor, as governor-general, which position he held from 1921 until his death.

In addition to the Congressional Medal of Honor, General Wood won two silver star citations, and the French Medal of Honor; he held the degree of M D from one institution; LL.D. from eleven institutions, that of D Mil Sc from two institutions; and that of D Sc from two.

In ending Captain Lauer said, "He stands in a unique position to us, members of the R O T C for he was truly the one who established the C. M. T. C. and the R. O. T. C., and the simple ceremony which we do is in honor of the man, a real citizen, a soldier, a statesman, who practically devoted his life to the betterment of his fellowman."

KEY AND SERPENT MEN PLAN ACTIVE WEEK-END

Key and Serpent, honorary Junior society, convened at the Phi Delta Theta House, last Tuesday evening, October 4, 1927, for its regular business meeting. Plans were drawn up for the week-end of November 12. On this date Vermont plays its traditional rival, Middlebury, on the gridiron at Centennial Field. The plans though tentative as yet, call for a smoker Friday night preceding the game and a dance following the contest on Saturday evening. Committees to carry out the several tasks were appointed.

LITERARY MAGAZINE RAPIDLY TAKING FORM

The editors of the new literary magazine, the first issue of which will appear about November 1, will welcome literary contributions from students, and the business managers will be glad to take subscriptions. The arrangement of material in the first issue is nearly completed, and the table of contents will be ready for publication at an early date.

Between the first and the second appearance of the magazine, a contest will be conducted to obtain a name for the publication. A year's subscription will be given to the one who suggests the winning title. The rules of the contest will be printed later, probably not until after the first issue has come out.

Kenneth Stephens has been appointed to succeed George H James, who has resigned.

RHODES SCHOLARSHIPS TO BE AWARDED SOON

Students, who are candidates for the Rhodes Scholarships will have until October 22 to make application to J. C. Sherburne, Esq., Randolph, Vt., Secretary of the Committee of Selection of the State. As institutions with less than 500 students may be represented by not more than *two* candidates, and institutions with from 500 to 1000 students not more than *three* candidates, and so on, Vermont may be represented by 2 candidates. On December 10, 1927, the State Committee, Pres Guy W Bailey, chairman, will meet in the Marsh Room of the Billings Library to consider all applications from this State. One scholarship will be awarded this year.

Candidates must in the first instance be selected by their own college or university, and each candidate to be eligible must: (a) Be a male citizen of the United States, with at least five years' domicile, and unmarried; (b) By the 1st of October of the year for which he is elected have passed his nineteenth and not have passed his twenty-fifth birthday. (Candidates are eligible who were born on or after October 1, 1903 and before October 1, 1909.) (c) By the 1st of October of the year for which he is elected (i. e., 1928) have completed at least his Sophomore year at some recogonized degree-granting university or college of the United States of America.

In brief, selection will be decided by the following: (1) Literary and scholastic ability and attainments. (2) Qualities of manhood, character, public spirit, and leadership. (3) Physical vigor, as shown by interest in outdoor sports or in other ways.

The stipend of a Rhodes Scholarship is fixed at £400 per year. The scholarship itself is tenable only at Oxford, it may be held for three years subject to the continued approval of the College at Oxford of which the scholar is a member.

Information and application blanks may be obtained in this institution from Guy W. Bailey, chairman, Committee of Selection.

COURSES AT UNIVERSITY OFFERED TO DAIRYMEN

The most complete and extensive series of short courses ever offered to Vermont dairymen will be given during the months of November, December, January and February by the Dairy Department of the University of Vermont.

These short courses will be given in units of about two weeks, so arranged that a student may take one, two or any number that he or she desires.

Practically the entire field of dairying, both production and manufacturing, will be covered. Outside specialists will assist the regular teaching staff.

The Dairy Department, under Dr. H. B. Ellenberger, has undergone a complete reorganization in compliance with provisions included with the appropriation act passed by the last Legislature. A portion of this money makes this series of short courses possible, and provides for two new full time teachers.

Professor M H Campbell comes from the University of Illinois to handle the work in dairy production and Professor R. W. Smith, Jr., from the Massachusetts Agricultural College for the work in dairy manufactures.

A detailed schedule of these short courses will be available in the near future.

Frosh Swamp Plattsburg Normal School Gridsters

Rattan's Kittens Show Great Strength Against Scrappy New York State Eleven—Watkins Outstanding Star of Game, Making Three Touchdowns and a Goal

VERMONT'S DEFENSE SHOWS IMPROVEMENT

The Green and Gold Freshman eleven won its second game in two starts last Saturday afternoon by taking the supposedly strong Plattsburg Normal School outfit into camp by a score of 27 to 0.

The game was much more one-sided than the score would seem to indicate, as the New York State team was on the defensive mostly throughout the game, and failed to register a first down, as against 15 gained by the Kittens. The defense of the winners showed great improvement over the T. C. A. game and proved to be a stone wall whenever the visitors attempted to carry the ball.

Watkins was the outstanding star of the game, making three touchdowns and kicking one goal, besides gaining an average of ten yards whenever the ball was gained to him, and being all over the field making tackles on the defense. Allen, De Witt, Park and the two ends, Tobin and Rugg, also showed up well. The big right half of Plattsburg and the scrappy little quarter were the mainsprings of the losers.

The weakest part of the visitors' playing was the punting, many times the locals gained from ten to twenty yards on exchanging kicks and thereby placing them in scoring position.

It was but a matter of a few minutes for the Kittens to carry the ball over for the first score. After an exchange of kicks soon after the opening whistle, Watkins began tearing off gain after gain and brought the ball to within 15 yards of the enemy's goal line. Then when Plattsburg braced for two downs, Allen tried a little strategy and let loose a long forward pass which fell into the waiting hands of Rugg for the first touchdown. The visitors were taken completely by surprise by this change in tactics and were powerless to break up the play. Watkins failed on the try for goal.

After a steady march of 60 yards down the field, Watkins smashed off tackle and slid across the line early in the second quarter, the big colored star then drop kicked the extra point. More exchanging of punts and then Plattsburg found itself with the ball in its possession and 25 yards to go for a first down, due to a wild pass from center which lost 15 yards. A kick was in order, but it was a poor one and Allen let it drop in the midst of Plattsburg tacklers when it bounced back and came to rest on the P N S 40-yard stripe. Successive line smashes and end runs brought the ball to the 22 yard mark, and then Allen was tackled for a loss and Watkins fumbled with the result that it was fourth down and 13 yards to go for a first down, but this was remedied by a pass, Allen to Watkins and the latter fought his way to within 15 yards of the goal. A prettily executed end around found the visitors off their guard and Rugg galloped to the five yard line. Watkins took it across in two plays and again failed at goal.

The half ended soon after with the Frosh on the long end of a 18-0 count. The visitors apparently became imbued with new life between halves and when they started the last half presented a much more formidable defense. However an exchange of kicks gave 31 the ball in Plattsburg territory, but they were unable to gain and Watkins sent a beautiful spiral to Plattsburg's 5-yard stripe. The kick was returned but proved a dismal failure and gave the locals the pigskin 25 yards away from the goal. Once again Watkins carried the ball almost unaided to Plattsburg's 8-yard line, then a fumble resulted just when a touchdown was in sight and a Plattsburg man fell on the ball across the goal line, registering a safety for the Kittens.

After the New Yorkers had held their opponents for downs near their goal about the middle of the last period, they made a desperate attempt to score by the aerial route but the ball fell into Vermont hands and once again gave Watkins an opportunity to plunge over the line for the final tally.

The game ended with the ball in the locals' possession not far from the

(Continued on page 4)

NOTICE FRESHMEN

Open house night has been changed from Wednesday to Thursday evening, because of the Boulder Smoker, which occurs Wednesday evening.

GLEE CLUB PRACTICES FOR DECEMBER CONCERT

The Vermont Women's Glee Club, under the leadership of Professor Bennett, has started working for what promises to be an unusually successful season. With a membership of fifty-one voices, the club is already preparing for a choral concert in December. Plans are being formulated for the presentation of a comic opera sometime in the spring.

At a meeting held Thursday evening in the Music House, several songs arranged by Professor Bennett were practiced. The next meeting will be held at the Music House, Tuesday evening, October 11 at seven-fifteen o'clock. The hour has been changed from seven o'clock for the benefit of those living at a distance from the Music House.

BOULDER WEEK PROGRAM OPENS WEDNESDAY WITH BIG OPEN AIR SMOKER

Bonfire on Back Campus—Boulder Dance—Water Fight—Cane Rush Will be Features of this Year's Festivities

Boulder week this fall will start off with a big smoker to be held Wednesday evening, October 12, on the back campus. The Gold Key society will have charge of the bonfire in the center of the field, supplied by material gathered by the class of '31. Cheers, songs, and speeches are on the program to pep up the football men for the game on Saturday with Providence.

On Thursday the annual Soph-Frosh water fight will take place at 4 o'clock on the back campus. Last year the sophomores won by a score of 2-1 due to greater experience.

Saturday, October 15, the Green and Gold eleven will play Providence at Centennial Field. Gold Key will usher as has been done in previous years. A big crowd is expected as Vermont has a great chance to win this game. Immediately following the game will be held the annual Soph-Frosh cane rush. This year the Freshmen will obtain their canes from the University Store and then will join in the parade from the Gymnasium to Centennial Field, being led by the R O T C band. Sneakers are to worn by both sides, anyone without them will be barred from entering.

Saturday evening the first dance of the social calendar will be held under the auspices of Boulder. Dancing will start at 8:30 with "Joe" Lechnyr's Vermonters playing. The committee in charge includes Prentice, chairman, Talcott and Abell.

You can tour the world now on the easy payment plan. Imagine falling down on the installments in Afghanistan.—*Hamilton Crush.*

BLUESTOCKINGS TO MEET

The first meeting of Bluestockings will convene Tuesday, October 11, at the Kappa Alpha Theta House at four o'clock. All members are requested to bring to the meeting some contribution for the new Literary Magazine, the first issue of which goes to press shortly.

Question of Present Day Collegiate Finance Assumes Grave Proportions

s going to pay the increasing
higher education?" This is
with which Dr H M
President of Alma College in-
the problem of present day
financing in the *Dearborn*
st This also is the problem
giving college presidents
and sleepless nights as well
appearance of men of high
"Indeed," writes Dr. Crooks
odern college president wanly
that he is today more of a pro-
and solicitor than a scholar
gentleman of the old school
is constantly packed and his
ge of prospects would make a
esman envious"
opinion of such men as John
ketoller, Jr. and Trevor Arnett,
perhaps the leading authority
subject today, the public is no
willing to pay the major part
expenses of the modern college
nor can individual philan-
long meet this demand.
a of rising tuition fees has
ady set in. Even in average
colleges, this increase in
has begun. The day when
poor boy and girl has an equal
unity to gain a college educat-
for the most part gratis, is slowly
Perhaps this is the answer
the popular question of who should
to college.

Immediately arises the cry of the low tuition advocates. They say, "Better undercharge four who could pay, but will not unless they are forced to than to keep one poor lad out of college." They point to statesmen that learned to speak on a bare platform in a fourth-story college debating hall.

They point to inventors and scientists, whose researches have made development of riches equal to the total value of all the college plants in America. They tell true and touching stories of preachers and educators who have walked from the farm, taught school between terms, somehow paid ther small fees, and emerged to bless the world.

"But, retort the high-payment theorists, we'll still care for those. Let us charge the full costs, from all who can pay, arriving at it by a gradual series of increases and educating the public to the idea as we go. Let us raise loan funds. With these loan funds let us carry the poor boys and girls until after graduation—for ten years if necessary—and then let them pay out of the larger incomes which college training makes possible.

"At any rate the movement toward higher tuition fees is on its way. Our generation will probably not see the students paying all the costs, but students will soon be paying a large share."

Intercollegiate News

St Lawrence U. is now using the honor system to good advantage. It seems that it should be a good thing here.

Why study? Vassar girls are interested mainly by interest in the amount of work expected or necessary, the sense of future value and marks left out of considerably less impor-

HOME ECONOMICS NOTES

The faculty of the Home Economics Department entertained the girls of the Home Economics College at a beach picnic Saturday afternoon, October 1, at Miss Terrill's camp in South Hero. Water sports, games and singing, together with a basket lunch served on the lake shore, made the party a memorable and most pleasant occasion.

Miss Edna White of the Merrill-Palmer Nursery School in Detroit recently took luncheon at the Practice House and in the afternoon spoke to the students of the Home Economics department on the nature and work of the school.

The girls are now fitting out new rooms in the Practice House, the need of which has been growing greater with the increased enrollment.

W. A. A. Notes

Eighteen girls competed in the tennis tryouts held last Friday and Saturday, Monday and Tuesday. Miss Cummings, Miss Blanchard, Muriel Cleveland and Della Martin judged the tryouts and a list of class teams will be posted early next week.

Doubles only will be played in this year's tournament, which begins Monday.

Miss Anna Spaulding of Essex Junction is conducting a class in advanced tennis. At present there is an enrollment of twenty-four. There is still an opportunity for those who have not yet signed up to attend the Monday and Wednesday classes.

Volley ball practices have begun, with a large enrollment, especially in the lower classes.

W. A. A. council met on Monday afternoon. At this meeting plans were made for the fall Field Day, which will be held at Grassmount on November 3, weather permitting. Otherwise it will take place November 4.

"I beg you, Adolph, kiss me gently, very gently—I'm in mourning."—*Oxford Smile.*

Coach Lawson, of Williams, said after the Middlebury game, "It was disappointing on the whole. We were outfought by a beaten team that was all ready to crack in the beginning of the second half. We failed to capitalize several opportunities and the defense against fowards was negligible. Except for the first touchdown resulting from a fumble, they shouldn't have scored."

Motion pictures will be taken of all the football games to be played this fall by the Boston College eleven, it was announced recently. Permission has been received from Coach Leo Daley, who has no fears of opponents will not be shown outside the college, diagnosing his plays as the pictures at least not until the end of the season. Then under the special arrangement with the B. C. officials, movies will be shown at many gatherings of the students and alumni.

Advanced classes in military science at the University of Vermont have proved so popular during the past few years that additional requirements may be necessary to keep the class within the limits set by the War Department. The university is allowed a quota of eighty men in the advanced courses and according to Colonel Black, this number may be exceeded if the Medical Corps is included in it.

NEW ESSAY CONTEST ON AMERICAN INSTITUTIONS

The Lawyers Club of the University of Michigan has instituted an annual competition for essays dealing with American Institutions. The club is offering prizes of $500 and $250 respectively for the two best essays submitted. The nature of the essays may be historical, sociological, legal or otherwise. All inquiries for further information should be addressed to Professor G. C. Grismore, secretary, Board of Governors of the Lawyers Club, University of Michigan, Ann Arbor, Mich.

Essays may be submitted until October 1, 1928. The club plans to make this competition annual in order to incede the interest in this subject among young people.

JUNIOR SITTINGS ARE POSTPONED FOR A WEEK

George James, the editor-in-chief of the 1931 *Ariel* announces that the taking of photographs of the members of the Junior class to appear in the *Ariel* will not begin until a week or more. There has been considerable delay in the matter due to misunderstandings with the firm who are in charge of the work. At the proper time, however each Junior will receive an appointment card stating the whereabouts and time for his sitting.

The Hammersmith Company has sent out a dummy of art work which includes division pages in color. The *Ariel* Board is considering this and their approval is expected within a few days.

Particularly good snapshots are desired by the staff in charge. They must be given to Arthur Birchard at an early date. A drive for such material will be made sometime in the future.

Ten pictures have been sent to the publishing company to be made into plates They deal with campus views, a phase of work which will be of particular interest this year.

James declares: "It is unadvisable to predict too much at this early date, but we can assure all that the *Ariel* will be out on time. Furthermore, it will be a good issue. Color work will be featured and no previous volume will have contained an equal amount of beautiful color schemes and harmonies. All pictures will appear on pebble paper of a rough-grained finish, which will add to their clearness and make them stand out. It is expected that more will be definitely known within a short while about those facts which pertain to the taking of Junior pictures, and the decision of the board in regard to the art work recently submitted."

Waiter—"Would you like to drink Canada Dry, sir?"

E. Bracken-Brackenavitch—"I'd love to, but I'm only here for a week."—*Judge.*

DEAN PERKINS SPEAKS AT STATE "Y MEETING

The Vermont state Y. M. C. A. will celebrate the 60th anniversary of its existence on October 9 and 11 The anniversary service is to be held in the Baptist Church on Sunday evening October 9 at 7 30 o'clock Many notable men are to attend and speak among whom are D. A. Budge of Montreal, Rev H B. Rankin of Lowell, and Claus Olandt of Lincoln Park N J

The state committee will have its semi-annual meeting at the Y. M. C. A. rooms Tuesday, October 11 at 2 o'clock. At this meeting Dean G. I. Perkins of the faculty and D. J. Merrill, president of the Vermont Christian Association and a member of the Senior class, will be speakers of the evening. A dinner will conclude the anniversary at Hotel Vermont on the same evening, October 11 at 6 o'clock. Governor John E. Weeks and Albert E. Roberts of New York City have been obtained as speakers of the evening

VERMONT REPRESENTED AT Y. M. C. A. CONVENTION

Delbert Merrill, president of the college Y. M. C. A. left last Friday morning for Hartford, Connecticut to attend the annual convention of the New England Field Council of Student Associations. Representatives from nearly every college in New England States were present. The convention was held in the Hartford Seminary lasting from October 7 to 9. Expenses in Hartford are met by the Field Council, while each Y. M. C. A. delegation pays its share of traveling costs.

The convention meets each year to give the student secretaries and presidents new ideas and suggestions on Y. M. C. A. work. Through the open discussion each delegate receives as well as contributes an abundance of subject matter which may be applied in his duties and thus aid him materially.

"What are you standing over there throwing rocks at that little boy for?"

"I dasn't go no closer, ma'am. He's got the whooping cough."—*Toronto Goblin.*

BOULDER WEEK ENDS WITH DANCE TOMORROW

STUDENTS WILL PARADE TO CENTENNIAL FIELD AT FOUR O'CLOCK TODAY

Band Leads Team Backers to Football Field For Pep-Raising Session and Cheering Practice

[illegible] society is prepared for a [illegible] held today. It will start [illegible] nasium and, with the Uni[illegible] band in the lead, will proceed [illegible] football field. Sabin Abell and [illegible] Parrott, will act as chairmen [illegible] sponsors of the event. The [illegible] of this affair is to stir up pep [illegible] real college spirit among [illegible] students. Boulder feels that this [illegible] the time when the football [illegible] needs the college's most earnest support. By getting the students together and leading them in cheers, giving [illegible] an opportunity, as a body, to [illegible] the team work out in practice [illegible] appreciate both the worth of the [illegible] and the hard work of the fellows [illegible] are doing, they believe that they can achieve the desired end.

A prominent Boulder member declares: "In the past, this event has been a partial failure due, no doubt, to the decided lack of support on behalf of the students. This year, however, we feel sure that the fellows will be glad to go out and support their team and university, and we anticipate a [illegible] Vermont. These events that we plan are all in accordance with the standards of welfare and happiness for the students and with the promotion of success on the part of Vermont. So it is not only each student's duty to attend such affairs, it his his privilege and good fortune. May we count on all students enthusiastic presence on Friday at 4:00 P. M. at the gym?"

CHARLES STEVENS

WELL KNOWN CHEMIST SPEAKS HERE TONIGHT

[illegible] D. Bancroft of Cornell [illegible] and one of the best known [illegible] in the country speaks to[illegible] "Methods of Research" at [illegible] M. in Room 27, Williams Sci[illegible] Hall. His address will be non-[illegible] and of general interest to the [illegible]. He has a broad reputation and [illegible] degrees in this country [illegible] countries as well. He has [illegible]sident of The American [illegible] Society, and also of the Am[illegible]ro Chemical Society. Dur[illegible] he served as Colonel in [illegible]al Welfare Service. At the [illegible]e he is Editor of the *Journal Chemistry*. Dr. Bancroft [illegible] a very versatile man and [illegible] books and many articles [illegible]aried chemical themes. [illegible] know him personally say [illegible]n with a keen sense of [illegible] a great golf enthusiast [illegible] Bancroft's ideas which has [illegible] to a considerable extent ex[illegible] during the past few years [illegible]putation of fogs in harbors [illegible]g electrified sand from air-

[illegible] of three and one-half mil[illegible]s a new law school is to be [illegible] Yale University.

BAND TO MAKE SECOND APPEARANCE TOMORROW

Saturday afternoon the R. O. T. C. Band will make its second public appearance of the year when it is to play at the Providence football game. Much progress is being made and Mr. Lechnyr is optimistic for another successful season. In spite of the restrictions set on membership there are still several candidates who are working hard to make their position in the band secure. Competition is keeping up the interest of the players and accordingly improving the work of the organization.

ATHLETIC COUNCIL AWARDS LETTER TO GATE MANAGER

K. W. Kyle, '28 at the October meeting of the Athletic Council held last Monday, was awarded a sweater for being gate manager. This is the first time that such an award has been made at the University of Vermont. Kyle is a member of Sigma Phi, was assistant manager of the football team last year and has played on several class teams. He is taking Civil Engineering and is from Troy, New York. The Athletic Council also awarded a sweater to H. C. Collins, '28 for being manager of the Frosh football squad. Collins is a member of Phi Mu Delta fraternity, director of the 1928 Kake Walk, and treasurer of the Senior Class. Other awards were the baseball and track letters to Sabin Abell '28 and K. B. Stephens '28 respectively, and the fencing insignias to L. Calcagni and C. H. Blackhall '27. The latter won their insignia for their work on the first fencing team at Vermont following the Great War. Blackhall was captain of the team and the star of the season. Calgagni won several bouts against the crack Norwich team.

The council also took the budget under the advisement, but no decisions have been released yet on this matter. All the members of the Council were present.

ARIEL MANAGERS START EXTENSIVE CAMPAIGNS

The advertising campaign of the 1929 *Ariel* under the management of C. C. Lyman has been launched and is bringing in results. Eight scrubs reported last week and through their efforts the local and foreign subscription campaigns are making good headway. These scrubs, who are members of the sophomore class will be eligible for election to the staff of the 1930 *Ariel*. About 250 subscriptions have been taken so far, but seven or eight hundred are needed to make the year book a success.

Kenneth Price subscription manager, has announced that tables at which subscriptions will be taken are to be placed in the hall in the Old Mill during the Chapel hour on Wednesday mornings during the next few weeks to accommodate those who have not yet signed up for their copy. No year at college is complete without a copy of the year book, as it contains a record of all the important events that occur during the year, besides views of the campus, of interesting events, and of various other things connected with the University.

FROSH WIN WATER FIGHT

After being defeated in the first round of the water fight, the Freshmen came back, and punished the Sophomores, thereby winning the water classic. The Sophomores scored a draw in the second round, but were unable to hold their ground in the remaining two rounds.

The Freshmen were somewhat erratic in the first round, and did not seem to get the Sophomores range. In the other three rounds they showed improvement, while the second year men were unable to reach the Frosh with the powerful stream of water. Only one clean knockdown was scored that by the Frosh in the third round.

NOTICE

Members of Eta Sigma Phi will meet Monday at four in Room 3, North College for play try-outs

SABIN ABELL

President of Senior Class and Chairman of Boulder Committee in charge of Parade this afternoon

PROMINENT SPEAKERS INCLUDED IN SMOKER HELD WEDNESDAY NIGHT

"Prof" Dean, Max Powell, Coach McAvoy and Others Address Nearly Five Hundred at Boulder Smoker

The Boulder Smoker, held last Wednesday night at the gymnasium to arouse enthusiasm for the Saturday game with Providence, started off the events of the week with a bang. Lechnyr and his R. O. T. C. Band furnished music and the Boulder Society obtained the speakers for the evening. Howard Prentice, '28, president of the Boulder Society, introduced the speakers the first one being Professor Dean of the English Department. After a few humorous comparisons of the speaker to a pigskin blown up with too much air, Dean launched out in his entertaining manner setting forth the reasons why the student body should be back of the team, and the sportsman every man of Vermont is expected to be. He set an ideal for the Vermont men to live up to. He urged that pep be aroused and remarked that the students had started well by all lighting up their cigarettes and forming a smoke screen. (The smokes were furnished by L. P. Wood Sporting Goods Co.)

Leonard T. Smith of Morrisville, and the second speaker on the program, told entertaining stories in French dialect which were followed by peppy cheers and the singing of "Vermont Victorious."

Eugene Clowse, '09, of Richmond recounted some dramatic incidents on the field of goal posts in his college days, and the shattering effect his aroused enthusiasm had on a certain old brass horn which he had been playing in the band. He suggested that some of the present Band players smash their instruments in their enthusiasm next Saturday. He added other pertinent and laudatory remarks about the University of Vermont, its wonderful leadership, and the pride with which he regarded the present generation, still, little changed since the days when he had his "fling."

Max L. Powell, a graduate back in the gay old '80's, president of the Chamber of Commerce, and a booster in student activities, proved to be a popular speaker of the evening. He, as he stated, had never attended a smoker before, since, in his college days, very few students were practiced in the gentle art of smoking. But in these days, he went on, a boy who doesn't smoke is dubbed either a tightwad or a moron. Mr. Powell stressed loyalty of the student body to the team as one of the greatest assets for assured victory. Pep and enthusiasm, and the backing of the whole college, is necessary for any team to win, and he stated too that the Chamber of Commerce was always interested in the athletics at Vermont. He finished by leading the student body in an applaud for President Bailey.

Captain Rattan of the Military Department and coach of Frosh Football, was introduced as the fifth speaker amid the enthusiasm of the students. With a few words delivered in a decisive way he excited more pep than had been hitherto shown. Following him in quick succession appeared Coach McAvoy who stated that Vermont had a football team with real

(Continued on page 2)

BOULDER DANCE TO BE HELD TOMORROW NIGHT

A fitting climax to Boulder Week will be the Boulder Dance to be held in the gym [illegible] the night of October [illegible] from [illegible] P. M. [illegible] o'clock. The Vermonters [illegible] the services of the [illegible] R. O. T. C. band [illegible] which [illegible] the music [illegible] from [illegible] a chance to hear Vermont's [illegible] orchestra. It is Boulder's intention to entertain the Providence players on this occasion. With Sabin Abell acting as chairman of the dance, a good time is assured. Abell was chairman of the 1928 Junior Week committee, which arranged for the successful prom in years. Admission to the dance will be one dollar a couple.

KITTENS TO TAKE ON PLATTSBURG SATURDAY

On Saturday the Vermont Freshmen will journey to Plattsburg where they will take on the strong 30th Infantry. The soldiers have a strong eleven this year and hope to take the Kittens into camp for their first defeat of the season. However Coach Rattan and his Kittens have other ideas and expect to take the gunmen by surprise and thus add to their long string of also rans.

The Yearling squad is in nearly perfect condition with the exception of Smyth who is out of the game with injuries for the second time this season. His place is being ably filled by Rugg who made the first score of the game last Saturday when he pulled in a pass from Watkins.

At present Watkins and Allen are the main threats in the frosh backfield with the former doing the running and the latter doing the passing and the kicking. These two men are hard to beat at least it has been so far and the soldiers will probably find this scoring combination a little too much for them.

WOMEN TO HOLD MASS MEETING THIS EVENING

A "Smokeless Smoker" something new in the way of pep meetings, is to be staged tonight at seven o'clock in the Vermonters' Club House for all University women. A special feature will be the program of speeches by prominent members of the Student body and by members of the football team, whose presence is assured.

Cheers, singing of college songs and refreshments are the order of the evening. At this time also, the Freshmen will elect their member of the Y. W. C. A. cabinet.

Eleanor Davison and assistant officers of Y. W. C. A. are in charge of the mass meeting.

DEUTSCHE VEREIN WILL BEGIN ACTIVITIES SOON

Der Deutsche Verein, the German Club, plans to have its first meeting of the year in the near future.

It is expected that this year's schedule of activities will be similar to that of last year. In addition tentative plans are being made for the presentation of a play in German.

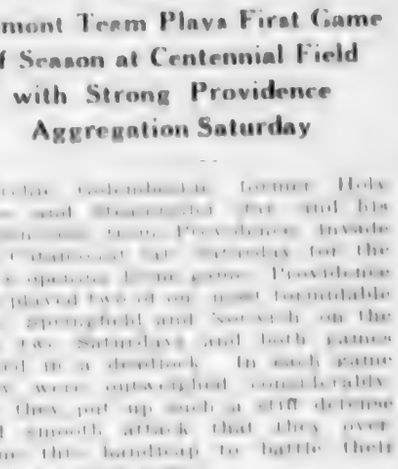
The German Club has been approached for membership by a national organization with headquarters in the University of Michigan. This University has the largest German department in the country and has been very active in fostering interest in the German language.

Membership in Der Deutsche Verein is open to any student in the upper classes of German. The club has thus far supplemented the work of German 106, the modern drama course in German.

Mortar Board, the Senior Women's Honorary Society, will give its autumn dance on October 22nd at the Burlington High School Gymnasium. Tickets may be procured from any member of Mortar Board. Tickets are $1.25 a couple.

STUDENT SENATE

There will be a meeting of the Student Senate Friday evening at 7:15 at the Sigma Nu Lodge



FIGHTING CATAMOUNTS MEET DOMINICANS IN OPENING HOME GAME

Vermont Team Plays First Game of Season at Centennial Field with Strong Providence Aggregation Saturday

[illegible] Coleman's former Holy [illegible] and [illegible] for and his [illegible] team, Providence invade the Catamount [illegible] Saturday for the [illegible] opening home game. Providence [illegible] played two of [illegible] most formidable [illegible] Springfield and Norwich on the last two Saturdays and both games ended in a deadlock. In each game they were outweighed considerably but they put up such a stiff defense and smooth attack that they overcame this handicap to battle their rivals on even terms.

Last year the Providence eleven defeated us 20-0 on their home field but from present reports the teams this season should be about evenly matched with the Green and Cobleers having a slight edge because of playing on home ground. Providence has a fast backfield and a dazzling overhead attack that the Cats will have to be on the alert to stop. Coach Coleman-hacker knows football from A to Z and undoubtedly will have plenty of tricks in his bag to spring on the McAvoyites, in order to push the ball over the line of victory.

In Hedder Providence has an able pilot he is on the receiving end of the forwards from Allen, this combination being responsible for the touchdown against Norwich. Allen, the right half of the Dominicans is a dangerous passer and kicker and if he is allowed near the opposing goal there is grave danger of 3 points being chalked up in Providence's favor. Nawrocki, Colemanhacker's hard fighting

GEORGE TATARTI

Prominent in Class activities and supervisor of Student Parade to Centennial Field.

right tackle has the reputation of breaking through and smearing the plays of the opposing forces often throwing them for losses.

Vermont lost Saturday due to tough breaks, but the real test will come tomorrow afternoon. The Cats have been playing good football and should break into the winning column this week. The line is becoming stronger each game and the flaws have been picked out and remedied so that now they should work like a machine. Wink Winchenbach is having his greatest year and was a great cause of worry to the Williams' backs, hitting two of them so hard that they had to be led from the field. "Bump" Levine has been shifted from center to guard and is playing a sterling game in his new position. Captain Smith is averaging 50 yards on his punts and is one of the mainstays on the defense bunching up many of the opponents' plays. Galloping Jimmie Scutakes is still the plower of the team and on each plow Jimmie usually makes the needed five or six yards.

Nearly all the Catamounts are in excellent condition and Coach McAvoy has reserve material to substitute in place of his regulars if there is need of it.

The probable line up for Saturday's game is:

PROVIDENCE		VERMONT
Dubeerry	le	re, Strois
Sullivan	lt	rt, Winchenbach

(Continued on p. 2)

PROFESSOR BANCROFT ADDRESSES VERMONT SOCIETY ON FRIDAY

Leading Chemist from Cornell Comes to Burlington Where He Will Talk to the Vermont Section of the American Chemical Society

Dr. W. D. Bancroft, professor of chemistry at Cornell University, is to address the Vermont section of the American Chemical Society on Friday evening, October 10. The meeting is to open to the public.

Professor Bancroft has occupied a position in the front rank of chemists both here and abroad for many years. In recognition of his many contributions to science he has been awarded honorary degrees in American and foreign universities. He has been president of the American Chemical Society and of the American Electrochemical Society. He was a colonel in the Chemical Warfare Service and was prominent in that branch of the service during the war.

His interests are many and his researches have been in widely scattered fields ranging from the solution of public technical problems to a study of the microscopic organisms of the seacoast, structural colors as found in the plumage of birds, butterflies and beetles, coloring blue eyes and many more of the unlimited variety which nature affords. He was widely heralded in the daily press a short time ago for suggesting a method to dissipate fog and thereby a revolutionary rain-making machine which worked.

Professor Bancroft's keen sense of humor and variety of interests make him delightful as a speaker and entertaining even to those who are not well versed in chemistry and his position as one of our most successful chemists makes him well fitted to speak on the topic "Methods of Research—or The Molecule's Department."

The lecture will be in Room 27, Williams Science Hall at 7:30 P. M. in order not to conflict with the concert which comes at a later hour.

ASSISTANT EDUCATIONIST (FOREIGN EDUCATION)

Applications for assistant education ist (foreign education) must be on file with the Civil Service Commission at Washington, D. C., not later than November 15. The examination is to fill a vacancy in the Bureau of Education, Washington, D. C., and vacancies occurring in positions requiring similar qualifications. The entrance salary is $2,000 a year. A probationary period of six months is required; advancement after that depends upon individual efficiency, increased usefulness, and the occurrence of vacancies in higher positions. The duties consist of collecting and compiling information about Slavonic and Germanic school systems, research work on comparative courses of study, costs per student, methods of organization, etc.; preparing reviews, articles, leaflets and bulletins on the school systems of these countries; initiating plans for securing up-to-date information about them; formulating bases for credentials for students from Slavonic and Germanic countries and evaluating such credentials; making purely formal translations for the bureau and other agencies; maintaining contacts with foreign educational agencies in the United States, and delivering addresses. Competitors will not be required to report for examination at any place, but will be rated on their education and experience, and a thesis or publication to be filed with the application. Full information may be obtained from the United States Civil Service Commission, Washington, D. C., or the secretary of the board of United States civil service examiners at the post office or customhouse in any city.

NEWS IN BRIEF

News of the publication of a popular song by one of our four students caused much interest on the campus last spring. We have had that copies may be obtained at Green Brothers and considerable success is attending the game. The song is entitled [illegible] and the author is John [illegible] a senior this year.

Beginning next Wednesday morning the Y. W. C. A. will conduct a popcorn wagon sale a week in the Y room.

At a recent meeting of the Dramatic Club it was decided that the class plays this year should be presented in the early part of December on the night set aside for the annual Y. W. C. A. Bazaar. After the plays Y. W. C. A. will sponsor a stag dance.

At this same meeting Marion Barbour '29 was appointed business manager for the plays and Jeanette Bradley to chairman of the committee to choose the plays.

Is it generally known that fifty points entitles a woman of the University to membership in the Women's Athletic Association? Points may be obtained by keeping health cards, by taking in out-of-door exercise and by making class teams. Out-of-door exercise books and health cards may be procured at the gymnasium office.

According to a member of Gold Key certain rules seems to exist about two of the frosh rules. Freshmen are required to wear Frosh caps at all times within the city limits except during vacation and on Sundays. On Sundays they must not go bareheaded but must wear some hat or cap. Frosh may walk on the north side of College Street only when accompanied by a senior, junior or sophomore man, the exception does not apply when in the company of upperclass women.

Senior mechanical engineers went last Friday and Saturday with Professor Robinson to the convention of the A. S. M. E. at Springfield, Vermont.

There was a joint meeting of Boulder Key and Serpent and Gold Key at one o'clock Tuesday in Room 1, South College.

Professor B. C. Douglass and Professor B. H. Wallace are attending a meeting of New England educators in Manchester this week-end.

Medical fraternities, Delta Mu, Phi Chi, and Alpha Kappa Kappa, held smokers in their respective chapter rooms last week.

At the first meeting of the fall baseball practice about twenty-five men were present. Mostly freshmen turned out and prospects appear bright for the future. Practices are held every Monday, Wednesday, and Friday at 4 p. m. in the cage. Coach Collopy is at present directing the candidates in hitting and is getting a line on the new men.

Faculty members and students are requested to refrain from parking cars on University Place on account of the narrow road. Cars should be parked to the rear of the university buildings.

All the candidates for the cheer leading school should report at the gym at 4 p. m. Thursday.

The Vermont State Teachers' Convention will be held in the Gymnasium October 13, 14 and 15. A big program has been prepared including speeches by many prominent men of the state. Mayor C. H. Beecher of Burlington will give the principal address on the opening day. One of the features of the convention will be the state spelling contest for adults and school children.

BENNETT ORGANIZES MEN'S GLEE CLUB

Twenty-five Men Survive First Try-Outs—30 Men are Needed for the Organization Which is to Compete in Intercollegiate Contest

The University Glee Club is off to a good start, with 20 to 25 men having survived the first try-outs. While this is sufficient for local and nearby concerts, at least 30 must be obtained if the club is to enter any of the intercollegiate contests. These 30 must be picked men, which means that there must be 50 or more in the club. The University has given its support by offering to pay the expenses to the big sectional contest in Symphony Hall, Boston. Now it is up to the students to stand behind the club by trying out for it. The winner of each sectional contest goes to the national contest in New York. Last year Middlebury won the New England contest. Let's not be outdone. Get together and come out at once. Without waiting for the other fellow. If you do this, Vermont should have an excellent club.

The following men have passed the first try-outs for the Men's Glee Club: R. H. Allbee, Benjamin Baker, H. E. Barnes, R. Boynton, Harvey D. Butterfield, Theo. A. Clifford, Clayton Crothers, E. O. Dalrymple, H. C. Dalrymple, O. T. Frost, H. E. Goddard, Chas. Goodell, Edward Haynes, I. H. Hoxie, David Huggett, Major Jenks, R. T. Krogh, William M. Loudon, Eugene Luck, W. W. Parker, Raymond Pease, Boyd Schurman, E. C. Slack, Orville T. Wood.

The first rehearsal will be held in the Music Building, Friday, October 14 at 7 P. M.

JUNIOR SITTINGS ARE POSTPONED FOR A WEEK

George James, the editor-in-chief of the 1929 *Ariel* announces that the taking of photographs of the members of the Junior class to appear in the *Ariel* will not begin until a week or more. There has been considerable delay in the matter due to misunderstandings with the firm who are in charge of the work. At the proper time, however, each Junior will receive an appointment card stating the whereabouts and time for his sitting.

The Hammersmith Company has sent out a dummy of art work which includes division pages in color. The *Ariel* Board is considering this and their approval is expected within a few days.

Particularly good snapshots are desired by the staff in charge. They may be given to Arthur Birchard at an early date. A drive for such material will be made sometime in the future.

Ten pictures have been sent to the publishing company to be made into plates. They deal with campus views, a phase of work which will be of particular interest this year.

James declares: "It is unadvisable to predict too much at this early date, but we can assure all that the *Ariel* will be out on time. Furthermore, it will be a good issue. Color work will be featured and no previous volume will have contained an equal amount of beautiful color schemes and harmonies. All pictures will appear on pebble paper of a rough-grained finish, which will add to their clearness and make them stand out. It is expected that more will be definitely known within a short while about those facts which pertain to the taking of Junior pictures, and the decision of the board in regard to the art work recently submitted."

DEAN PERKINS SPEAKS AT STATE "Y" MEETING

The Vermont state Y. M. C. A. will celebrate the 60th anniversary of its existence on October 9 and 11. An anniversary service is to be held at the Baptist Church on Sunday evening, October 9 at 7:30 o'clock. Many notable men are to attend and speak among whom are D. A. Budge of Montreal, Rev. H. B. Rankin of Ludlow, and Claus Olandt of Lincoln Park, N. J.

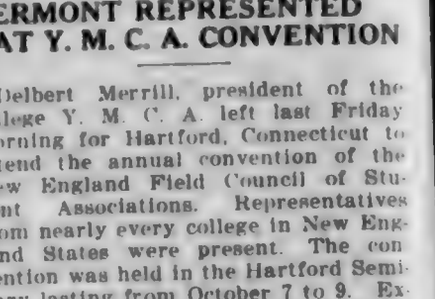
The state committee will have its semi-annual meeting at the Y. M. C. A. rooms Tuesday, October 11 at 2:00 o'clock. At this meeting Dean G. H. Perkins of the faculty and D. J. Merrill, president of the Vermont Christian Association and a member of the Senior class, will be speakers of the evening. A dinner will conclude the anniversary at Hotel Vermont on the same evening, October 11 at 6:30 o'clock. Governor John E. Weeks and Albert E. Roberts of New York City have been obtained as speakers of the evening.

VERMONT REPRESENTED AT Y. M. C. A. CONVENTION

Delbert Merrill, president of the college Y. M. C. A. left last Friday morning for Hartford, Connecticut to attend the annual convention of the New England Field Council of Student Associations. Representatives from nearly every college in New England States were present. The convention was held in the Hartford Seminary lasting from October 7 to 9. Expenses in Hartford are met by the Field Council, while each Y. M. C. A. delegation pays its share of traveling costs.

The convention meets each year to give the student secretaries and presidents new ideas and suggestions on Y. M. C. A. work. Through the open discussion each delegate receives as well as contributes an abundance of subject matter which may be applied in his duties and thus aid him materially.

"What are you standing over there throwing rocks at that little boy for?"



"I dasn't go no closer, ma'am. He's got the whooping cough."—*Toronto Goblin.*

WELL KNOWN CHEMIST SPEAKS HERE TONIGHT

Dr. Wilder D. Bancroft of Cornell University and one of the best known chemists in the country speaks tonight on "Methods of Research" at 7:30 P. M. in Room 27, Williams Science Hall. His address will be non-technical and of general interest to the public. He has a broad reputation and has received degrees in this country and other countries as well. He has been president of The American Chemistry Society, and also of the American Electro-Chemical Society. During the war he served as Colonel in the Chemical Welfare Service. At the present time he is Editor of the *Journal of Physical Chemistry*. Dr. Bancroft is known as a very versatile man and has written books and many articles on the varied chemical themes. Those who know him personally say he is a man with a keen sense of humor and a great golf enthusiast.

Dr. Bancroft's ideas which has been used to a considerable extent experimentally during the past few years in the precipitation of fogs in harbors by charging electrified sand from air-

cost of three and one-half million dollars, a new law school is to be erected by Yale University.

BAND TO MAKE SECOND APPEARANCE TOMORROW

Saturday afternoon the R. O. T. C. Band will make its second public appearance of the year when it is to play at the Providence football game. Much progress is being made and Mr Lechnyr is optimistic for another successful season. In spite of the restrictions set on membership, there are still several candidates who are working hard to make their position in the band secure. Competition is keeping up the interest of the players and accordingly improving the work of the organization.

ATHLETIC COUNCIL AWARDS LETTER TO GATE MANAGER

K. W. Kyle, '28 at the October meeting of the Athletic Council held last Monday, was awarded a sweater for being gate manager. This is the first time that such an award has been made at the University of Vermont. Kyle is a member of Sigma Phi, was assistant manager of the football team last year and has played on several class teams. He is taking Civil Engineering and is from Troy, New York. The Athletic Council also awarded a sweater to H. C. Collins, '28 for being manager of the Frosh football squad. Collins is a member of Phi Mu Delta fraternity, director of the 1928 Kake Walk, and treasurer of the Senior Class. Other awards were the baseball and track letters to Sabin Abell '28 and K. R. Stephens '28 respectively, and the fencing insignias to L. Calcagni and C. H. Blackhall '27. The latter won their insignia for their work on the first fencing team at Vermont following the Great War. Blackhall was captain of the team and the star of the season, Calgagni won several bouts against the crack Norwich team.

The council also took the budget under the advisement, but no decisions have been released yet on this matter. All the members of the Council were present.

ARIEL MANAGERS START EXTENSIVE CAMPAIGNS

The advertising campaign of the 1929 *Ariel* under the management of C. C. Lyman has been launched and is bringing in results. Eight scrubs reported last week and through their efforts the local and foreign subscription campaigns are making good headway. These scrubs, who are members of the sophomore class will be eligible for election to the staff of the 1930 *Ariel*. About 250 subscriptions have been taken so far, but seven or eight hundred are needed to make the year book a success.

Kenneth Price subscription manager, has announced that tables at which subscriptions will be taken are to be placed in the hall in the Old Mill during the Chapel hour on Wednesday mornings during the next few weeks to accommodate those who have not yet signed up for their copy. No year at college is complete without a copy of the year book, as it contains a record of all the important events that occur during the year, besides views of the campus, of interesting events, and of various other things connected with the University.

FROSH WIN WATER FIGHT

After being defeated in the first round of the water fight, the Freshmen came back, and punished the Sophomores, thereby winning the water classic. The Sophomores scored a draw in the second round, but were unable to hold their ground in the remaining two rounds.

The Freshmen were somewhat erratic in the first round, and did not seem to get the Sophomores range. In the other three rounds they showed improvement, while the second year men were unable to reach the Frosh with the powerful stream of water. Only one clean knockdown was scored, that by the Frosh in the third round.

NOTICE

Members of Eta Sigma Phi will meet Monday at four in Room 3, North College for play try-outs.

SABIN ABELL

President of Senior Class and Chairman of Boulder Committee in charge of Parade this afternoon.

PROMINENT SPEAKERS INCLUDED IN SMOKER HELD WEDNESDAY NIGHT

"Prof" Dean, Max Powell, Coach McAvoy and Others Address Nearly Five Hundred at Boulder Smoker

The Boulder Smoker, held last Wednesday night at the gymnasium to arouse enthusiasm for the Saturday game with Providence, started off the events of the week with a bang. Lechnyr and his R. O. T. C. Band furnished music and the Boulder Society obtained the speakers for the evening. Howard Prentice, '28, president of the Boulder Society, introduced the speakers, the first one being Professor Dean of the English Department. After a few humorous comparisons of the speaker to a pigskin blown up with too much air, Dean launched out in his entertaining manner setting forth the reasons why the student body should be back of the team, and the sportsman every man of Vermont is expected to be. He set an ideal for the Vermont men to live up to. He urged that pep be aroused and remarked that the students had started well by all lighting up their cigarettes and forming a smoke screen. (The smokes were furnished by L. P. Wood Sporting Goods Co.)

Leonard T. Smith of Morrisville, and the second speaker on the program, told entertaining stories in French dialect which were followed by peppy cheers and the singing of "Vermont Victorious."

Eugene Clowse, '09, of Richmond recounted some dramatic incidents on the field of goal posts in his college days, and the shattering effect his aroused enthusiasm had on a certain old brass horn which he had been playing in the band. He suggested that some of the present Band players smash their instruments in their enthusiasm next Saturday. He added other pertinent and laudatory remarks about the University of Vermont, its wonderful leadership, and the pride with which he regarded the present generation, still, little changed since the days when he had his "fling."

Max L. Powell, a graduate back in the gay old '80's, president of the Chamber of Commerce, and a booster in student activities, proved to be a popular speaker of the evening. He, as he stated, had never attended a smoker before, since, in his college days, very few students were practiced in the gentle art of smoking. But in these days, he went on, a boy who doesn't smoke is dubbed either a tightwad or a moron. Mr Powell stressed loyalty of the student body to the team as one of the greatest assets for assured victory. Pep and enthusiasm, and the backing of the whole college, is necessary for any team to win, and he stated too that the Chamber of Commerce was always interested in the athletics at Vermont. He finished by leading the student body in an applaud for President Bailey.

Captain Rattan of the Military Department and coach of Frosh Football, was introduced as the fifth speaker amid the enthusiasm of the students. With a few words delivered in a decisive way he excited more pep than had been hitherto shown. Following him in quick succession appeared Coach McAvoy who stated that Vermont had a football team with real

(Continued on page 2)

BOULDER DANCE TO BE HELD TOMORROW NIGHT

A fitting climax to Boulder Week will be the Boulder Dance to be held in the gym on the night of October 15, from 8:30 P. M. until midnight. The Vermonters augmented by the services of Joe Lechnyr R. O. T. C. band leaders will furnish the music thus giving music-lovers a chance to hear Vermont's imperial orchestra. It is Boulder's intention to entertain the Providence players on this occasion. With Sabin Abell acting as chairman of the dance, a good time is assured. Abell was chairman of the 1928 Junior Week committee, which arranged for the successful prom in years. Admission to the dance will be one dollar a couple.

KITTENS TO TAKE ON PLATTSBURG SATURDAY

On Saturday the Vermont Freshmen will journey to Plattsburg where they will take on the strong 26th Infantry. The soldiers have a strong eleven this year and hope to take the Kittens into camp for their first defeat of the season. However, Coach Rattan and his Kittens have other ideas and expect to take the gunmen by surprise and thus add to their long string of also rans.

The Yearling squad is in nearly perfect condition with the exception of Smyth who is out of the game with injuries for the second time this season. His place is being ably filled by Rugg who made the first score of the game last Saturday, when he pulled in a pass from Watkins.

At present Watkins and Allen are the main threats in the frosh backfield with the former doing the running and the latter doing the passing and the kicking. These two men are hard to beat at least it has been so far and the soldiers will probably find this scoring combination a little too much for them.

WOMEN TO HOLD MASS MEETING THIS EVENING

A "Smokeless Smoker" something new in the way of pep meetings, is to be staged tonight at seven o'clock in the Vermonters' Club House for all University women. A special feature will be the program of speeches by prominent members of the Student body and by members of the football team, whose presence is assured.

Cheers, singing of college songs and refreshments are the order of the evening. At this time also, the Freshmen will elect their member of the Y. W. C. A. cabinet.

Eleanor Davison and assistant officers of Y. W. C. A. are in charge of the mass meeting.

DEUTSCHE VEREIN WILL BEGIN ACTIVITIES SOON

Der Deutsche Verein, the German Club, plans to have its first meeting of the year in the near future.

It is expected that this year's schedule of activities will be similar to that of last year. In addition, tentative plans are being made for the presentation of a play in German.

The German Club has been approached for membership by a national organization with headquarters in the University of Michigan. This University has the largest German department in the country, and has been very active in furthering interest in the German language.

Membership in Der Deutsche Verein is open to any student in the upper classes of German. The club has thus far supplemented the work of German 106, the modern drama course in German.

Mortar Board, the Senior Women's Honorary Society, will give its autumn dance on October 22nd, at the Burlington High School Gymnasium. Tickets may be procured from any member of Mortar Board. Tickets are $1.25 a couple.

STUDENT SENATE

There will be a meeting of the Student Senate Friday evening at 7:15 at the Sigma Nu Lodge

FIGHTING CATAMOUNTS MEET DOMINICANS IN OPENING HOME GAME

Vermont Team Plays First Game of Season at Centennial Field with Strong Providence Aggregation Saturday

Archie Golembeskie, former Holy Cross and Steamroller star, and his Dominicans from Providence, invade the Catamount lair Saturday for the Cat's opening home game. Providence has played two of our most formidable foes, Springfield and Norwich, on the last two Saturdays and both games ended in a deadlock. In each game they were outweighed considerably, but they put up such a stiff defense and smooth attack that they overcome this handicap to battle their rivals on even terms.

Last year the Providence eleven defeated us 20-0 on their home field, but from pre-dope reports the teams this season should be about evenly matched with the Green and Golders having a slight edge because of playing on home ground. Providence has a fast backfield and a dazzling overhead attack that the Cats will have to be on the alert to stop. Coach Golembeskie knows football from A to Z and undoubtedly will have plenty of tricks in his bag to spring on the McAvoyites, in order to push the ball over the line of victory.

In Bleier, Providence has an able pilot, he is on the receiving end of the forwards from Allen, this combination being responsible for the touchdown against Norwich. Allen, the right half of the Dominicans is a dangerous passer and kicker and if he is allowed near the opposing goal there is grave danger of 3 points being chalked up in Providence's favor. Nawrocki, Golembeskie's hard fighting

GEORGE TALCOTT

Prominent in Class activities and supervisor of Student Parade to Centennial Field

right tackle has the reputation of breaking through and smearing the plays of the opposing forces often throwing them for losses.

Vermont lost Saturday due to tough breaks, but the real test will come tomorrow afternoon. The Cats have been playing good football and should break into the winning column this week. The line is becoming stronger each game and the flaws have been picked out and remedied so that now they should work like a machine. "Wink" Winchenbach is having his greatest year and was a great cause of worry to the Williams' backs, hitting two of them so hard that they had to be led from the field. "Bump" Levine has been shifted from center to guard and is playing a sterling game in his new position. Captain Smith is averaging 50 yards on his punts and is one of the mainstays on the defense bunching up many of the opponents' plays. Galloping Jimmie Scutakes is still the plower of the team and on each plow Jimmie usually makes the needed five or six yards.

Nearly all the Catamounts are in excellent condition and Coach McAvoy has reserve material to substitute in place of his regulars if there is need of it.

The probable line-up for Saturday's game is:

NIVERSITY GLEE CLUB ASKS FOR MORE MEN

The University Glee Club needs more men before Manager R. H. Allbee can sign the contract for The New England Glee Club Contest, to be held at Symphony Hall in Boston in January of 1925 and to be participated in by the leading Universities and Colleges of Greater New England.

President Bailey has assured the organization of his personal and financial support. For this reason Professor Bennett, who is conducting the rehearsals and supervising the management, is of the opinion that the men are holding back because they fail to realize the importance of the club.

Twenty-four men have already been accepted, but it is a smaller number compared to the forty which Middlebury has. There is still opportunity for 10 or 20 more applicants at the first rehearsal to be held Friday evening October 21st, at seven o'clock in the Music School on South Prospect Street

BLUE STOCKINGS OPENS MEMBERSHIP CONTEST

Membership on the Board of the New Literary Magazine Decided as Qualification for Membership in Honor Society

Blue Stockings, the Vermont Women's Literary Society, held its first business meeting of the year on Tuesday, October eleventh, at four o'clock at the Kappa Alpha Theta house. Contributions for the first issue of the new Literary Magazine were brought to the meeting.

It was voted that membership on the staff of the magazine should be sufficient qualifications for membership in Blue Stockings.

The first competition for membership in Blue Stockings will start Monday, October 17 and will close Monday, October 31. Any literary contribution such as a stort story, poem essay or play will be considered. These contributions should be left in the CYNIC box in the "Y" room.

There are now three ways of becoming a member of Blue Stockings

1 By the acceptance of some contribution, as a result of the competition

2 By membership on the CYNIC Board

3 By membership on the staff of the new Literary Magazine.

Plans for regular bi weekly meetings were discussed

What do you charge for rooms?

SECRETARY BAXENDALE RESIGNS POSITION IN ALUMNI ORGANIZATION

Alumni Secretary Leaves Office to Accept Position with Woodbury Granite Company

John G. Baxendale who recently resigned as permanent secretary of the Alumni Association of the University of Vermont, has been in personal contact with a great number of alumni of the University. He has been secretary of the Chamber of Commerce, Rotary Club, and has been active in many civic organizations in Burlington.

John G. Baxendale
Former Alumni Secretary who built organization at Vermont

up the alumni office and organization to a standard that has become a model for comparable institutions of an even larger size.

He is the treasurer of the American Alumni Council, which is an organization of alumni secretaries and alumni magazines including nearly all the leading colleges in the United States. Mr. Baxendale is also treasurer of the Intercollegiate Alumni Extension Service and a past president of the National Association of Alumni Secretaries. Until the election of his successor he will continue to serve the Vermont Alumni office in an advisory capacity and he will remain as a member of the athletic council of the University of Vermont. Margaret A. Potter, '29, Assistant Alumni Secretary and manager of the Alumni Weekly, is now carrying on his work.

Added to his business experience in organization work of this character Mr. Baxendale was employed from 1917 to 1919 as a salesman for Ginn & Company of Boston. These various enterprises have required him to travel widely. In other circles also he has been an active figure. His present interests including the secretaryship and position as a director of the Burlington Rotary Club and the vice-presidency of the Ethan Allen Club of Burlington.

Track Dope
By E. R. L.

Prospects for a strong cross-country team have never been more discouraging at Vermont than at present. With only distance material was lost with the graduation of Denis Rowe and Archie Post. Add to this the fact that Ivan Sauter did not return to college and that S. Martinetti is ineligible and it is easy to see that material is far from abundant. Of last year's freshman team, that won the interclass championship, only one is available for this year's varsity and even he cannot run his best owing to a recent operation for appendicitis.

O. J. Wood however, captain of track for this year is running well. Long distances have no terror for him and last Saturday having decided to spend the week-end in South Hero, and finding the transportation service between Burlington and the above mentioned place highly unsatisfactory, Woodie puts on his spiked shoes and running out and runs the entire distance of 35 miles in 3 hours and 10 minutes. Besides Wood, Ed Rowe and Reg. Arnold are running well. O. Martinetti, Hatchard, Lamb and Collins will probably fill out the team.

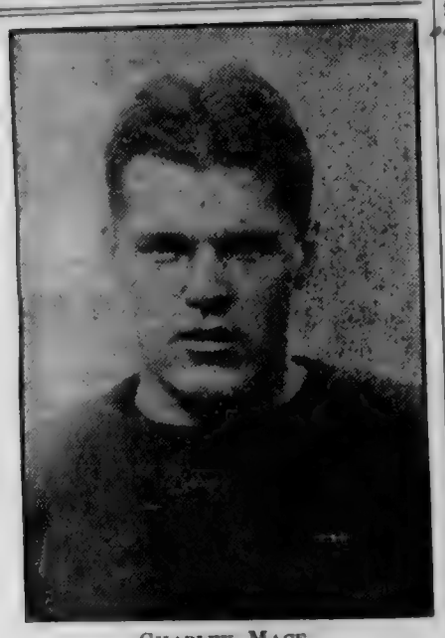
BOTH CATAMOUNT ELEVENS WIN SATURDAY

ITTENS DEFEAT 26th INFANTRY



earlings Go to Plattsburg Where They Easily Pile Up a 26-6 Score Against Army Team—Frosh Score 13 Points in Last Quarter

VATKINS COLLECTS THREE TOUCHDOWNS

The Frosh eleven won their third uccessive victory in as many starts y defeating the 26th Infantry at lattsburg Saturday afternoon by a 6 to 6 score.

The game was much closer than the core seems to indicate. The yearings scored 13 points in the last uarter, so, obviously the score was ery close for the greater part of the me.

In the first quarter Vermont played punting game until in scoring posiion, when a little line bucking rought the ball to the goal line from here Allan scored. Watkins kicked he goal. There was no scoring in the econd period. At the beginning of he second half the enlisted men took

CHARLEY MACE

Substitute halfback whose long run against Providence was a feature of the last quarter

the field instead of the officers against the Frosh. The Infantry kicked off and in a very few minutes Watkins carried the ball over for six points on a few rushes. Watkins failed to kick the goal. By means of a forward pass the Infantry tallied their only points, missing the goal after touchdown. In the last quarter Watkins intercepted two Infantry passes and scored each time after 45- and 65-yard runs.

The Frosh lined up as follows:

Tobin, le.
Howard, lt.
Scutakes, lg.
Park, c.
De Cicco, rg.
Huff, rt.
Smyth, Rugg, re.
Allan, qb.
Heaton, Dewitt, lhb.
Tellier, rhb.
Watkins, fb.

Touchdowns—Watkins 2, Allan 1, De Frank 1. Goals after touchdowns (by dropkick)—Watkins 2.

EDUCATION FRATERNITY ELECTS NEW SECRETARY

At a meeting of Kappa Phi Kappa, honorary education fraternity, held last Tuesday in the Education office, Ralph Shoppe '28 was elected recording secretary in place of Fay Hubbell, who failed to return to college this fall.

Committees were appointed to draw up a budget, to decide on the procedure to be used in meetings, and to make up a program of speakers.

A list is now being made up of all those eligible for membership—that is, of those who are taking education. Hereafter meetings will be held on the first and third Tuesdays of the month.

Compulsory chapel services have been abolished at the University of Rochester.

COLLINS HEAD OF INTERNATIONAL CLUB

The International Relations Club held its first meeting of the year (in Room 37, North College) under the supervision of Professor Carroll last Thursday afternoon. A general election of officers took place. They are as follows: President Harold Collins, Vice-president Constans Holden, while J. O. Phelps was voted to the combined office of Secretary and Treasurer.

A motion was made and passed that the meetings be held in the future on the first and third Thursday of every scholastic month in Room 37, N. College, until further notice. The next meeting is scheduled for that hour and place, on Thursday, October 20, 1927.

The International Relations Club was organized last year with a view to the wealth of free material furnished to the University of Vermont by the Carnegie Endowment Fund. The club is open to every member of the University interested in international politics, policies and discussion. Professor Andrews, of the History Department, believes that it will be a great aid to those students of History, Government, Politics or Diplomacy.

The prime topics of the meetings will be discussion covering a wide and far reaching field of events from the world over. Policies in China, Philippine Independence, The Balkan Locarno, International Labor Laws, and Disarmament, will be only a few of the topics to come under consideration.

SCABBARD AND BLADE PLANNING GALA TIME AT MILITARY BALL

First Formal Dance of the Year to Be Held on the Eve of Armistice Day—Event of Fairly Recent Origin Gaining in Popularity Each Year

The Military Ball, one of the biggest events of the college year, and the best pre-Christmas formal on Vermont's social calendar, is planned for Armistice Eve, Thursday, November 10th. This gala occasion has been sponsored by the Scabbard and Blade Society for the past three years, and is popularly known as one of the biggest successes of the social season. It is the first formal dance of the year and certainly one of the most enjoyable.

The Military Ball was first re-introduced in 1919 after the war. Little is known about its earliest appearance as a new event on the Vermont Campus. However, it is supposed that the iden originated from a dance held by Company A, stationed at this University in 1918, and using the gymnasium for barracks. A CYNIC of that year mentions this event as "the first dance of our army career, and a big success, with officers from the Fort, faculty members and others present."

In 1920, the CYNIC gives an account of the committee in charge of the Ball planning to make it such a success that it would become an annual affair. The committee, with Major Larned as chief adviser and promoter, succeeded in their plans. And from that time on this formal event has been an annual affair.

The CYNIC of that year describes the Ball in this manner: "The hall was elaborately decorated with rifles, machine guns, and flags which gave a real military atmosphere. Refreshment were served from a cook tent pitched at the southeast corner. At the beginning of the dance the lights went out and a bugler sounder reveille. At the same time a spot light played upon Old Glory as it was raised on high. The playing of the National Anthem followed, after which an order of 18 dances was run off, each dance being preceded by a different bugle call which gave the men time to find their partners for the following dance."

The attendance in 1921 reached a maximum peak of 350 couples. Since that year it has been necessary to

JIMMY SCUTAKES

Fast Catamount halfback, high scorer in contest with Dominicans

NEWMAN CLUB OPENS ITS SEVENTH YEAR

The Newman Club began its seventh season of activity as a chapter of the Federation of College Catholic Societies with a dance Friday evening and a communion breakfast Sunday morning. Both affairs were a welcome to the new members and were enthusiastically attended.

The Algonquins furnished music for the dance which was held in the C. D. of A. rooms on College Street. Professor and Mrs. Williams and Dr. and Mrs. McSweeney chaperoned.

During the business meeting which followed the breakfast, Sunday, the question of the annual entertainment was discussed. It is probable that another minstrel show will be given because of the remarkable success of last year's production.

SOPHOMORES TURN TABLES ON FROSH

The historic cane rush took place at Centennial Field last Saturday afternoon after the football game. The Sophs won by an overwhelming majority of about 100 to 50, thereby redeeming the severe defeat in the water fight. The usual procedure took place. Each Frosh was given a cane at the University Store and after the game he had to place it on the 50-yard line. Then the Sophs were lined up on one side and the Frosh at an equal distance on the other side of the canes. Boulder had charge of the whole affair. At the shot of a pistol a hurried rush was made for the canes. Most of the fellows secured a cane, ran back to hide it and came back to fight for more. One minute after the fight began, only about ten canes were left on the field with 150 fellows fighting for them. This fighting was kept up until the six minutes were up and the fellow having hold of the crook was given the cane or rather what was left of the cane. Boulder then counted the canes and pieces according to the rules and it was easily determined that the Sophs had conquered.

DR. MCLAUGHLIN CONDUCTS VESPER SERVICE

The first vesper service of the year will be held in the Ira Allen Chapel at four o'clock, Sunday, October 23. Dr. R. W. McLaughlin of Worcester, Massachusetts, who has twice before spoken at Vermont, will preach.

Robert William McLaughlin was born in New Haven, Connecticut, August 5, 1866. He graduated from the Oberlin Divinity School in 1895 with the degree of Bachelor of Divinity He has twice received the D. D. degree, first from Olivet College in 1905, and four years ago from Vermont, when he delivered the Baccalaureate Sermon at Commencement

Dr. McLaughlin was ordained Congregational minister in 1895, and has had pastorates in Ashland, Wisconsin; Kalamazoo, and Grand Rapids, Michigan; Brooklyn, New York; and Worcester, Massachusetts.

He is the author of "Washington and Lincoln", "Caleb Matthews", and "The Why and What of History".

KAPPA MU EPSILON PLANS ACTIVE YEAR

Kappa Mu Epsilon, the honorary engineering society, is planning for an active season. On October 21 they will hold a "pep" smoker to which all are invited. Snappy stunts, crisp features of the affair. A dance will be held sometime in February, the exact date of which is yet to be announced

Kappa Mu Epsilon holds a unique position among other fraternities. It was founded to represent the best ideals of the engineering college, to promote interest in the engineering profession, to represent the college on the campus, to provide a stronger hand between student members and to bring students into closer touch with the faculty. It is composed of men elected from the Senior class. They must not only have favorable scholastic standing, but must also be interested and active in campus affairs

A prominent member of the fraternity feels that not only are the aims and ideals of the organization high; they are practical and are being lived up to. Members are appreciating the opportunities of closer association with fellow students and instructors afforded them, and they are responding to this appreciation with a whole hearted desire for improvement that cannot help but benefit very directly the fraternity and the members who comprise it.

FRATERNITIES HOLDING ONE MORE OPEN HOUSE BEFORE RUSHING DATES

Wednesday Night is Last Open House Night—Rushing Dates Will Be Given Out in Old Mill Chapel on Friday at 4 P. M.

Freshmen in goodly numbers are taking advantage of the open house nights. Already four of the five nights have passed. The open house that was scheduled by the Interfraternity Council to be held Wednesday, October 12, was postponed to Thursday, October 13 on account of the Boulder Smoker. Now only one date remains on which the Freshmen may visit the fraternities until rushing time which commences on Monday evening, October 24 and continues through Thursday, October 27. The last open house night is Wednesday, October 19.

According to the rules established by the Interfraternity Council "On the Friday following the last of the open house nights, Freshmen shall assemble at 4 P. M. in the chapel in the Old Mill to receive date cards from representatives of different fraternities. A member of the faculty who is a disinterested party and yet competent shall be designated by the conference to meet the Freshmen as a body and make such explanations to them as are necessary before they go through the line.

"During the following week rushing dates, four in number, will be held on Monday, Tuesday, Wednesday and Thursday evening from 6 to 12 P. M. No fraternity shall make more than one date with any one Freshman.

"From 12 P. M. Thursday, after the last rushing date, until 6 P. M. Friday shall be a strictly neutral period, during which time no active or associate member of an organization belonging to the conference shall hold any communication whatsoever with new students.

"At 4 P. M. on the Friday following the last rushing date, the members of the Conference shall meet and bring all their invitations to membership in sealed and addressed envelopes, said meeting to be held in the room in the Old Mill designated by the President of the Conference. Within each envelope shall be only the printed form of the invitation properly filled out and an unsealed envelope with the address of the inviting fraternity upon it. The invitations shall then be delivered by the respective representatives of the different fraternities in conference assembled to the Freshmen presenting themselves before said Conference. In a room adjoining the Conference room each Freshman shall fill out the

(Continued on p. 3)

VARSITY OUTPLAYS PROVIDENCE TEAM

Catamounts Swamp Dominicans 40-0 in Uninteresting Contest —Seconds Gain Against Providence in Last Quarter

LEVINE, SCUTAKES AND SMITH STAR FOR VERMONT

Before one of the largest crowds that ever witnessed a Vermont football classic and on a nearly perfect day, Vermont came into its own and ran up one of the largest scores that Green and Gold eleven ever piled up against any opponent. The final whistle found the Catamounts on the long end of a 40 to 0 score. The game was packed with every kind of thrill that one could imagine, completed passes, wide end runs and spectacular tackles. From the first it was plain to see that Vermont was far superior to the Dominicans in every phase of the game. It took the crowd by surprise as they expected to see a team that would furnish plenty of opposition and one that might even turn the tide on the Green and Gold. But Vermont was never in danger, in fact the nearest the visitors

BUCK LEVINE

Scrappy lineman who opened way for long gaines in Providence game

over got to the goal line was in the second quarter when Coach McAvoy put in his second team. At this point the Dominicans opened up a passing game that ended on the twenty-yard stripe when Kersey intercepted a forward pass.

Providence kicked off to Vermont. Robinson carried the ball to Vermont's 43-yard line, Scutakes took the ball outside, Scutakes makes first down through right tackle. Estabrook went around right end for a 5-yard gain. Scutakes added two more, Conway and Scutakes each failed to gain, Providence taking the ball on downs. On the first, Robinson tackled Allen for a 5-yard loss, Da Gata fumbled, Sirois recovered on Providence's 20-yard line, Scutakes made 1 yard around right end, Conway added two more for first down. Scutakes failed to gain, Conway made two yards through right tackle, Providence was penalized 5 yards for off side. At this point Scutakes tore off 10 yards around right end, Vermont's first score of the season, Conway kicked the goal for the extra point. Smith kicked off to Szydla who ran it back 10 yards, Da Gata gains 3 yards through center, Szydla failed to gain, a pass Allen to Lewis was incompleted. Winchenbach blocked the punt, Vermont took the ball on the 30-yard line, here Conway made the prettiest run of the game, when he went around right end being tackled on the 1-yard line. Scutakes went across the line for Vermont's second touchdown, Conway again kicked the point. End of first period

Smith kicked off to Allen, who ran the ball back 15 yards, Da Gata made 7 yards through center, Allen punted outside Vermont's 35-yard line. Vermont failed to gain on 3 successive downs and Smith punted. Lewis made 2 yards, Allen punted to Conway on Providence's 40-yard line, Conway

Touchdowns—Watkins 3, Allan 1, De Frank 1. Goals after touchdowns (by dropkick)—Watkins 2.

EDUCATION FRATERNITY ELECTS NEW SECRETARY

At a meeting of Kappa Phi Kappa, honorary education fraternity, held last Tuesday in the Education office, Ralph Shoppe '28 was elected recording secretary in place of Fay Hubbell, who failed to return to college this fall.

Committees were appointed to draw up a budget, to decide on the procedure to be used in meetings, and to make out a program of speakers.

A list is now being made up of all those eligible for membership—that is, of those who are taking education. Hereafter meetings will be held on the first and third Tuesdays of the month.

Compulsory chapel services have been abolished at the University of Rochester

COLLINS HEAD OF INTERNATIONAL CLUB

The International Relations Club held its first meeting of the year (in Room 37, North College) under the supervision of Professor Carroll last Thursday afternoon. A general election of officers took place. They are as follows: President Harold Collins, Vice-president Constans Holden, while J. O. Phelps was voted to the combined office of Secretary and Treasurer.

A motion was made and passed that the meetings be held in the future on the first and third Thursday of every scholastic month in Room 37, N. College, until further notice. The next meeting is scheduled for that hour and place, on Thursday, October 20, 1927.

The International Relations Club was organized last year with a view to the wealth of free material furnished to the University of Vermont by the Carnegie Endowment Fund. The club is open to every member of the University interested in international politics, policies and discussion. Professor Andrews, of the History Department, believes that it will be a great aid to those students of History, Government, Politics or Diplomacy.

The prime topics of the meetings will be discussion covering a wide and far reaching field of events from the world over. Policies in China, Philippine Independence, The Balkan Locarno, International Labor Laws, and Disarmament, will be only a few of the topics to come under consideration.

SCABBARD AND BLADE PLANNING GALA TIME AT MILITARY BALL

First Formal Dance of the Year to Be Held on the Eve of Armistice Day—Event of Fairly Recent Origin Gaining in Popularity Each Year

The Military Ball, one of the biggest events of the college year, and the best pre-Christmas formal on Vermont's social calendar, is planned for Armistice Eve, Thursday, November 10th. This gala occasion has been sponsored by the Scabbard and Blade Society for the past three years, and is popularly known as one of the biggest successes of the social season. It is the first formal dance of the year and certainly one of the most enjoyable.

The Military Ball was first re-introduced in 1919 after the war. Little is known about its earliest appearance as a new event on the Vermont Campus. However, it is supposed that the idea originated from a dance held by Company A, stationed at this University in 1918, and using the gymnasium for barracks. A CYNIC of that year mentions this event as "the first dance of our army career, and a big success, with officers from the Fort, faculty members and others present."

In 1920, the CYNIC gives an account of the committee in charge of the Ball planning to make it such a success that it would become an annual affair. The committee, with Major Larned as chief adviser and promoter, succeeded in their plans. And from that time on this formal event has been an annual affair.

The CYNIC of that year describes the Ball in this manner: "The hall was elaborately decorated with rifles, machine guns, and flags which gave a real military atmosphere. Refreshment were served from a cook tent pitched at the southeast corner. At the beginning of the dance the lights went out and a bugler sounder reveille. At the same time a spot light played upon Old Glory as it was raised on high. The playing of the National Anthem followed, after which an order of 18 dances was run off, each dance being preceded by a different bugle call which gave the men time to find their partners for the following dance."

The attendance in 1921 reached a maximum peak of 350 couples. Since that year it has been necessary to

NEWMAN CLUB OPENS ITS SEVENTH YEAR

The Newman Club began its seventh season of activity as a chapter of the Federation of College Catholic Societies with a dance Friday evening and a communion breakfast Sunday morning. Both affairs were a welcome to the new members and were enthusiastically attended.

The Algonquins furnished music for the dance which was held in the C. D. of A. rooms on College Street. Professor and Mrs. Williams and Dr. and Mrs. McSweeney chaperoned.

During the business meeting which followed the breakfast, Sunday, the question of the annual entertainment was discussed. It is probable that another minstrel show will be given because of the remarkable success of last year's production.

SOPHOMORES TURN TABLES ON FROSH

The historic cane rush took place at Centennial Field last Saturday afternoon after the football game. The Sophs won by an overwhelming majority of about 100 to 50, thereby redeeming the severe defeat in the water fight. The usual procedure took place. Each Frosh was given a cane at the University Store and after the game he had to place it on the 50-yard line. Then the Sophs were lined up on one side and the Frosh at an equal distance on the other side of the canes. Boulder had charge of the whole affair. At the shot of a pistol a hurried rush was made for the canes. Most of the fellows secured a cane, ran back to hide it and came back to fight for more. One minute after the fight began, only about ten canes were left on the field with 150 fellows fighting for them. This fighting was kept up until the six minutes were up and the fellow having hold of the crook was given the cane or rather what was left of the cane. Boulder then counted the canes and pieces according to the rules and it was easily determined that the Sophs had conquered.

DR. MCLAUGHLIN CONDUCTS VESPER SERVICE

The first vesper service of the year will be held in the Ira Allen Chapel at four o'clock, Sunday, October 23. Dr. R. W. McLaughlin of Worcester, Massachusetts, who has twice before spoken at Vermont, will preach.

Robert William McLaughlin was born in New Haven, Connecticut, August 5, 1866. He graduated from the Oberlin Divinity School in 1895 with the degree of Bachelor of Divinity. He has twice received the D. D. degree, first from Olivet College in 1905, and four years ago from Vermont, when he delivered the Baccalaureate Sermon at Commencement.

Dr. McLaughlin was ordained Congregational minister in 1895, and has had pastorates in Ashland, Wisconsin; Kalamazoo, and Grand Rapids, Michigan; Brooklyn, New York; and Worcester, Massachusetts.

He is the author of "Washington and Lincoln", "Caleb Matthews", and "The Why and What of History".

KAPPA MU EPSILON PLANS ACTIVE YEAR

Kappa Mu Epsilon, the honorary engineering society, is planning for an active season. On October 21 they will hold a "pep" smoker to which all are invited. Snappy stunts, crisp features of the affair. A dance will be held sometime in February, the exact date of which is yet to be announced.

Kappa Mu Epsilon holds a unique position among other fraternities. It was founded to represent the best ideals of the engineering college, to promote interest in the engineering profession, to represent the college on the campus, to provide a stronger hand between student members and to bring students into closer touch with the faculty. It is composed of men elected from the Senior class. They must not only have favorable scholastic standing, but must also be interested and active in campus affairs.

A prominent member of the fraternity feels that not only are the aims and ideals of the organization high; they are practical and are being lived up to. Members are appreciating the opportunities of closer association with fellow students and instructors afforded them, and they are responding to this appreciation with a whole hearted desire for improvement that cannot help but benefit very directly the fraternity and the members who comprise it.

FRATERNITIES HOLDING ONE MORE OPEN HOUSE BEFORE RUSHING DATES

Wednesday Night is Last Open House Night—Rushing Dates Will Be Given Out in Old Mill Chapel on Friday at 4 P. M.

Freshmen in goodly numbers are taking advantage of the open house nights. Already four of the five nights have passed. The open house that was scheduled by the Interfraternity Council to be held Wednesday, October 12, was postponed to Thursday, October 13 on account of the Boulder Smoker. Now only one date remains on which the Freshmen may visit the fraternities until rushing time which commences on Monday evening, October 24 and continues through Thursday, October 27. The last open house night is Wednesday, October 19.

According to the rules established by the Interfraternity Council "On the Friday following the last of the open house nights, Freshmen shall assemble at 4 P. M. in the chapel in the Old Mill to receive date cards from representatives of different fraternities. A member of the faculty who is a disinterested party and yet competent shall be designated by the conference to meet the Freshmen as a body and make such explanations to them as are necessary before they go through the line.

"During the following week rushing dates, four in number, will be held on Monday, Tuesday, Wednesday and Thursday evening from 6 to 12 P. M. No fraternity shall make more than one date with any one Freshman.

"From 12 P. M. Thursday, after the last rushing date, until 6 P. M. Friday shall be a strictly neutral period, during which time no active or associate member of an organization belonging to the conference shall hold any communication whatsoever with new students.

"At 4 P. M. on the Friday following the last rushing date, the members of the Conference shall meet and bring all their invitations to membership in sealed and addressed envelopes, said meeting to be held in the room in the Old Mill designated by the President of the Conference. Within each envelope shall be only the printed form of the invitation properly filled out and an unsealed envelope with the address of the inviting fraternity upon it. The invitations shall then be delivered by the respective representatives of the different fraternities in conference assembled to the Freshmen presenting themselves before said Conference. In a room adjoining the Conference room each Freshman shall fill out the

VARSITY OUTPLAYS PROVIDENCE TEAM

Catamounts Swamp Dominicans 40-0 in Uninteresting Contest —Seconds Gain Against Providence in Last Quarter

LEVINE, SCUTAKES AND SMITH STAR FOR VERMONT

Before one of the largest crowds that ever witnessed a Vermont football classic and on a nearly perfect day, Vermont came into its own and ran up one of the largest scores that Green and Gold eleven ever piled up against any opponent. The final whistle found the Catamounts on the long end of a 40 to 0 score. The game was packed with every kind of thrill that one could imagine, completed passes, wide end runs and spectacular tackles. From the first it was plain to see that Vermont was far superior to the Dominicans in every phase of the game. It took the crowd by surprise as they expected to see a team that would furnish plenty of opposition and one that might even turn the tide on the Green and Gold. But Vermont was never in danger, in fact the nearest the visitors

BUCK LEVINE

Scrappy lineman who opened way for long gaines in Providence game

ever got to the goal line was in the second quarter when Coach McAvoy put in his second team. At this point the Dominicans opened up a passing game that ended on the twenty-yard stripe when Kersey intercepted a forward pass.

Providence kicked off to Vermont, Robinson carried the ball to Vermont's 43-yard line, Scutakes took the ball outside, Scutakes makes first down through right tackle. Estabrook went around right end for a 5-yard gain, Scutakes added two more, Conway and Scutakes each failed to gain, Providence taking the ball on downs. On the first, Robinson tackled Allen for a 5-yard loss, Da Gata fumbled, Hiroia recovered on Providence's 20-yard line. Scutakes made 1 yard around right end, Conway added two more for first down. Scutakes failed to gain, Conway made two yards through right tackle, Providence was penalized 5 yards for off side. At this point Scutakes tore off 10 yards around right end, Vermont's first score of the season, Conway kicked the goal for the extra point. Smith kicked off to Hydia who ran it back 10 yards, Da Gata gains 2 yards through center, Hzydia failed to gain, a pass Allen to Lewis was incompleted. Winchenbach blocked the punt, Vermont took the ball on the 30-yard line, here Conway made the prettiest run of the game, when he went around right end being tackled on the 1-yard line. Scutakes went across the line for Vermont's second touchdown, Conway again kicked the point. End of first period.

Smith kicked off to Allen, who ran the ball back 15 yards, Da Gata made 7 yards through center, Allen punted outside Vermont's 35-yard line, Vermont failed to gain on 3 successive downs and Smith punted. Lewis made 2 yards, Allen punted to Conway on Providence's 40-yard line, Conway

Pipe paths lead to P.A.

YOU can take the long, circuitous route and come to P. A. by degrees, as you eventually will, or you can cut corners and *start* right with The National Joy Smoke. Open a tidy red tin of Prince Albert, drink in that rich, rare aroma, and you will decide on the quick route.

Your first taste of P. A. in a pipe will clinch the decision. What a smoke, honestly! Cool as a conference in the Dean's office. Sweet as getting back on unlimited cuts. Mild as tea, but with that tobacco-bod" that satisfies your most deep-rooted smoke-hankering. No matter how fast you feed it, P. A. never bites your tongue or parches your throat. Just cool contentment and solid satisfaction with this long-burning favorite of experienced jimmy-pipers. Ream out the old pipe and give it a brand-new deal with good old P. A.—today.

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

BOTH CATAMOUNT ELEVENS WIN SATURDAY

KITTENS DEFEAT 26th INFANTRY

Yearlings Go to Plattsburg Where They Easily Pile Up a 26-6 Score Against Army Team—Frosh Score 13 Points in Last Quarter

WATKINS COLLECTS THREE TOUCHDOWNS

The Frosh eleven won their third successive victory in as many starts by defeating the 26th Infantry at Plattsburg Saturday afternoon by a 26-6 score.

The game was much closer than the score seems to indicate. The yearlings scored 13 points in the last quarter, so, obviously the score was very close for the greater part of the game.

In the first quarter Vermont played a punting game until in scoring position, when a little line bucking brought the ball to the goal line from which Allan scored. Watkins kicked the goal. There was no scoring in the second period. At the beginning of the second half the enlisted men took

CHARLEY MACE

LET'S HAVE SOME TALK

[illegible] people [illegible] at the university [illegible] by a certain school of [illegible] This matter is to [illegible] has come to the attention [illegible] and especially of professors [illegible] There are topics we can [illegible] and there are others that we cannot. Those given "some thought" are the topics and hold the particular [illegible] under consideration. But what [illegible] the reaction in this respect may be there are points of conduct that [illegible] is deserved.

[illegible] we come to the consideration [illegible] of our more popular songs one [illegible] emphasizes the "whaling" of [illegible] the heroine in the world and which [illegible] readily seems to the natives of [illegible] part of proper appreciation. Last Friday while we watched practice this was being sung. At the game Saturday it was omitted and we trust [illegible] that it be kept for ever [illegible]. If any wants [illegible] as an [illegible] would better than with a [illegible] "dear present" but even then there is a limit of [illegible] in the words that would prove beneficial.

[illegible] is a fine evening if ever [illegible] and especially the hope of [illegible] for [illegible] ground upon which to stand. And apart from [illegible] what is the advantage? Confidence is good, but it is not found in this song. To inspire confidence in [illegible] and practice, but the words of this [illegible] cannot do the work. Were the song under discussion [illegible] at Middlebury or Norwich, though still objectionable, it might not seem quite so out of keeping. The spirit existing in the Vermont State pilot is there, of course. Yet even here the song is altogether inappropriate. A decided saving of the [illegible] for stronger hose.

There is no particular reason why we should select Harvard or Yale though such things are done. The size of our University and our limits for boasting achievements are against such a practice. But when we do defeat those teams the collegiate world knows about it and it is much better to let others report our victory than for us to boast of our to come.

"What can I do that will prevent me from tripping all my dances?"
"Turn the wall upside down."—*Pitt Panther*

Mr. Newed: [illegible]. And how do you get along with the [illegible] darkies?
Mrs. Newed: Oh splendidly. He's such a [illegible] man. When I order a [illegible] pound [illegible] he always sends one weighing 18 or more.—*Pitt pub.*

UNIVERSITY CHOIR NOTICE

The following persons have been chosen as members of the University Choir:

WOMEN

Marion Baldwin, Catherine Bassett, Amy Birchard, Marion Cleveland, Margaret Corbin, Dorothy Fowler, Lorraine Guillette, Eleanor Koenig, Miriam Lawrence, Cynthia Lynch, Della Martin, Marian Miller, Maud Moore, Clarissa Peters, May Putnam, Marion Sargent, Helen Willard.

MEN

H. E Barnes, C Crothers, F Forth, O. T. Frost, H. E. Goddard, C Goodell, E. Haynes, D. Huggett, R. T. Krogh, W. W. Parker, E. C. Slack.

The first rehearsal will be held in the front room of the Music Building Wednesday at 8 P. M. The choir will sing next Sunday afternoon.

"Triplets," announced the nurse to the proud father.

"Really?" he said. "I can hardly believe my own census."—*Dartmouth Jack-O-Lantern.*

Fraternities Holding One More Open House Before Rushing

(Continued from page 1)

blanks, "I accept," or "I do not accept your invitation to membership, and then put each invitation in the envelope addressed to the inviting fraternity and return same to the Conference room.

"On the day of pledging when the invitations are being given out, fraternity men will remain in their houses.

"Every invitation must be in writing, and upon printed forms furnished by the secretary of the Conference. Invitations not accepted shall be returned This does not apply after pledging day."

Most of the fraternities report an increase over last year in the number of guests, but there are some that state that they have had fewer guests this fall than before. This means that on the whole the Freshmen are realizing that this is the opportune time to meet the fellows in the different fraternities and to look over the houses. The rushing parties will afford the individual a much better insight into the policies of the respective fraternities.

WHY I BELIEVE IN FOOTBALL

By Dr. John M. Thomas, Pres Penn State College.

I believe in football because it fixes in every student the spirit of fight and the will to win. It is all a mistake to say that men on the bleachers get no benefit. They receive incalculable benefit in the spirit that surges through them in support of their team the spirit of determination and irresistible attack.

I believe in football because it fuses the college into a unity. Before the first big home game each year, the college is only a mass of individuals but with the long yell that greets the team for its first big fight, a new and living entity comes into being In the game the soul of the college is awakened anew, and he is no man at all into whose heart the thrills of the contest do not send currents of devotion and loyalty which flow till his heart no longer beats.

The Campus.

Scabbard and Blade Planning Gala Time at Military Ball

(Continued from page 1)

limit the sale of tickets to the neighborhood of 250 admissions.

New features and novelties have added to the popularity of the Military Ball during the succeeding years. And in the years of 1925 and 26 with the admission still limited to 250 couples it proved to be one of the best attended terpsichorean affairs on the hill

The Scabbard and Blade Society is sparing no effort in making this year's Military Ball as fully a brilliant success as it has proven to be in former years. Tickets can be obtained from any Scabbard and Blade man R M Whitcomb '28 is chairman of the dance committee and the whole Society is working to help make the dance more entertaining than ever

NEWS IN BRIEF

The material for the first issue of the new Literary Magazine has already come in. The paper is to be sent to the subscribers by the first of November. All those who want copies of the first number should get their subscriptions right away from any member of the board or by mailing one dollar to C. H. Overly at 59 Ledge Road.

PROSPECTS LOOK GOOD FOR VERY SUCCESSFUL SEASON OF BASKETBALL

Manager Castle Releases Final Schedule of the Green and Gold Hoopsters—Several New Teams Included

Manager Castle of the basketball team announced this week that there is a possibility of further basketball games being added to the schedule. Although it is yet too early to predict with any accuracy, the prospects all indicate a season even more than usually successful.

The squad of players reporting at the present time consists of H. Prentice, Pierce, J. Bissonnette, J. Mackville, R. Wigmore, A. Shelley, C. Lemay, L. Morgan and L. Page.

Coach MacVicar has gone ahead in shaping the team into shape. Wins are especially desired in the Dartmouth game, New Hampshire State, Connecticut Aggie, Holy Cross and Springfield games. The schedule for the season is as follows:

December
- 20 Montreal A A A at Burlington.
- 21 Dartmouth at Hanover.
- 22 Montreal Y M C A at Burlington.
- 29 Yale Freshmen at New Haven.
- 30 Crescent A C at Brooklyn

January
- 7 Rensselaer Polytechnic Institute at Troy
- 11 St Michael's at Burlington

February
- 4 New Hampshire State at Burlington.
- 6 Cong Agri. College at Burlington.
- 6 Norwich at Northfield.
- 9 St Michael's at Winooski Park.
- 11 Middlebury at Burlington.
- 14 Pending at Burlington.
- 17 Springfield at Burlington.
- 21 Holy Cross at Worcester.
- 22 Springfield at Springfield.
- 28 Middlebury at Middlebury.

March
- 1 Norwich at Burlington
- 3 Holy Cross at Burlington.

FACULTY COUNCIL DECREE

At a meeting of the Faculty Council held on October 3, 1927, the Sigma Nu Fraternity was adjudged guilty of an "extremely minor" infraction of the rushing rules. In accordance with Article 9 of the rushing rules the pledging of T. Smyth McLean by Sigma Nu Fraternity was held to be "irregular and unlawful." In accordance with Article II of the rushing rules Sigma Nu Fraternity was suspended from the Interfraternity Conference and prohibited from competing in interfraternity contests until the beginning of the second semester of the present school year.

D. B. CARROLL,
President, Faculty Council.

ADVANCE STUDENTS IN R. O. T. C. RECEIVE CHECKS

Advance students of Military Science appeared today with large smiles in evidence on their features. The chief reason for same seemed to be the fact that most of them had received their quarterly commutation stipend allowance by the United States Government, ranging anywhere from five to $25. per man, according to the length of time in service, or the length of time since last being paid off.

Advance students of the R. O. T. C. now number the prescribed Government quota of 80 infantry men, with possibilities for an enlargement of the Medical Corps.

LARGE AUDIENCE HEAR CONCERT BY SPALDING

Albert Spalding, a world renowned violinist, played at a concert last Saturday evening in the University gymnasium cage that held a record breaking audience spell-bound in silent admiration of his beautifully manly style and perfect technique. With soft deep, elusive, plaintive, grand and virile air he rendered his selections and over all ruled his personality with his whimsical smile reacting to the effect of the music of his creations on the sea of faces. His violin was not only as a tool by which he applied his art in his momentary moods.

She threw him in the gutter, but he said he'd be darned if he'd sewer.

VOLUME 46 — BURLINGTON, VT., FRIDAY, OCTOBER 21, 1927 — NUMBER 9

NDEFEATED KITTENS TO PLAY STRONG POST AGGREGATION TODAY

reshmen Take On Soldiers At Fort Ethan Allen This Afternoon

The K[illegible]ens will attempt to claw their [wa]y to another victory Friday afternoon when they clash with the strong Post team on Fort Ethan Allen's polo field. To date the Frosh are undefeated and have piled up a total of 91 points to their opponents 6. They have been far superior to the teams they have already dealt defeat to, but the last half of their schedule promises to be a little stiffer. The soldiers have a heavy fighting eleven this fall, with such men as "Red" Neilson, heavyweight boxing champ of Vermont, Russo, another mit-slinger, McCormick and Adams being found in their lineup.

Last year's Frosh gridiron artists imposed a heavy defeat on the soldiers and so they are now out to wreak revenge on the Rattanite plebes of this year.

Coach Rattan has produced some fine prospects in such men as Watkins, Allan, Hough and Howard. Watkins is a hard man to stop and is high scorer for the Green and Gold Frosh. Allan is a heady signal caller and is largely responsible for his team's success. The tackles, Hough and Howard are breaking up, hurrying or stopping many of their opponent plays and are the mainstays of the line. The whole team as a unit works as smooth as a well oiled machine and it looks as though they were going to come thru with a clean slate for the year.

The Frosh will probably line up Friday p. m. as follows: Tobin, l. e.; Howard, l. t.; Scutakes, l. g.; Park, c.; De Cicco, r. g.; Hough, r. t.; Smyth or Russ, r. e.; Allan, q. b.; Heaton, l. h. b., Tellier r. h. b.; Watkins f. b.

HIGH SCHOOL EDITORS WILL CONVENE HERE

Editors of high school publications from all parts of Vermont will assemble at the University on Saturday, October 29, to discuss the topics, "The Problem of the High School Editor" and "The Business Problems of High School Papers."

The morning session will be held in Hall A of the Medical Building opening at 10:30. The speakers at this meeting will be Walter H. Crockett, director of University publications and lecturer on journalism, who will outline the purposes of the conference; Leon W. Dean, instructor in English, speaking on Short Story Writing; and Professor Frederick Tupper, head of the English Department who will give an address on a subject not yet announced.

At 12:45 the editors will be guests of the University at a luncheon served on the roof garden of the Hotel Vermont. Following the luncheon, an English teacher, not yet announced, will speak on "The Relation of School Journalism to the Work of the English Department." This will be followed by a general discussion.

It has been customary for each high school publication to send two delegates preferably the editor-in-chief and the business manager. The English teachers co-operating with the [illegible] the school principals and other members of the staff will be welcomed at the conference.

FRESHMEN ARE EQUAL TO A MAJOR IN ACUITY

New York (By *New Student Service*) There is no flattery for the [illegible] in the report of Dr. W. R. Atkinson, psychology instructor at Southwestern College, that the average intelligence of the freshmen class is equivalent to that of a United States army major. Dr. Atkinson announces further that "two years ago the freshman was as equal to an army sergeant in acuity; last year equal to that of a captain, and this year equal to a major." This indicates, he says, that the present class rates above the average. However, there is a question involved. Inasmuch as the army is uniform there is some doubt about the compliment awarded to the freshmen even though the professor spoke of "acuity" and not "vacuity." It will probably take a congressional investigation to determine who is the goat of Dr. Atkinson's startling announcement.

MANNING CHAIRMAN OF FOOTBALL HOP

The Football Hop Committee, which is run each year by the Sophomore class, plans to cooperate with the athletic department and hopes to be able to announce next year's football captain at a dance to be given soon. It also plans to present blankets to the Senior members of the team, and in the event we win the state title to present gold footballs.

The committee is as follows: Chairman, P. E. Manning, R. G. Howley, J. A. Bradish, W. J. Slavin, T. C. Puffer, L. O. Clayton, F. E. Beer, R. F. Lawrence, Harvey Butterfield '31, Mabel Freeman, Anne McLaughlin, Irene Marcotte, Dorothy Kimball and Marjorie Huntley.

LITERARY MAGAZINE TO MAKE APPEARANCE ON CAMPUS NOVEMBER 1

Selection of Material Completed by Board and Fourteen Contributions Will be Published According to Table of Contents

Vermont's new Literary magazine is to appear on the campus the first of November. The board has completed its selection of material, and the magazine is now being printed by J. A. Tomson of St. Albans. The table of contents as announced by Miss Rachael Skinner '28, editor of the magazine, includes short stories, essays, poems and humorous articles by some of the leading writers in college. According to an announcement made public to-day, the new magazine will have the following table of contents:

Editorial ..... Rachel Skinner '28
The Song of the Jade Flute
Merta Monroe '28
Clipper Ship, poem, F.N. Meissner '31
On Moustaches .. Louis G. Leary '28
Scoria, poem, ..Janice Goodrich '30
Dead or Alive .. Pauline Sullivan '27
Cui Bono, poem, ... Vera Doyle '28
Interim ..... Eleanor Taft '28
Prose, poem .... Janice Goodrich '30
When Polliwogs Lose Their Tails
Florence Smith '27
Mother Hands, poem, Mary Wilson '31
Humor Section
Much Ado About Nothing
Louis G. Leary '28
Tragedy ..... Laura Bliss '28
The Little Dream-Box
Joseph W. Eaton '30

Of the contributors, Florence Smith '27, Louis Leary '28, Janice Goodrich '30 and Laura Bliss '28 have already had some of their works published in the Literary magazine, which the Cynic has published during the past three or four years. Merta Monroe '28 who enters "The Song of the Jade Flute," has already had a number of her short stories and plays printed in magazines. Several other contributions were entered in the Tri-state literary contest, which closed last year. Among the later are "On Moustaches" by L. G. Leary '28 and "Scoria" by Janice Goodrich '30.

Charles Overly '29, business manager of the new publication, announces that the board has a subscription list of over two hundred. He states that the campaign for subscriptions will go on until the date of publication. The rate of subscription is one dollar. Individual copies will be sold at the University Store and downtown news stands for twenty-five cents. According to the present schedule there will be six issues during the year. Manager Overly also announces that anyone securing ten subscriptions for the new magazine will be given a year's subscription free.

In the first number will be published full details of a contest for the name of the new publication. A substantial prize is to be offered to the winner of the contest.

A joint meeting of the Gold Key, Key and Serpent, and Boulder Societies was held at one South College, Tuesday at one o'clock. The meeting was called for the purpose of defining the duties of the various committees of the Sophomore and Junior Society. The Boulder Smoker was also discussed.

All students who have changed their addresses since enrollment should notify the registrar's office in room 5 immediately because this information is needed for the student directory.

HONORARY ENGINEERS PLAN SNAPPY SMOKER

Kappa Mu Epsilon, honorary engineering society will hold its first smoker of the year this Friday evening in the Gymnasium. "Joe" Lechnyr and his R. O. T. C. Band will again furnish music during the evening. The engineers who are putting on this smoker are arranging stunts for that evening. Smokes and refreshments will also be in order.

Several prominent speakers have been obtained for the evening. "Hank" Iresser, live coach of the Catamounts, Professor Puffer, of the Engineering College, Professor Carroll, of the Arts College and efforts are being made to get "Bart" Garrity, of '22 who played against Dartmouth when Vermont won, as a special attraction.

Another motion passed on at the recent meeting of the K. M. E. was for a dance which will be held sometime in February.

AUTUMN PLAY IS UNDER CONSIDERATION OF THE DRAMATIC FRATERNITIES

Wig and Buskin with Masque and Sandal Are Looking Up Prospective Plays Under the Supervision of Mrs. C. Ives Taggart

Plans are well under way for the rendition of another play sponsored by the two honorary dramatic societies, Wig and Buskin and Masque and Sandal. A joint meeting of the two societies was held recently at which a committee consisting of Sabin Abell '28, chairman, Evo Lucchina '28, Whitney Safford '28, Muriel Cleveland '28, Eleanor Davison '28 and Eleanor Taft '28, was appointed to meet with Mrs. C. Ives Taggart coach for the University players for several years, to select a play for this fall. This committee met with Mrs. Taggart in Number one North College last Saturday afternoon. At this time several plays were distributed among the members for their consideration and approval. The title of the play will soon be known for the committee is to meet again in the near future to make a definite selection.

Mrs. C. Ives Taggart has coached Vermont players in eight comedies during the last few years. It is due mainly to her efforts that Vermont has done so well on the stage. At this time last year there were two successful performances of the comedy of Walter Hackett's "Captain Applejack," one at the Strong Theatre here in Burlington and another in Springfield, Vt. Besides this there is the annual Spring play coming during Junior Week.

Vermont is assured of gaining a coveted position in college dramatics this year because of the many veteran players which form a nucleus about which new talent may be trained. With veterans of the calibre of Muriel Cleveland, Dorothy Cottrell, Eleanor Taft, Eleanor Davison, Anna Perkins, Annette Roseburg, Roger Albee, Evo Lucchina, Whitney Safford, all of "Captain Applejack" fame, indications are that Vermont will continue if not better the high standard of college plays that she has achieved in the past.

Miss Colburn of the education department went to Chester, Vt., Tuesday, Oct. 18, to speak to the Woman's Club on Every-day Art, that evening.

UNIVERSITY CHOIR

The University Choir will sing at the evening services at the Ira Allen Chapel this coming Sunday. A rehearsal will be held in the music building Sunday afternoon at 2:45. All members are requested to attend.

Members should bring their gowns to the rehearsal. The gowns may be obtained at the Medical Book Store from 9 to 12 o'clock Saturday morning. Women members should provide themselves with collars for their gowns before the rehearsal. Any new members who desire further information should get in touch at once with either Miss Marion Lawrence or Miss Catherine Bassett.

"Frank" O'Keefe

Speedy center and strong defensive man of the fighting Vermont team

Y. M. C. A. WILL INSTITUTE MEMBERSHIP CAMPAIGN

On the first of November the Y. M. C. A. will institute its annual campaign for membership under the direction of Secretary Merrill Powers. A continuation of last year's discussion groups is planned. These groups will meet every week for six or eight weeks to discuss questions of vital interest to the students. As yet the dates have not been definitely decided upon but the groups will hold their first meeting in the near future.

The Y has been very successful in finding rooms and employment for many of the new students. The department has placed at least sixty students in desirable rooms and has aided six more in finding places where they can earn room and board. Through its services twelve men have received permanent work which nets them as much as five dollars a week. Many more students have obtained part time work through the Y Employment Bureau which has already set a record of over two hundred dollars received in this way.

HEAD-HUNTERS KNIFE AT VERMONT MUSEUM HAS UNUSUAL HISTORY

Relic Said to Have Decapitated 48 Bodies in Barbarious Rites of Borneo Tribes—Custom Still Prevails in Some Tribes

The University of Vermont Museum has in its collection a Head-Hunter's knife which was originally in the prized possession of a certain famous Dayak chieftain of Borneo. But that was years and years ago, maybe over a century. Nobody really knows. However, in spite of all this lapse of time, fragments of the history of the knife have been deduced from its peculiar markings and symbols, and from the characteristics of the Dayak tribes as set down by Carl Lumholtz, a well known traveller and anthropologist.

The knife measures 24 inches from the ivory ring at the end of the handle to the tip of the blade, and is probably the only one in the United States. It has cut off 48 human heads. To cut off a head was a great honor and a religious superstition with this Dayak tribe of Central Borneo, and the old chieftain who owned the knife had cut off so many heads that he feared he would forget the number unless he marked it down. With his barbaric intellect he conceived the idea of hammering a brass peg into the back of the knife for every man slaughtered. Today the knife shows 48 pegs . . . 48 humans that had felt its cold steel pressed into their throats.

The handle, which is eight inches and a half long, is a solid ivory carving representing a god that belonged to their tribe. Upon the shoulders of the god there rests the body of a headless victim. The head is carved on the back of the handle in such a manner that it still seems to be hanging to the body, while the whole handle is mounted in silver worked in an odd fashion similar to *cloisonné*.

The purposes of Head-Hunting are manifold, and all of these purposes are deeply rooted in the religion of the

(Continued on p. 4)

STRENGTHENED TUFTS TEAM MEETS VERMONT TOMORROW AFTERNOON

Catamounts Expect Plenty of Opposition From Brown and Blue Eleven in Second Home Game of the Season

The Catamount Varsity will meet the Tufts eleven at Centennial Field tomorrow afternoon. Coach McAvoy expects plenty of opposition from the Brown and Blue in view of the fact that they have been travelling in high all this season.

Last Saturday Tufts defeated Middlebury in a bitter battle. In this game the Jumbos were out to avenge defeats of previous years, and they succeeded. The case will be similar here tomorrow. Last year Vermont pinned a defeat on the Brown and Blue banner, which is still felt, and now, with that contest in mind, the Medfordites are determined to turn the tables on the Vermonters.

"Mel" Bowker, the Tufts captain has been out of the line-up for a while on account of a twisted ankle but he may be in shape tomorrow and bolster up both the offense and defense of the visitors. "Fish" Ellis, the quarterback is one of the best all-around men Vermont has to face this season. He is a triple-threat of no mean ability. His broken-field and end running along with his generalship is of the highest calibre. He also excels as a kicker and passer, but in this respect he will be given more than enough competition by our own Captain "Jack" Smith. In the line Tufts boasts Goldman, a clever end, and Hanson, a tackle, who starred against Middlebury.

Vermont has been playing good ball of late. Breaks account for the showings against Harvard and Williams, more or less, but against Providence the boys played heads-up, without a hitch, and showed what they really can do. The starting line-up will probably be the same as the one which opposed the Rhode Islanders. Coach McAvoy is fortunate in having some reserve material which is developing into real strength. Eddy Gourson has been playing a whale of a game in the backfield both offensively and defensively. Charley Mace is showing the form he displayed for the Frosh last year and Cal Macomber is hitting the line hard. Either one of these three men can substitute dependably. In the line Werner is fighting hard for a guard position and is making Kropper and Levine hustle. Knapp looks good at tackle and Leary is bound to play on the end before the final whistle tomorrow. Palmer is nursing a bad leg.

The teams will probably line up as follows:

Vermont		Tufts
Robinson, l. e.		Goldman
Damon, l. t.		Hanson
Kropper, l. g.		Soule
O'Keefe, c.		Rachdoff
Levine, r. g.		Melly
Winchenbach, r. t.		Fitzgerald
Strois, r. e.		Austin
Conway, q. b.		Ellis
Estabrook, l. h. b.		Kennedy
Scutakes, r. h. b.		Illingston
Captain Smith, f. b.		Marshall

POPULAR COMEDY GIVEN HERE BY THEATRE GUILD

The Guardsman, Franz Molnar's three act comedy, was presented by the Theatre Guild at the University gymnasium last Monday evening before a large audience. George Gaul and Florence Eldridge played the leading rôles, as the "Actor," and the "Actress" his wife. This play is one of the finest comedies that has come to Burlington in years. It reveals a jealous husband who poses as a Russian Guardsman to test his wife's faithfulness. He deceives himself in believing he is deceiving his wife as to his identity. Both actors play their rôles of deceiving each other throughout the play. Such is the complication which Molnar has developed so brilliantly. At the end they find they love each other as ever and the "Actress" plays Chopin on the piano for the last time in anticipation of another love affair.

The Choir will sing in public for the first time Sunday afternoon, October 23, 1927.

Catamount's Lair

By Sassenach

Rx

New Member of Medical Faculty

Wendell E. James A. B. has been appointed Assistant in Pathology and Bacteriology in the College of Medicine. Mr. James comes from Providence, Rhode Island. He received his A. B. degree at Brown University and has been a research assistant in Pathology and Bacteriology. Mr. James is married but has no children. As yet he has no established residence.

All nine students who appeared before the National Medical Board of Medical Examiners last June passed their examinations and one, Newhall stood fourth from the highest in the group of 253.

Medical Fraternities Alpha Kappa Kappa and Phi Chi held smokers in their rooms Wednesday evening, October 19.

E. R. Mitiguy has returned from a short trip to Boston.

A Philippine man who was a good friend of the Mayo brothers had a son whom he wished to send to Medical College. Upon asking their advice concerning the famous surgeons brought the College of [illegible] to their son is now in our midst, Charlie Stafford is his name, do you know him?

From casual observance this student would seem all women to refrain from [illegible] their sex appeal in lobbies around the Medical building while the Nurses are heeding coeds on the steps.

Dramatic Workshop

(Boston *Big News Student Service*): A dramatic workshop, for the production of a series of original plays, has been organized at Boston [illegible] college of liberal arts as the major activity of the dramatic club. Originality is the keynote of the workshop's effort. To encourage student playwrights a contest will be opened to all liberal arts students with prizes, and publication of the winning plays in *The Beacon*, as rewards. Three faculty members will judge the efforts of the dramatic authors.

One-act plays written by undergraduates will be produced by the student dramatic guild at the University of [illegible] this year. Four already [illegible] will take on the strong Tufts eleven and this game will be far from being easy. The Blue and White has one of the strongest elevens in years and they are out to reverse the 14 to 13 score that Vermont turned in last season.

Charlie "Maze or "Hot Dope" sure got rid of a little lead somewhere before Saturday. Did you see him tear against Providence every time he took the ball Vermont gained about twenty yards.

AT THE DORM

By Governor Hall

In days gone by the battle cry was "Hold your ground, my men!" Horatio brave, the old world gave; he held the bridge back then. In modern times, in modern war (no echo still) rings true, a tale of gore, fought bit by bit, is what I have for you: The freshman class, as bold as brass, defied [illegible] a water fight of brawn and might the subject of the fray. With chosen ranks now both the banks are lined by fighting hordes. The [illegible] gaze on, they look upon the field from roofs and Fords. A sudden, rush, a mighty gush of water comes forth, and both sides bend from end to end like trees far in the north. Three valiant fights, with short respites, have ended in a draw. The soldiers then (state Border men, speak forth, commanding awe.

"A final fray we'll hold today; the victors shall take all!" The crowds can see that all agree and brace them back to wall. Oh, History, thy mystery unfolds no greater war. No truer darts, no braver hearts than these were e'er before. We'll sing our lays and give our praise to soph and frosh as one. But let us give—long hay they live!—three cheers for '31.

"That fellow gets on my nerves."
"Who is he?"
"My dentist."
—*The Wesleyan Argus*

selected range in subject matter from a story of the primitive cave-man on down to a story of the up-to-date man and woman, according to *The Emerald*. Molnar's "Swan" and O'Neil's "Beyond the Horizon" are also in prospect for undergraduate production.

Epsilon Sigma alumnae had breakfast at 8 o'clock on the morning of Friday, Oct. 14. Among a total attendance of over 50 members, four were charter members. Impromptu speeches were made.

Upsilon Tau Alpha held a business meeting in Room 3, No. College, Tuesday, Oct. 18, at four o'clock in the afternoon. The meeting was called by the president, Constance Ellsworth. Plans for the year were worked upon.

Sorority Notes

KAPPA ALPHA THETA

Helen Stoddard '27 of Adams, Mass., is ill at her home, suffering from ... scalp and face burns.

Harriet Elliott '25 attended the Teachers' Convention and was a week-end guest at the Chapter House.

DELTA DELTA DELTA

Beatrice Herberg '26 is teaching in Burlington High School.

PHI BETA PHI

The active members gave a tea for the patronesses Thursday afternoon at 247 Pearl Street.

Elsie Stevens '28, a transfer from Indiana Beta, has announced her engagement to Lloyd McGillvray of Springfield, Vermont.

ALPHA XI DELTA

Constance Weaver ex-'26 was in town during the Teachers' Convention.

Helen Menck Hall '26, was in Burlington for a short time this week on her way to Missouri where she will make her home.

SIGMA GAMMA

Doris Sprague Hill, Doris Austin, Edith Salls, and Ruby Blaine, all of the class of '27 and Elizabeth Sprague Newton '25 were in Burlington during the week-end.

PARKING PROVES MORE THAN LOCAL TROUBLE

In reading through the college papers we find that we are not the only college that is having trouble with parking cars on University property such as University Row. The following is an extract from the *Hobart Herald*:

Another drastic rule has just been drawn up by the faculty. Violations of the parking rules can now be sentenced to probation.

The *Herald* is quite in sympathy with the college authorities in their effort to better the Hobart Campus by keeping automobiles in an orderly parking ground. Students are sometimes slow in realizing the importance of having an orderly and well kept campus but the great majority of them are always behind any scheme which tends to make Hobart a better college.

Does it seem petty and unnecessary to threaten an offender with probation? Probation is a very serious thing and it seems unreasonable to put a man on probation for any other reason than scholarship. Could not a system of fines be instituted to take the place of this autocratic ruling?

Why must the College students be coerced and threatened at every turn of their daily routine like a group of preparatory students?"

The final try-outs for the Men's Glee Club will be held in the Music Building at seven o'clock on Friday evening, October 21, 1927.

The Williams vs. Columbia football game taking place next Saturday might to prove of interest to Vermont.

Compliments of

United States Civil Service Examination

The United States Civil Service Commission announces the following open competitive examination:

JUNIOR PATENT EXAMINER

Applications for junior patent examiner must be on file with the Civil Service Commission at Washington, D. C., not later than November 12. The date for assembling of competitors will be stated on their admission cards, and will be about ten days after the close of receipt of applications. The examination is to fill vacancies in the Patent Office at Washington, D. C., and in positions requiring similar qualifications. The entrance salary is $1,860 a year. A probationary period of six months is required, advancement after that depends upon individual efficiency, increased usefulness, and the occurrence of vacancies in higher positions. Optional subjects are French, German, mechanical engineering, physical and organic chemistry, chemical engineering, civil engineering, and electrical engineering. The duties will be to perform elementary scientific or technical work in the examination of applications for patents; to see what the alleged inventor thinks he has produced that is new, and to see that the disclosure is complete; and to investigate the prior art as represented by patents already granted in the United States and various foreign countries and by the descriptions in technical literature. Competitors will be rated on physics, technics, and mechanical drawing; and the optional subject selected.

Battalion Officers

The military department has recently made appointment of cadet officers for the R. O. T. C. Battalion, which include 24 second lieutenants and thirty sergeants warrants. Due to the greatly increased membership in the advanced classes of Military Science, Colonel Black, Commandant, has found it necessary to divide the officers into two groups to have alternate charge of the companies. The groups as issued by the department follow:

GROUP 1

Company Commanders: Co. A, 2nd Lieut. Lawrence M. Marvin; Co. B, 2nd Lieut. Howard A. Prentice; Co. C, 2nd Lieut. Porter C. Greene; Co. D, 2nd Lieut. Wm. N. Cogswell.

Platoon Leaders: 1st Plat. Co. A, 2nd Lieut. Robert T. Holden; 2nd Plat. Co. A, 2nd Lieut. Elliot London; 1st Plat. Co. B, 2nd Lieut. John M. Leavens; 2nd Plat. Co. B, 2nd Lieut. Ralph B. Gile; 1st Plat. Co. C, 2nd Lieut. Clayton E. Brown; 2nd Plat. Co. C, 2nd Lieut. Lewis G. Leary; 1st Plat. Co. D, 2nd Lieut. Clarence F. Castle; 2nd Plat. Co. D, 2nd Lieut. Wm. Chadbourne.

GROUP 2

Company Commanders: Co. A, 2nd Lieut. John N. Conway; Co. B, 2nd Lieut. Crawford M. Adams; Co. C, 2nd Lieut. Charles Stevens; Co. D, 2nd Lieut. Rolfe W. Schoppe.

Platoon Leaders: 1st Plat. Co. A, 2nd Lieut. J. Fuller Mitchell; 2nd Plat. Co. A, 2nd Lieut. Wendell P. Roy; 1st Plat. Co. B, 2nd Lieut Francis A. McLaughlin; 2nd Plat. Co. B, 2nd Lieut. Cedric Wolfe; 1st Plat. Co. C, 2nd Lieut. Herbert C. Sherwin; 2nd Plat. Co. C, 2nd Lieut. Abel A. Valenti; 1st Plat. Co. D, 2nd Lieut. Robt. M. Whitcomb; 2nd Plat. Co. D, 2nd Lieut. Rex Morse.

A class in Social Dancing, taught by Miss Annis Baldwin, will begin the week of October 24th. There will be four lessons given for $1.00. and also a chance to continue the class for a longer period if there is sufficient interest. Please leave your name with Miss Cummings or Miss Blanchard as soon as possible if you intend to join. A time convenient for all will be arranged.

KAPPA PHI KAPPA MEET AND ARRANGE PROGRAM

At a meeting of Kappa Phi Kappa, honorary education fraternity, held last Tuesday evening, an order of meetings was adopted, and the budget report was adopted with a few minor reservations. A program is now being arranged for the remainder of the semester. Professor Douglass, the faculty sponsor of the fraternity, is giving a great deal of time and many helpful suggestions.

About 20 Juniors and Seniors are taking the required courses, and some of these will be eligible for membership. So far, the only qualification that has been adopted is that prospective members shall maintain an average of 75 in all their college work; other rules for eligibility, however, will be adopted at the next meeting.

Today telephone cables cross country that Daniel Boone knew.

To the Daniel Boone in every man!...

It is still the day of the trail blazer. In the telephone industry pioneers are cutting new paths in the knowledge of their art.

This industry is continually on the threshold of new ideas, with each development opening up a vista for its explorers to track down.

Their activity will be as engineers in laboratory research and plant operation, but also in supervisory and executive positions—planning the course of activity for groups of men and carrying the burdens of administration.

The responsibility and opportunity of management take on an increasing importance in an industry such as this, where forward-looking leadership must point the way to ever better public service.

BELL SYSTEM

"OUR PIONEERING WORK HAS JUST BEGUN"

College Without Classes or Exams Started by Meiklejohn at Wisconsin

Dr. Alexander Meiklejohn, who has been advertising around the country recently on "The College of the Future", has been given an opportunity to put his theories into practice at the University of Wisconsin. There he is at the head of a college within a college, conducted entirely for the sake of trying out new theories of education.

In a lecture before the students there he said in part: "What do you think of it?" "Gosh, it makes me feel a little peculiar, whether I can make a go of it or not. When you don't have to recite it isn't necessary to make yourself do the reading."

At the same time the reactions of some other students are casually as interesting and significant. Accordi to the type it all depends upon the student himself. If he is able to discipline himself I see no reason why he shouldn't get at least as much out of it as he would from the old method."

But a third one's views were quite different. "I think that it is great," he said as he reclined on his bed, his head propped on his hands. "You know sometimes I don't feel like working at all so I just go out and forget about it and then when I'm over my head I want to read up on and go in. I'm not worrying."

"THAT WINNING SMILE

Captain Kenyon and captain-to-be Cassidy pose. Reading left to right, Assistant Coach Jim Weeks, Captain Elect Cassidy, Head Coach Kenyon.

NEWS IN BRIEF

Professor Ezra Thurston head of the Mathematics Department at the University of Cincinnati is attending the Centennial Exposition of the production of two plays between this week and next. The first is the presentation of the University of Cincinnati at Cincinnati, Ohio, on October 31, and at the Exposition of education building at Chicago, Ill., on the 15th of October.

Phyllis Gilman, freshman student at Wellesley College, has received the first gift of money ever given to the college. The first gift, coming the 21 millionaire son and the second two hundred dollars earned by the students themselves, is the result of military drills, theatricals and advertising by Wellesley freshmen.

Dr. Commodore Graham of Manchester, N. H., spoke at the Congregational Church Sunday morning on the text, the four-fold objectives of today. He stated that the answer to Bruce Barton's "What Can We Believe" is found there. According to Dr. Graham the needs of our time are health of character and not believing the best does.

KEY AND SERPENT WILL ADANCE SMOKER DATE

The Key and Serpent society held a meeting at the Sigma Phi house last Thursday night at one o'clock. The society plans to hold the date for its second dance Friday, Nov. 13 in the Woodstock Inn. The standard is established for the dance and the committee in charge is well-known. Dancing will be from eight o'clock. Refreshments between the changing of the music for the dancers. The committee made further arrangements for the Key and Serpent dance. The different committees were appointed and the society adjourned. The next meeting will be held at the home of Professor Hall. The dance is set for November 12, which is the same date as the Middlebury game.

FRESHMAN'S REJOINDER TO ROBERT McGEE'S POEM

"I write this in answer to Mr Robert E McGee's "To the Freshmen" writes a freshman under the caption of "poem" Rallen." This poem shows the feelings of the Freshmen after their victory over the Sophomores in the hose fight. These sentiments may have cooled considerably after the defeat in the Cane Rush on Saturday."

TO THE SOPHOMORE

I

Oh! dear little Bruce,
With the grass grown up,
The "Frosh" are desiring
A razor slip
Perhaps we are wrong.
More probable right.
Leave our colors and stay
In at night

II

A word to the wise,
Is all for Macomber,
All we want from you
Your fee
In an endless number

III

A word to the good,
From you to the stag
Flow the hand of "The Red Key"
Descend.
To paddle with a will all
Sophomore men

VI

Comprenez-vous or not,
We little care,
But we'll give you as good
As you send
And the score will stand
Until the 14th
In favor of
The Underclass men.

—Rallen '31

The advisory board for the Medical Section of the Ariel has been announced by H M Twitchell as follows: Professor H H Twitchell assistants, E R Mitiguy, W J MacNamara, Miss Emily M Perkins and A. S. Downing.

BATTALION TO APPEAR IN UNIFORM SOON

The uniforms for the Freshmen will be here by Friday, October 23, at the latest. The first drill in uniform will take place on that Friday, and everyone is requested to get his uniform as soon as it comes in. A list of the men whose uniforms are ready will be posted from time to time.

Saturday morning make-ups for unexcused cuts will start Saturday morning, October 15, at 7:30. All cuts must be made up, as 96 hours are required for a passing grade. It happens that the course comes exactly 96 hours during the year, so that no cuts are allowed. The officials of the department urge Freshmen to bear this fact in mind, lest they find themselves four years from now in the same fix as a few of the present seniors have found themselves, obliged to take freshman military in order to graduate.

MORTAR BOARD DANCE TOMORROW EVENING

The chief event of this week's social calendar is the annual fall dance of Mortar Board society, which will be held in the Burlington High School Gymnasium tomorrow evening. Professor and Mrs. Daniel B. Carroll and Mr and Mrs. Walter Biggar will chaperone. Music is to be furnished by the Algonquins.

Tickets may be procured from Eleanor Lockwood, who is general chairman of the dance, or from Alma Batten, Jeannett Hayes, Dorothy Hall, Della Martin and Helen Stevens.

Fourteen students from foreign countries have enrolled at Smith College this year.

"TINY" KNOPPER

Speedy guard and one of the strong mainstays of the Catamount line

Head-Hunters Knife at Vermont Has Unusual History

(Continued from page 1)

Dayaks. For example, at the death of a chieftain it becomes necessary to make a raid on a neighboring tribe to obtain at least five heads. The *liao* or departed soul of the unfortunate victims turn into servants for the dead chieftian. Anyhow, that is their sincere belief.

The practice of Head-Hunting among the Borneo tribes is still alive, the old heads being used over and over, but the actual taking of the heads is nearly extinct.

Mel Bowker, Captain of the Tufts football team reported for practice again Monday, after a long absence, due to a sprained ankle. It seems likely that the Tufts leader will appear on the field Saturday to oppose Vermont.

SMOKING NOT A VICE FOR WISCONSIN CO-EDS

Women students at the University of Wisconsin no longer consider smoking a vice as is shown by a recent statistical report.

The fact that smoking has become an accepted habit is proved upon consideration that from 50 to 75 per cent of the sorority members smoke. Many of the social organizations have provided rooms for those members who indulge in the habit.

It was disclosed, however, that smoking is not a habit acquired while in college, but while in high school or advanced girls' schools. As large a percentage of freshman women smoke as do the upper classmen.

Twenty house presidents were interviewed prior to the conclusion of the statistical report. One of the oldest sororities on the campus and a leader in student activity, admits that the girls smoke, in fact, 80 per cent of them do. This particular group permits the girls to smoke upstairs and the president of the group, when interviewed admitted that the freshmen were allowed to and did smoke.

On the other hand, another prominent national sorority frowns on the practice, but nevertheless a smoking room has been provided by this organization for the use of those who partake in the nicotines.

Ten sororities were picked at random and it was found that from 60 to 75 percent of the women smoke, including freshmen.

And so the order changeth and gives way to the new. The sororities were selected at random and no particular groups were quizzed.

He: Will you marry me?
She: I might. What's your name?

Put your pipe on P.A.

WHAT you get out of a pipe depends on what you feed it. Millions of contented jimmy-pipers will tell you that Prince Albert commands a pipe to stand and deliver. You suspect you are in for some grand pipe-sessions the minute you get a whiff of P. A.'s aroma.

The first pipe-load confirms your suspicions. What a smoke, Fellows! Remember when you asked for the last dance and she said "You've *had* it!"? P. A. is cool, like that. And sweet as knowing that she didn't really mean it.

Sweet and mellow and mild and long-burning.

Put your pipe on P. A. You can hit it up to your heart's content, knowing in advance that P. A. will not bite your tongue or parch your throat. That one quality alone gets P. A. into the best smoke-fraternities. And then think of all its *other* qualities!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

PRINCE ALBERT

—no other tobacco is like it!

SENIORS HOLD DEBATE ON CAPITAL PUNISHMENT

Thursday afternoon the Seniors met in Science Hall Lecture Room for Debate. The question, "Resolved: That fear of capital punishment has greater influence upon human conduct than hope of reward" was ably debated by Herbert Crandall, John Meder and Paul Dean on the affirmative and by John Detore and Richard Doyle on the negative side. Cedric Wolfe of the negative side was absent due to a sudden attack of grippe.

In spite of their unparalled strength the negative team won by a unanimous decision A vote by those present was taken to determine the best speakers of the day which resulted in favor of the two negative speakers.

R. O. T. C. BAND EXPECTS TO USE ONLY STANDARD SELECTIONS AT CONCERT

Joseph Lechnyr Regards This Year's Band as Superior and Will Play Higher Quality Music

Because he considers the band superior to the bands of other years, Joseph Lechnyr, has decided to use only standard selections in this year's band concert repertoire.

This year the band will feature concert numbers by such composers as Verdi, Skilton, Meyerbuyer, Drdla, Bizet, Meyer Helmund and Sousa

It is expected that the numbers which were ordered from Paris, France will be here soon and work upon them will commence upon their arrival These foreign publications consist of marches which will be used exclusively by the Vermont band with the bugle corps. These compositions are not published in the United States. They are French marches written especially for the French military band which makes a feature of bugles and drums

Two new men, Backus and Mack, buglers, of the class of '31, have joined the band and Turner '29 has returned to its membership which now numbers 61. There is a vacancy for one more position in the band, that of a bugler Any aspiring candidate should see Mr. Lechnyr

The Band hopes that both football team and the student body will get behind the band to enable them to play for the Norwich game on Saturday, October 29, and for the Springfield game on November 25.

Mr. Lechnyr is preparing a special program for the Middlebury game on November 12 at which time both the Middlebury and Vermont bands will appear here.

AGGIES HAVE A FRUIT SHOW IN MORRILL HALL

The Horticulture classes of the University conducted an apple show at Morrill Hall from Friday to Wednesday of this week under the direction of Prof. M. B Cummings. Orchards in all parts of the state cooperated by sending in many fine specimens of their products

There were on display 168 plates of named varieties, seven displays in baskets, six displays in boxes, two in fibro-pak receptacles, and others in barrels and standard boxes, all labeled and arranged very attractively.

In addition to the above, eight displays of grapes, ten of pears and a number of charts illustrating horticultural operations were to be found.

A very interesting exhibit of common fruit diseases was prepared by the Department of Plant Pathology under the direction of Dr B F Lutman

The Department of Home Economics under Prof Bertha M Terrill presented a very enticing display of apple products

Among other exhibits was one illustrating methods of pruning and grafting by the U. V. M Extension Service and an exhibit of spray charts, special boxes barrels, cartons, etc by the Horticulture class

This exhibit was well arranged and created a large amount of attention both among students and residents of the city Much credit is due Prof. Cummings and his classes for bringing together such a fine display of Vermont products

JOSEPH F LECHNYR

Talented leader of Vermont R O T C Band who is becoming better each year

CATAMOUNTS HAVE GOOD RECORD IN TUFTS GAMES

Since the year 1901 when the University of Vermont opened Athletic relation with Tufts College on the football gridiron our teams have played a total of six games, of which Vermont can claim one defeat one tie and four victories In all of these six games Tufts has held Vermont scoreless but once. The scores of the contests by year are as follows

1901	Vermont	5	Tufts 5
1904	Vermont	6	Tufts 6
1913	Vermont	0	Tufts 34
1920	Vermont	7	Tufts 0
1921	Vermont	6	Tufts 6
1926	Vermont	14	Tufts 13

In all but one contest the scores have been exceedingly close and were the result of hard and cleanly fought battles

TWO VERMONT STUDENTS WRITE FOR MAGAZINE

The University of Vermont is represented by two contributors to the new national quarterly known as *The Intercollegiate*, which will make its appearance early in November Janice M Goodrich '30 and Pauline Sullivan '27 are the students who represent Vermont in the intercollegiate magazine

Pauline Sullivan's Prize Story

Miss Sullivan contributes a short story entitled, "Dead or Alive" which was awarded first prize in last year's Tri-State literary contest and Miss Goodrich is represented by her sonnet, "Scoria" which received second prize in the poetry contest The prize-winning manuscripts from the other colleges in the competition are also included in this number of *The Intercollegiate* These are, the first prize poem, "We Pitiful Humans" by Sylvia M Kurson of the University of Maine, and the first prize essay, "Queer Folks" by Dorothy Q Taylor also of Maine

Ten Colleges Represented

Vermont will be but one of ten colleges represented in this issue of the intercollegiate quarterly Some of the other colleges represented and their contributions are "The Thing's A Play," a one-act satire by Lewis Hammond of St Stephen's College, "John Harvard Gentleman" an account of the present trend toward the adoption of English customs in American colleges and universities by John Hurd Jr of Dartmouth and Oxford An indictment of fraternity methods by a fraternity man in a large western university will prove stimulating to many students

H. L. Mencken Contributes

H L Mencken editor of *The American Mercury* and noted critic, contributes an essay entitled, "On Colleges" The past, present and future of the Glee Club Movement in American Colleges is discussed by W E Woodruff of Wesleyan University the national glee club champion and by Prof H G Owen coach of the Middlebury Men's Glee Club, the New England champion Charles F Malam editor of the *Middlebury Saxonian* and *Blue Baboon* contributes a sequence of poems with a collegiate locale and a graduate of Hamilton College writes a defense of James Joyce's "Ulysses" the book which has probably influenced contemporary literature to a greater degree than any other single book Charles B Driscoll gives an author

(Continued on page 2)

Frosh Are Taller, Lighter And Younger Than The Sophomores

Average Frosh Is Five Feet Six Inches High, Weighs 140 Pounds, and Is 18 Years and 9 Months Old—Total Age of Frosh 3,943 Years

Considerable time and labor was expended to make public the dimensions of the Freshmen The records compiled from the physical records kept by the Military Department are interesting and some are quite amusing At least the publication of these statistics and make the extremes of the class better known on the campus

According to the records this year a Frosh is measures up to the average must be five feet eight inches in height He tonged in weight and 18 years and 9 months old It is interesting to compare these with the records compiled last year from the Class of '30 when the average height was five feet six inches weight 138 pounds and age approximately 18 years and two months Thus the Frosh are taller a little lighter and somewhat younger than the Soph. As to the intellectual capacity no records can be found but if a comparison could be made without doubt, the older class would claim the honors

The individual extremes reveal some interesting facts The long of the Freshman class is Walter Sargent, Jr of Morrisville, Vt six feet three inches to his credit The short of it goes to F N Cramer of West Pawlet, Vt., who gazes upward from the height of five feet one inch

The honor of being the heaviest man in the class falls on the slender frame of A H Roller of Jersey City, N J who tips the scales at 276 pounds The lightest man is F N Cramer who carries about daily the total weight of 86 pounds

Two men are competing for senility honors in the class J N Meissner of Waban Mass and W J Cambria of New York City are each 27 years of age The youngest is R G Willcox of Randolph, Vt. whose records show him to be 16 years old

The statistics compiled in 1920 afford some interesting comparisons The tallest man was the same as this year and the shortest was one inch shorter The heaviest weighed 193 pounds and the lightest 92 The oldest was recorded as 24 years of age and the youngest 16 Therefore, it is assumed that the Freshmen feature excels in every way both collectively and individually each year

The class as a whole has a total height of 14,277 inches or 1,189¾ ft., nearly a quarter of a mile The total weight equals 29,296 pounds or nearly 15 tons of flesh and bone Their ages summoned up comes to 3,943 years or enough to make Methuselah look like an infant

EDITORS AND TEACHERS MEET HERE SATURDAY

A conference of High School Editors and Teachers of English meet at the University of Vermont next Saturday The morning session will be held in the college of Medicine Building for the purpose of outlining the purpose of the conference and at noon there will be a luncheon served on the Roof Garden of the Hotel Vermont

At the conference Walter H Crockett will give a lecture on Journalism Leon W Dean one on Short Story Writing and Professor Frederick W Tupper the main address After the luncheon Prof W E Aiken will speak on The Relation of School Journalism to the Work of the English Department Miss Pease of Burlington High School will afterward lead a general discussion of the subject

KAPPA MU EPSILON SMOKER ONE OF BEST IN YEARS

Engineers Furnish Entertainment to College Men Friday —Tricky Trio Gets Biggest Applause of Evening

Kappa Mu Epsilon, honorary engineering society, held a very successful smoker last Friday evening at the University gymnasium Cheers by the student body and numbers by the R O T C band, led by "Joe" Lechnyr and his huge cigar, started the evening off "Kell" Kyle in announcing the speakers, called first upon Professor Carroll

Professor Carroll, head of our eligibility department, spoke enthusiastically upon reasons for attendance at the football games Professor Carroll claims that there are two kinds of students the one who was too lazy to go to the game and the other who always found something else to do at the time of the game He also emphasized the fact that the morale of the students is necessary in a solid cheering section instead of strung out all over the bleachers

Lane and Clark, a couple of engineers, rendered a duo of saxophone and piano This entertainment received great applause and the boys had to play two encores before the students would let them sit down

The next speaker of the evening was "Bart" Garrity, Captain of the Green and Gold in 1922 when U V M beat Dartmouth Mr Garrity restated the necessity for college spirit in order to put a winning combination on the field He also suggested that they should snake dance around town as has done in previous years

Following Mr Garrity came Professor Puffer who hoped that the team would do as well against Tufts as they did against Providence Professor Puffer stated that when a team worked hard for the reputation of the college and the student body deserved more spirit than they have been receiving A plan that he favored was that each student bring out another one

The second stunt of the evening was the "Tricky Trio" Lyman Shaw and Wood, of the engineers, who rendered a selection which combined all the Vermont songs. We might add that their closing selection won vast applause from those present

Immediately following the trio came "Bernie" LeMieux cheerleader in 1925 who wanted the student body to do their cheering wholeheartedly in order that we would instill more pep into the team Then Jack Smith Captain of the Catamounts was called on and he responded by saying that the team was out to win and were going to fight harder than ever Captain Smith also said that the crowd should fight with the men more when the team is losing than it is winning

The singing of Champlain closed the smoker and refreshments were served afterwards in the Cage

CHEMICAL SOCIETY TO HOLD ESSAY CONTEST

According to an announcement the American Chemical Society will again hold a prize essay contest This contest which is the fifth that has been held by the society is conducted to promote intelligent appreciation of the vital relationship of science to human welfare

There are three distinct competitions in the contest, one covering high school and secondary schools, another normal school and teachers college and the third universities and college freshmen

In the universities and college freshman group there are offered six prizes of $500 each six prizes of $100 each and six of $200 each These prizes are made possible through a gift of Mr and Mrs Francis P Garban of New York City

For information see the Chemistry department or apply to the Committee on Prize Essays American Chemical Society 85 Beaver St New York City

GOLD KEY PLAN ANNUAL DANCE FOR NOVEMBER 5

The meeting of Gold Key which was to have been held Thursday evening was postponed until Friday at 1 30 At this time duties of the members was discussed and plans for the society's dance on November 5 were made Frosh who were invited to attend the meeting Thursday evening should feel at liberty to go next week instead

A new member has been elected by Lambda Iota to replace James McNally who failed to return to college

College Without Classes or Exams Started by Meiklejohn at Wisconsin

Dr Alexander Meiklejohn, who has been lecturing about the country recently on "The College of the Future", has been given an opportunity by President Glenn Frank of Wisconsin University, to try out his ideas in the institution, beginning this year. He is at the head of a "college within a college", conducted entirely for the sake of trying out new theories of education.

To a certain degree the system follows that used in Oxford and Cambridge, but nothing in the United States is similar to it. There are no classes as such. There are no instructors to call the roll. There are no quizzes or tests made or written.

Differing in these respect from the standardized educational systems of America, Dr Meiklejohn's experiment still retains one characteristic in common with them. There are assignments. Bulletin boards instruct the students to buy certain books and read certain passages for certain weeks. Papers are assigned for certain subjects. The class is now studying Greek Civilization and the bulletin boards inform them that their first paper is to be written on the following subject: "Describe and appraise the life and ideals of Athens as expressed in 'The Funeral Speech of Pericles'."

The Wisconsin experiment includes discussion groups, each student attending one each week. Advisors," likewise of instructors or professors preside. Students say that these meetings are little like recitations or lectures.

Today the plan is still going through a process of change and experimentation and although the college has been open only three weeks some of the members of the class are still not positive that they like the new system of absorbing learning. Some doubt their ability to keep up their work without the usual assignments and class room recitation. One of the "subjects", when approached on the matter, is reported to have replied as follows:

"What do you think of it?" "Gosh, I don't know. It makes me feel a little doubtful whether I can make a go of it or not. When you don't have to go to class prepared to recite it isn't always so easy to make yourself do the reading."

At the same time the reactions of some other students are casually as interesting and significant. According to them it all depends upon the student himself. If he is able to discipline himself, I see no reason why he shouldn't get at least as much out of it as he would from the old method."

But a third one's views were quite different. "I think that it is great," he said, as he reclined on his bed, chin propped on his hands. "You know, sometimes I don't feel like working at all, so I just go out and browse around and then when I'm over at the University Library I think of something I want to read up on and go in. I'm not worrying."

"THAT WINNING SMILE"

Tufts mentors and captain in characteristic pose. Reading left to right, Assistant Coach Leo Manly, Captain Bowker, Head Coach Rampson.

NEWS IN BRIEF

Professor Evan Thomas, head of the Mathematics Department at the Engineering College is attending the inauguration of the presidents of two more state colleges this week and next. The first is the inauguration of the President of Denison University at Granville, Ohio on October 21, and of the President of Oberlin College at Oberlin, Ohio on the 24th of October.

Seniors taking military science met with two quizzes, one yesterday and the other today. The first concerned the 37 millimeter gun and the second the three-inch trench mortar. The tests are designed to test the upperclassmen's knowledge of military arms, their functions and adaptability to specific purposes.

Dr Cunningham Graham of Manchester, Vt., spoke most inspiringly at the Chapel Service Wednesday morning. He took as his text, the fourteenth chapter of John. He stated that the answer to Bruce Barton's "What Can We Believe?" is found there. According to Dr Graham, too many of us have the habit of "passing by" and not noticing the open door.

KEY AND SERPENT WILL ADANCE SMOKER DATE

The Key and Serpent society held a meeting at the Sigma Phi house last Tuesday night at 7:00 o'clock. The society has changed the date for its smoker from Friday, Nov. 11 to Wednesday, Nov. 9. The smoker is expected to be one of the best this year for it will precede a football game with our old rival—Middlebury. Besides the changing of the date for the smoker, the society made further arrangements for the Key and Serpent dance. The different committees were appointed and the snappy Middlebury orchestra was engaged to play at the dance. The society believes it will be an exceptionally good dance this year and is giving it its utmost attention. The dance is set for November 12 which is the same date as the Middlebury game.

FRESHMAN'S REJOINDER TO ROBERT McGEE'S POEM

"I write this in answer to Mr. Robert E. McGee's "To the Freshman" writes a freshman under the *nomme de plume* "Rallen." This poem shows the feelings of the Freshmen after their victory over the Sophomores in the hose fight. These sentiments may have cooled considerably after the defeat in the Cane Rush on Saturday."

TO THE SOPHOMORE

I

Oh! dear little Bruce,
With the grass grown up,
The "Frosh" are desiring
A razor slip
Perhaps we are wrong,
More probable right,
Take my advice and stay
In at night

II

A word to the wise,
Is all for Macomber,
All we want from you
Dear Sir
Is an endless slumber

III

Misery loves company,
So claim we all
A word to the good,
Please stay in thy stall
Else the hand of "The Red Key"
Descend,
To paddle with a will all
Sophomore men

VI

Comprenez-vous or not,
We little care,
But we'll give you as good
As you send
And the ratio will stand,
Just one to ten.
In favor of us
The thirty-one mmm

RALLEN '31

The editorial board for the Medical Section of the Ariel has been announced by H. H. Twitchell as follows: Editor, H. H. Twitchell; assistants, E. R. Mitiguy, W. J. MacNamara, Miss Emily M. Perkins and A. B. Shelton.

BATTALION TO APPEAR IN UNIFORM SOON

The uniforms for the Freshmen will be here by Friday, October 21, at the latest. The first drill in uniform will take place on that Friday, and everyone is requested to get his uniform as soon as it comes in. A list of the men whose uniforms are ready will be posted from time to time.

Saturday morning make-ups for unauthorized cuts will start Saturday morning, October 15, at 7:30. All cuts must be made up, as 96 hours are required for a passing grade. It happens that the course comes exactly 96 hours during the year, so that no cuts are allowed. The officials of the department urge Freshmen to bear this fact in mind, lest they find themselves four years from now in the same fix as a few of the present seniors have found themselves, obliged to take freshman military in order to graduate.

MORTAR BOARD DANCE TOMORROW EVENING

The chief event of this week's social calendar is the annual fall dance of Mortar Board society, which will be held in the Burlington High School Gymnasium tomorrow evening. Professor and Mrs. Daniel B. Carroll and Mr. and Mrs. Walter Biggar will chaperone. Music is to be furnished by the Algonquins.

Tickets may be procured from Eleanor Lockwood, who is general chairman of the dance, or from Alma Batten, Jeanett Hayes, Dorothy Hall, Della Martin and Helen Stevens.

Fourteen students from foreign countries have enrolled at Smith College this year.

"TINY" KROPPER

Head-Hunters Knife at Vermont Has Unusual History

(Continued from page 1)

Dayaks. For example, at the death of a chieftain it becomes necessary to make a raid on a neighboring tribe to obtain at least five heads. The *Hao* or departed soul of the unfortunate victims turn into servants for the dead chieftian. Anyhow, that is their sincere belief.

The practice of Head-Hunting among the Borneo tribes is still alive, the old heads being used over and over, but the actual taking of the heads is nearly extinct.

Mel Bowker, Captain of the Tufts football team reported for practice again Monday, after a long absence, due to a sprained ankle. It seems likely that the Tufts leader will appear on the field Saturday to oppose Vermont.

SMOKING NOT A VICE FOR WISCONSIN CO-EDS

Women students at the University of Wisconsin no longer consider smoking a vice as is shown by a recent statistical report.

The fact that smoking has become an accepted habit is proved upon consideration that from 50 to 75 per cent of the sorority members smoke. Many of the social organizations have provided rooms for those members who indulge in the habit.

It was disclosed, however, that smoking is not a habit acquired while in college, but while in high school or advanced girls' schools. As large a percentage of freshman women smoke as do the upper classmen.

Twenty house presidents were interviewed prior to the conclusion of the statistical report. One of the oldest sororities on the campus and a leader in student activity, admits that the girls smoke, in fact, 80 per cent of them do. This particular group permits the girls to smoke upstairs and the president of the group, when interviewed admitted that the freshmen were allowed to and did smoke.

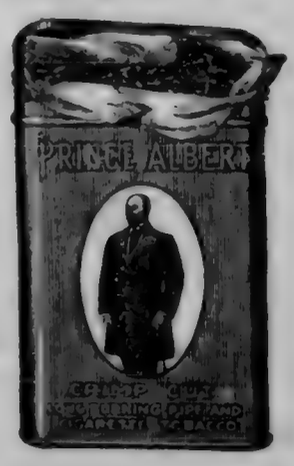
On the other hand, another prominent national sorority frowns on the practice, but nevertheless a smoking room has been provided by this organization for the use of those who partake in the nicotines.

Ten sororities were picked at random and it was found that from 60 to 75 percent of the women smoke, including freshmen.

And so the order changeth and gives way to the new. The sororities were selected at random and no particular groups were quizzed.

He: Will you marry me?
She: I might. What's your name?

Put your pipe on P.A.



WHAT you get out of a pipe depends on what you feed it. Millions of contented jimmy-pipers will tell you that Prince Albert commands a pipe to stand and deliver. You suspect you are in for some grand pipe-sessions the minute you get a whiff of P.A.'s aroma.

The first pipe-load confirms your suspicions. What a smoke, Fellows! Remember when you asked for the last dance and she said "You've *had* it!"? P. A. is cool, like that. And sweet as knowing that she didn't really mean it. Sweet and mellow and mild and long-burning.

Put your pipe on P. A. You can hit it up to your heart's content, knowing in advance that P. A. will not bite your tongue or parch your throat. That one quality alone gets P. A. into the best smoke-fraternities. And then think of all its *other* qualities!

P. A. *is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.*

PRINCE ALBERT

CATAMOUNTS DROP GAME TO TUFTS COLLEGE JUMBOS

Smith Injured in Early Part of Game—Team Demoralized After Captain is Taken From Field

In a contest that was a great disappointment to any Vermonter, the Tufts Jumbos even turned the Green and Gold down to defeat 22-0. The Bay Staters were far superior to Vermont in every phase of the game, turning in some long runs and some brilliant plunges that all went towards the tallying of points.

The first quarter was an even affair with both teams showing splendid football knowledge. The tackling was hard and accurate and the punting about even with Vermont having the slightest edge. The ball remained in midfield most of the time and it looked as though it could be anybody's game. Play after play was smeared by both teams and the spectators were kept on edge every minute by the runs of Ellis and Scutakes.

Smith Umpired

The first quarter closed with neither team having been able to tally, or show any decided advantage. With the opening of the second quarter the play was just as hotly contested, being marred only by the continual arguing with the officials, who even argued among themselves, throughout the game. With the second quarter half over Tufts punted to our 25-yard line and Conway fumbled and then began the march to Vermont's goal line. Vermont was not at all discouraged and determined to make up the loss. Tufts kicked off to Smith on his 5-yard line and he ran it back to his 25-yard line, but it this play that was indirectly responsible for the loss of the game. When the Tufts men had finished their piling and were pulled off by the referee, Captain Smith was lying on the ground completly out. He was too badly injured to resume play and had to be carried from the field. Who was to do the punting for Vermont? Winchenbach made a fine attempt to fill Jack's place, but with the strong wind and such little experience, the punts did not travel a very great distance. It was because of the lack of a good punter that lost the game for the Catamounts and nothing else. Whenever the Jumbos punted to within 15 or 20 yards of our goal and we were unable to gain the needed 10 yards "Wink" would punt and because of the wind it would travel about 20 yards. This disheartened the McAvoyites and the speedy Tufts' backs were able to tear off repeated gains and finally pushed the ball over the last stripe. From the beginning of the second half on, the Catamounts were completely outclassed and although they fought like Catamounts they knew they were under a great handicap and along with the forever questionable penalties imposed by the officials, it was a heartless endeavor to overcome the impossible.

Kropper Out

"Tiny" Kropper played a sterling game at guard until he was banished from the game for slugging that the onlookers failed to see. Kropper smeared many plays, made hard tackles, and intercepted forward passes. He was a great cause of worry to the Jumbo backs and it was a great relief to them when he had to leave the game.

Winchenbach played his usual good game and was the main cog in the defense after Smith was hurt. He had the opposing tackle and end backing away on each play. Sirois also made himself known, but not in a kindly way, to the Jumbo backs, besides being the first man down under every punt.

Ellis a Threat

Ellis, with his broken field running and Fitzgerald with his educated toe were the bright lights for the Bay Staters. Ellis was like an eel and it seemed as though no one could hang on to him. He is one of the prettiest broken field runners ever seen on a Vermont gridiron. Many of his runs netted 35 yards. Fitzgerald did some fine punting for Tufts, and once booted a 43-yard drop-kick. Tobey played a whale of a game at center for the Jumbos, opening large holes for Livingston and Marshall to plow through.

The first score came when Smith

(Continued on page 2)

SENIORS HOLD DEBATE ON CAPITAL PUNISHMENT

Thursday afternoon the Seniors met in Science Hall Lecture Room for Debate. The question, "Resolved: That fear of capital punishment has greater influence upon human conduct than hope of reward," was ably debated by Herbert Crandall, John Miller and Paul Doan on the affirmative and by John Detore and Richard Duell on the negative side. Cedric Wolfe of the negative side was absent due to a sudden attack of grippe.

In spite of their impaired strength the negative team won by a unanimous decision. A vote by those present was taken to determine the best speakers of the day which resulted in favor of the two negative speakers.

R. O. T. C. BAND EXPECTS TO USE ONLY STANDARD SELECTIONS AT CONCERT

Joseph Lechnyr Regards This Year's Band as Superior and Will Play Higher Quality Music

Because he considers the band superior, to the bands of other years, Joseph Lechnyr, has decided to use only standard selections in this year's band concert repertoire.

This year the band will feature concert numbers by such composers as Verdi, Skilton, Meyerbuyer, Drdla, Bizet, Meyer Helinund and Sousa.

It is expected that the numbers which were ordered from Paris, France will be here soon and work upon them will commence upon their arrival. These foreign publications consist of marches which will be used exclusively by the Vermont band with the bugle corps. These compositions are not published in the United States. They are French marches written especially for the French military band which makes a feature of bugles and drums.

Two new men, Backus and Mack, buglers, of the class of '31, have joined the band and Turner '29 has returned to its membership which now numbers 61. There is a vacancy for one more position in the band, that of a bugler. Any aspiring candidate should see Mr. Lechnyr.

The Band hopes that both football team and the student body will get behind the band to enable them to play for the Norwich game on Saturday, October 29, and for the Springfield game on November 25.

Mr. Lechnyr is preparing a special program for the Middlebury game on November 12 at which time both the Middlebury and Vermont bands will appear here.

AGGIES HAVE A FRUIT SHOW IN MORRILL HALL

The Horticulture classes of the University conducted an apple show at Morrill Hall from Friday to Wednesday of this week under the direction of Prof. M. B. Cummings. Orchards in all parts of the state co-operated by sending in many fine specimens of their products.

There were on display 168 plates of named varieties, seven displays in baskets, six displays in boxes, two in fibro-pak receptacles, and others in barrels and standard boxes, all labeled and arranged very attractively.

In addition to the above, eight displays of grapes, ten of pears and a number of charts illustrating horticultural operations were to be found.

A very interesting exhibit of common fruit diseases was prepared by the Department of Plant Pathology under the direction of Dr. B. F. Lutman.

The Department of Home Economics under Prof. Bertha M. Terrill presented a very enticing display of apple products.

Among other exhibits was one illustrating methods of pruning and grafting, by the U. V. M. Extension Service, and an exhibit of spray charts, special boxes, barrels, cartons, etc., by the Horticulture class.

This exhibit was well arranged and created a large amount of attention both among students and residents of the city. Much credit is due Prof. Cummings and his classes for bringing together such a fine display of Vermont products.

JOSEPH F. LECHNYR

Talented leader of Vermont R. O. T. C. Band which is becoming better each year

CATAMOUNTS HAVE GOOD RECORD IN TUFTS GAMES

Since the year 1901 when the University of Vermont opened Athletic relation with Tufts College on the football gridiron our teams have played a total of six games, of which Vermont can claim one defeat, one tie and four victories. In all of these six games Tufts has held Vermont scoreless but once. The scores of the contests by year are as follows:

1901	Vermont	6	Tufts	0
1904	Vermont	6	Tufts	6
1913	Vermont	0	Tufts	34
1920	Vermont	7	Tufts	0
1921	Vermont	6	Tufts	6
1926	Vermont	14	Tufts	13

In all but one contest the scores have been exceedingly close and were the result of hard and cleanly fought battles.

TWO VERMONT STUDENTS WRITE FOR MAGAZINE

The University of Vermont is represented by two contributors to the new national quarterly known as *The Intercollegiate*, which will make its appearance early in November. Janice M. Goodrich '30 and Pauline Sullivan '27 are the students who represent Vermont in the intercollegiate magazine.

Pauline Sullivan's Prize Story

Miss Sullivan contributes a short story entitled, "Dead or Alive" which was awarded first prize in last year's Tri-State literary contest and Miss Goodrich is represented by her sonnet, "Scoria" which received second prize in the poetry contest. The prize-winning manuscripts from the other colleges in the competition are also included in this number of *The Intercollegiate*. These are, the first prize poem, "We Pitiful Humans" by Sylvia M. Kurson of the University of Maine, and the first prize essay, "Queer Folks" by Dorothy Q. Taylor also of Maine.

Ten Colleges Represented

Vermont will be but one of ten colleges represented in this issue of the intercollegiate quarterly. Some of the other colleges represented and their contributions are: "The Thing's A Play," a one-act satire by Lewis Hammond of St. Stephen's College, "John Harvard—Gentleman" an account of the present trend toward the adoption of English customs in American colleges and universities by John Hurd Jr. of Dartmouth and Oxford. An indictment of fraternity methods by a fraternity man in a large western university will prove stimulating to many students.

H. L. Mencken Contributes

H. L. Mencken, editor of *The American Mercury* and noted critic, contributes an essay entitled, "On Colleges." The past, present and future of the Glee Club Movement in American Colleges is discussed by W. E. Woodruff of Wesleyan University, the national glee club champion, and by Prof. H. G. Owen, coach of the Middlebury Men's Glee club, the New England champion. Charles F. Malam, editor of the *Middlebury Bazonian* and *Blue Baboon*, contributes a sequence of poems with a collegiate locale and a graduate of Hamilton College writes a defense of James Joyce's "Ulysses," the book which has probably influenced contemporary literature to a greater degree than any other single book. Charles B. Driscoll gives an author-

(Continued on page 2)

Frosh Are Taller, Lighter And Younger Than The Sophomores

Average Frosh Is Five Feet Six Inches High, Weighs 140 Pounds, and Is 18 Years and 9 Months Old—Total Age of Frosh 3,943 Years

Considerable time and labor was consumed to make public the dimensions of some of the Freshmen. The results compiled from the physical records kept by the Military Department are interesting and some are quite amusing. At least the publication of these statistics will make the extremes of the Class '31, better known on the campus.

According to the records this year a Frosh to measure up to the average must be five feet eight inches in height, 140 pounds in weight, and 18 years and 9 months old. It is interesting to compare these with the records compiled last year from the Class of '30, when the average height was five feet six inches, weight 135 pounds, and age approximately 18 years and two months. Thus the Frosh are taller, a little lighter, and somewhat younger than the Sophs. As to the intellectual capacity no records can be found, but if a comparison could be made without doubt the older class would claim the honors.

The individual extremes reveal some interesting facts. The long of the Freshman class is Walter Sargent, Jr of Morrisville, Vt., six feet three inches to his credit. The short of it goes to F. N. Cramer of West Pawlet, Vt., who gazes upward from the height of five feet one inch.

The honor of being the heaviest man in the class falls on the slender frame of A. H. Roller of Jersey City, N. J., who tips the scales at 276 pounds. The lightest man is F. N. Cramer who carries about daily the total weight of 86 pounds.

Two men are competing for senility honors in the class J. N. Meissner of Walsan, Mass., and W. J. Cambria of New York City are both 37 years of age. The youngest is R. G. Willcox of Randolph, Vt., whose records show him to be 16 years old.

The statistics compiled in 1920 afford some interesting comparisons. The tallest man was the same as this year and the shortest was one inch shorter. The heaviest weighed 193 pounds and the lighest 93. The oldest was recorded as 24 years of age and the youngest 16. Therefore, it is assumed that the Freshmen feature extremes in every way both collectively and individually each year.

The class as a whole has a total height of 14,277 inches or 1,189¾ ft., nearly a quarter of a mile. The total weight equals 29,296 pounds or nearly 15 tons of flesh and bone. Their ages summoned up comes to 3,943 years or enough to make Methuselah look like an infant.

EDITORS AND TEACHERS MEET HERE SATURDAY

A conference of High School Editors and Teachers of English meet at the University of Vermont next Saturday. The morning session will be held in the College of Medicine Building for the purpose of outlining the purpose of the conference, and at noon there will be a luncheon served on the Roof Garden of the Hotel Vermont.

At the conference Walter H. Crockett will give a lecture on Journalism, Leon W. Dean one on Short Story Writing, and Professor Frederick W. Tupper the main address. After the luncheon, Prof. W. E. Aiken will speak on "The Relation of School Journalism to the Work of the English Department." Miss Pease of Burlington High School will afterward lead a general discussion of the subject.

KAPPA MU EPSILON SMOKER ONE OF BEST IN YEARS

Engineers Furnish Entertainment to College Men Friday —Tricky Trio Gets Biggest Applause of Evening

Kappa Mu Epsilon, honorary engineering society, held a very successful smoker last Friday evening at the University gymnasium. Cheers by the student body and numbers by the R. O. T. C. band, led by "Joe" Lechnyr, and his huge cigar, started the evening off. "Kell" Kyle in announcing the speakers, called first upon Professor Carroll.

Professor Carroll, head of our eligibility department, spoke enthusiastically upon reasons for attendance at the football games. Professor Carroll claims that there are two kinds of students; the one who was too lazy to go to the game and the other who always found something else to do at the time of the game. He also emphasized the fact that the morale of the students is necessary in a solid cheering section instead of strung out all over the bleachers.

Lane and Clark, a couple of engineers, rendered a duo of saxophone and piano. This entertainment received great applause and the boys had to play two encores before the students would let them sit down.

The next speaker of the evening was "Hart" Garrity, Captain of the Green and Gold in 1922 when U. V. M. beat Dartmouth. Mr. Garrity restated the necessity for college spirit in order to put a winning combination on the field. He also suggested that they should snake dance around town as has done in previous years.

Following Mr. Garrity came Professor Puffer who hoped that the team would do as well against Tufts as they did against Providence. Professor Puffer stated that when a team worked hard for the reputation of the college and the student body deserved more spirit than they have been receiving. A plan that he favored was that each student bring out another one.

The second stunt of the evening was the "Tricky Trio", Lyman, Shaw, and Wood, of the engineers, who rendered a selection which combined all the Vermont songs. We might add that their closing selection won vast applause from those present.

Immediately following the trio came "Bernie" LeMieux, cheerleader in 1925 who wanted the student body to do their cheering wholeheartedly in order that we would instill more pep into the team. Then Jack Smith, Captain of the Catamounts was called on and he responded by saying that the team was out to win and were going to fight harder than ever. Captain Smith also said that the crowd should fight with the men, more when the team is losing than it is winning.

The singing of Champlain closed the smoker and refreshments were served afterwards in the Cage.

CHEMICAL SOCIETY TO HOLD ESSAY CONTEST

According to an announcement, the American Chemical Society will again hold a prize essay contest. This contest, which is the fifth that has been held by the society, is conducted to promote intelligent appreciation of the vital relationship of science to human welfare.

There are three distinct competitions in the contest; one concerns high schools and secondary schools; another normal school and teachers college, and the third universities and college freshmen.

In the university and college freshman group, there are offered six prizes of $500 each, six prizes of $300 each, and six of $200 each. These prizes are made possible through a gift of Mr. and Mrs. Francis P. Garban of New York City.

For information see the Chemistry department or apply to the Committee on Prize Essays, American Chemical Society, 85 Beaver St., New York City.

GOLD KEY PLAN ANNUAL DANCE FOR NOVEMBER 5

The meeting of Gold Key, which was to have been held Thursday evening, was postponed until Friday at 1:30. At this time duties of the members was discussed, and plans for the Society's dance on November 5 were made. Frosh who were invited to attend the meeting Thursday evening should feel at liberty to go next week instead.

A new member has been elected by Lambda Iota to replace James McNally who failed to return to college.

Other colleges do not all ...two instructors, so we need not ...any additional expense in the ...ance of a second supervisor. ...three years the fees from the ...women would pay for all im...te expenditures, and after that, ...same fees would be a source of ...

...is another side to the ques... ...which may not admit of as leng...discussion, but which is neverthe...ally essential in this consider... ...of the gymnasium. What does ...college owe itself? In the first place the college should be abreast with the advance spirit of the college world. Other colleges and even pre-paratory schools recognize and meet the demands for physical exercise. The "Vermont" woman must stand an unprejudiced comparison with the wo-man of other colleges such as Vassar or Smith. "Vermont" is loath to take an inferior place in relation to other colleges, yet, it defeats its own pur-poses when it refuses to provide means whereby this comparison may not be invidious to itself.

"Vermont" naturally looks to its graduates for recruits. The girl who feels this lack in the college curric-ulum could not conscientiously per-suade another girl to miss in this col-lege what she might find elsewhere. It is a lamentable fact that this de-ficiency is felt to such a degree that young women turn from "Vermont" even when their preferences lie in this direction. The girl with the "deli-cate air" is not a good advertisement for any college. While I do not mean that "Vermont" girls have this "air," one more spirited and athletic would be a better representative of the type "Vermont" is capable of sending from its halls. Nowhere is this more pain-fully apparent than at the great stu-dent conferences, where "Vermont" girls have absolutely no part in the general athletics. On these occasions athletics hold a large share of atten-tion and interest. To have no part or lot in such exercises, makes the Ver-mont girls feel that they have not re-ceived all their due, and that the col-lege is not making a favorable im-pression.

Thus the college has a twofold ob-ject in the question of the gymnasium. First, a duty to the young women in pursuit of the threefold education; secondly, a duty to itself in seeing to it that this education is such as to recommend itself to young women, and such as shall place it in rival relations to other colleges. "Vermont" is cap-able and resourceful enough, while the advantages gained would more than compensate the dollars and cents ex-pended in this cause. In the adminis-tration of the endowment fund we hope this consideration will not be over-looked.

ELEANOR LOCKWOOD

Chairman of the successful dance of Akrana Chapter, Mortar Board

200 COUPLES ATTEND MORTAR BOARD DANCE

Mortar Board's annual Fall Dance which was held in the High School gymnasium Saturday evening, was a brilliant success, 200 couples attend-ing. The gymnasium was very prettily decorated with Vermont banners and pillows, and the dancers appreciated the excellent floor. Refreshments of cider and doughnuts were served dur-ing the evening.

Eleanor Lockwood was chairman of the committee in charge of the dance. Professor and Mrs. Carroll and Mr. and Mrs. Earl Biggar were chaperones. The Algonquins orchestra, consisting of seven pieces, furnished the music.

All students, who have changed their addresses, since enrollment should notify the registrar's office in room 5 immediately because this information is needed for the student directory.

NOTICE

Dr. George K. Pratt, specialist in mental hygiene, will be at the University on Friday, October 28th, for conferences with students. Any who wish to consult Dr. Pratt should communicate with Professor Metcalf or Miss Holbrook.

A winning team must have a good ball atmosphere to play the game at its best.

MEN DEBATERS WANTED FROM TWO LOWER CLASSES

Sophomore and Freshman will soon engage in another scrap, the annual debate for the H. Albon Bailey Cup. A victory is a distinct honor to the winning class.

All men in these classes who have a better than the average scholarship record are requested to try out for the class teams. Previous experience in debate is not necessary. All who are interested in intercollegiate debating are expected to try out for the class team, though competition is distinctly not limited to such men.

The first meeting will be held Tuesday November 1, at 4 P. M., in the Old Chapel, where the question will be announced, and necessary instruction given. A popular question will be chosen, such as: "This house pities its grandchildren."

MIDD FROSH CONSIDERED EVEN WITH KITTENS

The undefeated yearling team meets the Middlebury Frosh eleven in a State Title game Saturday afternoon at Middlebury. The two teams are quite evenly matched on paper since both defeated Troy Conference Academy with nearly the same scores. The Black Panther Cubs have lost only to Clark School of Hanover, New Hampshire, while the Kittens have a clean slate with the exception of the 6 to 6 tie with Fort Ethan Allen last week. Of course, in this game the Frosh were up against much larger and older men, but they will have to play heads-up football Saturday to do as well as last year's team did when Middlebury was defeated 50 to 0.

Coach Rattan has been working his squad hard all week, trying to get rid of the rough spots in the teamwork. Hough, who has been playing a fine game at tackle all season is expected to smear a good many of the Panther plays. Captain Allan will run the team as usual from the signal-calling position and is expected to give another clever exhibition of kicking, passing, and generalship. Watkins, the hard-hitting, rangy fullback will be relied upon for most of the ball carrying.

The probable line-up for the Vermont Frosh:

Tobin, Allerton, l.e.; Howard, l.t.; DeCicco, l.g.; Park, c.; Scutakes, r.g.; Hough, r.t.; Smyth, Rugg, r.e.; Allan, q.b.; Tellier, l.h.b.; Heaton, r.h.b.; Watkins, f.b.

MORE COLLEGES LAYING BAN ON AUTOMOBILES

New York, N. Y. (By New Student Service.—With rush week at an end, student automobilists in many colleges are taking their cars home and, by deans' orders, leaving them there. As a topic for discussion in college press and, evidently, in chapel and fraternity house, is the ever-growing stringency of anti-automobile rules, designed to remove at least one obstacle in the way of serious study.

University of Oklahoma, DePauw, University of Illinois, Princeton, Wesleyan, Ursinus, Dartmouth and Michigan are among the drive-at-the-risk-of-expulsion institutions. Exceptions are made in some cases where cars are needed for business purposes. Princeton, with perhaps the severest rules, grants the use of automobiles to disabled students only. These favored drivers are forbidden however, from permitting other students to use their automobiles or to ride with them. It was these rules that resulted in the resignation of the student council last year. But the martyrdom was unavailing, and Dean Christian Gauss has made it plain that expulsion awaits violators of the rules. He expressed the hope, however, *The Princetonian* reports, that infrequency of violations "would permit it a nullification of the stringent regulations which prevail for the present."

All Freshmen are to report in uniform Friday at 7:30. It will be the first appearance of the entire battalion in uniform.

ARIEL PICTURES

All Juniors who have not had their pictures taken for the *Ariel* by White Studios are required to have their proofs in by the end of the week.

SOPHS LEAD FRESHMEN 6–2, 6–1, IN FALL INTERCLASS MATCHES

With Sophomore-Freshman Match, the first interclass tournament was opened Wednesday afternoon at Grassmount, and the two sets played went to 1930.

The first game of the afternoon was a love game which Eleanor Koenig served to the Sophomores. Doris Kibbe's strength at the net and in the service, together with Eunice Wilder's quick returns and slams from the net eventually gave the set to the Sophomores, 6 to 3.

Helen Buck '31, during this first set, excelled in placement. She used that famous left hand corner of the opponents' court which demands a valiant backhand return.

In the second set, Eleanor Koenig, '31 played well, preserving energy for the final show-down. Doris Kibbe was the best all-round player, while Eunice Wilder, towards the end of the set, gave some beautiful low serves and played with confidence. The set ended, 6—1, in favor of 1930.

All the games were interesting, but the veteran Sophomores displayed more practised skill throughout.

Because of darkness, the match was not finished and the teams will probably meet again today or Saturday.

SECOND TEAMS BATTLE TO TIE

While the Sophomores first team was winning from the Frosh, 6—2, 6—1, the second teams of the two classes battled to a tie, the Freshmen getting the first set, 6—3, and the Sophomores fighting to a 6—4 victory in the second set. This match also will be finished today or tomorrow.

The Sophomores won the Spin and Elizabeth Westin elected to serve. The first game was a long one and both teams played inconsistently. The succeeding games of the set were featured by lengthy rallys in which Elizabeth Westin's backhand and Doris Boardman's placement were beautiful to watch.

Dorothy Dailey relieved Doris Boardman at the beginning of the second set. The fourth game was the best of the afternoon. Magdalene Orvis came back to win her game after serving three aces.

The last game was played in semi-darkness. The Sophomores received set-point after three long rallys.

Elizabeth Westin's serve and Mary Raymond's lobe made an even balance, and the teamwork of the Freshman players was good. The Sophomores were more conspicuous as individuals than as a team, and the girls performed some spectacular plays.

The finals of this tournament will be a highlight of Field Day. In other years, the champion of the University was acclaimed at the fall rally, but the idea of class teams, with view to individual contests in the Spring, is proving highly satisfactory.

HONORARY ENGINEERS HOLD FIRST MEETING

Vermont's Student Branch of the American Society of Mechanical Engineers held its first meeting of the year at the Engineering Building Saturday at 11:30. President Porter C. Ireene opened the meeting, after which Professor Robinson gave a short talk on the founding and purpose of the society. Following this Raymond K. Hastings, Secretary-treasurer of the society, gave out membership cards to the Junior Mechanicals. At the next meeting November 5, reports are to be heard from Holden Hoxie '28 and Burton R. Morse '29. These meetings are held once every two weeks.

The society was founded in 1886 by a group of Mechanical Engineers for the purpose of exchanging and discussing topics of interest to mechanical engineers. The organization has grown so that it now claims over 18,000 members. There are many divisions and local branches scattered throughout the country, with headquarters at New York City where meetings are held once a year.

Manager Clifford L. Morse '30 is arranging the schedule for the Rifle Team and it is expected that there will be some shoulder-to-shoulder matches, that is, some matches are hoped to be fired on the challenger's range. Clayton E. Brown '28 is the captain of the Marksmen.

PRACTICE STARTED IN FENCING AND WRESTLING

Lt. Aldinger reports that the fencing squad is coming along well. Many freshman have turned out and are doing well under the tutelage of Lieutenant Allison of Fort Ethan Allen. The prospects are good for a strong fencing team this season.

Wrestling practice has not started yet. The call for wrestlers will probably be given in about two weeks and practice wil start about November 14. It is expected that Raymond Holtz will again have the coaching position in this sport.

PROF. OLIPHANT INDICTS COLLEGE ATHLETICS

Of late there has been considerable protest and talk relative to the attitude and actions of the supporters of the Vermont athletic teams. It has been charged by leading officials connected with the university and by visitors, all of whom desire to remain anonymous, that the Vermont cheering section is giving vent to unsportsmanlike feelings during games. The decisions of officials are constantly being met by boos when unfavorable and loud applause when favorable. The visitors are also receiving treatment from the stands, which they naturally resent. In light of this situation, it is quite appropriate to review the article by Professor E. C. Oliphant, in the November issue of the *Plain Talk Magazine*. All the charges the writer brings forth do not apply to Vermont, but several parts could be looked over by overzealous students, who are the cause of the unfavorable comment.

Oliphant's Article

That the colleges of this country give the men they turn out the moral code of the sneak-thief is charged by Prof. E. H. C. Oliphant, in the November issue of *Plain Talk Magazine*.

Prof. Oliphant, lately of the English Department of the University of Texas and lecturer in several large eastern universities, counters in his article in *Plain Talk* those who say that college and college sports have become a business with the remark that they are worse than a business.

Ethics

"We allow to be applied to sport an ethical system that we would not dare to apply openly in the commercial world," he writes. "The same principles are practiced, it is true; but no university would have the face to teach them, as it does permit the teaching of them in the field of sport. Students are taught that sport is a business which has for its sole object victory; that there can be no honor in defeat, no dishonor in victory; that the end is everything and the means nothing.

"They are given the idea that there is more honor in winning by clever trickery than in achieving victory by clean, honest play. Trickery is looked upon as a triumph of brains. A boy is looked upon as a hero, and looks upon himself as a hero, for deeds which ought to cause him to be regarded as nothing better an incipient ward-heeler."

Money-Making

Prof. Oliphant points out that football is almost as professional as baseball. "In every university," he says, "it is a money-making proposition, and therefore not to be run on the lines of a decent, honest sport. Honesty is a word unknown; to beat the referee is a most praiseworthy and meritorious act. The only standard of right is to 'get away with it'."

"Our universities," concludes the writer in *Plain Talk*, "are professional to the core .... The spirit inculcated is the spirit of the spieler, the confidence-trickster, the card sharper."

FRENCH CLUB TO MEET AT VERMONTERS' CLUB

The Cercle Français, the French club, will hold its first meeting of the year on Monday, October 31, at 7:30 p. m. at the Vermonters' Club house on Summit Street.

The meeting is being called by Prof. Savage of the French Department. There will be election of officers and plans for the year will be discussed. It is hoped that several short plays in French will be given by the members this year.

All students enrolled in French at U. V. M. are invited to join.

VERMONT OPENS STATE SERIES WITH CADETS AT NORWICH TOMORROW

Winchenbach Will Punt Owing to Captain Smith's Absence—Catamount Backfield Uncertain

Tomorrow the Catamounts will tackle the fast and ever strong Cadets at Sabine Field for the first game of the state series. A week ago Vermont supporters would have journeyed to Northfield with every kind of confidence in their hearts but today things do not look quite so rosy in fact the report is cloudy and colder. Without the services of Captain Smith, Vermont does not look to be quite as formidable an opponent. Smith was the key note of Vermont's passing game and the greatest part of her defense. Without him in the game to do the punting for the Green and Gold, Vermont is at a great disadvantage.

With the exception of Captain Smith the Catamounts will face the Cadets with every man in perfect condition. The line will probably line up the same as in the Tufts game with Robinson and Sirois at the wings, Damon and Winchenbach tackles, Levine and Kropper at the guard, and O'Keefe at center. This makes a line that will average about 175 pounds and if they play for all there is in it, Vermont will stop Norwich from coming through the line. Winchenbach will probably be called back to do the punting for Vermont and although he has not had very much experience in this department of the game one can always depend on Winchenbach to come through.

"WINK" WINCHENBACH

Versatile all-round player who will punt for Vermont tomorrow.

Coach McAvoy's greatest difficulty will be the backfield which is decidedly weak with Captain Smith absent. However, he has a large number to pick from who are ready to give all they have to beat Norwich. Conway will probably start in the backfield although his exact position is not known, it will be either quarterback or halfback. Scutakes will also start and his position will be at one of the halfbacks. Who will play the other two backfield positions is a question that nobody can answer until the whistle blows for the kick-off at Northfield. However, it will be one of the following: Mace, Estabrook, Gourson or Macomber. Of these four, Mace and Gourson seem to have the best chance. Mace is a good man on the offense and Gourson comes near to being a defensive fullback of Captain Smith caliber as anybody on the squad.

Norwich will enter the fray with her full strength back for the first time since the opening game with Williams. Sherman will back at quarter and is sure to make things hum for the Catamounts. Kane and Waining will play the halves with O'Donnell at full. Although the Cadets did not start the season in a very impressive way, they have been steadily gaining and will enter the game tomorrow the favorites. While Vermont was suffering defeat at the hands of Tufts, Norwich was snowing Lowell Textile under 48 to 0. Although it is admitted that the Tech boys were a little shy, credit will have to be given to the soldiers for piling up such a large score. Any team that can score nine touchdowns has an offense that is'nt to be sneezed at.

BURLINGTON SYMPHONY TO BE ORGANIZED SOON

The Burlington Symphony Orchestra, the leading musical organization northern New England, will commence their weekly rehearsals on Sunday, November 6, at the Chamber of Commerce rooms. This first rehearsal will be begun at 2:30 o'clock.

In past years the students at U. V. M. have always been well represented in the personnel and with the wealth of musical talent on the hill this year, the symphony will no doubt, again have a large percentage of U. V. M. men and women.

Any student who wishes to carry on their musical study, begun in high school days, is invited to join the symphony. Newcomers at the university who are interested should see Mr. Lockwood.

HAZEL FREEMAN TAKES FIRST PRIZE OF $1,000

Miss Hazel B. Freeman, of Somerville, Mass., and a graduate of Radcliffe, recently won the first prize of $1,000 offered in the Business Man's Assistant Contest. She was elected to Phi Beta Kappa in her junior year and graduated "cum laude" in 1925. In the fall of the same year she came to the University of Vermont as a graduate student in Latin. While pursuing her studies here, she taught in the Latin Department. Upon completion of her studies in June, 1926, she decided to follow a business rather than academic career, and has since been employed with the Shaw, Loomis, Davies Investment Counsel in Boston.

WOMEN DEBATERS

There is a possibility of a Women's debate in December between U. V. M., and another college. All women interested in engaging in this debate, report to Old Chapel, Friday, October 28, (today) at 4 o'clock. Or inquire of Mr Moore as soon as possible.

AT THE DORM

By Converse Hall

Home brew machines exploding
And yet they call them stills.
I call my daddy governor—
He vetoes all my bills.
Choice steak is what they call it.
Gosh! but the blamed thing's tough!
They call them "Breezy Stories"
Yet aren't they hot stuff?
They call them weeping willows.
And still I know they're happy.
They speak of brilliant maples
Of course they're all so sappy
The motto that's within this"
Remember first and last
Think twice before you call him things.
Unless your legs are fast"

The Queen of the heavens once discovered Jupiter with Io, whom he had changed into a heifer. The wily Juno asked for the animal as a present. Her lord, not being able to refuse her, and liking his pun as well as any man, said, "Well, if you must heifer—take her."

As the prohibition agent said: Hic—the leash of a dog's worries is—hic—about his neck."

We predict that late poker games will produce among the men a nation of expert ballet dancers.

Our boarding house motto: He who hesitates starves; he who first samples the food (?)—Forgive him, O Lord, for he knows not what he does!

An airplane advertising "Old Gold" cigarettes has been flying over the dorm and places of less importance of late. He refuses to attempt a landing in the court however, claiming that he is averse to trials.

Intercollegiate News

By Frank Shedd

Commenting on the banishment of girls from two New Hampshire institutions, Tilton and New Hempton and the apparent retaliation by Colby exiling the boys, the Manchester, N. H. *Union* says—"Perhaps it is correct to say that the mingling of the sexes in education is contrary to the spirit of New England and that after experimenting in that field for a time, it is returning to its first convictions. Wesleyan University dropped its women students. Tufts, after a period of coeducation, established Jackson College as a coordinate woman's college and even Boston University now has a department restricted to women. Middlebury announces that a separate woman's college will be established as soon as possible. The tendency in New England is toward separation of the sexes in education, and this is in spite of the fact that women have so generally taken over the callings, innunities, and vices that were once peculiarly those of men."

At a recent meeting of the Student Senate, plans were started for inaugurating a Dad's Day at the college. President Eddy has conferred with the heads of all organizations on the "Hill", urging them to sound out the sentiment of the students regarding such a plan. Already much favorable comment has been heard among the undergraduates. The plan calls for the giving over of a full day to the Dads of the students, in order to acquaint them with the institution that their sons and daughters have selected for an Alma Mater. Dad's Day has been held at other New England colleges with great success. Last year at the New Hampshire State College over five hundred fathers were present for the occasion. It has become an annual event there, looked forward to with great anticipation. It is hoped that the experiment will be a success here, and that the day will take its place with our other traditional activities.

The Ward Natural Science establishment has been given by the Ward family to the University of Rochester

SCHOLARSHIP BOWS TO FOOTBALL AT DEPAUW

Just as newspaper men have long been watching for a man who would bite a dog, so, perhaps, have observers of American universities watched for the day when some college would resent the suggestion that it demands high standard scholarship. Both propositions have sad in their the possibility but not probability. In one case possibility has materialized. A United Press sportswriter sent out a dispatch concerning athletics at DePauw University, declaring prospects in football very poor and with little chance of improvement, because entrance examinations demand that prospective students be "near-geniuses." This particular statement be credited to W. L. Hughes head coach.

It is possible that some university might have been pleased with this characterization of its high standard. At least it might have exploited the statement as a fine bit of advertising. But the DePauw, perhaps convinced that a good football team is a better advertisement than high scholarship, rose nobly to answer the gross libel on the University. While almost confiding that there is no reason why good athletes should not be good scholars, this paper goes on to deny vehemently the charge that entrants need be anywhere near geniuses. In a later editorial, Coach Hughes was quoted as denying the statements attributed to him, while *The DePauw*, half-heartedly holding to its earlier belief that only the undesirable athlete is now eliminated, concluded that its own standards are not too high, but those of other conference teams are too low. This, says the paper, creates a crisis. The crisis being that the other schools keep on their benches all sorts of athletes, while DePauw rejects the dumb ones. Somewhat tearfully, the paper concludes that its athletes have good minds as well as bodies, while other athletes have only good bodies.

The Indiana Student, speaking out in meeting, suggests to *The DePauw* that what brings athletes flocking to universities is nothing other than "inducements," of which we are left to believe the main one is money. "Why should one blink at the facts that exist?" asks the *Student*.

Why? Evidently because football teams make excellent advertising. The *Brown Herald*, commenting on a story of Brown's football team that appeared in the Paris edition of the *New York Herald*, suddenly, in the face of this world advertising, finds a world of good in the sport, and ends with the very naive statement, not at all born, we suppose, of the recent French advertisement: "Some pressure must be brought to bear in many colleges, to be sure, to keep it (football) from becoming the major raison d'etre of the institution; but kept in its place it can, without a doubt, justify its existence."

BEAT NORWICH!

All out for the Norwich game tomorrow! It isn't far to Norwich, and every true Vermont student who can beg, borrow, or steal a ride will be at that game. There's nothing like a big noise cheering section to pep up the team and lead them on to victory.

Norwich is an old rival. To win from them is indeed sweet triumph. With a full stand of loyal Vermont students backing them up the team is capable of almost anything. Let's all be there. If we have to hitch hike to do it!

AN ANSWER

The lion drowses where he will
Though jackals yap around
They dare not near the regal form
Recumbent on the ground

Their noise disturbs the tawny king
He yawns and lifts his head
The jackals cringe before his look
And slink away in dread

• • • •

Read my parable through again, Freshmen
With laughter and comment so free.
But be sure that you do your brave yapping
Where you won't arouse "sleeping Gold Key."

For the lion, when quietly sleeping,
Just *seems* a most peaceable thing
Don't forget that it wasn't for nothing
That they first named the lion "The King."

Imitation is called the sincerest of praise.
Many thanks though we all know your doom.
That while Gold Key shall shine like a beacon, unquenched,

NEWS IN BRIEF

The football team is to have their picture Wednesday.

While no pledge banquets societies etc. will commence in about two weeks, whereas the Fraternities will be started in a month or so.

Rev. and Mrs. Joseph Reynolds, Episcopal clergymen, retired of Barlington, conducted the services in the new chapel last Wednesday morning. His words rendered a plea to the young people for a study of the Scriptures.

The short test by Professor Bennett, presented itself for the first time of the season to the critical student eye which seemed to concur with a note of approval and general satisfaction.

There is much discussion as to whether or not the Medics will pay their athletic dues or not in the coming years.

Your Red Key must be lost in the gloom
We know that you came from your prep schools
Intent upon making a splash
And that many a poor Freshman wishes
That he could wear Frances moustache

We know that you'd all like to grow one
You do hate to think you're not old
But you just can't create a real moustache
From the down on the lip of a kid

And now to complete the first lesson
You should learn this in prep school, but then
Just remember The main thing you're here for
Is to learn from the Sophs to be *men*

CONFERENCE OF SCHOOL EDITORS HERE SATURDAY

A conference of high school editors, teachers of English and principals of the various high schools in the state will [illegible] here [illegible] at the University.

The morning session will be held in [illegible] at the first floor of the College of Medicine building. Beginning at 10:30 A. M. the conference will be mostly engaged with the following program: "Outline of the Purpose of the Conference," Walter H. Crockett, professor in journalism. "Short Story Writing," Leon W. Dean instructor in English. Address Prof. Frederick W. Tuttle, head of the English department of the university. "The Problem of the High School Editor" and "The Business Problems of High School Papers" will be discussed by students.

The conference will be the guests of the University at a luncheon to be served in the [illegible] garden of the Hotel [illegible] at 12:45 o'clock. Following the luncheon, Prof. W. E. Aiken will speak on "The Relation of School Journalism to the Work of the English Department." A general discussion of the subject will follow.

The afternoon session will start early enough to permit visitors to [illegible] in the activities of the University.

HOW TO WRESTLE IN TEN LESSONS

By A. J. Stevens

Wrestling is more than a game. It is a science and an interesting one. One can imagine anything more [illegible] than to [illegible] some opponent a mile. In this issue of the Cynic I [illegible] lessons.

The first important hold is the Arm and Neck hold. While you get no gentlemen familiar with that kind of business like the rest of those that prefer another hobby use discretion. I will explain. Grasp the neck of your opponent with your right hand and raise the right elbow in your left hand. Keep your body well bowed and your chest thrown out. Do not throw it away.

The advantages of "Arm and Neck" are unlimited. You are near enough to bite your opponent's ear and can throw your body forward and [illegible] a pinch. By grasping your body with Mobilizer "B" you will become an iron character and [illegible] your opponent and frustrate his attempts. If he gets too bothersome bend his ears and twist his ears.

In one of the coming issues I will give a short story on the next phase. Hipping and Hurling. Wish to [illegible] at this time that a wrestlers attire is not called his uniform.

EXCHANGES

Poet: The girl friend bawled me out last night. She said me that I wasn't a true gentleman.

Pessimist: And what did you say?

Poet: I told her never to forget that she was only a peroxide blonde herself. *Penn State Froth*

Freshman translation of latin sentence: Hannibal Gallia est [illegible]. Hannibal [illegible] Gaul [illegible] important. *Western Reserve Red Cat*

Mysterious Student: Sir some students are shooting dice on the fourth floor.

Proctor: What do you think I am a game warden? *Gettysburg Gowan Band*

Henry: I've got an awful headache or something in my head.

Ivory: I think it's just a headache. *The Cornell Widow*

She was only a fish peddlers daughter but How Mackerel How she tipped the scales.

—*The Campus, Rochester, N. Y.*

Boston: What did you name that chile Easter?

Easton: I named this chile Opium.

Easton: What for you call that chile Opium?

Easton: Cause de dictionary says opium comes from a wild poppy and if this chile ain't not a wild poppy I don't know who has. *The Hill Voice*

Have you heard the Hurdling song?

No, how does it go?

I can't get over a girl like you.

—*Record*

Soup Here "Do you use tooth paste?"

Just arrived "Never no. None of my teeth are loose."

—*Pennsylvania Punch Bowl*

Waiter: "Chicken?"

Flapper—"Yes"

Waiter—"Neck?"

Flapper—"Yes, if it's dark and he's the right kind of boy."

—*Widow*

The New Vermont

[illegible] to write something on what the NEW VERMONT spirit really is. Just recall, a L. R. M. of N. T. is prolonged and then snapped, each in their turn. Then comes a long VKR and a snappy MONT followed by a long rah, snapped at the end. Then perhaps comes the team [illegible] the cheer leader signifies. For the best cheers, the proceeds obtained before the various cheer leaders contest.

Catamount's Lair

By Sherbrasal

"The breaks of the game," how many times has this phrase been called upon to account for a victory or defeat. Probably millions of times, and it will [illegible] millions of times more. Well, to get to the point, Vermont beat Providence by a large score [illegible] because they got the breaks of the game. Don't get me wrong I feel certain Vermont would have come out victorious regardless of the breaks of the game, but I feel that the score would not have been so large. Saturday against Tufts Vermont got all of the bad breaks of the game. First a fumble, then the injury to Captain Smith and last but not least the burden of tough officiating. And for Captain Smith been forced to leave the game Vermont might have come out on the long end of the score but as it was she came out on the tail end.

The loss of our popular Captain seem to take the heart out of the Catamounts and when he left the game the old Vermont spirit went to pieces with him. Although every now while it would crop up only to die down as soon as it had appeared. With nobody to punt Vermont was placed in a bad position and in every instance when the first time Winnenbacker was called on to punt he was the victim of a bad pass thus coupled with the wonderful field running of Hicks turned a possible victory into sure defeat.

With Captain Smith out of the game indefinitely as all reports indicate Vermont's chances in the state series looks rather dubious. With nobody to [illegible] and nobody to back up the line in the defense the Green and Gold is out of luck. Saturday's game brought out strongly the point that without Smith Vermont is not worth much on the defense and not much more on the offense.

Although Kropper only stayed in the game two periods he put up the finest game of his career as a football player. On many occasions he plowed through the offensive line to get the man back of his own line for a loss. In the second period he intercepted a forward pass that turned a possible touchdown into Vermont ball on the 45 yard line. This writer is of the opinion that he was unjustly removed from the game at least he was not connected with the play in question at the time.

With as many years experience as some football players have had it would seem that they should have learned by this time that more can be gained by playing clean football than by trying to get the other fellow. However it seems that some have not learned this lesson and as everybody knows the game was characterized by much unnecessary roughness.

Norwich gave Lowell Textile a heavy beating Saturday, the final score found them leading 48 to 0. The Lowell eleven is coached by a former Vermont man, "Rusty" Yarnall. Middlebury the other state contestant for the state series remained idle over the week end.

Students of the University of Vermont may regret to hear that there is no provision for hockey, fencing or wrestling in the athletic association this year. The expenses of the association have been so great in the past that it has been found necessary to suspend these three minor sports at least for this year.

PRIZES FOR ESSAYS ON GOVERNMENT OFFERED

Two valuable awards each amounting to one hundred dollars, the Bennett prize and the Benedict prize will be given this year. Since there has been little competition for these prizes, in recent years the interest has accumulated until at this time it is possible to offer the substantial sums mentioned.

The current issue of University Catalogue says of the Bennett prize: "Philo Sherman Bennett left by will four hundred dollars, the income of which is paid annually at Commencement as a prize for the best essay 'discussing the principles of free government.'" The catalogue contains the following announcement of the Benedict award: "Robert D. Benedict, class of 1848, gave to the University the sum of three hundred dollars, the income of which is offered as a prize yearly to the member of the Senior class presenting the best essay on the subject of 'International Arbitration.'"

No essays were entered for the prizes last year, but in 1926 Marshall E. Mower was given one hundred dollars under the Bennett bequest for a paper submitted by him. Further information may be obtained from Professor D. B. Carroll.

NOTICE TO FRESHMEN

All Frosh who have lost their Frosh hats must wear a hat of some sort, and **must buy a new Frosh cap within twenty-four hours.**

LEGIONNAIRES ATTACK POLICY OF IOWA PROF.

Iowa Legionnaires returning home from their [illegible] assault on Captain [illegible] somewhere in the Paris sector found themselves confronted with what professional patriots are fond of calling the Enemy Within the Gates. A professor of sociology had moved in faculty meeting at the State University that campus military training be made optional. The name of this professor of rare courage is Edwin B. Reuter.

With a belligerency that belied his name, Dr. Frank L. Love, a legionnaire of Iowa City, began the Legion barrage. These critics of the R. O. T. C., he told the reporters, are "dupes and paid servants in the hands of the red element." The sum of money paid these servants and the name of the paymaster were left to the newspaper reader's imagination. Commander W. B. Gripple of the local post expressed fear for future unprepared generation if drill be made a matter of choice.

On the campus the usual alignment in such controversies took form. The student officers of the R. O. T. C., professed to see deep cultural values in a course that required all students to learn the difference between squads right and left. The student paper, last year edited by a reserve officer, defended "the reds." The mass of students, and both camps are agreed on this point, welcomed agitation for optional drill because they consider required drill a burden. Most of the professors have nothing to say. The exception is Professor Walter Brandt of the history department, who thought the change "quite reasonable and proper."

Dean Jenne has been in Montreal to attend a meeting of the American Medical Association.

NEWS IN BRIEF

There is to be a Hallowe'e[n] at the First Church Parish [illegible] South Winooski Avenue, [illegible] night, November 1, at 7 to [illegible] one is welcome. Come and [illegible] evening of free entertainment [illegible] refreshments.

Perhaps one of the most [illegible] advertisements calling the stud[ent] tention to the approaching [illegible] game is one located in the Gym. [illegible] by Geno Lucarini, an instru[ctor] the Engineering College. It is [illegible] plotting the games between V[ermont] and Norwich between 1920 a[nd] present date, showing the p[oints] 1922 and gradually falling un[til] year when Vermont was beate[n] brilliant colors, green and mar[oon] well as the work is very well [done].

Saturday, October 22, the [illegible] Phi Alpha of Phi Chi initiated [illegible] ical students, M. G. Platt, R. A. [illegible] tine and W. M. Morris at their fra[ter]nity house on Colchester Aven[ue].

MISS COLBURN TO GIVE TWO ADDRESSES ON ART

Miss Elizabeth V. Colburn, head of the Art department is leaving Wednesday for New York State to give two addresses on programs at State Educational Conferences. On Thursday, in Troy she will address the Vocational Section of the Eastern N. Y. State Teachers Association on "The Teaching of Design and Color in a Vocational Program." On Friday in Syracuse her subject will be, The Teaching of Art in a Home Making Course. This address is to be given to the Home Economics group of the Central New York State Teachers Association. Evidently the interest in Art is increasing, for Miss Colburn has already made twelve dates to speak in Vermont and two in New York State this year. Judging from the large population of the Art Room the interest in Art is also strong on the Campus.

CATAMOUNTS LOSE FIRST OF STATE SERIES TO CADETS

Norwich Outclasses Green and Gold Eleven—Vermont Dangerous Only in Second Quarter When It Nearly Get Touchdown

In the first game for the Green Mountain State championship, Norwich defeated Vermont 13-0. The cadets completely outclassed the Green and Gold gridmen opening large holes in their line and circling their ends for long runs. The Northfield players won the game on pure headiness football. Every runner had two or three men to serve as interference and on the punts the cadet ends were down the field before the ball dropping Conway in his tracks. Vermont's goal was in danger most of the game the Burlingtonians threating only once when they marched the ball from their own ten-yard line down to their opponents' 3-yard line. They had four downs to make the needed 3 yards, but just then the half came to a close thus spoiling Vermont's chances.

Long runs by Kane and Sherman were the most brilliant of their kind witnessed on Sabine Field for some time. It was impossible to stop them and Kane scored the first touchdown in the opening period and Sherman the other in the third frame. The Norwich line broke through repeatedly to smear their rival's plays and Vermont didn't seem to have a chance. It was a far different team that represented the Green and Gold on the field yesterday than the one that defeated Providence 40-0 a few Saturdays back. Poor field judgment and lack of fight was the real cause of Vermont's defeat. Captain Jack Smith, who it was predicted would be unable to play, went in the second quarter and for a time the team fought like true Catamounts and marched the ball down the field, but from the beginning of the second half on they fell back into their old rut.

Winchenbach played a hard game and did most of the real fighting of the team. "Wink" was everywhere and taking almost everybody's place, tackling hard and smearing plays. Captain Smith played hard, but his condition was none too good and his team didn't seem to be behind him.

For Norwich Kane and Sherman were outstanding backs with Beveridge and Ellis the shining lights in the soldiers' line.

The summary.

NORWICH		VERMONT
Ellis, l. e.		r. e., Sirois
Moller, l. t.		r. t., Winchenbach
Tanzy, l. g.		r. g., Levine
Beveridge, c.		c., O'Keefe
Allen, Gildman, Daley, r. g.		l. g., Kropper
Hourin, r. t.		l. t., Damon
Coane, MacDonald, r. e.		l. e., Palmer
Sherman, Amoroso, q. b.		q. b., Conway
Kane, l. h. b.		r. h. b., Scutakes, Macomber
Walning, r. h. b.		l. h. b., Mace, Estabrook
O'Donnell, f. b.		f. b., Goursen, Smith

Score by periods:	1	2	3	4	Total
Norwich	6	0	0	7	13
Vermont	0	0	0	0	0

Touchdowns made by Kane, Sherman. Point by goal after touchdown made by Beveridge. Referee—Goeway, Syracuse. Umpire—Ebbjornsen, Springfield. Linesman—Johnson, Tufts. Field judge—Laird, Dartmouth. Time—two 15- and two 12-minute periods.

TOURNAMENT FINALS AT FIELD DAY WEDNESDAY

The Fall Field Day meet will take place tomorrow afternoon if the weather permits, otherwise on Thursday afternoon. At four o'clock the different games will be played: tennis finals at Grassmount, volley ball at the Gymnasium and the Junior-Freshman hockey game on the back campus. After the games, everyone will go to Grassmount where an outdoor supper will be served and athletic awards made.

JUNIORS AND SOPHS WIN ON VOLLEY BALL COURT

The Seniors meeting the Juniors on the Volley ball court Friday afternoon were defeated 15-6, 15-11. Dorothy Carpenter '28, and Bertha Klein '29, were chosen captains of their respective teams preceding the contest.

The Seniors served first but gave way to the Juniors when Irene Bates returned a lovely one, placing it just over the net and letting it take a quick drop. Fran" Howley, serving for 1929, sent a "pop" ball which proved very effective. Then followed a long rally, Peg Corbin making some quick returns and Pearl Darling executed a few pretty underhand passes. In the last minute of the game, Dorothy Cottrell sent a low fast return to a hole in the opposite line, and scored for the Junior team.

The conspicuous play on the second game was "Dot" Cottrell's one-handed return. The players were: Bates, Carpenter, Crandall, Darling, Hart, Marsh, Richardson and Witters. The Junior Eight was composed of the following: Corbin, Cottrell, Everest, L. Fiske, Hoskins, Howley, Klein and Wheatly.

Under Captains Crofton '30, and Prandle '31, the Freshman-Sophomore contest got under way. The Sophs quickly secured the ball and held it within their ranks during the greater part of the first game. Eleanor Wood '31, during the last game, made a fine underhand pass. The Sophomores returned with a low ball, which bounced just short of the base line, and scored for their side.

The teams were as follows: 1930, Allen, Barnett, Crofton, Peabody, Peters, Tifft, Wells, Wilder. 1931, Bingham, Birchard, Brandle, French, Garrow, Hubert, Wheeler, Wood.

JOHN DEWEY CLUB WILL HEAR ADDRESS TONIGHT BY PROF. G. DYKHUIZEN

All Students Interested in Philosopy or Psychology Invited to Attend Meeting in Vermonters' Club House at 8:00 o'clock

The John Dewey Club, of Philosophy and Psychology will meet this evening at the Vermonters' Club, at 8:00 o'clock. Professor Dykhuizen will address the society on the subject: "The Aims and Ideals of Present-day Science."

The John Dewey Club was organized last year to promote an interest in philosophy and psychology as forces having a great deal to do with the more practical side of modern life. It is named in honor of a Vermont alumnus who has become universally recognized as an authority in philosophical circles. John Dewey, now of Columbia University. During the past years several speakers of note have addressed the society on subjects aimed to cover all of the phases of philosophical thought. And this year the Committee on Programs promises entertainment of equal merit.

All students who are interested in the study of philosophy or psychology are invited to attend the meetings. The only requirement for membership is an interest in the subjects and a desire to learn through further study and discussions, their different phases and their very real importance.

Two members of the faculty and two undergraduates of Amherst college have just returned from one of the most interesting trips of the college year. This, the tenth expedition from Amherst, went west with the purpose of collecting fossil vertebrates for the college museum.

Catamount Yearlings Drive Black Panther Cubs From Their Midd Lair

Kittens Punish the Midd Freshmen in a Close Game at Potter's Field—Watkins Scores Two Touchdowns for Vermont—Lack of Penalties Characterizes Game

The Vermont yearlings defeated the Middlebury frosh 13 to 6 Saturday at Middlebury in an interesting contest. The game was a close one every minute of play and the result and victor were uncertain until the final whistle blew. Both teams knew in a very few minutes after the beginning of the game that they were up against some tough opposition. Clean and clever football was displayed by both teams incidentally the state yearling title goes with the victory.

Middlebury seemed to have the edge over the Kittens in the opening period but the Vermonters managed to protect their goal line. In the second quarter they came back strong and scored their first touchdown. It was nip and tuck until the beginning of the last period when the Kittens scored again. After this the Cubs opened up an aerial attack and tallied, preventing a shutout.

Watkins starred both Vermont touchdowns and was the mainstay of the teams offense. Allen also played his usual clever game. For Middlebury Neal and Dragotta starred. Both lines held well and it was difficult for either team to gain by plunging. Hough excelled at tackle. Neal starting for the first time at end, gave a good account of himself. He was on the receiving end of a forward pass for a point after touchdown.

The summary:

Vermont (1931)		Middlebury (1931)
Allerton, l. e.		r. e., Hagenbuckle, Hoyt
Howard, l. t.		r. t., Perry
Secatore, l. g.		r. g., Whitney, Keenan
Parise, c.		c., Whitman
Golding, r. g.		l. g., Blondin, Cooley
Hough, r. t.		l. t., Tweedy, Davenport
Neal, r. e.		l. e., Greene, Kelly
Allan, q. b.		q. b., Dragotta
Heaton, l. h. b.		r. h. b., Foote, Hardy
Tellier, r. h. b.		l. h. b., Paul, Hardy
Watkins, f. b.		f. b., Cook, Daffany

Score: Vermont (1931) 13, Middlebury (1931) 6. Touchdowns: Watkins 2. Point after touchdown: Paul 1. Point after touchdown: Pass from Watkins to Neal. Referee: Desautels, Tufts. Umpire: Jones, Middlebury. Linesman: Aldrich, Middlebury. Time—15-minute quarters.

EVELYN ANDERSON IS ELECTED CAPTAIN OF CO-ED SHARPSHOOTERS

Sergeant Connor to Coach Squad Composed of Sixty-five Co-eds —Pauline Lynch is Manager

The co-eds, who developed keen eyes and steady hands during archery practice last spring are again to have an opportunity to show their prowess, for rifle, formerly a very popular sport among Vermont women, has been revived here this year.

In response to a call for those interested in organizing a rifle team a large group met with Sergeant Connor in Room 3, South College. Thursday afternoon Evelyn Anderson will captain the new firing squad and Pauline Lynch will be manager.

EVELYN M. ANDERSON

Captain of women's rifle team which will become active this year.

The rules by which the teams are to be governed were made clear. Those trying out for the team must spend two hours a week at some definite time on the range. Two unexplained cuts automatically drop a member from the squad. Sighting and aiming, triangles, trigger squeeze and firing will be taken in order. The team will be picked about November 25.

The rifle team was first organized in 1921 through the efforts of Major Larned who coached it for three years. It continued in existence through 1924, 1923, 1924 and 1925 but due to lack of funds was discontinued in 1926. Colonel Hapkins was secured as coach in 1922 and the following year Mr. Danehy, a second Lieutenant of the Reserves, turned out a crack squad.

The teams have had wonderful records, winning every match in 1922 and all but two in 1923. In 1925 the U. V. M. girls shot against Norwich losing by only four or five points. An enviable record is that of Miss Lyman '23 who had a standing of 96 out of 17 matches shot. In other years matches have been shot with many colleges including Syracuse, Illinois, Northwestern, South Dakota, Southern California, Cornell, Maryland, Maine, Drexel, DePauw, Oregon and Ripon.

As evidence of the interest this sport is arousing on campus this year sixty-five girls have already signed up, the Freshmen in great numbers, but all classes are well represented. The first practice is scheduled for Tuesday, November 1.

Prof. Aiken spoke to those attending the high school editors conference held here last Saturday on "The Relation of the High School Paper to the Teaching of English." His address followed the noon luncheon.

NOTICE

The Sophomore girls, scrubbing for Cynic board positions, are asked to meet in Room 3, North College, promptly at 1:30 Wednesday afternoon.

FRESHMAN WOMEN TAKE LAURELS FROM 1930 IN TENNIS, 6–2, 6–1.

Snappy Play With Individual Feature Plays Characterize Matches Between Underclass Women

At 4:15 on Thursday afternoon the Freshman-Sophomore second teams in tennis met to replay their match. The class of '31 was represented by Mary Raymond and Elizabeth Westin while Joyce Richardson and Madeline Orvis played for '30. Constans Holden '29 was referee.

The Freshmen displayed better team work than on the preceding day and definitely defeated the Sophomores 6-2, 6-1 though match was much closer than the score would indicate.

The first game was rather slow as both teams seemed to be feeling their way but the second was swift and characterized by pretty volleying and featured by a wonderful pick-up of Westin's. Again in the seventh game Westin showed her skill when she sent a smashing drive to the base line just at the feet of Orvis.

At the beginning of the second set Westin and Richardson gave a beautiful exhibition with an exchange of forearm drives completing a long rally. In the third game Richardson sent a hot drive to the opposite base line a beautifully placed ball just beyond the reach of Raymond. The last four games of the set were noteworthy and worth remembering because of the fine net plays of Orvis and Westin.

The closeness of the games may be understood when we realize that six

Another quest for modern Balboas

COLUMBUS made possible Balboa, and just so Bell has made possible the pathfinders in telephony who are now turning his vision into reality.

They are pioneering at the drafting board, in the manufacturing departments, in the field and in the work which underlies all activity—management. In executive and administrative control, in the supervisor's opportunity to guide and inspire, there is no limit to the possibilities of the progressive idea.

The questing spirit into new fields has achieved much, but the way remains open for men of the coming generation to carry the telephone industry to still greater heights of service.

Widely varied are the jobs leading up to telephone management.

"OUR PIONEERING WORK HAS JUST BEGUN"

Where Freshmen Follow Socrates

...ss section of Young Amer- ...s the impression one got of ...versity of Wisconsin fresh- ...ning the student body of ...r Meiklejohn's Experi- ...ge as they trooped into ... hall for their brief and in- ...ing exercises. The back- ...d the freshmen are refresh- ...ferent—from cosmopolitan ...reated New York to Shang- ...onary settlement. And if ...t the experimenters are to ... these were ordinary fresh- ...-sprouting geniuses who sat ... listened attentively to the ... words of President Glenn ... Dr. Meiklejohn.

...nt Frank in his opening re- ...d them that the college was ... not new. "I imagine," he ... the cave men learned by ... methods you are going to ... The plan is at least as old as ... It is the same plan followed ...ntelligent adult when he sets ... learn something he needs to ... He said he was extremely ... of the students and related ...sad experience at college with ... "a little of this and a little ...

... a. m. I studied fourth century ... at 10 a. m. nineteenth cen- ...economics; at 11 a. m. fourteenth ... literature. Each hour I emi- ...from one to another of three ...r worlds, and I never did quite ...them together.

...ored in history, but when the ... War came in 1914 I was shocked ... that I was unable to read war ...pondence intelligently. In four ... of burrowing in books, atlases ...what not, to find out what the ... about, I learned more about ... than in four years of major- ...history. In other words, a co- ...dramatic situation captured my ...est."

...Meiklejohn, once president of ... College and now Professor of ...phy in the University, said that ...ulty of the Experimental Col- ...nd decided to call themselves ...ers" and wanted to be regarded ... that. He said that the faculty ... most part, knew as little about ...period that was going to be ...ed as the students themselves. ...tudents, he promised, would not ...ired to read any textbooks, but ... get their information from the ... that the professors read in the ...ss and not the books that the ...ors wrote afterwards.

...When the meeting disbanded the ...men sought out their advisers ...nt into conference." The first ...ment was to read either all or ...ted selections from *Thucydides' ...onnesian War*. That was for the ... week. A paper on "Pericles' ...eral Speech" is due the following ... It is to be noticed that all ...men in this college are studying ...ame thing. This is to be a "com- ...y of learning" in the intellectual ... as it is also in the physical.

...The students of this college live to- ...er in separate sections of the ...s dormitories. The eleven mem- ...of the teaching or "advising" ... also live in these sections or ...d the greater part of their work- ...time there. As yet the project is ...ted to men students.

...Learning in the Experimental Col- ...is an entirely informal process. ...re is very little lecturing and class- ...m work in the conventional sense. ...Dr. Meiklejohn said, the teachers ...d students together are engaged in ...lying the subject matter and the ...ructor is not regarded merely as ...source of information, but as a co- ...rker, lending his particular fund of ...ecialized knowledge in a common ...ort to understand the problem at ...d. He is always ready to guide ... student and to inspire him into ...ther inquiry, but rarely willing to ...d down knowledge from the ...ghts.

...A representative collection of the ...erature and critical studies of the ...d under discussion has been com- ...d for the student to make his way ...ugh. The notes and reports of ...ings serve as a basis for the ...s group discussion. Talks by ...bers of the Experimental College ...ty and by outside scholars are ... occasionally. When specialized ...rmation is necessary, the teacher ...se specialism is involved leads the ...ssions.

...The subject matter differs radically ... what is usually studied by fresh- ...and sophomores. "The course of ...," to quote President Glenn ...k, "will rest upon the principle ... a study of situations rather than a ...dy of subjects. That is to say, in- ...d of studying the various sciences, ...nomics, history, literature, psychol- ..., sociology, and the like, as if they ...e separate and distinct things, and ... later—probably after graduation ...rving to bring the separate knowl- ...dge of these subjects to bear upon ...e task of understanding and of liv- ...g and working intelligently in a com- ...plicated civilization, the students of ...the Experimental College, with the ...ounsel and cooperation of their teach- ...rs, will, figuratively speaking, put co- ...herent episodes of civilization upon the table, dissect them, see what forces animated them, what motives moved them, what factors—radical, political, social, economic, religious, philosophical, or scientific—were at work in them. In this process of dissecting various coherent episodes of civilization, the students, with the counsel and cooperation of teachers with specialized knowledge, will reach out into all the separate fields of subject-matter usually taught in colleges for whatever light they need to have thrown upon the episode in question in order to understand it."

In accordance with this plan outlined by President Frank, the Freshman year will be devoted to an attempt to understand a pre-scientific civilization, the Athenian. The Sophomore year, then, will be devoted to a period that has been affected by modern science and invention.

With such an arrangement there is unlimited opportunity to compare and contrast the two episodes studied and then to compare and contrast them both with contemporary American civilization. The study will not be a mere survey of the facts. The implications involved in a discussion of the causes and effects of almost any phase of Athenian life brings the discourse down to the modern times and presents problems with which we are still vexed.

The comparatively small body of students in the Experimental College has the opportunity to combine the advantages of study, discussion and personal contact afforded by the small college with the facilities and activities of the large university. Students of the Experimental College will be entitled to the same social and athletic privileges, and will be subject to the same regulations as the rest of the student body. They will be just as much a part of the university as the other students. Upon the completion, to the satisfaction of the Experimental College faculty, of the two years' work, Experimental College students will be full fledged juniors and will be allowed to continue their courses in the School of Letters and Science.

In addition to Professor Meiklejohn the following men constitute the faculty of the Experimental College: Walter R. Agard, John M. Gaus, Laurence J. Saunders, Samuel G. A. Rogers, Malcolm P. Sharp, Paul A. Raushenbush, William B. Phillips, Carl N. Boghott, John W. Powell, Jr., and Percy M. Dawson.

What do the 130 freshmen think of this venture? That is a question this writer is as yet unable to answer. He can speak for only one of them, himself. He agrees with Dr. Meiklejohn that, "whether the Experimental College succeeds or fails, it will at least give to a small group of students and teachers the sense of escape from the hindrances of 'machinery,' an opportunity to search freely for the way of learning. For them at any rate, it brings promise of a delightful and fruitful experience."

New Student.

Freshman Women Take Laurels from 1930 in Tennis, 6-2, 6-1

(Continued from page 1)

...e the three games went to deuce be- ...re they were decided.

...ers played a good game on the ...whole and at times played quite acrobatic ...work. Richardson proved to be a good ...balance wheel for the sophs. Ray- ...mond's backhand was even better than ...the day before, while Westin continued ...to give a display of good all round ...tennis.

Prof. Evan Thomas has returned from a trip to Ohio where he served as the delegate from the University of Vermont at the inauguration of the President of Oberlin College and Denison College.

Prof. Walter H. Crockett spoke before the Women's Club at Pittsford Thursday evening, October 27, on the "Opportunities of the State of Vermont."

Three deans of the University of Illinois attended the conference of a union convention in Chicago to attend a session and defend colleges against an attack made by a number on the immorality of college students. The debaters were won by the straight forward statements of the college men and extended them a rising vote of thanks.

Bandit: Pardon me, have you a re- ...fill to spare?

Cop: Fountain pen?

Bandit: No, I just shot my last bullet.

VOLUME 46 — BURLINGTON, VT., FRIDAY, NOVEMBER 4, 1927 — NUMBER 13

EFEATED YEARLINGS ILL MEET CLARKSON FRESHMEN TOMORROW

ns Terminate Most Successful Season in History Saturday ternoon by Playing Cubs From Clarkson Tech.

a the Kittens take on the ...son Tech. team at Centeld for the Yearlings' last season This will be also last time to see the undefeated freshmen in action on ... For the past two years have not been defeated ...ar this season they have ...d on only twice and on each the opponents have scored ... touchdown.

...e statement speaks for it- ...that the freshmen have not ...ed the game as all Vermont ...ed but they have been coached ... tutor, Captain Rattan. ... he has had some wonderful ... to work with he has had to ...inst some mighty hard teams. ...ever the critical moment ... Yearlings always had a trick ...eir sleeves by which they ...sh the ball across the line and ...Vermont out on top. When ... Rattan leaves Vermont the ... and Gold Yearlings will lose ... best friend and coach.

...e now to get down to business. ...ont has more than an even chance ... out on top with their side of ... clean. With such men as ... and Allen in the Yearlings ...ont has two of the best ... men in the state in fact ... England. Both of these men ... kick and pass equally well, in ... they are specialists in each phase ... game. In Heaton and Tellier, ... Rattan also has two men that ...an depend on to gain consistently. ... Laurey and Smyth may be ... in action any time Saturday if ... regulars get hurt or if the Kittens ... up a large score.

The same line will probably start ... game as did last week against Middlebury Segal and Rugg at the ...ngs, Hough and Howard tackles, ...pkins and Codding guards and ...ers center. This gives the freshmen ... strong forward wall which is nearly ...penetrable. It also has outweighed ...st of the opponents thus far this ...son.

Not much is known about the boys ... across the lake. The fact that ... defeated Plattsburg Normal ... by a larger score than the Green ... Gold freshmen did is something ... work on. This does not indicate ... true strength however, as this ... was the first game on the Yearlings schedule and at that time they ... not mustered their full strength.

FRATERNITIES ADD TO MEN PLEDGED FRIDAY

Even though rushing season ended ...nally last Friday with the hand... out of the bids, the fraternities ... succeeded in pledging more men. ... men pledged since Friday are ... below:

LARGE TURN-OUT FOR RALLY AT GRASSMOUNT

Co-eds Have Annual Fall Gathering—Juniors Have 20 Points Toward Cup

With honors well divided and everyone happy, as a result of Field Day contests Wednesday afternoon, the four classes marched over to Grassmount where an outdoor supper was served around the four huge bonfires on the lawn. The menu consisted of hot baked beans, brown bread, pickles, pumpkin pie, coffee, apples and cider.

After supper the interclass sing was held. Mrs. Bennett, Miss Storms and Miss Blanchard judged the Juniors winners by their rendition of the class song, "When Shadows Fall over Champlain and Mansfield." The Seniors received honorable mention. The Sophomore and Freshman songs written especially for this occasion, are also deserving of high praise.

Jeannette Hays, president of W. A A., called the girls together around the Senior fire and introduced the speakers. Mildred Whitney, '29, spoke briefly on "Every Girl a Member of W. A. A.," in which she explained about the necessary fifty points. Marion Backus exhibited the new all-sports cup and announced that the Juniors led all classes in competition for this award by ten points. The cup will be presented at the Spring rally to the class which runs up the highest total of points.

Florence Farr Hard spoke in her usual glowing enthusiastic way about athletics and sportmanship at Vermont. Mrs. Stetson gave an interesting account of physical training "As We Used To Do It," twenty and fifteen years ago. She mentioned that the amount of four hundred dollars was saved for the building of a girls' gymnasium. She urged that the project be kept in view.

The thirty or more Freshmen, who have secured membership in W A A recited the code of sportsmanship which has been adopted by the organization. Shortly afterwards, the election of a Freshman member to the Council was held, and the honor went to Georgiana Hubert.

Frances Howley received the class numerals of 1929, and U V M's were awarded to Anderson, '28, Backus, '29, Baldwin, '29, Carpenter, '28, Corbin, '29, Darling, '28, Hays, '28, Hoskins, '29, Sargent, '28, Smith, '29, and Whitney, '29. The rally closed with the singing of Champlain

RECEPTION HELD FOR EPISCOPAL STUDENTS

The Young People's Fellowship of the local Episcopal Church will hold an informal reception at the Parish House tomorrow evening (Saturday) from eight to eleven o'clock.

This has become a regular event each fall in the lives of many students, and is considered the occasion of much merriment and general good fun. Dancing, games and refreshments will be included in the program, and all Episcopal students of the University of Vermont are cordially invited to attend.

ARIEL NOTICE

All Junior pictures to be in by Saturday.

SOPHOMORE CO-ED DUET GAIN DECISION FROM JUNIOR TENNIS TEAM

Class of 1930 Beat 1929 by 3-6, 6-2, 6-1 Victory—Many Students Witness Contest

A larger audience watched the Sophomore women's tennis team win a 3-6, 6-2, 6-1 victory over the Juniors on Wednesday afternoon than has gathered to witness any intercollegiate tennis match for a long time. The game was called at 3 by Professor Carpenter who refereed the contest. Marion Everest and Beatrice Hoskins played for the Juniors, and Doris Kibbe and Eunice Wilder, the Sophomores.

The Juniors won the toss and chose the north court, so Red Kibbe served first for the class of '30. The first game went to '29 after Kibbe served four sets of doubles. "Bee" Hoskins started for the Juniors and it was then that the real playing began. Kibbe drove a fast ball to the opposite base line and Hoskins brought the score to deuce on a well-placed serve.

In the sixth game of the set Everest got in some pretty net work and Hoskins won the approval of the crowd by a beautiful pick up. In the ninth game Kibbe displayed a lovely swift service, while Hoskins' placing was spectacular as she took point set with a lovely backhand drive.

The Juniors slackened considerably during the second set. In contrast, the Sophomores seemed to gain confidence and courage. The games were fast and characterized by the alertness of Hoskins and by Wilder's deadly service which the Juniors seemed unable to diagnose. The last game of this set was notable for a long rally in which every player participated.

The first game of the last set was closely contested and lovely to watch. Each girl played in excellent form. Particularly fine were Wilder's back hand drives and Everest's work at net. The second game was won by the Juniors as a result of Hoskins' well-placed drives. One in particular was a beauty, landing in the very corner of the court. The match showed up Hoskins' ability both in service and in defensive play and it was quite apparent that she was the best all-around player on the courts. However all the participants played well and each seemed to have her own specialty. Wilder's service, Kibbe's lobes, and Everest's net work being outstanding.

FRENCH SOCIETY ELECT OFFICIALS FOR YEAR

Le Cercle Français, the French Club at U. V. M., held its first meeting of the year at 7:30 p. m., last Monday evening, October 31, at the Vermonters' Club house on Summit Street.

Prof. Savage of the French Department, who called the meeting, opened it by thoroughly explaining to the members those parts of the club's constitution which pertain to the election of officers.

The following officers were then elected: Errol C. Slack, '28, president; Lorraine E. Asselin, '30, vice-president; Cecile E. Boivin, '30, secretary and treasurer. The president then announced the program committee for the year, which consists of the president and the vice-president of the club, ex-officio, Miss H. A. Foster, A. A. Piche, and Miss C. Holden, the last three named appointed by the president.

The Club, as a whole, then discussed the plans for the year and a program has been decided upon. Several plays in French will be presented for the members of the club, the members themselves taking part. Papers upon matters of interest to French students will be written, read, and discussed by the members. There will be music, and the singing of French songs. And such other social activities as dancing will be participated in. Special features are also planned and will be announced later.

It was decided to hold the meetings of the club once a month, on a Monday evening starting at 8 o'clock, and at the Vermonters Club house. Next week the program committee will meet to make plans for the next meeting which will be held on November 21.

Professor Jacobs delivered a lecture on "Hawaiian Days" before the Science Club of Dorset on Friday, October 29.

DYCKHUISEN ADDRESSES PHILOSOPHERS' SOCIETY

The John Dewey Club of Philosophy and Psychology met in Памеlot evening, the first of November at the Vermonters' Club house. After the regular business meeting Professor George Dyckhuisen of the Philosophy department delivered a very interesting talk on "The Aims and Ideals of Science." After touching lightly on the history of scientific thought, Professor Dyckhuisen explained in detail to the club the methods and the philosophy of modern science.

That the scientist of today merely seeks to explain the world as apprehended by the experience of man, and leaves the hypothetical absolute world of former scientists to the metaphysician was the main theme of Professor Dyckhuisen's talk. After a discussion by members of the society, the meeting was closed.

On Tuesday, the fifteenth of November, Professor Perkins will address the club on "Environment and Heredity from the Eugenist Point of View."

LARGE AUDIENCE HEARS BURTON HOLMES SPEAK ABOUT IMMORTAL ROME

Illustrated Lecture by Master Traveller Proves of Unique Interest to Attentive Students

Burton Holmes, master traveller and lecturer, paid Burlington the honor of a visit last Tuesday evening, November 1. The University gymnasium filled with one of the most attentive audiences yet assembled here.

Rome is truly "Immortal" as Mr. Holmes portrayed it. Thrown upon the improvised screen at the forward end of the gymnasium were choice scenes from the ancient city.

Travelling with Mr. Holmes, the audience left New York City on the SS Leviathan, arrived at Cherbourg, took the train to Paris, and from there embarked on the Midnight Express to Rome, "the only great city of antiquity that is still great."

In Rome were visited those ancient cathedrals of Saint Peter, "the climax of christian architecture in the City of the Caesars," and Saint Angelo. The gruesome Crypt of Cappuchini, "built from the bones of Christian martyrs," held the audience fascinated. Famous fountains, and the sacred stairway of Scala Santa Anna, the steps of which came from the house of Pontius Pilate, and up which the Christ walked to the judgment of man were only a few of the places explored by this world wide traveler. The Vatican, great Papal residence began by Michael Angelo and completed by De La Porta, proved a magnificent piece of architecture still to be wondered at in this day of Paramount Theatres and Woolworth Buildings.

ANNUAL MILITARY BALL TO BE HELD THURSDAY

Scabbard and Blade Society will hold their annual Military Ball in the University Gymnasium the night of November 10th. This is the first formal dance to be held before Christmas. Those attending are requested to either appear in their uniforms or in tuxedos. This is also of importance to the freshmen as it is possible for them to appear in their uniforms.

The Scabbard and Blade Society, under the guidance of Robert Whitcomb, chairman, have charge of the dance and have obtained the Algonquin Club Orchestra for the evening. Clever decorations have been obtained in the form of foreign flags and University banners. The following chaperons from the military department have been obtained for the occasion: Major Stanley, Colonel Black, Captain Rattan, and Lieutenant Frederick. Dancing starts promptly at 8:30.

Names for the new literary magazine should be left in the Cynic box in the Old Mill corridor. A prize of one dollar in cash or a subscription will be awarded the winning name. The contest closes Saturday, November 12.

CATAMOUNTS IN GOOD CONDITION FOR BATTLE WITH PURPLE ELEVEN

Green and Gold Gridsters to Take on Strong Sabrinas' Team at Amherst, Saturday—Jack Smith Again in Vermont Line-up

The Catamounts journey to Amherst this week end to clash with the strong Amherst eleven. The Sabrinas have a strong team this season as was shown last Saturday when they defeated M A C to the tune of 20-0. The Purple gridmen have a strong aerial attack with Wilson throwing them and Walker on the receiving end. They have a strong line and a flashy backfield with plenty of interference and hard tackling. Amherst boasts of having one of the strongest elevens this year that it has had for quite some time.

"STEVE" ESTABROOK

Swift member of the backfield who has opened much yardage on the new lateral pass

In Walker the Purple has a dangerous man who is a fine placement kicker receiver of passes and defensive man. Wilson is the Sabrinas' heady quarterback and a great deliverer of passes, besides being their best broken field runner. Miller, the tall, rangy left guard of the Amherst eleven is the outstanding man of the line. He is a hard man to hold and stop from breaking thru to tackle his opponent's backs for a loss.

Vermont made rather a poor showing against Norwich Saturday but are out to redeem themselves. All the team is in fine shape but Damon who will be out of the Amherst game with an injured foot. A few of the men have bruised legs but otherwise the team is out to bring home a second victory. Capt. Smith is not quite back to his old form but by Saturday he ought to be much better and should start the game. It was his presence in the Cadet game that started the Catamounts drive in the last part of the first half. It has been commented that if Smith had started the game the result of the fray might have been much different.

Wink Winchenbach will be at his position of tackle and will no doubt be the main cog of the line. This is Winchenbach's last year of football at Vermont and he has been one of the outstanding men in football during his four years on the Green and Gold gridiron. Tiny Kropper will be at one of the guard positions and he holds the hopes of Vermont very much in his own hands as it is "Tiny" who has been playing the best football these last few games. Burstein will probably take Damon's place at left tackle. Steele will be at his old berth, the right wing and either Palmer or Robinson at the side of the line. O'Keefe will be pressing them back as usual. Frank has taken quite a beating at center this year against much heavier opponents but he will always be found in there fighting.

The backfield will be a toss up and will probably not be known until the cats step on the field for the opening whistle. Conway will probably be at quarter with Scutakes, Estabrook, Mace, Macomber an Goerson fighting for the two halfbacks positions. Smith

KAPPA ALPHA THETA

The engagement of Miss Mildred Chapin '21 to Mr. F. W. Mudgett was recently announced at a dinner party given by Mrs. Walter Bigelow. Miss Chapin is a patron at the University and Mr. Mudgett is connected with the Fidelity Life Insurance Company.

DELTA DELTA DELTA

Miss Mary Chapin, the National Secretary, visited Eta chapter on Wednesday and Thursday of this week.

ALPHA XI DELTA

Announcements have been received by Alpha Xi Delta and Phi Mu Delta of the marriage of Ruth Eayres and Ellis Moody, both of the class of 1927. They will live at 8633 89th St., Bambury Apartment, Woodhaven, Long Island.

KAPPA DELTA

A bridge party was held at the chapter rooms on Thursday evening.

JUNIORS BEAT SOPH VOLLEY BALL TEAM

The Juniors defeated the Sophomores 15-4, 15-1 on the volley ball court as a feature of the W. A. A. Rally on Wednesday. The game was rather one-sided, the greater experience and longer practice of the Juniors doing much to give them the victory. For 1929, Bassett and Klein were outstanding while Peabody and Wilder played well for the losers. The line-up follows:

1929—Cottrell, Bassett, Everest, Klein, Wheatley, L. Smith, Corbin, Haskins.

1930 Croftan, Tift, Wells, Peters, Peabody, Keyes, Miller, Wilder.

President Hopkins of Dartmouth has announced the gift to the college of a chime of bells to be placed in the tower of the new $1,000,000 liberary, which is nearing completion and will be dedicated next spring. The amount of the gift for this purpose is $40,000, but the name of the donor is not announced except that he is a graduate of the college

How will your office look?
Not like this, of course

Yet you will find in it a dozen jobs that can be done more quickly and effectively by electricity—and done so quietly as to be practically unnoticed. In fact, electricity has completely revolutionized many office methods.
YOUR FATHER probably will recall the days of high stools, eyeshades, and evenings overtime.
• • •
But visit a modern office! A thousand letters to go out by four o'clock. A new price list to all customers in to-night's mail, without fail. Enter electricity. Two or three people turn switches, and the finished letters come out of an ingenious machine. Another motion and they are sealed and stamped. Only electricity could get that job done.
• • •
Here's a statistical job. The reports are in; thousands of figures to analyze. Looks like overtime for fifty clerks. "Certainly not," answers electricity, as a button starts the motor-driven sorters and tabulators. Key cards are punched with lightning fingers. Electric sorters devour 24,000 cards an hour. Tabulators add quantities and amounts in jig time, and print the totals.
• • •
Go to almost any bank today. Hand in your account book. Click, click, click, goes the electric book-keeping machine and back comes the book to you. Five operations performed in that brief moment. Everybody saves time,—you, the clerk, the bank,—when electricity is the book-keeper.
• • •
In the office of to-morrow you will find "electrical fingers" doing more work than even to-day.
TO-DAY in a modern office you will find these electrical aids:
Addressing Machines; Dictating Machines; Adding Machines; Multigraphs; Check-writers; Calculating Machines; Cash Registers; Interior Telephones; Card Recorders; Card Sorters; Time Recorders; Accounting Machines; Time Stamps; Clocks; Mailing Machines; Typewriters; Fans; MAZDA Lamps, and many other electric devices.
This familiar mark appears on many electrical products, including motors that drive time- and labor-saving office machines.

You'll like P.A.— and how!

OPEN a tidy red tin of Prince Albert and give your olfactory nerve a treat. Never have you met an aroma that had so much come-and-get-it. Some fragrance, Fellows. And that's just a starter. Load up and light up. . . .

Cool as final exams. Sweet as passing. Mild as *cafe au lait* — mild, but with that rich, full-bodied flavor that bangs your smoke-gong right on the nose on every fire-up. You'll like this long-burning Prince Albert in the bowl of a pipe. And how!

One of the first things you notice about P. A. is that it never bites your tongue or parches your throat, no matter how wide you open the smoke-throttle. It is one tobacco that never wears out its welcome. You can stoke and smoke to your heart's content, with P. A. for packing. Get some Prince Albert now and get going!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

PRINCE ALBERT

SOPHOMORE VIGILANTES CHASTISE UNRULY FROSH

Gold Key added another paddling party to its list with a meeting at the Phi Delta Theta house, Thursday evening at 7:30. A discussion of the attitude of the Frosh was taken up and the society has resolved to take drastic measures against any Frosh found not obeying the rules. The society has been letting the Frosh off easy, perhaps due to the rushing and other activities which have taken up most of the Freshmen's time, and the members of the Gold Key themselves. But the society has taken a cynical view toward the Frosh and they are planning to use all the paddles which were left over from those that they bought at the beginning of the year. The society started to carry out this plan at the meeting Thursday night, giving the Frosh a warm reception.

SOPHS TREAT FRESHMEN TO ANNUAL JUDGMENT FOR PREVIOUS SINS

The class of 1930 conducted a clinic for the Freshman women Saturday evening in the Medical Building. About 15 freshmen were brought before the assembly for various misdemeanors. Estabel Perelman was judge of the occasion, assisted by nine efficient black robed jury members. Clever punishments were inflicted and strange sentences imposed.

The class of 1931, as a whole, showed good spirit and took its medicine cheerfully, although the sophomores insisted that the clinic was one for incurables. Hall A of the Medical Building was overflowing with members of all classes.

MORE INTEREST TAKEN IN DEBATING OWING TO EFFORTS OF MOORE

Sophomore-Freshman Debate to Take Place Soon—Women to Have a Varsity Team This Year

Debating at the University is again coming to the front among campus activities. A meeting was held on Tuesday of Freshmen and Sophomores interested in the annual interclass debate, for the H. Albon Bailey Cup. Mr. Moore hopes that more men of the two lower classes will attend the second meeting, to be held tomorrow (Wednesday) in the Old Mill Chapel at four o'clock. A call has also been sent out for women interested in varsity debating. Since it is possible that arrangements can be completed for an intercollegiate women's debate before Christmas, the co-eds' interclass debate may not come until later. The men's varsity will organize sometime before Christmas, but will probably not meet any other colleges until after the holidays.

The question of the Sophomore-Freshman debate is: Radio in the American home is a failure. Mr. Moore is considering trying out the Oregon System of Debating in this lower class encounter. In that plan the first affirmative speaker presents in a fifteen minute speech the entire case of the affirmative, and then the first negative speaker does the same for his side. The first affirmative man then returns to the platform, and is cross questioned by the second negative speaker. The chairman judges the relevancy of the questions, and the definiteness of the answers. The first representative of the negative next undergoes a similar cross questioning at the hands of his opponent, the second affirmative. Finally, the second speaker on each side, negative first, is given ten minutes to summarize his arguments and refute those of his opponents. The plan has never been tried at Vermont, but has been successfully employed in the West.

Professor Moore is negotiating with Bates, Middlebury, the University of Maine, West Virginia, Norwich, M. A. C., and Yale for varsity debates. He hopes to secure both men's and women's engagements with the first two. One of the propositions under consideration is "Resolved, that there should be official censorship (state and

MISS TERRILL SPEAKS ON VERMONT TRADITIONS AT CO-ED MASS MEETING

Katherine Bassett is Chosen to Represent Vermont at Convention of Student Unions Held at Smith College

Although the first Student Union meeting of the year was held Thursday afternoon in the height of the deluge of rain, it was well attended, the Freshmen being especially prominent in numbers. Alma Batten, '28, presided. Katherine Bassett '29, vice president of Student Union, was chosen as delegate to represent Vermont at the Women's Intercollegiate Union Conference, which is to be held at Smith College in Northampton, Mass., November 10-12.

Miss Terrill, Dean of the Home Economics department, gave a most entertaining and valuable talk. Her subject was, "Traditions of Vermont." She told many interesting and amusing incidents connected with her experiences here in the first decade of the century. She pointed out the change from the cold spiritless atmosphere in which the Coeds of former days lived to the modern spirit towards co-education.

Following Miss Terrill's talk, Doris Kibbe led in the singing of Vermont songs.

NEW BLUESTOCKINGS ELECTED TOMORROW

About thirty-five papers have been received from competitions for membership in Bluestockings. From that number, not more than twelve or fourteen will be accepted. All the papers are to be read by committees and the best will be selected for approval or rejection by the Club. Margaret Corbin and Janice Goodrich will read the poems, Katherine Bassett and Rachel Skinner the essays, and Dorothy Strong and Merta Munro the short stories.

The next meeting of Bluestockings, at which time the best papers will be voted upon, is to be at the Theta house Wednesday evening, November 9, at eight o'clock.

HARVARD MAN PREFERS AN A TO MANAGERSHIP

Cambridge, Mass. (By New Student Service.) If a cyclone had taken its course through the Harvard campus, it could not have caused more consternation, wonderment, and gasping than did the recent resignation of the Harvard football manager. Let to choose between the glory of an "H" in task that is one of the most cherished in Cambridge, and an "A" in his studies, the student turned to the "A". Harvard found it hard to believe that a man with his hand on the glory that is granted but to few should renounce his opportunity. Some of the students snickered and muttered something about lack of spirit. But there were others who hailed the act as a much-needed victory for scholarship. The *Harvard Crimson* believes the trend is away from over-emphasis on extra scholastic activities, and hails the resignation as a victory for the cause of learning. It believes that the manager is free from "any stigma of disloyalty" that would have been charged to him had he cast his lot with scholarship a few years ago.

(By New Student Service) All great intellectuals are reputed to find relation in pastimes queer and quaint. Some munch peanuts, while others jump over chairs. Williams students find diversion in the popular magazines, according to a survey of *The Record*. *Saturday Evening Post* and *Cosmopolitan* lead, with the other outcasts from the quality group tagging along. Both groups are avoided by the collegians, who steer a safe moddle course on writing that will wear out neither brains nor morals.

The University of Pittsburgh has for many years followed the cooperative plan in its school of Engineering and has now extended this principle to the graduate work. Westinghouse engineers receive resident University credits for work done within industry.

CO-EDS WILL ROMP AT GYM DURING "PLAY DAY"

As soon as a convenient day can be found, "Play Day," the mention of which provoked much interest at the rally last Wednesday afternoon, will take place in the gymnasium. It is, as the name implies, a romp. A middy and bloomer romp for every girl in college.

The W. A. A. leaders plan games and relays, exercises, dancing and such attractions as obstacle races and track meet, with the different classes participating. A great deal of excitment was caused by the announcement that if Play Day accomplishes its purpose here, an invitation will be extended to Middlebury girls to join with Vermont girls in an intercollegiate "Play Day" sometime in the spring.

CIVIL WAR COLLECTION AT BILLINGS LIBRARY CONTAINS 3,000 BOOKS

Collection, Donated by Rush C. Hawkins, Ranks Second in Size and Importance to Volumes at Princeton University

The Billings Library is indeed fortunate in having the second best collection of Civil War records, books and pamphlets, the best collection being owned by Princeton University. The Rush C. Hawkins Civil War Collection contains approximately three thousand books which are in the Hawkins Room, or Civil War Room, directly over the main office of the library. The volumes are unique in that there are complete records of the South as well as the North. Campaign and regimental history is given in fullest details accompanied by the War Department records. Another very interesting feature in the collection is a framed program of Ford's Theatre on the night that President Lincoln was assassinated by Booth. General Hawkins, a Vermont State man, donated the collection to the University in order that more people would familiarize themselves with the history of the Civil War.

General Rush C. Hawkins was born, September 14, 1831, in Pomfret, Vt., of a family who had been famous in previous military activities. General Hawkins attended a small grade school and later attended, for a short time only, Norwich Military Academy but it is said that most of his military instincts came from his ancestors. He entered the service first against Mexico but apparently lacked the ability and was discharged. At the start of the Civil War, he organized the Hawkins Zouaves, of which regiment he became Colonel and was himself a rider. For his activities and bravery in the war he was recognized by the government and made a General. General Hawkins was endowed with a marvelous knowledge of culture, fine arts, and wood engraving. He also wrote several books himself, several of which are on the library shelves. General Hawkins also studied law and was admitted as a lawyer immediately following his Mexican service.

Visitors and students are invited to visit the Hawkins room to view the collection at any time.

COMMITTEE PLANS FOR A GOOD FOOTBALL HOP

A meeting of the Football Hop Committee was called at the Campus House last Thursday evening by the chairman, Philip Manning, '30. It is putting forth its best efforts to make the Football Hop one of the best social functions of the year. The price was set at 75 cents per couple and the date is December 2.

Sub committees were appointed for the music, decorations, advertising and programs. The music committee is planning to secure one of the best orchestras in the state. The sub committees will hold a meeting at the Campus House next Thursday evening at seven-thirty.

This is also good dope for us at Vermont, and one and all should back the team to the limit.

"The freshman rules rightly interpreted, are a means to the promotion of goodfellowship, patriotism, and the enthusiasm that wins."

The University Daily Kansan

KITTENS FINISH MOST SUCCESSFUL SEASON BY DEFEATING CLARKSON

Yearlings Score in the First Half but are Held by Potsdamite Frosh in Last two Periods

The Catamount Frosh wound up the most successful season in the history of Vermont freshman teams by defeating the Clarkson Tech Plebes Saturday afternoon at Centennial Field 13 to 0. The game was interesting and close at all times.

Clarkson had an off tackle play that couldn't be stopped. The Tech boys would march down the field time and again only to be held for downs, have a pass intercepted or fumble when within scoring distance. Near the end of the first half Delaware, who caught a pass for Clarkson, had one Vermont man, Tellier, between him and the final stripe. It was up to Tellier to prevent a sure touchdown and the clever Vermont halfback came through making one of the most sensational tackles seen at Centennial Field this season. The ball was downed on the one-yard line. Clarkson did not gain on the first down and then the whistle blew for the end of the half. It was a hard blow for the Potsdamites but it didn't seem to take any of their fighting spirit away. In the second half they were fighting like a winning team. The outstanding Clarkson man was Captain Mink. He played left tackle on the defense and in the backfield on the offense. Mink is a 190 pound speed merchant. His ball carrying through the line, off tackle, and around the ends was excellent. His punts were high and sailed from 40 to 50 yards. Delaware also played well.

Typical of the playing of Mitchell of last year's Kittens was Tellier's work. He averaged about ten yards on every plunge, and there seemed to be no end to his speed. His cutting around the ends, pivoting in off-tackle plays, speed through the line and ability to catch passes were menaces to the New York Staters. As a defensive player he was the shining light, and without a doubt, the best man on the field Saturday. His tackle on the one-yard line was a "hair-raiser."

In the Vermont line Segal excelled. Playing right end he was up against Coursey, a strong rangy boy, and Mink. It was a tough assignment, but Segal put up a plucky game. He was the first down under punts, and broke through the Clarkson line several times, throwing the ball carrier for large losses. He also made a valuable recovery of a fumble. It was Segal's second game as a regular for the Kittens, but his lack of experience didn't hinder him in the least.

Watkins and Allan were also leading factors in the victory. Allan displayed some fine broken field running in the first quarter. His passing was also good. Watkins, the leading scorer for the season, was in almost every play, interfering, carrying the ball, or tackling.

First Quarter

Watkins received the kick off for Vermont and returned the ball to the Clarkson 23-yard line. Clarkson recovered a fumble. Segal threw Mink for a loss, so Clarkson punted. Allan ran the punt back to midfield. Tellier made 20 yards off tackle and Allan made 3 through the line. A criss-cross, Watkins to Allan netted 3 yards and Watkins crossed the line after an 18-yard run. Allan's dropkick was blocked. Watkins kicked off. Clarkson couldn't gain so Mink kicked. Allan dropped the punt which hit his foot and went out at the Vermont 17-yard line. Tellier made first down in two rushes. Watkins gained 7 yards and Allan make first down. Heaton was a few inches short of another first down on the next play and Watkins made the inches. Vermont could gain no more so Allan punted. The ball went out-side at midfield. Segal recovered a fumble.

Second Quarter

After an incompleted forward pass Allan punted. Clarkson made 15 yards on a pass and ten yards off tackle. Scutaro recovered a fumble for the Kittens. Allan punted. Mink returned the punt to Allan who dropped the ball. Watkins recovered and gained ten yards. Tellier and Watkins made three first downs on a series of rushes. A criss-cross, Watkins to Allan placed

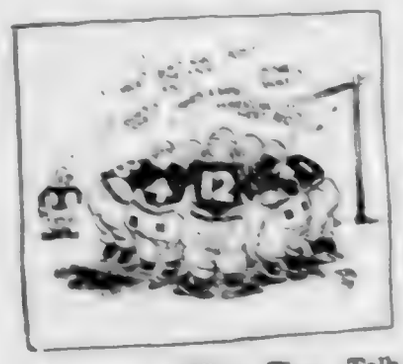
THE BEST COMEDY IN AMERICA

Copyrighted, 1927, by The Collegiate World Publishing Co. (College Humor) Through Bell Syndicate.



Curious Pedestrian: On what floor of this tenement does Mrs. Shanahan live, my little man?
Guide (aged four): The third fight up.
—California Pelican.

"When Bill was haled into court for speeding he offered the judge a five cent cigar."
"Well, what about it?"
"In passing sentence, the judge took both crimes into consideration."
—Wet Hen.

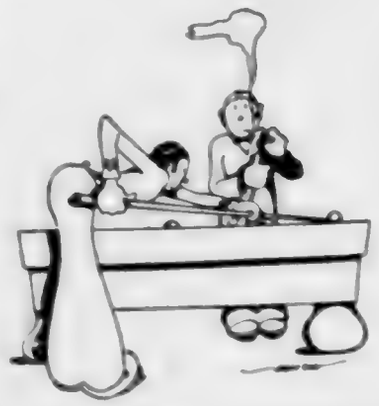
Counterfeiter: I said that dollar was good and I mint it.
—Ollapod.

Ann was certainly a smart girl—she started out with Nichols and now she's a millionaire.
—Ann Rummer Jammer.

Probably What They Talk About in the "Huddle."
—Michigan Gargoyle.

We simply must tell another Scotch story. It seems that there was a Scotchman walking down Main Street the other day looking for a cheap post office.
—Boston Beanpot.

"When was the radio first operated in America?"
"When Paul Revere broadcast on one plug."
—Denison Flamingo.



Talk about some fast acting! You should see a Hawaiian dancer with her grass skirt on fire.
—Centre Colonel.

Housewife: I don't feed tramps.
Tramp: Well I didn't ask you to feed me. Give me the grub and I'll feed myself.
—Wet Hen.

"What was the name of the hotel you stopped at in Denver, dear?"
"Oh, I can't remember the name. Just a second and I'll look through my towels."
—Tawney Kat.

Pat was taking Professor Jones down the river in a rowboat.
"Pat," said the professor, "have you ever studied zoölogy?"
"No," said Pat, "I don't know nothing about it."
"Why, you've missed half your life," was the reply. Then, a little later, "Do you know anything about biology?"
"Nope," grunted Pat.
"Well, you've missed half your life," replied the professor.
Just then the boat hit a snag and upset.
"Help," sputtered the professor.
"Hey, Professor," yelled Pat, "do ye know anything about swimminology?"
"No," gasped the professor.
"Then in a few moments you're gonna miss your *whole life*," cried Pat, as he struck out for the shore.
Denison Flamingo.

Offspring: Mamma, what is a cave man?
Mother (in the throes of learning contract bridge): The king of clubs.
—Wesleyan Wasp.

Another Delt: I see that you are raising a mustache, Bill.
Bill: Who told you so?
—Iowa Frivol.

First Drunk: Veh, I give m'wife twenty.
Second Drunk: Washa dif? I give my wife all m'money, too.
—Colgate Banter.

Toff: And who, might I ask, was the wench I saw you with last evening?
Off: That wasn't no wench; that was a hammer.
—Ohio State Sun Dial.

Little Boy: What is green and purple, has four legs, and flies through the air and sings?
Old Lady: Why, I don't know. What is it?
Little Boy: Oh, I ain't made up the name yet.
—Denison Flamingo.

You're only young once, but if you work it right, once is enough.
—Ollapod.

Most of the girls now have imprompte complexions. They make them up as they go along.
—Wesleyan Wasp.

Judge: How can you prove your innocence?
Prisoner: Give me time.
Judge: Ten years
—Pennsylvania Punch Bowl.

You knew he was a polished gentleman, he was such a rounder.
—Tawney Kat.

"Why would a college man kill himself?"
"Oh, lots of reasons. Women and wine among other things."
"And if he had none of those?"
"Still more reason why he should."
—Cornell Widow.

First Knight: How now, Sir Aggravate, wouldst call yonder knave cross-eyed?
Twelfth Knight: Forsooth, fair sir, cross-eyed indeed. Yon knave once spent weeks in Florida looking for the Northwest Mounted Police.
—Kansas Sour Owl.

Go West, young man, go West—and die young.
—Pennsylvania Punch Bowl.

Old Lady (at ball game): Why do they call that a fowl? I don't see no feathers.
O'Riley: No, ma'm. It's a picked nine.
—Drexerd.

"Where have I seen you before?"
"Where have you been?"
—Webfoot.

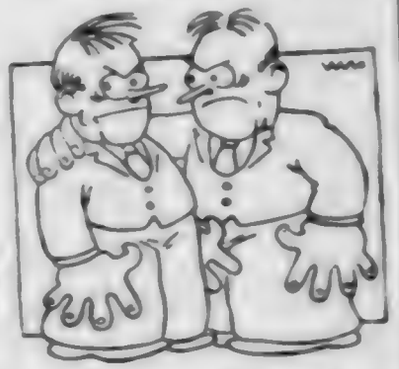
"Do you care for horses?"
"No, I wait on tables."
—Westminstrel

Jack: Don't you enjoy flying?
Jill: No, there's so few people to pass.
—Cornell Widow.

"Does his mind ever wander?"
"Well, not aimlessly. It always goes directly away."
—U. of S. Calif. Wampus.

Rinques: Your son goes to Princeton, doesn't he?
Jinques: No; he is matriculated at Princeton but goes to New York City.
—C. C. N. Y. Mercury.

Two business men were discussing a competitor who, since had been an employee of the latter of the two men.
"I happen to know that fellow is a sharper and not above lying or stealing when it's to his advantage," remarked the other man.
"Do you know him personally?"
"Know him? Say I taught him everything he know."
—Tawney Kat.



Fohtsman's Note: You can't fool all of the people all of the time, a circumstance at a prosperity will attain the highest ebb.
—Cornell Widow.

The new automobiles are getting in on a variety of colors but the pedestrians will still have to be content with black and blue.
—Wet Hen.

"You're a man after my own heart," said the pugilist as he knocked cocky Thompson's block off.
—Screws.

Stella: When I get married I'm going to live next door to a hospital.
Bella: What's the big idea?
Stella: For convenience' sake—that is, in any disagreement I have when shopping, will get a free ride to my very door.
—Reserve Red Cat.

How many beans in a quartet?
—Williams Purple Cow.

"You can't get naughty magazines in some towns I know of."
"Won't let 'em sell 'em, eh?"
"No, they're sold out!"
—Goslin.

cessful debating season. Vermont, ... with sides of the question of ... cancellation of the war debts of ... from Middlebury, Tufts, and St. Lawrence by a score of 3-0, ... M. A. C., Waynesburg, and M. I. T. by a 2-1 vote of the judges. The only defeat came at the hands of St. Michael's who were given two votes to Vermont's one. The women, debating the question of uniform marriage and divorce laws, defeated their Middlebury rivals, 3-0.

Peter ... Leavens, Hince, Sears, and Macomber, and four women, the Misses Kone, Freeman, Goodrich, and Klein, all of whom saw service in intercollegiate debates last year, have returned and will form a working nucleus for this season. Since the intention is to use several questions this year, there is plenty of opportunity for more candidates.

BLUESTOCKINGS GIRLS MEET WEDNESDAY EVE

A meeting of Bluestockings is called for November 9th. It will meet at eight o'clock at the Kappa Alpha Theta House. The papers handed in during the contest for membership will be criticized and reports on those papers will be given by the committee. Changes in the year's program will be discussed and there will be the election of new members.

This meeting has been changed from Thursday, November 10 on account of the Military Ball.

Teacher: Johnny, who were your forefathers?

Johnny: Teacher, I haven't got four fathers, but only one father.

CURRENT PROBLEMS OF ENGINEERS CONSIDERED

The A. S. M. E. held its second meeting of the year Saturday at the Engineering Building. Irwin Hoxie '28, gave a talk on "The Diesel Engine in the Locomotive". Burton R. Morse '29, reported on "The Purification of Steam Locomotive Feed Water" After each of the reports the meeting was open to discussion

At the next meeting November 19 Ralph T. Davis '29, and Rex Morse '28, are to give reports, the topics of which have not yet been chosen.

"BEAT MIDDLEBURY" IS SENTIMENT OF CROWD ATTENDING PEP RALLY

Key and Serpent Smoker Well Attended Before the Last Home Game of Season with Midd.

Several hundred Vermont men attended the "pep" smoker Wednesday night, held in the Gym by the Key and Snake Society. When it was discovered that the game was to be played, it was too late to secure the band, but what was lost in music was made up in noise.

Professor Tupper opened the smoker by relating a few incidents of sporting life in former years. He remarked on the cheering of the modern student body and compared it with the fighting crowds of former years.

Doctor Aldinger, the Dean of Athletics at Vermont, took the platform next, and told how, although many obstacles were in the way, Middlebury and Vermont were to face each other Saturday and the proceeds were to be turned over to people suffering from the flood.

President Butterfield of the Freshman class was given a "rousing" applause, when it was his turn to speak.

"Guinea" Gooch told the student body of days past when Middlebury was outclassed, how they fought and how he expected them to fight again Saturday. He advised the students to root harder than ever before at the coming contest.

Coach Dresser reviewed the history of the football situation since Coach McAvoy and he had come to Vermont. He showed how a machine was being built and how this season the team has made a better showing than ever before.

Coach McAvoy feels that we should win with Middlebury and expects that the whole team will fight, if the student body is behind them.

Captain Smith terminated the list of speakers with an appeal to the student body for more support. Although there were fewer present at the smoker than at other "pep" rallies, the cheering was better than usual.

Following the speaking, refreshments consisting of cider and doughnuts were furnished in the cage by Key and Serpent. Smokes were given by L. P. Wood

GOLD KEY HOLDS COURT FOR NAUGHTY FRESHMEN

Gold Key society has made good its threat about punishing unruly Frosh when it held another meeting at the Kappa Sigma house. Tuesday night at 7:30. A goodly crowd of Frosh showed up before the supreme court to receive the judges' decision. Several very good paddles were shattered into bits of kindling wood. But they were not satisfied in warming up the Freshmen. Some of the Frosh who were considered very disobedient were ordered to wear sandwich cards, advertising the Middlebury game on one side and stating why they were made to wear placards on the other. By the looks on the campus, it seems that some of the Frosh were just going through the process of hazing

The society has also made plans to help at the game Saturday. Some were appointed traffic cops and others, toll collectors. They also appointed a committee to see about having a dance in the near future since the society had to postpone the last one.

SCRUBS FOR LITERARY MAGAZINE

Sophomores wishing to scrub the business side of the literary magazine are requested to meet the manager in English office—Old Mill, 4:00 P. M., Monday, November 14.

ROBERT WHITCOMB
Chairman of the Annual Military Ball, Given by Scabbard and Blade.

DRAMATIC SOCIETIES TO GIVE "LADY WINDERMERE'S FAN" NEXT MONTH

Final Tryouts Held Tuesday Determine Who Will Take Part in the Comedy by Oscar Wilde

The college play, to be given early in December by the two honorary dramatic societies, Wig and Buskin, and Masque and Sandal, has been chosen It was decided several days ago with the advice of Mrs. C Ives Taggart to present Oscar Wilde's four act comedy, "Lady Windermere's Fan" Since then work on the play has advanced rapidly The preliminary tryouts were held on Thursday afternoon, November 3, in 3 North College, the secondary tryouts on Monday afternoon, November 7 and the finals on Tuesday afternoon, November 8. Aiding Mrs Taggart in judging those trying out as to figure, enunciation, carrying power of the voice, and expression were Professors Tupper and Aiken of the English Department. The list of those successful will be posted on the bulletin boards soon.

"Lady Windermere's Fan" was written in 1890 by Oscar Wilde, the famous Irish poet and dramatist It was first presented in a London Theatre in 1891 and published in 1892. As a comedy it is noted for its insolence of dialogue and sparkling, characteristics of other of his important comedies such as "A Woman of No Importance;" "An Ideal Husband;" "The Importance of Being Earnest."

The setting of the play is as to time in the present and as to place, in London, England. The action takes place within a comparatively short time, twenty-four hours There is but one scene for each act, and but three different scenes in all, the first and last being the same. The characters are representatives of the higher society in London being mostly among the titled nobility.

In brief, the story of the play is based upon the unknown character of a certain Mrs Erlynne whose past is a mystery. Lady Windermere is much distressed over the reports that her husband spends much of his time and money on this "vicious woman" She leaves the Lord who is really greatly devoted to her thinking his association sufficient grounds for separation. Mrs Erlynne finding out about the unhappiness she has caused persuades Lady Windermere to go back to her husband while she literally covers up the mistakes of Lady Windermere

She does these motherly acts for Lady Windermere because she is really her mother She had made the mistake and left a devoted husband in her time and did not wish to see her daughter repeat. Because of these thoughtful acts Lady Windermere changes her mind and finds Mrs Erlynne quite charming On threat to make their life miserable by degrading herself more if the Lord reveals her true identity. Finally Mrs. Erlynne marries one of their set, a certain Lord Augustus, and goes abroad leaving Lord and Lady Windermere in peace and more devoted to each other than ever before

The cast of the play, as chosen by the judges, is as follows

Lord Windermere, B. Gustafson; Lord Darlington, J. Van Name; Lord Lorton, Krogh; Mr Cecil Graham, Garfield; Mr. Bundy, W. Hall; Mr. Hopper, W Safford the butler, L. Clayton. The women's parts will be taken by the following: Lady Winder-

MANY OPPORTUNITIES AT Y FOR STUDENT WORK

At the employment bureau in the Y M. C. A., office in the Old Mill, there are on record a score or more of opportunities for students to earn money in spare time through selling and agency connections. There are opportunities for both men and women Among the requests on file are some very attractive propositions one for instance, makes possible to successful workers a Scholarship Tour of Europe Any of the propositions means money to energetic students. All those who are interested are asked to inquire at the Y. M. C. A. office.

FIRST CALL FOR RIFLE CANDIDATES THIS MONTH

Layouts for the Rifle Team will be held within three weeks, according to plans formulated by the military department. A schedule is being arranged and will be made public in the near future. In the Hearst trophy contest of last year, competing against 99 others, Vermont ranked tenth an obviously laudable rating. Furthermore A. R Hill of Vermont was judged to be the third best rifle marksman in all United States schools. With such remarkable material we stood very high at the end of the season and averaged about 700 per cent in total number of wins.

The freshmen will start indoor range practice next Monday, achieving another leg on their march toward becoming real soldiers

The Military Department announces that there will be no formation of the battalion on Armistice Day This will allow those who wish to go home during the day to do so

Band practice will be postponed from Tuesday to Thursday when the regular drill and rehearsal will take place Mr Lechner is undergoing a minor operation and receiving the best wishes from those connected with his work as well as from the general student body

BAND MAY ACCOMPANY TEAM TO SPRINGFIELD

Efforts are being made to arrange to send the University of Vermont Band to Springfield, Mass., to play at the annual Thanksgiving Day football game to be played at that place by Springfield College and the University of Vermont

It will be necessary for a part of the required funds to be raised by the various student organizations if the arrangements are to be successfully completed, as the band has no definite source of revenue other than a fund for ordinary current expenses

The trip to Springfield last year was made possible through the following agencies. Wig and Buskin, Key and Serpent, Scabbard and Blade, the Classes of '27, '28, '29, and '30, Women's Athletic Association, Women's Student Union, Sigma Alpha Chi, Delta Psi, Phi Delta Theta, Zeta Chi, Phi Mu Delta, and Lamba Iota

Letters will be sent to the various student organizations soliciting their aid and the leaders of these organizations will be requested to meet in the near future to discuss the matter

It is hoped that the band will again this year be able to take the trip

PRESS CLUB TO MEET WITH CONSTANS HOLDEN

Because of the rain and of the interest felt by the students in the flood conditions in our vicinity, the Press Club did not meet last Friday as was previously stated but will meet instead on Tuesday afternoon, November 15, at four o'clock at the home of Constans Holden, 257 South Union Street. This will be a combined business and social meeting. Members are reminded of their monthly dues.

NAME FOR LITERARY MAGAZINE

Names for the new literary magazine should be left in the CYNIC box in the Old Mill corridor. A prize of one dollar in cash or a subscription will be awarded the winning name. The contest closes Saturday, November 12.

CATAMOUNTS PLAY FINAL HOME GAME OF SEASON WITH BLACK PANTHERS

Proceeds of Game to be Given to the Red Cross—Student Seats May Be Obtained Saturday Morning in the Old Mill

The annual Vermont Middlebury classic on the gridiron will be played Saturday afternoon as scheduled. All the proceeds will go to the Red Cross Flood Relief Fund to help the needy of those towns less fortunate than Burlington. Students who have not already exchanged student tickets for reserved seats may do so in the Old Mill Chapel Saturday morning. All Burlington will be canvassed in an attempt to sell as many tickets as possible in order to turn over a large amount of money to the Red Cross. It was rumored for a time that the game would be postponed but after a conference between the Presidents and Athletic Directors of both colleges it was agreed to let the game go on and to put the money to good use. A large crowd is expected and there will also be a battle of music between the Vermont R. O. T. C. Band and the Middlebury Band

There is great interest in this game from the athletic side also, as Vermont has to squelch the Black Panther in order to stay in the running for the State title. Then if Middlebury defeats the Cadets Thanksgiving Day there will be a tripple tie for the bunting. If, however, the Soldiers defeat the Blue penant is theirs again for the second consecutive year

As it looks from the outside now this game will probably be played in about two inches of snow. Even the best team is sometimes the worst mud and snow horse so that now it is anybody's game with neither side having the slightest advantage. Both teams are about even on average weights with Middlebury averaging 166 lbs. and the Catamounts average close to 170 lbs. The Catamounts are 5 lbs heavier per man in the line and the backfield's average about the same. Both teams are fast and boast of some hard tacklers. The Black Panther carries the reputation of possessing a fleet of foot backfield with such men as Guaraccia and Henman as ball carriers. Although the Midds have not had such a successful season they are always more dangerous when they have struggled through a poor season. The Catamounts found this out last year when they turned us back to defeat 13-0. Both teams have won only 1 decision this season so far with each having one more contest to play.

Furbush, the Blue's captain and right tackle, is one of the all-around athletes from Middlebury, and also Bedell, their right guard. He is well known here as their star hooputer.

Although weighing only 155 lbs the Black Panther has an able man in Webber at center. He is fast and makes use of his whole weight when he tackles. He has been up against some rugged men this season and has outplayed many who weighed 25 lbs or more than he did. O'Keefe will have his hands full keeping this man down. Golinick is the Blue's best broken field runner and he also pilots the team. He is very light but a hard main cogs in the Kittens' line last year, which he runs. Guaraccia, who is the brother of the famous player at Harvard by that name, is Midd's other bet in the backfield. He is a consistent ground gainer and line plunger and is very seldom thrown for a loss.

The Catamounts are ready to go and all are in readiness to go with the exception of Damon who has a broken ankle.

It is still a battle between Palmer and Robinson for the left wing position and it will not be known who will play until the starting whistle. Burstein will be in Damon's position at left tackle. He was one of the main cogs in the Kittens' line last year, but has been pretty well laid up with injuries this season. Winchenbach will be at his same position at the other tackle. This will be "Wink's" last appearance against the Blue on the gridiron and it is expected he will play a whale of a game Saturday. He is Vermont's best defensive lineman and his absence will leave a wide gap in next year's team.

The big boys "Tiny" Kropper and "Bump" Levine will flank Frank O'Keefe at center. Kropper has been playing brilliant football lately and a great deal is expected from him in

MIDD. TICKETS

Students who have not already exchanged coupons for reserved seats may do so in the Old Mill Saturday morning.

It costs a lot, but Camel must have the best

It is true that Camel is the quality cigarette, but it costs to make it so. To make Camel the favorite that it is costs the choicest crops of Turkish and Domestic tobaccos grown. It requires the expense of a blending that leaves nothing undone in the liberation of tobacco taste and fragrance.

But the fame that Camel has won is worth all the trouble. It has brought modern smokers a new realization of excellence. They are particular and fastidious and they place Camel first.

Your taste will delight itself in these choice tobaccos. Camels get better the more of them you smoke. Their subtle tastes are unfolded by experience. They are always delightfully smooth.

"Have a Camel!"

BLUESTOCKINGS ELECTS TWELVE TO MEMBERSHIP

The following names were added to the roster of Bluestockings society as a result of a meeting Wednesday evening at Theta house, when the papers of the competitors were judged: Dorothy Dailey '30, Marion Everest '29, Lucille Fine '31, Virginia Goodenough '31, Susan Howard '30, Esther Nelson '29, Dorothy Partch '30, Hilda Smith '31, Betty Upton '30, Jean Wappler '31, Julia Waterman '30 and Sara Wescott '31.

The members of Bluestockings who judged the papers report that promising material was found in the general fields of poetry, sketches and essays. The sketches, while not technically short stories, have evidence of style and showed a mastery in the art of phraseology.

Henceforth, oral reports on the new books will be given at meetings by the various club members. The new members will be received into the society Sunday evening, November 27.

Sorority Notes

Kappa Alpha Theta

Mrs. Leon Dean entertained the Senior members of the fraternity at a tea at her home on Tuesday afternoon.

Alpha Xi Delta

The alumnae chapter met Wednesday evening at the rooms and after the meeting joined with the members of the active chapter for entertainment and refreshments.

Alpha Chi Omega

The seniors entertained the active chapter Wednesday evening. A round table discussion was led by the hostesses after which refreshments were served.

CLIFFORD MORSE '30

Dr. Kent and several Senior Medics made a trip to Montpelier to make a survey of existing conditions there. They returned last Monday.

Claire Cayward and Moriarity spent a few days in Waterbury innoculating the inmates of the State Asylum.

Costine, Cayward and Moriarity are now in Montpelier administering vaccine.

Dr. Dalton, secretary of the State Board of Health and a member of the Medical College faculty has general supervision of the attempt to get preventive serums to the various towns in the flooded areas and in general preventive measures to combat disease.

Dr. Dalton states that no reports of the disease have been received at the State Headquarters here, but it is yet too early to look for most kinds of diseases. It will be at least two weeks before typhoid can develop.

Seniors: Adams, Mudgett, Newhall, Samson and Defoe left Burlington Wednesday to work in the towns surrounding Waterbury with vaccine.

Teacher Training students sold tasty sandwiches in the medical building Wednesday. Proceeds went to the Red Cross Flood Relief Fund.

All work done by the Medical College in the flood relief is under the direction of the Red Cross.

NEWS IN BRIEF

Anyone interested in forming a ... a Republican Democratic should speak to Miss Colburn or to Bob Stewart '30. If a sufficiently large class can be obtained, such a course will be started.

Now that rushing and pledging for next Freshmen are to be soon, speedy dating jerkers in the vicinity of fraternity houses.

All the members of the Eligibility Department including the scribe met at 1 South College at 1:15 p. m. on Tuesday, November 5 to discuss the grades of the men and the coming meeting with the representatives of all the fraternities.

Sigma Delta announces the pledging of Austin Bullard '31 of Montpelier.

The officers of the Teacher Training Education Club, Upsilon Tau Alpha are: President, Constance Ellsworth; Vice President, Winifred White; Secretary, Myrtle Watson; Treasurer, Dorothy White.

A meeting of the Home Economics Girls is planned for Wednesday afternoon, November 2.

Individual cuts for the 1929 *Ariel* should be handed in to George James, Arthur Birchard, or Frank Shedd as soon as possible.

All Freshmen in the R. O. T. C. will start rifle marksmanship next Monday morning.

Any Freshman who wishes to know his grade in the psychological examination held during Freshman Week, may find out that grade by inquiring at the psychological laboratory, '32 North College.

The cheer leaders have been practicing daily in the gymnasium in preparation for what will be required of them at the Middlebury-Vermont football game tomorrow afternoon, to get up pep among the student body.

There will be no military formation on Friday, November 11. There will be no classes in recognition of Armistice Day.

Professor Bassett spoke on Greece last Tuesday evening in the Greek room of the Old Mill. He illustrated his speech with new slides which he has just obtained.

Students have been busy receiving and sending mesages over the radio stations of the University. Connections were made with Waterbury early in the week.

The student body has made a petition to President Baily requesting that school be closed for a week in order to let the students assist in the reconstruction of damaged areas.

Hazing may be over but several Frosh women have been seen walking around the campus in rather quaint make-ups.

Kappa Mu Epsilon will hold a meeting next Tuesday evening. The question of intramural athletics in the engineering college will be discussed.

Contrary to campus rumors, classes will be held on Saturday as usual, according to the disicion made at a Faculay Council meeting held Wednesday afternoon.

"Come on, let's go to prayer meeting."

"Naw, I ain't got a clean shirt an' my clothes ain't pressed."

"How about a show?"

"Go on, I'm busted."

"Then how does a date strike you?"

"Sure, I'm on."

—*Denison Flamingo.*

Visitor: Can you tell me if Bill Jones is up in his room?

Frosh: Sorry, there's nobody home on the top floor!

Visitor: Oh, excuse me I'll ask somebody else.

—*The University Daily Kansan*

"GRAHAM MACNAMEE ANNOUNCING"

Radio having been acclaimed as a boon to the world for about five years now, we feel that the time has come for us to add our small paean. There is nothing like radio for bringing football home to the ladies.

We have groaned many a time at the fact that it wasn't at our corner or chrysanthemums, as the case demanded, we have shrieked at the proper moments, groaned at the proper times, given sometimes hazarded a guess. That was a clever play in the huge mud there had been a clever play recently enough for our remark to get by without comment. We have done all these things and usually gotten away with them, by the expedients well known to all ladies who follow the game the expedients of never clapping unless your escort is clapping too of never speculating on the teams chances unless the old grad behind you has just done so (in which case it is fairly safe to repeat his remarks verbatim), and of never, never, never asking questions.

Some playing fields have a very complete and most helpful scoreboard which gives a great deal of information as to whose ball it is, what down how many yards to go, and other items of interest. These scoreboards are of great assistance. With one eye on the board we were then able to remark "Let's see it's the fourth down and it and they must have about eight yards to go." Though we were never quite sure of the difference between the fourth down and the fourth hand such a remark nevertheless sounds very intelligent and no doubt, duly impressed our escort.

Hard though these expedients are, they were until a few years ago the only way for a girl to go to a football game and get away with it. But now, at last, relief is in sight and it is the radio that has brought it. Now the feminine persons who are expected to know something of Podunk's victories and defeats (very useful information in padding out letters to a polite length) can sit in their own living rooms and get all the dope painlessly. (If the true football atmosphere is desired it is perfectly possible to move the loud-speaker into the back yard and sit on the back steps. Be sure to pick the shady side and if you can arrange to have someone sprinkle you occasionally with the hose you will have duplicated everything that Soldier's Field or the Bowl has to offer.) However, with or without these embellishments, one can simply by listening to the emotional Mr. MacNamee, find out more about the game that is being played than most of the people who are watching it know. You are told everything: who took the ball, where he went with it, why, and what happened. You even learn why the penalties are imposed, a thing that no one ever knows except the referee, and even he is sometimes a bit dubious. Besides this the omniscient Mr. MacNamee frequently supplies you with critical surveys of the teams. These bits are very useful and should be carefully noted. For instance, if Mr. MacNamee remarks that Podunk has a strong line but is weak in the back (backfield? Ed.) he does not refer to Podunk's social abilities, neither does he suggest that Dean's Kidney Pills would help that weak back. But whether you understand his allusion or not, by all means remember it. Then when you next write to Tom Snizzle at Podunk insert that remark into your letter. It should make a tremendous impression on Tom and if it doesn't get you a bid to the big game we will be very much surprised.

All in all we feel that the radio has done more for the sex that doesn't understand football than the invention of the permanent wave. And higher praise than that is not possible.

UPSILON TAU ALPHA MEET AT CLUB HOUSE

A large crowd attended the Harvest Party held at the Vermonters' Club House Friday evening. The guests of honor were Prof. and Mrs. Wilson Post and Mrs. Douglas. Miss Hitchcock and Miss Colburn. Various amusing games were played. The party closed with the singing of Chesterfield.

Barbara Brown was chairman of the committee in charge of the affair.

MY LOVER

Her eyes are pools of amber
Large soft, and oh so sweet
Her gaze at me in tender
Whene'er we chance to meet
Her kisses are delicious
They thrill me through and through.
They always make me happy
And cheer me when I'm blue
Our love is never dying
We'll always faithful be
Although she goes with others
She loves no one but me
But though we both love dearly
Our love we ne'er may vow.
For I am just a cowslip,
And she a Jersey cow.

—30

An electric score board costing about $10,000 is flashing the progress of games which are being played in the University of Illinois stadium this fall.

Podunk has a strong line but is weak in the back (backfield? Ed.) he does not refer to Podunk's social abilities, neither does he suggest that Dean's Kidney Pills would help that weak back. But whether you understand his allusion or not, by all means remember it. Then when you next write to Tom Snizzle at Podunk insert that remark into your letter. It should make a tremendous impression on Tom and if it doesn't get you a bid to the big game we will be very much surprised.

All in all we feel that the radio has done more for the sex that doesn't understand football than the invention of the permanent wave. And higher praise than that is not possible.

PHILOLOGICAL BALLAD

Of human frailties we find
In every nation,
The most widespread of any kind
Procrastination

Our wars (our motives) To it now
Is admiration
Inspire them we protest somehow
In our confession

In Queen Jones day anon they say
Moves Like a streak
To us it only can convey
Sometime next week

And presently once right away
Now on the spot
Has come to mean Maybe today
(And maybe not.)

Alas that words must pay such price
Of degradation
Because of that most human vice
Procrastination

The Wetness

THAT TERRIBLE FLOOD!

[illegible] students on the [illegible] campus by the [illegible] Marks

"My dear have you heard about that TERRIBLE flood" isn't it just awful! And the worst part of it is [illegible] I couldn't have a thing to wear to the [illegible] ball"

Not really Anita How TERRIFIC How did it ever happen?

Why don't you see I can't get anything in the closet at all it really scares me to wear dates you know so I wired mother to [illegible] me some little [illegible] Annouk's in New York and of course it didn't get here on time with all the [illegible] are balled up like that and everything!"

"Oh whatever did you do?"

Why I had to wear the one I bought two weeks ago. Can you imagine that? I didn't even have the money to buy one here, the mails so mad and everything!"

"Oh my dear, I know just how you felt It's SO humiliating, isn't it?"

"I should say so; but I was SO relieved that it snowed and so cold because I did have a perfectly stunning fur evening wrap that I have been dying to wear. Oh here comes Stella You know her people were right in the midst of that TERRIBLE flood! Hello Stella, how're the old folks making out?"

"Well, I guess my happy home is down the little stream, all rightie. Wait till I see my old man. Won't I give him the merry ha ha for not building his mansion on the hill the way I wanted him to. Guess he'll listen to his little girl after this!"

"Did you ever think a little rain like that could do so much damage?"

"Little rain, my dear! It rained hard enough to spoil my brand new fifteen dollar pair of satin slippers when I went riding with Jack Thursday nite."

"How awful!"

"Well, I guess I'm lucky, the storm didn't affect me a darned bit, I had the Marmon here at college with me and everything!"

"Oh here comes Tim. I wonder how things are up his way. Hello, Tim, how's your happy home?"

"Well girls, I guess I'm an orphan all rightie. The whole darned family croaked in the washout. If you see Betty, tell her I guess I can't take her to the frat dance to-morrow nite. It really wouldn't look right, don't you know, and besides, of course, I am pretty busted up about it!"

"Oh Tim, Betty will be wild. She has planned on that dance for so long, and you don't know how discouraging it is for a girl to get a whole new outfit and then not get a chance to air it!"

"Gosh I know it's tough. I guess I'm what you'd call an 'orphan of the storm'"

"Tim"

"What?"

"All the girls are just going to go crazy over you after this."

"Yes? How's that?"

"Why don't you know, no worry for the women over the mother-in-law, or family or anything'"

(Chorus of titters—Tim laughs merrily) etc., etc.—ad-infinitum.

COLLEGE HUMOR

"My wife ran the car into the fence the other day and knocked some paint off

KEY AND SERPENT HOP ATTRACTS 100 COUPLES

Over 100 couples attended the first informal dance sponsored by Key and Serpent Society, held at the gymnasium Saturday evening. The dance was given on the night, after Vermont's victory over Middlebury and proved to be a successful affair. The entire Middlebury squad were guests of Key and Serpent.

Frank J. O'Neil was chairman of the committee in charge of the dance which included Bertel Gustafson and Albert Mackay. The entire organization aided in preparing for the dance.

A Middlebury College orchestra, "The Black Panther Serenaders," furnished music. A different arrangement, placed the orchestra in the northern side of the gymnasium. This position appeared favorable for dancing to those attending.

As the hall had been decorated for the Military Ball it was not necessary to furnish distinguishing decorations.

Professor and Mrs. Kidder and Mr. and Mrs. Dean served as chaperones during the evening. At intermission light refreshments, consisting of punch and wafers, were served.

MONEY AND SERVICES GIVEN FLOODED TOWNS BY VERMONT STUDENTS

Over Score of Men Assist in Cleaning Up Bolton—Fraternities Donate Liberally to Red Cross

Many fraternities as well as sororities are helping to swell the flood relief fund now steadily mounting. Like the sororities this donation from the chapter is made by some by giving up the annual house dance which comes off soon or by a general house tax or through an abundant treasury.

President Guy W. Bailey offered the services of the students to the Red Cross Relief Organization here in Burlington, but with stipulation that all calls for student assistance must be by request of Dean J. L. Hills, secretary of the University Council. Furthermore, the students must be under the direction of the Red Cross only.

It was suggested at one time that classes be suspended entirely to permit the students to give their undivided time to the Relief Organization. President Bailey offered to do this if the need was sufficiently urgent, but the Red Cross discouraged the idea stating that as they needed student aid they would call for them.

A score or more students assisted in cleaning up in Bolton, Thursday, November 10. Several more groups were sent out to different sections in need on Armistice Day. Some Senior women aided in rush at the Western Union Office.

The Alumni of the University have strated a relief fund so far the Alumni Association in New York have been the heaviest donors with a sum of $650 and more promised. The College Y. M. C. A. is also on the receiving end of donations from the student body.

JOHN DEWEY CLUB TO HEAR DOCTOR PERKINS

The John Dewey Club of Philosophy and Psychology will meet at the Vermonters' Club tonight at eight o'clock. Professor Harry F. Perkins will address the society on: Environment and Heredity from the Eugenist Point of View.

Dr. Perkins has been associated with the State Eugenic Survey for the past few years, and this year has received a leave of absence from the University in order to be able to devote all of his time to the work. He brings a wealth of interesting facts about the more recent developments in this field. Any student of the University is invited to attend this meeting.

MEN STUDENT RELIEF WORKERS GIVEN HELP BY FACULTY MEMBERS

Administration Agrees to Aid All Men Missing Classes For Flood Service—Boulder Supervises Volunteers

Boulder Society met with President Guy W. Bailey, Dean Hills and Secretary Harold Mayforth in the administration office at the Medical Building last Saturday afternoon at 4:30 o'clock. The object of the meeting was to discuss ways of securing more college students to aid the flood sufferers in the devastated sections. Up to now only a few men have participated in the relief work.

To meet the demand for more men in the relief work, the college directory has been divided into eleven sections, each section to be headed by a Boulder man who will call for volunteers from his section. In this way it is anticipated that more students may be secured and the relief work will not fall on the shoulders of a few.

Secretary Mayforth of the athletic department, is in charge of excuses for men helping with reconstruction work. Excuses from him are to be recognized by all professors and instructors who will give consideration to any student detained from classes for relief work.

The administration office states they will do everything within their opwer to aid theso students who have remained from classes. Any hour examinations coming within this period will be given due consideration by the heads of the departments.

QUESTION FOR LOWER CLASS DEBATE CHOSEN

Six Freshmen and three Sophomores have expressed a desire to take part in the annual Freshman-Sophomore debate for the H. Albon Bailey cup. At the meeting last Wednesday, the question that had been chosen was discarded, and after a discussion of the possible propositions, it was decided to debate the value of the modern newspaper. The formal wording of the question is, "Resolved, that the daily newspaper is the curse of the age." The Freshmen will uphold the affirmative. Another meeting for organization and discussion will be held tomorrow (Wednesday) afternoon at four o'clock in the Old Mill Chapel Competition is open to all Sophomores and Freshmen, whether or not they have attended the preliminary meetings, but candidates will find these sessions helpful in getting a clear understanding of the subject. The nature of the tryouts, which will be held about November 23, has not been definitely settled. The Oregon system of debate, in which there are two speakers on each side, one an "expert witness," and the other a "lawyer," who cross-examines his opponent, and sums up his own case, will be employed, and the tryouts will probably consist of a five-minute constructive speech, and a little cross-examination by the judges.

NOTICE

Because of the closing of the University on Armistice Day, Friday, when the editorial staff generally assembles the news of the Campus, the CYNIC is published this week on Wednesday.

New Vermont Eleven Gains Over Fighting Middlebury Gridsters

Macomber and Burstein Are Feature of the Game With 55-Yard Run and Fine Interference—Conway and Estabrook Star in Their New Positions

"COL." MACOMBER

Who made the feature of the Middlebury game by running back an intercepted pass 55 yards for a touch down.

Vermont came back Saturday and played the kind of football that made every Vermont man proud of that Green and Gold eleven that so clearly outplayed the Middlebury Panthers and stood at the top of the pile when the final whistle blew. Twice the Catamounts crossed the Blue and White goal line and once Conway scored the extra point. The Black Panthers were able to cross the Green and Gold goal but once and this was late in the last period. Thirteen points the mighty Catamounts scored and seven for the Blue and White. Not for some time has a Vermont eleven outplayed a Middlebury eleven so completely. The opponents were able to make but one first down in three periods; time after time the Blue and White was forced to punt after two or three unsuccessful tries at hitting the line.

The new Vermont line-up with Conway at halfback, Estabrook at quarter and Macomber at the other half was so far ahead of the old lineup that there is no comparison between them. Estabrook showed that he is one of the headiest signal callers that Vermont fans have seen since the days of Gooch. Conway, relieved from the quarterback duties, played the game of his life. It was chiefly through his line plunging that Vermont brought the ball into scoring position during the third period. Macomber although not as consistent a ground gainer as Scutakes is a much better man on the defense and it was "Cal" who brought the crowd to their feet when he grabbed a Middlebury pass out of the air and raced 55 yards for the first score of the game. However all credit should not go to Macomber for had it not been for Burstein Vermont would not have scored on this play. There was only one man between Macomber and the goal line and Burstein spilled him just as he was about to tackle Macomber. This seemed to break the Blue and White spirit and during the second period Vermont ploughed through them at will only to be stopped on the twenty yard stripe. Here Conway tried a drop kick but it fell short and Middlebury took the ball on the twenty-yard line.

Levine and Winchenbach along with Burstein were the outstanding men on the Vermont line. Vermont's best play was through right tackle with Burstein leading the interference. This play with Conway carrying the ball was good for about six or seven yards every time it was used.

Captain Smith Back

Captain Smith was back at his usual position and it was his quickness at getting off punts that saved Vermont many yards Saturday. The work of O'Keefe at center was not quite up to snuff and his passes to Smith were none to good. The line also gave way on these plays several times and Smith was forced to hurry his punts to such an extent that they were not as good as usual. However the wind had a lot to do with the booting. Whoever was defending the East goal was at a decided disadvantage when it came to kicking because of the strong west wind.

For the past three years Vermont football teams have relied on straight football for the most part and the trick play that the Catamounts used to score their second touchdown came as a surprise to most of the fans. It also took the Middlebury eleven by surprise and Conway crossed the goal with no opposition. All of the Blue and White defense men were busy backing up the line waiting for a line buck and they looked rather foolish when Estabrook threw a lateral pass to Conway for the score that brought victory to Vermont and defeat to Middlebury.

The most outstanding man on the Middlebury team was "Nig" Palmer who played left end for the visitors. He was a stonewall on the defense and a wonderful receiver of the forward pass on the offense. In the fourth period he took a pass from Golinick and raced to the 30-yard line only to be stopped by Estabrook. Had it not been for this beautiful tackle Vermont might not have been on the winning side for Estabrook was the only man between Palmer and the goal. At this point of the game Middlebury took on new life and made four first downs in a row which placed them in

(Continued on page 3)

ANNUAL FOOTBALL HOP WILL BE HELD IN GYM SATURDAY DECEMBER 3

"V" Blankets To Be Given To Senior Football Men At This Popular Dance Which Concludes Vermont's Successful Football Season

The annual Football Hop will be held Saturday evening, December 3 in the University Gymnasium. The custom in years past was to have each fraternity have a booth in the Gym but the decorations have been simplified in late years. Philip Manning, '30, is the chairman of the hop and is aided by the entire Sophomore class who sponsor the dance each year. The decorations this year will consist mainly of football banners and fraternity banners.

On November 4, the entire committee met at the Campus House to arrange for the various sub-committees. Committee on refreshments: L. Clayton, chairman, and William Slavin; committee on decorations; Anne McLaughlin, chairman assisted by entire committee; committee on lights; William Slavin, chairman, and L. C. Clayton; committee on advertising, tickets, and programs, R. Hawley, chairman, Frank Beer, and James Puffer; committee on music; Phil Manning, chairman, and Robert Lawrence.

Work by the committees has been carried on to good advantage. "Joe" Lechnyr's orchestra, The Vermonters, will syncopate being led by "Joe and his cigar." Chaperones have not as yet been decided upon but will be announced in the next issue of the CYNIC.

As has been done in previous years, the Seniors on the football team, who have earned a "V" in that sport, will be awarded large Green & Gold "V" blankets which are donated by the Key & Snake Society.

Admission this year will be seventy five cents per couple.

RECITAL PROGRAM

The following is the program of the organ recital to be given by Miriam Natilee Marston, instructor of piano and organ, in the Ira Allen Chapel Thursday, November 17 at 8:15 P. M. The concert is free and open to the public.

Toccata and Fugue in D Minor	*Bach*
Gavotte from Twelfth Sonata	*Martini*
Christmas Song	*Lemare*
Pièce Héroïque	*Franck*
Three Nature Sketches	
Northern Lights	*Torjussen*
Fiat Lux	*Dubois*
Clair de Lune	*Karg-Elert*
Dreams	*Stoughton*
Finale from First Symphony	*Vierne*

VERMONT STUDENTS AID RESIDENTS IN MEETING BAD FLOOD CONDITIONS

Engineers Work on Bridge and Broadcast with Radio Medics Rush to Waterbury for Service

[illegible] the county last week. A group of about thirty, the majority of whom were freshman engineers, worked from tenthirty until three Friday in a desperate but futile effort to [illegible] against the abutment on the downstream side of the river. [illegible] the water took [illegible] Tons [illegible] composed under the [illegible] the water, however, and the [illegible] was [illegible] to a standstill.

Prof. Frank Sullivan [illegible] Gordon Allen '29 and Amelia Howard, [illegible] to put a stop to the [illegible] water operations. Late that evening, hearing reports that they were [illegible] messages from various residents of Bridgeman and vicinity to continue on the stricken highway. Spending the night at the home of Prof. Sullivan, the operators rose at 6 to the strains of WCAX, the college broadcasting station, and continued their work with even better success. Meanwhile, [illegible] with a radio [illegible] from the city started out for Waterbury with a portable sending set. Aiken and Halloway established connections early Monday morning, and several messages during the day and more Monday night.

By no means the least service was rendered by eight senior medics under the [illegible] of Dr. T. S. Brown who left Burlington by truck at nine o'clock Saturday evening. They went to [illegible] with a convoy to Johnson [illegible] and finally through Stuggleton, Natch to Stowe, and then on to Waterbury. Here they were forced to abandon the autos, and carrying the medical supplies on their backs they struggled over the trackless Middlesex Mountains. They reached Montpelier at 5.30 Sunday morning, after traversing 40 miles. They left some of their medicines at the hospital, and since the need was greater in Waterbury set out once more on foot from that place. There two of them remained but since the others were not needed they returned at once, in order to conserve the slender food supply, arriving in Burlington about nine o'clock Sunday evening. The men who made the strenuous trip are I. G. Bruce, F. J. Fanning, S. L. Gartpay, G. R. Goddard, R. S. Holtz, A. L. Lemay, C. M. Malouf and A. B. Soule, Jr. C. G. Cayward and D. C. Moriarty going up independently, also reached Waterbury.

ORGAN RECITAL

Miriam Nattlee Marston, instructor in piano and organ, will give an organ recital at the Ira Allen Chapel on Thursday, November 17 at 8.15 o'clock. Students and residents of Burlington are invited to attend.

PHILOLOGICAL BALLAD

Of human frailties we find
In every nation,
The most widespread of any kind
Procrastination.

Our wails bear mottoes, "Do it now"
Is admonition,
Despite them, we persist somehow
In our remission.

In Queen Bess' day once, they say
Meant "like a streak"
To us it only can convey
"Sometime next week."

And presently once "right away"
Now "on the spot"
Has come to mean, "Maybe today"
(And maybe not.)

Alas! that words must pay such price
Of degradation
Because of that most human vice,
Procrastination.

He—"Every time she smiles she reminds me of a Pullman at 9.30 in the morning."
He No. 2—"How so?"
He No. 1—"No lowers and very few uppers."
The Williams Record

Wife—Look at the adorable hat in the window. Isn't it an [illegible]?
John—Certainly dear. Right by it.
Jester's Almanac

CO-ED BASKETBALL TO COMMENCE NEXT WEEK

[illegible] will not [illegible] on account of the inclement weather. These classes will not count for gym credit but W. A. A. credit will be given.

Indoor work has begun in earnest with three classes a week for Frosh and two for Sophomores.

Basketball classes begin next week and a large number of girls have already signified their intention of attending the practices.

As Miss Ingham cannot get to Essex Junction [illegible] at night, the class in Social Dancing did not meet this week but will probably begin next week.

The class in "Methods" meets on Friday at 2, beginning Nov. 18. The first six lessons will be on "How to Teach Basketball."

W. A. A. has a new silver loving cup about eighteen inches high, on which is engraved "Women's All Sports' Cup." As a result of the fall work, the Junior class is ahead with twenty points, the sophomores and freshmen having ten points each.

The Mountebank's Leer

By Red Hazel

Sergeant, that --horse just stepped on my foot."

"Never mind, private, its a mare colt."

It's a wise bottle that knows its own [illegible] but it's a much wiser whale that can tell its own maw.

There's something autumnatic about this fall.

Quizzer—"Give me a word for hat beginning with W."
Whizzer—"What?"
Quizzer—"Correct."

Each time the halfback took the ball he would go straight through the line of the opposing team. Nobody would tackle him and they fell back at each lunge they made.

"Why don't they at least try to stop him," replied the other spectator.

"Sh! Even his best friend won't tell him," replied the other spectator.

Goblin.

We wonder if some Connecticut people find it very noisy with the Sound directly in front of them?

The Wetness

THAT TERRIBLE FLOOD!

Being a typical conversation among the typical frivolous college students on the typical college campus by the typical Percy Marks.

"My dear, have you heard about that TERRIBLE flood? Isn't it just AWFUL? And the worst part of it is that I didn't have a thing to wear to the [illegible] ball!"

"Not really, Anita, how TERRIFIC. How did it ever happen?"

"Why, don't you see, I can't get anything in this place that is really decent to wear, don't you know, so I wired mother to bup me some little thing in Altman's in New York, and of course it didn't get here on time with all those railroads all balled up like that and everything!"

"But whatever did you do?"

"Why I had to wear the one I bought two weeks ago. Can you imagine that! I didn't even have the money to buy one here, the mails so bad and everything!"

"Oh my dear, I know just how you felt. It's SO humiliating, isn't it?"

"I should say so; but I was SO relieved that it snowed and go so cold because I did have a perfectly stunning fur evening wrap that I have been dying to wear. Oh here comes Stella. You know her people were right in the midst of that TERRIBLE flood! Hello Stella, how're the old folks making out?"

"Well, I guess my happy home is down the little stream, all righttie. Wait till I see my old man. Won't I give him the merry ha ha for not building his mansion on the hill the way I wanted him to. Guess he'll listen to his little girl after this!"

"Did you ever think a little rain like that could do so much damage?"

"Little rain, my dear! It rained hard enough to spoil my brand new fifteen dollar pair of satin slippers when I went riding with Jack Thursday nite!"

"How awful!"

"Well, I guess I'm lucky, the storm didn't affect me a darned bit, I had the Marmon here at college with me and everything!"

"Oh here comes Tim. I wonder how things are up his way. Hello, Tim, how's your happy home?"

"Well girls, I guess I'm an orphan all righttie. The whole darned family croaked in the washout. If you see Betty, tell her I guess I can't take her to the frat dance to-morrow nite. It really wouldn't look right, don't you know, and besides, of course, I am pretty busted up about it!"

"Oh Tim, Betty will be wild. She has planned on that dance for so long, and you don't know how discouraging it is for a girl to get a whole new outfit and then not get a chance to air it!"

"Gosh I know it's tough. I guess I'm what you'd call an 'orphan of the storm!'"

"Tim"

"What?"

"All the girls are just going to go crazy over you after this."

"Yes? How's that?"

"Why don't you know, no worry for the women over the mother-in-law, or family or anything!"

((Chorus of titters—Tim laughs merrily) etc., etc.—ad-infinitum.

COLLEGE HUMOR

MONEY AND SERVICES GIVEN FLOODED TOWNS BY VERMONT STUDENTS

Over Score of Men Assist in Cleaning Up Bolton—Fraternities Donate Liberally to Red Cross

Many fraternities as well as sororities are helping to swell the flood relief fund now steadily mounting. Like the sororities this donation from the chapter is made by some by giving up the annual house dance which comes off soon or by a general house tax or through an abundant treasury.

President Guy W. Bailey offered the services of the students to the Red Cross Relief Organization here in Burlington, but with stipulation that all calls for student assistance must be by request of Dean J. L. Hills, secretary of the University Council. Furthermore, the students must be under the direction of the Red Cross only.

It was suggested at one time that classes be suspended entirely to permit the students to give their undivided time to the Relief Organization. President Bailey offered to do this if the need was sufficiently urgent, but the Red Cross discouraged the idea stating that as they needed student aid they would call for them

A score or more students assisted in cleaning up in Bolton, Thursday, November 10. Several more groups were sent out to different sections in need on Armistice Day. Some Senior women aided in rush at the Western Union Office.

The Alumni of the University have strated a relief fund so far the Alumni Association in New York have been the heaviest donors with a sum of $650 and more promised. The College Y. M. C. A. is also on the receiving end of donations from the student body.

JOHN DEWEY CLUB TO HEAR DOCTOR PERKINS

The John Dewey Club of Philosophy and Psychology will meet at the Vermonters' Club tonight at eight o'clock. Professor Harry F. Perkins will address the society on. Environment and Heredity from the Eugenist Point of View.

Dr. Perkins has been associated with the State Eugenic Survey for the past few years, and this year has received a leave of absence from the University in order to be able to devote all of his time to the work. He brings a wealth of interesting facts about the more recent developments in this field. Any student of the University is invited to attend this meeting.

MEN STUDENT RELIEF WORKERS GIVEN HELP BY FACULTY MEMBERS

Administration Agrees to Aid All Men Missing Classes For Flood Service—Boulder Supervises Volunteers

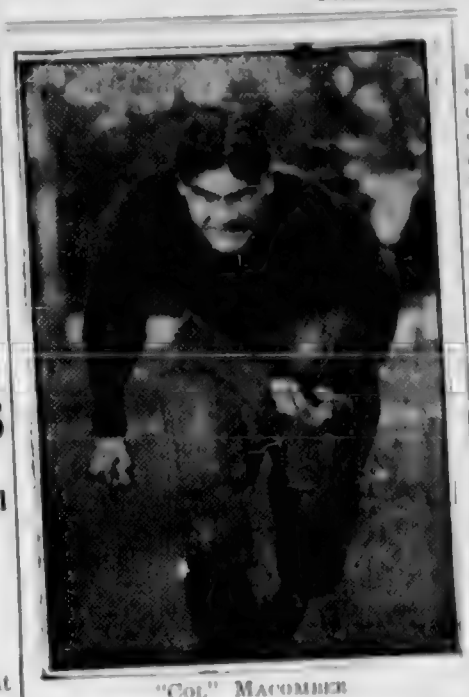
Boulder Society met with President Guy W. Bailey, Dean Hills and Secretary Harold Mayforth in the administration office at the Medical Building last Saturday afternoon at 4:30 o'clock. The object of the meeting was to discuss ways of securing more college students to aid the flood sufferers in the devastated sections. Up to now only a few men have participated in the relief work

To meet the demand for more men in the relief work, the college directory has been divided into eleven sections, each section to be headed by a Boulder man who will call for volunteers from his section. In this way it is anticipated that more students may be secured and the relief work will not fall on the shoulders of a few.

Secretary Mayforth of the athletic department, is in charge of excuses for men helping with reconstruction work. Excuses from him are to be recognized by all professors and instructors who will give consideration to any student detained from classes for relief work.

The administration office states they will do everything within their opwer to aid these students who have remained from classes. Any hour examinations coming within this period will be given due consideration by the heads of the departments.

QUESTION FOR LOWER CLASS DEBATE CHOSEN



Six Freshmen and three Sophomores have expressed a desire to take part in the annual Freshman-Sophomore debate for the H. Albon Bailey cup. At the meeting last Wednesday, the question that had been chosen was discarded, and after a discussion of the possible propositions, it was decided to debate the value of the modern newspaper. The formal wording of the question is, "Resolved, that the daily newspaper is the curse of the age." The Freshmen will uphold the affirmative. Another meeting for organization and discussion will be held tomorrow (Wednesday) afternoon at four o'clock in the Old Mill Chapel Competition is open to all Sophomores and Freshmen, whether or not they have attended the preliminary meetings, but candidates will find these sessions helpful in getting a clear understanding of the subject. The nature of the tryouts, which will be held about November 23, has not been definitely settled. The Oregon system of debate, in which there are two speakers on each side, one an "expert witness," and the other a "lawyer," who cross-examines his opponent, and sums up his own case, will be employed, and the tryouts will probably consist of a five-minute constructive speech, and a little cross-examination by the judges.

NOTICE

Because of the closing of the University on Armistice Day, Friday, when the editorial staff generally assembles the news of the Campus, the CYNIC is published this week on Wednesday.

New Vermont Eleven Gains Over Fighting Middlebury Gridsters

Macomber and Burstein Are Feature of the Game With 55-Yard Run and Fine Interference—Conway and Estabrook Star in Their New Positions

"COL" MACOMBER

Who made the feature of the Middlebury game by running back an intercepted pass 55 yards for a touchdown.

Vermont came back Saturday and played the kind of football that made every Vermont man proud of that Green and Gold eleven that so clearly outplayed the Middlebury Panthers and stood at the top of the pile when the final whistle blew. Twice the Catamounts crossed the Blue and White goal line and once Conway scored the extra point. The Black Panthers were able to cross the Green and Gold goal but once and this was late in the last period. Thirteen points the mighty Catamounts scored and seven for the Blue and White. Not for some time has a Vermont eleven outplayed a Middlebury eleven so completely. The opponents were able to make but one first down in three periods; time after time the Blue and White was forced to punt after two or three unsuccessful tries at hitting the line.

The new Vermont line-up with Conway at halfback, Estabrook at quarter and Macomber at the other half was so far ahead of the old line-up that there is no comparison between them. Estabrook showed that he is one of the headiest signal callers that Vermont fans have seen since the days of Gooch. Conway, relieved from the quarterback duties, played the game of his life. It was chiefly through his line plunging that Vermont brought the ball into scoring position during the third period. Macomber although not as consistent a ground gainer as Scutakes is a much better man on the defense and it was "Cal" who brought the crowd to their feet when he grabbed a Middlebury pass out of the air and raced 55 yards for the first score of the game. However all credit should not go to Macomber for had it not been for Burstein Vermont would not have scored on this play. There was only one man between Macomber and the goal line and Burstein spilled him just as he was about to tackle Macomber. This seemed to break the Blue and White spirit and during the second period Vermont ploughed through them at will only to be stopped on the twenty-yard stripe. Here Conway tried a drop kick but it fell short and Middlebury took the ball on the twenty-yard line.

Levine and Winchenbach along with Burstein were the outstanding men on the Vermont line. Vermont's best play was through right tackle with Burstein leading the interference. This play with Conway carrying the ball was good for about six or seven yards every time it was used.

Captain Smith Back

Captain Smith was back at his usual position and it was his quickness at getting off punts that saved Vermont many yards Saturday. The work of O'Keefe at center was not quite up to snuff and his passes to Smith were none to good. The line also gave way on these plays several times and Smith was forced to hurry his punts to such an extent that they were not as good as usual. However the wind had a lot to do with the booting. Whoever was defending the East goal was at a decided disadvantage when it came to kicking because of the strong west wind.

For the past three years Vermont football teams have relied on straight football for the most part and the trick play that the Catamounts used to score their second touchdown came as a surprise to most of the fans. It also took the Middlebury eleven by surprise and Conway crossed the goal with no opposition. All of the Blue and White defense men were busy backing up the line waiting for a line buck and they looked rather foolish when Estabrook threw a lateral pass to Conway for the score that brought victory to Vermont and defeat to Middlebury.

The most outstanding man on the Middlebury team was "Nig" Palmer who played left end for the visitors. He was a stonewall on the defense and a wonderful receiver of the forward pass on the offense. In the fourth period he took a pass from Gollnick and raced to the 30-yard line only to be stopped by Estabrook. Had it not been for this beautiful tackle Vermont might not have been on the winning side for Estabrook was the only man between Palmer and the goal. At this point of the game Middlebury took on new life and made four first downs in a row which placed them in

ANNUAL FOOTBALL HOP WILL BE HELD IN GYM SATURDAY DECEMBER 3

"V" Blankets To Be Given To Senior Football Men At This Popular Dance Which Concludes Vermont's Successful Football Season

The annual Football Hop will be held Saturday evening, December 3 in the University Gymnasium. The custom in years past was to have each fraternity have a booth in the Gym but the decorations have been simplified in late years. Philip Manning, '30, is the chairman of the hop and is aided by the entire Sophomore class who sponsor the dance each year. The decorations this year will consist mainly of football banners and fraternity banners

On November 4, the entire committee met at the Campus House to arrange for the various sub-committees. Committee on refreshments: L. Clayton, chairman, and William Slavin; committee on decorations; Anne McLaughlin, chairman assisted by entire committee; committee on lights; William Slavin, chairman, and L. C. Clayton; committee on advertising, tickets, and programs, R. Hawley, chairman, Frank Beer, and James Puffer; committee on music; Phil Manning, chairman, and Robert Lawrence.

Work by the committees has been carried on to good advantage. "Joe" Lechnyr's orchestra, The Vermonters, will syncopate being led by "Joe and his cigar." Chaperones have not as yet been decided upon but will be announced in the next issue of the CYNIC.

As has been done in previous years, the Seniors on the football team, who have earned a "V" in that sport, will be awarded large Green & Gold "V" blankets which are donated by the Key & Snake Society.

Admission this year will be seventy-five cents per couple.

RECITAL PROGRAM

The following is the program of the organ recital to be given by Miriam Natilee Marston, instructor of piano and organ, in the Ira Allen Chapel Thursday, November 17 at 8:15 P. M. The concert is free and open to the public.

Toccata and Fugue in D Minor	*Bach*
Gavotte from Twelfth Sonata	*Martini*
Christmas Song	*Lemare*
Pièce Héroique	*Franck*
Three Nature Sketches	
Northern Lights	*Torjussen*
Flat Lux	*Dubois*
Clair de Lune	*Karg-Elert*
Dreams	*Stoughton*
Finale from First Symphony	*Vierne*

Hendrix went in, in place of Webber for Middlebury. Johnson no gain, Palmer lost 2 yards on end aronud, forward pass failed, Huntington kicked to Estabrook on the 40-yard line. Vermont substitution, Mace for Conway, Gourson for Smith, Scutakes for Macomber, Mace made 6 yards through right tackle, Scutakes added 3 more, Mace made a first down, Estabrook made 4 yards around right end, Mace added 2 more. Half, Vermont 6, Middlebury 0.

Third Quarter

Smith kicked off to Palmer on the 5-yard line, who ran the ball back to the 20-yard line, after 2 unsuccessful tries by Gollnick and Hinman, Huntington punted to Estabrook on the 48-yard line, Conway gained 30 yards off right tackle, Macomber added 12 more through same place. Conway and Estabrook made 8 yards through left tackle, Estabrook added 6 more for first down. Macomber lost 2 yards but regained it on the next play, on a trick lateral pass Estabrook to Conway, the latter crossed the goal unmolested. The pass from center was bad and Conway using his head threw the ball to Estabrook for the extra point.

Smith kicked off to Gollnick who ran the ball back 12 yards, Middlebury was unable to gain and Huntington kicked to Estabrook on the 30-yard line, Conway made 20 yards off tackle, Macomber failed to gain, Conway added 1 more yard. Guarnaccia intercepted Vermont pass, and raced 26 yards before he was downed by Estabrook, Sirois tackled Hinman for a 5-yard loss, Johnson gained 3 around right end, Conway intercepted a Middlebury pass and was downed on the 50-yard line. Scutakes went in for Macomber, Conway and Scutakes made 5 yards through right tackle, Scutakes failed to gain, Vermont penalized 15 yards for holding, Smith kicked to the 15-yard line, where Gollnick was downed in his tracks by Sirois. Middlebury failed to gain, Huntington kicked to Estabrook on the 45-yard line. Quarter, Vermont 13, Middlebury 0.

Fourth Quarter

Conway made 2 yards off right tackle, Estabrook fumbled but Scutakes recovered and raced to the 26-yard line before he was downed. Conway made 3 off right tackle, a lateral pass Smith to Estabrook was good for 4 more, Conway added 6 more for another down, Scutakes failed to gain. Maynard went in for Jones, Conway failed to gain, Johnson intercepted a pass and ran to the 18-yard line, Gollnick and Guarnaccia made first down. A beautiful pass Gollnick to Palmer, was good for 40 yards. With the exception of Estabrook, Palmer had a clearp field, but the Vermont quarterback made a wonderful flying tackle, and brought him down on the 30-yard line, Gollnick and Guarnaccia brought the ball to the 12-yard line, where Palmer took the ball over the goal line for Middlebury's lone tally. Webber who substituted for Bedell at this point, kicked the goal from placement. Webber kicked to Estabrook on the 20-yard line. Vermont failed to gain and Smith punted outside on the 43-yard line. Gourson went in for Scutakes. Johnson made a yard through center. Midd was penalized 5 yards for being offside. A pass Gollnick to Hinman failed, Whittemore went in for Johnson. Smith intercepted a Midd pass. Conway made 2 yards, Estabrook added 5 more, Smith punted to Gollnick as the game ended. Vermont 13, Middlebury 7. The line-up:

VERMONT	MIDDLEBURY
Sirois, re.	re., Jones
Winchenbach, rt.	rt., Maynard, Allen
Levine, rg.	rg., Bedell
O'Keefe, c.	c., Webber
Kropper, lg.	lg., McNary
Burstein, lt.	lt., Huntington

The officials: Referee—H. R. Goewey, Pittsfield Boys' Club. Umpire—Swaffield, Brown. Field Judge—L. O. Johnson, Tufts. Head Linesman—Laird, Dartmouth.

WOMEN DEBATERS MAY MEET WEST VIRGINIA

Lawton Moore, public speaking instructor, announces that there will be this year prizes for women debaters equal in amount to the men's awards. The awards will be made on a basis of excellence as shown in all of the intercollegiate debates, not, as with the men, solely upon the Middlebury debate.

Professor Moore hopes to have the debating team from the West Virginia University of Women in Burlington about December 8. The question, if the meeting can be arranged, will be, "Resolved, that this house is opposed to the use of armed forces by the American Government to protect American investments in foreign countries," with Vermont on the affirmative side. Coach Moore is trying to arrange the debate on the Oregon system, which was described in an earlier edition of the CYNIC, or the "sandwiched" Oregon, in which speakers from each institution speak on each side.

Following the announcement of the arrangements pending for the West Virginia debate, Professor Moore issued a call for women with forensic talent. There will be no formal tryouts this year, but the team will be picked from the work of the candidates in a series of discussions and practice debates.

AT THE DORM

BY CONVERSE HALL

Newman H. Chaffee, Jr., takes this medium to express his earnest desire that the engineering department provide at the earliest possible opportunity one (1) day bed for his comfortable and peaceful repose during early morning classes in that subject.

Coach Dresser, explaining proper football plays in Frosh gym class: "Supposing that you were on the enemy's thirty-yard line, third down and ten yards to go. What would you do?"

"Give it to Frank Merriwell."

"I hear that some of the fellows doing rescue work in the flooded areas won't be able to come back for four days."

"What some people won't do to get their names in the paper."

Who will scout this electrical frontier?

WHETHER in the Bell Telephone Laboratories, in the Western Electric workshop or in the various operating companies, telephone executives are scouts on the frontier of better methods to serve the public.

It is significant that your true telephone man, he with the feel of the calling in his blood, never speaks of having "perfected the art of communication." And this in spite of the fact that America, by its solid achievements in telephony, shows the world.

Work in the Bell System demands the bold curiosity of pioneers and the infinite pains of pioneers who, like Columbus, Lincoln and Lindbergh, prepared "and when their chance came they were ready."

CO-ED TENNIS CHAMPIONS

Champions and runners-up in the Intercollegiate Women's Tennis Tournament which is the annual feature of the Middlebury Invitation Tennis Tournament. Left to right: Miss Wilson of Smith, Miss Hoskins of Middlebury, Miss Bowen of Connecticut, and Miss Hall of Middlebury. Miss Hoskins won the tournament by defeating Miss Bowen in the finals of the sophomores with scores of 3-6, 6-2, 6-1. From photograph by Beatrice Hoskins '29.

SIDELINERS

By A. to Z. '29

The first Green Hotel Plant team journeyed considerably to the east of the county last week only to be defeated overwhelmingly. The score stood one hundred and one and the Middlebury runners found almost half of the total scored.

The U. V. M. team looked like a college football team on the field together with the exception of a short time in the last quarter when the Blue passed every play completed. The passing of Robinson at quarter and Conway at half made a great difference in the passes attempted. If these twenty had been used the first part of the season our college backs have been different.

In the moments when the batteries stopped could be seen a glorious sunshine. It seemed the mists of autumn could be found the green and gold with the blue sky as a background.

The two hands had battles of music all through the game but during the halves they banded together to march down the field and play "Loyalty" together. It was a pretty spectacle with the R. O. T. C. uniforms and the white pants and blue sweaters of the Midd players all in perfect time. Each band in turn then faced his opponent's stand and played their alma mater.

The wind was so strong yesterday that neither Smith nor Huntington could punt any distance against the wind, the ball descending in the same place as it was booted. When they were kicking with the wind then both got off some pretty forward punts.

From over on the sidelines you could distinguish a broad grin on Winchell

back's face when Green Hotel team made what looked like a touchdown. Referee Wilson of Smith College ruled that Middlebury had recovered a fumble on the 2 yard line. Score: Middlebury 0, Green Hotel 0.

The Black Panther rooters were quite a bit excited in the last quarter when Montgomery had the ball on Vermont's 40 yard line. They were shouting "we want a touchdown" but their hopes were drowned when Capt. Smith intercepted one of their passes carrying the ball back to his own 40 yard line.

Both sides can be congratulated on their cheering. The cheerleaders were all on deck and going strong giving plenty of support to their team. Every few minutes the blue megaphone or green and gold megaphone could be seen to flash in the afternoon sun and then there would be a long hearty cheer for the team or some player.

A vast improvement was noticed in the Cat's backing yesterday. Ask the Middlebury quarterback if it wasn't hard. Many times he was forced into the air to come down like a ton of bricks.

Soplaker's helmet should be riveted on. On almost every play Jimmie loses his helmet and can be seen hunting all over the gridiron for it.

This is the time of year when many right students start to slip.

One would have thought that [illegible] watching a game at Oxford-Cam[illegible] by the down upon the upper [illegible] the Midd players. If they expect to defeat the Green and Gold they will have to raise longer whiskers than those misplaced eyebrows.

It has been suggested that the scrubs be supplied with picks instead of the players having to use the head-linesman's ground stick to pick the mud from between the cleats of their shoes.

VOLUME [illegible] BURLINGTON, VT., FRIDAY, NOVEMBER 18, 1927 NUMBER 17

[illegible]8 TRACK SCHEDULE [illegible]O INCLUDE DUAL MEET [illegible]ITH UNION UNIVERSITY

[illegible]r Meets Scheduled For Next [illegible]ar—Considered Best Sched- [illegible]e Vermont Team Has Had [illegible]or Some Time

[illegible] meets and the Green [illegible]ference gives Vermont [illegible] schedule in years. The

[illegible]on at Schenectady.
[illegible] Lawrence U. here.
[illegible]real A. A. A. here.
[illegible] Mountain Conference [illegible] Middlebury.

[illegible] good track list for a col- [illegible]t Vermont's size and reflects the [illegible]dal development the sport has [illegible] since Jack Latty took over [illegible] Vermont. Union is strong [illegible] will provide quite some opposition [illegible] Green and Gold in the season's [illegible]. The Unicorn makes a spe- [illegible]ty of dual meets and as track is [illegible]strong sport it is seldom that the [illegible] Yorkers are bested in two-sided [illegible]. Both Union and Vermont are [illegible]mbers of the Eastern Intercolle- [illegible]e Conference. Under the agree- [illegible]t between the athletic authorities [illegible] two colleges, Union will come to [illegible]ntennial Field in 1929.

After Union, St. Lawrence will ap- [illegible]ar at Centennial Field for another [illegible]al meet. Vermont defeated St. [illegible]rence last year although the Cata- [illegible]unts were without the services of [illegible]pson, their star, who was com- [illegible]ting in the New Englands at Bow- [illegible]e and Vermont should have little [illegible]ble in winning from the New [illegible]ers.

Then the Montreal A. A. A. come [illegible]e for their annual fray with Ver- [illegible]nt. The Canadians have a collec- [illegible]t of Olympic stars and the colle- [illegible]ans are rather out of their class but [illegible] is a great preparation for the [illegible]een Mountain Conference which [illegible]es place the following week at Mid- [illegible]ebury.

Coach Latty hopes to regain the [illegible]ate championship at the conference [illegible]et at Middlebury. Vermont dropped [illegible]e title to Middlebury last year but [illegible]e Catamounts have started conspicu- [illegible]usly this season by defeating Mid- [illegible]ebury's cross country team for the [illegible]st time in the history of the two [illegible]olleges.

[illegible]K. M. E. HOLDS SERIES OF DISCUSSION MEETINGS

[illegible]Kappa Mu Epsilon, the student [illegible]ranch of the American Society of [illegible]anical Engineers is now holding [illegible]egular meetings every two weeks. [illegible]wo papers on mechanical engineering, [illegible]subject of interest and education to [illegible]e presented at each meeting, one [illegible]by a senior and the other a junior. [illegible]These are later discussed in open [illegible]forum.

[illegible]It is expected that the society will [illegible]send one or two representatives to the [illegible]convention of the American Society of [illegible]Mechanical Engineers to be held in [illegible]New York City in December. Al- [illegible]though at present an uncertainty, [illegible]plans are being made for this [illegible]trip. Those interested in a faculty [illegible]position concerning this fraternity [illegible]are requested with Professor Robin- [illegible]son at once.

[illegible]As faculty advisor of the local [illegible]chapter of Kappa Mu Epsilon, I am [illegible]in a position to deter- [illegible]mine its merits and demerits. First [illegible], men with similar likes [illegible]get together and discuss [illegible]such subjects. Secondly [illegible]the papers on valuable topics [illegible]read at each meeting tends [illegible]the men to do research work [illegible]write their investigations in [illegible]and efficient manner. Also [illegible]these presentations much [illegible]knowledge is diffused among [illegible]them. In engineering classes [illegible]do the talking, have the [illegible]themselves carry on the dis- [illegible]and the practice and fluency [illegible]ed is more than the men [illegible]the present time. Then, the [illegible]the society is sponsored by [illegible]ally engaged in the type of [illegible]; these men will enter upon [illegible]; means that a tremendous [illegible]experience and advice is [illegible]dividual's command, as well [illegible]securing a position. Thus, [illegible]readily see the beneficial [illegible]membership and one ceases [illegible]at the fact that there are [illegible]ive branches at practically [illegible]versity and college in the

COMPETITION FOR SOPHS ON LITERARY MAGAZINE

Very few Sophomores answered the call issued last week for scrubs for the business department of the Literary Magazine. A second is set for Saturday morning between the second and third hours in the CYNIC Office in the Old Mill. Due to the advancement of classes this will therefore be at 8:30 o'clock. Promotion to the position of Assistant Business manager will be by the merit system, the scrub obtaining the greatest amount of advertising being placed, being awarded that post. Each fraternity is requested to send out at least one Sophomore representative.

WOMEN STUDENTS HOLD CONFERENCE AT SMITH

A National Student Union Conference was held at Smith college Northampton, Massachusetts, November 10, 11, and 12. Catherine Bassett '29 attended the conference as the representative from U. V. M. and reports a very successful meeting. There were girls present from all over the United States, representing sixty different colleges. Five of the larger women's colleges withdrew on Saturday as they were planning a separate league. However, they will continue as associate members of this league. The next annual conference will be held at Western Reserve College in Cleveland, Ohio.

On Thursday, after lunch, the girls met for a general session and listened to a welcoming address by Mrs. Scales, warden of Smith College. Miss Wooley, president of Mt. Holyoke, then spoke on the Realm of Student Government. Discussions by Wellesley and Bates followed. Tea was served at the Club House followed by another session led by Smith. A dinner and an entertainment concluded the day's program.

On Friday there were addresses on various topics and discussions by several colleges. Wellesley discussed the "Honor System," Vassar the "Radical Group," and Wilson "Officers and Members." After lunch, Mrs. Herbert Knox Smith of the Women's League spoke on Suffrage. The girls then motored to Mt. Holyoke for tea. At the banquet Friday evening, Miss Dunn of Smith was the speaker.

Saturday morning the last session of the conference was held with a final business meeting and an address on "Seeing Beyond College Walls." The representatives returned to their respective colleges with many new and useful ideas, and high hopes for the future of Student Union.

HARVARD SYSTEM IS SIMILAR TO OXFORD'S

Harvard's tutorial system, recognized generally as the American counterpart of the Oxford and Cambridge plans, and the goal towards which many universities in this country are working, is not only different from the British plans, but is not meant to approximate them.

This was explained in the *Crimson* by Prof. R. M. Eaton, chairman of the board of tutors in philosophy, who believes that the lecture system "must continue to bear the load of imparting information, while the tutor integrates this diverse material and aids the student in gaining an intelligent grasp of the whole field."

In contrast to the function of the Oxford tutor who prepares his student for examinations, the Harvard plan assumes that his courses give the student sufficient information for that, leaving the tutor free to unify the knowledge and to humanize it.

For this reason Professor Eaton believes the lecture and tutorial systems interdependent, and regards as bad the possibilities of weakening either. The lecture system resulted in "writen exposition" whereas the tutorial system permits "verbal discussion of the field."

Professor Eaton defines the function of the tutor as that of discovering the "individuality of the student, finding his main interests, and then arousing an expression of those ideas by which knowledge becomes a living part of the students' mental fiber."

In the inoculation campaign against typhoid that the medics are carrying on, the first dose has been administered to all those who desire it in the towns afflicted. Two more doses are yet to be given. A team of ten medical students are doing this work.

SEVEN FRATERNITIES HOLD PLEDGE DANCES ON SATURDAY EVENING

Others Postpone Dances, Giving The Money to The Red Cross For Use in Devastated Areas

Four fraternities, Sigma Phi, Phi Mu Delta, Sigma Delta and Zeta Chi, have postponed their pledge dances, and voted to donate the money that would have been expended for them to the Red Cross Flood Relief Committee.

Delta Psi has decided to cancel its orchestra engagement, and hold a victrola dance and card party in the fraternity house Saturday evening. The chaperons will be Professor and Mrs. Leon W. Dean and Mr. and Mrs. C. P. Smith, Jr. The members will contribute the cost of the orchestra to the Red Cross.

Vermont Alpha of Phi Delta Theta will hold its annual pledge dance at the chapter house Saturday evening. The chaperones will be Professor and Mrs. E. C. Dopkins, and the Black Panther Orchestra of Middlebury will furnish music.

Professor and Mrs. Kidder and Mr.

(Continued on page 3)

VERMONT REPRESENTED AT DEBATE CONFERENCE

Vermont was represented at the Second Annual Institute of the Eastern Intercollegiate Forensic Conference, a convention of debaters and coaches sponsored by Tau Kappa Alpha, national debating society, by Lawton Moore, instructor in public speaking and coach of last year's successful debating teams. He reports that it was a most interesting and profitable meeting.

Delegates from twenty colleges attended the conference, which was held in Schenectady, N. Y., November 5 and 6. Among those represented were Cornell, Rutgers, Fordham, Maine, Union, Vermont, Colgate, Syracuse, Tufts, Boston University, Elmira, St. Lawrence, College of the City of New York, New Rochelle, Clark, Rhode Island State, Wells, and Keuka. Of the forty representatives, about half were coaches and half students, and about half men and half women. The opening feature of the program was a discussion led by Harry Overstreet, Professor of Philosophy in the College of the City of New York, on "What is the Use of Public Speaking in Education?" The speaker remarked that the purpose of offering courses in public speaking was to keep the colleges from turning out educated fools. He emphasized the fact that there should be what he termed the "discussional" type of mind in all subjects, and that there should be correlation between public speaking and all other studies. After this there were discussion groups for coaches, and for men and for women debaters. Professor Moore, of course, attended the coaches' section, and he says that the questions most stressed there were, 'What is debating worth?' and 'What are the faults in the present methods?' The chief fault it was agreed, is the fact that debating at present develops contention without arriving at conciliation. The most constructive remedy Coach Moore thought was the one offered by the delegates from Hunter College. They suggested a plan where by six representatives of two college sit together on the platform, and discuss the question, taking turns in speaking. In this scheme it would be quite permissible for one of the speakers to change his mind during the course of the arguments, transferring his allegiance to the other side. In the end some at least of the debaters would come to some agreement about the proposition. The criticism was also offered that the present tendency is to select questions more for their debatable qualities, that is, to take those upon which experts disagree,—rather that to pick a subject for its intrinsic interest.

Later a meeting was held to consider the organization of a New England Oratorical Association. Professor Mark Bailey of the University of Maine is the originator of this scheme, and he heard favorable comment from the University of Vermont, Middlebury, New Hampshire State, Rhode Island State, Tufts, Norwich, and St. Michael's.

L. W. DEAN IS GUEST OF HONOR AT PRESS CLUB

The Press Club held a business and social meeting last Tuesday afternoon at the home of Constans Holden. Mr. Dean was the guest of honor. A committee was appointed to meet once a week with Mr. Dean and send out honor lists to the students' home papers. Dorothy Dearing, Florence Scott and Elizabeth Mildon make up this committee. A schedule was formed of girls to work at the University Publicity Office during the week of vacation. It was voted to hold the next meeting Friday, December 2, at 1:30.

DOCTOR PERKINS TALKS TO JOHN DEWEY CLUB

The John Dewey Club of Philosophy and Psychology met on Tuesday evening, the fifteenth of November, at the Vermonters' Club to hear an address by Professor Harry F. Perkins of the Zoology Department.

Dr. Perkins, who has been long associated with the Vermont Eugenics Survey, sketched out the proposed program which is to be presented again to the State Legislature at their next meeting. He showed the merits of such a plan, anticipating the objections which might be brought against it, and answering them all in a very conclusive manner.

"What is the use," said Dr. Perkins, "of planning great works of art and literature, of handing down great heritages to future generations unless we can be assured that these future generations are to be of such a kind that are to be able to appreciate them?" The heredity of man—while all that can be known of it is not yet known—and methods of controlling it in order to be able to produce a better and finer race in the future is but one of the tools which man has in his power to employ to make this country safer for "life, liberty, and the pursuit of happiness."

At a business meeting held before the regular discussion meeting it was voted by the club to turn over what money was at present in the treasury to the Red Cross to be used for relief work for inhabitants of the flood area.

The next regular meeting of the Philosophy Club will be held on Monday, the twenty-eighth of November, the subject and speaker to be announced.

WATERBURY RESIDENTS WELCOME STUDENTS

(From the *Burlington Free Press*)

Fresh from the campus of the University of Vermont, 150 college men arrived in Waterbury Tuesday morning, armed with shovels and baskets to tackle the job of cleaning the town of mud. They were brought to this village by 50 automobiles from Burlington, furnished and driven by the business men of that city.

Hardly had the boys gotten out of the cars before they were organized into squads and set to work by C. A. Young, in charge of labor.

The appearance of the college boys, together with the bright sun and mild weather Tuesday morning, appeared to spread a spirit of optimism throughout the village. A number of householders sent in requisitions for the help of the college men in cleaning up, and were told that their homes would be taken in order by streets. The job is to be done systematically, street by street, so that when it is done, it will be done thoroughly.

One minister called up Tuesday morning and said he would like to have the college boys come over and clean up his church. There was every indication that the students would find plenty of work while in the village and that their popularity was already assured.

They will remain for several days and will have their headquarters at the school house, where army cots and blankets have been provided for them. They will be fed from the army field kitchen sent to the village Monday.

CAST FOR PLAY

All members of the cast of the play "Lady Windermere's Fan" are expected to report at 2:00 o'clock on Saturday afternoon at the Vermonters' Club House.

STUDENTS GIVING WHOLE-HEARTED SUPPORT TO FLOOD RELIEF WORK

Between Three And Four Hundred Students Engaged in Cleaning Up Towns in Stricken Areas—Faculty Members Overseeing Working Parties

University students have responded generously to the calls for relief issued through Harold A. Mayforth, Athletic Manager. The first general call was Sunday evening when the aid of about 130 men was solicited. The following morning after being hurriedly put through the inoculation line at the Red Cross rooms at the corner of College and South Willard Streets, this number embarked in trucks for Waterbury to be gone for four days. This detail was under the guidance of Captain Rattan of the R. O. T. C. unit.

Another smaller detail of approximately 25 men were in Bolton, Wednesday, for the day only. Still another detail of about 60 men under Professor A. D. Butterfield of the Mathematics Department left for Johnson, Thursday morning, prepared to stay for the rest of the week. Some Senior medical students accompanied this detail in case medical aid was needed.

Smaller groups of ten to 40 men have been sent to Cambridge and Richmond to work each day. It may easily be said that three or four hundred students have acted in relief capacity in one way or another.

Harold A. Mayforth Graduate Manager of Athletics has been invaluable in the capacity of an executive and organizer. He has entire charge of all the details and groups of relief workers. It is mainly through his efforts that lodging and board can be obtained on these trips. He was in Waterbury Tuesday to see if the detail there was properly cared for, and in Johnson, Wednesday, to arrange for sleeping and eating accommodations for the crew of 60 men that started out Thursday.

A request was received at the office of the Graduate Manager for students who will volunteer to solicit funds in the Burlington residential districts Sunday afternoon, November 20, 1927. The names of students wishing to act as solicitors may be left at the office of the Graduate Manager.

OUTING CLUB PLANNING ACTIVE WINTER SEASON

The officers of the Outing Club have recently been making plans for the coming winter season. In order to promote interest in the club a tentative schedule has been arranged and propaganda has been spread among the students on the campus. The greater part of the student support is in evidence at the Inter-Fraternity meet and at the Winter Carnival sponsored by Fort Ethan Allen. The schedule as drawn up at the present time is as follows:

Inter-Class Meet—January 5.
Inter-Fraternity Meet—Feb. 22
Winter Carnival at Fort Ethan Allen—Pending.
State Meet at Rutland—Pending.
Meets at Brattleboro and at Lake Placid are yet to be arranged.

At a meeting to be held in the near future definite plans for the organization of this years club will be made and officers elected. The present officers are President F. W. Sears, '27 (Graduate); Treasurer, L. G. Cowles, '29, and Team Manager, R. Bragg, '29.

The Outing Club was formed in 1915 by a group of out-of-door enthusiasts led by Roderick Olzendavin. This team and the succeeding ones for several years represented Vermont in meets against Dartmouth and McGill and at the open meets held at Lake Placid. If sufficient interest is aroused this year there is a strong likelihood that Mountain Day may be revived and that the winter sports will attain to some rank among the minor sports at U. V. M.

There will be a Thanksgiving get together next Thursday evening for all the men and women students remaining here in the city. After an entertainment, dancing will take place and refreshments will be served.

Issued semi-weekly during the college year by the students of the University of Vermont and State Agricultural College.

Vol. 48 November 18 1927 No. 17

The place of the fraternity in college life has always been a problem, of [illegible] importance and probably always will be. At the near End a student who signed himself "C H W" wrote a letter on this subject which shows how very little difference there is in the point of view of the average student of that day and of this. The text of the discussion follows:

The growth and expansion of the [illegible] system in the United States is one of the most noteworthy features of our educational development. The first of these educational institutions, Harvard University was founded in 1636, one hundred and forty-fourth years in advance of activities in 1887, at Burlington Cook Medical College today instruction was considered to the thousand students by the taxes of thousands within the value of the property thus devoted to educational interests is computed in hundreds of millions. A [illegible] greater for two hundred years would be impossible even in a country possessing the natural resources of the United States, and explaining in large measure the rapid advancement of the American people in the scientific and literary arts.

Important part of the increase of [illegible] has been in our land has been the increase of the anti-college spirit that used to exist. In the past many regarded colleges as being the nurseries of an aristocracy, a privileged class which were republican equality and [illegible] but the upholders of this idea are rapidly being replaced by educated men and women who recognize the value of college training. [illegible] are now to be found who will readily desire the advantages to be gained from the University. Especially is this true in New England. The Puritan sons of Cambridge and Oxford, six years after the settling of [illegible] came together and consecrated two hundred pounds for the founding and maintenance of Harvard University. The University was a great gift but not the greatest that these sturdy pioneers left as a heritage to their children. A far better asset was the knowledge that all true power resides in the realms of thought and a desire to gain that power for themselves and for their children after them. The University was but the means to attain the desired end.

Briefly stated the work of the schools is to teach the mind. The acquirement of facts is a necessary part but not the greater part of education. To unfold the mind and make it conscious of its own powers is a much higher aim. The chief value of learning is to gain the truth and the greatest work of the young students is to acquire a desire for the truth and to use freely his mental powers that he may recognize and retain the truth and intermingling its golden grains with the sands of popular fallacy and superstition. The high school and academy develop and strengthen by reasoning power. The university leads him out into broader fields and sets before him higher standards. The one prepares the way for the other and both combine to enable him to determine the answer to the great question asked so long ago. What is truth?

Now can this end ever be attained by any other means. Some point us to the books and papers of the day, the telegraph and railroads which do so much to bring people together and to make a corresponding interchange of ideas as a substitute for the college life and training. In answer we ask from whence came this knowledge that created the spirits of the great men who have given to the world the poems and books of merit? How did the associations to which we attach so much value derive their greatest power? Simply through the test of years, the fundamental principles gained in the academies and the broader more comprehensive training received in the colleges and universities. The awakening of the people to this fact is the reason why our school system is growing so rapidly. The bachelor's degree is no longer regarded as the end of our intellectual culture, but as the seal that we are thoroughly equipped to begin the real life of thought and study.

Here the question may arise: Do not the universities assume too much? Is not the ability to recognize truth inherent in the human mind? To this we answer that we cannot understand and enjoy the truth until we have been trained to do so. The history of education has been a history of slow growth. For ages men have been pondering over and testing their theories, confirming the true, rejecting the false. In the middle ages the monasteries were the home of thought and research. Having passed their period of useful usefulness their places are filled today by the universities. These are the twentieth century repositories of learning. With them are connected the men who spend their lives in developing and increasing the world's mental stature. The history of the African race proves that the human mind is not capable of upward growth when fixed upon false ideals. False standards are responsible for the degradation of the Indians both East and West. The morals of a nation are not improved by customs or by the right of suffrage. All that is high and noble in this world is gained through moral development through conscientious, untiring seeking for the highest good. To fit men for this lofty purpose is the duty and privilege of higher education. Colleges that regard their students as creatures whose sole duty is to simply oscillate between their lodgings and lecture rooms fail in their mission. Thanks to the great number of educational institutions in our land the colleges that tend to erroneous doctrines or that mercilessly feed the student to a monotonous mechanical daily routine gradually disappear from view and prove the validity of the Darwinian argument regarding "the survival of the fittest." Plain facts as we have said before are necessary but ideas are the warriors of the world today, as well as in Garfield's time.

It is evident that if a man is to be thoroughly fitted to enter upon this higher life promised by the history of college training that he must be prepared to many different influences, after passing through his course of study. Not only must he have the opportunities given in the libraries and lecture rooms but he must do something himself to gain the ends desired. Other faculties beside the memoric and calculating must be developed before a man can spend his life in doing the most good. The social part of one's nature must be developed in order that one may impart to others the truths at his command. There have been great men who have been deficient in this respect but not one but who could have gone far more for the world if he had been known his fellowmen, could have understood their natures, their hopes and desires, their sorrows and griefs. It is the well-rounded nature that succeeds best in the world. The greater the mental scope of such a nature the more will the world be benefited. To know is a great thing for the individual but to be able to tell what you know will be correspondingly beneficial to the community.

Now this is a department of one's education that books will not teach. Man is a social being by nature as he is an intellectual. But he must develop the social side of his nature himself. It is in response to the social instinct that wherever people dwell together we find cliques, circles and clubs.

In the world the family is the unit of social life. In college this unit has been replaced by clubs and these have developed and expanded into fraternities. The aim to be sought for is the same in both family and fraternity to mutually benefit and protect. Every family in society, every fraternity in the college, should have this thought uppermost. By so doing such organizations become of inestimable benefit to all connected therewith. Feelings, interests and aims draws together kindred spirits. The community of ideas and purposes is ascertained and by organized effort the individual forces produce the greater result.

Towards the end of the first quarter of the last century the social life of our colleges had become relatively barren when compared with the fact that life was becoming richer and the spirit of the times more diverse. As one of the only means of relaxation countenanced by the faculties were open debating societies which met on the college grounds and to meetings of which both professor and student might go. The restraint imposed by the presence of the professors did not increase the popularity of these gatherings and they languished accordingly. Something more nearly corresponding to the family life was needed. It was to the opportunity for the college fraternity.

Regarding the starting of the first Greek letter society Phi Beta Kappa three traditions have been handed down. One asserts the founding of the order to Thomas Jefferson another claims that the new society was an offshoot from a Free Mason's lodge, a third states that it was brought from Europe. Suffice it to say that December 5, 1776 John Heath Thomas Smith, Richard Booker, Armistead Smith, and John Jones met at Williamsburg Virginia in the very room where Patrick Henry had voiced the revolutionary spirit of Virginia and there gave to the William and Mary college the honor of having the first Greek letter society formed within its limits. The name was given in honor of one of their members being the best Greek scholar in the institution. Quoting from their ritual, the society was formed with "Friendship as its basis, and benevolence and literature as its pillars." Membership was confined to those of the senior class who were esteemed for good fellowship and literary ability. In all, seven chapters were established, Zeta and Eta being respectively at Harvard and Yale. Owing to the excitement of the Revolutionary times, the societies lost much of their spirit, the proceedings became more and more formal and perfunctory and in 1831 their motto, "Philosophy, the guide of life," was made public. The organization as it exists today is purely honorary, its badge a mark of scholastic distinction.

The next noteworthy organization was the Kappa Alpha Fraternity founded at Union College in 1825. A conservative body, it has never established but seven chapters, but it was marked from the first by the true spirit of fraternity, the spirit of brotherhood. The subsequent growth and development of this spirit has brought under the warm light of its kindly and elevating influences thousands and tens of thousands of the best American citizens, men of education and refinement, men who have found the pledges of their youth cordially endorsed by the riper judgment of maturer years.

The early life of the fraternal system was not an easy one. Because they held themselves free from the intrusion of the faculty for one night in the week, and adorned their badges with Greek letters, all evil and rebellious conduct was charged against them. The Morgan Free Mason incident which occurred at this time, aroused strong opposition to all secret organizations and the fraternities suffered. On one occasion the feeling became so strong that the members of the Kappa Alpha chapter, at Williams, were obliged to forcibly repel a night attack upon their house made by a party of anti-fraternity men. The change in public sentiment may be seen when we consider that Princeton is now the only college of note which excludes fraternities. And there a large percentage of the students are enrolled in two secret literary societies, Clio hall, founded in 1765 by Oliver Ellsworth, later chief justice of the Supreme Court, and Whig hall founded in 1769 by James Madison, later twice president of the United States. As the world has learned more and more of the value of the fraternity as a social and moral adjunct to the college, the growth of these organizations has been rapid. Today there are one hundred one different organizations and these number their members by thousands. From the "log cabin" erected by the D K E at Kenyon College in 1855, has come such fraternity houses as the Alpha Delta Phi house at Yale, and the Delta Upsilon and Chi Psi houses at Cornell, the latter being one of the finest buildings connected with the University.

Now since the primal idea of fraternal life is that the members may be mutually helpful to each other, it follows that any society or organization that has any other purpose in view is not entitled to the name. A company of young revellers could form a society for drinking and vice, but it would be the height of injustice to the college world to call such an association a fraternity.

The fundamental principles of true fraternity life were expressed in the P B K constitution friendship, benevolence and literature. Any organization conducted upon different principles should have no recognition in the Greek letter world. When a church holds ideals other than those of justice and purity, it is no longer regarded by the public as a church. A university which maintains standards other than those of the highest truth and enlightenment forfeits its right to be called a university. It is just as much a misnomer to call any society a fraternity which does not stand for the highest moral and social development.

In estimating the influences of a fraternity we will roughly divide the forms of pressure brought to bear upon the members into two heads, outer and inner. The outer pressure is mainly the reputation of the order. The member is responsible for the good name of the chapter and the badge. No one likes to bring discredit upon his own circle of friends, else would be less than a gentleman so to do. Furthermore such unwise action means death to the erring member in the college world. To be expelled from a fraternity practically means ostracism in every college where the aggrieved fraternity is represented.

Again very soon after the fraternity is started it has a constantly increasing body of graduates sobered by the duties and experiences of life. These graduates closely watch their college brethren and are the first to condemn among them any action which is likely to injure the fraternity. No chapter can afford to lose the approval of its graduates. Rather they are glad to avail themselves of the experience and aid of their older brothers.

The chief aim of the chapter is not to possess the negative merit of doing nothing wrong, but as previously stated to do something good. So from the beginning, the member's life is closely watched. Not every candidate is admitted into the secrets of the order. His record as to moral and intellectual attainments is carefully looked into, and his personal habits must be such as to insure the congeniality demanded by such an order. As a rule fraternities do not regard money or position, but are on the lookout for men. A small chapter, judiciously selected, will attain more power and derive greater benefit than a larger number enrolled with less discrimination.

Nor does the work of the chapter cease when the initiation ceremonies are over. The new member is carefully watched, and if found at fault is criticized kindly but with great candor. The upperclasmen gladly aid him in branches of study that he finds difficult.

President White of Cornell states that more than once, when some member of a fraternity has been careless in conduct or study, he has summoned senior members of the chapter, discussed the matter confidentially with them, dwelt upon the injury the man was doing the fraternity, and insisted that it must reform him or remove him. This expedient has often succeeded when all others had failed. The older members of various fraternities have frequently thus devoted themselves to the younger in a way which would do honor to a brother laboring for a brother. A considerable number of young men has thus been rescued from courses which might have brought great sorrow to them and to their families. The meetings of the chapter are also conducted in a manner [illegible] calculated to develop the members. [illegible] the spare time is devoted to [illegible] and musical topics or, should the [illegible] od of examinations be drawing [illegible] to "quizzes" upon the topics of [illegible] mount interest.

Again the fraternities, while reducing the evils of social gatherings to a minimum, bring out of them the positive good. Graduate members are often present at their little gatherings they may be members of the faculty citizens of the adjacent towns, [illegible] visiting former pupils; in any case they lift the gathering into a far better region than it would probably attain without such influence.

As such old members come into the chapter session, note the places of old friends long gone, and hear the old songs sung, a flood of recollections come in upon them. They are sure when called upon, as they always are, to speak to their younger brethren from the heart, and few speakers are more likely to find their way to the hearts of the listeners. Such brotherly feeling by no means fosters the spirit of rivalry of the old literary societies. On the other hand, it tends to do away with the narrow clique spirit.

Without such social acquaintanceship cliques would be multiplied fourfold. The political millenium in American institutions has not yet entirely attained its zenith, but it is to be hoped that the time is near at hand when men shall be recognized as men.

(Continued on page 4)

Campus Comment

Dear Ed:

Many verses of the "college [illegible] type have recently been handed [illegible] publication in the new literary [illegible] zine, and while these are often [illegible] we wish to state that we cannot [illegible] use of them in a magazine of [illegible] which we are trying to establish [illegible] does not mean that we do not [illegible] to introduce the element of humor [illegible] our paper, but there is a vast [illegible] ence between humor and [illegible] humor," especially in poetry. [illegible] poetry of a humorous type which [illegible] tempts to say something and [illegible] well, will be given serious consideration; any other matter should be handed into the Cynic Wetness.

DEAN PERKINS HOLDS RECORD FOR SERVICE

The Associated Press sent out recently for publication by member papers the following story about an honored teacher at the University of Vermont:

The opening of the fall term at the University of Vermont will see Dean George Henry Perkins of the department of arts and sciences commence his 58th consecutive year of that institution.

Dean Perkins has served as curator of the University museum for 55 years, vice-president of the University for 29 years, and acting president for two years, from 1917 to 1919. He also has been state geologist for 29 years and state entomologist for five years.

When Dean Perkins began in 1869 a period of continuous teaching in one institution unequalled in the United States, he had just received his Ph. D. degree from Yale University, from which he had been awarded the A. B. degree, *cum laude*, two years earlier.

He first taught "Animal and Vegetable Physiology," or zoology and botany, in modern terminology. In 1881 he became Howard professor of natural history. He was made dean of the newly created department of natural sciences in 1898 and in 1907 became dean of the combined department of arts and sciences.

Dean Perkins made many visits to western mining districts, went to Hawaii in 1905 to study volcanoes and in 1910 made a trip around the world, collecting material and specimens for the course in general anthropology which he still conducts and bringing to the University museum several excellent collections in various fields of science.

He was for a time president of the American Academy for the Advancement of Science, and is a member of numerous other scientific societies, besides holding membership in the Beta Theta Pi Fraternity at Knox College, Pennsylvania, Phi Beta Kappa at Yale University and Delta Psi at the University of Vermont. He has been awarded several honorary degrees in recognition of his work.

CERAMIC ARTS COURSE OFFERED AT OHIO U.

Ohio State University, meeting a need within the state's pottery industry, has introduced a course in ceramics, which will lead to a degree of bachelor of ceramic arts. The course is designed to give the registrants complete knowledge of the technology necessary in the pottery industries. So few are the experts in this field that the student who registers for the work does so with the knowledge that he will not face the usual job-hunting task. Rather, he will merely need to choose between many offers.

FROM THE WINDOW

It's been snowing on the mountain.
Where the blue sky meets the white
They form a deep, a striking contrast—
Beautiful, inspiring sight.

It's been snowing on the mountain,
Snow and green in valley too.
And the e'ergreens dot the blanket,
Like fresh flowers 'neath the dew.

It's been snowing on the mountain,
Golden is the sun that beats.
Purple, olive, dark-blue shadows—
Its creations— beauteous feats.

It's been snowing on the mountain;
Dusk has fallen. As I sit
'Side my window, gazing, dreaming,
I pause a while; I think a bit—

BUM LIKE GENTLEMEN

(From New Student)

"Better bumming or none at all" is the warning Mayor Zeb Council of Chapel Hill has issued to the students of University of North Carolina. Motorists, said the mayor, have complained that students seeking rides have cluttered the highways beyond comfort and safety, and that these collegians, when refused lifts, have thumbed their noses at the motorists and otherwise outrageously insulted them. *The Tar Heel*, loathe to believe such ... attack on the university's students, ... for more convincing details—and ... them. So Carolina boys have been asked to bum with courtesy, lest the mayor and council ban them from the auto paths.

Professor: These aren't my own figures that I'm quoting. They're the figures of a man who knows what he's talking about!—*Grinnell Malteaser.*

NORTHEASTERN U. WILL ADOPT FIVE-YEAR PLAN

(The Northeastern News)

Beginning in September, 1929, the Day Division of Northeastern University will offer five-year co-operative programs in Engineering and Business Administration instead of the four-year plan now in operation. The present four-year schedule will be entirely discontinued. The extra year has been added to enable the inclusion of more courses of cultural value in the several curriculums, and to better distribute the work already offered by the professional departments. No change of the degrees granted by the two schools is contemplated, and although much refinement of detail remains to be accomplished, announcement of the new five-year plan will appear in the 1928-1929 catalogs.

It has been evident that graduates of the Day Division are adequately prepared in their professional fields to maintain positions of responsibility and trust in civil life. Our alumni have made splendid achievements, indicative of the fact that instruction provided in the several curriculums has been both adequate and effective insofar as technical content is concerned. At the same time it has become more and more evident that the largest opportunities are open to those men who have attained a cultural background as well as technical proficiency. The trend of the times is toward the inclusion of liberal and humanistic studies in specialized curriculums.

Our concentrated four-year program has not permitted time for the pursuit of such studies. It would be impossible to include any such courses on the present basis of operation without seriously overburdening the student. The new program has been approved by the Board of Trustees of the University and hailed with delight by faculty, alumni, and students, who have been for a long time urging a broadening of our program to include more liberal subjects. The five-year program ushers in a new epoch in the history of the Day Division.

Heard last Wednesday after chapel: Pike to Macomber, as he was coming from chapel, "How was chapel, Mac?" Mac, "Oh, fair."

We have heard that many of the freshmen have never been in the museum, after about three months here. We would advise them to drop in some afternoon and see the University seal.

Tuesday, November 15, 1927, practically all of the freshmen and sophomore medics left for a relief trip of four days' duration.

RIFTS IN THE IVY

(From New Student)

How times have changed since Mr. Herbert Horwill wrote his article for *Harpers* some twenty years ago denouncing our "monastic" colleges. While educators would do well to consider the criticisms made in this article it must be conceded that some powerful rifts have been made in the ivied walls, rifts through which nipping gales from the outside blow hard. The other day several Yale students were arrested for taking part in a New Haven garment strike. That is a new kind of education, unheard of when Mr. Horwill wrote his challenging article.

We were all the more impressed by the changes that have come about in our monastic colleges when we read some of the reports now appearing in college papers on summer travel. It seems that many students are not content with seeing the world through a library window. Witness the course in History II, described at length in the *Hunter College Bulletin*, covering England, Europe and the Atlantic Ocean. "In England, lectures were given in the hotel reading rooms and this practice was continued on the continent wherever possible. Conferences and discussions were held on the trains and on the steamers. On one occasion, when the group had climbed to the top of Milan Cathedral they sat on the marble roof and listened to a lecture on the Lombardian Plain which stretched far below them, and a few days later they gathered around a table on the promenade deck of the *Duilio* as it journeyed from Genoa to Naples, and listened to a lecture with Elba and Monte Cristo in the distance."

It is to be hoped that this tendency in education is but in its infancy. If so, we shall soon be sweating out our education in industrial economics in steel mills, learning our geography in motor busses and perfecting our knowledge of foreign tongues by practice in the country where the language is spoken. Education will then be fraught with reality and meaning. Colleges will then become places to register at the beginning of the term and to check out (with diploma) four years later. We shall resort to them in the interim only to read a book or to discuss some problem with one of the learned men who will still linger there.

"Step-Ins" is a cut-down flivver.

GIRL SCOUT LEADERSHIP COURSE TO BE OFFERED

A training course in Girl Scout Leadership is to be given at this University the last of this month. The course will be the same as the one given in 1925 and should be of interest to every woman of U. V. M.

It offers an opportunity to learn what scouting is and how to manage a troop. There are many here in college who have been scouts and know what fun it is and many others who would enjoy it.

Girl Scouts began in America in 1912 at Savannah, Ga., and since then has spread to all parts of the country. Girl Scouting has not as yet a strong foothold in Vermont but this course offers a means of introducing its joys and advantages to the girls of the state. There are at present two troops in the city with promise of others when more leaders are found.

Miss Ruth Hedlund, regional director of Girl Scouts of New England will conduct the course at U. V. M. She will arrive here November 28. The classes will probably be held in the evenings.

First Hobo: Were you a college man?
Second Hobo: Another insult.

Officer: But why do you object to military training?

Private: Because it encourages smoking.

Officer: How do you get that way?

Private: We always have a butt in our hands.—*Springfield Student.*

THE DOPEFIEND

By Nero Gwynn

[illegible] the smoke of the gridiron [illegible] and classic grid tilts Football [illegible] dope for elsewhere years [illegible] pre-season [illegible] we pass the [illegible] of the pennant. This is more [illegible] than glorious. One game itself [illegible] a season three of such dopes as [illegible] Georgia or any [illegible] is hard to pick [illegible] Several dopesters have [illegible] together and [illegible] of the All Vermont [illegible] and also [illegible] All Opponent [illegible] from those who have taught [illegible] Catamount eleven. With [illegible] such teams as Harvard and Columbia [illegible] a school goes wholly from [illegible] We have taken the [illegible] in accordance with the way [illegible] played against the Green and [illegible]

On the All Vermont team there were [illegible] players. Four Middlebury [illegible] and three Catamounts placed on [illegible] Four Norwich boys Cats and [illegible] Molds on the second.

ALL VERMONT

FIRST TEAM

R E Palmer Middlebury
R T Wissenbach Vermont
R G Bedell Middlebury
C Beveridge Norwich
L G Kreppner Vermont
L T Huntington Middlebury
L E Ellis Norwich
Q B Sherman Norwich
R H B Kane Norwich
L H B Guarnaccia Middlebury
F B Smith Vermont

SECOND TEAM

L E Jones Middlebury
L T Bapstem Vermont
L G Molter Norwich
C Webber Middlebury
R G Levine Vermont
R T Hourin Norwich
R E Stroes Vermont
Q B Gollnick Middlebury
L H B Conway Vermont
R H B Warning Norwich
F B O'Donnell Norwich

Palmer and Ellis have the pick [illegible] out a doubt. Ellis also [illegible] Sophers punter and Palmer [illegible] strongest defensive player. [illegible] nach and Huntington take [illegible] es. Wink being a great offens[illegible] defensive player and Hunting[illegible] always in the play plugging [illegible] Cats in him. In Bedell and K[illegible] one will find two able guards. K[illegible] is a 200 lb giant and Bedell [illegible] so small and very few plays [illegible] through their section of the [illegible] Sherman is undoubtedly the best [illegible] ter in the state. He has a good [illegible] aging head and knows how to [illegible] out his opponent's weakest [illegible] Kane and Guarnaccia are two [illegible] broken field runners and forward [illegible] ers and are hard men to tackle [illegible] told by the number of yardage [illegible] gained. Guarnaccia is also a wonderful fine kicker and could easily be [illegible] in at fullback. Smith is the best man for fullback as he is the best [illegible] ter in the state and a clever ball [illegible] passer. 'Jack' was handicapped [illegible] months this season but still was [illegible] position thanks down. He [illegible] cent's strongest defensive player [illegible] is a hard and sure tackler. He [illegible] chosen captain because he has leadership ability as was shown in the Norwich game when he went into the game [illegible] the team immediately started [illegible] being march.

All the members of the second [illegible] give the others a close run and [illegible] a difficult task to settle [illegible] positions. There may be some [illegible] from about Burstein, but many [illegible] that if he had been at tackle [illegible] in the season that side of the [illegible] might have been stronger. He [illegible] a whale of a contest against the [illegible] Panther aiding Macomber in the [illegible] long run for a touchdown.

The All-Opponent Team may [illegible] a great deal of comment, but a [illegible] study has been made and we [illegible] finally picked this group of [illegible]

THE ALL-OPPONENT

FIRST TEAM

R. E.—Palmer, Middlebury
R. T.—Pratt, Harvard
R. G.—Adler, Columbia
C.—Bell, Harvard
L. G.—Lawder, Williams.
L. T.—Fitzgerald, Tufts. (Capt)
L. E.—Furey, Columbia
Q. B. Ellis, Tufts
L. H. B.—Madden, Columbia
R. H. B.—Guarnaccia, Harvard
F. B. Nordyke, Springfield

SECOND TEAM

R. E.—Ellis, Norwich
R. T.—Jenkins, Springfield
R. G.—Cornell, Columbia
C.—Beveridge, Norwich
L. G.—Parkinson, Harvard
L. T.—Hansen, Tufts
L. E.—Lord, Harvard
Q. B.—Williamson, Springfield
L. H. B.—Guarnaccia, Middlebury
R. H. B.—Daris, Springfield
F. B.—French, Harvard

HONORABLE MENTION

Ends—Austin, Tufts; Jones, Middlebury.

Tackles—Huntington, Middlebury; Hourin, Norwich.

Guards—Bedell, Middlebury; [illegible] Tufts, Simond, Harvard; Molter, Norwich.

Center—Connors, Providence, [illegible] Tufts; Webber, Middlebury.

Quarterbacks—Kump, Columbia; Sherman, Norwich; Gollnick, Middlebury.

Halfbacks—Kane, Norwich, Cr[illegible] Harvard; Steeves, Springfield; [illegible] ley, Columbia.

Fullback—Burns, Harvard, R[illegible] Columbia.

As an end there are few better [illegible] Furey of Columbia. He has been [illegible] tioned often by sport writers pr[illegible] all-American teams. Palmer of M[illegible] bury is an exceedingly good end [illegible] small college and earned the [illegible] end. Pratt, Harvard captain and [illegible] and Fitzgerald of Tufts were p[illegible] for the tackles. Pratt needs [illegible] mention being captain of Harvard [illegible] Fitzgerald has been picked for [illegible] American teams. He is the kicker [illegible] the undefeated Tufts team and [illegible] their greatest defensive man. H[illegible] the best tackle that went up against the Cats this season. Adler and [illegible] der are strong guards and p[illegible] great games against Vermont. Be[illegible] Harvard is also an all-American [illegible] pect and leads all the other opp[illegible] centers by a wide margin. Ellis [illegible] the undefeated Tufts team [illegible]

The Vermont Cynic

LUME 4[illegible] BURLINGTON, VT., FRIDAY, DECEMBER 2, 1927 NUMBER 18

NGFIELD ANNEXES RMONT'S LAST GAME BY SCORE OF 24-0

And White Team Prove to tclass Catamounts in Last Game of Season at Springfield

[illegible] played on a soggy field [illegible] rainstorm Springfield defeated Vermont 24—0. Red and White collegians outplayed the Green Mountain boys in all parts of the game except punting in which the honors between Eddie Williams, Springfield's quarter, and [illegible], Vermont's captain and fullback were about even. The annual [illegible] clash between these two teams was rather disappointing to the fans and players, for only in first quarter did the Catamounts show the brand of football that they are capable of. The Green and Gold gridsters were able to make only four first downs through the stonewall line of the Red and White City boys.

The Red and White linesmen seeped through their opponents line many times to throw the opposing backs for losses. Fumbles were costly and when the Green Mountaineers started down the field in the first quarter a poor pass by Smith upset their chances. On a fumble by Estabrook, the Red and White was able to make its first score. The opposing backfield tore off many long runs and line plunges that accounted for a great deal of yardage. Captain Williamson, Springfield's quarterback, played an exceptionally strong game and was the main cog of both the offense and defense against Limoges, Reeves, Duncan, Jenkins and Davis, the Vermont eleven could do little and they were the main factors in Springfield's win.

Sirois Plays Well

Sirois showed the best brand of football that he has played all season. He was the Green and Gold's strongest man on the defense, breaking through the line many times to make hard tackles. Captain Smith also displayed his old form in booting even though the ball was wet and heavy from the rain. Jack is always one of the stars on the defense, and he stopped many of the Red and White's dashing backs before they had gained any ground.

Springfield Undefeated

This makes Springfield one of the undefeated teams of the East, although they tied two games. Tufts is the other and Vermont went down to defeat before them both.

THE GAME.

Vermont began the game with a kick and for the first few plays completely [illegible] the Red and White off its feet. Williamson kicked off, the ball coming to the Vermont 15-yard stripe. Estabrook picked up the ball and carried it to his own 37-yard mark. Conway went off tackle for an eight-yard gain and made first down on the following play. Macomber carried the ball to the 45-yard line and Conway made three more yards, the ball resting on the Vermont 48-yard stripe. Here the Springfield line tightened and three successive thrusts by the visitors backs did not gain an inch. Smith punted on the next play, Williamson receiving the ball on his own 20-yard line. He ran it back eight yards. Vermont could do little with the Springfield mountain line and Williamson punted to Vermont's 40-yard stripe.

Kicking Duel

Three successive bucks by Conway and Macomber gave the vistors their first down on Springfield's 48-yard stripe. Estabrook made five yards around left end. On the next play Vermont was offside. Smith then elected to kick for a kick and booted the ball to the Springfield 20-yard line. Springfield backs hit the Vermont line without a gain and Williamson punted a punt to the Vermont 40-yard stripe.

Vermont kicked right back to the Springfield 20-yard stripe. On the next play Davis circled right end for 15 yards and the Red and White's initial first down. Again the visitors held and Springfield was forced to kick. Williamson's boot went 40 yards to Vermont's 10-yard stripe. Vermont returned the kick on the first play, the ball going to the Red and White 45-yard stripe. Williamson again kicked to the Vermont 10-yard line. Smith, on the first play, got off his poorest punt of the season. It went only 10 yards, giving

(Continued on page 4)

CO-ED COURT PRACTICE BEGINS NEXT WEEK

With the passing of soccer and hockey, sports' enthusiasm will soon be transferred to the basketball court. Practices will probably begin about December 6. Approximately sixty-five girls have signified their intention of playing this season, the Freshmen having the largest representation. Many of the girls have had three or four years' experience in filling the various positions. The class schedule will be posted on the W. A. A. Board.

The second class in methods of teaching basketball will be given this afternoon at two o'clock. A new class will be started Saturday at eleven thirty for those who are unable to attend the Friday class.

BACCHANALIAN ORGIES ENJOYED BY MINORITY

(*By New Student Service*) "All this talk about the young folks going to the dogs and drinking themselves blind is pure nonsense. . . . Colleges are apt to have a reputation for being wet because the shortcomings of a few students get into the papers as typical of all students. If two or three college fellows get drunk and cause a fuss, the story can promptly be found in all the newspapers, but no mention is made of the 10,000 or 20,000 students who ostensibly do not drink."

That was W. E. "Pussyfoot" Johnson's dispensation to the college man, as reported in the *Harvard Crimson*. Mr. Johnson evidently has faith, for he lightly dismissed the uncovering of a still in an Iowa State University fraternity house, as insignificant when compared to the "400 or 500 colleges in the country that have no stills."

Iowa State University is less complacent, and while several members of the Sigma Chi fraternity are under arrest on charges of maintaining a still in their cellar, and its alcoholic products in their rooms, other fraternity heads are making clear that liquor is found on "the most ideally regulated campuses." They deny, of course, that the situation is as serious as "commonly held."

Purdue students will have opportunity to survey the liquor problem from a more abstract viewpoint some time before the opening of Congress, when Senator William E. Borah will meet in debate on the campus some nationally known proponent of modification, in a discussion on the Eighteenth Amendment. The debate has been arranged by the Purdue public speaking department.

Whatever the degree, student drinking continues to demand the attention of presidents and courts. When Dr. William Mather Lewis recently was inaugurated as head of Lafayette College, he lost no time in making clear that "There is no place at Lafayette for men addicted to the use of liquor, and we do not intend to have them here."

When two midshipmen from the Naval Academy were arrested recently after a supposed "drinking bout," as the press reports called it, the court placed no charges against the two men, but instead started efforts to stamp out the Annapolis sources of intoxicants.

Almost coincident with the announcement of the Intercollegiate Prohibition Association that it would start a drive on college wets, numerous law violations sprang up, much as if to show the association that it has a fertile field in which to operate.

SURVEY PUTS STUDENT ACTIVITIES AT BOTTOM

(*By New Student Service*) "Experiences derived from participation in student activities are considered least valuable by alumni, according to the results shown in a survey taken by Prof. Charles E. Watkeys, director of statistics," reports the *Campus* of Rochester College. It is reported unofficially that the news caused several nervous breakdowns in the ranks of present student leaders.

Training in methods dealing with facts and problems were placed first by the men, and the foundation of a liberal education, second, as the most valuable holdovers from college days. The women reversed the order, but both groups placed student activities, acquisition of information and vocational courses at the bottom of the scale.

1931 PICTURE

Class pictures of the Freshmen will be taken Saturday morning at 12:30 in front of the Billings Library.

NOTED HISTORIAN WILL LECTURE HERE TONIGHT ABOUT "MYSTIC ROME"

Professor Ivanovich Rostovtzeff, of Yale, Authority on Ancient History, Will Speak At Science Hall

This evening at eight o'clock Professor Michael Ivanovich Rostovtzeff will deliver the second in the series of University lectures. His subject is "Mystic Rome," and his talk will be accompanied by lantern slides. The lecture, which should prove of great interest to everyone interested in the classics, is free, and a cordial invitation is issued to students and townspeople.

Professor Rostovtzeff, one of the most distinguished of living historians of the ancient world, is professor of ancient history at Yale. He was born in Russia fifty-seven years ago, and there received his education. He taught in Russia until 1920 when he was compelled to leave his country. He was professor of ancient history in the University of Wisconsin from 1920 to 1925, and since then has been at Yale. As an author of works and articles on ancient Greece and Rome, he is a recognized authority. His most recent book, "The History of the Ancient World," in two volumes, written in Russian and translated into English by J. D. Duff, is acknowledged to be the best general work in English on this subject. "Few scholars," says a reviewer, "have attained such easy mastery of so vast a material and have so seldom lost sight of the woods in contemplation of the trees." Dr. Rostovtzeff holds honorary degrees from the Universities of Leipzig, Oxford, and Wisconsin. Aside from his noteworthy contributions to our knowledge of the past, he has the power to present his discoveries so that they catch and hold the attention of his audience.

PRIZES OFFERED FOR WRITER'S VERSATILITY

The Writer magazine announces a prize contest the purpose of which is to prove the versatility of its readers in writing brief prose and verse forms so much in demand in the current magazines. A series of prizes has been offered for the best contributions received. The contest will last through the coming January, February and March. A prize of $25.00 is offered for the best contribution received each month, and a prize of $50.00 is offered for the best contribution of the three months. A subscription or renewal is offered for each contribution published.

The nature of the material which may be entered into the contest and the minimum and maximum lengths are as follows: The brief familiar essay (500-1000 words); informal personal sketch (300-600); tabloid book review (50-100); humorous or satirical sketch (100-300); the sonnet (14 lines); the rondeau (13 lines); the triolet (8 lines); humorous verse (not more than 20 lines; not free verse).

All manuscripts should be signed by pen names, the authors' real names, addresses and occupations accompanying in a sealed envelope. There is no limit to the number of manuscripts that may be entered into the contest. Manuscripts received before the 5th of each month will be considered for inclusion in the following issue. All manuscripts whether printed or not will be considered for the final prize to be awarded at the close of the contests, April 1, 1928. All entries accompanied by a stamped return envelope will be returned at the close of the contest.

The contest is open to everyone and all contributions should be addressed to Contest Editor, 311 College House, Harvard Square, Cambridge, Mass.

PANHELLENIC SUSPENDS AVERAGE REQUIREMENT

A 75 per cent. average will not be a requisite for pledging to women's fraternities this year according to a decision reached by Panhellenic council, which met Tuesday evening in the Marsh Room in the library. It was thought inadvisable to introduce a definite pledge average now because notice had not been given to the Freshman girls at an earlier date. The matter was left in abeyance; but the plan will most probably become effective in 1929.

GREEKS SPENDING TIME ON PLAY REHEARSALS

Eta Sigma Phi, the Greek honorary society, held a business and social meeting at the home of Prof Bassett Tuesday evening, November 29. The Society had as its guests Prof. and Mrs. Metcalf, Prof and Mrs. Bennett, and Miss Patrick. Prof. Metcalf is coaching the Greek play "Iphigeneia in Tauris," which the members of the society are presenting. Prof Bennett is directing the music for the play and Miss Patrick is in charge of the costumes. Although no definite date has been set for the production, it probably will be given during the second week of January, in the cage of the gymnasium. After refreshments were served by Mrs. Bassett, the meeting was adjourned.

THANKS RECEIVED FROM WATERBURY & JOHNSON

It would appear that the Vermont students' relief work had not been done in vain. This work donated by Vermont men has been acknowledged by letters from men representing the stricken localities. As members of the state university they have but accomplished their duty.

November 25, 1927

GUY W. BAILEY
President University of Vermont
Burlington, Vermont

My dear PRESIDENT BAILEY

There is no way whereby I can express the appreciation of the people of the community for the splendid work which the students of the University have done by coming here and assisting in the work of cleaning up. There was so much to be done that it seemed almost a hopeless task but your students assisted more than can be understood except by one who was here in that work, and by such assistance gave the people of this community a new incentive to attempt to dig themselves out, as it were.

May I express to you and to students who have assisted and to all who have made such work possible the heartfelt thanks of a grateful people for the very material assistance given to them in a time of need. Such work and the effort necessary to make such work possible will never be forgotten.

Very sincerely yours,
CHARLES B ADAMS,
Chairman

Waterbury, Vermont.

November 20, 1927

PRESIDENT GUY W. BAILEY
The University of Vermont
Burlington, Vt.

My dear DR. BAILEY:-

I want to express my very deep thanks for the excellent service groups No. 1 and No. 2 rendered my church a few days ago. The flood left our church in a sad state of wreckage. Cleaning it looked hopeless enough with a right good will the Medics operated on it getting it into such shape as will permit the repairing of the floors and organ when we receive financial help. I think that five housand dollars will enable us to make the church like its former beautiful and worshipful self.

To see the small army of huskies coming down Main Street was like the beleaguered of some city long awaiting the sound of friendly bugles and the sight of friendly uniforms securing aid in the nick of time. We shall long remember the relief the coming of your students brought to us.

Sometime I would like the names of the men who worked in my church.

With deep gratitude in my heart, I thank you.

Fraternally Yours,
RUTHERFORD H. MOORE.

Waterbury, Vermont

Nov. 22, 1927.

PRES. GUY W. BAILEY
University of Vermont
Burlington, Vt.

Dear MR. BAILEY:-

As a citizen of Johnson and one deeply interested in the relief work for this community I wish to convey to you and those young men who came here last week, my appreciation for the help that they gave us.

The efficient manner in which they did their work combined with willingness to do it makes me proud to know that they are connected with U. V. M.

SOPHOMORES PRESENT FOOTBALL HOP AT GYM ON SATURDAY

Graduating Football Letter Men Will Receive Blankets From The Students At Dance Held at Conclusion of Season

The football hop, the first contribution of the class of 1930 to the social calendar, will take place tomorrow evening in the gymnasium from 8:30 to 12. Joe Lechnar's Vermonters will furnish the syncopation and Coach and Mrs. McAvoy, Captain and Mrs. Rattan, Dr. and Mrs. Aldinger and Coach Dresser will be the chaperons.

Two features which the committee in charge of the dance, headed by P. E. Manning, have planned are the awarding of the V blankets, which are given each to the senior letter men by the Key and Serpent Society and the announcement of the captain, manager, and assistant managers of football for next year. The men who will receive blankets this year are Captain Smith, Manager Stevens, Conway, Winchenbach, and Leary.

The committee on decorations, consisting of Anne McLaughlin, Irene Marcotte, Dorothy Kimball, Marjorie Huntley and Mabel Freeman, have planned to make the hall attractive with college and fraternity banners, and with streamers of green and white, the sophomore class colors. Refreshments of punch will be served, the committee in charge being composed of W. J. Slavin, Jr., and J. A. Bradish.

The advertising and arrangements for programs were under the supervision of R. G. Hawley, J. E. Puffer, and F. E. Beer. P. E. Manning, R. A. Lawrence, and H. D. Butterfield had charge of the music, and L. O. Clayton was named to take care of the lighting effects.

NEWS IN BRIEF

The Women's Press Club met Friday noon, at one-thirty, in 3 North College. Routine business was discussed and plans were made for the next social meeting.

The Women's Dramatic Club will present the three class plays, Friday evening, December 9, in the Gymnasium. The Juniors will give "Pearls", the Sophomores, "For Distinguished Service", and the Freshmen, "Two Gentlemen of Soho". Following the plays there will be a dance sponsored by Y. W. C. A. Admission for the evening's entertainment will be 50 cents apiece and one dollar a couple.

There will be a meeting of Bluestockings, Sunday, December 4, at the home of Laura Bliss, 32 Bay View Street. It is suggested that any who are not well acquainted with the city meet at Robinson Hall and go down in a group. A special program has been planned to welcome the new members. The meeting is to be called at prompt eight o'clock.

The Reverend E. C. Boynton of Rutland conducted the chapel service Wednesday morning. He took as his text, "Bless them that curse you, do good to those that hate you." He pointed out that to follow the teaching of those words was to start on the "Royal Road to Romance." He urged us to keep our sphere of friendliness unbounded and to break through the petty barriers of enmity. In closing Dr. Boynton stressed the importance of letting the spirit have freedom, by disregarding all enmities.

Monday evening Sigma Delta held initiation ceremonies for the following men: E. O. Dalrymple, '28, of Orange, N. J.; L. G. Cowles, '29, of Burlington; R. S. Beck, '30, of Chelsea, and R. H. Burbank, '30, of Chelsea.

FACULTY PICTURES

The faculty of the Arts and Sciences College will have their pictures taken Monday, next week, the Engineering Faculty, Tuesday and the Agriculture Faculty, Wednesday. The time in all cases will be 1:30 and the place in front of the Billings Library.

arvard to Teach Sciences Through Medium of Motion Picture Series

...lty through its Pres... Lowell, has just ... a film company for ... pictures on scientific ... pictures are destined ...niversity, college, and ... they will be so filmed ... appropriate for the ...rch, the club or other ...

... Division of Anthro... study of mankind at ...ecially interested, but it ... this movement toward ... will extend itself into ... subjects. Graduate ... Harvard are now work... ... company's vast library ... among the millions of ... there the parts that they ... most value. The work ...duate students after the ... been made is to classify, ... and title the film.

... highly interesting and ... collected from all parts ... relating to scientific expedi... and investigations is to be made public. The universities and colleges will have one set of pictures of a highly technical nature which will follow closely the courses given there. In this way, smaller educational institutions that are unable to support large scientific enterprises may profit as well as the larger. Another series of pictures will be made for use in the high schools which although just as accurate scientifically, nevertheless they will be more easily comprehended.

The heads of the various departments at Harvard are supervising the editing of these pictures, thus assuring scientific accurracy.

This series of pictures will be ready for distribution by January 30, 1928. Distribution will take place from the film company's offices stationed throughout the country assuring everyone of an opportunity to witness them and benefit from their educational value. Profits accruing from them will go into a special fund created for more extensive production of the pictures.

STUDENT DRAWINGS IN CONTEST TO BE JUDGED BY NOTED ILLUSTRATOR

James Montgomery Flagg, dean of American Illustrators, has consented to criticize and make personal comments to artists who submit drawings of exceptional merit to Vermont publications and *College Humor* in their $2,000 art contest. For more than 35 years Flagg's illustrations have appeared in the leading magazines in America. His comments and criticisms impossible to be obtained in any other way should be invaluable to the fortunate artists.

Undergraduate artists may submit as many drawings as desired on any subject in black and white, before January 15th. Two other famous artists, Arthur William Brown and Gaar Williams, will decide with Flagg on the winning eighty-one drawings.

These original drawings by these three artists will be presented to the comic magazines or publications on whose staffs the grand prize winners are regular contributors.

JUDGE LINDSEY BARRED FROM CALIFORNIA "BRUIN"

(By New Student Service) Judge Ben Lindsey's "companionate marriage" lecture tour of the Pacific Coast, having caused consternation in ministerial ranks, has at last hit the colleges. On the order of Director Ernest C. Moore and Regent Edward Dickson the *Daily Bruin* of the University of California at Los Angeles, has been prohibited from printing any stories relating to the Denver ex-judge.

The *Bruin* published, as part of its United Press service, a dispatch from Portland, Ore., dealing with Lindsey's lecture there. Regent Dickson, owner of the Los Angeles *Express* and one time editor of the *Daily Californian*, decided that such stories have no place in student papers, and he so informed Director Moore, who obligingly placed the ban. It has not been reported that Mr. Dickson has deleted Lindsey news from his own publication that reaches ten-year-olds. The editor of the *Bruin* had little to say, but other college editors on the Coast and elsewhere are rising to deny that regents have the right of news suppression. Surprise also has been expressed that a former editor of a college paper, and present editor of a metropolitan paper, should cast the first stone. Lindsey is now in the South, so the *Bruin* will have plentiful opportunity of bringing about a showdown by disregarding the dictatorial edict of governing officials, and printing the news.

THE DOPEFIEND

The prospect for Vermont to have a strong gridiron team next year looks very bright. They will lose Winchenbach, Conway, Smith, and Leary among the best men. Smith will be sadly missed, because of his punting and "Wink" because of his all-around work. It is about time we annexed a state football title and next year would be a good time to start.

There have been questions in the minds of many this year about the team and its ability. Some games they looked like a million, but others not so "hot." This is liable to happen any team, but yet there must be something wrong some place. We hope that it is unearthed by next season.

Sirois and Kropper showed up very good this year and should be real stars the next time that they don the togs. "Ting" seemed to have more light this year and "Al" Sirois was always throwing the opposing backs for losses.

The Cats have even a stiffer schedule next season so that more will be expected of them.

There will be some strong players graduate from the Frosh eleven that should help to strengthen the team if they are able to stay in school. Watkins, Allen, Parks, Telber, Howard and Scutakes are all good men that may be groomed to be big Cats instead of little Kittens.

The new ruling worked pretty good this year and it now remains to be seen what effective changes will be made by the coaches and makers of football law.

The next meeting of Le Cercle Français, the French Club, will be held on Monday evening, December 12 at eight o'clock at the Vermonters' Club house on Summit Street. An interesting program is being planned which will perhaps include a short play in French, the singing of French songs, the playing of French games, and the reading of a paper on some French author, the members of the club to participate in these events.

Bookshop in Southern College Aids Students' Tendency Towards Reading

(By New Student Service)

I believe that the reading of good books induces the buying of books and that the owning of books is part of one's general education."

On that theory Howard Mumford Jones, Professor of English established the Bull's Head Bookshop on the University of North Carolina campus. He is above all a person of ideas and his ideas have had not a small part in making the Chapel Hill university a center of real learning in the south and the university the intellectual center of the state.

The Bull's Head Bookshop in name has a glorious sound like the Mermaid Tavern for instance. Actually its spirit is more nearly akin to the famous tavern than to a bookshop. For Howard Mumford Jones is not trying to grow rich selling books. He wants to see ideas grow and gain nourishment in his shop.

Room 214, Murphy Hall, that's the bookshop. It is a professor's office, and out of the line of student traffic. It was not decorated upon opening, with costly curtains of "other doodahs and addenda" to "take the curse of the academic off it" as Mr. Jones says. Some day it will have all that. But it is coming slowly, for the bookshop is not a money-making enterprise. It is a book center where students, aided by volunteer librarians, come to browse or to buy, as they choose. That is all Mr. Jones asks. He wishes to interest the students in books, and if they buy, and there are profits well enough. That means more books can be purchased, and 214 Murphy decorated somewhat. So far, much to the surprise of well-meaning persons who warned against the venture, the sales have been steady and fairly heavy. So it is said there are now curtains on the windows. Perhaps there are some easy chairs, too.

Mr. Jones needed courage for his plan because the southern public is not very much interested in books. North Carolina is a bit more learned than its sister states yet even in Chapel Hill the one store that dealt in general books had to give up for lack of customers. The sale on cheap magazines, however, was heavy, very heavy.

Howard Mumford Jones decided that book reading must be promoted. So The Bull's Head Bookshop was opened to meet the demand for other than text books and to stimulate a demand where none existed before. On a non-profit basis for anyone concerned and backed by the University book exchange as a worthy educational enterprise, the Bookshop was ready to lose money. But it didn't and it thrives.

Mr. Jones hopes for new quarters for the shop, a quieter place where students may find such tranquility as good books demand from their readers. His program runs on side by side with the book exchange. That deals in text-books, and second hand books. The Bull's Head goes definitely out of and supplements the text book field. Howard Mumford Jones did what no one else could do before, evidence that he did not merely meet but that he also created a demand for good books.

Elsewhere, college towns are full of bookshops that are crowded with everything from the classics to the most recent novel of Ethel Glyn. In these places it will be hard to picture just what has happened in South Carolina. Publishers will better understand, for they know how hard it has been for them to interest the south in books.

Chapel Hill has always felt somewhat as the leader in cultural paths in the south. Thanks to Howard Mumford Jones it now may be more at ease when it reiterates the boast.

NEWMAN CLUB TO HEAR A CANADIAN LECTURER

Major Guthrie, author and lecturer, will address the members of the Newman Club, composed of all the Catholic students in the University, at the next meeting of the club, which will be held next Sunday, December 4. The meeting will follow the eight o'clock Mass at the Cathedral of the Immaculate Conception, at which all of the members are expected to receive Holy Communion. The speaker will talk immediately after a breakfast which will be served to the members of the club at the close of the eight o'clock Mass in the Cathedral High School gymnasium.

Major Guthrie served in the World War, being attached to the Canadian forces. He has not appeared in Burlington before and his address will undoubtedly be highly instructive to the students.

The second issue of the Literary Magazine has gone to the publishers, and will appear about the twelfth of December. Contributions for the third number should now be sent in. All those who desire to try out for the editorial board of the magazine may send in material for the magazine to Rachel Skinner, 215 So. Prospect St. The elections, which will take place in the spring will be based on the quality of the work submitted.

Catamount's Lair

By Srednasal

To The Editor of The "Catamounts Lair:"

With the Thanksgiving Day game with Springfield College over the Vermont football season came to an end. The season has been far from successful in every way. The State Championship is again undecided because of the cancelling of the Middlebury-Norwich game. However this alone does not make the Catamounts season unsuccessful, but rather the fact that six games were lost and only two wins were chalked up for the Green and Gold. As usual Vermont should have won this or that game or would have made a better showing but for the weather conditions, but this does not win football games and this is what the student body and alumni want. For the past few years Vermont grid teams have been far from being good, by this one might think that they have been rotten all of the time, but this is the funny part of the matter, each year the Catamounts spring a surprise or two and the fans begin dreaming about olden times, but this leap into the limelight does not last long and by the time of the next game the team is worse than before.

At the beginning of this season everything pointed for a good season for Vermont. There were only two or three vacant positions left from last year and from all indications it looked like Vermont was out for a banner season, but what a flop.

There is something radically wrong somewhere but just where is hard to say. Next year the whole squad returns with the exception of Captain Smith, Conway and Winchenbach, it is going to be hard to fill these men's places, but somebody will come along and in a short time they will be forgotten. With eight letter men returning Vermont ought to have a fairly good chance of making a respectable showing on the gridiron next season. Many of these letter men were playing their first year of varsity football this year and next season should find them ready to take their positions as veterans. However, the fact that eight letter men return does not mean a damn thing. This year there were about the same number out when the first call for football candidates was issued but the results of the season were rather disheartening.

A Student Football Fan

MILITARY NOTES

By George R Nelson '31

The Military Department of the University rendered invaluable and untiring service during the recent flood relief work. Col Black, Capt Rattan and Lieut Fredericks spent much of their time within the past few weeks in either leading detachments of students on in directing difficult work in the stricken areas, while Capt Laury had charge of affairs at home.

Some of the most difficult work was performed at Waterbury. Here, 150 Vermont students labored to clean 100 cellars disinfecting several, 30 houses, several stores, and 2 churches. In addition to this, they disposed of 100 wagonloads of rubbish. Baker and Heltz, 2 senior medics, had charge of the temporary hospital maintained there, and the military department wishes to express its appreciation and compliments for their as well as other medical students' work.

This being the first time that the fellows have come into actual contact with their military officers, it is of particular interest to note their impressions. The consensus of opinion among those who went out is that although strict order was enforced at all times and hard work was necessary those in charge were kind humane and interested in the welfare of all. Those who were ill, especially, remarked with favor and, it must be admitted, some surprise, the fact that their officers came to see them and to take measures for their comfort and speedy return.

On Saturday, Nov. 19 the Vermont detachment at Waterbury was relieved by 151 students from Middlebury, the officers, however, remaining.

Col Black takes this medium to thank all students who worked, and to assure them of his department's appreciation for both the things they did and the manner in which they did them.

Rifle Team

Vermont's Rifle Team is shaping up well, and although actual matches will not occur until March, much valuable practice is being indulged in by the members. Matches are being arranged with schools in all parts of the country.

Rifle marksmanship has begun for the freshmen and is being remarked upon as the most interesting work yet undertaken. The indoor range will be in use during the coming week.

The juniors are studying machine guns at the present time.

Among the seniors Military History is now the subject for discussion. Each member is required to give a monograph illustrating a certain battle, some strategic movement on the effects of certain events in Military History.

4000 STUDENTS WILL MEET FOR DISCUSSION

Four thousand students from the United States and Canada will meet at Detroit this winter December 28 to January 1, for a frank discussion of the missionary enterprise. It will probably be the largest and most representative student gathering held on the continent during this student generation.

The convention is being sponsored by the Student Volunteer Movement a fellowship in the colleges of those planning on entering some form of foreign Christian service. Although the conference is not limited to prospective missionaries it is planned for all students who are eager to do some serious thinking on the question of Christianity and how it may help a distressed world.

That question may not be answered at Detroit but it is expected that the students will express their views frankly on the subject. Many foreign students and national leaders will be present to lead the discussion groups.

Frank: "Aren't you going to the game?"

Dan: "No. I'm afraid the stands may collapse."

Frank: "Fear not, Daniel, they will be full of supporters."

FIFTY CANDIDATES OUT FOR FIRST BASKETBALL PRACTICE OF SEASON

Large Number of Men Report to Try Out For Positions on Team—Many Veterans From Last Season

Coach McAvoy's Catamount basketeers now in the stretch. With a large squad, the Old Mill bell should ring long and loud after every game. There is still some question as to who will fill the capable "Archie" Post's position.

Manager Castle issued a call for scrubs Wednesday afternoon. The usual large number came out. The large number of scrubs will be under the supervision of Manager Castle and the four assistant managers, Price, Gustafson, O'Neil and Averill.

The substitute material this year is the strongest in years. Besides last year's strong material vested in Whitcomb, Lyman, Mackay, Morse, Morgan and Pike, "Hank" Dresser's crack Freshman basketball team of last year, comprising of Halligan, Wallace, Burnstein, Manning and others are working hard for positions. The material this year promises to show some interesting scrimmages which will be well worth witnessing. This large squad of reserve material will be of great assistance next year when Prentice, Price and Marvin will have been lost by graduation.

These three men apparently will have their old positions back. Then "Red" Estabrook, also a veteran, is also showing that he cannot be ousted. Prentice and Price, Vermont's big scoring factors, should worry the opposition as much as any two men in that line. While "Doc" Marvin, one of the best defensive centers Vermont has ever known, is the mainstay in breaking up the opposition in their attempts to score. Halligan seems to be a good choice for the other forward position, but no one will know for sure until "Mac" lines them up for their contest with Montreal A. A. A. on December 10.

The interest in the team promises to be greater than ever before. Every one who has watched the team this year will tell the same.

The outlook for another State Championship seems bright. Norwich, Middlebury and St. Michael's will always play their hardest in the Vermont games, so one can never predict the result. Last year Vermont won every championship game.

Everyone out to see the Montreal game.

(Continued from page 2)

best running back that was seen against Vermont this season. He is fast and slippery and is a hard man to stop. The halfback positions go to Madden and Guarnaccia through their ability to run and pass and kick. Madden was one of the mainstays against Vermont and Guarnaccia is well-known to football fans because of his line plunging and speed. Nordyke of Springfield was picked because of his consistency against the Maroon. He did nothing outstanding, but he was in every play of the game.

The second team is composed of stars also and any one of them might be named as a possible prospect for the first team. Ellis, the Cadet booter and Lord, of Harvard, are the ends with two strong tackles, Jenkins and Hansen, by their sides. The guards, Cornell and Parkinson, are fine defensive and offensive men, Cornell smearing many Vermont plays. Beveridge was picked for center because of his fine passing and ability to open up holes. The quarter position is clinched by Williamson of Springfield who was nearly the whole team against Vermont. The others, Guarnaccia and Davis, were conceded the halfback posts through their ability on the field in all phases of the game. We did not see much of French of Harvard but we know of his reputation, besides his tearing of many yards for the Crimson against the Green and Gold while he was in the game. He is also a good punter and passer and was needed to fill out a perfect backfield.

Sam: What are you going to do with your degree when you get it this year?

When Xerxes wept

THE great Persian ruler gazed from a hilltop upon his vast army of a million men. It was the largest army that had ever existed. And he turned away with tears in his eyes because in a hundred years all trace of it would be gone. That army was a symbol of power, destructive and transient.

Today in one machine, now being built in the General Electric shops, there is combined the muscular energy of two million men. This great machine, a steam turbine, is also a symbol of power—a new power that is constructive and permanent.

Its unprecedented size, a record in construction of such machines, is a pledge to the people that the electrical industry is on the march, ever on the alert to supply plenty of electricity at a low cost to all.

This mammoth steam turbine with a total capacity of 208,000 kilowatts (280,000 horse power) will be installed in the new station of the State Line Generating Company near Chicago. What a striking contrast between this huge generating unit and the group of home devices it operates. MAZDA lamps, fans, vacuum cleaners, and many others. Yet General Electric makes both.

MONT THESPIANS RACTICE DAILY FOR OSCAR WILDE PLAY

C. Ives Taggart Drilling Her st Twice Daily—Proceeds For Vermont Flood Relief —Vouchers on Sale

cast of the fall play "Lady rmere's Fan" is now holding e twice daily at Grassmount and home of Mrs. C. Ives Taggart, paration for its presentation the ember 14, at the Strong re. This play was written by Wilde, best known locally per- by the Burlington Theatre Club's ntation of his play "The Im- ce of Being Ernest" last season. Taggart who has coached many ssful plays by Vermont students ain giving her services with her snap and ability. With few ex- ons the cast is composed of new rants to histrionic laurels at Ver- which necessitates a great deal pplication and care. The revised follows:

rd Windermere, Bertel Gustafson, Lord Darlington, Gerald Van '29; Mr. Cecil Graham, John old, '31; Mr. Dumby, Woodhull 29; Mr. Hopper, Whitney Saf- 28, Bowker, the butler, Harvey terfield, '31; Lady Windermere, rion Backus, '29; the Duchess of wick, Dorothy Cottrell, '29; Lady tha Carlisle, Dorothy Strong, '29; y Pyndale, Anna Darling, '31; y Jebburgh, Beverly Householder, Lord Augustus Lorron, G. T. gh, '31; Lady Sputsfield, Mildred ntley, '28; Cowper-Cowper, Mabel eman, '30; Mrs. Erlynne, Jean- te Beecher, '30; Rosalie, the maid, roline Whitney, '31; extras, Phyllis uthnot, '31, Lawrence Clayton, '30, Lloyd Turner, '29.

ouchers for the play went on the college bookstore December rd. The proceeds will be donated the Vermont Flood Relief Fund. The ces of the vouchers are one dollar d one dollar and a half, they may be hanged for seats at the theatre ember 12, 13 and 14.

RATERNITIES DECIDE TO ADOPT STUDY PLAN

The meeting of the Eligibility De- rtment was held Friday evening at e Sigma Delta house. All frater- ties were represented but one. ibility manager Fogg called atten- n to the fact that good scholastic nding should be the aim of every ternity And it is the aim of the ibility Department to keep the olastic standing in athletics as gh as possible. This is accomplished notifying the fraternities of their en with low grades, and giving help the form of tutoring. A thorough k is kept of all its men.

The rest of the meeting was given to the discussion of supervised dy in fraternities. A minimum uirement was voted on as a recom- endation of the meeting to be carried by the fraternities. The men at the meeting strongly suggested that the minimum requirement shouldn't e an excuse for weakening any plan effect, and all new plans would the requirement with a plan to arry it out.

The study managers of the frater- ties did not get copies of the two lots at the meeting some can be had request. The eligibility manager d faculty supervisor is willing to p in any way possible in the work- out of these or other plans.

The minimum requirement voted on usly adopted is printed Everyone under warning classes) study at least four nights a week under of supervised study hour men are to be removed grades for the month in have studied are above rages. (2) Warning grades er half of hours D) are to be con- ing the men under warn- hour purposes. These men removed when their grades warning averages. (3) All eiving (two or more low to meet the requirements (4) The men shall be off mes and important events the time shall be made up to the faction of the study manager. manager shall be given raft any man in fraternity tor low men.

CO-EDS' RIFLE SQUAD CUT TO THIRTY-THREE

Announcement of a decisive cut in the rifle squad, when the number was reduced from 100 to 33, caused much excitement in the vicinity of the bulletin boards Thursday afternoon. The girls who survived this first cut and who will remain members of the squad until further cuts, December 23, are as follows:

L. Aldinger, P. M Arbuthnot, M. Baldwin, D. P. Barrett, A. E. Burns, D. Carpenter, D. Claflin, E. M. Cory, B E. Farman, M. Z. Fiske, L. A. Guillett, D. H. Gurney, D. A. Hart, B. A. Hoskins, G. Hubert, T. Lamson, K. F. Laythe, P. F. Lynch, G. M. Martel, E. A. Mildon, H. O'Neill, D. W. Partch, E. G. Prichard, E. G. Robelin, R. R. Seaver, E. A. Shaw, C. W. Stone, D. Strong, E. Taft, E. F. Tracy, M. Turner, H. E. Wright, K. Wright.

A schedule of twenty matches with squads representing other universities and colleges has been arranged. Cornell and University of Nevada are already on the schedule planned. The squads shoot for scores on their own range and scores are compared by telegraph.

STUDENTS ACTIVE IN PRESENT BURLINGTON SYMPHONY ORCHESTRA

Fourteen Students Participate in Local Musical Organization —Orchestra to Appear in Concert

The students of U. V. M. and the members of the R. O. T. C. band are well represented this year in the personnel of the Burlington Symphony Orchestra which is now holding rehearsals every Sunday afternoon at 2.30 o'clock at the Chamber of Commerce rooms on Bank Street in preparation for its next public concert.

Those students of the University who have joined the violin section are J. G. Bruce, L. E. Samson, Major Jenks, U. R. Merikangas, Miss Harriett Howard, John Detore, Benjamin Goldfarb, and Miss Julia Waterman. G. Aiken and Miss Eleanor Taft have joined the cello section, Wiliam Clapp the clarionet section, Joseph Merola the cornet section, P. B. Van Dyke the trombone section, and James Kendrick the drums section. In addition, the University is further represented in the personnel of the Symphony Orchestra by E. E. Lineken, instructor in chemistry at the University, who is in the trumpet section, also by Mrs. Rhoda Hartwell Van Dyke, instructor in zoology, who is in the violin section.

Mr. Lechnyr, leader of the Symphony Orchestra, is of the opinion that there must be some talent somewhere among the students of the University that is now lying idle and could just as well be used in the orchestra in addition to those students who have already joined. The Burlington Symphony Orchestra affords the only opportunity there for young students of music to pursue their studies along this line.

Mr. Lechnyr anounces that the following members of the freshman class that have not as yet joined the Symphony Orchestra are eligible for membership, Kermit Dugan, Louis Costnick, Boyd Schurman, Roy Romanos, Theodore Piche, and Robert Aiken, all violinists. He also believes that there must be members of the women's college, especially those of the freshman class, that are eligible for membership.

Any student who wishes to try for membership in the orchestra must do so this week. Those who are interested either call 2372-W or see Mr Lechnyr, to make an appointment with him.

PHOTOGRAPHIC WORK ON ARIEL PROGRESSES WELL

Work on the *Ariel* is progressing rapidly. The campus views have all been taken and are now ready for the printer. Various cover cuts have been handed in and sometime during the week, the selection will be made of the one which will adorn the junior year book. During the week, the arrangement of the junior section will be considered.

Proofs of the portraits of the Juniors taken by the White Photograph Company of New York have arrived. The general opinion seems to be favorable.

The board is featuring a novel presentation of personal snap shots in the 1928 Year Book to lend an air of individuality by cutting out the form from the background, thus giving a full length view of each member of the class. Any Junior who has not yet handed in his picture which conforms to these requirements is requested to do so at once.

WOMEN DEBATERS READY FOR TILT WITH WEST VIRGINIA THURSDAY EVE

First Debate of The Season to Be Held in Old Chapel Hall.— Coach Moore Issues Call To Candidates For Position of Assistant Managers of Debating

The University women debaters will take on the representatives of West Virginia University in the opening event of the current schedule Thursday evening, December 8, at eight o'clock in the Old Mill Chapel. The debate will follow the Oregon plan, a feature that should prove interesting at its first appearance at Vermont Another innovation is the vote by the audience before the debate, on the merits of the question, and after the speakers have finished, on the merits of the debaters. There will be no judges, the decision being left entirely to the audience.

Vermont, upholding the affirmative of the question, "Resolved, that this house deplores the use of armed force by our government for the protection of the private investments of its citizens in foreign lands, except after a formal declaration of war," will be represented by Frances M. Dimick, '28, Bertha Klein, '29, and Edith M Thomas, '31. Miss Dimick will present the arguments and will be cross-questioned by the negative, Miss Klein will act as lawyer, cross-questioning her opponents, and Miss Thomas will offer the rebuttal. The speakers for West Virginia will be Elizabeth A. Hatfield, '28, Lois McQuain, '28, and Lucy A. Higginbothem, '29.

Call for Managers Issued

Lawton Moore, coach of the debating teams, has issued a call for candidates for the position of assistant managers of debating. The competition is open to everyone, both men and women. The work, which Coach Moore has lined out may take several hours a week, but must not be neglected, will include writing, publicity, and news for the Burlington papers and the Cynic, getting posters printed and distributed, advertising the debates among clubs and schools, conducting some of the correspondence, securing the programs, getting the chapel ready for the contests, meeting the visiting teams, and arranging for their lodging.

FOOTBALL LETTERS AWARDED TO 19 MEN

The fall sport letters were awarded recently. The following men received the varsity football "V." Fullbacks Captain "Jack" Smith, "Hot Pope" Mace, "Ed" Gourson; quarterback "Jack" Conway; halfbacks "Cal" Macomber, "Jimmie" Scutakes, "Kid" Estabrook; ends Palmer, "Al" Sirois, "Doc" Leary, Robinson; tackles "Wink" Winchenbach, Burstein, Damon; guards "Bump" Levine, "Herm" Kropper, Werner; center O'Keefe. Of these nineteen men, Smith, Conway, Winchenbach, Werner, Leary will be lost by graduation. This will leave strong veteran material next year

The Freshmen who received letters and silver footballs are Parks, Codding, T. Scutakes, DeCicco, Hough, Harwood, Segal, Allerton, Allen, Heaton, Tellier, Watkins, Smythe, De Witt, Rugg and Tobin. Also Manager Collins

Those who won their varsity cross country numerals in the Middlebury meet are O. T. Wood, E. L. Rowe and R. H. Arnold. Freshman cross country winning their numerals are Davis, Basilicato and Blakely.

NOTICE!

Student Union Council will meet in 3 South College, Wednesday afternoon at 4 o'clock.

CHAIRMAN FOR SENIOR WEEK TO BE ELECTED

A meeting of the Junior Class will be held in the Old Mill Chapel at 4 p. m., Thursday, December 8, to elect a chairman for the Senior week committee The nominating committee consisting of one man from each fraternity and five from the Independents met last Wednesday, December 1, in the Billings Library. As a result of this meeting, the following nominations for Senior week chairman have been made: H. D. Crandall of Burlington, H. C. Collins of Greensboro Bend, C. F. Castle of Springfield, Mass., and C. W. Price of Burlington.

KAKE WALK DIRECTORS PICK ASSISTANTS AND COMMITTEE MEMBERS

Frank O'Keefe and "Doc" Rogers Appointed as Assistant Directors of Kake Walk

Directors Collins and Holden have been working for some time on plans for the 31st annual Kake Walk and after much consideration have chosen committees for the various duties in connection with that event.

As usual the Kake Walk will appear in the Gymnasium and the dates are fixed at February 24 and 25.

Frank O'Keefe of Staten Island, N. Y., is a varsity football player having received a V for the past two years. He was president of the class of 1929 last year and is a member of Sigma Nu Fraternity.

W. F. Rogers of Vergennes is assistant manager of baseball and was on the 1929 freshman football team. He has served on several committees and is a member of Kappa Sigma Fraternity.

The committees are as follows:

USHERING

C F. Castle '28, chairman, D. M. Johnson '28, A. G. Mackay '29, F. J. O'Neill '29, L. C. Morgan '29, A. W. Clain '30, W. R. Kersey '30.

SEATING

K. W. Kyle '28, chairman, P. C. Greene '28, F. A. MacLaughlin '28, B. R. Morse '29, E. G. Fiske '29, O. T. Frost '30, A. L. Knapp '30.

LIGHTING

W. N. Cogswell '28, chairman, W. C. Chadbourne '28, F. L. Sullowav '29, G. Aiken '29, F. E. Beckley, Jr. '30.

ADVERTISING

C. H. Stevens '28, chairman, H. D. Crandall '28, E. A. Lucchina '28, A. R. Birchard '29, C. E. Lyman '29, H. M. Macomber '30.

STUNTS

S. C. Abell '28, chairman, G. S. Talcott '28, B. W. Gustafson '29, W. S. Hall '29, J. C. Puffer '30

PEERADE

R. M. Whitcomb '28, chairman, G. R. Perry '28, K. L. Price '29, R. G. Hawley '30.

KAKE WALKING

A. W. Shaw '28, chairman, F. R. Otto '29, P. E. Manning '30.

ANNOUNCER

W. F. Reagan '28.

As usual each fraternity and possibly the Independents will enter a pair of Kake Walkers for the "Walking fo' de Kake," and one or more "Peerade" stunts. The fraternities scheduled to offer stunts this year are Alpha Tau Omega, Sigma Phi, Phi Delta Theta, Tau Epsilon Phi, Sigma Delta, Sigma Alpha Chi, Lambda Iota and Zeta Chi.

Definite figures in regard to registration at Williams College have recently been announced for the first time this year from Dean Howe's office. The total enrollment is 815, one of the largest in the history of the college. The senior class numbers 171, while there are only 167 juniors, which is the smallest class The sophomores number 201, and there are 273 freshmen.

FOOTBALL HOP FEATURE TEAM ELECTIONS FOR NEXT YEAR'S ELEVEN

"Sap" Palmer to Captain Team For 1928 Season And Frank Otto is Selected As Manager

Dr A K. Aldinger announced at the intermission of the football hop last Saturday evening that the following men were elected for next football season: Manager, Frank R Otto, '29; Captain, Loren F. Palmer, '29; Assistant managers, Herrick Macomber, '30, R G. Hawley, '30, J C Puffer, '30

Frank R. Otto is a member of the Kappa Sigma fraternity. He was chairman of the football hop last year and member of several committees

Loren F. Palmer is a member of the Delta Psi Fraternity. He has been on the football squad for two years, was on last year's basketball squad and has served on several committees

Herrick Macomber is assistant editor of the Cynic. He is the only man in his class who obtained no marks below an A. He is a member of the Delta Psi fraternity and has served on several committees during the past year R. G. Hawley is a member of the Phi Delta Theta fraternity and has been prominent in athletic circles. J. C. Puffer is a scrub manager of the Cynic and a member of the Kappa Sigma fraternity.

The football hop took place in the gymnasium with over one hundred couples in attendance. Lechnyr's seven piece orchestra furnished music for the evening, rendering a program of 16 dances including two moonlight waltzes.

The gymnasium was prettily decorated with green and white streamers strung from the sides of the racing track. Three hundred balloons fastened at different places, in clusters and singly, gave an atmosphere of very colorful gaiety. Rays of colored lights, green and red, yellow and white, from the spot light overhead, played over the dancing throng. And the whole gymnasium breathed an air of enjoyment and forgetfullness. Punch and wafers were furnished during the evening

Philip Manning '30, chairman, Miss Isabelle Warhurst, '31, Coach Henry G. Dresser, Miss Lula B. Ryan, Captain and Mrs. Rattan, Coach and Mrs McAvoy and Dr. and Mrs. Aldinger were in the receiving line.

FIGURES SHOW EXTENT OF STUDENT FLOOD AID

A careful survey of the actual work done by the students at Waterbury during their four days stay there states that 92 cellars were cleaned, the water and mud, sometimes to a thickness of several feet, being removed from them; 30 houses and two churches were otherwise cleaned, and 200 loads of rubbish were carried away.

In all, over 150 students went to Waterbury. To be exact 154 went the first time, a few others remained for a few weeks, and others still went for a three days' stay while the Middlebury students were there. By colleges the students that went are distributed as follows: the College of Medicine, 42; College of Agriculture, 6; College of Arts and Sciences, 56, and the College of Engineering, 48.

When the U. V. M students had completed their allotted time in Waterbury, they were relieved by a force of 151 students from Middlebury College who were accompanied by Profs Voter and Swette, both of Middlebury College and Dr. J. J Ross. Col. Black Capt. Rattan and Prof. Puffer, of the University of Vermont, had charge of the Vermont and Middlebury students Profs Ladd and DeForest, also of U. V M., assisted for several days.

The people of Waterbury expressed their appreciation of the efforts and sacrifice of the U. V. M. students in aiding them in this disaster by lining the streets of Waterbury as the students left the town and cheering and waving to them as they went along

Another group of 60 students, led by Lt. Fredericks and Prof. Buchanan worked in Johnson from Thursday until Sunday evening of the same week.

NOTICE!

Press Club will meet Wednesday afternoon at 1:30 in 3 North College.

Campus Comment

To the Editor of The Cynic:

An article appeared in last Friday's issue of the Cynic confusing Kappa Mu [illegible] the American Society of Mechanical Engineers. It stated Kappa Mu Epsilon the student branch of the American Society of Mechanical Engineers is now holding regular meetings every two weeks. This is a fallacy.

The two societies are not one and the the same society, the only way in which they are related is by reason of their being Engineering Societies. Kappa Mu Epsilon a Greek letter fraternity is an honorary engineering society much the same as Boulder is in its functions on the campus, and has for its purpose a furthering of general engineering projects whether of Mechanical, Civil, or Electrical nature.

The American Society of Mechanical Engineers is, on the other hand, an organization solely for mechanical engineers and its single purpose is the discussion of problems of interest to mechanical engineers. This society is affiliated with the National organization of the same name. Vermont being the student branch of the A. S. M. E.

G. H. P. '29.

To the Editor of The Cynic:

We asked for an inch and they gave us an ell, and what an ell, or perhaps we should say what the 'ell'. Most of this would have been satisfied with but the weekend at Thanksgiving. However, the administration, in their customary generous spirit, saw fit to give us a whole week, and then in continuance of their altruistic nature, have been so kind as to allow us to stay three extra days before leaving for our homes. How can we thank them enough?

Since the recent edict prescribing the time of vacation, a wave of indignation has spread not only among the student body, but among several members of the faculty who do not wish their names to be mentioned. The chief causes of this indignation are first a realization that most of us will be able to reach our homes but a few hours before Christmas, if then; and secondly, a deep sense of injustice arising from this and other moronic legislation lately passed.

However much it may be regretted, it is a fact that the majority of Vermont students are dissatisfied with the University. They feel that this institution is but a grown up high school. Instead of that freedom accorded to students of most universities, we find evidences of repression on every hand. I have heard, during the past few weeks, any number of students voice remarks along the tune of: "Well, old Vermont won't see me back next year. I'm going to a real college, not a grammar school." And since I have been in college, I have noticed that this spirit of dissatisfaction has been growing. But it is not unified. We sit in passive silence, our dissatisfaction never crystalizing into anything strong enough to influence the university. We suffer under an absolute monarchy, a virtual dictatorship, when a university should be a democracy. We choose representatives to sit in council with the administration, but their opinions have no effect.

Some say that we should not look a gift horse in the mouth. But there was no popular reception of the recent vacation and the reasons back of it do not seem valid. Many were unable to reach home, and for others the holiday was not long enough to make it worth while. The administration probably means all right, but why must it make blunders in practically every bit of legislation it passes.

The Christmas Holiday is the one vacation of the year to which the student body looks forward with anticipation. Easter vacation does not mean very much to us: most of the other colleges have already had their vacations. Christmas is the joyful time of the year, the most precious holiday we have. What a wonderful Christmas we are going to have *this* year! With classes being held until the middle of Friday afternoon, most of us will not reach home until Saturday, and will be too wearied by an all-night ride to enjoy the holiday. Many will not reach home until Christmas Eve, especially those who live at a considerable distance, and to whom Christmas is the one chance in the year of [illegible] home. Such a situation is abs[illegible]

We cannot conceive that th[illegible] to us as men and women. W[illegible] that there must be some ob[illegible]tion. During that week of [illegible] we lost exactly four and one h[illegible] of classes. It would not be t[illegible] of a sacrifice for the universit[illegible] us all or a part of those days, [illegible] the work to be made up by [illegible] daily assignments, which, I [illegible] fident, would be acceptable to [illegible]

(Continued on page 4)

CHRISTMAS SUGGESTIONS

from

The

University Stores

Order a Book for the Lover of Books

or

A Pair of Book-ends will be much Appreciated.

We have several styles from which the most fastidious should be able to select a pair pleasing to them.

WE LIVING DEAD

We [illegible] is subjectively [illegible] that no one wants to [illegible] to be responsible for its existence. All be justified even in cases of extreme difficulty or when a situation exists that gets [illegible] of the ordinary bounds. We feel that such a situation now exists on our campus, and that it is our duty to take up the unpleasant subject.

When an evil starts, it is not openly evident of a large groups, but finally, when the corruption has gone beyond all bounds, the evil seems to be a part of the group and is spoken of in the same matter-of-fact way as any other existing condition. Our lack of spirit, lack of life, lack of college spirit has come to this stage in its downward path, and is a recognized fact among ourselves. We are glad that, what ever other colleges may know of the condition, at least they cannot know the whole truth to the same degree that we do.

There are many conditions on campus that Boulder deplores and has tried to remedy. If the proposition is put up to an individual, he claims to be helpless alone; if the matter is put up to an organization, then comes the answer that the college in general will not do anything, this being exactly the real position of that organization. It seems impossible that so much dead wood can have been brought together and that one college can get dead wood tired, what is this there ambitionless matter that quietly appears and without being noticed, every withdraws to [illegible] its worthless and [illegible] existence.

There are many points upon which we might discuss this theme, considering whether Gold Key justifies its existence, the willingness that is so evident to remain under warning, the freshman outbreak in general, the matter of respect and deference toward upperclassmen. These and many others are subjects worthy of our future attention. At present the results of the Middlebury game are rankling in the minds of many, this being one of the best examples of our present college spirit. A good many of us attended. We won the game. A snake parade had been announced. About forty persons assembled for the parade. Some had reasons for not joining in, but with the majority the cause was merely one of living down. We also won the track meet from Middlebury and no sign of life was sh[illegible]

When Schulz left the ... a battered hulk, the score was ... Fifteen minutes later it was ...sylvania 31—Michigan 0.

But the argument breaks out with ... greater fury when one has passed ... center men and has come to the ...ks and the ends. Among the great ...s of all time one must consider ... following: Cowan, Princeton; ...rs, W. and J.; Fish, Harvard; ...an, Yale; Curtis, Michigan; Weir, ...sylvania; Hart, Princeton; Henry of ... and J., a two hundred and thirty ...under who was as fast as a bounding ... probably never had a superior at ... play. Hector Cowan and Eddie ... of Princeton were two of the ... and fastest tackles of all ... Hamilton Fish of Harvard was a ... tackle. There has been bitter ... among most of the sages ... years over the tackle allot... ... have agreed.

... ago six excellent judges ... by a magazine to name their all-time selections. The list included eleven different men at the tackle positions, the widest disagreement on the field. In the list were Hart, Cowan, Henry, Fish, Hogan, Cutts, Curtis, Weir, Hillebrand and others. But the disagreement was too wide to establish any favorite.

The same was true of the ends. For a long time the two top names were Hinkey and Shevlin of Yale, with Campbell of Harvard as the next choice. Then along came Hardwick of Harvard. Then Muller of California, and the argument gathered new force. Hinkey, "the disembodied spirit," a shining star for four years may never be displayed in the memory of those who saw him play. But the battle among Shevlin of Yale, Hardwick of Harvard and Muller of California still goes on. These three had had all the physical requisites and they all carried the vital spark, the eternal flame of competition. Muller was a much greater football player than the Middle West or the East has ever known him to be. He was a fast roving giant who on the side could pass a football seventy yards through the air and as an exponent of modern football probably stands at the top. Hinkey, Shevlin and Hardwick were much alike in the raging spirit of contest. It will take come much greater soothsayer to name the two leading stars from this quartet.

The list of great quarterbacks has been extremely long. For twenty years the name of Walter Eckersall of Chicago has headed this list in the general vote. Eckersall was a noted sprinter, a great field general, a fine kicker and one of the best drop-kickers of all time. He was a great defensive man to keep back, either to nail the runner or to return punts through a broken field after passing the ends sent down to nail him. Pennsylvania still stands solid under the banner of Vincent Stevenson, a ball of living dynamite, a section of raw lightning. Harvard still votes for Daley, who later starred at the Army. Michigan is certain that Benny Friedman is the smartest field general and the best passer that ever played. Hudson and Mt. Pleasant of Carlisle were two others who stood high.

But no quarterback has shown a greater number of great qualities than Eckersall showed in his all-around play. It is for this reason that he has held his place on the All-Time list for so many years.

Then there was Stuhldreher of Notre Dame, as smart a director as any team could wish, and there is also Lyle Richeson of Tulane and Yale who showed the value of a star director. Eckersall was never called on to pass since he played before the forward toss arrived. But anyone who could kick, run, and handle a team up to his standard is still worth the rating he has drawn.

There are four names most frequently mentioned for the other three backfield places. These are Heston of Michigan, Thorpe of Carlisle, Coy of Yale and Mahan of Harvard. There were Snake Ames of Princeton and Brinck Thorne of Yale. Later there were Harley of Ohio State, Owen of Harvard, Grange of Illinois and Slagle of Princeton. But as good as these all were, the trend goes back to Heston, Thorpe, Coy and Mahan.

If anyone stands above the list his name is Heston. Willie Heston of Michigan who in four years scored over six hundred points. Weighing one hundred and ninety pounds, thick-set, solid and fast, Heston was as hard a man to stop as football has ever known. He was off like a flash, starting at top speed and driving through with terrific force. He could break through a line, run an end or hold his own in any broken field. For combined speed and power Heston has never been surpassed.

In one Chicago-Michigan game, breaking through into an open field, Heston jumped clean over Eckersall, who had come forward to meet him. That shows something of his all-around activity while carrying the ball. Heston was a four-year star, and a star in every game he played.

Jim Thorpe, the Carlisle Indian, was undoubtedly the best all-around football player of all time. Just figure out his versatility. A good line breaker, a fine broken field runner, a fine punter, a good drop or place kicker; a good forward passer, a good pass receiver; a star defensive back.

There was nothing in football that he couldn't do well, and few things he couldn't do brilliantly. Weighing one hundred and eighty-five pounds, he had great natural speed and great natural strength, and he was harder to hurt than an iron horse. After leaving Carlisle he played professional football for over a dozen years, and through the greater part of the time he was the big attraction at the gate.

Ted Coy of Yale was another brilliant back who represented power and drive and who added to his rushing game a kicking repertoire that made him doubly valuable. Coy weighed around one hundred and ninety pounds. He was harder to pull off his feet than a buffalo and when he hit a tackler in the open field the tackler usually took out time. Coy had the same type of drive and power that had helped to make Heston famous.

Then Ned Mahan of Harvard came along. He lacked the crashing force of a Heston or a Coy but he was one of the smoothest running backs anyone ever saw. He was always cool, alert and ready to take any opening in sight. In addition to his ball-carrying qualifications, Mahan was also a fine punter. But it was his work in taking a hole and his work in the open that gave him his greatest fame.

There may be some doubt as to whether any of these were more valuable or more brilliant than Jake Slagle of Princeton. Slagle, like Thorpe, was a star in every department. He was a great runner, a fine kicker, a first class passer and a star defensive back. But through injuries and otherwise he was unable to star in as many big games.

What about Red Grange? Grange with Illinois was about as fine a ball carrier as one would care to have on any team. He was as elusive as a ghost. But he couldn't kick and he was only fair defensively. On his big days he had no superior.

But the fact remains that Heston, Thorpe, Coy and Mahan still stand as the main choice for the all-time backs. There can be only three on any team with Eckersall at quarter, but who is to say which one should be left off?

It may be some day that a trio of center men will come along to displace Schulz, Heffelfinger and Hare. It may be another set of ends will step out to take the places held by Hinkey, Shevlin, Hardwick and Muller. Or another backfield in time will displace Eckersall, Heston, Thorpe, Coy and Mahan.

It may be that other modern stars have reached heights just as great with talent just as brilliant. But most of these oldtimers now have their names carved upon the tall and ancient rocks of tradition. It will take an abnormal amount of talent to cross any one of them from the list.

There will be a meeting of Le Cercle Français on Wednesday, December 12th. Members will respond to roll call with French proverbs and maxims. There are other features on the program which are not announced.

SOPHS WILL MEET RIVAL FROSH IN ANNUAL DEBATE

The annual Freshman-Sophomore debate for the Bates cup, won last year by the class of 1930, will take place Tuesday evening at eight o'clock in the Old Mill Chapel. The question is, "Resolved, that the daily newspaper is a curse to society," and the Oregon system of debate will be employed. The Freshman team, taking the affirmative, is composed of George R. Nelson of Stamford, Conn., and Louis Lisman of Burlington, and the second year debaters are Redmond J. Roche of Burlington, and Franklin A. Sears of Brattleboro. Since a cup is offered as the prize, the decision will be by judges, and not by vote of the audience, as will be the case in the women's debate against West Virginia. The men who will decide the contest have not yet been named.

There is no admission charge, and students are urged to attend.

AIN'T IT TOUGH

Never a moon for Thanksgiving
Never a moon for Christmas night,
Never when you would be giving
The world for the use of some silver light.
Always the honey-colored ball gleams
on a world that is drab
Mocking the campus melancholy, leering upon our sorrow,
Looming up in the cloudless sky above the astronomy lab
When all you have is a bottle of ink and a mid-semester tomorrow.

CLASS PLAYS TO BE GIVEN FRIDAY NIGHT

COLLEGIATE STYLES DOMINATE CLOTHING

WOMEN'S CYNIC STAFF CHOOSE FOUR FROM '30

RESEARCH DISCOVERS FEW BALD COLLEGIANS

Derby hats and Chesterfield coats with velvet collars are two of the most prevalent articles of apparel among Eastern college men according to this survey which predicts that this combination will increase in favor.

Stetson headwear is gradually on the wane and will eventually be replaced by snaps all over figured this. Black shoes are more popular than tan and tans of shoes are becoming scarcer.

White oxford shirts with medium collars on the collars are also becoming more popular and the better dressed men at most schools are wearing solid ties.

One of the newest articles of men's apparel is the camel's hair coat which is now one of the most popular overcoats among university men in the east. Harris tweed topcoats with raglan sleeves are also predicted as the vogue for spring.

The survey includes percentage charts of the various items which go to make up a man's wardrobe as well as illustrations of the best dressed students noted at each university surveyed.

Campus Comment

(Continued from page 2)

us. Besides, it would make a lovely Christmas present.

But if such a course is not in line with the University policy let us suggest that those days can be made up at a much more convenient time. As a possible plan why not push the mid-year examinations along a few days and hold classes a correspondingly shorter time in June? Many have proposed this.

Perhaps it is foolish to continue in this strain for pages could be written concerning the attitude of the student body. But indignation compels expression and I know that I only voice the sentiments of my fellow students in demanding this argument. 'There is still time for action.' Let's hear the rest of you express yourselves through this column.

Sigh—G. R. P. '28.

The Military Department reminds the students enrolled in military, who have cuts marked against them that they will be put under condition if these cuts are not made up before mid-years.

NOTICE

The management of the CYNIC requests that students would take not more than one copy an issue. Several students were unable to procure copies last week because of that reason.

Christmas vacation will begin Friday, December 23, at 3 19 p. m. and will end at 7.30 a. m. January 3. Classes on the afternoon of December 23rd will be as follows: First period 1.30 to 2.20; Second period 2.30 to 3.20. This is done so as to give students a chance to catch late trains. The vacation is shortened to make up the time lost during the recent vacation.

Good. That's what it is . . .

No use trying to put a definition around Camel. It is as diverse and fugitive as the delicate tastes and fragrances that Nature puts in her choicest tobaccos, of which Camel is rolled. Science aids Nature to be sure by blending the tobaccos for subtle smoothness and mildness. One way to describe Camels is just to say, "They are good!"

Somehow, news of Camel has got around. Each smoker telling the other, we suppose. At any rate, it's first—in popularity as well as quality. It has beaten every record ever made by a smoke. Modern smokers have lifted it to a new world leadership.

Camels request a place in your appreciation. Try them upon every test known. You'll find them always loyal to your highest standard.

"Have a Camel!"

THE BEST COMEDY IN AMERICA

Copyrighted, 1927, by The Collegiate World Publishing Co. (College Humor) Through Bell Syndicate.

THE VOGUE

Husband: One more payment, and the furniture is ours.
Wife: Good. Then we can throw it out and get some new stuff.

—Penn. State Froth.

Salesman: Let me demonstrate this vacuum cleaner to you.
Mrs. Coveloski: I don't want it; I ain't got no vacuums in the house.

—Colgate Banter.

First Male: A woman's place is in the home.
Second Male: Sir, a woman's place is in the channel.

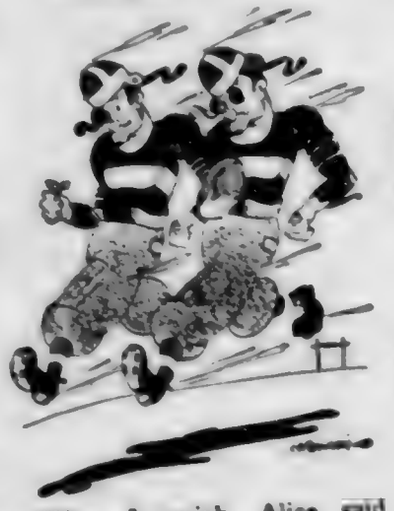
—Denison Flamingo.

There is a little college in the Middle West where all of the students have just killed themselves. Possibly the faculty had just passed a ruling prohibiting suicide.

—Cornell Widow.

Solomon: I beg your pardon, but haven't we met before?
No. 639: Yes, darling; we were married a little over three months ago.

—Cannon Bawl.



She: Who wins in a chess game?
He: The one who lives the longest.

—Pennsylvania Punch Bowl.

ANOTHER COLLEGE ROMANCE

The girl dabbed at her eyes with a handkerchief. "Oh!" she cried, "I think he's the meanest thing. Suicide is so common I won't get any publicity at all."

—Pennsylvania Punch Bowl.

"Yes, Jeremiah, Alice said that last night she dreamed she was dancing with you—"
"You thrill me all to pieces, Hezekiah."
"—and then she woke up to find her kid brother pounding her feet with a flatiron."

—Ohio State Sun Dial.

THE ETERNAL FEMININE AFTER MOTOR ACCIDENT

Hubby (feeling his mug): My face is so cut up it isn't even funny.
Wife: Yeah? Ordinarily it's quite funny.

—Yellow Crab.

No, my boy, we can't all be Lindberghs—just think what a mess the telephone directory would be!

—Black & Blue Jay.

"You don't see as many intoxicated people on the street since prohibition."
"The stuff kills them before they get out of the door."

—Cornell Widow.

"If a man smashed a clock, could he be convicted of killing time?"
"Not if the clock struck first."

—Wet Hen.

Girl: Why didn't you answer me?
Boy: I did shake my head.
Girl: Well, I couldn't hear it rattle over here.

—N. Y. State Lion.

A good way to kill fleas is to swallow a teaspoonful of carbolic acid, run around the block, and the perspiration will kill the fleas.

—U. of S. Calif. Wampus.

We wonder if the raisins rust in Venice.

—Purple Pel.

"Gertrude Ederle is suing her business manager."
"Ah, I see, a swimming suit."

—Minn. Shi-U-Mah.

"In one Italian city the people go swimming without anything on."
"Is that Nice?"

—Pitt Panther.

"Napoleon was right when he said an army fights on its stomach," muttered a soldier, as he crawled through the mud in No Man's Land.

—Pennsylvania Punch Bowl.

"Do you like conceited men best, or the other kind?"
"What other kind?"

—Tawney Kat.

First Student of Nature: What shape is a kiss?
Second Fool: It's a-lip-tickle.

—Michigan Gargoyle.

The eternal feminine: What did she wear?

—Minn. Shi-U-Mah.

Two inebriated sailors were arrested in New York for stealing a scale. They claimed they were told to weigh the anchor.

—Williams Purple Cow.

Liz: Where did you get the rouge, kid? Let me use it.
Sal: Oh, Henry gave it to me.
Liz: Well, bless his heart, wasn't that just too sweet! What kind is it? I wonder where he got it.
Sal: Oh, he found it on the floor when he took Dot to the show last night.

—Denison Flamingo.

Little George, the garage mascot, was visiting his aunt. He found the cat in a sunny window purring cheerfully.
"Oh, Auntie, come quick," said little George, "the cat has gone to sleep and left his engine running."

—Annapolis Log.

What is a boob spelled backwards?

—Williams Purple Cow.

"What, Cleopatra, you are not weary of being Egyptian Queen, are you?"
"Weary! Don't ask!"

—Cornell Widow.

FROM A SIGN IN A CEMETERY

Persons are prohibited from picking flowers from any but their own graves.

—Colby White Mule.

He: I was in a jam last night.
She: Tell me about it, but don't spread it on too thick.

—Yellow Crab.

Uneasy is the tooth that wears the crown.

—Notre Dame Juggler.

"Tell, Nicolai, why you not marry with Maria Stanislauskaskinivanovitch?"
"Well, Petroushka, to be frank, it took too long to introduce her to my friends."

—C. C. N. Y. Mercury.

The teacher has asked Jimmy to name all the flowers he could think of. After some thought he replied:
"Wild, tame and collie is all I know of, teacher."

—Tawney Kat.

The Scotchman who offered a prize to the first person to swim the Atlantic has recently announced that the winner must swim the distance under water.

—Carnegie Puppet.

"Why don't you want to go out with that dame? She's the keenest one in town."
"Yes, but look at the town."

—Minn. Shi-U-Mah.

TOO EFFEMINATE

Kappa: Gimme a cigarette.
Sigma: Whaddda ya think this is? A girls' school?

—Webfoot.

John: My heart is broken.
Mabel: Yes, flint is rather brittle.

—Ohio State Sun Dial.

"I just read Jones' works."
"That's funny; he never did that before."

—Annapolis Log.

All the equipment that the proposed New York stage censor will require is a nose for phews.

—U. of S. Calif. Wampus.

"I see, Mr. Blathers, you're a triple threat man with your professors."
"Huh, howsat?"
"You kick, pass, and run."

—Illinois Siren.

1st Proud Mother: I call my baby Charles because he's such a dear little lamb.
2nd P. M.: And I call mine William Dean because he howls so much.

—Annapolis Log.

"I heard that a girl ran away with a train."
"What was her motive?"
"Locomotive."

—Centre Colonel.

"I have a suit for every day in the week."
"Yes?"
"This is it."

—Blue Dragon.

"Why did you strike your husband with a rolling pin?"
Well, you see Judge, I wanted to try to make him level-headed."

—Arizona Kitchat.

"Have you read any new books?"
"Don't be silly. I live in Boston."

—Dartmouth Jack o'Lantern.

Vermont Campus Tradition Centers About Venerable "Old Mill"

By G. Poole '29

[illegible]

[illegible] Mill was used as barracks for the soldiers. The University received $1,000 from the United States Government for rents and damages incurred during the occupation by the troops. With this money extensive repairs were made to the Old Mill and to other buildings on the campus.

In 1866, just following another period of neglect in the history of the University, the college building was destroyed by fire. Due to the efforts of Professor Potter a young philanthropist and a few loyal graduates funds were raised for the erection of a new building. All that remained of the old structure was a few supports of brick upon which the new building was erected. The new building was completed in the Mansard style of architecture and was known as Part of the Old Mill. Many of those who graduated from the University of Vermont [illegible]

Rifle practice tryouts for the rifle team will start immediately after Christmas. Nearly all of the men on last year's team are back again and prospects are brighter than usual.

In the early part of the summer of 1865 the south wing was badly damaged by fire and extensive repairs were made on the building. The dormer windows which used to light the fourth story were removed. At this time the present steam heating system was installed to take the place of the stoves in order that students in the new college building might take advantage of the steam from the power plant which was then in operation. The roof of North and South College, parts of which were removed and electric cable put in. This renovation gave us the present Old Mill except that room 4 South was then the Trustee Room. The North end was also renovated to the present day [illegible] after a general cleaning up took place following the occupation of University property by militia units.

Such, then, is a brief history of the Old Mill and its traditions all of which lay dormant in the annals and records of every man and woman who graduates from the University of Vermont.

NEWS IN BRIEF

Freshmen engaged in military start rifle practice on the Indoor range this week.

In a very entertaining and listless debate the question was decided by a large majority in a discussion of the Government of Soviet Russia last Friday. The winning team was composed of Messrs. Ripley, Stone and Sherwin. On the losers were Messrs. Smith, R. R. Stephens and Sanderson. The arguments presented were the usual ones for the ownership and against it. At the conclusion of the debate the interest culminated on the debating which had been done by the speakers. He considered it inferior to that of last year and called for much more study in presenting the arguments and much better arguments.

Edward S. Rowe '29 of Peacham, Vermont has been elected Captain of the cross country team for the coming season. Ed is a veteran runner, having run last year and the year before. He is also the fourth of the famous Rowe Brothers to acquire this position. Rowe is a member of Phi Mu Delta fraternity.

The Research Club of the University held a meeting on Tuesday evening, November 20. Professor Swift of the Department of Mathematics spoke to the club on the subject of "Certain Modern Developments in Mathematics."

The Faculty Club of the University held a meeting on November 26th. Professor A. H. Gilbert of the Botany Department spoke on "The Wisconsin Experimental College." After his talk a discussion was held on the subject.

Pictures of the recent flood were shown at the meeting by Thomas Bradlee and Mr. Jenkins, both of the College of Agriculture.

Frosh football men had their annual picture taken last Friday, December 2 at 1:15 o'clock. This picture included players as well as assistant managers.

SIXTEEN SURVIVE CUT MADE IN BASKETBALL SQUAD BY MCAVOY

Squad Shapes Up Well in Preparing For First Home Contest With Montreal A. A. A. Saturday

The basketball team is now beginning to show development and along with this Coach McAvoy wielded the ax leaving only 16 players to fight for places on the quintet. He will probably keep these for a short time and then make his final cut. The men who survived the first cut are: Prentice, Halligan, Marvin, Estabrook, Price, Pike, Wallace, Morgan, Palmer, Manning, Whitcomb, Mackay, Lyman, Morse, Muzzey, Mace.

In these 16 men Coach McAvoy has a wealth of fine material. In a scrimmage held Saturday afternoon Team A consisting of Prentice and Pike, forwards; Price and Estabrook, guards, and "Doc" Marvin at center, was held pretty evenly by Team B made up of: Manning and Palmer, guards; Wallace and Halligan, forwards; and Morgan at the pivot position. Manning, Wallace and Halligan are all members of last season's frosh quintet and are showing up very favorably this season. Halligan has been playing somewhat with the regulars and it is probably between him and Pike for the position left vacant by "Archie" Post, who received his sheepskin last June. Wallace is a tall rangy fellow, but is clever at handling the ball and should develop into a handy man. Manning is the best looking prospect for substitute guard just at present. He is fast on his feet and very clever. He showed his unusually good guarding qualities Saturday when he held Prentice down, which is something that takes an exceptional player to do.

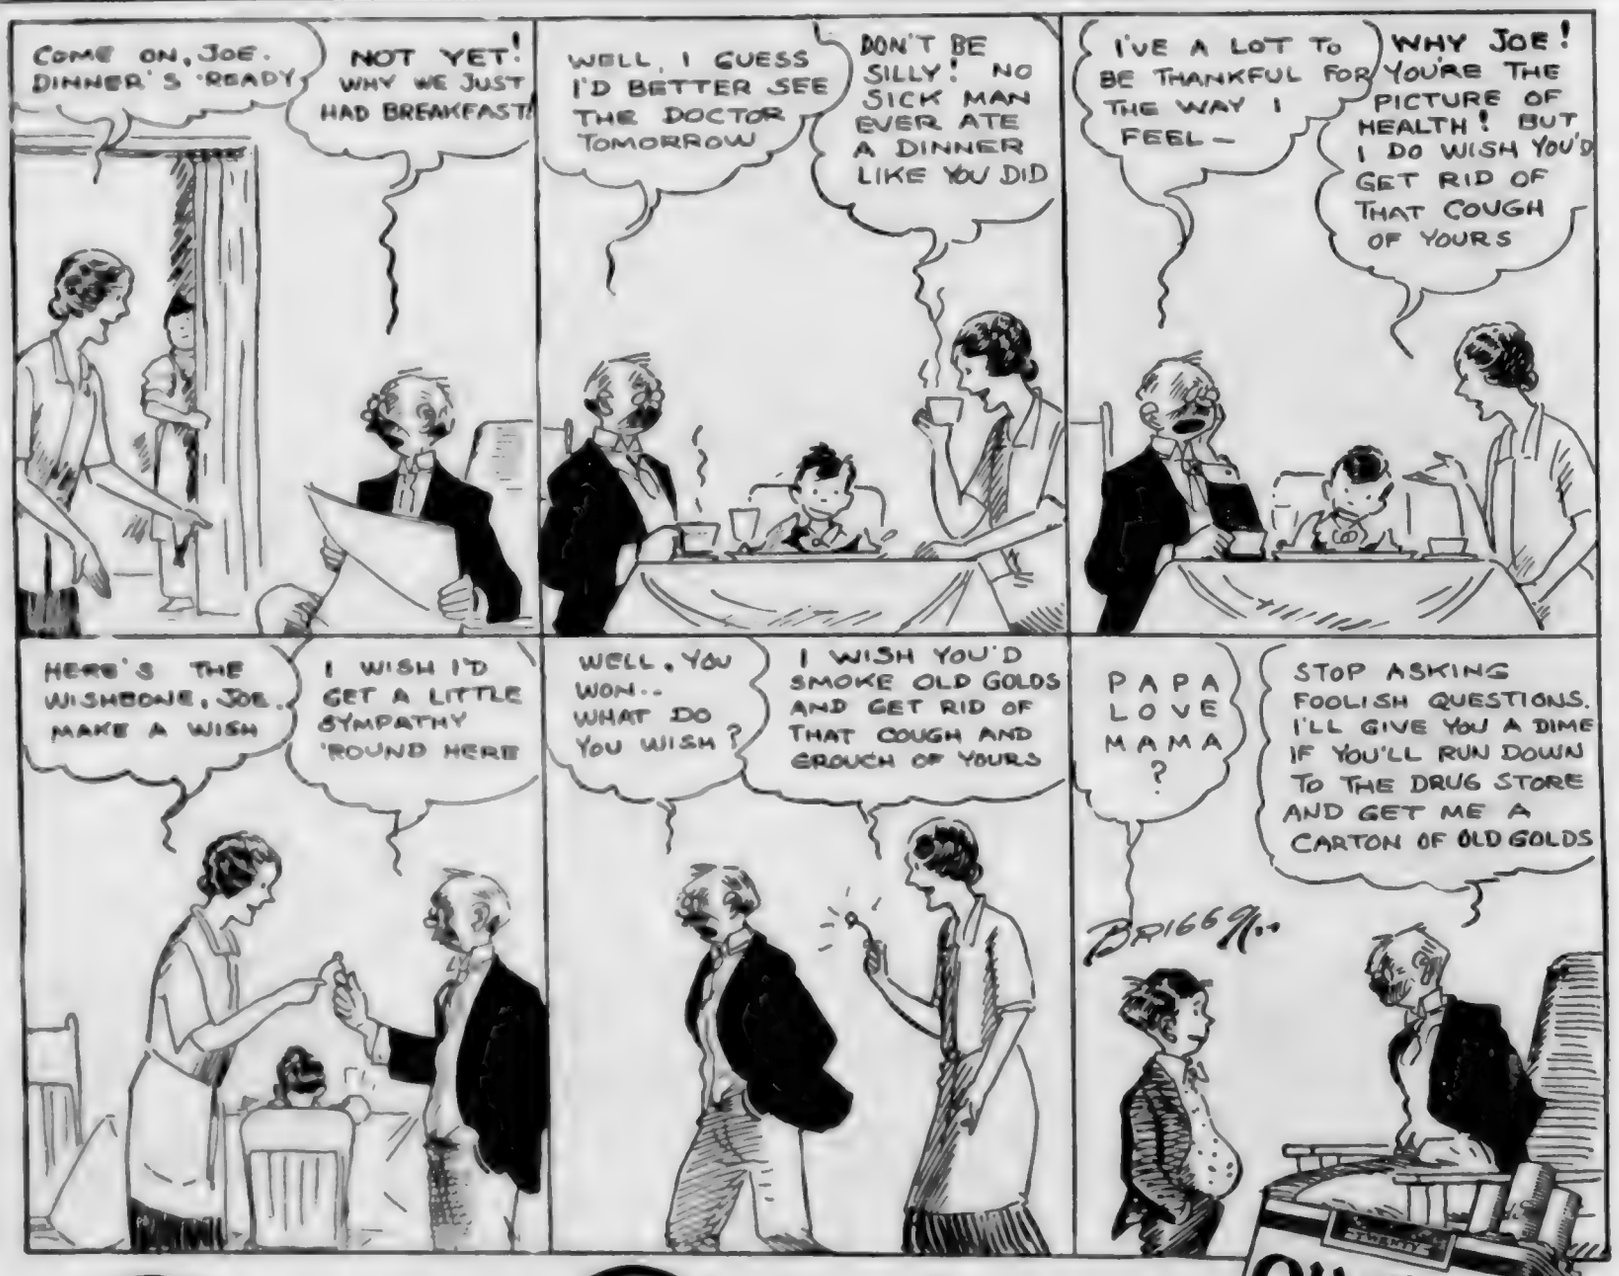
Pike and Morgan are showing up very much better than last season, both of them seeming fast and more accurate at shooting. They should both make their letter this year unless something goes radically wrong.

With the first game Saturday night with Montreal A. A. A. this week will be a hard one for the Cat hoopsters. They are being put through a strenuous practice each day in passing, shooting, footwork besides a little scrimmaging so that they can get used to the playing abilities and styles of each. The regulars from the past season's hoop team look fine and from appearances now we should clean up on the majority of contests this year. The schedule calls for 18 games besides the Yale Tournament and there are many fast teams on the list to be met.

NOTICE FRESHMEN

At a Boulder meeting last Thursday night it was decided that all Freshmen must procure toques by December 10. Regulation toques should be procured at the College Book Store.

The Newman Club held its second meeting of the year last Sunday evening in the Cathedral High School gymnasium and heard an address given by Major Guthrie, author and lecturer, who served in the Canadian army during the World War.



Dartmouth College Outing Club announced November 30 the appointment of Siegfried L. Steinwall as coach of the Winter sports teams. His selection is the first of three, as the Outing Club this year has revised its policy of having a single man take care of all branches of the Winter activities.

A meeting of the International Club was held Thursday at 4 p. m. in Room 37, North College. Robert Andrews spoke on the Japanese immigration problem which faces California. The entire meeting was taken up with this discussion. The next meeting of the club will be two weeks from Thursday.

"LE CERCLE FRANCAIS" TO MEET DECEMBER 12

The committee of Le Cercle Francais held a meeting Wednesday November 28 at 4:00 P. M. in the Old Mill. Many important topics were discussed at this time in order to arrange a program for the next meeting which will be held on December 12 at 8:00 P. M. in the Vermonters Club Rooms. All those interested in the French Club are invited to attend and each one will be asked to quote some idiomatic sentence when answering to the roll call. The program for the meeting to be held December 12 will be published in the near future.

NEWMAN CLUB HEARS MAJOR DONALD GUTHRIE

Speaking Sunday morning before 150 students of the University and Trinity College, Major Donald Guthrie of New York, a member of the Catholic Writers' Guild, and a noted lecturer won his way into the hearts of his audience with an address which followed the monthly Communion breakfast of the Newman Club. He related his experiences as a student at McGill University in Montreal, and told of the events leading up to his conversion to Catholicism ten years ago.

Major Guthrie, who was a graduate student at Johns Hopkins University, stressed the motto of that school "Know you the truth and the truth shall set you free." The meaning of the word "free" was discussed and explained by the speaker, who declared that the greatest freedom is to be found in deepest bondage to the highest order

In analyzing the intellectual forces that are working on the minds of the youth of today, Major Guthrie painted two interesting maritime illustrations, declaring Captain Kidd and not the mighty sailor, John Paul Jones, was championed by a great majority of the rising generation

Major Guthrie served with the Canadian forces three years in France Writing is his life work.

FROSH TEAM TO APPEAR SATURDAY AGAINST FIVE FROM VARSITY SQUAD

Yearling Squad is Cut to 16 Men By Coach Dresser—A Heavy Schedule is Mapped Out For The Approaching Season

The Frosh hoop quintet is now well underway. About forty men reported to Coach Dresser for the first few nights' workout but the squad was soon cut to twenty-five, and by Wednesday the ax will again be swung, leaving 16 survivors, who are Allen, Durfee, Tobin, Dinneman, Sargent, Jackson, Joyce, Grass, Stevens, Agell, Heaton, Schwartz, Douphin, Schurman, Maines, and Bolton. This number will be carried through the entire season.

Manager George Talcott is working on the schedule, and has already arranged for a two-day trip to Hanover, where they will play Clark School on March 2nd and the following night the Dartmouth Frosh, for the final two games of the season. Talcott has plans for games with the Middlebury freshman quintet and one with each of the local High Schools.

It is much too early to tell how the team will shape up. In fact the first five men have not yet been chosen, but after the cut Wednesday the team should start rounding into form. The majority of the men have shown considerable skill in handling the ball and some fine floor work.

Several of the men are already well known stars in this section. Among the better known are "Dave" Allen, star guard of Fitchburg, Mass., High, national champions of 1925-26, Bob Tobin and "Hank" Durfee, both Cathedral High stars of the past season, Stevens of Barton, who was one of the outstanding guards during the State tournament here last season Sargent, center for Peoples Academy of Morrisville last year and "Gil" Grass, guard of Orleans High team.

The Kittens expect to make their first appearance Saturday when they will play a preliminary, with Team C of the varsity squad. This team is composed of Lyman and Morse, forwards, Whitcomb, center, Mackay and Mace, guards. The Dresserites will have to step some to put these boys under water as they have been showing up well in practice against the other two varsity teams.

Nearly all of the yearling squad will have a chance to show their wares in the opening game in order that they may be given the once over. Since the Kittens succeeded in going thru an undefeated football season it now remains to be seen if it is possible for them to duplicate this on the court. They will have a hard job to do this with a game with the "Green" Frosh. There are several other strong hoop teams that they will bump up against before the season is through that will give them plenty of competition. There is a certain undefeated team in the City here called the "Crabs." An effort has been made to get a game with them, but their manager decided that they did not wish to break their winning streak just yet.

FROSH DEBATERS WIN OVER SOPHOMORE MEN

Class of 1931 Awarded Bailey Cup in Annual Interclass Debate—Decision Establishes Newspaper as Curse to Society

The Freshman debaters, upholding the affirmative of the question, "Resolved, that the daily newspaper is a curse to society," defeated their sophomore rivals in the annual interclass debate, thereby annexing for their class the H. A. Bailey cup. The debate, which was held Tuesday evening in the Old Mill Chapel, was attended by nearly a hundred students and towns people. John M. Leavens, '28, presided and the judges, who awarded a two to one decision, were Professor L. M. Prindle, Professor A. G. Buehler, and Professor L. D. Meredith

G. R. Nelson, opening the debate for the affirmative, presented his arguments in fluent and convincing manner He maintained that newspapers falsify the facts, and sensationalize unimportant news. He caused no little amusement by displaying and reading from typical "scandal sheets." R. J. Roche, the first negative debater, held that the affirmative was not justified in dwelling upon the tabloid newspaper, stating that these publications were only a small percent of the newspapers in the United States. He further asserted that far from being a curse, the better newspapers were a benefit to society. In accordance with the Oregon system, the first affirmative speaker again took the stand to be cross questioned by his opponent, F. A. Sears, '30. After twelve minutes of quizzing, the negative debater was submitted to a fire of questions from Louis Lisman, the second member of the Freshman team. Most of the time in these periods was devoted to a discussion of whether fifteen of fifty percent of the newspapers in this country may be classed as "scandal sheets." The debate concluded with the summaries and rebuttals, offered for the negative by Sears and for the affirmative by Lisman

P. S. Robbins, '30, was the manager in charge of this debate.

PHI MU DELTA TO HOLD NATIONAL CONCLAVE AT VERMONT THIS MONTH

Phi Mu Delta is to have its tenth annual conclave at Nu Gamma, the Vermont chapter, December 28 and 29 Nu Gamma is one of the three charter chapters of the fraternity that was founded in 1918. At present there are thirteen chapters in the national organization.

Delegations are expected from each chapter, as well as the national officers It is thought the number to be in Burlington will exceed fifty. The delegations will be lodged at the chapter house and at the hotels during their stay here

The first evening will be a banquet at the Hotel Vermont roof garden Among the speakers of the program will be President G. W. Bailey, who will welcome the delegations to Burlington.

The last night a formal dance will be given at the Ethan Allen Club. The chapters sending delegates will include New Hampshire State University, University of Maine, Boston University, M. I. T., Connecticut Agricultural College, University of Susquehanna, University of Illinois, University of Ohio, University of Ohio North, Northwestern University, University of California and the University of Michigan

INSTRUCTOR IN FRENCH GIVEN ABSENCE LEAVE

Mr. R. H. Doane, French instructor, has been given a leave of absence because of his ill-health. His physicians have advised him to take a complete rest for the remaining part of the college year and depart for a warmer climate as soon as his health will permit. He and Mrs. Doane will sojourn in Miama, Florida. The date of their departure has not been definitely decided. Mr. Doane's classes are being taken over by Mr. Rideout and a new instructor, Mr. James M. Doyle, Harvard '27. Mr. Doyle has been doing substitute teaching in the Boston High Schools

COLUMBIA SCHOLARSHIPS OFFERED VERMONTERS

A scholarship of $300, applicable to the expenses of the first year in the Columbia Law School, is offered by that university to a student or graduate, a native Vermonter, of the University of Vermont or of Middlebury

The scholarship is made possible through an endowment, a gift to Columbia University from Mr Ellis of the law firm, Clark, Carr and Ellis Mr. Clark is a graduate of the University of Vermont. Because of the scarcity of scholarships for the first year in the Law School of Columbia University, Mr. Ellis has made possible this scholarship to Vermonters

Applicants for the scholarship will be considered upon the merits of their past academic record and character by the Law School faculty, that applicant meeting their requirements best receiving the scholarship. U. V. M students who are interested may secure further information at the comptroller's office, Medical building

BLANKETS TO BE GIVEN AT MONTREAL GAME

During the intermission of Vermont's first game of the season with the fast Montreal Club, Key and Serpent will present large green blankets, with gold V's in their corners, to the five members of the senior class who participated actively and successfully in varsity football during the past season. Those who will receive these signal gifts are Conway, Smith, Leary, Winchenbach, and Charley Stevens. Dr. Aldinger will make the presentations on behalf of the society

At a meeting the distinct success of the Key and Serpent dance, held recently, was remarked upon, and the club takes this means of thanking those who have already thanked the members for the good time they had

At the same meeting with the aid of Dr. Aldinger, a winter basketball schedule for interfraternity teams was drawn up, a schedule that all feel will be most successful

Beginning with the first varsity basketball game of the season a new system of ushering, recently perfected by Key and Serpent, will be given its trial. It is quite unique, never before used at Vermont, and purports to be a noticeable success

DISCOVER GREEK ALTAR IN BURLINGTON HOUSE

Recently some interesting remains of classic architecture have come to light in Burlington. The first is a *Greek altar*, in excellent preservation but of very late date. It is of rude workmanship and was evidently made by a barbarian who, although familiar with good models, was yet a stranger to the fine technique of the ancient Greeks. There are also four *Roman Doric columns with Ionic flutings*, nearly entire, although considerably marred. The workmanship is excellent, but of a somewhat debased period of art

The nearest parallel in type is the classic column employed in New England architecture of colonial times Cuttings in the columns, and certain metal attachments, give rise to the opinion that the columns were used to support the roof of a colonnade of irregular ground-plan. Work on the restoration of the columns is being pushed. It is hoped that the columns and altar, together *with some articles found by students of the department of music in the cellar of an old house* not far from the campus, may be used in the performance of Euripides' Iphigenia, among the Taurians, which is to be given on January 13, by the undergraduate Greek Club of the University of Vermont (Iota Chapter of Eta Sigma Phi) with the assistance of the Women's Glee Club

The discovery of classic remains in Burlington has aroused the hope of finding a Greek theatre, even of the crudest type, in which the play might be given

RADIO CLUB

There will be a meeting of those interested in the new Radio Club at 7:30 Tuesday, in the Engineering Annex.

MONTREAL A. A. A. OPENS BASKETBALL SEASON HERE SATURDAY NIGHT

Strong Canadian Team to Give Catamounts Plenty of Fight —Vermont to Start Mostly Veterans

Vermont's basketeers open their season on the court Saturday against the strong Montreal A. A. A. quintet Last year we defeated them by the comfortable margin of 38-16, but the Maple Leaf boys are out for revenge this year. Reports give one to understand that they have a better bunch of hoopmen this year. This game is usually only a trial horse for Vermont, but the boys will have to step Saturday to send their opponents back to Montreal with a defeat to mar their record

The Green and Gold quintet is composed mostly of veterans, but there are some new material that will have a chance to make itself acquainted with the crowd before the evening is over Coach McAvoy has two teams of about equal strength so that there should be no loss of games this year because of lack of substitute material

Captain Prentice is back in his old time form of hooping them from any place on the floor and "Bunny" seems to have more speed than ever this year. He is a hard man to hold down and should sink a number of tallies before the final whistle Saturday night

At the other forward position, it is some question as to who will start Pike or Halligan. Pike has been with the veterans the last few practices but Halligan is pushing him strong Before the night is over they will both have a chance without doubt as will Wallace another forward

"Doc" Marvin will be back at his old position as pivot-man and main defense man. "Doc" with his long arms and legs is a hard man to get by and he breaks up many plays that look like sure scores at first. He is Vermont's best defence man playing in the back court the greater part of the time after the tap-off

"Kiki" Price will be at his old guard position and so far has been showing up to good advantage. "Kiki" has his old eye with him again and has been sinking them from all sides of the court. "Red" Estabrook, will hold down the other back court place. He is a find of last year playing a whale of a game all season long and he promises to have even a better one this year. Estabrook takes the center's offensive after the tap-off as Marvin shifts back to the defense so that a great deal rests on Red's shoulders

"Hick" Morgan, will probably get in the game at center as will "Phil" Manning and "Sap" Palmer, two substitute guards. "Hick" is showing up much better this season and seems to have more polish on his floor work than before. He has a wicked eye for the basket on a step shot and his long legs get him there in a short time

"Phil" Manning is one of the finds for guard position. He is fast and a clever handler of the ball. He used to be a center, but looks much better at guard. He is a hard man to get away from and his opponent will have to be careful also as Phil can loop them from all corners. "Sap" Palmer is the other guard of note on the substitute list and will no doubt be seen in action. "Sap" is not quite as fast as Manning, but he is a consistent guard and one that keeps dogging after his man until he wears him out

Everything points toward a win for the opener and it is the best way to start the season. After this game we can see how their chances are with Dartmouth which they play Dec. 14 The Green has a strong quintet and the Cats will accomplish a great deal if they beat them

The preliminary game between the Frosh and Team C will start about 7:30 and the big game at 8:00 or 8:15

CO-ED MAYOR CANDIDATE

Helen "Gwen" Jones, 24-year-old co ed at the University of New Hampshire, has launched her campaign for mayor of Concord. She will run against three Democrats, all men. She has announced her slogans as:

"Not pre-election promises, post election action," and Concord, the finest city in which to live, and a square deal for every inhabitant."

LITTLE TOWARD CULTURE

WARNING

One more [illegible] contributor to the [illegible] we bring dead to the [illegible] stand being under warning. [illegible] after sign of decay. [illegible] fallen standards. [illegible] and conditions that do warrant rather individuals going under warning, but there is no excuse for any attitude that allows a man to [illegible] here to make no effort to [illegible] the cause to be quite content merely to pass the courses. This attitude is foreign to a man who has either standard or self respect.

To be under warning is to be in a situation that affects not only the individual but also the Fraternity and the University. The Fraternity has a certain amount of self respect to uphold and this is not aided by marks that bring such a low character to be considered upon faculty consideration. This does not help the reputation of the individual on the campus nor in the town. Then too, there is the possibility of representing the society in its many campus activities, often thus [illegible] all the good that other members have done. As for the University it of course suffers in reputation, not only from the fact that it has many men enrolled whose work is of an unsatisfactory type, but also and more especially from the kind of men that leave the institution and go out in the world with the name of said institution bound up in them. The man who is constantly under warning while in college is not likely to make anything but a success of life when he leaves college.

By letting studies slide in this way, the individual hurts himself exceedingly and unquestionably. The primary reason for coming to the University is to gain knowledge and develop the intellect. Then again, many come for the social values to be obtained. Very evidently then, to be under warning is to miss the opportunities which we came to college to obtain. The man who is continually under warning is not gaining much knowledge nor is he developing his intellect. And social privileges are in many way denied by the rules governing participation in activities. There is no getting around the fact—there is something radically wrong with individuals who continue under warning. Disgrace for themselves, their associates and the college, and the laying of a foundation for a worthless life.

Campus Comment

[illegible]

As between [illegible] I would like to suggest that most of the students [illegible] have given much thought about the [illegible] Weren't a success.

I read the article and was quite surprised. There was any such feeling [illegible] Besides what [illegible] have [illegible] having activities [illegible] the Director. I noticed [illegible] I believe this is done [illegible]

However, I don't think that anyone figured up should be considering with the [illegible] planned instead to do so. What the men need [illegible] to satisfy the needs of those who [illegible] a better day but let him do the [illegible] which he is paid.

As this [illegible] year has not been such [illegible] as usual [illegible] There has at times been rather poor spirit between the men [illegible] I think it may be wrong from what I've been told that some of the men wanted to show themselves before the women we need [illegible] There is some of the other [illegible] causing a feeling of ease [illegible] a few of them.

Sincerely yours,

F. 28

To the Editor of the Cynic:

Do we need a new gym? This may seem rather an old question when we are fortunate in having already a very good gymnasium, but to those who know the conditions the advantages are perfectly logical. The whole trouble seems to be summed up in the one word, girls.

The boys are finding it difficult because the girls are monopolizing the gym. Whenever they want to play basketball the girls are doing either interpretative dancing or dressing. If the boys are fortunate enough to find the gym empty they can do more than shoot a few baskets when the girls literally run them off the floor.

Now the boys have scheduled physical education classes. So do the girls, but it seems that the girls have more scheduled classes than the boys. This shouldn't be for there are at least one hundred more boys than girls. This also shows that the girls have [illegible] as many classes as the boys, or even that classes are much smaller [illegible] consisting [illegible] classes.

Whatever the case, however, the fact remains that the girls have the use of the gym oftener than the boys. This is hardly fair, but yet what's to be done? That is just the question. Either we will have to have a new gymnasium or else the girls will have to cut down on their physical education classes. These are the only [illegible]

Although it is not expected that any action will be taken for quite some time in regard to this matter, the question, Do we need a new gymn? is well worth considering. D. P. '28

MACHINE MADE

By J. F. M.

Mills of education grind exceeding slow but the grist is exceeding fine. The sons of the masses headed supposed to the dust of knowledge. Soon they go on about their infinite tasks. It becomes an obsession. To these sullen [illegible] these makers of men, there comes a certain fascination in the working of the [illegible] clay into the finest product. To them there is a profound joy when they gaze upon the finished product. All there is a [illegible] Lives have passed the [illegible] smooth. Irregularities of character have resolved into an unbalanced sameness that is not unpleasing. Every evidence of individuality has been scraped away until the monotony of similarity assumes astound [illegible]

Heads of these masterpieces are [illegible] turned out year by year from the [illegible] institutions of American education. Their manufacturers stamp them with the seal of superiority and send them out to conquer the worlds of society and commerce. Alike in every detail they bear the degree which sets them above the common run and rabble of men. They carry the banner proudly and march in magnificent contempt of the multitude. They cry Lucky. They thirst deeply for the golden blood of America. The weapons of battle have been acquired through four long years of discipline. Luxuriously they clamor for the battle where the drum beat of knowledge has stirred in them. At last they thunder at the doors of occupation. The temple of business sags to the pressure. Finally the portals swing open. The throng enters, throbbing with anticipation. Alas! The halls are empty! The deep vacancy mocks the footsteps of education, while the bar locked vaults are guarded by the cruelly barbed protection of individuality; against which, millers dust is powerless.

CO-ED RESPONSIBLE FOR MCGILL STUDENT DUEL

Proof positive that the student of the present age has not lost entirely his capacity to understand the finer phases of courtesy comes from a late communication from the *McGill Daily* which recounts a tale of satisfaction [illegible] good old way with [illegible] This case of the better [illegible]

Those students who were [illegible] busy yesterday at five in wending their ways homewards or who were not locked behind doors listening to some lecture were witnesses to a scene which bore all the earmarks of the days of Cameo Kirby or Louis XIII. It was a duel staged in the grounds behind the administration building and with real swords.

The cause of the combat is unknown but it is rumored that it arose out of what all quarrels arise—*la femme*.

The ground was muddy and both combatants didn't find that to be in their favor. Also the air was cold and they found it difficult to hold the icy handles of the swords.

The combatants, whose names cannot as yet be divulged, fought for the first ten minutes without any results. They both slashed and dabbed and stabbed but all the blows were parried.

Then one of them accidentally drew blood. The tip of his sword grazed his opponent's hand and brought blood. The second in attendance immediately stopped the duel. The victor declared himself satisfied and shook hands with his victim.

It is rumored that the swords were borrowed from the McCord National Museum but probably this is untrue since it is against regulations to loan out specimens.

Up to a late hour last night the name of the lady involved was not learned. Further developments are being awaited.

TEMPLE BANS MIMEOGRAPH

Temple University Student Council has withdrawn the right of publication of mimeographed copy by undergraduate organizations. The banned articles are published by the several classes of the University.

She was a new pledge and was asking questions. "I guess the motto of this houses is 'Eat, drink and be merry.'"

"No," said her new sister, "its eat, wink and be wary."—*Tech News*.

AT THE DORM

By Converse Hall

Bruce no longer has his mustache,
And yet Bruce is a soph. Did he decide to lose the thing? Or did Frosh shave it off?

English Prof: "Do you realize that this course is costing you approximately forty dollars?"

Voice from the extreme rear: "It isn't worth it."

In Ec. Class. "It took the first ice sheet 4,000 years to go from Hartford, Conn., to 185 miles up the Conn. river."

"It must have been riding on the N. Y., N. H., & H."

Illustrating a point in math. class: "If the Americans claimed the border line between our country and Canada was in their territory, Canada would kick if the Canadians claimed it to be in their land we would kick. What would be the result?"

"The Canadians would win. They have the bigger kick up there."

O(h) de to Rand's

At morn, at noon, and e' en at night,
We see our students marching right
Along the way to fill their pads,
Roast Lamb, Banana Pie—their gods.
So merrily each wends his way,
And even at the close of day,
When it grows late—say 10 p. m.—
With fellows growing starved again—
"Say, gang, what say we get some eats?"
We'll starve to death between the sheets."
No urging needed all about,
The "gang" let out a mighty shout,
And donning coat and freshman cap—
(Lest Gold Key paddle back of lap),
They venture forth in quest of food,
And golly but the stuff tastes good!

* * * *

Beyond the dorm that haven stands;
A sign proclaims the place is Rand's!

Newman H. Chaffee, Jr., again pauses to inquire why the engineering department has not furnished one (1) single da-bed for his use during early morning classes.

"Say, they must still keep horses over at Robinson Hall."

"Howcome, Boy Scout, howcome?"

"Well I was over there the other night and I heard someone say, 'Take the plug out of the lamp, Jonny, so we can have some fun'."

It is all from the personal viewpoint, [illegible] to baseball fans, the means of viewing a good game at a moderate [illegible] and to freshmen—poison! Gold Key decrees that we must erect bleachers for each of the current basketball games and take them down after each contest. Love's Labor Lost! Not that we love the labor, but we think that it decidedly is lost. Put up seats—take them down. Why not leave them there once we go to all the trouble of placing them in the desired positions? It would save wear and tear on the seats and eliminate many of the doubtful compliments extended to Gold Key. Frosh are human, seats are heavy, and time is [illegible] Consequently various supervi[illegible] are often consigned to torrid re[illegible] course, the games are worth [illegible] seeing, much more than that. Vermont has excellent basketbal[illegible] fine, and we as a mouthpiece [illegible] merous frosh, predict another [illegible] tinctly successful season. Yet why one's back is breaking and [illegible] aching—(oh mammy!.—how [illegible] enjoy these games? One simply [illegible] cawn't you see? Won't Gold Key [illegible] something about this? We're [illegible] they will!

Petition recently presented to powers that be, by the inmates of Converse Hall. (The cold snap is the excuse.)

To whom it may concern: Whereas, during the past few weeks there has been a noticeable decline in the amount of heat issuing at intervals from our hissing radiators, and whereas, much serious discomfort as well as actual sickness, disease, suicides, etc. have resulted thereby: And whereas, we feel that we are not receiving [illegible] return on our capital investment; whereas, we believe that to [illegible] —be damned policy is not [illegible] with the best traditions and [illegible] of our incomparable Universi[illegible] mont:—Now therefore, do we [illegible] mates of Converse Hall, beg and petition for less hot air from the janitors and more from the furnaces.

Signed, I. Frozmy Earson

NEW DATES FOR DAIRY SHORT COURSES AT U. V. M.

Owing to the unfavorable [illegible] ditions existing after the flo[illegible] the Winter Short Courses [illegible] had to be postponed. [illegible] Course II, Milk Testing and [illegible] Work, and Course III, Fe[illegible] Herd Management.

Arrangements have now [illegible] whereby Course II will be g[illegible] December 28-January 11 [illegible] who desire to take this cour[illegible] send in their applications a[illegible] they have not already done [illegible]

Course III is more uncert[illegible] a sufficient number of appli[illegible] arrange to attend beginning [illegible] 11, it will start at that time. [illegible] interested should apply at [illegible]

The remainder of the [illegible] scheduled to be given at the p[illegible] announced dates as follows:

IV. Creamery Testing of [illegible] Milk Products, Dec [illegible]
V. Market Milk, Gradin[illegible] Inspection, Jan. 11-25
VI. Ice Cream Making [illegible] Feb. 8.
VII. Modern Buttermaking [illegible]
VIII. Soft Cheesemaking, F[illegible]

Complete announcements w[illegible] cation blanks may be obtaine[illegible] ing Prof. H. B. Ellenberger, [illegible] partment, University of Verm[illegible] lington, Vermont.

Ancient Harvard Regulations Reveal "The Good Old Days" as Not So Good

...who feel the reins of fac... ...en somewhat harsh and ... who stand in dread of ...y of compulsory chapel, ...eat loudly at the meager ...outs afforded by the do... ...ads, might sleep a little ...enjoy life a little more ...after reading a few ex... ...the Harvard College regu... ...1734. Some of the most in... ...when viewed from this dis... ...perspective—follow.

Sec VI All the Scholars shall, at ...et in the evening preceding the ... retire to their chambers, ...necessarily leave them; and ... on said evenings shall be ... violations of the Sabbath ... every Scholar, on the Lord's ... carefully apply himself to ... of Religion and Piety. ... ever shall profane said Day ...nnecessary Business or Visiting, ...king on the Common, or in the ... Fields in the town of Cam... ...by any sort of Diversion be... ... shall be fined 10 shillings.

... VII Also whoever shall be ...ty of loose or vain behavior, or of ...ng or sleeping at publick Wor...

... IX Undergraduates shall re... ...at least the main heads of ... forenoon and afternoon sermons ... Lord's Day evenings in the ...h, and such as are Delinquent shall be punished—not exceeding three shillings."

But if 1734 at Harvard seems long ago and far away, consider one of Wesleyan's younger sisters—or girl friends, rather. Considerably less than a century ago the following regulations were more or less observed at Mt. Holyoke:

"1. No young lady shall become a member of Mt. Holyoke Seminary who cannot kindle a fire, wash potatoes, repeat the multiplication table, and at least two-thirds of the shorter catechism.

"2. Every member of the school shall walk at least one mile a day, unless a freshet, earthquake, or some other calamity prevent. The bounds to the north are marked by a stake, also those to the south and west

"4. No young lady shall devote more than one hour a day to miscellaneous reading. The Atlantic Monthly, Shakespeare, Scott's Works, Robinson Crusoe and other immoral works are strictly prohibited. The Boston Record, Missionary Herald, Doddridge's Rise and Progress and Washington's Farewell Address are earnestly recommended for light reading

"5. No young lady is expected to have any gentleman acquaintances, unless they are returned missionaries or agents of benevolent societies Daguerreotypes and plaster busts are also prohibited."

FLOATING UNIVERSITY ON SECOND WORLD TOUR

The date of sailing from New York of the second College World Cruise on board the S. S. Ryndam, has been announced by Charles H. Phelps, Jr., president of the University Travel Association as September 19, 1928. After seven and one-half months' cruise of over 40,000 miles by land and sea, the college will return to New York on May 4, 1929.

During the cruise 27 foreign countries are visited and the steamer calls at 37 different ports. Sailing westward the Ryndam calls first at Havana, then through the Panama Canal stopping at Colon and Balboa, thence to San Francisco, and from there across the Pacific to the Hawaiian Islands, Japan, China, The Philippines, Siam, the Straits Settlements, Java, Sumatra, Ceylon, India, Arbia, Egypt, Palestine, Turkey, the Mediterranean and Europe.

Interesting programs have been arranged at each port and special trains will take the students in groups, on inland trips in Japan, Java, Siam, Ceylon, India, Egypt, Palestine, Italy, France, Germany, and England. In most of the foreign countries official receptions and entertainments will be provided and will afford the students an insight into the customs and lives of the people that is not afforded the tourist. Last year, it will be recalled, the entire faculty and student body were for four days the guests of King Rama VII of Siam; it is expected that the same reception will be accorded to the members of the second cruise.

The college body is limited to 375 young men who will be under the guidance of a faculty of 45 outstanding professors and instructors, who are being appointed from the leading colleges and universities of the country. Over 70 courses of college grade will be offered, and Dr. Lough has so arranged these courses that a student may complete a year of college work during the cruise, and need not lose time in earning his degree. A special feature of the cruise is the preparatory school department which provides for a limited number of young men who wish to prepare for college entrance examinations.

Since the return of the first College World Cruise on the S. S. Ryndam on May 4, 1927, the idea of study combined with world travel has been growing in favor with, and gaining the recognition of the colleges and universities of the country. Mr. Phelps states that already more than 100 institutions have signified their willingness to cooperate with the University Travel Association in arranging credit for work done during the cruise, and also by recommending and releasing members of their faculty for service on the College Cruise. Among these institutions are, Brown University, Dartmouth, Williams College, Lafayette College, Lehigh University, University of Michigan, University of Georgia, University of Louisiana, Clark University, University of North Dakota, University of Minnesota, University of Missouri, University of Washington, University of Southern California, Leland Stanford, University of Kansas, New York University, Columbia University, Colgate University, University of Alabama.

DECORATIONS CONFISCATED

Police visited Littlefield Hall of Brown University and confiscated several signs which students had appropriated as room decorations. This same incident took place last year and the *Brown Daily Herald* has reprimanded the students for such actions as they consider them purposeless as well as ridiculous for college men.

WORMS THRU COLUMBIA

Richard Rowden, of Columbia University, claims to have the most novel way of earning one's way through college. Rowden is the official worm supplier of the zoology department, and sells the students angle worms at 20 cents a dozen.

EDITOR BANNED AT RENSSELAER

Much interest is taken by various college editors in the expulsion of the editor of the *Rensselaer Polytechnic*. He was expelled for opposing in his editorial column the dictum of Director Ricketts on hazing. As summarized by the *New Student* the situation is as follows:

"The Rensselaer Polytechnic Institution dispute over hazing has taken a serious turn. The *Concordiensis* of Union College, carrying the first detailed account of the suspension of Frank A. Learman, editor of the *Polytechnic*, for his defence of the hazing, indicates that Director Palmer C. Ricketts has met the editor's hysteria with more of his own. Not only was the editor suspended, the *Concordiensis* says, but his credits for three years of work were cancelled, and his successors will have to permit the censorship of the paper. College editors who looked favorably upon the director's attempt to stamp out hazing, have now come to the defense of Learman. The whole case is evidently one in which both editor and director went to extremes, the one in making much ado about nothing, and the other in meeting the hysterical attack on his methods by taking extreme and similarly unnecessary action."

LENDING BARBER SHOP

To provide the students with a good hair-cut and a loan fund is the double purpose of a newly purchased barber shop on the campus of Emory University.

G. H. Mew, treasurer of the University, purchased the shop, and promised the best hair-cut in town. Then, when the shop has been brought to a paying proposition, the proceeds therefrom will be placed in trust as a fund from which needy students may borrow for college expenses.

The shop is showing university loyalty, also, by using only hair tonic which is manufactured by an alumnus of the school.

POOL FOR MEN ONLY

Just how are there to be Gertrude Ederles if the co-eds are to be made to learn to swim in a bath tub?

This question is bothering the women at Emory university, where a violent protest is being made by the fair students to a ruling that the university swimming pool is to be open only to men when it is reopened next spring.

"Since co-eds are not given equality in other things at Emory," says one freshman co-ed, "we ought at least be allowed to go in swimming."

53% USE NICOTINE AT WESLEYAN

From a nicotine census taken at Wesleyan 53 per cent of the students indulge. One club boasts five members who chew tobacco and an attempt is being made to teach the fraternities to do likewise

FROSH SMOKE CORN COBS

Freshmen at Mercer College are happy. The ban which allowed them to smoke only corn cob pipes, has been lifted by the senior class at the Baptist University. The other freshmen regulations all are still in vogue, however.

1 IN 1,000 EDUCATED

Clarence Darrow says that 999 out of 1,000 get a good time out of their college, and the other one gets an education.

Compliments of
C. A. BARBER & CO.

FROSH LABOR TO START AT MONTREAL CONTEST

Gold Key has held no meetings since the recent flood but plans to hold one on the sixth or seventh of this month. At that time coming activities will be arranged for and a proper method of informing the frosh about their duties during basketball season will be made known. At the present time Gold Key announces that on Friday afternoon at 4:00 P. M. all freshmen must meet in the gym to erect the bleachers for the Montreal game. After the contest they will be required to take down the benches, attendance being required and checked at all such festivities. The penalty for non attendance is attendance at a Gold Key canoe party—plenty of paddles

The Dopefiend

By Nani Glucas

It is hoped that the Student Football Fan who was so greatly disappointed in the football team will be better satisfied with the hoop quintet Some of the students lose interest in all teams if one team has a poor season. Not bragging at all, but just giving a little forecast this dopester is willing to bet that the hoop quintet will annex over half of their games I pick Vermont to defeat Montreal A. A. A., Montreal Y. M. C. A., win the Yale Tournament, defeat Rensselaer, St. Michael's, New Hampshire is a toss up, Norwich, Middlebury, Holy Cross. With St. Michael's, Norwich Middlebury and Holy Cross we have two games apiece and I expect the Green and Gold to cap them all. We also have two with Springfield of which I will concede one to them and one to us. With Conn. Aggies we have an even chance, as also with Dartmouth. Unless something goes radically wrong we should drop not more than four games the whole season

Even the best teams these days are liable to be upset by a much inferior team. This was brought out again and again during football season with the defeat of Georgia by Georgia Tech. who was not conceded a chance, Boston College's win over Holy Cross, etc

N. Y. U. will be a new contestant in the Yale Tournament this year in which the Green and Gold quintet is interested. The University Heights five has been practicing since before the close of the football season and promises to put a fast quintet on the floor The Violets usually have one of the snappiest sets of hoopsters here in the last and much is to be feared from them

Holy Cross, who is also entered in the Bulldog Tournament and plays the Cats twice besides, has been out almost a month and have a wealth of material. The Purple will be represented by a veteran team, and are out to duplicate their wins over the McAvoyites again this season. They were just barely nosed out for the tournament title by Yale and should cause plenty of worry to all its opponents this year

Coach "Hank" Dresser succeeded in developing some protegés for the varsity this year on his Frosh team in 1926-27. Manning, Wallace, Halligan and Mace will prove their worth to Coach McAvoy before this season is over if they continue the way they have been working out in practice The first three mentioned along with Morgan and Palmer are going to give the veterans a great deal of worry about in holding down their old positions. Several times this combination has defeated the veterans in scrimmage lasting 10 minutes. Even though we do lose four men next year it looks now as though we have men capable of filling the positions left vacant. Coach Dresser will probably have a few more primed by that time to take a step up the ladder to the Cats Hall of Fame

It isn't far to those wrecking mid year exams and it remains to be seen what prospective athletes will remain for the remainder of the year. There are always some heartbreaking losses and then sometimes a sigh of relief as a well known prospect can be seen back at his place in the daily lineup of routine

There are several new court rulings to be tried this year in regards to time. One rule that will help the game a great deal is that a player having the ball outside and the referee signifies that it is to be taken in by the opposing side, that player must pass the ball directly to his nearest opponent and a technical foul can be called if he fails to do so. This stops that dirty trick that so many had of throwing it among the crowd or the other side of the hall

FIRST FRAT HOUSE WAS SIMPLE LOG CABIN

Will J. Maxwell, in his Greek Letter Men of New York says of the earlier chapter houses

The earliest of these (chapter houses) structures was, indeed the pioneer of its class but whether the distinction of having the first lodge or chapter belongs to Kenyon College or the University of Michigan, is in dispute. At all events, it was in the West, and like the houses of the sturdy pioneers who developed that section, it was a log cabin. It is certain that a structure of this kind on a secluded spot in an outlying forest, was used for its secret conclaves by at least one of the three fraternities which, established at Michigan in the middle of the "forties," successfully withstood the ban and outlawry of faculty interdiction But probably the cabin in this case unlike that used at Kenyon ten years later by the men of Delta Kappa Epsilon, was not built for the purpose In the early days, the prevailing prejudice against fraternities at most of the colleges, which in some cases was expressed in actual strict and fierce inhibition with severest penalties, made it necessary that the members should rendezvous stealthily and therefore the chapter could not have a fixed meeting place, much less possess a lodge or house of its own

Baird's Manual, 1927 ed says of XΨ: "Epsilon, established in 1845 at Mich., was the first western Chapter About the middle of 1846, it built a log cabin in the woods near Ann Arbor, for the specific purpose of providing a meeting place for Chi Psi at a time when the faculty was hostile to fraternities"

COLLEGE BAN CARS

The banning of automobiles to students is the topic of many college papers At present the University of Oklahoma, DePauw, University of Illinois, Princeton Wesleyan Dartmouth, and Michigan are institutions with this ban in force

Eighteen students were placed on probation, four continued on probation, five removed from probation and three dropped from college as a result of the mid-semester grades at Wesleyan College

SCOUT COURSE FINISHED BY MISS RUTH HEDLAND

Miss Ruth Hedland, graduate of Smith College and Regional Direc- tor of Girl Scout work, completed a course of six lectures Friday. About 20 took advantage of the opportunity to elect this course. Those who were not members of the national organiza tion have passed the Tenderfoot test and have been officially enrolled as scouts.

The history and meaning of the American Flag, the National Scouting organization, and International Girl Scout conventions were explained by Miss Hedland. Vermont has fewer patrols than practically any other state and the course of instruction was primarily intended to train girls who will teach in Vermont in organizing and leading troops of Girl Scouts.

FRATERNITY CHRISTMAS FORMALS NEXT SOCIAL EVENTS ON CALENDAR

Ten Fraternities Holding Last Dances Before Christmas Va- cation—Changed Vaca- tion Dates Cause Shift In Nights Selected

Because of the change in the vaca- tion most of the fraternities have changed their annual formal Christ- mas dances to this Friday evening, but some will wait until the end of next week. At least one has postponed its formal dance until January.

Lambda Iota will hold a dinner- dance January 6. Arrangements have not yet been completed.

The Christmas dance of Sigma Phi, which will be informal will be held Friday evening, December 16. Lech- nyr's orchestra will furnish music, and L. B. Pufler and Captain and Mrs. W. V. Rattan will chaperon.

Delta Psi will give a dinner-dance at the fraternity house December 23. Music will be by the Black Panthers of Middlebury, and Mr. and Mrs. Dean and Dr. and Mrs. French will be the chaperons.

Professor and Mrs. E. C. Dopkins will chaperon the formal dance that will take place at the Phi Delta Theta house next Friday evening. Best- wick's orchestra will play.

The Alpha Tau Omega house will be the scene of another dance Friday night. Dr. and Mrs. A. K. Aldinger and Colonel and Mrs. F. F. Black will chaperon this Christmas formal, and the music will be furnished by the Moonlight Revelers.

Kappa Sigma's dance will be formal, and will occur Friday evening at the chapter house. Jacque Renard's Cana dian Serenaders will play, and Mr. and Mrs. Warren R. Austin will chaperon. December 22 is the date set for the Sigma Nu dance. Captain and Mrs. W. V. Rattan and Mr. and Mrs. Bradley Jackson will chaperon, and Lechnyr's orchestra will offer syncopation.

Phi Mu Delta will hold a formal dance at the chapter house this week Friday. Music will come from the Vermonters, and Professor and Mrs. D. B. Carroll will chaperon.

Tau Epsilon Phi has not yet com- pleted plans for a Christmas dance.

Zeta Chi will give a formal dance in the Catholic Daughters rooms next Friday, with music by Doc Kenyon's orchestra. Professor and Mrs. H. G. Millington and Mr. and Mrs. L. W. Dean will be the chaperons.

Sigma Alpha Chi will also hold its Christmas dance Friday evening, with Professor and Mrs. G. V. Kidder as chaperons. The Algonquin Club Or chestra will furnish music.

Buckley's orchestra will furnish music for Sigma Delta's pledge dance postponed until this week Saturday evening due to the prolonged Thanks- giving vacation. Professor and Mrs. L. B. Pufler will be the chaperons.

20,000 Students Receive Copies of Lecture

The Missouri State Bar Association has had printed 20,000 copies of Judge John Turner White's address on "The Cause of the Crime Wave," delivered before the Bar Association meeting Sept. 30. Judge White is a member of the Supreme Court of Missouri. The students in the school of law, in the University of Missouri, received copies of this lecture.

ELDRED GIVES TALK TO CITY SCHOOL STUDENTS

Mr. Horace Eldred, assistant at the Library and the University Museum, was called upon recently to give a talk at the Lawrence Barnes school. He illustrated his lecture by speci- mens from the museum. The students were so interested that Mr. Eldred was called upon for a second talk, this time on Egypt.

Mr. Eldred has recently completed the refinishing of the objects in the Cannon room which were partially wrecked by the steam last January. Under his direction the museum has been redecorated and improved throughout. The entrance has been repainted and the cases have received a new coat of white paint making a more pleasing sight to the observer.

KAPPA PHI KAPPA HEAR FACULTY ON TEACHING

A meeting of the Kappa Phi Kappa was held last Tuesday evening at 7:30, December 6, in the Educational Office in the Old Mill.

Talks were given by Dean Swift and Professor Douglass. Dean Swift spoke on College Teaching and in his talk he told what was put into and what was derived from College Teach ing. Finally he contrasted College Teaching with High School Teaching. A college professor has to put in long hours, hard work, has to have a good head and be able to use it. From this he derives a fair living, good times and is able to meet many different people. He has to put in about fifteen hours a week teaching. This leaves him time to prepare his lectures, do research work and still have time to enjoy himself.

A high school teacher works about thirty hours a week and as this does not leave him much time for himself he would be inclined to slight his work. Dean Swift also said that to become a good college instructor it is best to take four years in college and three years of graduate work.

Professor Douglass spoke next and he told about the value of Kappa Phi Kappa as a professional Educational Society. A discussion on High School Teaching followed the last speech.

Refreshments were served and the meeting adjourned at 9:30.

FRESHMEN TAKE GAME FROM TEAM C IN FAST PRELIMINARY 24-19

Kittens Present Good Appear- ance In Their First Contest —Sargent and Allen Star For The Yearlings

Playing an especially fast game the U. V. M. frosh quintet opened up their season in true Vermont style by trimming the third team of the varsity to the tune of 24-19. The yearlings took the lead at the begin ning of the game and held it until the final shot was fired. The frosh put up the much better game of the two, lead ing their opponents in speed, passing and team work.

The Kittens appeared to be a speedy, promising outfit. In many depart ments of the game they displayed a crudeness which probably was due to nervousness on the part of the players and insufficient practice, but this will work off after a game or two. For a first try out, they showed plenty of speed and plenty of pep. Their pass ing was good with the exception of a few heaves that were way out of reach. In working the ball up the floor there was team work that would have done credit to a team with twice the prac tice that these boys had.

Sargent, at center played one of the prettiest games on the floor. He seemed to be all over the court, break ing up passes and working the ball up the floor. Besides being a good man on the defense he proved that he had

(Continued on page 7)

NOTICE

International Club will meet in 37 North College on Thursday at 4 o'clock. Latin-American relations will be discussed. The Club invites all interested to attend.

Large Cast Ready For Presentation of "Lady Windermere's Fan"

Play For Benefit of Flood Sufferers Will Be Produced by Vermont Players Under Direction of Mrs. Wilnetta Sproul Taggert— Large Sale of Tickets Expected

But unless devotees of the Thalian art win have an opportunity to wit ness one of Oscar Wilde's plays to morrow evening Wednesday December 14 at 8— Strong Theatre. "Lady Windermere's Fan" by the great Eng lish playwright is to be presented at that time by the Vermont players, under the direction of Mrs. Wilnetta Sproul Taggart. The cast of such mem orable plays as "Dulcy," "The Goose Hangs High," "Milestones," "Bab," "Her Husband's Wife," "Twenties," and other dramatic successes at the University.

Mrs. Taggart has gathered about her a scintillating cast. Among the veter ans from other plays are Whitney Safford, Dorothy Cottrell and Dorothy Strong. However the majority of the cast appears before the Burlington public for the first time. Nevertheless nearly all of them are well versed in dramatics having played in prepara tory schools and elsewhere.

The cast is an unusually large one but under the able direction of Mrs. Taggart all are filling their roles ex ceptionally well for amateur actors. In fact, to one who has witnessed the practice sessions, which have been going on twice daily for the last two weeks, the roles seem remarkably well cast. Although this serious English comedy calls for a great deal of natur al stage talent, the play augurs well to fulfill all expectations.

Lord and Lady Windermere are a young recently married couple of high English society. A mysterious and beautiful Mrs. Erlynne, the woman with a doubtful past and more doubt ful future causes unhappiness by her friendship with Lord Windermere. She is really the mother of Lady Winder mere although the latter is totally unaware of the fact. In fact, she so despises Mrs. Erlynne and her rather mysterious character that she is ready to separate from her husband, who has only befriended Mrs. Erlynne, and the love offered by her admirer, Lord Dar lington. Mrs. Erlynne's maternal love asserts itself at her own sacrifice and a reconciliation is accomplished be tween the Lord and Lady.

AFTER TEN RULE ONLY ON SUNDAY NIGHTS

The Student Union Council which met Wednesday afternoon discussed several questions of women's student government and made the following decisions. College plays will not count in the category of "nights out."

Every girl may have 12 o'clock per mission on Sunday which is not to be counted as a "night out," no one may have an "after ten" permission on Sun day evenings.

Girls are to sign for nights out beginning on Monday of each week.

The House Presidents are to choose the Junior and Senior members of the house committee while the Sophomore and Freshman are to choose the re maining members.

G. E. SAUNDERS ELECTED PRESIDENT OF OUTING CLUB FOR THIS YEAR

Plans Arranged For Interfrater- nity Meets—Also Represen- tation Proposed For Mid- dlebury and Norwich Meets

At the first meeting of the Outing Club held on Wednesday of last week officers for this year were elected as follows: President, G. E. Saunders, '28; Vice-president, A. W. Phelon, Jr., '29; Secretary, L. G. Cowles, '29; and Treasurer, R. M. Bragg, '30. A com mittee was appointed to draw up a constitution, and another to make definite plans for the series of winter sports meets which are to be started in January.

These meets, according to the plans proposed will be run off every Satur day during January and February, ex cept of course during Mid-years. Com petition is to be on the Fraternity basis, although some inter-class meets may be held. Dr. Aldinger, of the physical education department was present at the meeting and promised to excuse any student taking part in a meet from one of his 6:30 classes for the week in which he participated. In addition Dr. Aldinger assured the Outing Club of his support in promot ing winter sports.

The feeling at the meeting was very much in favor of sending a team from the University to compete with Nor wich and Middlebury at the North field meet. The team would be se lected on the basis of the weekly fra ternity meets, and, as was brought out at the Inter-fraternity meet last year, there is plenty of talent for a fine team. All that is needed is a small fund and plans for raising that money will be made in the near future.

NEWS IN BRIEF

Hastings, Morse and Scribner, all of '28 attended the annual meeting of the American Society of Engineers at New York City. These three senior me chanicals were unofficial delegates.

The Writers' Work Shop opened last Saturday afternoon in the Marsh Room of the Billings Library. A half a dozen attended under the supervision of Professor Dean. Methods for market ing manuscripts and the markets them selves were discussed.

The Newman Club is planning to have a Christmas tree December twenty-first at the Cathedral gymna sium.

Mr. Doyle of Harvard '27 is taking the place left vacant by Mr. Doane.

"Joe" Lechnyr and his master musi cians will entertain with music during the opening game of the Catamounts at the University gym Saturday night.

Sigma Delta announces the pledg ing of Antonio Scutaker '31 of Burling ton, Vt.

CLASS ELECTS CASTLE SENIOR WEEK CHAIRMAN

Clarence F. Castle, a member of the Sigma Alpha Chi fraternity was elected chairman of the Senior Week Committee at a meeting held last Thursday night. Other members of the committee will be elected in the near future. Clarence Castle is an active man on the campus. He hails from Springfield, Mass., a graduate of the Technical High School of that city. He was assistant manager of the basketball team last year and is manager of it this year. He was a member of the Gold Key his sopho more year and is a member of the Scabbard and Blade, Honorary Mili tary Society this year. A member of the E. M. E. rifle team and on the Junior Week Committee and special nominating committees are some of his other varied and successful extra curricula activities.

HARVARD TRIES BROWSE PERIOD ON STUDENTS

(By New Student Service.) Har vard's period, during which students are free to browse is now on trial. Preparatory statements on what is expected of the students were issued by various department heads. The most detailed explanation came from Dean A. C. Hanford who indicated that the University has faith in the desire of its students to put their time to good advantage. Commenting on Dean Hanford's statement the Crimson says: "The plan seems neither revolutionary nor premature. It appears as the logical sequence to the general edu cational policies of the University. Certainly the possibilities are many, but under these it is seen that the regiment for these post-holiday weeks has been carefully anticipated."

NOTICE 1930

There will be a meeting of the class of 1930 in the Old Mill Chapel Wednesday afternoon at 4 p. m. to elect members to the student senate.

The Vermont Cynic
THE OFFICIAL STUDENT NEWSPAPER

Campus Comment

[illegible] R P [illegible] Dean [illegible] University [illegible] Dean [illegible] Vermont students are [illegible] with the University. They feel that this institution is but a [illegible] high school. Without qualm we say that this is a simple figment of G. R. P.'s imagination. The remarks of the paragraph make nearly every Vermont man and woman boil with indignation.

Can the author of the letter prove his statement that "the administration probably means right but why must it make blunders in practically every bit of legislation it passes?"

If any statement is moronic that one quoted above is.

We are not appointed spokesmen for the administration in defense of their recent decision re shortening the Christmas vacation. We are mighty certain that the decision was not made arbitrarily. We can see plenty of arguments why the time should be taken off at the beginning of the vacation rather than at some date in the second semester. We are sure however that the students who lived in the flooded area appreciate the length ened Thanksgiving vacation which gave them an opportunity to visit their homes soon after the flood and [illegible]

[illegible] Between [illegible] and three-fourths of the Columbia University graduate students are scholastic negligibles. Dr. Frederick J. E. Woodbridge, dean of the Graduate Faculties, concludes in his annual report. He would restrict graduate work to specially equipped students capable of original research and scholarship and recommended that the negligibles be absorbed by the extension department. Of the "negligibles" saying Dean Woodbridge said: "I do not mean the students are unworthy of concern. I mean that they are negligible in that, provision being made for them, we can concentrate effort on making better provision for those faculties. In graduate schools it is not students but professors who need the greater attention."

[illegible] Look this way and [illegible] a pretty little dickey bird [illegible]

[illegible] Oh don't be a nut. [illegible] plate and get this [illegible] with [illegible]

BARNARD GIRLS HOLDING BIG SLEEPING CONTEST

Girls at Barnard College are competing to make their classes the sleepiest in school. Students this week are going to bed three or four hours earlier than usual and sleeping as late as possible without being late for class. Time of retirement and awakening is noted on a "sleep meter" by each student.

Sleeping hours will be computed at the end of the week and the class having the highest total will be declared the winner in the contest arranged as the feature of Barnard's health week.

SOPHOMORE CO-EDS WIN PRIZE FOR PLAY "FOR DISTINGUISHED SERVICE"

Class of 1930 Annexes Decision For Second Consecutive Year At The Interclass Contest

The class of 1930 proved its ability as Du Barrys for the second consecutive year when it won the decision of the judges in the dramatic interclass dramatic contest Friday evening. Their clever interpretation of "Enter the Hero" will be remembered as the prize-winning play of last year.

The Sophomores presented "For Distinguished Service" by Florence Gay Knox. The Juniors acted H. L. Mencken's Pearls which the Freshmen gave an imitation of Shakespeare "Two Gentlemen of Soho" by A. P. Herbert.

Pearls was supported by a cast of seventy players. Peggy who took Mel's place was represented by Marion Foster. Marion Evarts portrayed Tad the butler. Frances Hawley played the part of Pete and Lucy Morgan as Mr. Brown the stranger proved to be the god of the machine and brought a happy solution of the story. Irene Estes and Marion Baldwin coached the play. Mary Turner was director of costumes and Mary Davis of properties.

Lillian Chen, Irene Marcotte and Margaret Perry starred in the Soph's play "For Distinguished Service." A woman of the smart set was grieved by the husband of her friend. The friend was a social butterfly with a good deal of dramatic irony, the woman counseled her friend with the matter resolved and advised her to be more appreciative of him. The play was directed by Merta Munro and Ruth Goodwin. Doris Kibbe was in charge of costumes and Frances Laythe of properties.

Englishmen, deathbed scenes and detectives abounded in the Freshman play "Two Gentlemen of Soho." In form, content and style the play was a satire after the Shakesperian manner. The cast was made up of Janice Davis, Lucille Fine, Lorraine Guillette, Lorraine Martin, Helen Taylor, Margaret Watts, Jean Wapplet and Molly Wilson. Elizabeth White and Phoebe Flint coached the production. Frances McKean directed the costuming and Natalie Hawley superintended properties. Dorothy Cottrell had general charge of make-up.

The three plays showed conscientious coaching and a great deal of talent. The properties and costumes were excellent giving evidence of much forethought on the part of the directors. The entire evening's performance was under the able management of Agnes Wheeler '29.

The committee of judges was composed of Miss K. H. Stone, Myrick and Mr. L. W. Dean.

A dance sponsored by [illegible] followed the plays and was attended by about 75 couples. Mr. and Mrs. Dean and Mr. and Mrs. [illegible] chaperoned. The Algonquin furnished music.

"How do the Tau Rhos [illegible] here?"

Rotten; their mortgage [illegible] as big as ours is."—Mirror.

Freshmen Take Game From Team C in Fast Preliminary 24-19

(Continued from page 1)

A good act for the entire evening six points before the game was over.

After the game Coach Fleischberg showed in each unit team in the dressing room of the gym but was disappointed to find the basket packages he had to cook his usual shots. They all looked good but somehow the ball managed to bound off the ring and he was cut down to two baskets. The third team put up a good fight but were outclassed. The good team work that helped the frosh win the opener was lacking and as a result they were unable also to work the ball up under the scoring basket and were forced to take long shots, but what short shots they did have were registered. Mackey the right guard played a fast clean game and was right center of the five. Trono and Ingalls by worked the ball into his opponents territory either to pass or make the shot.

The game seemed to be a tryout for the Kittens as Coach Dresser sent in nearly all of his squad of sixteen men. Of these second string men Jones and Boardman were the outstanding players. Boardman made a shot from the right corner of the court that was spectacular to say the least.

The score:

P. A. is a grand little pal

PRINCE ALBERT is the kind of a smoke you get clubby with, right off the bat. You'll be calling each other by your first names after the very first pipe-load. It is so genuinely friendly, in spirit and in fact.

P. A. treats your tongue and throat as gently as a mother handles a new-born baby. Never a bite. Never a parch. These are details, of course. The thing you'll remember longest is that wonderful *taste!* So cool, so sweet, so soothing.

No matter how hard you hit it up, this long-burning tobacco never hits back. You can go to it before classes, and right through to Lights Out. Get yourself a tidy red tin of Prince Albert today. The School of Experience has never produced a greater smoke than good old P. A.

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

PRINCE ALBERT

NOTICE 1929

A meeting of the Class of 1929 will be held in the Old Mill Chapel at 4 P. M., Thursday, December 22, to elect a chairman of the Junior Week Committee.

FIRST REHEARSAL HELD BY GREEK PLAY CAST

The Greek players, under the direction of Professor J. T. Metcalf, are making rapid progress in the preparation of "Iphigenia in Tauris", which they will present January 13. A general rehearsal of the entire cast and chorus was held Thursday evening, the first opportunity that the directors had had of seeing the effect of the play as a whole. The individual training the actors and chorus had received showed up favorably in this first presentation of the whole drama.

Euripides' "Iphigenia in Tauris," which has been popular since its first production in 414 B. C., is a tragedy with a happy ending, relating further misfortunes of the luckless descendants of Pelops. Iphigenia, daughter of King Agamemnon, when she was about to be sacrificed to the gods to insure victory in the Trojan War, was snatched from the altar, by Artemis, and transported to Tauris, where she became priestess of the goddess who saved her. Her duties consisted of presiding at the sacrifice of all strangers who came to that land. Thither came two young Greeks, one of whom proves to be Iphigenia's brother Orestes, who has come to Tauris at the command of Apollo to steal the image of Artemis, and so be freed from the furies of his mother, whom he murdered to avenge his father; the other stranger is Pylades, Orestes' friend and sole sharer of his quest. The rest of the play describes how the three Greeks, brother, sister, and friend, attempted to steal the image, were apprehended by Thoas, king of Tauris, and were finally saved and sent on their way to Greece and home.

The beautiful English translation into rhyming verse by Gilbert Murray, Professor of Greek at Oxford, is being used.

Thurdon Rich addressed the meeting of Eta Sigma Phi Tuesday night on "Greek Athletics."

ARIEL TAX RAISED TO AVOID ANNUAL DEFICIT

A slight increase in the tax for the Junior yearbook, the *Ariel*, has been placed upon the Juniors due to the fact that no dipping from the class treasury will take place as has been done in previous years. The *Ariel* board wishes to make the book pay for itself and so has increased the tax to ten dollars.

Due to the large number of copies which are usually left over, as has been done before, on account of the refusal of payment by some subscribers, the board wishes to inform the subscribers that the rest of the payment must be made when paying the second semester dues. At that time the last canvass for subscribers will be held. The student body should take advantage of this and it is expected that a large number of subscriptions will be obtained as only 257 subscriptions have been registered so far from students outside of the Junior class.

The book will be somewhat of a novelty this year. Four colors are to be found in its composition. The cover will bear the college mascot—the catamount. The Junior page has come in. It has a green border with a gray panel which follow the color scheme of the book. The picture will be placed at the top of the panel and the snapshot in the lower corner. Proofs have been returned to the White Studios and the pictures are expected to be back the first of next week. Good work is being done by those in charge and it is certain that the book will excel all previous numbers.

The second meeting of the Cercle Français was held last Monday evening at the Vermonters' Club rooms. In responding to the roll call, each French student responded with a familiar proverb in French. Irene Marcotte '30 read in a truly French way, a paper on the life of Chopin. The members also showed keen interest in the French games that were played. The meeting closed with the singing of French songs and carols.

1930 CLASS ELECT TWO FOR STUDENT SENATE

Angus W. Clain and Warren H. Burr were elected to represent the class of 1930 in the Student Senate at a meeting of the Sophomore Class held in the Old Chapel Wednesday afternoon at four o'clock.

Clain is an assistant editor of the Cynic, basket ball scrub and a member of Phi Mu Delta. Burr is also an assistant editor of the Cynic, is scrubbing manager of the basket ball team and is a member of Sigma Alpha Chi.

KEY AND SERPENT POST 1928 INTER-FRATERNITY BASKETBALL SCHEDULE

Three Leagues Will Be Competing As Usual In Interfraternity Cup Series Which Starts After Mid-Years

The interfraternity basketball league has been completed. It is subdivided into three leagues in order to have a good working basis. League A consists of the Independents, Alpha Tau Omega, Tau Epsilon Phi, and Sigma Delta. League B consists of the Phi Mu Delta, Owls, Zeta Chi, and Kappa Sigma. League C is comprised of Delta Psi, Sigma Nu, Sigma Phi, Phi Delta Theta and the Sigma Alpha Chi.

The following schedule has been arranged.

Jan. 31: Ind. vs. A. T. O., 6 p. m., Court 1; Phi Mu Delta vs. Owls, 6 p. m., Court 2; Delta Psi vs. Sigma Nu, 6 p. m., Court 3.

Feb. 2: Tau Epsilon Phi vs. Sigma Delta, 6 p. m., Court 1; Zeta Chi vs. Kappa Sigma, 6 p. m., Court 2; Sigma Phi vs. Phi Delta Theta, 6 p. m., Court 3.

Feb. 3: Sigma Phi vs. Sigma Alpha Chi, 6 p. m., Court 3; Sigma Nu vs. Phi Delta Theta, 7 p. m., Court 2.

Feb. 4: Ind. vs. Tau Epsilon Phi 2 p. m., Court 1; Phi Mu Delta vs. Zeta Chi, 3 p. m. Court 2; Delta Psi vs. Phi Delta Theta, 4 p. m., Court 3.

Feb. 7: Alpha Tau Omega vs. Sigma Delta, 5.45 p. m., Court 2; Owls vs. Kappa Sigma, 6.30 p. m., Court 3. Sigma Nu vs. Sigma Alpha Chi, 7.15 p. m., Court 1.

Feb. 9: Ind. vs. Sigma Delta, 5.45 p. m., Court 3; Phi Mu Delta vs. Kappa Sigma, 6.30 p. m., Court 2. Sigma Phi vs. Delta Psi, 7.15 p. m., Court 1.

Feb. 11: Alpha Tau Omega vs. Tau Epsilon Phi, 2 p. m., Court 1; Owls vs. Zeta Chi, 3 p. m., Court 2; Phi Delta Theta vs. Sigma Alpha Chi, 4 p. m., Court 3.

Feb. 14: Sigma Nu vs. Sigma Phi, 5.45 p. m., Court 2; Delta Psi vs. Sigma Alpha Chi, 6.30 p. m., Court 3.

The semifinals and finals will be arranged for February 16, 17 and 18.

VARSITY DEBATORS TO MEET NINE OPPONENTS

Coach Lawton Moore announces the schedule for the men's and women's debating teams. The schedule is but tentative and may be changed.

Teams visiting will include Colby, Middlebury, M. I. T., New Hampshire State and Bates. The home team will debate M. A. C., Springfield, Clark and Norwich away.

The women's team will debate Maine, here, and debate Middlebury and Bates, away. It is quite possible that the latter debate will take place in a neutral city. The dates for the debates are not, as yet, complete.

Open quorum, Oregon system and audience poll will be used when it is possible. Professor Moore declares that with a few additions, the schedule is with the strongest teams in New England.

All students interested in debating should attend a meeting, to be held in the Old Mill Chapel next Wednesday at four o'clock. Mr. Moore queries, "How about the material, now that we have the opponents?"

An announcement in the Cynic of December 11 concerning new Student Union decisions erroneously gave the impression that the rules were adopted as final. They were, however, merely suggestions of the Council and will not become effective until action is taken at an assembly of Women's Student Union. This meeting will be called sometime in the near future.

"Lady Windermere's Fan" Receives Much Applause Wednesday Eve.

"Lady Windermere's Fan" Scores A Success With Burlington Playgoers—Cast, Under Mrs. Wilnetta Sproul Taggart, Render the Play With Great Smoothness

"Lady Windermere's Fan," Oscar Wilde's famous drama of English high life, was presented at the Strong Theater last Wednesday night by the Vermont players, and the proceeds went for flood relief work. This four-act play was the most difficult production attempted by Vermont students since the production of "Milestones" several years ago. It can be said, with much credit due to the director, Mrs. Wilnetta Sproul Taggart, that it was one of the most successfully presented plays of recent years. Jeanette Beecher '30 of this city was cast in the leading rôle of Mrs. Erlynne. Marion Backus '29 of West Hartford, Conn., and Bertel Gustafson '29 of Proctor took the rôles of Lady and Lord Windermere, respectfully.

The cast of characters

Lord Windermere...Bertel Gustafson
Lord Darlington..Gerald VanName '29
Lord Agustus Lorton
Thorald Krogh '30
Mr. Cecil Graham
John F. Garfield '30
Mr. Dumby.....Woodhull S. Hall '28
Mr. Hopper.....Whitney Safford '28
Parker (the butler)
Harvey Butterfield '31
Lady Windermere.... Marion Backus
The Duchess of Berwick
Dorothy Cottrell '29
Lady Agatha Carlisle
Dorothy Strong '29
Lady Plymdale.....Anna Darling '31
Lady Jedburgh
Beverly Householder '30
Lady Stutfield...Mildred Huntley '28
Mrs. Cowper-Cowper
Mabel Freeman '30
Mrs. Erlynne.....Joanette Beecher
Rosalie (the maid)
Carolyn Whitney '31
Sir James Royston..L. S. Turner '29
Paisley.....L. O. Clayton '30

The scene opens in the drawing room of Lord Windermere's manor. Lady Windermere, recently married, receives Lord Darlington for tea, and learns that he is in love with her. The Duchess of Berwick blows in and relates the scandal connected with Lord Windermere and a certain unknown woman. After their departure Lady Windermere searches her husband's bank account, discovering the scandal is true, that her husband has been giving large sums to a certain Mrs. Erlynne. Mrs. Erlynne is the supposedly dead mother of Lady Windermere, but the dramatic irony is sustained to the end. Lord Windermere enters. A quarrel follows, and becomes more intense when he requests his wife to invite this woman to their ball that is to be held the coming evening. Lady Windermere refuses, but her husband sends an invitation regardless. At this, his wife threatens to slap Mrs. Erlynne in the face with her fan the moment she appears. But instead, when the time comes, she ignores her entirely. Mrs. Erlynne is very clever, especially with the men. She captivates Lord Lorton, apparently an old friend of hers.

At the end of the ball room scene Lady Windermere decides to elope with Lord Darlington, who paints her husband as being infatuated with a woman of questionable character. Mrs. Erlynne learns of the plan, follows Lady Windermere to Darlington's apartments, thwarts the plan, and succeeds in aiding her to escape, but she herself is forced to hide in one of the adjoining rooms. Darlington and his friends enter. They discover Lady Windermere's telltale fan. Mrs. Erlynne in order to save her daughter from disgrace, makes her own presence known and claims the fan, saying she took it from the ball room by mistake. She goes away on the arm of Lord Lorton without explaining her own presence. In the closing act everything is explained to the satisfaction of the audience, but Mrs. Erlynne's identification remains unknown to the daughter. Mrs. Erlynne accepts the proposal of Lord Lorton.

Much can be said of the fine acting. Dorothy Cottrell cast in the rôle of Duchess of Berwick surpassed all of her previous acting in Vermont productions. She is the best actress for that particular type of rôle that Vermont has ever had. Jeanette Beecher in her initial appearance in college plays impressed the audience by her clever and fascinating interpretation of the part of Mrs. Erlynne. Thorald

(Continued on page 4)

CHOIR AND GLEE CLUBS TO SING CAROLS SUNDAY

The following is the program of the Christmas Carol Concert to be given in the Ira Allen Chapel next Sunday, December 18, at 4 p. m., by the University Choir, assisted by members of the Men's and Women's Glee Clubs. H. G. Bennett, director; Miriam Nat-llee Marston, organist; Hazel Ladd, Marion Sargent, and R. H. Allbee, soloists. The Reverend Dr. Smart will read the Christmas story from the scriptures and from Milton's Ode on the Morning of Christ's Nativity. The public is cordially invited.

Organ Prelude: Marche des Rois Mages — *Dubois*
Processional: Adeste fideles — *Traditional*
Sentences and Collect
Lo, how a rose e'er blooming, German, harm. — by *Practorius*
In dulci jubilo — *German*
Break forth, O beauteous, heavenly light, from the "Christmas Oratorio" — *Bach*
Scripture Reading
Sleep, little dove (Dors, ma colombe) — *Alsatian*
Bring a torch, Jeanette, Isabella — *French*
Le Miracle de Saint Nicolas — *French*
Organ Interlude: Pastoral Symphony, from the "Messiah" — *Handel*
The Angels and the Shepherds — *Bohemian*
The Boar's Head Carol — *English*
The Sailor's Christmas — *Chaminade*
Reading from Milton's Ode on the Morning of Christ's Nativity
Hymn: Joy to the World — *Handel*
Prayer and Benediction
Response: Silent Night — *Gruber*
Recessional: Hark, the Herald Angels Sing — *Mendelssohn*
Organ Postlude: Hallelujah Chorus from the "Messiah" — *Handel*

GIFTS MAKE POSSIBLE NEW GIRLS' DORMITORY AND WING TO LIBRARY

$50,000 Granted Under Will Of Mrs. N. G. Slade For Dormitory To Be Constructed South Of Redstone—Ground To Be Broken Next Spring—Library To Be Finished In 1928

Under the will of the late Mrs. William Gery Slade, $50,000 has been endowed to the University in memory of her daughter, Mrs. Harriet Slade Cromble. According to present plans this money will be used to erect another dormitory for women. President Guy W. Bailey announces that, if more funds should become available between now and next spring, a much larger building than is proposed will be constructed.

The new dormitory will be situated between Robinson Hall and the Country Club, on land that is now owned by the University. The erection of this new dormitory is in keeping with the plans of the University administration in developing that part of the campus as the center of women's activities. It is hoped to have a gymnasium and women's fraternity houses at that end of the campus eventually. At present, Robinson Hall and Redstone furnish an excellent nucleus about which to develop that part of the campus for women's activities.

Architects from New York, of the firm of McKim, Mead and White, are now consulting with President Bailey on this project. Erection of the new dormitory will commence next spring.

Another gift to the University of which the donor's name has not yet been announced, is in the form of an annex to the Billings Library. It is to be built on at the east end of the Marsh room and connected with it by a corridor. The size of the addition is as yet unknown, but it is to conform with the architecture and materials employed in the main building. The Billings heirs have granted permission to the addition as long as it is consistent with the general plan of the building.

It is probably that the annex will be completed in 1928.

MODERN BIOGRAPHERS BURY MAN'S VIRTUES

AT THE DORM

By Converse Hall

"DAD"

If he is wealthy and [illegible] you stand in awe of [illegible] "Father." If he sits in his [illegible] and suspenders at ball games, call him "Pop." If he [illegible] land or teaches Sunday [illegible] him "Pa." If he wheels the [illegible] ringe and carries bundles [illegible] him "Papa" with the accent [illegible] first syllable. If he belongs [illegible] brary circle and writes [illegible] pers, or he is a reformer [illegible] and forgets to vote, call him [illegible] with the accent on the la[illegible] If, however, he makes a [illegible] when you're good, and is [illegible] to let you pull the wool over [illegible] ing eyes when you're not [illegible] over, you're sure no other [illegible] know has quite so fine a la[illegible] may call him "Dad"—but be wise.

—*The* [illegible]

Trinity Gave Soul To Her Country

The slump in Trinity's [illegible] ability since the war, up to [illegible] has been attributed to th[illegible] the college gave her soul to [illegible] try and never received it back [illegible] you would save your soul [illegible] lose it, and if you lose your [illegible] will save it.")

Is it financially right? Over [illegible] fourth of the inmates of midd[illegible] verse have planned to work [illegible] offices during the holiday. Many [illegible] already secured their positions. In other words the government [illegible] them—has examined them, in [illegible] cases, trained them. It now relies on them to a greater degree than [illegible] opinion appreciates. The students themselves, in most instances, [illegible] employment. It is extremely remunerative, one hundred dollars being [illegible] average sum acquired over the [illegible] and usual period of vacation. The three extra days will cause them to arrive home too late for this employment. I'm sure that you do not desire to wait for Santa's gifts until some college sees fit to dismiss the student body.

Therefore, inasmuch as this present policy is not necessary, is not advisable, is not morally right, and is not financially right, why pursue it?

If the time *must* be made up why not at Easter? Is even that necessary?

WHEN CURSING HELPS

Now that the University Freshmen have proven to the satisfaction of the judges in the annual debate with the Sophs that the daily newspaper is a curse, may we expect to see a falling off in the circulation of the CYNIC? From the standpoint of the CYNIC'S management we believe it deplorable to put such ideas in the young mind. Lest they become alarmed however, we might remark that plenty of cursing has always been good for newspaper circulation. As some bright person once remarked, "I don't care what they say about me as long as they say something."

Price did not have his usual evening, but he missed heartbreaking shots that looked point getters. "Kiki" has and his old shooting eye yet, he does, beware.

Marvin played his usual fine game and should be able the boys from the Dominion getting too many points. His arms and legs give him the over a smaller man who is and so he is able to stop shots by just reaching out a

Estabrook is beginning to now. In the last two or three he has shown some of the speed for which he is so well He did not have it all in the game, but it will take a few to bring it back. A lot depends on Estabrook for he is both offensive and defensive player.

There will be a preliminary which will start at 7:30 and the varsity will on the floor about 8:15.

Sorority Notes

DELTA DELTA DELTA

A supper was held at Sally's Thursday evening, December 8. About fifty couples attended.

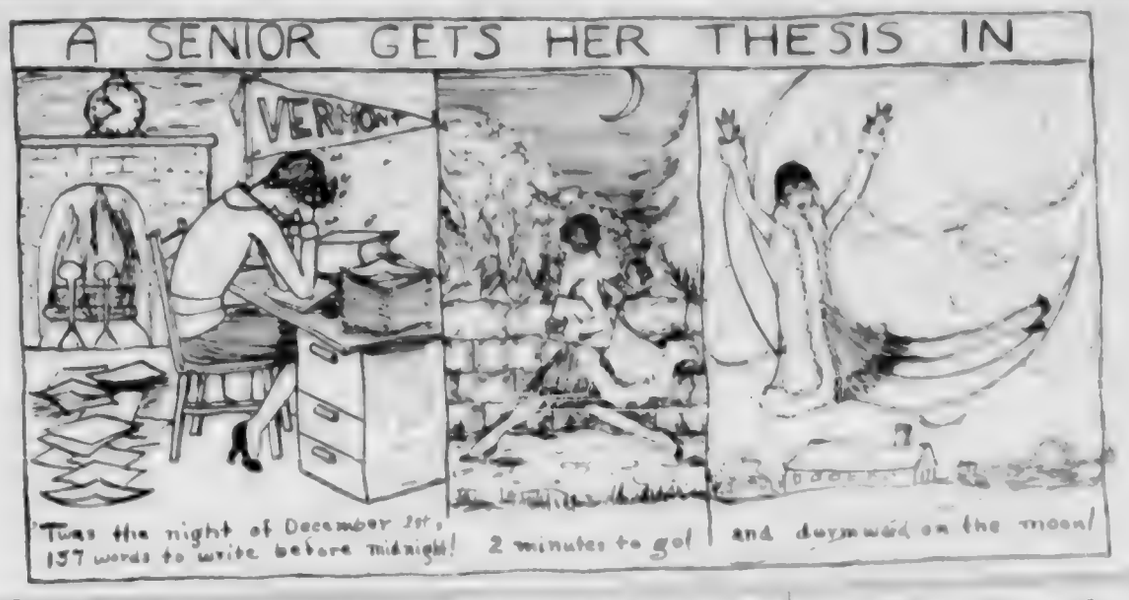
ALPHA XI DELTA

The alumnae will be the guests of the active chapter at a Christmas party to be held at the rooms Tuesday evening, December 13. Beatrice E. Stewart '28 is chairman of the committee in charge.

A Christmas party was held by the active chapter at the rooms Tuesday evening, December 13. During the evening the engagement of Florence Stewart '29 to N. Dean Rowe '27 was announced. Mr. Rowe is a member of the Mu Delta Fraternity and is at present teaching at Goddard Seminary in Barre, Vermont. The scholarship cup for the sophomore who has the highest average for the preceding year was awarded to Georgia Bostwick.

SIGMA GAMMA

A Christmas supper and party, in celebration of the seventh anniversary of the founding of the society, will be held at the rooms on Thursday evening, December 15. Consuelo Northup '26, Portia Little '21, and Marion Hall '21 are expected as guests. The active members will be in charge of entertainment.



KAPPA ALPHA THETA

Helen Chapman '27 is spending a few days at the chapter house.

ALPHA CHI OMEGA

Sylvia O'Brien '25, who is dietitian at the Marine Hospital, Staten Island, N. Y., is visiting in Burlington. A successful Christmas bazaar was held at the rooms Saturday, December 10

A scholarship of three hundred dollars, applicable to the expenses of one year in the Columbia Law School, is offered by that university to a graduate a native Vermonter. This scholarship is made available by an alumnus, Edward Clark.

Preliminary Scedule of Mid-Year Examinations

(All conflicts must be reported at the Registrar's Office before Saturday noon, December 17.)

January 16

Monday A. M., Advanced Mathematics (Eng.), Chemistry 2, Chemistry 3, Chemistry 7, Class Management (T. Tr.), Comp. Anatomy & Physiology, Field Crops, Forest Ecology, French 113, Home Economics 14, Machine Design, Materials, Mechanical Drawing, Physics 104, Philosophy 1 (Logic), Political Science, and Zoology 7.

Friday P. M., Economics 2, English 7 (American Literature), Greek 1, Political Science 2, Psychology 4, and Reading Methods (T. Tr.)

SECOND APPEARANCE OF LITERARY PUBLICATION

This week sees the second appearance of the latest literary venture by Vermont students under the title *Vermont Literary Magazine*. The initial issue of this publication which appeared on the first of December was greeted with much interest and received considerable comment from the student body. Some improvements have been incorporated in the new issue, among the more prominent of which is the revised cover design.

After long deliberation of the many titles submitted in the name contest *Vermont Literary Magazine* was deemed the most truly indicative of the nature of the magazine and therefore most fitting. The table of contents offers material of much interest to the subscribers. The table is as follows:

TABLE OF CONTENTS

Independence Day — Eleanor A. Chapman
To Venus — Susan Howard
Birth of a Sonnet — Janice M. Goodrich
Love Wherever — Vera Doyle
The Rut Dweller — Janice M. Goodrich
Destiny Immutable — John N. Meissner
Song of a Child — Mary E. Woolson
Gumption of Gunhilde — Merta E. Munro
Sonnet — Janice M. Goodrich
Each One Called It Happiness — Frances Dimick
Ship of State — Susan Howard

MILITARY NOTES

There will be an inspection of the entire U. V. M. battalion on Friday morning, December 23, prior to the storing away of all equipment for the holidays. Military Headquarters urge those who have rifles to clean to do so next Tuesday, Wednesday, or Thursday, at times which will not conflict with the rifle practice on the indoor range.

To dispel any fears that the student R. O. T. C. unit may not hold classes the latter part of next week, the Military Department announces that classes on Wednesday, Thursday, and Friday, will meet as per schedule.

Freshmen enrolled in Military Science have begun target practice on the indoor range. Those students with high score averages may be candidates for the rifle team.

The Dopefiend

By Nani Gilcas

It is not long until the Catamount's journey to New Haven for the Yale tournament. There will be four teams again this year Yale, Holy Cross, Vermont and N. Y. U. (taking the place of Tufts). So far this season these teams have been going strong, Yale defeating Rhode Island 43-22 in her second game avenging the defeat at the hands of the Rhode Islanders last year. Yale has a strong pair of forwards in Paul Fodder and Henry Merrill. Nanry is another one of their stars but more of a defensive man than the other two. Much is to be feared from the Elf. Holy Cross has a strong quintet consisting of mostly veterans from last year's quintet. It was this team that eliminated the Green and Gold hoopsters in the first round last season. N. Y. U. have only two veterans from the previous season's quintet. They are Captain Mike Ready, a guard, and Archie Roberts, the football star. The Violet clashes with Columbia Friday night, so one can determine their strength better after that affair.

The Black Panther gridsters have a tough 1928 football schedule, meeting Williams, Mass. Aggies, Springfield, Norwich, Hamilton, Tufts and Vermont.

Prospects for a strong basketball year look fine at Norwich. Although having only two veterans out Coach Graham expects more out soon. He has Grandy and Aimi, the former a forward and the latter a guard. Grandy will have his old position back it is expected but they are not so sure about Aimi. O'Donnell, Hormin and Plumley, three other lettermen from last year probably will not seek their old berths. Voirdy, another guard, injured his ankle a short time ago and will be out for a few weeks. Coach Graham expects to build up a whole new team and has a fine bunch of material to pick from. Fanos of Fitchburg, Mass., a former member of that five that won the Chicago tournament will probably be seen at center. He will take the place of Bedell who did not return to school. Also Hartford of Portsmouth, N. H., looks pretty flashy. He plays forward and has shown considerable speed and accuracy at shooting. Also Wang, who was a forward on an all star Chinese five in China is making a strong bid for a forward berth.

Christopher A. Webber who hails from Rutland was elected to lead the Middlebury grid team next season. He played a strong game at center for the Black Panther eleven this season and was picked as a member of this dopester's All-Vermont Team.

St. Michaels returned from a trip to Albany with one win and one defeat to start their season. They lost to Albany State Teachers' College 36-10 and sent the Albany College of Pharmacy down to a 28-24 defeat. The first night the Purple quintet did not shape up so well but the second night they played a much better brand of basketball. The team consists of Lynch and Mahoney backs; Bing Connally, known to the Green and Gold rooters, has been shifted to the pivot position and O'Brien, Connors and Shea alternating at the forward berths. Their next contest is a State affair as they take on the Norwich cadets.

Vermont will be able to look over the material in the state for basketball ability again this year as the interscholastic tournament will be held at the Gym, March 9 and 10.

Norwich has established the one year ruling in football. Because of the growing of the University they are able to do this.

GO-TO-CHURCH SUNDAY ARRANGED FOR COLLEGE

Next Sunday, December 16th is go-to-church Sunday for college students. It is a movement effort planned under the auspices of the College Christian Association and Y. W. C. A. with all of the ministers of the city churches taking an active part in making it successful.

All of the Burlington churches are in the down town section. The First Baptist Church is located on St. Paul St. between College and Bank Sts. Rev. C. J. Exley is pastor. St. Paul's Episcopal Church is on the corner of Cherry and St. Paul Sts. Rev. George L. Richardson, rector. The First Congregational Church is located on So. Winooski Ave.; Rev. C. C. Adams, preacher. The Methodist Episcopal Church is also located on So. Winooski Ave.; Rev. Maria Kelley minister. The Free Methodist Church is located on Elmwood Ave. The Unitarian Church is situated at the head of Church St. Rev. H. Sumner Mitchell, minister. The Christian Science is located on So. Union St.

Clifford Mouse '30

A. E. Barcomb has been quite sick with the grippe and has been unable to attend classes.

H. H. Twitchell medical editor of the *Lyre* requests the Juniors to turn in their pictures to him immediately.

The Phi Chi's will hold a Christmas dance at their rooms Tuesday evening, December 20.

The final examination in Neurology was held on Monday, December 12.

Saturday evening the Theta Phi Delta Mu of Nu Sigma Nu will hold a Christmas dance at their rooms on Pearl Street. Dr. and Mrs. McSweeney will be chaperones.

First Kake Walk Held In Drill Hall at Old Mill As Fancy Dress Ball

[illegible] Hurlington

[illegible] was omitted from the program. For a short period prior to the entrance of the United States in the World War, military drill competitions concluded the Walk. In 1918 the net proceeds of $925.77 of the 21st Annual Kake Walk went to the American Red Cross. This was the first time [illegible] as an annual event.

[illegible] Friday afternoon the class of 21 had the best lawns and the greatest art of [illegible] when they were called again to set up the goals for the [illegible] game Saturday morning.

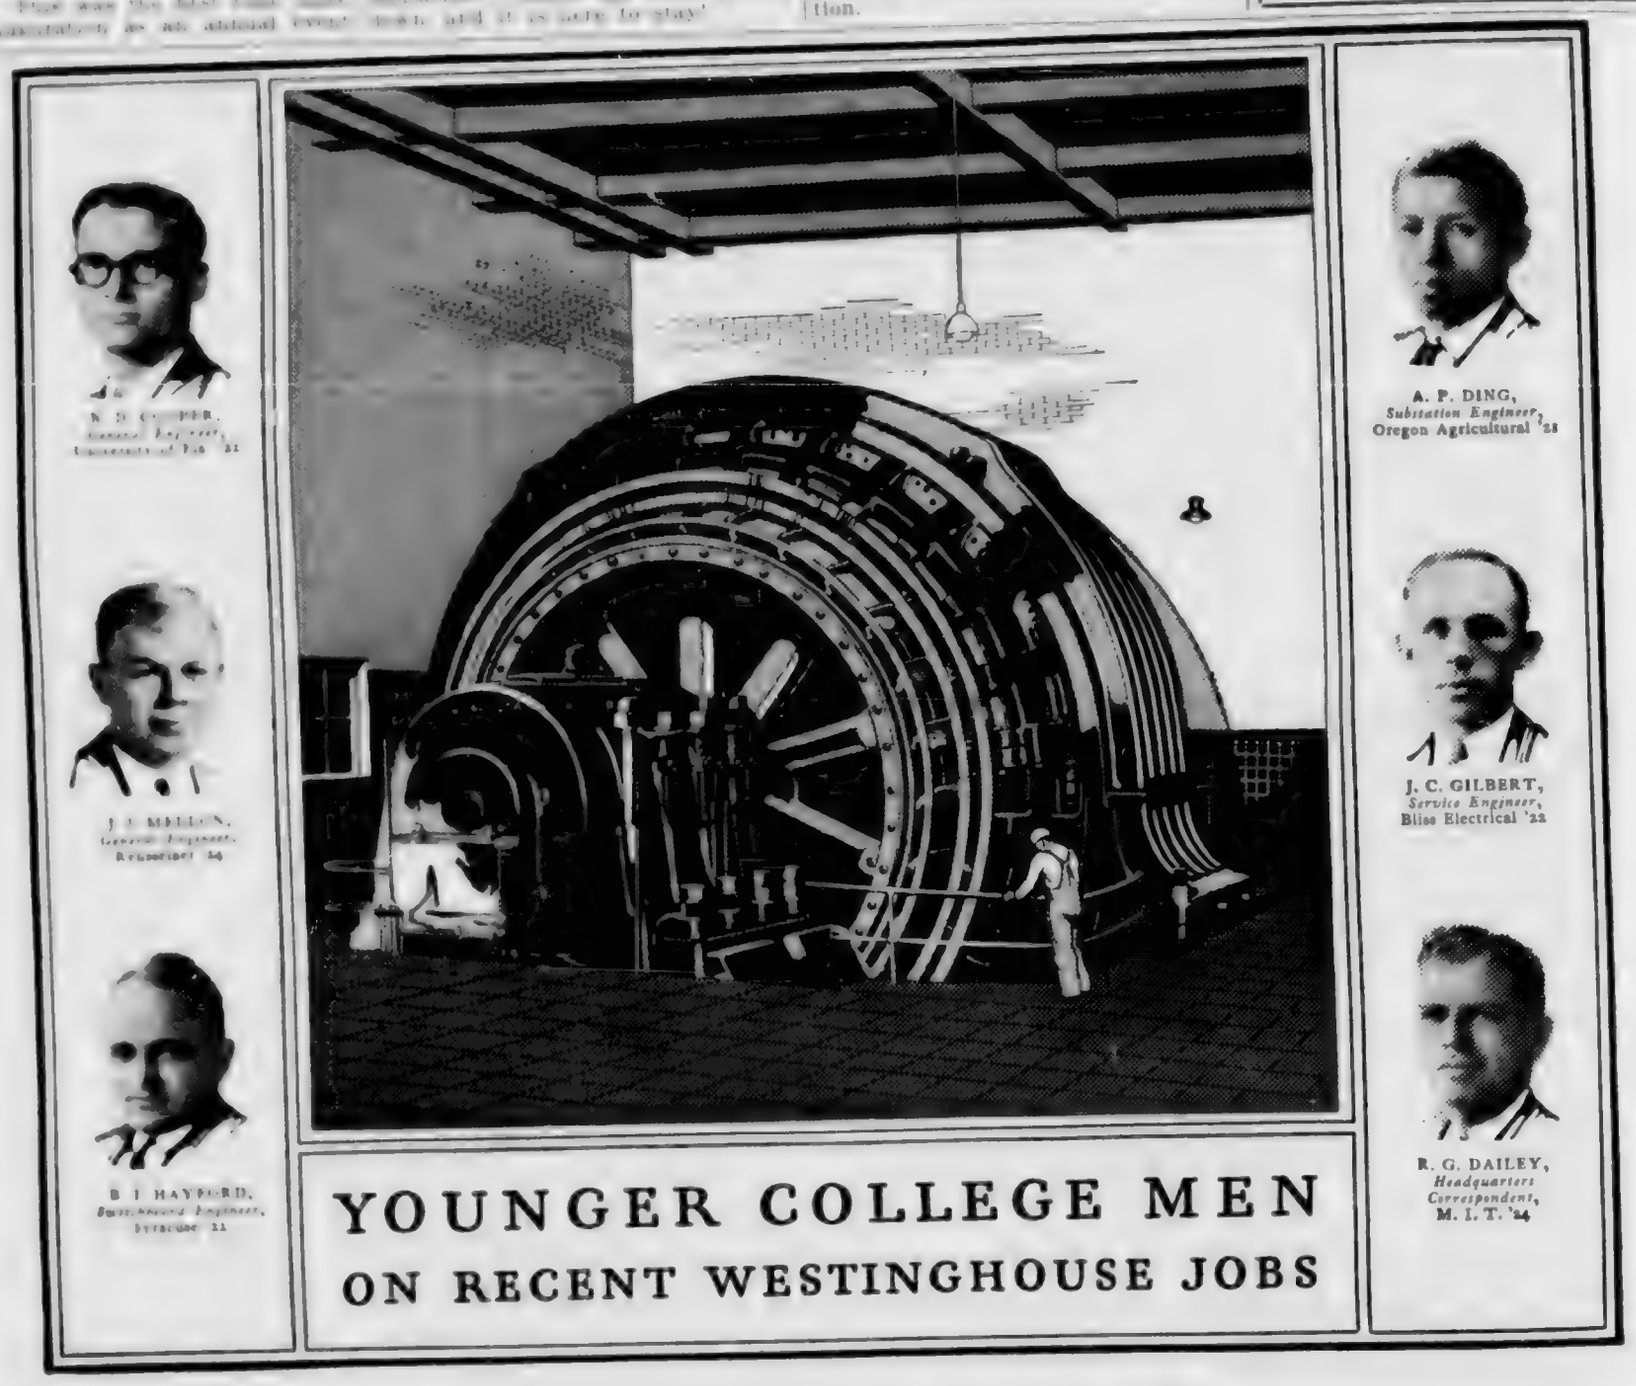
[illegible] of [illegible] that the net proceeds did not go to the Athletic Fund. It is the [illegible] to [illegible] that this has occurred. The [illegible] of "the Pit" in [illegible] prevented the Walk from [illegible] but happily enough circumstances changed to the best and the Walk was put on. On only one [illegible] did events appear adverse to the consummation of the Kake Walk. This was in [illegible] when, in the minds of some critics the Walk was not considered "worth while" as a means of raising money for athletics. A Minstrel Show was suggested, but the originality of the Kake Walk as a mode of entertainment won out over the Minstrel Show. Thus Vermont's [illegible] Classic has been handed [illegible] and it is safe to say

Few Football Players Become Coaches

Of 374 football players chosen by Walter Camp on his all-American [illegible] only 15 are now football coaches. *The Dartmouth* has discovered. Nothing is said of the other [illegible] so having such a few ex-football [illegible] out of college we are left to the conclusion that the other stars are getting gasoline. Mr Rockefeller should be praised not only for his gifts to American education but also for his gifts to American educated

The Press Club held a meeting at Grassmount Wednesday afternooon. Lucy Morgan and Florence McKenzie were hostesses

Due to a misunderstanding it was stated in the last CYNIC that the co-eds' debating team gained a decision over West Virginia's. This was, however, a no-decision debate and the audience voted only on the question debated upon. The vote, however, stood in favor of Vermont's side of the question.



"Lady Windermere's Fan" Receives Much Applause

(Continued from page 1

Krogh played the part of [illegible] ton with admirable skill. [illegible] can be said of Bertel Gustafson, Gerald VanName, who were cast in more lenethy rôles. Whiting [illegible] as Mr. Hopper, the gentleman from Australia, pleased the Duchess [illegible] was by his attentions to her daughter Lady Agatha, and augmented the audience in so doing. Sally [illegible] acted in college plays before. Dorothy Strong took the part of Lady [illegible] John F. Garfield and Woodbury [illegible] in the rôles of Mr. Graham [illegible] Dumby, respectfully, interpreted [illegible] with excellence, and Harvey [illegible] field made a model butler.

The Homestead Steel Mills

Where do young college men get in a large industrial organization? Have they opportunity to exercise creative talent? Is individual work recognized?

STAND on the hill-top near Homestead, Pennsylvania, and look out over the Carnegie Steel Company's vast works. Your eye falls on a huge new building, covering 30 acres. It is the structural steel department, and here electricity performs every mechanical operation in steel rolling from the soaking pits on through to the shipping department. This Homestead electrification, predominantly Westinghouse, is one of the most notable in history—notable because of the number and size of the motors employed and notable because of new features of automatic control introduced for the first time.

This is a type of engineering that only an organization of the size and resources of Westinghouse can undertake. Achieving the stupendous, the never-before-undertaken, is not rare here. Hence young men of capacity, of enterprise, of genius, are offered much to challenge their imaginations and abilities.

In one unit of the Homestead Mill is a reversing motor rated at 8,000 h.p. and 40 r.p.m. (pictured above), the largest single-armature motor ever built. This motor and all the mill accessories are controlled by two men. They maneuver steel ingots as heavy as 30,000 lbs. There is a total of 336 motors in the new mill, of which 49,000 h.p. are main roll drive motors and 50,935 h.p. are auxiliaries.

LAKE PLACID INVITES OUTING CLUB MEMBERS

Vermont's Outing Club has received an invitation to compete at the Lake Placid Club College Men's Competition from December 28 to January 2. All who can qualify for ski, snowshoe or skating events and are willing to pay their own travelling expenses should see R. M. Bragg or L. G. Cowles at once.

Unless better material is found in the student body the high point men of the Inter-Fraternity meet, last year, will be chosen.

CHRISTMAS DANCES WERE GIVEN BY SEVEN MEN'S FRATERNITIES FRIDAY

Six Formals And One Informal Given By Organizations—Decorations Mark Seasons Most Picturesque Dances

Last Friday evening practically all fraternities on the hill held their formal and informal dances. Fantastic decorations were noted in every house and the dances this year seem to have been carried off better than at any previous time. It also seems that Santa Claus appeared at more than one house.

A informal dance was held at the Sigma Phi House with "Joe" Leehnyr's orchestra furnishing the syncopation. A Christmas party was held in connection with the informal. Professor T. B. Puffer and Captain and Mrs. Rattan were chaperones.

Kappa Sigma held an informal formal at the Chapter House last Friday evening and also a Christmas party; Santa Claus was present in full uniform. Jacque Renald's Canadian Serenaders', Victor Recording Artists, played during the evening. Punch and ice cream was served for refreshments. Professor and Mrs. Carleton, Professor and Mrs. Carpenter chaperoned the party.

Nu Gamma of Phi Mu Delta held their formal Christmas party-dance at the Chapter House last Friday evening with about 32 couples present. The Professor and Mrs. Carroll and Mr Renald Bamford acted as chaperones. The five piece Catamount Orchestra furnished music for the occasion.

Phi Delta Theta held their formal dance last Friday evening at the Chapter House. Professor and Mrs E C Dopkins chaperoned the party. "Ray" Bostwick and his orchestra supplied music for the formal.

Alpha Tau Omega held their formal dance at the Chapter House to the tune of the Moonlight Revelers. Dr and Mrs. A. K. Aldinger and Colonel and Mrs. F F. Black were the chaperones for the evening. The Chapter House was prettily decorated in the Christmas style.

The rooms of the Catholic Daughters was the scene of the Christmas formal of Zeta Chi. Music was furnished by "Doc" Kenyon and his orchestra. Professor and Mrs. H G Millington and Mr and Mrs L. W. Dean were chaperones for the party-dance.

Sigma Alpha Chi held their Christmas formal last Friday evening at the Chapter House, with the Algonquin Orchestra furnishing the music for the evening. Professor and Mrs G V Kidder were the chaperones.

Many of the Christmas formals will be held this week due to the mix-up of the Christmas vacation schedule caused by the flood. Delta Psi will hold their formal December 23, at the Chapter House. Sigma Nu will hold a formal on December 23. Sigma Delta and Tau Epsilon Phi will hold a dance previous to the Christmas vacation although the date has not been decided upon. Lambda Iota, however, will hold a dinner-dance January 6 and arrangement are being completed now.

OMICRON NU INITIATES CAROLINE HYDE OF BENSON

Caroline Hyde, '28 of Benson, Vt., was recently initiated into the national honorary home economics society, Omicron Nu. Professors Terrill, Blundell and Bailey and Miss Luce, together with Clara Richmond, '28 and Charlotte Stone, '28, are also members of the society. Membership is awarded on a basis of scholarship and achievements which show promises of leadership.

Miss Hyde has been prominent in Glee Club, in basketball and Home Economics Club.

UNIVERSITY HAS HAND IN REVISION OF CURRICULA

Committees of revision of courses of eduction for ——— ty schools of Vermont have ...nced by State Commissioner ... terr... Education Clarence H. Dempsey. The University is well represented in this service with eight professors and instructors who have in the past been active in their interest in the work of the lower grade schools about the State.

Mr Walter H Crockett Editor of the University Publications is chairman of the committee on Study of Vermont with special regard for History and Civics. Miss Eleanor S Cummings, Assistant Professor of Physical Education for Women is a member of the committee on Health Instruction. Prof. A. W. Slocum of the Physics Department also serves on this committee. Miss Elizabeth Colburn Instructor in Art serves on the committee for Drawing and Art. Miss Sarah M Holbrook, Assistant Professor of Education, and Miss Alida B. Fairbanks, Assistant Professor of Home Economics are at the head of the committee on Manual Training. Prof. E. L. Ingalls, State Leader of Boys' and Girls' Club Work, is one of the group investigating extra curricula activities. Miss Mary M Patrick, Instructor in Elementary Education, is also serving on the committee in charge of History and Civics.

The new courses as revised by this committee will be published in pamphlet form when completed. The last revision was held in 1921.

CIVIL SERVICE OFFERS CAREERS FOR STUDENTS

By George W. Mead

(Civil Service Secretary)

Let us consider our country's Civil Service, consider it as a lifetime career. On the intelligence and efficiency of a country's Civil Service depends the success of that country's undertakings and the happiness and prosperity of its people.

We all choose our life work or profession. What better time to choose than in our youth when success beckons all and courage is high. But let us not choose it haphazardly but with care and forethought.

To all youth great opportunities are open for advancement under the Civil Service. The advancement of themselves in knowledge and culture. They may advance art, science and invention, also the advancement of the administration of the government and its activities lays before them.

Under the United States Civil Service the door of wonderful opportunity stands open for those who have it in them to become leaders in their special fields of endeavor.

Our government, your government naturally turns to the schools and colleges that are filled with the youth of the land, full of hope, ambition and courage; it turns to you students to supply through coming years, the leaders in all the government activities.

Within the years of the most of us, a clerk became a President. A clerk has risen to membership in the Civil Service Commission. A clerk now heads the bureau of economics at Washington. A customs inspector advances step by step until he becomes an authority in all matters concerning textile imports. A letter carrier tramping his daily round finally becomes the postmaster of one of our largest cities.

The Civil Service offers an honorable career and a wide field of usefullness to all who come within its influence. Success is no larger than the man, no smaller than his capacity and training. The department which he enters does not matter, so he chooses that for which he has a natural liking or adaptability. He may be a chemist or a surgeon, a draftsman, a designer in metal or wood, a teacher or lawyer, he is limited only by his own self. The field is open and it is large. Come, enter it. Having served his limit, with his years of faithful work behind him, he is not turned out in his age, abandoned, a worthless hulk but receives a monthly check that assures him that his service are not forgotten.

Bid Refused Lindbergh

When Lindbergh was a student at the University of Wisconsin, the thirty odd fraternities there passed him by as not worth a bid.

Catamounts Conceded Good Chance To Win Title At Yale Tournament

McAvoy's Outfit Takes Two Games Out of Three as The Season Opens

Now that Montreal Y M C A is out of the way the next luminary in the Yale Tournament the 28th and 29th of December at New Haven. Conn. The entries in the Ellis Tournament are Yale, Holy Cross, N Y U, and Vermont. This will bring together four of the fastest keep quintets in the east. Yale is going strong in the southern New England section. Holy Cross is central New England. Vermont in northern New England and N Y U in New York State. Although suffering a defeat at the hands of Dartmouth, Vermont has nearly as good a team and the decision might be reversed if Dartmouth came here.

The Cats have a very good chance to climb the banisters at the tournament because they have nearly the same team that represented the Green and Gold institution last Christmas holidays at New Haven. They stand even a better chance than before as Coach McAvoy has two outfits that are nearly equal in strength and his worries over reserve material will be little. The critics conceded that we had the best team last tournament but it was due to a lot of hard luck that we lost as our outfit was the smoothest in passing and shooting that they saw on the floor.

Vermont is not the only one to be flush with veterans as both the Bulldog and the Crusaders boast of strong teams of veterans. N Y U cannot make such a boast however, as they have only two veterans to place their foundation on.

Coach McAvoy will probably take both of his teams only and with such two equal playing quintets he can put a new group of men on every ten minutes or so which will greatly strengthen their chances. Both Prentice and Price have found their eyes for the hoop now and between them they should register quite a few points. Estabrook is not quite yet in his best form, but after a few days of rest and a few of strenuous practice he should round into his old midseason form. There will be plenty of Vermont Alumni at New Haven to watch the fate of their Alma Mater's five and the Cats should have an abundance of rooters.

On the next day they will make the trip to the great metropolis of New York to take on the fast Crescent A C team Next Year's Eve. This club has the reputation of having about the fastest quintet in the country. Their hoop quintet consists of former college stars and have a squad of 15 or 20 men all about equally as fast. They have already played several contests this winter and have walked away with each by a large margin. Vermont always gives them a good clean hard contest and they are always glad to play against us. It is expected that they will lose this game, but the team derives a great deal of experience from playing against these stars.

RADIO CLUB CHOOSES SULLOWAY PRESIDENT

An enthusiastic group of men met in the Engineering Annex Tuesday evening for the purpose of reorganizing the Radio Club. Frank Solloway in opening the meeting, explained that if enough students expressed an interest in the club, the organization may be affiliated as a junior section with the Institute of Radio Engineers giving its members several unusual privileges.

As a result of the election held Frank L. Sulloway, '29, was elected president. Glenn Aiken, '29, vice president; L. G. Cowles, '29, secretary, and Austin Howard, '31, treasurer.

It was voted to hold meetings every Tuesday evening at 7:30 p. m. in the Engineering Annex. However the next one at which a member of the faculty will give a lecture on some phase of Radio, will be held next Thursday, December 22. Anyone desiring will be given code practice and the opportunity to operate WARY, the club station.

CHRISTMAS CAROLS ARE SUNG BY GLEE CLUB AT IRA ALLEN CHAPEL

Special Music Features Sunday Christmas Service — Solos Rendered by Marion Sargent, Roger Albee And Della Martin

A good representation of students as well as many townspeople attended the Christmas Carol Service at the Ira Allen Chapel last Sunday afternoon.

Special musical numbers furnished by the University choir assisted by the combined Glee Clubs under the direction of Prof H G Bennett added much to the spirit of Christmas which was felt throughout the service.

Miss Nattlee Marston played the organ prelude "Marche des Rois Mages" by Dubois and the Recessional "Adeste Fideles" was sung in Latin by the choir. The choir also sang "In dulci jubilo" written partly in Latin and partly in English. The men's Glee Club sang "The Boar's Head Carol," an ancient carol suggesting the custom of serving the boar's head at Queen's College, Oxford. The Miracle of Saint Nicolas in French was sung by the choir with alto solos by Marion Sargent and tenor solos by Roger Albee. Another charming number entitled "The Sailors Christmas" by Chaminade was rendered by the following group with Hazel Ladd as soloist: Anne Bouchard, Catherine Bassett, Margaret Corbin, Marion Baldwin, Marila Putnam, Marion Sargent and Della Martin.

All of the above numbers were given in a manner which reflected much credit upon the musical department of the U V M, and furnished much enjoyment to an appreciative audience.

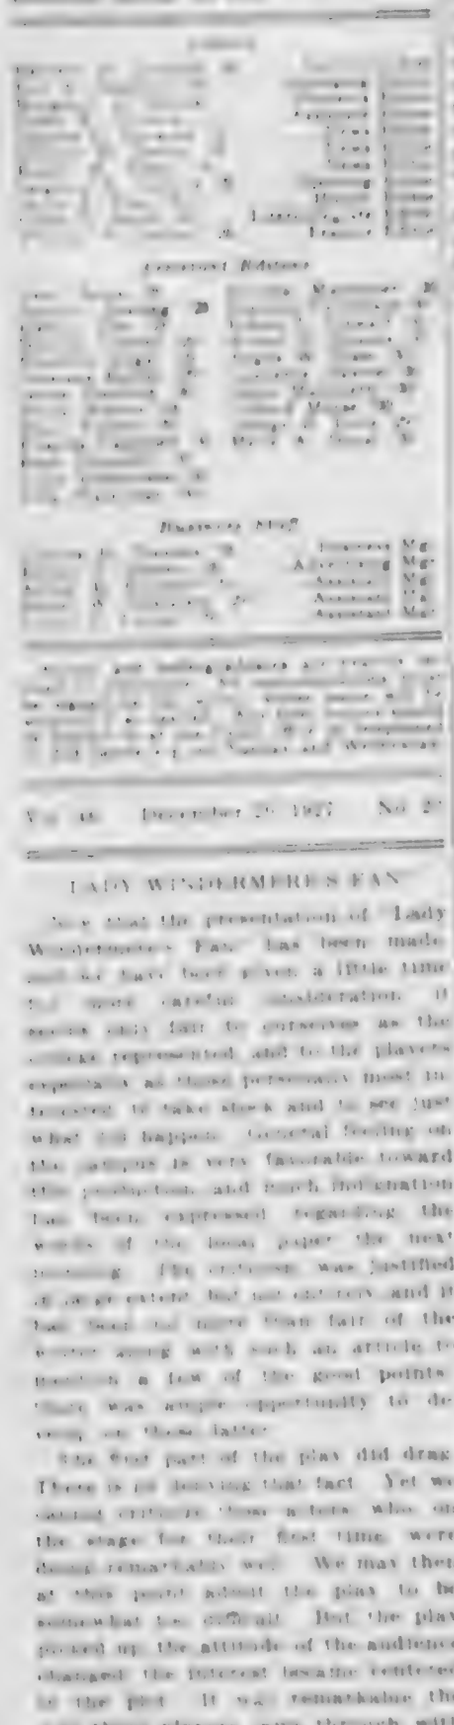
Rev Dr Smart read the Christmas story from the Bible and Milton's Ode to the Morning of Christ's Nativity. A most fitting closing response "Holy Night Silent Night" was sung by a group of nine young ladies in the balcony and "Hark the Herald Angels Sing" was the recessional hymn. Following the Recessional hymn Miss Marston played for the organ postlude Handel's Hallelujah Chorus from the "Messiah."

JUNIOR WEEK CHAIRMAN NOMINATED BY JUNIORS

Nominees for chairman of Junior Week were elected Thursday afternoon in the Old Mill Chapel by the nominating committee, appointed by the President, J S Estabrook. The nominees are: B W Gustafson, C C Lyman, K L Price, and J P Hyland.

One of these four nominees will be selected at the Junior Class meeting to be held in the Old Mill Chapel at 4 P. M., Thursday, December 22.

NEWS IN BRIEF



Several trips are planned for the R O T C Band directly after the Christmas recess. It is expected that a visit will shortly be made to Montpelier, where the Band will play under the auspices of the Montpelier High School Alumni Association. Other trips are contemplated to other parts of the State, and possibly to Montreal.

The physical education department has ruled that after the holidays when students are given an opportunity to elect what form of physical training they will take those who choose to go out for winter sports will be excused from one hour a week of the regular gymnasium work.

The second try-outs for all members of the Men's Glee Club will be held in the Music Building on Wednesday December 21 at 7:00 P. M. Members are asked to be able to sing their parts in the three numbers of the try-outs. "You Gentlemen of England," "The Broken Melody" and "Champlain." Those who pass this try-out will be taken to the contest in Boston.

Carl G. Simpson '27 has been commissioned as Second Lieutenant in the Marine Reserves. He was one of twelve New England men to be appointed to the Marine Reserves.

The Vermont Cynic

Vol. 46 December 20, 1927 No. 20

LADY WINDERMERE'S FAN

Now that the presentation of "Lady Windermere's Fan" has been made and has been given a little time for mature consideration, it seems only fair to everyone as the critics represented and to the players themselves as those personages most interested to take stock and to see just what did happen. General feeling on the campus is very favorable toward the production and much information has been expressed regarding the words of the local paper the next morning. The criticism was justified to a great extent but not entirely and it has been the more than fair of the writer along with such an article to mention a few of the great points. There was ample opportunity to do wrong as well as those latter.

The first part of the play did drag. There is no denying that fact. Yet we contend critically that actors who on the stage for their first time were doing remarkably well. We may then at this point admit the play to be somewhat too difficult. But the play picked up the attitude of the audience changed the interest became centered in the play. It was remarkable the way those players came through with those difficult roles; confidence radiated from some of the players to others and in short order those who at first were put at ease and so put at their best fitted into the action. At the end the play "fit" but seem so far beyond her talent as at the first.

Viewing the whole situation we see that there is room for criticism but not in general. Neither the players nor the coach are due for the slightest amount but they do deserve a lot more credit than is being handed them. That our students could take hold of that play and handle it as they did is a tremendous credit to them and reflects credit upon the University. At the same time, we will all agree that had the play been more carefully chosen, much more credit would be due all around and a greater sense of satisfaction would prevail.

Mistaken Identity

Uncle Josh was the first but not the last to call out the fire department by posting a letter in an alarm box. A new student at Wellesley College, absent-mindedly, according to her own version, called out the department here when she mistook the fire box for a mail box.

IRA ALLEN CHAPEL

By J. M. MELESKEN '31

I

The light....
A faint far speck
In the night,
Watches....
Over old Vermont, so still.
Long wood slopes
Reflect those hopes,
Of the chapel on the hill.

II

The wide door welcomes.
The silvery vault within,
Carries peace that beckons....
A soft tremulous hymn.
When the organ whispers,
Pleading for the fight;
Then the music thunders,
Fighting for the right.

III

Beyond....
On another hill,
Lie those men
Of old Vermont,
Who fought so long ago.
They....
Are living still,
When....
They see that chapel light
Burning on the hill.

DECEMBER SLUSH

(J. W. E.)

Nin—"Yes sir, jewellers make the best drivers and never forget to go to the right."

Com—"How so!"

Poop—"Perhaps because they are clock-wise."

One—"What kind of a dog have you there?"

Another—"Why, thash a leash dog."

The first—"What do you mean a leash dog?"

The second—"He's at leash ten years old."

Sergeant Connor—"Now if I wanted a patrol in the enemy's territory and had only ten men—but never mind, that's just a detail."

Tuft's man—"What's your line?"

Another apple—"I specialize in plate work."

First T. M.—"Oh, I see, a dentist?"

Second Mackintosh—"No, a dish washer"

KAPPA DELTA

The Dopefiend

By Nora Gimcrack

We have heard rumors that the institution of fraternities and sororities, here in the [illegible] trying to [illegible] the campus. The administration is opposing [illegible] No gathering of [illegible] and look upon it as a [illegible] Last [illegible] Penny Smith then [illegible] of a very well known pipe.

We had a notion to go to Vassar or Bates this year and see what [illegible] was like, but [illegible] Tom Smith [illegible] is not so good. Lemon Wonker [illegible] it has for several years.

We are getting tired of that drudge [illegible] getting to classes in a hurry with [illegible] come to eat or sleep. Guess we will get a job and earn some jack and buy a car and have a little enjoyment!

(After a Nice Dinner)

It is a pity that so many people have chosen other schools rather than Vermont. They surely did not take time to weigh all the merits or else they are blind.

With a new department of music last year and the new Chapel last year, the school is rounding out into the best in the country.

Many of the professors here have made names for themselves in writing books and leading national societies. It is a real privilege that few undergrads get to be able to associate with these professors.

All of our courses this quarter are interesting and the instructors are interesting in their lectures. Few students have time to figure the difficult question the administration officials are up [illegible] all the responsibilities they have they are very lenient and all good sports.

The President, for one, would gladly go more than half way with a student if the student would contribute his share. The guy who said that the four years in college are the best certainly knows his alfalfa.

That cane rush was the best staged one in years and the water fight was just as good. There seems to be a lot of excitement this year. The campus is fairly burning up with activities.

Fleming: Do you suppose girls will wear dresses any longer?

R. Smith: Well if they don't what will they wear?

Boston University News.

Intercollegiate News

By Frank Sibley

In a list of eastern intercollegiate sport champions, compiled by the Associated Press, Norwich University is the only small college institution earning its distinction by winning eastern intercollegiate championships in rifle shooting. The list of champions in other sports includes Army in basketball and gymnastics; State in cross country; Columbia, Army fencing; Harvard in soccer, tennis and track; Yale, polo, boxing and wrestling; Yale and Harvard in football; Pennsylvania, Cornell and Princeton, soccer and golf; Johns Hopkins, lacrosse; and Cornell in rowing.

An exchange says that Harvard University is considering doing away with all initiations on the grounds that they are too childish and out of keeping with the dignity of the institution.

The Military Battalion parade was postponed on Friday morning on account of climatic conditions.

Pioneering cable communication with Cuba.

On the high seas of industry

NORSEMEN of old roamed the seas and boasted of the strange worlds they saw. But today Bell telephone men are discovering worlds a glimpse of which would make the Viking gasp with wonder.

Whether exploring the realm of submarine cable or the sub-microscopic world of electrons or the unsolved equations of efficient management and broader service, telephone men are seeking and finding intellectual adventure.

To men of this type it is reassuring to know that the telephone industry, in spite of the amazing progress it has made in a few short years, is yet far from its ultimate development.

"KIKI" PRICE
Veteran Guard of Fast Vermont Quintet

er '31; Edna Shaw, '29; Eleanor Taft, Katherine Wright, '28.

These members were determined by the average of scores made during the two weeks ending December 22, 1927. All scores were fired from the prone position, and a time limit of one minute per shot was enforced. Each target had 3 shots on sighting the bullseye and 2 shots on each of the five other bullseyes. The high average was 97.25 and the low was six members made an average of 95.

A tentative schedule lists matches for February 4 with the University of Utah, February 11, Universities of Kansas Missouri, South Dakota, and Nebraska, February 18, University of Wisconsin, Depauw Institute, and Michigan State College; February 25, Cornell. There are ten other matches pending including a shoulder to shoulder match with the Men's Rifle team of the University to take place in the latter part of March.

NEWS IN BRIEF

Miss Eleanor Cummings, head of the Women's Physical Education Department is recovering from an operation for appendicitis. Her address is 9 Vinal Avenue, Somerville, Mass.

Kappa Kings held a Christmas party at Redstone, Sunday evening, December 18. Janice Goodrich read "A Christmas Carol." Refreshments of popcorn and candy were served.

There will be an examination in Military next Monday. Those who get B or over will not be required to take mid-years in this course.

A meeting of the German Club was held on Wednesday before Christmas at the Clubhouse. The vice-president, Charlotte Wilder, presided in the absence of the president. A Weihnachts Gebrauche Im Christmas Customs in Germany was read by Bertha Hazen. Refreshments were served, and the party exchanged Christmas gifts to

VERMONT SEXTET TO START PRACTICE SOON

With the hockey appropriation a definite thing Manager Unsworth has made a good start on the schedule. Games have already been scheduled with Norwich and Middlebury the two other state teams and a contest with Fort Ethan Allen has also been placed on the books. Arrangements are also under way for games with St. Lawrence and Clarkson. The latter will probably appear twice on the list once at Burlington and once at Potsdam. Manager Unsworth has obtained the use of Shaw's Lot for practice sessions and all home games.

With such men as Captain Winchenbach, "Nellie" Wood, "Red" Walker Harry Schurman, Perry, O T Wood and "Speed" Denning eligible Coach Dresser ought to turn up a sextet that will make a favorable showing.

VARSITY QUINTET TO FACE R. P. I. AT TROY

Saturday night will find the Catamounts on the floor again for the seventh time this year, when they meet the fast Rensselaer Polytechnic Institute five at Troy, New York. It is hoped that the Vermont men will hit their stride in this game and show the pep that we know they have.

Prentice at forward is setting a nice pace for his team. His accurate shooting and nice defensive work were great factors in the showing that Vermont made against Yale. As a result he was picked as a forward on the all Tournament team. Halligan went good as the other forwards. Marvin, in center is not playing the same brand of ball as he did last year. So far this season Price has shown altogether too much individual playing. Estabrook is not going so good as he did last year, and on the holiday trip [illegible] started all three games.

It is hoped that the Cats are ready to get rid of the idea that these defeats are nothing but a joke and will really fight in the R. P. I. game, because if they do not change their methods soon there is a heart-breaking season ahead of them. We won the Rensselaer game last year and it can be won again if there is any fight left.

PHI MU DELTA HOLDS NATIONAL CONCLAVE

Nu Gamma Chapter of Phi Mu Delta entertained the national convclave of that fraternity on Thursday and Friday of last week. Over fifty delegates and representatives of Alumni were present. Meetings were held on both days.

Thursday evening a banquet was held at the Hotel Vermont, attended by Dean Hills representing the University. Among the speakers were Dean Hills, Mr. L. Woodward, a charter member of Nu Gamma Chapter, President Harold P. Miller of the University of California and Walter F. Reagan of the local chapter.

A formal dance was held Friday evening at the Ethan Allen Club. The patrons and patronesses were Mr and Mrs. Jack Miller of Chicago, Mr and Mrs. H. A. Bailey of Burlington and Mr. Harold Miller of Berkeley, California. Music was furnished by the "Pied Pipers" under the direction of Alan C. Johnson.

The local chapter is one of the three original chapters of Phi Mu Delta which was established in 1918.

BASKETBALL TOURNEY SCHEDULED FOR MARCH

Graduate Manager of Athletics H A Mayforth is rapidly finishing plans for the Seventh Annual Interscholastic Basketball Tournament. As usual the teams will compete for the coveted honor on the Varsity Court in the gymnasium. The dates set for the tourney this winter are March 9 and 10.

At present the invitations are being printed and the committee on selection of teams has been chosen. This committee is composed of Dr. A K Aldinger, Director of Athletics at the University; Principal J. E Seldon of Bristol; Principal G. R. Jenkins of Hardwick; Principal J. G. Finnessy of Northfield; and Principal E H Dorsey of Ludlow. Eight teams will be chosen on the basis of their respective merits as shown by the season's records.

HELEN STEVENS
Vermont Delegate to National Mortar Board Convention Held at New York City

HELEN STEVENS GOES TO MORTAR BOARD'S SECTIONAL MEETING

Cornell, Pennsylvania, Swarthmore and Vermont Chapters Send Delegates to Conference Held at the Metropolis

A Mortar Board Sectional Conference was held at the Women's University Club, New York City, on Friday, December 30. Delegates were present from Cornell, University of Pennsylvania, Swarthmore, and the University of Vermont. Helen Stevens represented Akaia Chapter of the University of Vermont.

Cornell chapter acted as hostess, and Miss Frances Mount, president of the chapter, presided, assisted by Mrs. Anne Hoehler Stotz, section director. Miss Irene Rems, national vice-president, was a guest and gave an interesting talk on the work of National Council.

The morning conference was devoted to a discussion of the service programs of the different chapters. Each chapter reported success in at least one special field of work and set forth plans for future projects.

In the afternoon there were special reports on the point system, the honor system, and the standard required for election to Mortar Board. The point system was similar in each of the four colleges, as well as the standards for election. Vermont was the only one of the four colleges that did not have some form of honor system in operation.

At the close of the afternoon session the committee on resolutions gave its report and a vote of thanks for Cornell's hospitality. With adjournment, the business of the conference was completed, while the conference itself ended in lighter vein with dinner and a theater party.

BOULDER DANCE LAST BEFORE MID-YEARS

Boulder Society will hold the last dance before mid-year examinations this Saturday evening at the University Gymnasium. This is Boulder's second dance of the year and the hop promises to be as big a success as was the previous dance. Professor and Mrs. Dean and Professor and Mrs. Carroll will be the chaperones.

"Joe" Lechnyr and his newly organized Vermonters will syncopate from 8.30 until 12. The band contains much local talent and Lechnyr claims that the orchestra is better than ever. Howard Prentice, social chairman of Boulder, has charge of the dance, but due to his being away on the basketball trip, Sabin Abell will be acting chairman for the evening. Bob Holden will be in the receiving line.

The dance will begin 8.30 and tickets are $1.10 per couple.

Student Labor Constructs New Men's Dormitory

Blackburn University is constructing a new men's dormitory using student labor. On the average, 50 students put in 2½ hours each day on the new building. The campus boasts of a "white house," too, but it is only a men's dormitory.

MILITARY DEPARTMENT ANNOUNCES PROMOTIONS

Promotions of Cadet Officers in Units Unit R O T C University of Vermont from 2nd to First Lieutenants at the order of Lt Colonel Black, are announced as follows by the Military Department. Crawford M Acorn, Gordon G Brown, John F Conway, Clarence F Castle, William N Cornwell, Porter C Greene, Robert T Holden, John M Larven, Lawrence H Marvin, Howard A Prentice, Rolfe W. Schoppe, Charles H. Stevens, Abel A. Valenti, and Robert M Whitcomb. These fourteen promotions became effective December 21, 1927.

SEYMOUR GIVES $5,000 AS HORTICULTURE AID

President Butler received the sum of $5,000 from William Wolcott Seymour of Tacoma Washington to be used to establish a fund to benefit the horticultural department and students of the University who are taking work in that department. Mr Seymour in making the gift, establishes the fund in memory of his father, the late Henry Edmund Seymour of the class of 1835 of the University of Vermont.

Henry Edmund Seymour was born in St. Albans and lived his entire life in Vermont. He revered the University of Vermont as his Alma Mater and in his latter days expressed the wish to his sons that a gift should some time be made to it in his behalf. He practiced law in St. Albans for a number of years before his death in 1887.

It is stipulated that the income from the fund, thus created by the $5,000, is to be paid annually, four fifths into the general expense fund of the horticultural department, and one-fifth to be known as the Henry Edmund Seymour prize to be paid to that member of the Senior Class who has done the best work in original horticultural research in the University.

13 NEW ASSISTANTS ELECTED TO CYNIC

As a result of the Cynic competition which has been held throughout the fall, two Sophomores and eleven Freshmen have been added to the Cynic board. The new men are to act in the capacity of assistant editors. Another competition is to be held directly after mid-years. At that time any student who is interested in journalistic work will be given an opportunity to scrub for a position on the Cynic staff. The newly-elected members include A Gloria, '30; G Nelson, '31, E. Germain, '31; D Coburn, '31; J Meissner, '31; P Andrews, '30, F Lynch, '31, E Fagan, '31; B Blodgett, '31; G Brush, '31; A Madden, '31; W Craig, '31; M Kent, '31.

FROSH MILITARISTS HAVE ABILITY AS MARKSMEN

Thirteen members of the Freshman class have distinguished themselves by securing a score of from 190 to 196 out of a possible 200 in the rifle marksmanship, held prior to the Christmas holidays, in which all those Freshmen enrolled in Military participated. There was one score of 196, the best that was made, there were two scores of 195, four of 193, one of 192, two of 191 and three of 190.

Those who made the scores are: W Loudon, 196, Burlington, Vt; G N Donaldson, 195, Burlington, Vt; E W Connell, Jr., 195, Scranton, Penn; R B Aiken, 193, Burlington, Vt; J L Whalen, 193, Healdville, Vt.; R. M. Huey, 193, Saylesville, R I.; L. Y. Spear, 193, Jericho, Vt.; W J Cambria, 192, New York City; R. G. Bullock, 191, Arlington, Mass; R A Watkins, 191, S Dartmouth, Mass., C S Buxton, 190, Plainfield, Vt.; J L Percival, 190, Springfield, Mass.; D B Oatley, 190, Great Neck, N. Y. A complete tabulation of all scores will be posted shortly upon the Military Department bulletin board.

NOTICE INDEPENDENTS

Vermont Independents will hold a meeting tonight at 7 o'clock in the Y. M. C. A. rooms to elect a secretary and a Gold Key member.

VERMONT LOSES TWICE IN TOURNAMENT HELD BY YALE UNIVERSITY

Yale Beats Varsity in Last Quarter and Crusaders Smother Catamounts in the Final Game

Vermont's trip over the holidays to Yale and New York were rather disastrous as they suffered three defeats in as many starts. The Cats were greatly favored before the Eli Tourney but the opening night suffered defeat at the hands of the Bulldog.

It was a hard and fast game the best heard of basketball that the Cats showed on the trip, and to have Yale break through in the final minutes to win 24-20. It was a hard game to lose, but the McAvoyites licked the final punch to annex the game.

"BUNNY" PRENTICE
Captain and High Scorer on Catamount Basketball Team

N. Y. U. Wins

In the meantime N Y U was sending Holy Cross to the showers with a stinging 39-27 defeat and everybody expected that the Green and Gold hoopsters would have little difficulty in taking the contest the following night. Several of the Purple's regulars, including Capt. Reilly, were out because of injuries, so not much was beeame of injuries, so not much was looked for from the Crusaders.

Yale Victorious

They greatly surprised everybody, however, by setting the Cats back with a 44-32 defeat. This was the real upset of the tournament. The Vermonters were completely taken off of their feet and didn't know what it was all about until the closing minutes when they scored 10 points in short order. The Crusaders played complete rings around their opponents with "Zeke" Connors their star forward as the outstanding man in their win.

This put N Y U in the favorite position to cop the tournament, but Yale changed the dopesters' ideas when it sent the Violet down to a 32-30 defeat. This was the best game of the tourney, going overtime a period before the Bulldog finally emerged victorious for the second consecutive year.

Capt. Prentice was the best man on the trip making the all tournament team at Yale and he did most of the scoring for Vermont. Price came around in the Crescent game for a short time to get some of his circus shots which were mostly lucky. This is one of the most disastrous trips that Vermont ever took and let's hope that they dropped the jinx in Brooklyn.

PRESS CLUB MEETING HELD AT GRASSMOUNT

The last social meeting of the Press Club was held at Grassmount Wednesday December 21. Lucy Morgan and Florence McKenzie were hostesses.

It was voted to have the president select a committee to report on those trying out for membership in the club and to hold a meeting to vote on the recommendations of this committee on Friday January 6. It was also voted that every member pay fifty cents at this meeting so that a picture of the club may be put in the *Ariel*.

[illegible] graduates are heartily in[illegible] must [illegible] will be [illegible] should [illegible] Wednesday

46 January 6, 1928 No 24

ARE OUR LIFE WORK DEVELOPING US IN THE WAYS IN WHICH YOU MOST WISH TO BE DEVELOPED?

There is a desperate feeling present among the members of the senior class at leaving of wandering and of [illegible] a feeling that [illegible] will come to know in the future. And as time for graduation draws nearer the desperation increases. In most cases the anxiety [illegible] years fades to near-obscurity [illegible] side of this other, stronger [illegible] the number of students who [illegible] graduate in the coming [illegible] June will be [illegible] is certainly large. Not only is the exact position unknown, but likewise the character of work that is desired, and the life influence to be sought thereby.

Every year there are many graduates who [illegible] accept some offer [illegible] which has been [illegible] which they did not really want, or one offered at the last hour and of which the merits and disadvantages are but thoroughly [illegible] We find our lawyers and trained engineers working in jewelry stores and engineers [illegible] while positions still [illegible] unfortunately [illegible] to the [illegible] Various reasons [illegible] the most [illegible] possible arrangement to [illegible] and [illegible] in some [illegible] cases. And many times [illegible] Often these [illegible] positions [illegible] to [illegible] years but [illegible] to the desired success pending for the glory [illegible] while, and in many cases simply the [illegible] routine.

[illegible] to say [illegible] it is [illegible] rules the first thing for us to settle [illegible] determining what kind of work we should go in for is the economic side of the situation. For we believe that we want the money first and that then the salary will [illegible] of other things in life are [illegible] that we should make a point for the other things, knowing that enough money will be at hand for the necessities and reasonable pleasures of life. No small success, we should say, but we can afford to [illegible] a millionaire [illegible] if we are possessed in business for itself. If it intrigues us and answers our every desire, that [illegible] there is no objection. There is to be found in human nature, however, [illegible] of our finer sensibilities, sometimes of [illegible] both subjective and objective [illegible] question asked above. There is a theory common among us that if we go [illegible] make a success and retire early, we [illegible] sideration the fact that very few men can do this in regards to the financial part, and that if this be accomplished, in nearly every case the man will be incapable of developing the other aspects of his nature. The man who [illegible] to be a great success there has become too hardened to the business [illegible] Personality and [illegible] [illegible] material values about [illegible] which [illegible] from him. Another theory is that we can take [illegible] and this is often attempted. Seldom, however, is the balance between the two maintained. While the one may here be used to make the other possible to a great extent, yet we must realize that thus neither can be developed to the best of our ability, with our powers divided. And if we turn directly to the other side of life, will the material side of our natures be satisfied, or can we control or subordinate our material desires?

Here again we have a case where each man must decide for himself, to suit his own nature. What we fear is that he will not decide at all but will drift or make some decision-of-the-moment and that accordingly his nature will not be satisfied. There is one suggestion one guiding principle, which we would offer in considering the future: Will such and such a life work develop you in the ways in which you most wish to be developed?

The last two Sundays before the Christmas vacation provided two afternoon services at our new chapel, which were, to put it lightly, very gratifying to all those interested in the welfare of the institution. At both times the seats were filled right to the back and to the front. Better yet, not only were the audience attracted, but also it was satisfied. Townspeople and some college students are coming to realize that services offered by the University have something to give, that speakers are chosen on merit, and that programs are worthy of attention.

The music has been criticized with severity has been praised, and has been spoken of as something that was [illegible] developing and should be given time. The carol service had a decidedly silencing effect on all adverse critics who heard it. There is no doubt as to the artistic quality that is being developed in our Music Department by Mr. Bennett.

Speaking of the artistic in music, we are reminded of the orchestra that represents Vermont. There is nothing to [illegible] in this line that we have every reason that the talent [illegible] with music at Vermont has nothing behind it, and that the efforts here [illegible] be contrasted with the event [illegible] to [illegible] However happy we believe that we need the assistance and that work might under Mr. Gardner, and with the other [illegible] [illegible] we will under Mr. Bennett, we will all feel justly proud of [illegible] University [illegible]

[illegible] his name to be enrolled on the [illegible] of the so-called grammar school. We [illegible] even if he [illegible] who [illegible] taken any [illegible] with the [illegible] of the question [illegible] suppose that the administration is all pepped up at the idea of continuing classes these three days, [illegible] the presence of the coal, and [illegible] due in the [illegible] student opinion?

We were present at the meeting of the Faculty Student Council at which [illegible] was discussed. After every possible means had been considered the general impression seemed to be that the present plan had the [illegible] some of the time must be made up, because the professors have their courses all planned, and especially in one-semester courses, the loss of two or three recitations so near the end of the year is a more serious matter than it appears on the surface.

Granted that we must add the time somewhere, there are three possibilities open, Christmas, Easter and June. The last would involve putting off everything a week as G. R. P. suggests. But how about the people who have positions for the summer? They would get out of school in time to start work on the Fourth of July. Also the boards must have some time to get ready for summer school, and the boards who have their plans made to come back to commencement must be considered.

In regard to Easter, look up the word "spring fever" in the dictionary and you will understand why the faculty do not like to think of taking off any time then. Also, Easter comes at the end of the longest and most strenuous time of the year, since it is the first holiday after a possible recess during mid-years. Kake Walk and women's rushing come during this time.

That leaves only Christmas. While there are objections here as elsewhere, the sum total does not mount so high. What if classes do last until Friday? Won't we enjoy Christmas more by contrast? And all the poor people who "reach home Saturday, too tired to enjoy the holidays" they must study harder than the average to attain that degree of weariness. In the light of this it seems decidedly as if some people were looking for a chance to crab. They call the administration inconsiderate and thoughtless, when in reality those in authority have put a great deal more time upon the question than the students have. Besides we are here ostensibly to have a little knowledge filtered into our heads, and it is rather inconsistent to break into a fit of rage at the suggestion of an opportunity to learn a little something.

Thanks for the space.

Also '28.

AT THE DORM

By Converse Hall

Reggie DeWitt underwent a minor operation on his side. He requests all flowers except lilies.

Abe Roller reports that he refused a date with a chorus girl from the cast of "Bringing Up Father." Self-control, eh wot?

Johnnie Millets says that he has nothing to say and doesn't wish his name to be mentioned. So let it be.

Babe Adams took his books home in order to study and left them there. No not on purpose.

Romanus a native of Barre, spent a quiet happy week of rest and intensive study.

Charlie Stroh says that he had a flat tire on New Year's eve. Who was she?

We asked 24 middle for unusual news. "Well," he said after some deliberation, "I cracked the books on my first night here!"

Greeks Making Final Preparations For Presentation of "Iphigenia"

Acting to be Supported By Unusual Stage Properties Including Many Grecian Relics From Local Collections. January 13 Set For Performance in the University Gymnasium

Eta Sigma Phi is making every effort to assure the success of the performance of the "Iphigenia Among the Taurians," in English, with choruses from Gluck's opera, "Iphi[illegible]" sung by members of the Wo[illegible] Glee Club, on the evening of [illegible] 13. A large number of friends have been giving the Greek Club hearty support. The action of the play goes on before the temple of the Taurian Artemis, which was in the midst of a wild forest. Hence the play ought really to be given in a grove, which is impossible at this season of the year. Fortunately, however, through the co-operation of many citizens of Burlington, a way has been found by which in all probability "Birnam's wood will come to Dunsinane" but this time with the happiest omens.

For the funeral rites in the first scene there has been found in a private collection in Burlington a replica of a golden goblet actually found by Schliemann at Mycenae, the home of Iphigenia. From another local collection a bronze pitcher will be furnished. This pitcher has no great claim to value as a work of art, but strangely enough, there is represented on it the head of a barbarian demon exactly like that of a similar figure on the fragment of a marble throne, now in the Hermitage at Leningrad. A Russian archaeologist in a recent article in a German periodical argues that this throne came from Southern Russia—perhaps actually from the Crimea, where the action of "The Iphigenia" takes place. Again, Greek armor is necessary for the guards of the barbarian king. Fragments of many Greek helmets and spears, and eight good G[illegible] in fair preservation were [illegible] Mr. Henry Pearson of [illegible] Oregon, while visiting [illegible] during the holidays. M[illegible] who is a Senior at Yale, is [illegible] ested in art. He became [illegible] interested in fitting up this [illegible] that it might be used in the [illegible] ance. The shields are decorated [illegible] large devices dating from [illegible] ning of the fifth century, B[illegible] the devices are a serpent, [illegible] three dolphins, a cock, a [illegible] with open jaws, ready for [illegible] and a most horrible grinning [illegible] head, with snaky locks.

Finally, Mr. Pearson also [illegible] a small and very archaic [illegible] Artemis, the Taurian Goddess [illegible] whom Iphigenia is about to [illegible] her brother. The statuette [illegible] sixteen inches high. It is [illegible] some kind of clay, but is not [illegible] as are the early terra-cotta [illegible] It is extremely fragile and [illegible] mutilated, but will probably [illegible] in the fourth act, when the [illegible] reaches its climax.

The properties, interesting as [illegible] are, have far less importance [illegible] the acting. Professor Metcalf is giving the final touches to the [illegible] of the cast, and a finished [illegible] ance may be expected.

The extemporized Greek theat[illegible] will accommodate only about [illegible] seated spectators. There will be ab[illegible] 150 seats for students at fifty ce[illegible] Any who expect to attend would [illegible] well to purchase tickets early [illegible] some member of Eta Sigma Phi [illegible] is probable that the theater wi[illegible] sold out before the evening of [illegible] performance.

Bob Hendricks advances the startling information that he was pinched three times for parking. We had our face slapped once for that.

Dick Backus was stopped by a state trooper. "Are you a bootlegger?" "No, I'm only driving a Ford."

Speaking of the unusual, Chet Kaufman went to the Palais Dor for nothing! How did he do it?

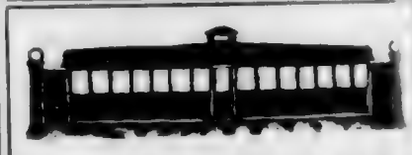
Abe Rosenfelt stayed a la dormitaire over the vacation. "What of the unusual could have happened in Burlington?" he wishes to know.

Sam Shindler nearly fainted when the Central Vermont arrived but one hour late.

Tom Tellier is engaged—in letter writing. Furthermore, he left the train at Eagle Bridge, N. Y., and not being able to procure a taxi, walked six miles to Cambridge. Did he get his six Camels? No, Phyllis, football men don't smoke!

Don Oatley and his valiant buddy, Monsieur Boles, are still suffering from Red Cross work, and have returned to classes to catch up on their sleep.

Pete Stafford, who left for home some time ago to undergo an operation, returned for a few days' visit. Welcome, Pete.



Georgie (Fool-the-Profs) Minnott announces in no uncertain terms that Ross Gorman's Virginians were simply rank when they played at the Arcadia in Gardner, Mass. (chair city of the universe; inquire for full particulars at the Chamber of [illegible]merce). He also takes this [illegible] to express his delight over the [illegible]vellous date he had last [illegible] night.

We but echo the wish of our Fr[illegible] prof: "Merry Christmas! Happy [illegible] year! And many happy returns [illegible] the school hereafter!"

"Shh! Let's kill this half-pint!"

"Aw, let the poor shrimp go."

CATAMOUNTS LOSE TO CRESCENTS A. C. 52-28

The Catamount five lost to the Crescent Athletic Club basketball team of Brooklyn by a 52 to 28 score in a New Year's eve engagement at Brooklyn. Although the defeat was quite decisive, the fact that the Vermonters had played two stiff games at the Yale tournament during the same week must be taken into account. The work of the Northerners gave evidence of tired condition.

The Crescent aggregation is composed of older and more experienced men—former college stars—and has been molded into one of the fastest, smoothest, and most accurate shooting amateur teams in the country. All kinds of shots were tried by the members of the team and they had no trouble finding the hoop. The reserves were as good as the starting line-up. Roes, at centre, was the outstanding man and leading scorer for the New Yorkers, while Keating was a close runner up.

The Brooklynites led from the start and Vermont never threatened to take the lead. At half time the score was 26 to 10. In the second half the Catamounts spurted and rolled up 18 points to 26 for the Crescents. During this period the spectators saw flashes of what the Vermont boys are capable of doing. In spite of the close guarding of the Athletic Club Captain Prentice tied Roes with 14 points and continued to increase his scoring total and stay up with the high scorers in eastern collegiate circles. His offensive floor work and foul shooting were features of the game. From a Vermont point of view another high-light of the contest was Manning and Estabrook's accomplishment in holding their men scoreless throughout the game.

The line-ups and scores:

Crescent A. C.	Gls.	Fls.	Pts
Kurtz, l. f.	0	0	0
Rhodes, l. f.	0	0	0

"Across from the Sherwood"

NEWS IN BRIEF

During the Christmas recess Doctor A. K. Aldinger, Graduate Manager H. A. Mayforth, J. E. Donahue and Coach W. J. McAvoy attended the Twenty-second Convention of the National Collegiate Athletic Association held at the Hotel Astor in New York City. At this meeting all phases of football, basketball, and baseball were discussed as well as minor sports such as hockey, track and field, wrestling and water sports. Much attention was given to the Rules Committee which gave a very complete report.

The fourth meeting of the year of the Research Club of the University of Vermont was held in Morrill Hall Dr. C. F. Dalton spoke on "Advances in Public Health Work."

Prof. L. M. Prindle and Prof. Samuel F. Bassett attended the meetings of American Philological Association and the Linguistic Society of America at Cincinnati, Ohio. Prof. Bassett read a paper on "Now We See Through a Glass Darkly," and was one of the after-dinner speakers.

Coach Moore is still looking for more debaters. Typical questions for debate are Censorship, The Modern Woman, Coeducation, Is Democracy a failure? Good work will not go unrewarded as there are two $100 prizes offered—one for men and one for women. There is also a chance to make Tau Kappa Alpha, the national honorary debating society.

Students who for any reason missed any class on January 3, 1928, must report as soon as possible to Dean Patterson or Dean Swift to explain this.

Miss Marian Patterson, Dean of Women, has resumed her duties after an illness of several weeks.

The final schedule of mid-year examinations is posted on the bulletin board.

Examinations in all courses in History will take place on Monday, January 9.

Dr George K Pratt, University consultant in Mental Hygiene, will be in the Dean's office Friday, January 6. Any student wishing to see Mr Pratt may make an appointment. The men by speaking to Professor Metcalf, the women by speaking to Professor Holbrook.

Professor Frederick Tupper, head of the English department, and Prof F D Carpenter of the German department attended the meeting of the Modern Language Association at Louisville, Ky. Prof. Tupper was chairman of the Chaucer division of the association.

Northern Lights Too Cold

A profrasor in the department of astronomy at the University of Minnesota calmly informs us that a temperature of 395 degrees below zero is necessary before there can be any Northern Lights or Aurora Borealis. Curious but not at all necessary.

WOMEN WANTED TO ACT AS OFFICIAL SCORERS

As the basketball season soon opens with the interclass games, official scorers are being sought. It has been found advantageous both to the physical education department and to the players to have their own classmates keep an official score of the plays. This relieves the coach and umpire to some extent. These scorers come from any class and do not have to be adept at the game themselves, but are coached in their rôle. Attendance at all the games is required. They receive 25 points W. A. A. credit for the season as a result. They get more out of the game because keeping the score has given them a knowledge of the game and makes more vital their enjoyment and interest in it.

Strickland: "What would you think if I were to throw you a kiss?"
Creed: "I would think that you are the laziest boy I ever saw."

Finds Tobacco for "Breaking In" a Pipe

Columbia, March

Larus & Bro. Co.
Richmond, Va.
Gentlemen:

Two years ago my wife gave me an expensive pipe. I smoked it a good deal for two or three weeks, and then began smoking it again. By this time it was very strong. Very soon it told me that it had been smoked enough for a new pipe and should be laid away.

The pipe was laid away for a short time ago I got it out and put one of the common brands of tobacco in it. The results were disastrous. I told the druggist of my experience with it. He asked if I had tried Edgeworth. I told him I never had, but followed his suggestion, and I am sure you will when I say that it has restored the sweetness to the pipe, and has made me wonder. Was it the pipe or the brand of tobacco that caused me to lay it away for the long period of time.

As a novice, I prefer Edgeworth and am going to stick to it, as I feel satisfied that there is none better on the market.

Sincerely yours,
Philip C. Stera

CLASS CHOSE HYLAND JUNIOR WEEK CHAIRMAN

Last evening a group of four nominees J. F. Hyland of Worcester Mass. was elected Thursday, December ... by his classmates to act as Chairman of Junior Week. Hyland is a member of the Sigma Nu Fraternity. He was prominent in class activities during his Freshman and Sophomore years serving on many committees. As an assistant manager of the varsity football squad of the 1927 season he was elected elected to manage the Freshman football team in 1928. He is one of the Junior Class officers acting in the capacity of treasurer.

STUDENTS IN HOME GIVE CHRISTMAS PARTY

A Christmas dinner party was given on Wednesday evening, December 21 at the Home Management House for the Home Economics faculty and the Junior and Senior members of the department. The rooms were prettily decorated with evergreen and red candles. In each of the windows lighted candles were placed, while the dining room table was most attractive with its candles and red crepe paper trimmings.

After the dinner the guests gathered in the living room around an imitation New England homestead and had a Christmas stories and sang carols. Forty guests were present. The hostesses were Ireno Molinari and Mary Bostwick, both of the class of '28.

At a meeting of O. T. C. men are to report for uniforms at 7:30 until further notice. There was a slight misunderstanding of this last Tuesday morning.

America Discovered for $7200

Old records show that the cost of Columbus' first expedition to America amounted, in modern exchange, to only $7200. To finance Columbus, Isabella, Queen of Spain, offered to pawn her jewels. Today word comes from Spain indicating that a twentieth century importation from the new world is fast effecting a sufficient saving to ransom many royal jewels. The Spanish Northern Railway reports that the American equipment with which in 1924 the railroad electrified a mountainous section of its lines from Ujo to Pajares has accomplished the following economies:

1. A 55% saving in the cost of power.
2. A reduction of 40% in the number of engine miles for the same traffic handled.
3. A saving of 73½% in the cost of repairs and upkeep for locomotives.
4. A saving of 63% in crew expenses.
5. A reduction of 31% in the cost of moving a ton-kilometer of freight.

The substations, overhead equipment for the complete installation, and six of the twelve locomotives for this particularly difficult and successful electrification were furnished by the General Electric Company. General Electric quality has attained universal recognition; the world over, you will find the G-E monogram on apparatus that is giving outstanding service.

In every part of the world, electricity has replaced less efficient methods and is saving sums far greater than the ransom of a queen's jewels. You will always find it an important advantage in your work and in your home.

NOVEL EVENTS FEATURE FRENCH CLUB PROGRAM

Le Cercle Français, which was organized two months ago by the students of the French courses with the assistance of Prof. Savage, announces a series of meetings to be held after Mid-Years and to continue until the end of the year.

Present plans for the season's program, as being drawn up by the committee, include many novel and attractive features. Later in the year the society plans to present a play in French which is an innovation at Vermont. Dancing after the meetings and refreshments are intended to stimulate interest and attendance. French conversation is to be used largely and papers on subjects of interest to students will be read at the meetings. A good deal of time, however, will be devoted to purely social activities.

Meetings to be held in the Vermonters' Club House, will be announced in the various classes. All students enrolled in French courses are eligible for membership in the club.

MANY PERFECT SCORES LEAD TO REVISION OF MARKSMANSHIP RULES

Varsity Will Shoot Over Thirty Matches During Next Semester —Practice Began With Four Letter Men Heading Big Aggregation of Candidates

A number of changes in the rules governing collegiate rifle shooting, designed to lower scores by making the work of the marksmen more difficult, will become effective this winter, according to information received from the National Rifle Assn. by Clifford L. Morse, manager of the Vermont riflemen. Too many perfect scores were fired by the college shooters last season. As a result, the national governing body has decided to take steps to lower the high marks that have prevailed.

The most important change under the new rules reduces the size of the bullseye from .25 of an inch in diameter to .15 of an inch. In other words, the former quarter-inch bull is nearly halved in size to make it only a little more than an eighth of an inch across. This leaves a spot sufficiently small to make perfect plugging of the black area a real feat.

Use of the telescopic sights is also eliminated under the new regulations. Instead of these all riflemen will use the regular iron sights. Thus the advantage of better vision provided by the telescopes will be removed.

The Vermont rifle team which stands among the highest ranking collegiate teams will open its campaign for honors the first of February. Rifle practice and tryouts for Varsity began Monday, January 9, 1928. Four letter men who will shoot this year are: Captain C. E. Brown, Manager C. L. Morse, R. E. McGee and E. C. Ball. About ten other veteran marksmen and approximately thirty Freshmen are also using the galleries in preparation for the coming matches. Captain C. E. Brown wishes all eligible men who want to try out for the Rifle Team to report to Captain W. E. Lauer, coach of the team.

Thus far Manager Morse has arranged thirty-two duel matches. Among the opponents already booked are Norwich, the University of Pittsburg, Ohio State, Massachusetts Institute Technology, Massachusetts Agricultural College, Nebraska State, Kansas State, Missouri A. & M., Johns Hopkins, Lehigh, and Cincinnati.

JUNIOR SOCIETY MAKES READY FOR TOURNAMENT

Having perfected the schedule for the interfraternity basketball tournament Key and Serpent is now turning a wealthy and generous hand to the gym floor. Long, hard usage in the past has worn dim the various floor lines that are so essential to basketball played as basketball. So that the best team may win the floor must be in ideal condition.

Therefore, Key and Serpent rises to the occasion, assumes the rôle of painter, and as great painters are wont to do, *easily* perfects the faulty situation. Thus, we have improvement for the gym, improvement for the teams, and bottomless generosity from Vermont's Junior honorary society.

SOPHOMORE HOP WILL BE HELD IN NEW GYM AT BURLINGTON HIGH

Date Is Changed From February 3 to February 10—Committees Are Announced

Originally planned for February 3, the Sophomore Hop, first dance after mid years will be held February 10.

This change of dates is necessary because of the game with New Hampshire State and the dance will be held in the Burlington High School Gymnasium as a University lecture will be held at the same date in the gymnasium.

There will be a meeting of the committees Tuesday night, January 10, at Grassmount.

Committees for the Hop are as follows:

Chairman Sam Hawley '30

Music Committee

H. T. Bray, '30, chairman
C. H. Ramin, '30
T. R. Donnelly, '30

Refreshments Committee

H. M. Macomber, '30, chairman
W. J. Slavin, '30
R. H. Arnold, '30
B. Householder, '30

Favors and Program Committee

W. R. Kersey, '30, chairman
C. H. Mace, '30
L. W. Meehan, '30
N. W. Owsley, '30

Decorations Committee

J. R. Beecher, '30, chairman
J. M. Goodrich, '30
K. E. Mudgett, '30
P. H. Flint, '30

JEWISH MEN STUDENTS FORM NEW PI CLUB

A group of Jewish students formed a new club last year which they called the Pi Club. It was kept secret for a year for reasons of their own. And it was not until just before the Christmas vacation that its existence became generally known. They announce their purpose to be to foster social, scholastic and athletic activities and to creat a new spirit of brotherhood and friendship among themselves. At the present time there are 15 members including Freshmen, Sophomores, and Juniors. They have rooms at 94 Church Street.

The officers of the club are as follows: Myron Samuelson, '29, president; "Bump" Levine, '30, vice-president; Harold Dinniman, '31, secretary; H. M. Burstein, '30, treasurer.

The club president added that their future aims were merely to "keep the fellows together" and organize social and athletic activities for the recreation of their particular group. A certain rumor on the campus to the effect that the Pi Club was being organized now for the express purpose of later becoming a fraternity of their own, is reported as not being true.

Pi Club members issue a challenge to play basketball with any organization on the Hill. They have a fast team. The club telephone number is 3117 M.

CARROLL AND DOPKINS ATTEND CIVIC MEET

Professor D. C. Carroll and Professor E. C. Dopkins of the department of political science attended the thirty-third annual meeting of the American Political Science Association, held at Washington, with headquarters at the Mayflower Hotel, December 28 to 30.

The mornings were taken up with round table discussions. Of these there were five groups which met each day, one to consider legislature procedure, another the diplomatic process, the third federal relations, the fourth problems of public administration and the last the government and the press. Professor Carroll was particularly impressed by the description of the legislative process in Congress, as presented by the counsels for the Senate and House.

Every day at 12:30 there were subscription luncheons at which prominent men spoke on subjects of interest to students of government, and

Successful Concert By Women's Glee Club Given Friday Evening

Co-ed Organization, Under the Direction of Professor H. G. Bennett Render a Delightful Program

Music lovers of the University and city were privileged to attend a finished and artistic achievement when the Women's Glee Club under the direction of Professor H. G. Bennett, presented its annual mid-winter concert in the University Gymnasium Friday evening. Much credit for the charming performance of a difficult program belongs to Professor Bennett.

The Misses Margaret Corbin and Carlotta Grimm were piano accompanists and were assisted by Miss Julia Waterman, violinist.

The concert opened with a song by Rubinstein, "The Dream." This was followed by "To the Sun" by Schumann and "Impatience" by Schubert. The Glee Club then sang without accompaniment "Come Again" Sweet Love Doth Now Invite" and also unaccompanied, "To Shorten Winter's Sadness" a delightful little song dated as far back as 1598.

Miss Waterman, accompanied by Miss Corbin, pleased the audience with a violin solo "Meditation from 'Thais'" by Massenet. She gave as an encore, "Valse Bluette."

The climax of the concert was the skillful interpretation of Brahms' "Song of Fate" through which echo two moods the serenity of the gods and the suffering of men. The introduction to the piece and the postlude were given on the violin by Julia Waterman, and Margaret Corbin played the piano accompaniment throughout. A sextette, composed of Misses Corey, Douglas, Ladd, Nash, Peters, and Wilder, sang part of the selection and were assisted by the Glee Club. The "Song of Fate" is considered one of the noblest and most exalted of this composer's works.

The concert was brought to a close by three numbers, "Les Norvegiennes" by Delibes, "Belle Nuit (Barcarolle)" from "Les Contes d'Hoffmann" by Offenbach, and Cachucha and Finale from "The Gondoliers" by Sullivan.

The personnel of the Glee Club is as follows:

Professor H. G. Bennett, director. Miriam Lawrence, '28, leader, Eleanor Hubert, '29, business manager, Margaret Corbin '29, accompanist and assistant manager, Carlotta Grimm '31, accompanist, Hazel Ladd, '30, assistant director, Vivian Dodge, '29, Frances Hazen, '30, Margaret Stanley, '31, Georgina Hubert, '31, Margaret Rice '31, assistant business managers.

First sopranos: Helen Allbee, Rosina Allen, Gertrude Bingham, Elizabeth Butler, Mary Coffey, Elizabeth Corey, Mary Davis, Lorraine Gulflett, Genevieve Hook, Hazel Ladd, Clarissa Peters, Doris Phelps, Eleanor Prunier, Margaret Rice, Doris Shaw, Eleanor Smith, Helen Taylor, Margaret Waite, Marian Weed.

Second sopranos: Eloise Bullard, Margaret Corbin, Dorothy Cottrell, Vivian Dodge, Hope Grant, Frances Hazen, Georgina Hubert, Miriam Lawrence, Esther Mandigo, Dorothy Nash, Virginia Noyes, Margaret Parry, Margaret Stanley, Margaret Wallace.

Altos: Marion Baldwin, Elizabeth Belcher, Anne Darling, Barbara Douglas, Katherine Eckley, Frances French, Carlotta Grimm, Eleanor Hubert, Emily Murray, Florence Scott, Edna Shaw, Anna Wilder.

Professor and Mrs. H. G. Bennett and Mr. and Mrs. L. W. Dean chaperoned the dance which followed the concert.

INTERNATIONAL CLUB HAS ANIMATED OPEN FORUM

Mr. G. F. Andrews of Cambridge, Mass., brother of Prof. A. I. Andrews of the History Department, was a guest at the meeting of the International Relations Club held last Thursday afternoon. Called to order by the president Harold Collins, this proved to be one of the most interesting meetings of the year. R. C. Stevens led a discussion on the subject of the relations between United States and the Latin American countries. After Mr. Steven's detailed analysis of the present situation an open forum was held which was remarkable for the animated presentation of the different points of view.

Due to Mid-Years the next meeting will not be held until February 2.

VERMONT SCORES IN PLACID WINTER SPORTS

This year for the first time Vermont was represented at the 6th Annual College Week at the Lake Placid Club, New York, where the annual winter sports events are held with increasing competition among the various colleges of the Middle West, the North east, and Canada.

Those representing Vermont in the various sports were as follows: S. W. Howard, '31, Med., skating events, R. M. Bragg, '29, skiing competitions, and L. G. Cowles, '29, snowshoeing and skiing events. These men were chosen because of their high rank in the inter-fraternity meet of last year.

As the weather conditions for winter sports were very poor it was necessary to import snow from quite a distance for the jump. Other events were held under similar handicaps. On this account the college awards were made only among the individual honor. The fourth place in skiing proficiency was carried off by Mr. Bragg, thus giving Vermont one point.

Other colleges represented were: Bowdoin, Bates, Dartmouth, McGill, Middlebury, New Hampshire, Ottawa, Rensselaer, Syracuse, Williams and Wisconsin. Wisconsin, McGill, New Hampshire and Dartmouth stood at the head of the list. Vermont tied Middlebury. Only half of the colleges represented scored at all.

The Lake Placid Club is to be congratulated upon the way it is promoting winter sports among the colleges and upon its kindness in extending the privileges of club members to visiting teams.

Those attending the meet report that most of the colleges represented sent carefully trained men under the supervision of a coach.

The Outing Club is planning an elaborate winter program of events to select a team to represent the University at Norwich, Dartmouth, and at the State meet at Rutland. If possible a coach will be secured and regular practice held in order to build up an outstanding team.

RESIDENT MEMBERS AT MORTAR BOARD BANQUET

A buffet supper was given by Akraia Chapter of Mortar Board for the resident members on Thursday, January 5, at the Kappa Alpha Theta house. After the supper a business meeting was held. Helen Stevens gave a report of the Mortar Board sectional conference which was held at the Women's University Club in New York City on December 30.

The possibility of changing either the organization or the time of meeting of the Student Union was discussed.

A pledge of $50 a year for a period of ten years for the Dean Wasson Memorial was voted.

The guests present were: Mrs. Florence C. Arms, Alice N. Blanchard, Alice E. Blundell, Janet Byington, Alice B. Crowe, Mrs. Helen Styles French, Mrs. Florence Farr, Hazel Beatrice Herberg, Marjorie E. Lane, Mrs. Blanche Abbott Miller, Marion Patterson, Mrs. Elizabeth B. Patrick, Mrs. Hazel M. Cogn, Pearce Anna C. Smith, Katherina H. Storrs, Marion Way.

UNIVERSITY RADIO CLUB HOLDS SECOND MEETING

There was a good attendance at the second meeting of the Radio Club last Tuesday evening and interesting demonstrations were given by Glenn Aiken, '29, and Frank Sulloway, '29.

After the regular business meeting Glenn Aiken gave a description of the radio-frequency generator and Frank Sulloway spoke on the photoelectric cell and illustrated his talk with a demonstration of one of these tubes as used for television.

The next regular meeting of the club will be Tuesday, January 10, at 7:30 P.M. At this time Professor Dickinson will continue the lecture on vacuum tubes and Frank Sulloway will give further demonstration of the photo-electric cell.

A cordial invitation to attend these meetings is extended to students and anyone else interested in radio as an interesting program is outlined for this year.

The Vermont Cynic

AT THE DORM

By Governor Hall

"The Mid-day Ride of Abe Roller"

While I recall
[illegible]
[illegible] of Interscholastic [illegible]

When [illegible] approached, a god-
[illegible] from Heaven

[illegible] perhaps I never mustached
[illegible]
[illegible] but stopped to receive our
[illegible]
[illegible] spoke [illegible] to saddle and saved
[illegible] the game

[illegible] of the words who flew [illegible] would fire
[illegible] my ear

We gazed at the scene from windows
[illegible] high

We longed for diversion that Sunday
[illegible] bored

[illegible] Dope had turned scarcely the brains
[illegible] in our head

[illegible] Jock! Who is that now dashing
[illegible] South

With freckles in hand and wide-
[illegible] mouth?

It looks like Abe Roller, brave,
[illegible] and fair

Well, it is I, the star that's perched
[illegible] his hat!

He rose to the riders in tones loud
and shrill,

"Come back, Converse Jockeys; come
back if ye will!"

Then forth in the saddle they pull at
[illegible] rein

And pellmells are thundering toward
us again

[illegible] the lightning betokens the
[illegible]

As Roller's kids are commands at
the helm

And sandwich them this tale to re-
count:

Two weeks from that saddles she
stays on his mount

Spurns to win and caused their most
speedy return

Well done, my brave comrades, and
now shall we learn

The proper position one takes on a
steed

To become this young colt here, and
even indeed

Once astride has him back I'll not
only show that

But gladden wearing my officer's hat.

I'll [illegible] my victories so that ye may
[illegible]

My Deserts hereafter. And when I'm
[illegible]

And gathering up daisies 'neath grasses
the green,

I'll accord will look back, you know
what I mean.

In the days when at Converse I first
rode a horse,

Then I remembered my genius, remem-
ber of course.

That events from that time made the
world shout my name

Yes, I'll bring to Old Converse per-
petual fame.

Not wanted at all by a speech of such
[illegible]

He crouched on his horse who muster-
ing strength

Withstood the ordeal and stood up in
the end

"O, hasten to lie down 'neath so
heavy a load!"

Abe turns in the saddle and pauses a
while,

Then continues is taken, he pauses a
while.

When the rider who failed to dis-
mount from his mare

Impatient with waiting now rends
the still air

With a cry like an injun gone clearly
insane,

And wheeling about, dashes off down
the lane.

Thus the horse Abe is riding, in spite
of the weight

That is crushing him downward takes
after his mate.

While clinging astride him, his nerves
all a wreck,

Abe lets drop the reins and seized his
neck.

His cries that he utters are heard to
the sky.

"Stop! Stop! Valiant horseman, or
soon I die!"

Help! from in this devil I'm all out
of breath!

Stop! Help all my comrades! How
near is death!

Yet gallops the faster the man in the
lead

He stands back to Abe to rein in his
steed.

Campus Comment

To the Editor of the [illegible]

Campus [illegible] of late has been a general calling to arms of our various forces of student thought. In [illegible] a [illegible] [illegible] [illegible] about it. It is fairly easy to get the stuff printed. If that is your pet [illegible], let me tell you quite frankly what I think of you. You're [illegible] you're narrow minded [illegible] not progressive. Now! I know what you're saying to yourself. You resent the above statement very bitterly. Ah yes, I have you right where I want you. I want to be your friend to [illegible] you a good turn. Dig, bite, scratch, you can't get out. My friend, D. P. '30, in his last letter in this column said this: "Do not criticize a thing, an institution, or a policy unless your criticism can be constructive. We have certain rules and facilities that we are now using. If they are not adequate, do not blow them up immediately but plan a program of improvement, of constructive criticism." That's it, exactly. But the majority here haven't done it. And that is the very reason why I'm criticizing you.

My chief criticism is a personal one and a basic one. It is this: The great erring tendency of college students is to jump at conclusions in judging everything they come up against. Now the remedy: *Never judge.* You are not in a position to judge. You haven't seen enough of practical every day living. You have never had to struggle. You don't weigh the elements of natural environment, and circumstance.

Some of you are continually judging the policies of this institution [illegible] *Alma Mater* and mine, too. You call this a "hick" college. You say you wonder why you ever came here. You say something is the matter, that you're disgusted, "sore," and bored. You take the professors over the coals. You say this professor is "affected," that one is a "queer duck," this other one wears the most atrocious [illegible] checked suit, a certain other hasn't any common sense, and still another talks only on etymology and syntax. Absurd! The trouble is in yourself. You are near-sighted and abusive. Oh, but I shall relent a little. Many professors *are somewhat eccentric.* But my dear man (woman) and fellow student, a professor's eccentricity is half of the charm in a college education. A professor is not to blame because a bumble bee stung him on the nose some time or other, and ever since then he has had to bear the disfigurement. Nor is he to blame because he gets so enthusiastic that he talks in a high-pitched voice. We students must take into consideration the matter of individual differences and respect the other man. By thus doing, you will get more enjoyment out of college days. If you delve under the surface of one of these so-called "eccentrics," you will find achievement and a fund of wisdom that ought to win your respect.

Monsieur Q. E. D., '30.

"Indeed!" cries our hero, "I cannot
Pause stop!
For I fear me the charger will soon
be on lope!
While I 'neath his body will lie stark
and chill!"
But both of the horses are galloping
still.
The thunder of hoofbeats, the rising
of dust
Proclaim as their motto—"The Old
Mill or Bust!"
Two damsels are strolling just past
the old mill
They pause in their journey to drink
in their fill
Of a sight that's compelling, that
holds them in awe,
With wide-open eye and low-drooping
jaw.
I'm they wait for the races to reach
where they stand
All set for the thrill! See poor
Roller's hand
Is slipping. He's falling! Now back-
ward he whirls
*Our hands with a thud at the feet of
the girls!*
We hail Paul Revere; we honor his
name,
And wot what is that to Abe Roller's
fame?"

The Dopefiend

By Nani Glucas

Because of the article that appeared under this head in the last issue of this paper, there has come to my ears quite a bit of comment. Many people think that the article should not have been printed and that I was a poor sport to be saying such things against my own team. They might be right, but first let me explain my purpose in writing such an article and then they can have a little of my side of the story.

If you have ever been with a team, under a good coach, during half time in a game and your team is behind, and many times even if it is leading, he very rarely praises the team at that time. He usually bawls them out and seems to find fault with everything. He even goes so far as to make personal remarks sometimes that make you as mad as a wet hen. If he sees that one of his best players is not coming up to his standard of what he knows he is capable of doing, that coach will "ride" him all the more and wants him to become more mad than all of the rest. It is human nature that if a person is mad that he will fight harder just to show that he can do what is expected of him and more too. Many a bunch of warriors have gone into the fray, the second half, raging mad and come home with the bacon. Some coaches even go so far as not to allow newspapermen to put very favorable articles in the papers about them so that the boys will try to live down that reputation, by fighting like demons when they are playing. A good example of this was the Boston College-Holy Cross gridiron contest this fall. Boston College was conceded little chance against the strong Crusader eleven when the day of the [illegible] around the Boston College [illegible] ready to tear up the gridiron to show the dopesters that [illegible] wrong. They did, and with the feeling in that mood B[illegible] chances were as slim as a [illegible] Hades. A lot of publicity has the Purple's chances for the that the game was theirs [illegible] Take also Stanford in their [illegible] son contest with Pittsburgh. Smoky City boys marched [illegible] field to a touchdown. Stanford immediately turned around and their way down the field but Tiger's score had set them [illegible] nothing could have stopped Westerners once they were [illegible] with a determination toward [illegible] goal.

The Catamounts were behind [illegible] my idea was to get them [illegible] state that they would go out [illegible] us that they could win and play [illegible] liant basketball. They did just [illegible] by defeating R. P. I. 25-20. There [illegible] no one on this campus that [illegible] see the Cats clinch a contest that [illegible] do, and I want to do all in my power to help them win. I thought that by writing such an article that it might spur them on. It may help and it may be wrong in my psychology. Ideas for harming the team or any of the players had not entered my mind.

Nothing personal was meant in my remarks about "Kiki" Price and Ted Marvin. I will admit that I had [illegible] them pretty heavy as they both have played some good games this season. But neither of them were quite up to their old form and I wanted to see them get there. Price played a great game at Troy the other night and better than he has been playing [illegible] that he can do it. In fact the whole team showed up better than [illegible] and now we can expect more [illegible] that they have hit their stride again. Both men are fine basket ball [illegible] have outstanding abilities on the court, but they just couldn't seem to get started.

I imagine that every player on the team will admit that something had to be done, for they couldn't go on losing. My idea was not to hinder but to help if I could. I would be a fine sport if I didn't want to see my own team win. No. I'm not that type, I don't [illegible] against my own team to win in state Championship contest. There is a lot of hidden sportsmanship around [illegible] some of the people that hollered [illegible]

The great musicians, the ...poets, the great painters, the ...philosophers, and indeed all the ...are akin, it has been the pride ...versities in all times and places ...ever and interpret their imper... gifts to mankind."

...the University of Vermont Prof. ... is endeavoring to build up ...appreciation for and interpreta... of the great masters, often ...students who will go out later ...carry their inspiration into the ...s of the State.

...says again: "There are prac... reasons why lesser music is often ...used instead of greater. Great ...is sometimes not easy, and ...sincere and unpretentious, it ...not enhance the performer's ...sion by seeming harder than ... Even when the notes are ...the interpreter must under... and love the music. But ...he must really know it. I be...that the chief reason why great ...is not performed more often is ...because it is difficult, but because ...not sufficiently known. And the ...composers need only to be ... Once their music is familiar, ...power that no other music can ... Great music is altogether ...lesser music is only half alive. ...is enough dynamite in great ...to blow all other music to bits. ...riginal because it is sincere and ...real, lesser music is always con...ventional, limited, full of platitudes. ...music means something, though ...something that can adequately be ...stated into words."

...familiarize students of the Uni... with the best music of all ages ...m medieval chants and folk ...down to the developments from ...and to the "crazy moderns"—is ...purpose of the course in the his...cal appreciation of music. Every ...possible approach is made to the ... There are illustrations on the ...graph, reproducing piano, and ... and class singing of choral ...operatic music, besides reading ...musical history, biography, and ... Emphasis is placed on famil... with the music itself, knowledge ...of facts being secondary though ...it is somewhat harder ...music than to know only ...schools, movements and ...but it is infinitely more ...and profitable. But one who ...listens to music has missed ... Even in the course in the his...of music those students who can ...(and very few cannot) partici... the music themselves by ... All the other activities of ...department involve per... as well as listening.

...Bennett believes that although ...students may not always ...singers or beautiful voices, ...time and opportunity to de... they are presumably in... and capable of new ideas. ...imaginations have been ...by courses in literature and ... They are (or should ...respond to and interpret ... if guided by a teacher ...with a knowledge and ...classics.

...at the University in ... — piano and organ ...Miss Miriam Marston, and ...Mrs. Elizabeth Bradish ...only to develop necessary ...to inculcate the principles ...technical exercises, so that ...understands what he is ... why he is doing it, and ...also to introduce the student ...possible to great music ...preting.

...es in public school music, ...Miss Marston, are designed ...show normal students how ...children to sing and read ...also to acquaint them with ...h singing, especially simple and beautiful folk songs, which are the natural foundation for appreciation, just as they were also historically the basis of much art music.

REVISED SCHEDULE OF MID-YEAR EXAMINATIONS

All examinations will begin at 9.00 A. M. and 2.00 P. M. and will be held in the Gymnasium unless otherwise announced by the instructor.

Monday, January 16

A. M.—Advanced Mathematics (Eng.); Chemistry 2; Chemistry 3; Chemistry 7; Class Management (T. Tr.); Comp. Anatomy and Physiology; Field Crops; French 113; Home Economics 4; Machine Design; Materials; Mechanical Drawing, Physics 104; Philosophy 1 (Logic); Political Science 109; Zoology 7 (Embryology).

P. M.—Geography (T. Tr.); German 1; German 2; German 4; Home Economics 10; Advanced Pomology.

Tuesday, January 17

A. M.—Economics 14; Educational Measurements; Engineering Construction; Latin 12; Music 3; Political Science 10; Poultry Husbandry 1; Zoology 2; Zoology 6 (Comparative Anatomy).

P. M.—Economics 59; French 12; Greek 0; Home Economics 1; Home Economics (T. Tr.); Italian 1; Mathematics 2; Mathematics 105.

Wednesday, January 18

A. M.—Botany 1; Economics 58; English Methods (T. Tr.); German 109; Greek 106; Journalism; Junior E. E. Lab.; Mathematics 3; Surveying (Senior and Sophomore).

P. M.—Education 3; Geology 3; Greek 108 (New Testament); Physics 103; French 4; French 5.

Thursday, January 19

A. M.—Botany 3; Botany 5; Cytology; Descriptive Geometry; Economics 12; History (T. Tr.); Latin 1; Latin 9; Latin 10; Music 1; Philosophy 108 (Religion); Political Science 112.

P. M.—Botany 13 (H. Ec.); Economics 9; Greek 2; Hygiene (T. Tr.); Latin B; Latin 8; Mathematics 4; Political Science 8; Reinforced Concrete; Soils.

Friday, January 20

A. M.—Mechanics; Dairy 2; Spanish 1; Spanish 2; Spanish 3.

P. M.—Elect. Power Transmission; Horticulture 1; Psychology 1; Psychology 2.

Saturday, January 21

A. M.—Botany 2; Calculus (Eng.); Economics 3 (Public Finance); Education 2; Latin 2; M. E. 4; Shakespere.

P. M.—Children's Literature (T. Tr.); Economics 4 (Marketing); Geology 2; Hydraulics; Methods of Teaching H. Ec.; Physics 1; Zoology 9 (Evolution).

Monday, January 23

A. M.—Alt. Current Engineering; French 1; French 3; History 3.

P. M.—Chemistry 104; Chemistry 9 and 10; Chemistry 15 (Agr. Org.); Direct Current Engineering; Economics 1; Economics 5; Public School Music 1; Steam Engineering Lab.

Tuesday, January 24

A. M.—Botany 11; Bridge Design; Economics 62; Education 7/8; Forest Ecology; Home Economics 16 (Meths. of Teach.); Political Science 106; Psychology 7 (Aesthetics); Senior E. E. Lab; Steam Engineering

P. M.—Chemistry 1; Chemistry 1 (H. Ec.); Chemistry 1 (Agr.); Chemistry 11 and 12; Economics 8; Electrical Design; Geology 1 (T. Tr.); Intr. to Education (T. Tr.); History of Art.

Wednesday, January 25

A. M.—Economics 10; French 8; Home Economics 2; Home Economics 13 (The Family); Latin A; Philosophy 4 (History); Public School Music; Vermont History; Zoology 5

P. M.—Economics 2; English 7 (Am. Literature); Greek 1; Political Science 2; Psychology 4; Reading Methods (T. Tr.).

Thursday, January 26

A. M.—General Electrical Eng.; History 4; Home Economics 7; Home Ec. 21 (Pub. Sch. Nutr.); Math. 1 Algebra) (Arts & Ag.); Math. 1 (Trig.) (Arts & Ag.); Math. 1 (Trig.) (Eng.).

P. M.—Education 1; Electrical Communication; History 1; Mental Hygiene; Psychology 106; Sanitary Engineering.

Friday, January 27

A. M.—Arithmetic (Elementary Ed.); Home Ec. (Meal Prep. & Plan.); Political Science 1; Political Farm Science 104; Types and Breeds of Farm Animals.

P. M.—Military Science; Hygiene (Freshmen).

THE DOPEFIEND

(Continued from page 2)

...coldest court this last attribute possesses this last quality. It is better to come out and say what you want openly rather than to stab a guy when his back is turned.

In the absence of Coach McAvoy, due to illness, "Hank" Dresser has taken charge of the quintet. Just how long they will be under his tutorship is hard to say, but he will take charge until Coach McAvoy returns.

Vermont meets the strong St. Michael's five in their opening State series game Wednesday night, at the gmn. The Purple has a fast quintet this season, but the Green and Gold should triumph. This will be the last basketball game before midyears. The next contest will bring the fast New Hampshire State team here on February 3. This is a new five on the Catamounts' roster, and from late reports they have a dangerous team. This college of late has made quite a bit of athletics and have been turning out some fast teams.

"Hick" Morgan, substitute center for the McAvoy quintet, has been ill this past week, but has somewhat recovered so that he will probably appear in uniform again sometime this week.

Moving Pictures In Use

Moving pictures of various military maneuvers and activities are used in teaching military drill in the Creighton University. These include pictures of the military academy, various gun drills and unit movements. The aim of the pictures is to make the lectures of the instructors clearer and to give the students a glimpse of the practical side of the matter they are studying.

NEWS IN BRIEF

Organ recitals are given on Tuesday and Thursday afternoons, four to five in the Ira Allen Chapel.

Zeta Chi announces the pledging of J. V. Detore '31 of Burlington and P. A. Gates '31 of Springfield, Mass.

At a meeting of the Vermont Independents last Friday evening two Gold Key men, a Secretary and a basketball manager were chosen.

E. O. Bundy '30 and A. G. Franceschi '30 are to fill the places in Gold Key formerly occupied by M. J. Armstrong '30 and H. G. Bruce '30. A. G. Franceschi '30 was also elected to act as Secretary of the Independents.

Basketball plans were discussed and Whitney D. Safford '28 unanimously re-elected to the position of manager.

All Independents including Freshmen are invited and urged to attend these meetings whenever they are announced.

The Military Department has posted a list of the individual rifle scores of the Freshman class. The rating may be determined by subtracting 100 from the aggregate score and those men eligible for trying out on the rifle team are listed separately.

A Japanese basketball team, the Keio University baseball team which recently won the "Japanese world series," will come to the United States this coming spring to play 25 games here with the leading universities.

Columbia University's outstanding achievement in the sport world of 1927 was its sensational rowing triumph at Poughkeepsie. And since the crew was made up almost entirely of sophomores the Morningsiders look forward to enjoying greater success in 1928, comments the N. Y. *Herald Tribune*.

Edith Everett Taylor, still a college student at the Florida State College for Women, has already made a name for herself in the literary world. She has just finished writing "Not Magnolia," a story of college life which has been accepted by New York publishers. Miss Taylor is also the author of a book of poems, The Black Lagoon.

A mountain of telephone subscribers is not the goal — but how to give better service.

What lies beyond the mountains?

MOUNTAINS blocked the trail of the pioneers who opened up the far west. But that impelling urge of the true pioneer — to explore and know the country beyond — spurred them to surmount these barriers.

In office and laboratory, mountainous problems in management, in methods and in scientific research confront the men of the Bell Telephone System. Yet that same pioneering instinct—the urge to better the known and attain the unknown — will carry them through.

Just as it has brought them through the difficulties in achieving nation-wide uniform service, efficiently engineered and wisely administered. To the modern frontiersmen who carry on this work to still greater developments will be given the thrill of adventure that lies in discovery.

"OUR PIONEERING WORK HAS JUST BEGUN"

STUDENTS TO TOUR ORIENT FOR RESEARCH IN MODERN PROBLEMS

Members of Cruise To Be Chosen For Scholarship And Interest In Far Eastern Development

[illegible] about 100 [illegible]

As [illegible] the tour will begin [illegible] and will continue [illegible] The start will [illegible] between June 15 [illegible] between September [illegible] Japan, China, Manchuria and Korea will be visited under the guidance of Mr Close and other [illegible] leaders. The students will for the most part be placed on their own [illegible] and no attempts will be made to dictate their interests [illegible] in the native state of the countries they visit and in each place will be afforded opportunity to pursue their special interests. For instance Japan will be visited on two separate occasions for two week periods. During the first the students will be kept acquainted with how to eat, camp, bathe and get about and on the second visit they will be free to follow their own lines and to explore such aspects of the country and such places as are particularly interest them. This plan will be followed throughout and everything done to make the excursion different from the usual tourists programs.

On board the special ship which will be set aside for use by the group Mr Close will hold informal conferences on the countries to be visited and will have an open and congenial discussion of problems specially interesting educational students.

The whole trip is expected to cost between $[illegible] and $[illegible] This will include transportation, food, lodging, and entertainment. The profit motive is emphatically being omitted Mr Close is organizing the tours merely to provide for the transportation, food, lodging and [illegible] and the group of students who will be needed to pay their own passage for the party. If sufficient number of students travel to Japan from central points, special rates can be had for those portions of the journey.

The [illegible] of the program [illegible] by the belief that a [illegible] for American students to know the orient as they have Europe, has won the support of Glenn Frank, president of the University of Wisconsin, and many educators as well as the [illegible] concerned.

Applications were issued last week [illegible] of Dean Edwards, Dean Wells [illegible] the advisory [illegible] who have agreed to aid Mr Close in selecting the [illegible] Every one [illegible] and forward [illegible] to Mr Close when [illegible] Close will [illegible] will send publications [illegible] and [illegible] pamphlets [illegible] harmony [illegible] the party.

Andrews Speaks On Africa

Mr George F Andrews F R G S of Cambridge England gave a very interesting talk on the French Colonies in North Africa and Egypt [illegible] Tuesday the [illegible] at Social Union [illegible]

Mr Andrews is [illegible] of any other [illegible] in North Africa, having [illegible] several winters, and of a [illegible] on the [illegible] of North Africa.

A number of members of Francis Lovejoy and [illegible] Societies and several members of the faculty were present.

CONFUCIUS

"All things begin in sincerity;
All things end therein."
He ceased. And great tranquility
Fell on Man and his kin.
[illegible]
That voice of infinite sweetness
Rang in a comforting strain.
[illegible]
[illegible]
[illegible]
[illegible]
[illegible]
[illegible]
Within four seas where'er you go
Each man is your brother."
Thus he spoke
Countless years have come and gone
The din of Man has grown
And drowned sometimes that voice well known.
But still it lingers on
In shady nooks of quietness
Where peace and beauty dwell
They add a deeper loveliness
—Those accents clear as a bell.
"All things begin in sincerity;
All things end therein."

Strike For Liberty

At University of Oklahoma, where students have had the number of dates they may make and the dances they may attend dictated to them, more than 2,000 undergraduates are now on strike, demanding that they be allowed dates at any time and that they also be allowed to hold dances until midnight on Fridays and Saturdays.

Restrictions On Frosh Co-eds

One of the requirements of the frosh co-eds at Western Reserve University is that the length of their nails be kept under 1⅝ inches. Pretty sly Sophs, they know fairly well where their welfare comes in. Another provision is that no curling irons can be used to make their hair unnaturally curly. Here the Sophs are trying to keep their boy friends for one more year at least. That's what it seems like.

Gould Heads Senior Cane Committee

C F Castle '28, chairman of Senior Week, announces the appointment of the following senior cane committee: chairman C A Gould, Jr., and Marjorie D Frakesbury. A. A. Valenti of New Bedford, Mass., is to serve on the Senior Prom Committee in the place of Mr Gould.

Roger G Prentiss Jr. and Charles S Medgett have received appointments from the Surgeon General of the United States Army as interns in an army hospital beginning August first. Under two appointments were given forty-two applications for the position throughout the United States. Among 30 were selected from 24 medical R O T C units. The hospital in which they are to serve has not yet been designated but it is possible that they will be stationed at Walter Reed Hospital.

RSITY SQUAD TRIMS T. MICHAEL'S IN FIRST STATE SERIES GAME

amounts Swamp Purple Team 35-19—Wallace Stars With 13 Points

. Michael's suffered their second de- in the state basketball series at the ... of Vermont Wednesday night. ... the final gun went off the score- ... 35-19. In the first half the ... was close, but after a few min- ... the second session the Cats ran ... from the Purple collegians scor- ... points in about the last five ... Cutting, shooting, passing, ... Green and Gold hoopsters showed ... they had plenty of stuff with ... to cop the state bunting again. ... big gun for the Cats was Wal- ... who was high point man for the ... with 13 points. He took Hal- ... place when he was sent to the ... with four personals. Nothing ... seem to stop him and he hooped ... goals from all angles of the ... Wallace is a clever handler of ... ball and Mahoney could not hold ... at all. Time and again he would ... down the floor, cut fast, receive ... pass and drop it through the hoop ... a counter. Prentice was being ... closely guarded so that he was unable ... to break away, so Wallace had to do ... a great part of the scoring. Prentice ... managed to break away to hoop ... baskets, but there were two men ... hanging on his neck the whole eve- ...

Price also found himself and was ... of the stars for the McAvoy outfit ... on the offense and defense. ... Kiki played a great passing game ... and the forwards during the ... contest.

... Marvin showed his worth as ... defense man smearing the Purple's ... with his long arms and passing ... the waiting forwards or his own ... who would carry it down the ... for a score. He pulled them off ... backboard with ease and a couple ... times surprised everyone by drib- ... through nearly the whole of the ... opposing team to sink a step shot.

Marvin got the tap off and after a ... seconds of play Mahoney fouled ... Halligan when he was attempting to ... shoot. "Tim" missed one and scored ... breaking the ice of the game. ... Prentice missed a step shot on a ... dribble down the floor. Capt. Prentice ... knows O'Brien who misses the free ... shot. Prentice was pushed by Lynch ... and dropped the free throw through. ... Lynch missed a free try on a foul by ... Prentice. The referee was strict and ... called everything so the boys found ... it. Prentice dropped two more free ... throws through when Connally makes a ... gentlemanly gesture. Hickey threw up a ... chance to score for the Purple when ... he misses a try on a foul by Esta- ... brook.

Mahoney makes the first point for ... St. Michael's when he drops in a free ... try on a foul by Halligan. So far ... there has been only foul shooting and ... no baskets scored. "Doc" Marvin ... stepped in the first basket with a ... long shot that hesitated but finally ... went in. Price tried to duplicate Mar- ...'s good work with a step shot, but ... it rolled around the rim and off. ... Hickey made it 2 for St. Mike's when ... he dropped in a foul throw, made ... by Estabrook. Prentice made it four ... free throws when he put one in on a ... foul by Lynch. Lynch was trying hard ... to hold Prentice from scoring. Halli- ... fouled Mahoney who missed the ... try. The Purple, it was evident was ... poor in shooting free tries. Price ... missed another shot from the side that ... rolled around and off. They did not ... seem to want to go in for "Kiki." ... Connally missed a long one-hand shot. ... He wasn't playing the game that he ... usually does. "Kiki" dropped a one- ... hand shot in from the side. Mahoney ... dribbled down the floor, but missed ... his shot. Wallace goes in for ... Connally. Wallace missed a long one. ... Connally was sent to the showers when ... he fouled Prentice who missed the try. ... Prentice got O'Brien got in a mixup and ... was fouled from the foul line. Con- ... nally Lynch's place at left guard. ... Wallace tossed in a circus shot from ... the center of the floor. Wallace dupli- ... cated the feat by sinking a long one ... from point McAvoy sent in his ... substitute. On the tap off Pike ... scored a neat basket. Technical foul ... was called on Pike for failure to pass ... within three, but Connally missed it. ... Connally who has been out ill, broke ... loose to put in a nice one-hand ... shot. At this point the Purple had ... been unable to break through the ...

HOCKEY SEXTET HOLDS ORGANIZED PRACTICE

Practice of the hockey team got under way last Tuesday when about twelve men gathered in the Gym for indoor practice. Hockey sticks were given out for the season and shooting of goals was the most important part of the work. A good majority of those present were regulars from last year including Perry, O. T. Wood, Basson, N. C. Wood, "Bob" Lawrence, Winchenbach, Schurman, Denning, and six freshmen who showed up well in caging the puck. Manager Unsworth will announce his complete schedule at an early date. The rink this year will be built on Shaw's lot. Assistant managers Douglas and Hall were present and gave able assistance to Coach Dresser.

HOP WILL ADD THRILLS AFTER AGGIE CONTEST

Manager C. F. Castle of the varsity basketball team announces that there will be a dance after the Connecticut Agricultural College game, Saturday night, February 4. Music will be furnished by a good local orchestra. No admission will be charged the students. No extra charge will be assessed outsiders other than the usual basketball admission fee paid at the door. Dancing will commence immediately after the game is over and continue until half past eleven.

Dancing after the athletic contests is customary in other colleges and there is no reason why it should not also become the custom at this university. Besides having its obvious social advantages for the student body, it furnishes a form of entertainment for the members of the visiting teams if they care to participate. In this respect, Vermont is sadly deficient in the entertainment of its visitors. College athletes have the advantage of meeting more people than does the ordinary undergraduate. Visiting athletes who wish to make new friends while on their trips gladly avail themselves of their opportunities everywhere they go.

If enough interest is shown in this new venture after the Connecticut Agricultural College game, Manager Castle promises that the custom will prevail during the remainder of the season.

HYLAND NAMES MEMBERS TO SERVE ON THE 1929 JUNIOR WEEK COMMITTEE

B. W. Gustafson To Act as Financial Manager and C. C. Lyman as Head of Junior Prom Committee

J. P. Hyland, chairman of Junior Week, announces the following appointment of committees. Bertel W. Gustafson of Proctor has been chosen to fulfill an office that is comparatively new on the campus, that of Financial Manager. Corbin C. Lyman of Middletown Springs is to head the Junior Prom Committee.

Decorations

Catherine B. Bassett, Chairman, E. W. Knapp, F. S. Sulloway, R. E. Young, Miriam J. Idleman, Margaret E. Mahoney, Margaret E. Miller, Lucy E. Morgan, Florence A. Scott, Mildred E. Whitney.

Programs and Favors

W. S. Hall, Chairman, R. M. Averill, F. E. Robbins, A. Elzada Fiske, Dorothy Cottrell, Charlotte E. Cleveland.

Prom Refreshments

J. S. Estabrook, Chairman, W. F. Rogers, G. H. Poole, Bertha A. Hazen, Marian A. Everest.

Junior Week "Peerade"

F. J. O'Neill, Chairman, D. E. Damon, Jr., E. B. F. O'Keefe, Marion Baldwin, Mary C. Freeman.

Junior Banquet

K. L. Price, Chairman, E. G. Fiske, P. B. Hopson, G. B. R. Van Name, Marion W. Backus, Helen E. Prentiss.

Junior Week Program

A. G. Mackay, Chairman, E. M. Goyette, L. C. Morgan, Annette F. Middleton.

Publicity

PAN-HELLENIC COUNCIL ANNOUNCES FIRST DATES FOR SORORITY RUSHING

Four Of The Co-ed Fraternities Are To Have Open House Night On February 3

Pan-Hellenic, both active and alumnæ members, met Tuesday evening in the Marsh Room at the library and made several decisions about rushing. The first "Open House" date is February 3, when four fraternities will be at home to all women of the Freshman class and transfers. Kappa Alpha Theta will receive from four until six at 215 South Prospect Street, Kappa Delta from four until six at 328 Pearl Street, and in the evening, from seven-thirty to nine-thirty, Delta Delta Delta at 328 Pearl Street and Sigma Gamma at 192½ College Street.

Saturday afternoon, from four until six, Pi Beta Phi will hold open house at 247 Pearl Street and Alpha Chi Omega at 328 Pearl Street. Alpha Xi Delta will be at home at 192½ College Street Saturday evening from seven-thirty until nine-thirty.

Pan-Hellenic voted to end neutral period at four o'clock Friday instead of noon on Saturday of the last week of rushing.

NEWS IN BRIEF

The Freshmen will have another opportunity to set up bleachers this afternoon at 4 o'clock in preparation for the game tonight.

At the Gold Key meeting Tuesday night, R. A. Lawrence of Clinton, Mass., was elected president, and L. O. Clayton of Bennington, vice-president for the coming semester.

The preliminary sale of seats for the Greek Club play which will be presented in the cage Friday evening, indicates that all seats will be sold before the performance.

The Health Council has arranged for Miss Fleisher, nutrition worker for the Red Cross, to speak to the college girls Wednesday afternoon at 4 in the Old Chapel. Her subject will be "Diet for the College Girl."

The various college societies are having group pictures taken for the 1929 *Ariel*. The fraternities must make appointments for their pictures before the end of this week.

Pauline Lynch, '28, manager of the women's rifle team, has announced the following tentative list of matches: February 4, University of Utah; February 11, Universities of Kansas, Missouri, South Dakota and Nebraska, February 18, University of Maine, De Pauw Institute and Michigan State College, February 25, Cornell. There are ten other matches pending including one with the U. V. M. men's rifle team.

The Vermont Independents, Friday evening, elected A. G. Franceschi, '30, of Rutland, vice-president of their society, and also chose him for their fourth member of Gold Key. P. P. Harasimowiez of Gardner, Mass., was elected secretary of the Independents.

Iphigenia in Tauris to be Presented Tonight By Greek Club in Gym Cage

Unusual Stage Properties To Serve As Background For Translation Of Euripides Play—Record Audience Forecast By Present Indications

The baseball cage will be transformed tonight into a Greek theater; the steps into the gymnasium will temporarily ascend to the portals of a Greek temple marble to all appearances and flanked with four massive pillars. A grove of trees of the genus commonly found in American homes during the Christmas season will surround the shrine before the sanctuary will stand an altar stained with the blood of human sacrifice. Greek actors, in their traditional garb though they speak the English tongue rather fluently, will move across the stage, the more bellicose among them armed with spears and shields, brought to light only recently in an excellent state of preservation and with helmets, which authorities agree are exact replicas, if not originals. The priestess will pour a libation from a golden goblet of ancient design, though of modern manufacture.

The cause of this metamorphosis of the cage, and the unearthing of so many priceless relics is the Greek Club play, "Iphigenia Among the Taurians," which will be presented tonight at 8:15 o'clock. The inherent interest of Euripides' plays, which appeals to a twentieth century audience quite as much as to the original spectators who witnessed it in 414 B. C., enhanced by Gluck's choruses, given by the Women's Glee Club under the leadership of Prof. H. G. Bennett, and the costumes made under the direction of Miss Mary M. Patrick, combine to make an entertaining, tuneful, and attractive performance. The preliminary sale of seats indicated that the S. R. O. will be out early.

The role of Iphigenia eldest daughter of Agamemnon, king of Argos, who is supposed to have been sacrificed by her father to Artemis at Aulis, is taken by Gladys R. Kone, '29. Orestes, Iphigenia's brother, who is pursued by the Furies for killing his mother, Clytemnestra, who had murdered Agamemnon is played by H. M. Macomber, '30. Professor G. V. Kidder is Pylades, a prince of Phocis, friend of Orestes. Thoas, king of the savage land of Tauris, where the action is laid, is L. S. Turner, '29. The parts of the herdsman and the messenger are taken by H. D. Crandall, '28, and E. H. Powell, '30, respectively. Muriel Richardson, '28, plays the goddess Pallas Athena, the deus ex machina of the play. Eleanor Davison is the leader of the chorus of captive Greek women. Attendants upon Iphigenia are Phoebe Flint, '30, and Susan Howard, '30, and soldiers of Thoas are E. O. Bundy, '30, and H. D. Butterfield, C. W. Knapp, Jr., E. E. Mack, R. E. Tobin, and W. J. Willetts, all '31. Professor J. T. Metcalf has been coaching the actors, and Professor S. E. Bassett has had charge of the properties.

LAWRENCE PRESIDENT OF GOLD KEY SOCIETY

Gold Key met at the Delta Psi House Tuesday evening, January 10 for a consideration of the week's activities and its part in them. It was found upon an outline of the week's work given by President W. R. Kersey that Gold Key had numerous tasks to accomplish. Bleachers for the St. Michaels game went up Wednesday afternoon under its supervision. At the basketball game several Gold Key men acted as ushers for the reserved seat section. The president stated in connection with this that it was a tradition that no Freshmen are allowed above the gym floor. That means that hereafter no Freshmen should be found on the running track.

At the game, it was announced that Freshmen were requested to assist for a few moments with the stage properties of the Greek play "Iphigenia." Thursday afternoon in preparation for its presentation Friday evening in the gym.

Election of officers for the coming half year was completed at this meeting. In accord with the constitution of the society, the president and vice-president hold offices for one semester only.

R. A. Lawrence of Clinton, Mass., was elected president in place of W. R. Kersey. L. O. Clayton of Bennington succeeds C. W. DeRose of Northampton, Mass., as vice-president.

MANAGER ABELL LISTS TWENTY-NINE GAMES ON CATAMOUNTS' SCHEDULE

Baseball Season To Open With Southern Trip March 31—Nearly All Last Year's Regulars Ready For Duty

Arrangements have been completed for another big season in baseball. Manager S. C. Abell announces the schedule which includes a long southern trip and a three-day Massachusetts trip. Practically all the veterans are back again with only "Mickey" Roarke and "Don" Moriarty absent. Vermont has an experienced infield with Prentice, Smith, Conway and Cogswell ready for their old berths. In the garden the Green and Gold will have Price and Macomber who played regular last year. Aronson and Winchenbach on the receiving end with Fogg, Talcott, Shoppe, and Woods on the pitching staff. "Hank" Dresser can look forward to a big year. The schedule is as follows:

SOUTHERN TRIP

Mar.	31	Georgetown at Washington
Apr.	2	Marines at Quantico
	3	Marines at Quantico
	4	Navy at Annapolis
	5	Catholic U. at Washington.
	6	Drexel at Philadelphia
	7	Fordham at New York City
	9	N. Y. U. at New York
	10	St. Johns at Brooklyn
	11	Army at West Point

MASSACHUSETTS TRIP

Apr.	19	Tufts at Medford
	20	Springfield at Springfield
	21	Holy Cross at Worcester.

REGULAR SCHEDULE

Apr.	28	St. Michaels at home
May	5	Clarkson Tech at home
	10	Middlebury at Middlebury
	12	Boston College at home
	15	Norwich at Northfield
	18	Northeastern at home
	19	Open
	22	Dartmouth at Hanover
	25	Springfield at home
	26	Mass. Aggies at home.
	28	Middlebury at home
	30	Dartmouth at home
June	2	Williams at home
	9	Norwich at home
	15	St. Lawrence at home
	16	Alumni at home

LOCAL "Y" BEAT KITTENS IN LONG GAME 31–29

Coach Dresser's Kittens were given their second defeat of the season Wednesday night when they were beaten by the Y. M. C. A. of Burlington by the score 31-29. It was a heartbreaking defeat as the Frosh were on the long end of the score for almost the entire game and the Y. M. C. A. got the deciding point in the fifth over time period. It was a game filled with thrills for the spectators and spills for the players, most of whom are now suffering from floor burns, scratches and other minor injuries. It was the fastest and hardest game that the Freshmen have had to play so far, and they stood up well under the grind.

During the game itself the quintet played good basketball, they passed smoothly and accurately and worked together perfectly and it was only in the last part of the fourth quarter and in the five overtime periods that the strain began to tell and they slumped in their attack and started to show signs of individual working and their passing was wild. If they could have kept up the pace in the last twenty minutes or so the victory would have been clinched.

strong Vermont outfit. Hickey finally managed to get through to put in a step shot and Cassidy followed with another. Wallace missed a free try but a foul by O'Brien also missed when Prentice is called for goaltending. Here the half ended the score standing at 2-0.

In the first few seconds of the last period Barnard was sent out for foul on Hickey making it four. Wallace registered from Connally made a perfect shot. Wallace missed him. Price scored a free shot awarded by O'Brien's foul and Price got mixed up and they both missed the free shots. On a long pass from Marvin Wallace sank a fine basket. The fast passwork of the Cats and tantalizing the team from Wilmoski Connolly feinted Marvin when he attempted to shoot but Price scored two points on the same. the free throw for Wallace missed a point when Connally fouled him. St Mike's lost a fine chance to score under their basket to end Vermont when the ball refused to go in. Here the Purple called time out. Marvin followed a shot tapping it off the backboard and dropping it in for his second basket of the evening. Hickey missed a long one. Prentice takes one off the backboard and twirls it in. O'Brien missed free throw on foul by Price and Kirk missed when O'Brien pushed him. Hickey counted on foul by Estabrook. Prentice hooped a long one. Mahoney missed on a foul by Prentice. Connally dropped in a 2 counter taking it off the backboard on a missed free try.

Price sank a step shot followed by Wallace who sinks a basket and a free throw. The subs go in again. Morgan fouls Connally who misses. Manning tears down the floor to drop a neat step shot. Wallace looped another long one. O'Brien sank a step shot. Welch replaced Mahoney. Wallace sank another long one. Shean got in the next point on a free throw from the foul line.

Distinguished by a favor that places it first

It is a natural pride that Camel feels for its triumphs. Not only did it lead the field shortly after its introduction. It passed steadily on with each succeeding year until today it holds a place in public favor higher than any other smoke ever reached. Camel is supreme with modern smokers.

Obviously, there is a quality here that particular smokers appreciate. It is indeed the myriad qualities of perfection that are to be found in the choicest tobaccos grown. And the art of Nature is aided by a blending that unfolds each delicate taste and fragrance.

You will more than like Camels. You will find a solace in them every smoking hour. Their mildness and mellowness are an endless pleasure.

"Have a Camel!"

Dean Meader and Dean Jenne

Dr Jenne's [illegible] was answered by a neat appearing maid in white cap and apron. She greeted me kindly and ushered me into the presence of the Dean. Dr Jenne a tall well, quite elderly gentleman gave me a very formal smile and invited me to sit down. After making myself comfortable I asked the doctor what he considered the medical profession as a vocation for the young man of today and whether he considered it to be the proper [illegible] for assured success.

"Why no. I know it is not overcrowded" answered the Dean. "In fact I believe the opportunities in the medical field in the next five years will be greater than ever before especially for a general practitioner.

"Let me show you why this is true. Three scores years ago there were some 9 000 doctors being graduated each year. Then there was a number due to the war the number dropped to some 4 [illegible] a year. In about five years all these doctors of forty five years ago will be dropping from practice and there will be many vacant places. Not only this but there has been an increase of population of from 30 to 35 per cent. This population compared with the 20 per cent increase in the number of doctors should lend an [illegible] feel for the coming M D's.

"It is my opinion that the general practitioner's field is the best for the doctor of today. According to statistics 65 per cent of the doctors are engaged in that occupation. This of course tends to boost the general doctor of great demand. I feel quite sure that in a very few years many towns will have to give the newly [illegible] a yearly salary. And of course there is always the public [illegible] positions to be filled. Yes" and here the doctor gave me an encouraging smile "I can see many opportunities and much success before the young medical student of today."

The Dean inquired if I had any more questions. Although I could think of plenty I knew that his time was very valuable and so I thanked him for the interview and departed feeling that I had never met a more kindly and gracious gentleman.

Andrews Speaks

Mr George F Andrews F R G S of Cambridge spoke on the French Colonial empire in North Africa on Friday January 6 at 10:30 in South College No. 24. Mr Andrews is the author of several articles on North Africa in which he spent several winters and of a monograph on the confraternities of North Africa.

Many members of the faculty and major students of History Economics and Political Science were present.

At the last meeting of the Philosophs Club held two weeks ago the question of eugenics was discussed. The influence of heredity and environment were talked over as well as the various metaphysical phases of the question.

The next meeting of the club will be held after mid years.

Success in College Athletics is Due to Individual Interest Says Aldinger

By Merle Duval, '30

"Any young man can make a success in college athletics if he takes an interest in it," says Dr. A. K. Aldinger, Director of Athletics at the University of Vermont. Dr. Aldinger has been instructing in college athletics for over 37 years. Generations of students have passed under his eye. He went on, "I find that a student will begin to work as soon as he develops a liking for a particular line of sports, and not before."

Asking him what he considered the essentials for a beginner, Dr. Aldinger said:

"The mastering of fundamentals comes first. It cannot be stressed too much. We try to teach this fact to the incoming freshmen each year, for after they master fundamentals they take an interest in what they do because it comes easier to them. Then they get fascinated in the game and they work for self-improvement. In athletics just the same as in anything else, the first essentials are the hardest and most disliked. They are the methods by which co-ordination of the brain and muscles can be obtained. The student is supposed to learn these methods and at the same time develop alertness in executing commands, be they commands given by his own will or through his will by another person. He must learn to control his body, every nerve and muscle.

"Following the actual learning of fundamentals comes the practising of what you have learned. This is more enjoyable and encouraging. A man becomes aware of a 'sense of the game' and expends his nervous energy more freely. He develops keen judgment and learns to see things quickly associating time and distance with them."

In response to the question as to whether it is possible to tell who will make good the doctor replied,

"No. We cannot tell. Many times we are surprised by a student we had least expected, showing marked ability. However, we can tell potential ability, but all men with potential ability do not take extensive interest in athletics. Every man, however, should interest himself in some sport and should be able to do it well. Football, track, basketball are seldom ever played after a man leaves college but the physical training and the practise of alert thinking gained from them can be made use of in later life."

"Sonny" Simpson, who has been called Vermont's one-man track team, set a new State record for the javelin throw with 178 feet. He started to develop himself before he came to college by doing heavy work on his father's farm and assiduously practising physical exercises. Dr. Aldinger stated that Simpson worked for improvement from his Freshman year, until when he graduated he was considered one of Vermont's best athletes.

Simpson was twice captain of the Vermont track team. He received the award of the varsity "V" four times in this sport. He graduated last June leaving behind a record that will long be remembered. He is one of the most versatile men that has ever represented the Green and Gold on the field of battle, not only in track but also in football, having played end for Vermont for two years. He was considered one of the best ends in this state and was known especially for his tackling and ability to break through the opposing defense and spoil many plays.

Real success is a goal ahead to be striven for, a dream brought to reality, a race in which there is only one participant. The qualities for success are pluck, blindness and deafness to discouragements, a perceptive power of the will, and clean living and clean thinking. The habit of being successful in small undertakings will lead a man to expect and gain success in large undertakings. City-bred youth or country-bred youth are both alike in one respect. If each has an interest in gaining a definite goal and each has instilled into his character the qualities for success, the obstacles ahead will disappear, and both will succeed, be it in college athletics or just in life.

Saturday has been set as the last opportunity for tryouts for the Men's Glee Club.

Prof. Bennett, of the Music Department, announces that there is yet room for a few more singers, but if these would secure a position in the club they must either phone Mr. Bennett, 1139-J, by Saturday or attend the Men's Glee Club rehearsal in the Music Building at seven o'clock on Friday night. The club is going to Boston on February 24 to take part in the New England Glee Club Contest.

Sunday, January 8, Prof. Evan Thomas spoke before the Discussion Club of the College Street Church on the English Prayer-Book Controversy.

WINTER SPORTS SEASON TO OPEN IN FEBRUARY WITH INTER-FRAT MEET

February 4th and 11th Set For First Meet—Teams to Compete Against Norwich, Dartmouth and at Rutland State Meet

An ambitious schedule has been planned by the Outing Club and will be carried out under the direction of the Physical Education Department during January and February.

The club plans to hold the annual Interfraternity Meet on two separate dates in February, on the 4th three skill races will be held namely, a 100 yard dash, a slalom (proficiency) race and a five mile cross country race, and on the 11th there will be two snowshoe races, a 100 yard dash and a two mile cross country run.

If present plans work out, a team will represent U. V. M. at Norwich on February 18 and possibly at the State Meet later at Rutland. Also, if the annual Winter Carnival is held at Fort Ethan Allen this year, the program will include this meet, probably about the 25th of February.

Separation of the events of the Interfraternity Meet into two days is proposed to encourage the men to enter all events rather than a few, thus, promoting an all around ability which is especially desirable for good teams.

The cross country courses in the meet are being laid out and marked now and will be advertised in the near future so that anyone interested may go over them at any time. It is also to be noted that the slalom race is to replace the old-time obstacle and potato races. It is run off by putting up a series of flags on a hillside and requiring the participant to go over a certain course thus marked out against time. The flags are so placed that the race depends largely upon a man's ability to turn sharp corners quickly and easily. A race of this type requires some skill and is becoming increasingly popular at the Intercollegiate Meets.

A cup will be awarded in the interfraternity meet to the highest scorer and future teams will be chosen from the high point men.

The Outing Club has received an invitation to compete at Dartmouth College and if sufficient interest is shown at the Interfraternity Meet a team will be sent there. Another activity that it is hoped may be developed is skating and a team will eventually be selected in this sport as well, as interest is shown.

Saturday evening, January 7, Leon W. Dean, of the English Department, spoke before the Ethan Allen Club on "Trials of a Short-story Writer."

COAL STRIKE AROUSES STUDENT SYMPATHY

(By New Student Service)

More and more almost despite themselves, Colorado's educational institutions are being drawn into active participation in the coal strike controversy. President George Norlin, of the state university, has tried valiantly to keep his institution out of the fight but he has met with small success. He has already removed from the staff of the campus paper *The Silver and Gold* Robert Berkov, city editor and columnist who was about to make some comment on the strike. What Berkov was going to say only the president knows because he has the original copy which never was printed. If President Norlin proposes to remove all commentators, he will be unable to overlook Professor E. D. Brainbill of the political science department who told a meeting of a hundred students, professors, and churchmen that Colorado was evidencing "a semi-civilized attitude" toward the strikers and that the I. W. W. is the hope of the hopeless. No attempt was made to interfere with this meeting, but students who have attended strikers' meetings have been warned that they are liable to arrest as agitators.

Berkov's punishment, and the unfriendliness of "peace officers" toward students who have been trying to learn something of the issues of the controversy has been doing much to build up a general student sympathy for the strikers, the various Colorado college papers indicate.

The Newman Club will receive Holy Communion at the eight o'clock mass at the Cathedral of the Immaculate Conception next Sunday. Breakfast will be served to the members of the club in the Cathedral High School gymnasium, following the mass.

Enjoys Can of Tobacco 16 Years Old

Waxahachie, Texas
May 18, 1926

Larus & Bro. Co.
Richmond, Va.
Gentlemen:

The agent while going through his plunder stored in our baggage room came across a can of your tobacco, and account of his not using a pipe he made me a present of this tobacco.

You will note the revenue stamp and your memo which was inclosed. The tobacco was put up in 1910, sixteen years ago. But it was in good shape, of remarkable flavor, and was greatly enjoyed by me.

Thought you would be interested in knowing how your tobacco hold out in these days of fast living.

Yours very truly,

NCIENT GREEK DRAMA SCORES SUCCESS WHEN PRESENTED BY SOCIETY

rst Hellenic Play at Vermont Is Well Received by Large Audience

PROFESSOR ARTHUR B. MYRICK
(Of the *Weekly*)

Greek play ever presented the State of Vermont was staged ening, January 13, at the The play, "Iphigenia Taurians," was given in following Gilbert Murray's with choruses from opera, "Iphigenie," sung by of the Women's Glee Club versity. The play was put members of Eta Sigma Phi, Greek society of the University, h has the ninth chapter of the established in the country, and to be located east of the Ohio Weeks had been put upon production, which was sponsored Greek department of the Uni- Prof J. T. Metcalf, associate of psychology, was in charge coaching. Prof. H. G. Bennett, of the music department, was in of the singing. Miss Mary M instructor in elementary ed- was in charge of costuming. play, which was superbly cast, staged and presented, took before an audience of seating capacity in the baseball cage, where Greek temple, altar and other prop- had been erected, and which itself admirably to the needs of occasion.

Argument of the Play

Iphigenia, firstborn of Agamemnon and Clytemnestra, was thought to been sacrificed before the fleet sailed for Troy, but Artemis had saved and had carried her away to be priestess in the barbarian land Tauria. After the capture of Troy, Agamemnon, on his return home, had been slain by the faithless Clytemnestra. This deed was avenged by Orestes who at the command of Apollo killed his mother. For this he is driven mad by the Furies until at last the oracle of Apollo promises his cure if he will go to Tauria and bring back the image of Artemis. It is known that the Taurian sacrifice to Artemis every foreigner who enters their land. The action of the play begins after Orestes and his friend Pylades have arrived in Tauria.

Iphigenia appears from the temple and relates a dream which has told her that her brother Orestes is dead. While she has gone back into the temple to prepare for funeral rites for him, Orestes and Pylades enter carefully and after reconnoitering, agree to hide on the seashore until night shall make it easier to steal the image. The chorus enters and assists Iphigenia in the funeral rites. At this moment a herdsman enters and tells Iphigenia that two strangers have been captured and will be brought to her for sacrifice. Guards bring in Orestes and Pylades in fetters. In a skilfully arranged scene brother and sister recognize each other. They plan to steal the image and escape by fooling King Thoas with a tale of pollution upon the image and consequently upon the land which can only be removed by sacrifices performed on the shore. By this stratagem they succeed in leaving and boarding the ship of Greece, but as they are leaving the harbor the waves drive the ship back to the shore. Thoas is about to send guards to capture it, when Athena appears above the temple and commands him to allow the ship to sail and also to send the women of Tauris back to Greece. The play closes with an ode of triumph.

Members of the Cast

Iphigenia, eldest daughter of Agamemnon, King of Argos, supposed to have been sacrificed by her father to Artemis at Aulis, taken by Gladys R. Kone, '29, Hartford, Conn. Orestes, Iphigenia's brother, who is pursued by the Furies for killing his mother, Clytemnestra, who had murdered Agamemnon, was played by H. M. Mallory, '30, of Burlington. Professor Edgar Fodder was Pylades, a prince of Phocis and friend of Orestes. Thoas, king of the savage land of Tauris, where the action is laid, was L. S. Turner, '28, of Hyde Park. The parts of the

(Continued on page 3)

BURNING HOMER TROTS BREAK CO-EDS' HEARTS

Just before dawn on February 1 fire trucks were heard as they dashed, clangingly along Williston Road. In a few minutes they roared back, and the sleepy co-eds at University Terrace groaned again and turned over a second time. Why wouldn't they let a chap have eight hours sleep?

At seven forty-five, just when everyone was thinking about getting up for an eight o'clock class, the news arrived: "Big fire! McAuliffe's block burned down last night!!"

"What burned?"

"McAuliffe's burn—"

"Not the place where they sell the trots!"

"Sure did. Say, kids, McAuliffe's"

"Darn the luck! They never give a fellow a chance!"

"McAuliffe's is burned down!"

"—and it's the only place where they sell Homer trots!"

MAUDE ROYDEN SPEAKS TO ASSEMBLED COEDS ABOUT BIBLE PASSAGES

Women Find Eminent English Preacher Accords with Majority About the Scriptures

Miss Royden, a well-known English preacher and lecturer, spoke at the University gymnasium just before midyears. A large group of students attended and several took advantage of the opportunity to question Miss Royden about her personal beliefs and also about her interpretation of certain passages in the Bible.

Those who expected to hear a radical sermon on the modern youth were disappointed. Miss Royden spoke in a pleasing manner about the scriptures and quoted many familiar passages to illustrate her points. Throughout her address Miss Royden spoke in a frank, matter of fact, fashion which could not help but give her listeners material for thought.

An article in the *Good Housekeeping* for January, 1928, says in part: "Maude Royden is the daughter of the late Sir Thomas Royden, and received her education at Cheltanham Ladies' College, and at Lady Margaret Hall, Oxford, and later became a lecturer in English Literature to the Oxford University Extension Delegacy. For several years she did settlement work in Liverpool and in the country parish of Luffenham, and she became deeply interested in the economic, ethical, and religious aspects of the Women's Movement serving on the executive committee of the National Union of the Women's Suffrage Society, and editing the "Common Cause." From 1917 to 1920 she was assistant preacher at the City Temple, and at that time, working with Dr. Percy Dearmer, she founded the Fellowship Services at Kensington, which have since been transferred to the Guildhouse. She is, without question, the best-known woman preacher in the world, and her gifts as a writer are as great as her gifts as a speaker."

SORORITIES INSTITUTE OPEN HOUSE EVENINGS

On Wednesday afternoon Mortar Board conducted a meeting for Freshman women and eligible transfers at which talks on rushing were given by Helen Stevens, Jeanette Hays, and Della Martin. The Pan Hellenic rules for rushing were read and explained, dates of national foundings were given, and the different pins were shown. The closed system of rushing and bidding was explained in detail. In previous years many Freshmen have been found to whom rushing was merely a name. By these talks Mortar Board hopes to convey to all freshmen a clear idea of rushing as it is here at Vermont.

The dates of the Open Houses are as follows: Thursday evening, February 2, from 7:30 to 9:30, Delta Delta Delta at the Athena Club, 228 Pearl St. and Sigma Gamma at 192½ College St.

Friday afternoon, February 3, from 4 to 6, Kappa Alpha Theta at 235 South Prospect St. and Kappa Delta at 328 Pearl St.

Saturday afternoon from 4 to 6, Phi Beta Phi at 347 South Union St., Alpha Xi Delta at 192½ College St., and Alpha Chi Omega at 328 Pearl St.

SIX FROM OUTING CLUB TO REPRESENT VERMONT AT RUTLAND CARNIVAL

Team Leaves Today to Take Part in Annual Two-Day Winter Tournament—Entered in Several Events

As a result of the Outing Club try outs held last Saturday, the following team was picked to represent Vermont at the Rutland Winter Carnival: H. G. Adams '30, R. M. Bragg '30, C. S. Buxton '31, L. G. Cowles '29, and O. T. Wood '28. This team will leave for Rutland on Friday and will spend Friday and Saturday nights there as guests of the Rutland Exchange Ski Club who are sponsoring the Carnival. Traveling expenses will be paid by the Outing Club.

Of the five men going to the meet three will take part in the ski jumping. These men are Adams, Bragg and Buxton. Adams is an excellent jumper as well as a fast man in the dashes. Bragg is probably the all around man on the team, being a fine jumper and equally good in both the dashes and cross country race. He is the one who made Vermont's score at Placid and should account for some points on Saturday. Buxton, the other ski jumper, is a new man, who shows much promise. Of the other two members of the team, Cowles is an expert ski runner and one of the best cross country men on the team. O. T. Wood needs no introduction because of his work on the track team. He is rapidly learning how to control his skiis and with his track training should place in the cross country race.

If this team were only to meet Norwich and Middlebury, it would stand an excellent chance of winning the handsome silver loving cup now held by Middlebury College. But with such experienced teams as Dartmouth and New Hampshire in the meet, Vermont's chances of securing first or second place are slim. These latter colleges not only have paid coaches but a college vitally interested in Winter Sports from which to pick their teams. However, Vermont should make a good showing despite obvious disadvantages. Furthermore, the team will secure valuable experience which can be used to advantage in the Green Mountain Conference meet to be held at Norwich on February 17 and 18.

MOORE WILL REQUEST JUDGING STANDARDS

Coach Moore has released the final debating schedule, except for dates with the three other Vermont colleges. The Vermont team this year has taken on a very ambitious schedule of ten meets, including Harvard, M. I. T., Dartmouth and Bates.

The coach has been working on a plan whereby the judging of the contests will be more perfect and fair. Unlike sports, there are no set rules to determine the better team in debating and judges are required to use their own opinion, which is liable to be biased.

Believing that there may be some remedy Professor Moore has corresponded with the Eastern Intercollegiate Debating League and the Mid West Triangular League to find out about organizing some standard rules of judging in Vermont debates and inter-scholastic debating.

Middlebury, Norwich and St. Michael's are to be included in Vermont's debating schedule and are the only three teams, dates and subjects have not actually been assigned. The home contests included Dartmouth on February 4 on the subject "Al Smith for President"; M. A. C. March 5 on the "Independence of the Philippine Islands," Springfield March 6 on "Censorship," and Clark March 7.

On April 16 Vermont will debate Colby away on the question "Is Democracy a Failure?" The team will debate M. I. T. at Boston on the "Educational Requirements of Voters," April 25 and journey to Bates May 8 to debate on Democracy again.

DANCE AFTER GAME

Dancing will be held after the basketball game Saturday night. No extra charge.

PROF. GILBERT ACCEPTS McGILL PROFESSORSHIP

Professor Albert H. Gilbert, who has been on the University faculty for the past ten years as Assistant Professor of Botany and Associate Professor of Plant Pathology for the Vermont Experiment Station, will resign his duties here July 1. Prof. Gilbert leaves Vermont to accept a position in the same kind of work at McDonald College of Agriculture at McGill University.

As a member of the State Department of Agriculture Professor Gilbert did much work on certified seed potatoes and has specialized along these lines.

After being granted his B.S. degree at Vermont in 1914 he attended Wisconsin where he secured his M.S. degree. He was then appointed as assistant professor of Botany at University of Kentucky. During the World War Professor Gilbert was on the board of examiners for plant importations in Washington D. C.

Professor Gilbert will continue his teaching at McGill and will also carry on scientific research and administrative work.

UPPERCLASSMEN BUSY RECORDING OPINIONS ON ARIEL QUESTIONNAIRES

All Snapshots, Grinds, and Questionnaires Due Wednesday, February 8—Box Provided for Ariel in Old Mill Corridor

Senior and Junior Class questionnaires are now being distributed among the members of '28 and '29. R. W. Whitcomb is in charge of those of the entire Senior Class, and R. E. Young, and Charlotte Cleveland those of the Junior Class. These questionnaires have annually been sent out by the managing staff of the *Ariel* in an effort to obtain a consensus of opinion from the members of the Junior Class as to the most popular, the best looking, the most likely to succeed, the best athlete of both the male and female factions. Of course, the antitheses are also given to the above enumerations and herein lies the humor, although perhaps not intentional.

Business Manager A. R. Birchard announces that the questionnaires properly filled out, must be in by the middle of next week, Wednesday, February 8. A box for their reception will be placed in the Old Mill before that date. They may be handed in to any one of those in charge, if they are not put in the box.

All the Junior photographs yet out must be in by February 8 as well as all of the grinds. Group pictures should be taken by that time if space for them in the *Ariel* is not already set aside. Any extra fraternity space or group space must be ordered before the above date.

Those who wish to be sure of getting an *Ariel* should notify the Circulation Manager Kenneth L. Price or one of his assistants at once. To insure against waste a number, approximately equal to the subscribed list only, will be ordered. Birchard states that the last proof will be read and returned to the printers before Easter vacation. Furthermore, barring accidents he promises that the 1928 *Ariel* will be on the campus between May 10 and May 15.

Dr. Forbes and Dr. Nay of Burlington will accompany Dean Jenne to Chicago where they will attend the meeting of the National Board of Licience Censoris.

After College What?

The American college has failed in relating the student's education to the life he is going to lead after leaving school, more than in any other direction, Dean Herbert Hawkes of Columbia University declared in a recent report. He also states that faculty members are working on studies of the situation to accomplish this end.

Campus Comment

To the Editor of the CYNIC.

Sir:

The idea of giving the Greek play originated in the minds of a few of the undergraduate members of Eta Sigma Phi, and every member of the Club went to work to put it across. As the plans developed many members of the faculty put their services at the disposal of the Club. The administrative personnel, from President Bailey to Mr. Tully and Mr. Frank Curtis and their helpers were always ready with their assistance. The Military Department helped; so did Gold Key. The fraternities, both men's and women's, bought tickets in considerable numbers. Citizens of Burlington, at least a hundred of them, saved their Christmas trees for the Tauric grove, and several of them supplied properties, one even going into the country to cut an ox-whip for the herdsman. In this connection it should be mentioned that the sword of King Thoas—which everyone who saw it will admit was a masterpiece—was turned on the University lathe by a student in the mechanical engineering department. And then, students, faculty, townspeople, came out on a rainy evening to pack the Greek theatre in the Cage, and inspire the members of the cast to do their best. The result is generally admitted to have been a rather notable success. Why? Because everybody got together and helped.

Since the Greek department was especially interested, I want to thank all whose united efforts resulted in a performance which has gratified the friends of the University, and to suggest that we treat the next job that comes along—perhaps it may be to secure a sorely-needed students' common building—in the same way: everybody getting together and doing his bit to put it across.

Yours truly,
SAMUEL E. BASSETT.

TENNIS SCHEDULE WILL INCLUDE EIGHT MATCHES

U.S.S. Saratoga

A Marvel of National Defense

From this 2½-acre deck, Uncle Sam's battle planes can now leap into action—sure of a landing place on their return, though a thousand miles from shore.

This marvel of national defense was accomplished—and duplicated—when the airplane carrier, U.S.S. Saratoga, and her sister ship, U.S.S. Lexington, were completely electrified.

In each, four General Electric turbine-generators deliver, combined, 180,000 horsepower to the propellers—enough to drive the ship at 33 knots (39 miles an hour)—enough to furnish light and power for a city of half a million people.

The design and construction of the electric equipment for the U. S. S. Saratoga and the U.S.S. Lexington, to which college-trained men contributed in great measure, exemplify the part General Electric plays in promoting the welfare of the nation.

We were struck by the ... and the clearness of the voices ... extremely intelligent decla... of the lines, which is not an ... fact when one considers the ... length of many of the speeches ... highly allusive and figurative ... of the language. Apart ... control and discipline of the ... cast seems noteworthy for ... and richness of the voices. ... of especial note in this re... was Miss Gladys Kone who filled ... of Iphigenia, and Herrick ... in that of Orestes. Miss ... possesses a full rich voice, flexi... and mellow, and in the color and ... of its tones well adapted ... mood. Her lines were ... with an understanding rare ... productions. Mr. Macomber ... a deep rich voice, fertile in ... and exceedingly well ... Both these actors show con... promise.

... a cast it would be difficult ... any for special mention. ... large audience was very ... impressed by the sincerity and more than adequacy of Miss Kone's acting, and also by the... grace of her gestures and the statu... esque ease of her pose. Several of her longer speeches as well as those of Mr. Macomber were punctuated by bursts of spontaneous applause.

The honors of the production were shared in our opinion by Mr. Macomber, whose well conceived rendering of a difficult rôle, the matricide Orestes, left but little to be desired. Mr. Macomber's acting was sure and de... and aveided the exaggeration to which such a part might easily lend itself. The part of Thoas, the bluff and che... eric King of the Taurians, was ca... ried well by Mr. Lloyd Turner, who brought to his rôle another full an... sonorous voice, and a feeling for vigor... ous action and movement that well expressed the monarch's gusty nature. He deserves much praise. Mr. Kid... der as Pylades, friend of Orestes, and Mr. Crandall as a herdsman worthily sustained their rôles. We were much impressed by Mr. Crandall's success in giving the suggestion of life and movements to his long descriptive speech in the beginning of the play, always a very trying situation to carry off in the tragedy. We could with great pleasure have seen much more of Mr. Turner and Mr. Crandall. Miss Eleanor Davison as leader of the chorus was charming and clear voiced, and Mr. Henry Powell convincing in the excitement of the guard messenger.

The appearance of Athena in an upper stage above the temple as the god, or shall we say, the goddess, out of the machine, provided a fine dramatic moment. Miss Richardson as Athena was a beautiful and stately figure as she restrained the headstrong Thoas. Miss Richardson's voice and diction were beautifully clear as the others.

Without its handsome setting, the play would have lost much in effect. The back of the stage represented the temple of the goddess Artemis, flanked on either side by a grove of pines. In the center of the stage stood the sacrificial altar of the goddess. The colonaded portico of the temple, the great bronze doors, perspective effects and the like were admirably conceived and especially executed for the performance.

It would be impossible to conclude without voicing our hearty congratulations to Professor J. T. Metcalf, as the director of the production. His skilful training was evident again and again in the diction and the action, and his artistic sense in the well balanced groupings on the stage. To Professor Bennett is likewise due praise for the beautiful choruses from Gluck's "Iphigenie," rendered with smoothness and certainty by members of the Women's Glee Club in the chorus of captive Greek women. Those of us who saw Purcell's "Dido and Aeneas" last year were not surprised to find the same soft and beautiful color effects in the costumes executed under the direction of Miss Patrick. Soft greens in the chorus, the beautiful white costumes of Iphigenia and Athena, the gorgeous scarlet black and gold of King Thoas, moved effectively indeed in the clear and limpid lighting against the cleverly wrought temple set forming the background. Noteworthy was the archaelogical correctness of the soldier's costumes. Praise is also due to the brilliant and ingenious lighting effects devised by Professor Buchanan.

Much credit is also due to the large number of persons who directly or indirectly, by their generous assistance, contributed to the final success of the play. Many of the students, among whom the Gold Key society, contributed time and effort, and Troop 5 of the Boy Scouts their services as ushers. Congratulations also are due to Miss Elizabeth White and Mr. Crandall, members of the Greek Club, who made independently their choice of the play.

We can but hope that next year will witness a repetition of this well-merited success.

KING THOAS

RIFLEMEN FIRE OPENING MATCH WITH NORWICH

When the University of Vermont rifle team counts up the final score against Norwich this week end the results will be those of the first match of the New England Inter-Collegiate League of the National Rifle Association. At present the Vermont squad consists of twenty men, including five veterans of past years with Capt. Clayton Brown at the head. The final selection for the team will take place at the end of the week. Norwich, whose team won the National title last year boasts six veterans in a promising line-up.

The Vermont rifle team's schedule calls for other matches in the N. E. Intercollegiate League of the National Rifle Association, for matches in the Corps Area Intercollegiate League, and for many matches with individual colleges. The complete schedule is as follows:

New England Intercollegiate League: Week ending February 4, Norwich; February 11, Williams, M. I. T.; February 18, Amherst; February 25, Worcester Poly.; March 3, Boston; March 10, Dartmouth.

Other matches: Week ending February 11, U. of W. Va., U. of Pittsburg, Northwestern U.; February 18, Kemper Military School, Ohio State. February 25, Iowa State, Delaware. U. of California, Carnegie Inst. Tech. Conn. Aggie College; March 3, North Dakota, Dennison U., Utah Agr. College, Mass. Inst. Tech., Oregon Agr.; March 10, Syracuse U., Mass. Agr College, Davidson College, Nebraska U., R. I. State; March 17, Kansas State College, Ala. Poly. Inst., U. of Pittsburg; March 24, Mass. A. and M., Georgetown U., U. of Nevada, Johns Hopkins, W. Mo. College, Coe College, Lehigh U.; March 31, Depaw U., Gettysburg U., Culver Military Academy. April 14, Okla. A. and M., Hearst Trophy, Va. Poly. Inst.; April 21, U. of Cincinnati, Ga. School Tech.

PHILIPS ELLIOT TALKS AT VERMONT Y BANQUET

The Vermont Christian Association held a five course banquet at the city Y. M. C. A. rooms, Thursday evening, February 2. Mr. Phillips Elliot, Secretary of the New England Division of the Student Y M C A's, came from his headquarters in Boston, Mass. to be present at this gathering of young men. He was the after-dinner speaker with a message the reality and appeal of which reached the minds of all present. As a result a spirit of wholesome good fellowship was attained. There were over 50 who attended the banquet. "Dad" Clark, state secretary, and other Association officials were among those present.

Wandering Course

"Honest hoboing" is an aid in the choice of a life work, says Dr. Edwin A. Lee, director of vocational education at the University of California. He advocates a system similar to the "wandering year" adopted by German scholars, during which the student travels and works his way about, gaining information about himself and about the world.

Undergraduate Criticisms

By News Bureau Service

Football having passed off the boards curricular reform is again engaging student attention in several colleges. The undergraduate reforms have taken full notice of the criticisms overflowing current periodicals and have adopted a vigorous style in attacking their campus problems.

The University of Washington Daily after publishing a series of student criticisms of the university and its work has summarized by blaming the faculty for the lack of intellectual stimulus and study encouragement prevalent on the campus. The main drawback it conceives as the appalling over-emphasis on activities for activity's sake that insistence on activities at Washington which results in the average collegian striving to be on activity bound from Freshman days to the end of college. The faculty is blamed for having failed to eliminate superfluous activities and the *Daily* presents the problem as one for the teachers to solve.

President C. D. Gray of Bates College has appointed a student committee of twelve to examine the curriculum and suggest modifications and changes. These students will carry on the work begun by a Senior committee last year. Three other groups are working on the same problem, one composed of teachers, another of alumni, and a third, serving as advisory of outsiders.

Students in the College for Women at Western Reserve University have selected representatives to serve as their agents in presenting to the faculty complaints against the curriculum. They are members of the student council, who will work in conjunction with a faculty committee, to whom they will make recommendations after passing on student complaints.

Sailing eastward from Montreal June 22, 1928 a group of college men and women will set out to "do" Europe in a campus-like atmosphere of good fellowship under the auspices of "College Humor." ¶ Down the mighty St. Lawrence we'll go, and across the Atlantic—with a college dance band on board to furnish music. There'll be deck sports and bridge tournaments and masquerades to make the ocean voyage a memorable "house party at sea." ¶ Then Europe! We'll see it under the guidance of the Art Crafts Guild Travel Bureau, originators of the justly famed Collegiate Tours. They will make all reservations, handle all details, furnish experienced couriers and guides. We just go along and enjoy ourselves! We sail homeward July 14 from Cherbourg on the famous Canadien Pacific steamship "Empress of Australia," arriving at Quebec July 21. ¶ Membership in the tour is necessarily limited. If you are interested, mail coupon below for full information. Tour Europe next summer with a "campus crowd" under the auspices of "College Humor" Magazine.

Mail this Coupon for full details.

DARTMOUTH STUDENTS CRITICIZE COURSES

(*By New Student Service*)

The Dartmouth college *Dartmouth* has begun the publication of student comment on courses, tabulated from a questionnaire issued in December. The results, says the daily, "are intended for a supplement to the college catalogue, rather than any sophmoric attempt at 'constructive criticism'." As such they may be worthwhile to those who are considering several courses as their fifth subjects. Perhaps.

"The criticisms...are a mirror of student opinion, and consequently can have no great claim to erudition or authority."

Students also were asked to comment on their professors, and the *Dartmouth* had intended to publish these remarks. However, it does not do so, offering in explanation:

"The answers returned were so contradictory that it would have taken a liar greater than Ananias and a diplomat more suave than Metternich to have evolved anything worthwhile from the mass of comments. We can not presume to have the authority to pillory, needlessly and questionably, the members of the teaching profession. The *Dartmouth* would have degenerated into a mere gossip bulletin."

Fraternity Parties Restricted

Washington and Jefferson College has recently issued a set of regulations governing the conduct of all fraternity parties. Lists of young ladies who will be invited to college functions are required to be submitted to the President's office for his approval before invitations may be issued. At least two married couples to act as chaperones must be present. No men may stay at the house over the week-end on which the party is given, and all girls must be out of the house by three P M the following Sunday.

Solid Geometry will be offered the second semester. The course will probably be given at 10:30 on Monday, Wednesday and Friday. Those intending to take this course please notify G. H. Nicholson at once, bringing hour plans, as another hour might possibly be arranged

PHYSICAL ED. CLASSES START MINOR SPORTS

Dr. A. K. Aldinger announces the following elective courses for the ensuing semester in the Department of Physical Education: basketball; fencing; track and winter sports.

The purpose of these courses is threefold. In the first place, every man is expected to go out for that sport in which he has the most interest. The scope of the choice is such that it should not be difficult for any student to select something in which he may find a real interest.

Furthermore a large variety of sports is offered so that he may be satisfied with a selection from them. And lastly, the abilities of the student can be quickly brought out and possible material for future varsity teams may be thus developed.

Cricket Champs

Haverford is the Intercollegiate champion of the United States in cricket. It is the only college where the game is still recognized as a major sport.

25 Per Cent Cribbers

According to experiments carried on at the University of Minnesota there is reason to believe that one student out of every four cheats in examinations. About 400 students were questioned with the understanding that any information which they might give would in no way affect their grades and it was then found out that 18 per cent of the students of the University of Minnesota were partly cheating their way through and they are of the opinion that when the final investigations are completed the percentage will have increased to twenty-five.

The Holland Tunnel

Where do young college men get in a large industrial organization? Have they opportunity to exercise creative talent? Is individual work recognized?

* * *

THE HOLLAND TUNNEL is one of engineering's greatest triumphs, because—

—it is twice the size of any tunnel ever bored beneath the bed of the Hudson River.

—it is over a mile and a half long.

—it is designed for automobiles to use. Because they generate poisonous carbon monoxide gas, motor cars create an entirely new need for tunnel ventilation. Yet even when the Holland Tunnel is filled to capacity and 2000 motor cars are passing through it in each direction, the air is fresh and pure.

This is a type of engineering undertaking with which young men in an organization of the size of Westinghouse frequently are brought into intimate contact. Opportunities to work on the stupendous, the never-before-undertaken, are not rare here. Hence young men of capacity, of enterprise, of genius, find much to challenge their imaginations and abilities.

* * *

A battery of 56 fans driven by Westinghouse motors pump fresh air into, and foul air out of, the Holland Tunnel. Twenty-eight more Westinghouse-motored fans are a reserve. Westinghouse planned the lighting system in the tunnel; also the system of remote control.

Westinghouse

President Sanders the Saviour of University During Its First Years

[illegible] After much difficulty and many petitions concerning the University was organized with its [illegible] Under the energetic and guiding hand of Dr Sanders the machinery of the newly organized university was set in motion

[illegible] the single exception of a few years for teachers he did all of the teaching alone the first three years and afterwards until 1800 with a salary [illegible] the entire faculty The sum of $1000 received [illegible] As the students increased he often employed six eight and even ten hours

President Sanders resigned on May 14 1816 Thus ended the term of the first president of the University of Vermont—a man of tremendous energy and powers and a man who devoted his whole time religiously to the task of establishing a firm foundation for this University

He moved to New York City where he spent the summer and fall of 1814 for his health Afterwards he moved back to his old home—the home of his parents and grandparents in Medfield Mass Here he filled an pastorate as well to the First Congregational Church Dr Sanders was a member of the convention that revised the constitution of Massachusetts and was very active in social work of the town He died very suddenly on October 18, 1850, saddened by the religious controversy which broke out in his Church and by the death of his wife just ten weeks before his own death. Thus closed the life of the man who was the saviour of the University a man who was reluctant ed by the thought of establishing a university out of the wilderness a man who lived that the University of Vermont might live.

NEWS IN BRIEF

[illegible]

[illegible]

[illegible]

The Senior debate schedule for the second semester is posted with the first debate scheduled for February 10

Since president J G Medlar of the German Club has transferred to Harvard a meeting will have to be held for the election of a successor. This meeting will be held as soon as the committee can arrange for the election

As a result of election of officers for the Eastern Section of the American Dairy Science Association, Professor M H. Campbell of the Agricultural Department was elected vice-chairman Prof. Fuller of New Hampshire was chairman in 1927 and in 1926 Prof Ellenberger of Vermont held this office

COURT CONTESTS LOST BY THREE FRATERNITIES

The interfraternity [illegible] season opened the other night with three games On court 1 the Independents [illegible] a hard fought game from the A T O five 26-25 Rosenthal and Baker starred for the Independents On court 2 the Owls took a spirited game from the Phi Mu Delts who were last year's champs When the final whistle blew the score stood 24-1 Stevens was the shining light for the winners with

HARVARD AND YENCHING EXCHANGE GRADUATES

By Special Correspondence

Harvard University and Yenching University in Peking, China are forming a union of graduate study by which an institute of Chinese studies will be added to both institutions and an exchange of graduate students established The institute will be controlled jointly by the two universities involved and the trustees of the estate of Charles M Hall in control of the Sunday a million plus aluminum interests is endowing the new educational effort

The main purpose of the institute said Dr J Leighton Stuart president of Yenching is to promote both in China and America graduate study and research in the various branches of Chinese culture with the primary objective of encouraging the Chinese to study their own highly developed civilization in the light of occidental methods of research and to interpret this civilization to the West

Harvard will add courses in Chinese language and literature as well as various aspects of Sinology studied through English or other European languages

Student Hockers Pinched

An amusing story on two students at the University of Washington is at present going the rounds at that institution When their checks failed to arrive from home the two set out to pawn a revolver to help tide them over the financial crisis As one of the students was presenting the gun for inspection at a loan counter the gallery a policeman passed by and believing it to be a hold up, escorted the two to a police station After a confirmation of their explanation, however the two happy youths were released

Students applying for loans from the University's loan funds should call at the Comptroller's office on Thursday or Friday to execute the necessary notes in connection with such loans

Finds Right Tobacco for the Tropics

October 6, 1926

Larus & Bro. Co.
Richmond, Va., U. S. A.
Gentlemen:

Most all well-known tobaccos smoke well in a cold or temperate climate, but very few in a tropical climate. They are mostly too heavy, don't seem to be blended right—at least that is my opinion gained from practical experience

However, Edgeworth is the same in any climate. Again that is my opinion gained by practical experience.

I cannot get the same pleasure out of any brand of tobacco that I can out of Edgeworth, and I have tried many—and paid fancy prices, too. It costs real money to smoke imported tobaccos here: the import duty is very high.

Anyway, we cannot have everything we would like in these countries, so we hold on to all the little pleasures possible Now you know why I smoke Edgeworth.

Yours respectfully,
R. C. Rigg
Cartagena, Columbia, S. A.

OCATS ARE CLAWED BY CATAMOUNTS IN FAST BATTLE 30-24

monters, Playing True to Form, Defeat New Hampshire Quintet in Close Game

...e of the most exciting hoop ...s of the season the Vermont ...ntains trimmed the New Hamp... Wildcats 30-24. During the en... ...est the teams ran neck and ... until the scoreboard read 13-11 ... half time whistle. A scare was ... the Vermont fans during the ... few minutes of play when the ... and White scored several times ... succession. But after a time... the Catamounts came back strong ... managed to forge ahead slow but ..., so that at the end of the game ... led a six point margin.

...ptain Bridge was the first man ... the ice, scoring from the ... line. It was some time ... either team scored, but Patch

"TIMMY" HALLIGAN
Fast forward who showed up well in Saturday night's game

dropped in a long one for the Wildcats. "Kiki" Price counted a free try for Vermont's first score. New Hampshire came back strong and dropped a two floor goals in rapid succession. Price scored again from the foul line.

Catamounts Throw Scare

The fans went wild and pleaded with the Cats to get started. Gaunt counted another point for the Granite Staters from the free-throw line. Then the McAvoyites seemed to take a life. Marvin came down to score one from the floor, followed by one by Halligan. Prentice then fooled the fans and dropped in a difficult shot from the side, thus tieing the score. Price netted a long one in, but Clement scored for New Hampshire, making it 9 to all. Price added another counter and Prentice added a floor basket. Bridge scored from the foul line as the gun went off, leaving it 15-11 in favor of the Cats.

The Second Half

It was nearly three minutes before either team was able to score in the second half when Prentice and Halligan started scoring them from all angles. The Wildcats started to resort to long shots which helped them little. Marvin who was the main cog in the offense, was removed a la foul ... and was replaced by Morgan. ... rest of the game the players ... crowd on their feet by ... plays, but the McAvoyites ... at the final gun.

The Morgan-Prentice combination ... to perfection and together ... points. The Cats hit their ... this game and played the ... of the season. The whole ... like a machine and looked ... "Doc" Marvin played a ... game and besides ... pretty long shot. Patch was ... for the Granite Staters. Although the smallest man on the ... was one of the fastest and a ... to hold down.

NEW CUT SYSTEM FOR MILITARY BEING TRIED

Supplementary class in Military Training will be held from now on every Saturday morning at 7:30. Every man who has unexcused absences left over from last semester will be required to attend these classes until his absences are made up. Any one failing to do so will receive an additional unexcused absence for each offense. The War Department requires that the full 96 hours be completed, so that no marks can be turned in until the requirement is fulfilled. These supplementary classes are being held so that students may not leave their makeups until their Senior year.

From now on Freshmen will meet every Monday morning at 7:30 for training in military hygiene and first aid, on Wednesday for drill, and on Friday for inspection.

CRIMSON SEXTET HOLD VERMONT PUCK TEAM TO SCORELESS TIE

The Vermont hockey sextet opened the season last Friday in an important game with the soldier boys from Norwich which ended in a scoreless tie. The outcome may be considered as a hopeful forecast for the Vermonters, as they were pitted against a hard-fighting team who have already showed themselves a formidable aggregation in their earlier games. The Catamounts were under serious disadvantage, having had only three nights of practice and only one real scrimmage. The Grahamites held the advantage in the first period and nothing but hard scrapping kept them from sewing up the game; but in the last two periods they were entirely outclassed. The puck was in the Crimson territory most of the time and Fullerton, the goalee for the opponents, was kept busy warding off the fast shots of "Woodie" and "Shurm"

Graham, the N. U. left defense, started "roughing it up" with the result that he was helped off the ice with a broken ankle. At times the play was fast and furious, but the game was slowed up considerably by the lack of side boards so "bank shots" could not be used.

"Hank" Dresser's men displayed considerable inaccuracy in passing but give every evidence of producing a fast and skillful club before the season terminates. The dribbling of Ellis made him the outstanding player for the visitors, but his work was duplicated and added to by the speed and dexterity of "Squeedunk" Schurman from both offensive and defensive points of view.

The fast Middlebury sextet are coming here next Wednesday fresh from their 4 to 1 victory over the Army. The Catamounts are out for blood and the Black Panthers will need all their luck.

The line-up of the Vermont-Norwich game is as follows:

Fullerton, g. ..... g., Perry
Youngesman, r. d. ..... r. d., Seagal
Graham, l. d. ..... l. d., Winchenbach
Waining, c. ..... c., Wood
Ellis, l. w. ..... l. w., Bossow
Johnson, r. w. ..... r. w., Schurman

Substitutions: Asheraft for Seagal; Howard for Bossow, Norwich; Hourin for Graham.

DANCE SATURDAY EVE ADDS SPIRIT TO GAME

In order to entertain the members of visiting basketball teams and to improve the social aspects of our athletic contests, the Athletic Department has inaugurated dancing after the games for the students and visitors. The first of these dances was held in the Gymnasium Saturday evening, following the game with the Connecticut Agricultural College.

The large number who stayed for the dance testifies to the success of the entertainment. Clark's Merry Music Makers played until eleven o'clock, at which time the merry making ended. The chaperones were Dr. and Mrs. Aldinger and Coach and Mrs. McAvoy. Until now the athletic department has not entered into the social phases of college life on the hill, but feeling that much enjoyment might be gained by such dances both for the visitors and students, and also that more spirit might be aroused by the promise of additional fun, this form of entertainment has been introduced.

SOPHOMORE HOP TAKES PLACE FRIDAY EVE AT BURLINGTON HIGH GYM.

The First Formal Function After Mid-years Is To Be Held February 10 — Lechnyr's New Vermonters to Play

The annual Sophomore Hop will be held in the Burlington High School Gymnasium on February 10. This will be the first formal dance after mid-years and promises well to be a gala affair under the efficient direction of the chairman, R. G. Hawley, and a corps of able assistants.

The dance was scheduled in the social calendar as taking place on February 3. A change in dates was necessitated due to the conflict with the New Hampshire State game of the same evening. The Burlington High School gymnasium was obtained for the function because a University lecture is to be held in the gymnasium on February 10. Many are obviously thankful for this move because of the superior dancing surface of the High School floor.

For an orchestra, Lechnyr's New Vermonters have been secured. Thus, good music is assured due to the former successful performances of that orchestra. Dancing will commence at 9 P.M. and finish at 1 A.M. The chaperones for the dance are as follows: Lieutenant and Mrs. J. D. Fredericks, Mr. and Mrs. L. W. Dean, Mr. and Mrs. G. V. Kidder. Novel decorations, programs, and favors are promised by the committees in charge. Admission is four dollars.

LOCAL EXTENSION SERVICE TESTS FLOOD DEPOSIT

Samples of fine sandy flood deposit sent to the University of Vermont Agricultural Extension Service showed from an analysis only about one-half of one percent organic matter to a depth of six inches. Many blow-sand soils, recognized as being low in productivity, contain one percent or more of organic matter when they are well cared for.

Organic material and fine particles of soil contain the highest percent of soil fertility and are the materials most easily carried away by flood water. Professor E. Van Alstine, Extension Service Specialist in such matters, says that the result has been that where the current was swift this most valuable soil material has been carried away. In places where the current is slow enough this fine rich soil is deposited. As a result some meadows have been made less fertile than they were before; while others, where the flood waters spread out and the current slackened, have benefited by the most fertile part of the hills and upstream farms that has been left as a rich deposit upon them. In view of the rapid current, incident to the Vermont flood, it is probable that most of the fine soil has been carried into Lake Champlain or other equally inaccessible places. A set of samples received by the State Extention Service, shows this very well. The deposit which was made when the water was at its height was a medium sand and contained only a little over one-third of one percent organic matter. The surface layer to a depth of about three-fourths of an inch, deposited when there was less current, was somewhat finer a fine sand and contained one and two fifths percent of organic matter.

The Rutgers swimming team, which last year went undefeated, opened its schedule when it met Delaware.

NOTICE JUNIORS!

Picture of the class of 1929 will be taken Wednesday afternoon at 1.30, February 8, in front of the Library.

NOTICE SOPHOMORES!

Sophomore class picture will be taken Friday afternoon, February 10, in front of the Library.

SUNDAY VESPER SERVICE LED BY NOTED BISHOP

The Right Reverend John Thompson Dallas, bishop of New Hampshire, was the preacher at the vesper service in the Ira Allen Chapel on Sunday. He maintained his reputation of being an unusual orator, and he had an inspiring message. He was graduated from Yale University in 1904 and from Union Theological Seminary, N. Y. in 1908. In the same year he was ordained a deacon and in 1909 he was ordained a priest.

He was a chaplain in the Taft School, Watertown, Connecticut, in 1910, was associate headmaster of the same school in 1912, did religious work in training camps during the war in 1917, was curate of St. John's Church in Waterbury, Connecticut 1918 to 1920, was rector of St. Thomas Church in Hanover, N. H. 1920 to 1925, was vicar of St. Paul's Cathedral in Boston in 1925, and was consecrated bishop of New Hampshire on May 4, 1926.

INTERFRATERNITY WINTER SPORTS MEET WILL BE HELD THIS SATURDAY

To Start On Back Campus At 1.30 And Ski Events Will Finish Program At Centennial Field

The second annual inter-fraternity winter sports meet will be held on Saturday, February 11, at 1.30 P.M. The meet will begin on the back campus, where the first five events will be run off. The last two events will take place on Centennial Field, since there is no hill on the campus which is suited for the ski proficiency. The events in the order in which they will be run off are as follows:

100 yard snowshoe dash
150 yard ski dash
3 man snowshoe relay (each man 220 yards).
3 man ski relay (each man 220 yards)
2 mile snowshoe cross country
Ski proficiency
5 mile ski cross country

All events except the relays will count 5, 3, 2, and 1. The relays will count 8, 5, 3, and 1. To have its points count toward the Student Senate Loving Cup, won last year by the Lambda Iota fraternity, every fraternity must have at least one entry in five of the seven events. In case it is necessary to cancel any events this minimum of five events will be changed. Also any entrant in a snowshoe event must use snowshoes which are at least twelve inches wide and weigh at least two and three-quarters pounds. This latter rule was in force at the Lake Placid Winter Carnival, and is designed to prevent the use of snowshoes which are not much larger than an ordinary shoe.

The cross country courses are both marked out, so that anyone can go over them before the meet. The ski proficiency, as was stated in the previous Cynic, merely consists of executing a series of rapid turns down the side of a hill. It is run between poles, and any man who knocks down a pole must go back and go through the poles which he knocked down. This event will be run against time. The ski proficiency is a very interesting event to watch, especially when on the steep hill just back of Centennial Field. Furthermore it is an excellent test of a man's ability to handle skis.

The meet will be run under the auspices of the Outing Club, and the officials of this organization announce that the team to represent Vermont at the Green Mountain Conference Meet at Norwich will be selected on the basis of showing in the Interfraternity Meet. It is earnestly hoped that there will be a large turnout on Saturday, so that a team can be selected which will win the State Championship in winter sports.

2 Year Limit

A two year college playing rule is the latest proposal in the wave of attempted athletic reform which is being experienced by our various educational institutions. This proposition has been offered for adoption at Oberlin College by its president as the first move in a nation wide reform.

VERMONTERS REGISTER SPECTACULAR WIN OVER CONNECTICUT AGGIEMEN

Final Gun Goes Off With Catamounts on Long End of 45-28 Score—Fast, Clean Play Features Game

The Catamount hoopsters turned in a spectacular victory over Connecticut Agricultural College Saturday night at the U. V. M. Gym. The score was 45-28. The victory is the fourth successive one for the Green and Gold and makes the Vermonters record for the season to date six wins and four losses.

The Vermont team continued the sensational playing it displayed on the previous evening against New Hampshire State and looks more like the speedy 1926-1927 outfit. Every one of the starting five men played superball. Doc Marvin at center played an excellent game. He gave his teammates the tap-off and then dropped back to give one of the best exhibitions of defensive playing of his basketball career. "Red" Estabrook

CAPTAIN PRENTICE
Star point getter for Catamounts who was high point man in week-end games

played "heads up" every minute and limited his man to one basket. Captain Prentice was a bulwark of strength on the offense. He led both teams in scoring and directed the team play to perfection. "Tim" Halligan was runner-up in scoring and one of the fastest men on the court. He was constantly breaking loose for baskets as well as starring on the defense. "Kiki" Price had his shooting eye with him scoring four baskets early in the first half and giving his teammates a lead which the Aggies tried in vain to overcome.

The game was a fast one and much clever basketball was displayed. Conn. Aggies had a veteran team, but missed Schofield, whom many will remember as one of the smartest players seen here last year. Vermont's defense was too much for the Nutmeggers and nearly every shot they took was long, while, on the other hand, Vermont time and time again penetrated the five-man defense used by the Aggies so successively against other teams. Vermont scored a large percentage of shots and with the same accuracy will be a hard team to defeat during the remainder of the season.

Vermont broke the ice early and with the aid of Price's four baskets started to draw away from the Aggies near the beginning of the fray. Eddy kept the Connecticut boys in the running for a while with two twin counters and four foul goals in four trys. When Vermont had a comfortable margin Coach McAvoy sent in his second-string men. The score at the end of the first half was 21 to 15. The regulars were back at the beginning of the last half and then the Prentice-Halligan combination sank nine baskets with an occasional score from the other members of the team. Schildgen of the Aggies was sent to the showers in the middle of this half on account of fouls, but the damage had already been done. The Vermont seconds finished the game, which ended with a beautiful shot by Williams for Connecticut.

Ryan and Eddy were the high scorers for the visitors, with nine and eight points respectively. Ryan's

FALSE REPORTS ROUSE ADVOCATES OF HONOR

(By New Student Service)

At a mass meeting hurriedly called in answer to widespread publicity given the supposed breakdown of the honor system, students and faculty members at Hunter College declared the news reports exaggerated, decided the system is effective, and proclaimed their faith in it. The honor system, at Hunter is near the end of its trial five years, and its supporters have been fearful that the adverse publicity may cause its collapse.

Professor Henrietta Prentiss, one of the faculty members on the honor board, would try offenders, an [illegible] termed "committed suicide" and a soul for the preservation and improvement of the honor system." She believes the "overwhelming majority" of the students are honest, not merely the 95 reported in the press.

Professor Prentiss said of general cheating: "It is the interesting work of high school methods into college, when we used to have skull [illegible] show the distinction between the real [illegible] expected of college women and the personality allowed to high school people. Suppression of individuality as punishing to self-expression has been the universal punishment of a man in jail to prevent mutiny. We must do away as unsupervised punishment against dishonesty and we must find a system commensurate to better than mere removal of examinations."

The most effective weapon against dishonesty, Professor Prentiss declared, is the force of public opinion. The students were in vastly unequal with this view. They have asked the university to take no action before the forthcoming examinations and intend to speak out if the five-year trial period is at an end.

The only perfect grade in the mid year exams in calculus at New York University this year was awarded to Isaac Myers Negro, a football player and a quarter-miler on the track team.

Comment in the columns of the American press and especially in the effect that Rhodes fellows had not lived up to their privileges and were not rendering to society the high type of service expected from men who had received such special training, a survey shows that the fellows, who are all young men, rank high in such fields of endeavor as law, science, literature, education, and commercial activity.

TWO UNIVERSITIES BAR PAGE, SOCIALISTIC LEADER

(By New Student Service)

[illegible] of West Virginia [illegible] share its distinction of having barred Kirby Page, editor of *The World Tomorrow*, from its campus, with Oregon State Agricultural College, at Corvallis. [illegible] West Coast of the West."

[illegible] West Virginia [illegible] proposed [illegible] in the lecture of a well-known [illegible] Mr. Page, having spoken at the University of Oregon, journeyed 45 miles to the neighboring state college and found that the three meetings at which he previously had been asked to speak had been [illegible].

Students at the latter college were informed that the talks would not be made. Action was taken by the convocation committee, of which Col. George William Moses, head of the Military department, is an influential member. Initial action, it is reported, came from William J. Kerr, president of the College. As Mr. Page explained the action on the basis of information given him by sympathizers at the college:

"Some days ago President Kerr called up the chairman of the advisory committee in charge of the program and referred to my West Virginia University lecture which was barred by military officials last month. He further told the chairman that I was a radical socialist, and although he did not flatly refuse me the right to speak, he seemed very nervous about the consequences if it were allowed. The president's suggestions to the advisory chairman were, as nearly as I could discover, 'you handle the matter.'"

Oregon State College's great respect for the government is reputed to be somewhat due to the heavy federal subsidies it receives. Although ostensibly primarily an agricultural college, it is best known for its brightly polished armaments, its fearless assault on agricultural pests, and its discreet silence on all matters controversial, which policy is fortified by faculty censorship of the student daily.

Vermonters Register Spectacular Win Over Connecticut Aggiemen

(Continued from page 1)

Clever floor work was noticeable throughout the game. "Cheese" Eddy played a good game at center but was at a disadvantage since he had to jump against a much taller man. In the second half "Lukah" Ellovich played center to give the Aggies the benefit of his height and Eddy moved into a forward position. "Pop" Williams was the outstanding Aggie. He is a two hundred pounder and a flash on his feet. He worked hard but "Bunny" Prentice was too much for him.

NEWS IN BRIEF

[illegible] Sigma, a [illegible] fraternity composed of men enrolled in the Two-Year Education Department, entertained the Freshman members of the department Saturday afternoon at the Commodore Club House. "Little girl" costumes were worn and the juvenile atmosphere was further carried out in stunts and entertainments. Miss Mary Maude Patrick and Miss Nellie S. Alexander patronesses, were guests of Lyndon Sigma.

Mr. Dean attended the Federated Church banquet of men and boys at Ludlow, recently. The following morning he spoke at the Black River Academy.

Last Wednesday, Rev. H. S. Mitchell of the local Unitarian Church preached in the Chapel.

W. H. Crockett presided at the centennary exercises of the birth of George S. Edmunds. They were held February 1 under the auspices of the Burlington Historical Society. The principal address was given by W. Austin, a member of the board of trustees.

The annual meeting of County Agriculturists is being held this week at Morrill Hall.

Glee Club is having intensive rehearsals in preparation for Boston trip, February 24. More than twenty members are now being coached by the members of the music department. A picture of the group will appear in the *Boston Herald*, February 12.

There are several vacancies in the choir and any new candidates interested should get in touch with Professor Bennett immediately. A compensation is given for each service and rehearsal.

The picture of the Band will be taken Friday, February 10, at four o'clock. All members must report in uniform with white shirts and black ties.

SENIOR PICTURES

All Seniors who desire to purchase a picture of the class taken by McAllister should get in touch with L. C. Levin at once. Pictures are to be sold for one dollar.

James E. Picken, captain of Dartmouth's intercollegiate championship team, writes in the last issue of *Boys' Life*: "There has been a great deal of discussion amongst different schools of psychologists as to whether there is any mental transfer in training. I am not one to claim that the speed with which one thinks in basketball is transferred over into other fields. I realize that speed in thinking in basketball and that in mathematics are two distinct abilities and have nothing in common. Still I think that if one acquires the habit of quick thinking which is developed in basketball, it is distinctly beneficial when you get out into the world and have to face situations which demand instant decision." He previously stated in the article that "short, quick shots and smart passing—those were the two qualities on which my basketball ability was grounded."

FRANK [illegible]

As a preliminary to the Vermont-Norwich game here on March 1, the Sutherland Club Juniors of Proctor will meet Burlington Junior High School team. Since both these aggregations claim the junior state title, a bitter contest is anticipated. The game will be particularly interesting to Vermont students, because the Proctorites are coached by Archie Post, '27, and the Burlington Juniors by Nate Burtsell, '24.

Not a single hatless sheik is to be found among forty men comprising the current season's football squad of the New York University, the team that is battling its way to the highest honors among the football teams of the east. An iron-clad rule—"Keep your hat on!"—has been issued by Chick Meehan, who as coach for the N. Y. U. men, has been largely responsible for the remarkable football history made by that organization.

Male students have told Dr. John R. Hart, a chaplain at one of our large universities, that "they no longer look to girls for inspiration and guidance. The girls don't care very much any more about the conventions." In an address to the Council of Church Boards of Education, the chaplain stated that much of the blame for drinking by college students could be attributed to the lack of refining influence among girls of good family with whom college men associate.

Attention, history students! Lady Astor recently suggested that the reason why Christopher Columbus did not stay in America was because he had not brought his wife along with him.

It did not cost those students at Yale who attended the Junior Prom last night as much as the event cost those students who attended the Prom last year. In past years, it was found, many students did not attend because of the expense.

Norwich freshmen are now engrossed in the "rushing" conducted by the Norwich fraternities.

Students at Harvard College who will this year compete for the Pasteur Medal, given annually to the winner of a special debating contest, will debate on the subject: "Resolved, That Prime Minister Briand's proposal to the United States Government to outlaw war should be accepted."

Kittens Win One

In the preliminaries the Kittens defeated the Community Boys 2[illegible] It was a hot contest especially [illegible] second half and with one minute to play the score stood at 19 all. Ben Tobin and Bolton dropped [illegible] pretty shots for the Dresserites, clinching the game. Dragoon starred for the Community Boys.

(By New Student Service)

Representatives from eighteen Canadian universities gathered at Toronto during the Christmas holidays for the first conference of the National Federation of Canadian University Students. The new organization passed on numerous projects, from the election of a debate team to represent the union in international contests to steps toward obtaining for the students of Canada reduced fares for railroads. A proposal for exchange scholarships between the institutions in the federation met with approval.

517 Jobs by "Y" at Iowa State

LITERARY PUBLICATION TO APPEAR THIS WEEK

The third issue of the *Vermont Literary Magazine* will appear this week with the following table of contents

"Through the Thicket" Merta E Munro

Etchings

Play, "The Yellow Flash" Alexander White

"Tuscarola" ..... John N Meissner

"To Create Love" Lewis A Leary Jr

"Rag Dolls" ..... Janice M Goodrich

"Activities As a Part of College Life" ..... Della E Martin

"Odelette" ..... Merle Duval

"Aunt Fan Expresses Her Opinions" Frances M Dimick

"Futility" ..... Janice M Goodrich

"The Church and Modern Youth" Clifford L Morse

Everyone is again urged to submit material to the magazine for ensuing issues. Elections to the board for the coming year will be based in part on the literary contributions handed in.

STUDENT GOVERNMENT ACKNOWLEDGES DEFEAT

(By New Student Service)

Student government at the University of Wisconsin is no more. The faculty has accepted the self-deposed student senate's recommendation that its charter be considered defunct, and thereby has seconded the opinion of student leaders that there is no reason for maintaining an unimportant and unnecessary institution. Since 1916 the men's student senate has been the highest council in student affairs. In October, the members voted to disband, after deciding that their actual powers were few and of little import. Self-government will be administered by five administrative boards. Centralization will be had by the union of the chairmen of these five bodies in the supervision of student elections. Otherwise, there will be no central board of control.

UPSILON TAU ALPHA CHOOSES NEW LEADERS

Upsilon Tau Alpha a society to which all girls in the Two Year Education Department are eligible upon enrollment, recently met to elect officers from the class of 1931 who will serve during the balance of this college year and next year also.

The officers-elect are the following: Dorothy E Hudson of Marshfield president, Louise M Brown of St Johnsbury 1st vice-president, Frances E Illingworth of Bartonsville, 2nd vice-president, Mary H Ancier of Walpole, N H recording secretary, Madeline N Roberts of Alburg, treasurer, Florence A Frechette of Richmond, corresponding secretary.

Are Sororities Scholastic?

(By New Student Service)

Deciding that sororities are social and not scholastic organizations, the inter-sorority council of New York State College for Teachers has abolished all scholarship requirements heretofore requisite to election. Beginning immediately, any girl may be elected regardless of her scholastic average. This change in rules has the support of President A. R. Brubacher, who thinks "the main purpose of sororities is to provide the best housing conditions and the best possible social life." Scholarship is not expected to suffer, according to the council president. On the contrary, she believes it is one of the duties of the living organizations to try to bolster poor scholarship among its members after election. The university president thinks that the wholesome home life of the sorority may do much to rehabilitate the scholarship of persons who have heretofore been outside the pale. Scholarship requirements have long been the chief of bugaboos that haunt the college fraternities.

New Scotch Anthem—"The Best Things in Life are Free"

MEN'S SPRING STYLES INCLUDE DOTTED TIES

(By Intercollegiate News Service)

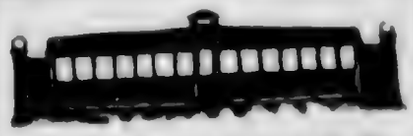
Indications are that university students this spring will not only dress in better taste, but will exercise more influence on men's fashions in general than at any time previous, according to the *Daily News Record*, the only daily business and style publication in the men's apparel field.

One of the most striking developments in university style due for a general spread during the coming season is the camel's hair polo coat which already has registered in appreciable numbers in the East. These loose, light warm garments generally worn double-breasted, have caught the students' fancy and are evidently ideally suited to the temperament and style of the college man.

The two-button jacket which for several years past has been threatening to usurp the position of the three-button model, will make a tremendous gain among the students this spring, the style authorities predict, basing their prophecy on statistics gathered at colleges and universities in all parts of the country.

Those who do not wear the two-button jacket, the observers say, will probably roll their three-button jackets to the middle button in an effort to gain the effect of the newer style.

Soft, conservatively patterned and colored worsteds will largely replace the "wild" patterns and ice-cream checkers of previous years, according to evidence obtainable in advance, while trousers will show a noticeable narrowing at the cuff, and will be worn from an inch to half an inch shorter.



Students have shown their preference for plain black, white and tan golf stockings and these sand color hose will be seen on the style leaders of widely separated colleges since the spread of university style ideas has been unusually rapid during the past year.

A similar university style development which is expected to reach a peak during the coming spring is the white silk or cashmere square with black dots, a type of square which had considerable popularity five years ago and was then largely forgotten.

Dotted cravats also will challenge the popularity of the small figured foulards and Spitalfields. Cheaper silks, designs in small geometrical patterns which at present hold sway jointly with the old reliable striped red cravats which have been in continual favor with university men longer than any other article of attire.

In shoes the trend of student buying has been shown by statistics to be away from the blunt-toed models and in the direction of a neater, narrower "custom" last with more rounded toe. Black has attained and is expected to hold, a small advantage over brown as the color of shoes for general college wear.

RWICH PROVES EASY OR VERMONT QUINTET IN ONE-SIDED GAME

roon Team Outclassed By atamounts In State Contest At Northfield

a one-sided affair, Vermont ...d Norwich 40-15 at Northfield, ...day night. The cadets were great... and except for a brief ... the second session, they were ... the running at all. This made ... Green and Gold's fifth straight ... since the Christmas holidays, and ... second State series game that they ... unbeaten. Because of the strong ... that the soldiers put up against ...bury it was thought that they ...ht afford the Catamount quite a ... of competition, but the Grahamites ...ed to do so.

From the very opening whistle the ... began their flashy attack, that ... been so outstanding lately, and ... easily swept the home team off of ... feet.

Price and Marvin were dropping ... through the hoop from the mid... of the floor, and Halligan and ...entice were looping them on step ... while Estabrook was putting up ... strong defensive game.

For a short period in the second ...ame the Grahamites put up a stiff ...ght but it did not last long, because ... Green and Gold's superiority com...letely outshone anything that the ...iets could produce.

Coach Graham used ten men in an ...ttempt to stop the Burlingtonians, ...t to no avail. The ball passed be...ween the Cats so fast that the ...oldiers could hardly see it and then ...e eagle eye of Price often counted ...r two counters from the center of ...he floor. All the soldiers could do ...as stand there flatfooted and look on ...n amazement.

Norwich invades the Catamounts' ...air March 1 and they will come here ...with a determination for revenge, but ...f the Cats keep going they will prob...bly annex another win over the boys ...rom Northfield.

INVITATIONS SENT TO HIGH SCHOOL SENIORS

Preparations for the annual Kake Walk are under way and the Key and Serpent society have sent out a record breaking number of invitations to the various seniors of the high schools throughout the state. The bright colored tags labeled SUB-FRESHMEN have been printed and are all set for the seniorites.

Members of the Key and Snake and Gold Key will be at the station to meet the sub-Frosh from which place the fellows will be taken to one of the many places where reservations have been made by the Key and Serpent society. The guests will be given quarters in either the fraternity houses or the dorm.

TRACY AND SANDERS TO HEAD EDITORIAL STAFF OF STUDENT NEWSPAPER

Clayton, Macomber and Stearns Are Elected As News Editors For The Coming Year

Robert M. Tracy, '29, of Rutland is the new editor-in-chief of the CYNIC as a result of the annual elections of the CYNIC board held in Room 3, North College, last Monday afternoon. Tracy is one of the most prominent journalists on the campus. He was elected editor of the 1929 *Ariel*, but resigned in favor of the present incumbent, George James. He has been a member of the CYNIC staff for three years. During the past year he was news editor of that organization. Besides being on the CYNIC, Tracy has been a member of Gold Key, and on various class committees. He belongs to Phi Mu Delta fraternity.

Other officers of the CYNIC elected at the same time were Leighton A. Sanders '29, managing editor; Lawrence O. Clayton '30, Herrick M. Macomber '30, and Arthur D. Stearns '30, news editors; Joseph Eaton '30, humor editor; Clifford Morse '30, medic editor; Angus W. Clain '30, sporting editor; George Poole '29, feature editor; and Odino Martinetti '30, intercollegiate editor. Warren Burr '30, Frank Shedd '29, and Seymour Nathanson '30 were elected to fill the newly created offices of assistant sport editors.

Leighton Sanders, the new managing editor, served as sporting editor of the CYNIC last year, and he has a similar position on the *Ariel* Board. He is assistant manager of baseball and a member of the Phi Mu Delta fraternity. Clayton is vice-president of Gold Key and a member of Sigma Alpha Chi fraternity. Macomber is very prominent in activities. He has held a part in a college play, is a member of Gold Key and Delta Psi fraternity, and an assistant manager of football. Stearns is a member of Kappa Sigma fraternity. He is very prominent in class activities.

Joseph Eaton, the new humor editor, has contributed frequently to the CYNIC humor. He also contributed a humorous column in one of the issues of the *Vermont Literary Magazine*. He is a member of the Lambda Iota fraternity. Angus Clain, who succeeds Sanders as sporting editor, is a member of the Phi Mu Delta fraternity. He has taken part in many activities on the campus.

Clifford Morse, who acquired the newly created post of medic editor, has been conducting the medic column in the CYNIC since its inception this year. He is a member of Sigma Phi. George Poole, a member of both the CYNIC and the *Ariel*, takes over the duties of feature editor. His fraternity is Phi Mu Delta. Ovidio Martinetti, the new Intercollegiate editor, is a member of the Phi Mu Delta fraternity. He has been on the CYNIC Board and has taken part in varsity track and cross country.

According to the plans announced by editor-elect Tracy, no radical change will be made in the CYNIC policy and methods, but efforts will be made to improve on the work of the news organ.

NOTICE!

Freshmen wishing to scrub for the business department of the Cynic should report at the Cynic Office at 1:30, Friday, February 10.

BERTEL W. GUSTAFSON IS ELECTED BUSINESS MANAGER OF CYNIC

Corbin C. Lyman To Be New Advertising Manager—Jenks, Moore and Puffer Elected Assistants

Bertel W. Gustafson, '29, of Proctor, was elected business manager of the CYNIC at a meeting of the business staff at the publication's office last Monday. At the same time, Corbin C. Lyman, '29, of Middletown Springs, was elected advertising manager. Both of the new managers are prominent in activities on the campus. Gustafson is an assistant manager of basketball, Key and Serpent, on the *Ariel* staff, financial manager of Junior Week, and has served on many committees. He is a member of Delta Psi Lyman belongs to Sigma Phi and was Gold Key last year. He is a member of the varsity track team, and is chairman of the Junior Prom Committee.

Assistant managers were chosen as follows: M. B. Jenks '30 of Burlington, J. M. Moore '30 of East Peacham, and J. C. Puffer '30 of St. Johnsbury. Jenks is a member of Delta Psi, Moore is a member of Sigma Alpha Chi, and Puffer is a member of Gold Key and Kappa Sigma, and assistant manager of football.

WOMEN END INTERCLASS TOURNAMENT THIS WEEK

The indoor meet between Freshman and Sophomore women will be held in the Gymnasium March 23, at which the final basketball game in the Interclass Tournament will be played off.

Narcissa Goodsell '30 has charge of the Skating Carnival which will be held at Chiott's as soon as possible. Everyone is cordially invited to attend.

There is coaching in skating every afternoon now at Chiott's rink at the foot of King Street. Monday, 4:00 to 5:15, Justine Rogers; Tuesday, 4:00 5:15, Elizabeth Allen; Wednesday, 4:00-5:15, Margaret Corbin; Thursday, 4:00-5:15, Dorothy Fowler; Friday, 2:00-5:15, Margaret Corbin and Helen Burns; Saturday, 2:15-4:00, Ruth Cohoes. The description of the coaches is in the Y-rooms.

Health conferences for Freshman women are now being held. Miss Cummings has posted a list of the women she wishes to see.

KITTEN QUINTET WILL PLAY SIX MORE GAMES

Six more games still remain for the Freshman basketball team. The schedule this year was one of the hardest that Frosh squads have had in many years. The team so far this season has been very successful suffering but two defeats thus far and those by the very narrow margin of one point. The game in which they lost to the Y. M. C. A. necessitated the playing of five overtime periods before the tie was broken. DeMolay is the only other club to have bested them in a contest so far this season.

These close contests reveal a good deal of fight and spirit in the team. This condition is fortunate for Vermont just at present when a trio of veteran varsity players will be graduated in June. One is justified in expecting the Freshman stars to fill the shoes of Prentice, Price, and Marvin next year, with the help of a few of this year's substitutes.

Following is the schedule of the remaining Freshman contests:

Feb.	11	K. of C., here
	14	Plattsburg Normal, there.
	17	Co. K, here
	21	K. of C., Cathedral H. S. gym
	28	Open.
Mar.	2	Clark School, there.
	3	Dartmouth Frosh, there.

Ice Cream Course

Sixteen students at the University of Minnesota have registered for a course in ice cream making. This is the first of the series of short courses offered by the dairy division at the university farm, and will last for ten days.

DEAN SWIFT TALKS IN FIRST OF "Y" SERIES

About twenty-five men attended a discussion of the college mores purpose at the Phi Mu Delta House Wednesday evening. Professor Swift, Acting Dean, led the meeting in a most interesting way.

This is the first of a series of public groups which the Y. M. C. A. plans to hold on the campus in the coming months.

BASKETEERS TO MEET MIDDLEBURY TOMORROW

Tomorrow night the Black Panther enters the Catamounts' lair for their initial court contest of the year. Middlebury took the Cadets into camp by a small margin recently. However comparative scores can never be counted on in a State championship contest.

If the Catamounts continue to play real basketball as they have since midyears a sensational windup of the season may easily be presaged. Last year the only State championship contest that was close was the Middlebury contest down there. Inasmuch as Norwich and St. Michael's are little to be feared this season, Vermont must win this contest.

Middlebury's season thus far has been fairly successful. Losing to New Hampshire and winning over Norwich by a small score. Coach McAvoy expects to start his regular lineup.

Manager Castle has arranged for another dance which will take place immediately after the varsity game. Inasmuch as this function proved successful last Saturday evening a large and enthusiastic crowd was present. The preliminary to the varsity game is unarranged as yet. Manager Talcott will arrange for a game with plenty of competition for "Hank" Dresser's Kittens.

VERMONT BROWN CLUB ORGANIZED LAST WEEK

Faculty members of the University of Vermont, who are graduates of Brown University, met at the home of Professor and Mrs. F. D. Carpenter last Sunday evening, February 5, and organized the Vermont Brown Club. Professor A. I. Andrews was elected president; E. A. Flood, vice-president. Mr. P. D. Carleton, secretary, and C. G. Doll, treasurer. The executive committee is composed of Mr. Carleton, Miss Katherine Nulty and Mrs. Carpenter.

As it is the endeavor of the club to have its membership include all the Brown graduates in the State, any other Brown men and women in Vermont are requested to send their names to the secretary at 227 Main Street, Burlington.

NEWS IN BRIEF

Major O. H. Stanley of the Medical R. O. T. C. Unit lectured to the Freshman Military classes last Monday morning on Personal and Public Health. This lecture is the first of a series to be given as part of the Freshman course. A test will be given on all of these lectures in several weeks.

The schedule of rifle meets has been posted on the Military bulletin board and the following team announced by Captain Lauer: C. E. Brown '28, A. L. Wardwell '30, G. M. Donaldson '31, R. E. McGee '31, J. B. Vanders '31, R. B. Aiken '31, J. C. Percival '31, P. G. Rowand '31, A. B. Wheeler '31, C. S. Buxton '31, L. Y. Spear '31, C. M. Stratton '31, F. A. Wilhelm '31, and R. M. Huey '31. The schedule contains matches with forty other colleges, the three being fired this week are those with the University of West Virginia, the University of Pittsburgh and Northwestern University.

The Kake Walk directors have sent out advance announcements for seats which may be secured at the Gymnasium Saturday afternoon and Monday afternoon. Those who wish a better choice of seats should sign up as soon as possible.

Humor editor requests that all articles submitted be "typed" or written legibly. Undecipherable words lose much of their significance.

KAKE WALK DIRECTORS TO PICK JUDGES FROM LOCAL BUSINESS MEN

Non-fraternity Men Eligible To Enter Peerade Stunt—Only Six Stunts To Be Put On This Year

It was decided at a meeting of representatives of the various fraternities with the directors that the judges for the Kake Walk this year should be Burlington business and professional men and University professors. The feeling seemed to be that such men, who had had the opportunity to witness former Kake Walks, would be better able to judge the stunts and Kake Walking. At this meeting, which was held at the Phi Mu Delta House February 4, the places of the various societies in the three departments of the entertainment, the peerade, the stunts, and the walkin' fo' de kake, were determined by lot. As has been the custom for some time, the results of this drawing will not be published.

The directors have announced that any individual who wishes may enter a peerade stunt, an outline of which must be given to R. M. Whitcomb at the Sigma Nu Lodge before February 17. This innovation gives non-fraternity men a chance to win a Kake Walk award.

In order to shorten the program, which the spectators have in recent years criticized as too long, tryouts will be held, with faculty judges, to eliminate some of the stunts. Unless two inferior stunts cannot be selected, only six of the eight fraternities eligible will be allowed to put on a skit. The directors state that elimination will be strictly enforced this year.

Applications for tickets to Vermont's unique entertainment were sent to students and alumni February 6. It is expected that there will be the usual demand for the choice seats, and this gives to past and present students an opportunity to obtain the best places. The prices range from two dollars and a half to one dollar and a half, and a floor plan of the gymnasium, showing the seating arrangement, was included on the applications sent out. The tickets thus reserved may be obtained and paid for on Saturday, February 18, 1928, from one to six o'clock, and on Monday, February 20, from two to six, at the University gymnasium. All tickets unclaimed by six p. m. Monday will be put on public sale Tuesday, February 21.

Slides advertising the thirty-first Kake Walk are being shown at theaters throughout the state.

GOLD KEY PONDERS ON PADDLE CONSERVATION

Gold Key society held a meeting or rather a warm party at the Lambda Iota house last Wednesday night at 7:15 o'clock. The president informed the members of the society that they were to report Saturday afternoon to put up bleachers in preparation for the Middlebury game. Furthermore, the entertainment committee was asked to take care of Archie Post's basketball team from Proctor which comes here to play in the preliminaries for the Middlebury game.

After the preliminaries of the meeting were over, the Gold Key started with the "old hickorys." A record breaking number of Frosh were present at the meeting which is the first since midyears.

Besides furnishing a large amount of souvenirs for the members of the society, the Owls will have plenty of kindling wood to start their furnace. The paddles became so few that care had to be taken as the last few "bad boys" were warmed up.

The society has adopted a new policy in regard to treating the Frosh and it seems that the Frosh won't be much the better for it.

The average co-ed spends $450 a year for clothes alone, if figures compiled by Toronto University are correct.

NOTICE 1930!

Sophomore class picture will be taken this afternoon at 1:30 in front of the Billings Library.

The Vermont Cynic

OFFICIAL STUDENT NEWSPAPER OF THE UNIVERSITY OF VERMONT

Member of the ASSOCIATED INTERCOLLEGIATE PRESS ASSOCIATION

Published every Tuesday and Friday during the college year at $3.00 a year, delivered anywhere in the United States. Single copy five cents.

Entered at the postoffice at Burlington, Vt., as second class matter according to the provisions of the Act of March 3, 1879. Acceptance for mailing at special rate of postage provided for in Section 1103, Act of October 3, 1917, authorized January 1, 1923.

Business Staff

[illegible]

Alumni and undergraduates are heartily invited to contribute. All communications must be signed, but name will be withheld from publication if desired. Address all communications to the Editor, Box 65, Burlington, Vt. Subscriptions may be left at the office or telephoned to the business manager. Office hours 1 p. m. to 2 p. m. Monday and Wednesday.

Vol. 44 February 19, 1926 No. 29

CYNIC YEAR PASSES

With election of the new Cynic staff passes another year in the history of the publication. This period has given the semi-weekly basis a fair trial and it has proved successful from every point of view.

In reflecting on the work accomplished during the past twelve months, we find nothing startling has appeared. The former editor-in-chief and managing editor, however, have kept the Cynic among the better university papers, by their conscientious efforts.

It will be the duty of the present staff to continue in striving to make the Cynic a better paper. We know that it is impossible without student support and approbation, and therefore ask for comment and criticism from the undergraduate body.

KAKE WALK STUNTS

Kake Walk in former years has dragged out almost too long. Over four hours appears out of the question to the present directors and they were searching for some means to shorten this event without detracting from its interest in it.

They decided the best plan was to shorten the stunt program by two this will cut down the program by at least 35 minutes thus relieving the audience from the tedium of the poorer stunts.

There has always been an interesting part of the action happened that a stunt was eliminated. Three unbiased professors are to select the six best stunts to be presented this season, unless the grants are of equal merit.

The judges of the Kake Walk proper are to be made up of local professional men and University professors who have witnessed one before. These men will be in a better position to select the four events rather than those uninitiated in this activity unique to Vermont.

Gordon Royal, a member of the University of Kansas boxing team, holds the record for diving over the greatest number of people. He made the record only recently, when upon the college campus he dove over 14 big scouts of whom he is the scout master.

ALLOY

Rushing seems to proceed with a gusto, we might say at a gallop, which prompts the story about the meeting of two knights, one riding a white palfrey out of the west, the other out of the east. Wonders of wonders, just as these two were to meet in the forest, a dazzling shield sprang up in their way. The knight from the west came out in dazzled at the burnished argent, being naturally fair-eyed. But the knight who had ridden from the east gently hinted that the escutcheon was silver. Thus an argument began, which before long, was bound to end in a scrimmage.

Immediately, and as startling as a war horn, the lone, a clear knight looked in upon the woodland drama and beheld the shield that the foolish combatants might see the two sides, for one was gold and one was silver.

This bit of medieval legend indicates the downright folly of being so blinded by either the silver white radiance or by the beauty of the gold that the individual is unable to see beyond his nose. My plea is directed against the attitude which makes one become absorbed, one's heart and one's soul, in the gold side of the shield alone, or in the silver.

A thousand interpretations might be given the shield story. Just at this moment the most obvious interpretation for, let us say, the silver side is for fraternities. The gold surface is construed as symbolical of scholarship. Nowadays, it is not a difficult matter to attend somewhat unconsciously class after class the glint of the silver blinding one's eyes, and to shout promises to the moon that the untouched lessons will be made up in the glorious length of days ahead.

A few years ago, Pan Hellenic was actuated to change rushing from fall to mid-winter partly in the interests of scholarship, especially the scholarship of the freshman women, which was wont to suffer during October rushing. However, the silver shield is dreadfully alluring at any season, and then occurs a corresponding loss of interest in the other side.

Those upon whom the silver lights are focused at present, fraternity girls and freshmen, would do well to take cognizance of both sides of the shield, to make an alloy of the gold and the silver.

M. D.

PROFESSORS INCLUDED AS MENTAL DEFECTIVES

(from Texas Kteer)

University professors at least our own University professors, must be classed along with their students as mentally defective. In their spare moments they bury their noses in magazines of "lower type," such as The Red Book Magazine, Hearst's Cosmopolitan, The Saturday Evening Post, Thrill-play and Western Story.

Shocking, isn't it—this conclusion drawn from a recent survey of Law room newsstands. What hypocrites these University professors must be to sit before their classes day after day, posing as living examples of moral perfection. Think of the inner lives they must be leading, concealed behind masks of perfect righteousness and dignity.

Somehow, though, the average student cannot bring himself to condemn them for their weakness in literary appreciation. Instructors are just as human as the students in their classes. They get just as tired of listening to front rows full of "yes men" yessing continually and in unison as students do when they hear an endless series of dry lectures on statistics, and bright, but meaningless platitudes.

After all, it is much more efficient to invest a quarter in a magazine full of life dramas than to spend twice that amount on a single movie where only one love affair is properly settled in two solid hours. You can't blame a human being for being human.

Major Stanley, of the Medical R O T C, is delivering the lectures to the freshman military students on military hygiene and first aid.

The picture of the Band will be taken February 13, after the 7:30 class. Members must report in uniform with white shirts.

How To Take Care Of Your "Dukes"

By Colby Mac Yout

To be a good boxer one must have great patience and perseverence. Boxing is essentially a sport between gentlemen but the ladies may learn a few pointers from my series of articles on this subject.

The equipment for a beginner consists of one pair of boxing gloves—if you haven't a pair buy one. In case you have a pair you won't need to use them.

I am an exponent of shadow boxing, in fact, I never did anything else. This method brings out all the fine points of the game with no casualties and little expense. A good shadow will last a long time and may be procured anywhere for a few cents, figuratively speaking. Of course, reader, if you are very ambitious you may engage a sparring partner. If married use your wife, if not—try other members of your family—a *little* brother will do.

There are several good ready-made blows with which you should become familiar. First, there is the hook to the ear. This is very effective for it prevents your opponent from hearing anything. If your antagonist wears glasses, smash them with a right to the face. If he becomes argumentative and says that you have no right to his face, hit him again in the teeth to prevent him from biting in case of a clinch. If you are sparring with your wife, clout her on the jaw and you will have won the bout.

If you feel that pugilism is futile, just remember what the Chinese Boxers did a few years ago. The possibilities of a successful fighter can not be presumed. You may climb the ladder of society. You can function at teas and baby shows—consider Gene Tunney. Why, you, you might even become a subway guard!

LAKE FOREST COLLEGE PUBLICATION CRITICISED

(By New Student Service)

While an occasional editor now is kept busy trying to explain to a critical communicant why the college paper limits itself to campus happenings, the editor of *The Stentor* of Lake Forest college, has tried to explain to the student council why he doesn't restrict his paper to the campus exclusively.

The editor, Fred Genschmer, who gently ignored the council's first summons to discuss the paper's policy, was informed that he is "only an appointee of the council and subject to its action." As reported in *The Stentor:*

"The council point of view was epitomized by Mr. Macklin who stated that the students were not interested in literary and technical matters appearing in various columns; that more items of local interest should be covered and that the news should be written down to the interest of the readers. The Student Council further contended that not enough space was being devoted to important student activities, such as the Junior Prom, Athletic events, etc. In answer to these arguments the editor pointed out the growing tendency in modern colleges to outgrow provincialism; that it is by far easier to fill up a paper with accounts of events with which every reader is already acquainted; that news articles were purposely condensed so as to get a wider range of subjects and that the students might voice their opinions in letters appearing in the paper. The Council, however contended that the school paper should be more a matter of record than of student opinion or comment."

The meeting ended in a deadlock, and *The Stentor* is still grazing in foreign pastures.

A Few Years Ago

Less then a century ago the following regulations were more or less observed at Mt Holyoke:

(1) No young lady shall become a member of Mt. Holyoke Seminary who cannot kindle a fire, wash potatoes, repeat the multiplication table, and at least two-thirds of the shorter catechism.

(2) Every member of the school shall walk at least one mile a day unless a freshet, earthquake, or some other calamity prevent.

(3) No young lady shall devote more than an hour a day to miscellaneous reading. The *Atlantic Monthly*, Shakespeare, Scott's works, Robinson Crusoe and other immoral works are strictly prohibited.

Accident Prevention Course

A course in the prevention of accidents will become a permanent part of the curriculum of New York University. This is the only institution of higher learning in the country to teach this subject.

By C. L. Morse '30

The Alpha Kappa Kappa rooms which were in the Y. M. C. A. building on the corner of Church and College Streets were completely destroyed by fire last week. All properties were lost. The Alpha Kappa Kappa have received invitations from the Phi Chi and the Delta Mu fraternities to use their rooms. At present the fraternity is holding its meetings at the rooms of the Delta Mu Chapter of Nu Sigma Nu.

Dr. Beecher is spending a few days in Montpelier.

Dean Jenne has not yet returned from Chicago.

Mid-year examination marks are now returning. For the most part they are very good. Freshmen anatomy marks are low.

Editor Twichell reports excellent progress on the Medical section of the *Ariel*. All pictures, and nearly all of the grinds are in.

No Calumny!

(By New Student Service)

"Censored by the Dean of Men of the University of Wisconsin," stamped on a narrow flap that had been page 17, tells of the strong arm of authority encountered by the December issue of the *Wisconsin Literary Magazine*. The deleted page had carried a burlesque entitled "Sherwood Anderson Buys Some Pickled Herring," fish, we are told, of "unmistakable deadness." The author was Irving Tressler, who was having a little fun with Mr. Anderson's literary style. The article did not come to the dean of men's attention until the magazine was printed, so it became the sad duty of the staff to tear out the page when the dean decided the article might give offense to Mr. Anderson, and was therefore unworthy of publication. Perhaps it was in a spirit of mockery that the editors surcharged an innocent article on "The Town Band," with the words, "Printed By Mistake."

Two-thirds Grid Captains Are Linesmen

As a fact which may be of interest to sport followers and especially grid enthusiasts, it has been computed that out of the seventy-one football captains who have been selected to head their teams for next year, forty-five, or over two-thirds of the total, are linesmen, while only the remaining twenty-six are backfield players. The days when it was customary for the quarterback to be the leader appear to have vanished. Four colleges, Vermont, Nebraska, Indiana and Iowa State, have dual captaincies.

Little Boy—What is green and purple, has four legs, and flies through the air and sings?

Old Lady—Why, I don't know. What is it?

They Laughed When I Sat At The Piano But When I Started To Play—They Laughed Some More.

"Can he really play?" I heard a whisper to Arthur, as I sat down at the piano.

"Sure—football. But Pianos, no! Why he never played a piano in his life."

Then I gave them the best I had in their lives. I started to play and instantly a tense silence fell upon the guests. However, no one was injured. I played the first few bars of Liszt's immortal Liebestraume. I played the first bar to the last they could hear my music. I heard gasps of astonishment. My friends sat breathless and spellbound! I played on.

A Complete Triumph!!

As the last notes of the Liebestraume died away—(It was later claimed by envious persons that I had murdered them.)—the room resounded with a sudden roar of applause. Everbody was plying me with questions—"Jack!—Why *didn't* you tell me you could play like that?" "Where did you learn?" "Who was your teacher?"

Then I told them the whole story. I had bought a player-piano.

You Can Learn Cartooning at Home

Learn how to draw money from dad. A's from the profs. and love from the girl friend. Cartoonists earn from $.50 to $1.50 per week and even more. (Some even less.) Read one of the countless enthusiastic letters we receive from our pupils with every incoming mail.

Dear Sir:

Larus & Bro. Co.
Richmond, Va.
Gentlemen:

I am a veteran of the Edgeworth army, still in active service.

I make this claim, challenging all comers, to have smoked Edgeworth and nothing else but Edgeworth (when it was possible to get it) for a longer period than any other person within the scope of your territory.

I have smoked Edgeworth for twenty-one years and will soon start on the twenty-second.

I'll admit to having tried other brands, including so-termed high-class, high-priced blends and mixtures, enough to appreciate and satisfy myself of the superiority of Edgeworth.

In all these years I have never had one can of Edgeworth that varied in flavor or otherwise.

Yours very truly,
(signed) J. J. Roberts

...tional Football Rules Committee Announces Changes in 1929 Rules

...(Special Dispatch to Liberal Press)

...changes in the ...928, each designed ...confusion growing ...s rules rather than ...damental alteration, ...today by the national ...committee after a secret ...

...they remove a good ...tection afforded the ...ward passes, do away ...g distinction between ...bled punt and deal a ...of the so-called "screen ...vide.

...backward or lateral ...st be tossed at least two yards ...as such and that it may ...by the defensive side or ...but not advanced, thus do...with the protection afforded ...the rules last year to hidden ...other trick passes behind the ...

...That either a muff or fumble ...may be recovered by the ...side but not advanced beyond ...point of recovery.

...That no player on the side ...a forward pass and who has ...the line of scrimmage may ...with an opponent until the ...has been touched, thereby doing ...with what the committee be...has been unfair blocking and ...ing, to screen the pass receiver, ...players who themselves are not ...to receive the pass.

These were the only changes effected by the rules committee, which in ...week-end session at the Seaview ...Club at Absecon, N. J., rejected ...other suggested alterations as ...of the goal posts to the actual ...line. The committee went on ...as declaring they "had never ...season of better football" than ...the 1927 rules.

Two Changes Are Compromised

...Two of the three changes made, ...effecting the lateral pass and ...foot point, represented a compro...with the opinion of a majority ...college football coaches, who, at ...December meeting, went on rec... as favoring a return to the 1926 ...on these points.

...his point of view was put before ...committee by the newly appointed ...ory group of three coaches—...Rockne of Notre Dame, Hugo ...ades of Penn State and Bill Spaulding of the University of California Southern Branch). In obtaining a ...rification and modification of these rules so as to make them easier to apply on the field, however, the coaches were considered to have gained their major objective.

The new lateral pass rule probably will have the most decided effect since it eliminates from protection the short passes between ball carriers in close line plays and gives a definite yard stick by which officials may determine their decisions. At the same time, in the opinion of the committee, it retains a sufficient measure of protection to encourage the continued development of backward passing as a real strategic feature of the offense.

One of the moot questions of the 1927 season was the determination between a muff or fumble of a punt, but it is met by the simple expedient of eliminating the necessity of making a distinction. It means, the committee points out, that the kicker's side may recover any muffed punt or any ball which may be fumbled during the course of a run back but may not advance the ball beyond the point of recovery.

Hits the "Screen" Pass

The "screen" pass, wherein the secondary defense was practically smothered by forwards of the passer's side, is dealt a virtual death blow by the third change. Under the former rules it had become a powerful part of the attack of many teams. The effect of the change, the committee holds, "should do away with unfair blocking and checking of the defense of players who themselves are not eligible to receive the pass, leave that part of the field to which the pass is directed less congested and give the eligible players of both teams a fair opportunity to get at the ball."

The committee's findings, all of which were reached by a unanimous vote, were made public by William S Longford, secretary, who, with Chairman Edward K. Hall, were returned to office for another year.

The committee will meet again during the first week in September and make official rulings and interpretations on such questions as may arise before that time.

The more complete recodification of rewriting of the rules which the committee has undertaken is now in the hands of a special sub-committee consisting of Chairman Hall, Secretary Longford, A. A. Stagg of Chicago, H. J. Stegeman of Georgia, Tad Jones, of Yale, and Bill Roper of Princeton. It is planned to have this recodification ready by 1929.

Sorority Notes

Intercollegiate News

FRANK SHEDD

Arnold Bennett Hall, president of the University of Oregon, has suggested that the primary hypothetical objective of colleges should be the development in students of a resistance against ignorance, prejudice, bigotry and intolerance.

Yale University has been granted the right, by the British government to excavate a portion of the ancient city of Jerash in Palestine. Work will commence in the spring. To the Greeks, the city is known as Berasa, a place which in New Testament times was the chief city of a chain of Greek cities east of the Jordan, and which had been founded to protect Palestine from the destructive inroads of Arab nomads. It is mentioned in the Gospels as the home city of the demoniac healed by Jesus. The city was abandoned soon after 600 A. D and has since been practically untouched.

When William T. Cosgrave, president of the Irish Free State, was making a tour of Columbia University with the president of the institution, Nicholas Murray Butler, he was hissed by a group of students. He did not appear disturbed by this unfriendly demonstration—perhaps because some cheers were mingled with the hisses.

The undergraduate body at Middlebury College numbers 654, according to a report recently made by the registrar of this number, 354 are men; and among the foreign countries represented in the college roster, are China, Switzerland, and Greece. Since the founding of the college, baccalaureate degrees have been conferred upon 3,161 students, 833 of these, women.

When Harvard's track team enters the Intercollegiate A. A. A. A. board floor championships on March 3, it will do so with a team which includes eight of the eleven point-getters of last year's team which won the championship. It must be remembered, however, that three of the graduates accounted for 11 of Harvard's winning total of 23 3/7 points.

Villanova College, a Roman Catholic institution under the jurisdiction of the Order of St. Augustine, recently suffered a loss of $2,200,000 when a fire of unknown origin swept away College Hall, one of the largest buildings of the institution, and damaged an adjoining monastery. Firemen, priests, and students, alike fought the flames.

According to the most recent figures available, there are at present slightly over 700,000 students enrolled in American colleges, of which number more than 200,000 are in small colleges.

The results of a survey of 44 colleges and universities show that in 2... of the colleges the athletes had a lower scholastic average than those students who were not engaged in athletic activities, while in 14 of the institutions, athletes had a higher average, and in 5, equal ratings were given to both groups.

Two freshman girls in the College of New Rochelle fell four stories down an elevator shaft in a dormitory of the college. One of the girls was killed, the other seriously injured. The girls were playing hide-and-seek when one of them came near the edge of the elevator shaft. The other girl tried to keep her companion from falling and in so doing, both girls went down.

GREEK AND JOHN DEWEY CLUBS HOLD MEETING

Eta Sigma Phi, the Greek Club, and the John Dewey Club of Philosophy and Psychology held a joint meeting on Tuesday, the seventh of February. Professor Metcalf, of the department of Psychology and Professor Bassett, of the Greek department addressed the clubs.

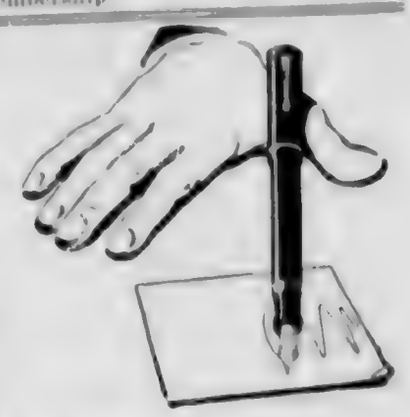
After Professor Bassett had given an outline of the attitude of the Greeks toward art and beauty, Professor Metcalf told the clubs of the present attitudes and the more modern conceptions of Aesthetics. Greek art was considered an entity in itself and was a representation of the ideal, of some perfection while a great deal of modern art owes its appeal to the stimulation it arouses in the observer. Following these two talks the meeting was thrown open to general discussion in which most of the students present took part.

The next meeting of the Philosophy club will be held on Tuesday, the twenty-first of February, at the Vermonters Clubhouse. The subject of which meeting will be announced.

Cross Country In A "Tin Can"

Twenty-five knights of the rattling rod graced the barrier recently in decrepit, wise-crack emblazoned motorcars, to race to glory but no gold in the first cross country "aged fliver" derby ever held.

The entrants were Drake University students and their vehicles five or more year old cars some of which resembled automobiles. They were to proceed to the Grinnell college stadium which is about fifty miles away.



Fetters of the law were to bind the contenders at either end of the course but outside the city limits of Des Moines and Grinnell the steel steeds and their collegiate jockeys cut loose. Motorcycle policemen accompanied them to the local city limits where they were given the starter's flag at one minute intervals.

The chancellor of the University of Kansas has sent out letters to parents of students to solicit their aid in assisting to reduce "to a minimum the use of automobiles in college," and suggests further "that no student bring to the campus a motor car for pleasure purposes." The University of Missouri requests all students who own automobiles to register them in the office of the dean of men.

Can you trust your wife alone?
Yes—alone! —*Lyre Tree.*

150 Dates For These Eds

A new sort of club has recently been organized at the University of Michigan by those undergraduates who have a decided penchant for the so-called fair sex. The members of the club have pledged themselves to have 150 dates a year with different girls. The men must then divulge the names and addresses of these numerous "accessories for pleasure" to their associates. Only men who are seen frequently in the company of girls are eligible for membership.

This is Parker Pressureless Touch

This pen's *feather-lightweight alone* is sufficient to start and keep it writing. No effort, no fatigue.

Doubly remarkable because the new Duofold is 28% *lighter* than when made with rubber, due to Permanite, a new material 100 *times as strong* as rubber—in fact, Non-Breakable.

But *Pressureless Touch* is most important because of its effect of taking all the *effort* out of writing.

3 sizes, 6 graduated pen points, 5 flashing colors, to suit men's and women's hands and tastes.

Parker Duofold Pencils to match pens, $3, $3.50 and $4.

Look for "Geo. S. Parker—DUOFOLD" to be sure of the genuine.

UNIVERSITY OF TORONTO DECLARED COMMUNISTIC

(*By New Student Service*)

Canada has lived through a red scare, not dissimilar to the perennial United States variety.

When prominent communists were invited to participate in a Hart House debate, at the University of Toronto, on communism, a few patriots rose in indignation. Even Premier Ferguson was drawn into the discussion. While the Prime Minister announced himself out of sympathy with the invitation, he took the university attitude that "Even if I had the power to stop the debate I would not consider it policy to do so now, for that would not improve matters."

The debate was held, but not before the capitalist-stricken press and a few hysterical and vociferous Canadians had thoroughly vilified the University for failing to interfere.

The Financial Post Commented As Follows

"University of Toronto has openly allied itself with the communists. In having a debate to be held next week students will hear from Jack Macdonald, secretary of the Communist party in Canada, who has been invited to attend and speak from the floor on behalf of communism. The subject of the debate is:

Resolved that, in the opinion of this house, the social and industrial reforms advocated by the Communist party of Canada are not in the best interests of the people of the Dominion.

Students and graduates will speak for each side and a Red worker will voice his propaganda under these favorable auspices.

The debate will be held at Hart House, student centre of the university, where on one occasion, when the Entente journeys were being sent to leading English Ontarionians and French Quebeckers, the students debated the insulting subject, 'Resolved that the French Canadian is a traitor to Canada.'

Sir Robert Falconer, president of the university, and other officers, have declined to act in the matter of the invitation to the Communist leader. But be certain that at McGill University the invitation would never have been sent.

"No one will criticize the general theory of freedom of speech. But there are many hundreds of fathers and mothers whose sons are attending Toronto University who will learn with keen regret that communistic propaganda may be preached from the floor of a Hart House debating hall, not by students but by paid agents of the most disrupting forces in the world, and this with the apparent approval of the heads of the university."

EXCHANGES

"Why should a college man kill himself?"

"Oh, lots of reasons. Women, wine and other things."

"And if he had none of these?"

"Still more reason why he should."
—*McGill Daily.*

Cop—Who was driving when you hit that car?

Drunk (triumphantly)—None of us; we was all on th' back seat.
—*Virginia Reel.*

Speakman (Trying to pick her up)—The fellows bet me a dollar I didn't dare speak to you. You don't mind, do you?

Sweet Young Thing—Not at all. Run along now and get your dollar.
—*Daily Kansan.*

1st Co-ed: "They tell me that the fellow driving that car is handcuffed to the steering wheel."

Mr. Sirmons: "How would you like to ride with him."

2nd Co-ed: "Not much, I would want him to have both hands free."
—*Ram's Horn.*

I certainly made a bad break the other day. It seems that one of the Instructors was going down the Approach and I asked him what happened that he had his finger all tied up.

"Why my finger isn't tied up," he replied, "this is my wife's dress I'm taking to the cleaners."

The Dopefiend

By Ward Gallup

[illegible] with the idea of giving the [illegible]

Aggies' coach predicted that [illegible]

[illegible] with great accuracy [illegible] Hannigan and Flaherty are running and stepshooding [illegible] Wesco is playing some of [illegible] two, even counting the good luck along with the fine defensive game he plays. [illegible] is going along and scores [illegible] by making a wild dash [illegible] If he is not in a position to shoot the forwards generally do and a pass usually results in a score.

The whole team is playing cutting and shooting with the utmost accuracy and speed and it will take a mighty fast team to set them back.

Springfield has been eating [illegible] everything that has come into her path and reports have it that they have a faster team that last season. We all remember the last game here last year and how the Cats finally nosed the Red and White out in the last few minutes.

The boys from the City of Homes invade the Gym February 7 and are out to add Vermont's scalp to their belt. That gives the sweet job ahead of them and the coolers from North field couldn't get the Cats skin, and the Indians from Springfield will have to go the H—— to get it.

The coming of Halligan to the squad this season was a heaven sent blessing to Coach McAvoy as he fills Post's shoes with ease and at the rate he is going now there are very few guards that can hold him.

Holy Cross took quite a setback at the hands of Fordham 42-33. The Cats invade the Crusader's court very soon and hope to avenge the defeat handed them at the Yale tournament by the Purple. However Clancy and Capt Reilly will bear watching as they are going like wildfire each scoring about 8 10 points a game

The Purple defeated Conn. Aggies 26 27 so if comparative scores count for anything we should defeat H. C. or at least give them a close run for the money.

Springfield defeated Tufts a short time ago James, lf, got 12 points and Wagner — got 15 so that these birds will have to be closely watched

Due to lack of ice Wednesday the Black Panther hockey sextette will appear in Burlington Saturday for the scheduled contest. This should be a good battle. It will take place on Shaw's Lot.

COLLEGE HUMOR

Has Waugh, they named a musical comedy after you"
Gwan, I'll draw! what one is it?"
Puppyface

Ladies and Freshmen, the next number on the program will be The story of the Dead — by the Burlington postoffice

Old Mother Hubbard went to the cupboard
To sample her new home brew,
But when she got there, the cupboard was bare
And the cook in the midst of a stew.

Spoof—"No—since when?"
Goof—"Well, he's been getting new parts for his until he doesn't have any of the original"—*B. U. News.*

"There must be a catch somewhere," said the man as he tried to fasten his wife's dress.—*Fordham Ram.*

SIX NEBRASKA SOCIETIES IN HANDS OF FACULTY

By News Service Bureau

[illegible] societies at the University of Nebraska are on the verge of death, their fate now resting in faculty hands.

[illegible] recommended [illegible] suspension [illegible] Nebraska. The [illegible] council action *The Nebraskan* said editorially:

"There was little justification for [illegible] which had existed simply because certain ambitious men and women students wished to have important [illegible] their achievements in college [illegible]

The [illegible] used the past tense because it expected and hoped that the faculty would impose death immediately.

The [illegible] in question are distinguished by such fine names as Vikings, Silver Serpents, Iron Sphinx, Xi Delta, Green Goblins, and Mystic Fish.

TAIL COATS RETURN TO COLLEGE FORMALS

By Intercollegiate News Service

Winter social functions turn the college man's attention to his evening clothes and frequently this is the season in which the new dinner jackets and other things for social wear are bought.

Perhaps the most interesting news concerning evening clothes is that a number of college men are beginning to turn to tail coat for wear at dances. Tail coats have been seen in appreciable numbers on undergraduates at Eastern college dances and at other parties attended by the same young men. There is no question that the tail coat is suitable and proper for any large dance and it will be seen more and more at college social affairs.

It is important that the waistcoat should not show beneath the sides of the tail coat; that is, the coat should just barely cover the waistcoat, except in front, of course. If any part of the waistcoat does show (except in front) the symmetry of the masses of black and white, the chief excuse for modern evening clothes, is destroyed.

Proper accessories include a bold wing collar, plain white starched shirt, for two studs, unless the single stud variety is insisted upon, plain pearl studs, very fresh white tie and waistcoat of washable material, and black, plain toe patent leather oxfords or pumps. Either an opera hat, that amusing piece of headwear called "chapeau mechanique" by the French, or the stiff silk hat, go properly with the tail coat. No other sort of hat is properly worn with full evening dress.

It seems that the day of the college man who wore a racoon skin ulster and colored bandana with his evening clothes is about over. University men now use the handsome dark blue or black Chesterfields, single- or double-breasted for the name "Chesterfield" is applied to an outercoat of either cut.

Interesting as the revival of interest in the tail coat is, particularly to those who follow university styles, it must nevertheless be admitted that the dinner jackets or Tuxedos will continue to be in the majority. For some time now the students have liked the notch lapel jacket with straight back and shiny facing on the lapels. The single button of the jacket is set rather low. The trousers are made rather wide both at knee and bottom. The last dimension should be watched, as many retailers will sell trousers much too wide all the way down and swear they are providing their customers with the genuine university article exactly as worn by Dink Stover at Yale.

This widely accepted university dinner jacket is a harmless sort of garment, but standardized and uninteresting. The notch lapels of course indicate less formality than the pointed lapels, and in many ways this jacket is simply a house lounging coat.

The smarter dinner jacket, however, is now establishing itself and many of the university men are wearing it. The coat has peaked lapels faced with grosgrain. The jacket fits easily at the shoulder but has a pronounced drape to the body at the waist. The waistcoat is fitted very snugly and may be white or black.

Trousers are cut high, with pleats in front and plenty of room at the knee. They taper to a slight break over the shoe top. The jewelry is restrained and severe in design. Colored stones are not favored for evening wear by university men. A gray Homburg hat, a derby, an opera hat or even a nice tall glossy silk hat may be worn with the dinner jacket, and the outercoats are the same as used for full evening dress. Most collegians use the derby.

NEWS IN BRIEF

In the fifth match [illegible] which last Friday the Cat team lost to the Intercollegiate by the score of [illegible]

Those out for the team should consult the bulletin board for the names of those who will play in this week's matches. These matches include the First Corps Area match, and a quadrangular meet with the University of West Virginia University of Pittsburg, and Northwestern University. Those not on the team this week should see Captain Lane to make arrangements for hours in which to practice.

Clarence Darrow, in a recent address he delivered to the Norwich cadets, remarked that "on juries before which I appear I don't want any hard-working farmer whose sole pleasure in life is church attendance on Sunday. Sympathetic imaginative jurors who can laugh and cry are the kind I want."

James H Reilly, director of physical education at Rutgers University, recently revealed the fact that of the 1,226 men students enrolled at the university, more than 1,000 are actively engaged in some sort of sport during the college year.

AUDIENCE ONLY WICKED THING ABOUT FOOTBALL

Dr Harold de Wolf Fuller, editor of *New York*, a magazine of ideas for the general reader sponsored by New York University, quotes the late Professor Royce of Harvard as saying that the only immoral element at an intercollegiate football match is the audience. Commenting that the shrewdness of this remark comes home to alumni, Doctor Fuller says:

"Partisanship by alumni is understandable. It is human and, in spite of a modicum of the immoral, is wholesome. And now it has been augmented by the general public, which falls under the spell of vivid and excellent newspaper accounts of contests and forms emphatic judgments.

"It is a phenomenon upon which college authorities might build. Suppose that institutions of higher learning could get alumni and the general public as wrought up over ideas as they become over football games! This is not an impossible goal. An idea is the most exciting thing in life. Witness the wars and the peace which ideas have made. Witness the contrasting colossuses, Lenin and Mussolini, who mounted to eminence on ideas. But to come nearer to the subject in hand, university professors and literati once had the devoted following which football coaches and teams have today. When [illegible] made the tour of great [illegible] cities, it was ideas, not footba[illegible] stirred the world.

"Our civilization since [illegible] offers similar opportunities. [illegible] is in a state of flux. Moral [illegible] waiting for revaluation. Model[illegible] lems of government turn up [illegible] whole question of political phi[illegible] Society is looking for a guide. The chance for a university to gain [illegible] adherents in all these spheres [illegible] viting. A national 'champion[illegible] ideas would be something new [illegible] something to be envied."

MIDDLEBURY ICE MATCH WILL BE PLAYED TODAY

Postponing the ice contest between Middlebury and Vermont, Saturday, it was decided to be played Tuesday afternoon at Shaw's Lot. Due to the fact having Freshman week at the school, they were unable to get here for the game as the basketball team was already here.

The Green and Gold sextette showed up well in their first contest and are now dickering for a game with Holy Cross. The Purple icemen defeated Springfield 3-0, but lost at the hands of Boston College. There will probably be another match with Norwich and one with the Black Panther.

A great deal more should be made of hockey be next season and a regular schedule made out beforehand. Quite a bit of interest is being shown in hockey in the eastern colleges lately, and some have already established it as a major sport.

Announcement

The tie in the Interfraternity winter sports meet between the Owls and the Kappa Sigs, with 25¼ points each, will be run off next Wednesday, February 15, at 4.15 on the back campus.

There will be a Combination Relay in which each fraternity will enter six men, three snowshoe and three ski men. The teams may run in any order. For example, all ski or all snowshoe men may run first or in any alternate combination.

Due to the ability in skiing of one fraternity and the ability of the other fraternity on snowshoes, this is believed to be the best all around test for speed and skill.

The course will be the same, 220 yards for each man, and the same rules as to size of snowshoes will apply.

Per order of VERMONT OUTING CLUB.

KAPPA SIGMA AND OWLS TIE FOR FIRST PLACE

Winter Sports Meet Draws Record Crowd Saturday Afternoon on Back Campus

A record crowd of interested students and spectators witnessed the Annual Interfraternity Winter Sports Meet, under the direction of the Athletic Department and the Vermont Outing Club, last Saturday afternoon on the back campus. After a number of interesting and closely contested events it was found that the Kappa Sigs and Owls were tied for first honors with 25¼ points each.

Dr. Aldinger was starter and Prof. L. B. Puffer, Lieut. F. D. Frederick and Captain Rattan, timers and judges. The scoring was on the basis of 5, 3, 2, 1 for all but the relays, which counted 8, 5, 3, 1.

Mitchell of Delta Psi led a fast 100-yard snowshoe dash and was followed in order by Crandall and Edson, both Owls, with the fourth place honors shared equally by Chatterton, Owl; Wheeler, Sigma Delt; Dewitt, Delta Psi; and Leary, Kappa Sig.

Seventeen men entered the 150 yard ski dash which N. Wood and H. Adams won for the Kappa Sigs, and Mayens, Sigma Nu, and Hendrick, Owl, in third and fourth places.

Six teams of three men each entered the 220-yard snowshoe relay race in which the Owls gained thirteen points, with Smith and Crandall, first; Mitchell, Delta Psi, third; and Leary, Kappa Sig, fourth. This event proved very exciting for the members of the various fraternities who cheered from the sidelines, and even more so for the entrants.

The next event was a fast ski relay of 220 yards. Kappa Sig scored again with 8 points; Sigma Delt, second; Delta Psi, third; and Zeta Chi, fourth.

A two-mile shoeshoe cross-country dash proved to be a close race up to the finish. Of the thirteen men that entered, Smith, Owl, crossed the line first; Phelon, Zeta Chi, second; Perry, Delta Psi, third; and Edson, Owl, fourth.

The ski proficiency event in which the men were required to zig-zag between flags down hill against time was new this year and was nearly as exciting for the spectators as for the men themselves. Bragg gave the Independents five points with first place; Wood scored again for Kappa Sigs; H. Adams, Kappa Sig, third; and R. Adams, fourth, also Kappa Sig.

As a final event eleven ski men entered the five-mile cross-country race which was won by Mayens, Sigma Nu, after a hot, close run. Bragg, Independent, finished second; N. C. Wood, Kappa Sig, third; and O. T. Wood, Kappa Sig, fourth.

This year marked a distinct advance in Vermont's winter sports program and brought to the front many men who could well represent the college at the large winter sports meets of the country.

The largest crowd that has ever been present at any such meet showed an unusual interest and surely included many boosters for anything that Vermont may do in this way in the future.

If Vermont continues in such a manner it will not be long before representatives will be bringing home honors from outside meets.

Those who participated and any others interested are urged to attend the meetings of the Outing Club in the future.

ARTISTIC DECORATIONS FEATURE SECOND YEAR DANCE IN SCHOOL GYM

Sophomore Hop Friday Night Brilliant Affair—Hundred Couples Dance to Strains of Lechnyr's New Vermonters

Gleaming white shirt bosoms and fashionable evening gowns marked the annual Sophomore Hop, held in the gymnasium of the Burlington High School on the night of February 10 as one of the successful affairs of the season. From 90 to 100 couples swayed to the syncopation produced by 10 of Lechnyr's New Vermonters musicians.

Jeanette Beecher who was in charge of the decoration committee, performed a very admirable piece of work in following out the class color scheme of green and gold. Although it is always difficult to bring the great out doors into the confinement of four walls, Miss Beecher presented a remarkable effect with the trellised evergreens and the white background. The class numerals, 1930, fashioned also in green, assumed a prominent place on the wall at the end of the hall. But the orchestra, banked behind more of the green branches, under a golden flood-light was in complete command of the entire occasion.

H. M. Macomber, and W. Slavin, chairmen of Entertainment and Refreshment committees respectively rendered their services well. Slavin was right there with the punch, while some of the Freshman girls served the ice cream during the intermission.

The chaperons for the dance were Professor and Mrs. G. Y. Kidner, Mr. and Mrs. L. W. Dean, and Lieutenant and Mrs. J. D. Fredrick. The favors furnished considerable amusement.

TEAS FEATURE SECOND CO-EDS' RUSHING WEEK

The second feature of the women's fraternity season, which is to culminate with pledging on February 23, was the teas of the past week.

The Kappa Alpha Theta house was the scene of a tea on Tuesday evening, February 7, at which Mrs. Leon Dean poured.

Wednesday evening Delta Delta Delta held its second open house at Mrs. Worthen's home on South Willard Street. Miss Alice Blanchard, an alumna from Alpha Iota chapter at Middlebury College, and Mrs. John Patrick (Betty Booth) '22 poured.

On the same evening Pi Beta Phi gave a tea at Miss Margaret Patten's home on Buell Street. Miss Katherina Storms, a patroness, presided at the tea table.

A third social event on Wednesday evening was the tea given by Sigma Gamma at its rooms on College Street. Mrs. Elijah Swift, a patroness of the fraternity, poured.

Thursday evening Alpha Xi Delta entertained at a second party at their rooms, 192½ College Street. Marion Wright Vogler, president of the Alpha Xi Delta Alumnae Society and Helen Merrit, president of the active chapter, presided at the tea.

Kappa Delta fraternity was hostess at a tea Thursday evening, at the Athena Club on Pearl Street. Miss Alice Crowe '26 presided.

The Alpha Chi Omega tea was held at the Athena Club Saturday afternoon. Mrs. J. H. Middlebrook and Evelyn Anderson poured.

The annual meeting of Wig and Buskin will be held at the Sigma Nu Lodge, Tuesday evening at 8 o'clock. There will be an election of new members and managers.

As soon after fraternity rushing as weather conditions augur snow and sun in the favorable proportions a winter carnival will be held at Redstone by the Women's Athletic Association. Dorothy Kibbe '30 is chairman of the committee in charge of this event.

NOTICE 1929!

Junior pictures will be taken this afternoon at 1.30 in front of the Billings Library.

CO-ED RIFLE TEAM WINS FROM UTAH, 489-473

With a margin of sixteen points the Women's Rifle Team of the University of Vermont opened its season by defeating the University of Utah by a score of 489-473. High scorers in this match were Eleanor Taft '28, Rebecca Seaver '31 and Georgina Hubert '31.

Matches for the week ending February 11 in which teams of ten with a five high count were used included those with the University of Missouri, the University of Indiana, University of Nebraska, and Syracuse University. The team will compete with the University of Cincinnati this week shooting a team of fifteen having a ten high count.

THOMPSON OF YUCATAN TELLS AUDIENCE ABOUT ANCIENT MAYA PEOPLE

Noted Archæologist and Lecturer Talks in Gymnasium Friday Evening

That America has vast ruined cities of its own, equally old if not older and as important to the history of man as those of Africa and Asia, was shown by Edward Thompson, who told of some of the more interesting of the Maya ruins in Yucatan, estimated to be from 2,000 to 10,000 years old, in his lecture on "America's Answer to Egypt" given at the gymnasium Friday evening. Thompson of Yucatan was introduced to the audience by Professor Elijah Swift, assistant dean of the College of Arts and Sciences. This lecture under the auspices of the University was one of the series of free lectures given by noted speakers.

Mr. Thompson's talk was filled with a spirit of romance and adventure and he told of these jungle covered cities and the life of their ancient inhabitants with vivid descriptions that were almost poetic in nature. His lecture was illustrated by beautiful colored slides depicting the ruins of the ancient civilization and many of the relics that were found by him while working among them.

The Maya people was a highly civilized one, he said, and physically were low of stature, thick-set with bronze-colored skin. Information about them has been gleaned from tradition, from their ancient graves, temples, inscriptions on stones and from ancient written documents. The present inhabitants are descendants of the Mayas and in many respects are a wonderful people that would be remarkable had they educational opportunities.

Mr. Thompson, who was once the United States consul to Yucatan, resigned his place in recent years in order to devote all of his time to scientific investigation. He made his headquarters in an old plantation home originally built in 1631 and abandoned entirely in 1841 when it was partially burned. He had this entirely renovated, built exactly as it was in 1631, except for its modern conveniences.

The sacred well of Chichen Itza was located on his land and in this he found ancient offerings and sacrifices of armor, weapons, jewels, incense vessels and innumerable ornaments of gold and jade. Beautiful maidens drugged with ambrosia, were cast into its waters in the time of a drought to appease the wrath of the god of rain that rain might come once again to the stricken country. Mr. Thompson carries on the end of his watch fob a polished piece of jade taken from the neck of one of these unfortunate maidens.

That Mr. Thompson is a devoted archæologist cannot be doubted by one who listens to his lecture. Risks and impaired health were all given gladly by him in the interests of his work. He resigned from his work but a few years ago and it is being carried on at the present time by the Carnegie Institute. His story of the discoveries that he made in the bowels of the earth are interesting not only to scientists but also to those who are not so versed in the ways of archæology.

A pyramid rivaling in size those of Egypt, a pyramid of nine terraces crowned with a castle-temple, the ancient city of Chichen Itza with a stone tablet that establishes accurate chronological relation between the ancient and modern American civilization are but a few of the secrets that "Thompson of the Yucatan" has forced the jungle to give up.

CATAMOUNTS WIN OVER BLACK PANTHER 39-23 IN ONE-SIDED GAME

Middlebury Gives Little Opposition to Varsity in Slow Contest Saturday

The Catamounts, by defeating the Black Panther five Saturday evening at the U. V. M. Gym 39 to 23, continued their winning streak and now have seven successive victories to their credit. The win over Middlebury is the fourth state championship battle that the Green and Gold team has won and it looks as if the Burlington lads will again bring the bacon up on the hill.

From the start the outcome of the fray was never in doubt with only the size of the score remaining to be seen. Middlebury started off with a basket after a minute of play, but Vermont immediately forged ahead. The Cats held a substantial lead until toward the end of the first half when Middlebury dropped in a few two pointers in rapid succession. The half ended with the score Vermont 22, Middlebury 14.

In the second half Coach McAvoy's charges were never headed. The substitute five with Mackey playing forward position in place of Pike, finished the last few minutes of the contest and held the Blue and White to two foul goals.

Middlebury played a clean, hard game but the superiority of the Catamounts was much in evidence. Johnson was a high point man for the Panthers with five field goals and two fouls for a total of twelve points. Sorenson played a stellar game at the other forward, but in shooting was held to a lone goal.

Captain "Bunny" Prentice and "Tim" Halligan led both teams in scoring. The Middlebury guards were unable to check their shooting streaks. The Prentice to Halligan passing combination was working like a well-oiled machine. Prentice timed his bullet-like passes to Halligan, who was constantly cutting for the basket with his usual swiftness. Marvin, Estabrook and Price were towers of strength with their all-around floor work. Price looped three pretty shots.

The summary:

VERMONT

	Gls	Fls	Pts
Prentice, r. f.	4	5	13
Mackey, r. f.	0	0	0
Halligan, l. f.	5	4	14

NORWICH FENCERS TAKE MEASURE OF VERMONT

Norwich fencing team defeated the representatives of Vermont, nine bouts to three, in the Catamounts' first match of the year.

The fencers have shown a vast improvement over last year according to the coach of the Cadet fencers. After another year's training we should be able to break about even with the Norwich sword wielders.

In the opening match, Wallace (N.) defeated Goyette (V.), 5-3. Lael (N.) defeated Chamberlin (V.) 5-4. Robson (N.) defeated Stevens (V.), 5-3. Calcagni (N.) defeated Koutsoncolis (N.) 5-4. Pendoo (N.) defeated Rich (V.) 5-1, and Amsden (N.) defeated Musgrove (V.) 5-2. In the second match Lael defeated Stevens, 5-4. Robson defeated Musgrove, 5-4. Rich defeated Koutsoncolis, 5-3. Pendo defeated Chamberlin, 5-2. Goyette defeated Koutsoncolis 5-4, and Wallace defeated Calcagni, 5-2.

WINTER SPORTS

Located in one of the most favored [illegible] spots in the country for hills, [illegible] and ice, it is surprising that we of Vermont have not taken up winter sports in a more progressive fashion. There is no reason why a winter carnival should not be held at this university if the students would take more interest in that field.

Last year our sister state university, New Hampshire, accomplished much towards furthering this outdoor sport. The winter carnival is looked forward to as an occasion of the year and hops break the monotony of the long study season. Gaining stature in many events New Hampshire has become nationally known in that field.

Other schools smaller than Vermont have gained a name for themselves by placing teams in these inter-collegiate winter meets. We have been backward in taking this up and if we are to progress we should support these events more liberally.

GOLD KEY PADDLES

Many Freshmen attended a meeting of the Sophomore society last week and were paddled. A number of them took this as a matter of course and vowed not to get caught the next time. Perhaps a few thereafter wasn't the matter thought that were being treated unjustly.

We wonder why Freshmen break rules. Each year it seems to be more prevalent than the year before. Is it because we are losing spirit? Are we [illegible] planning by our support of the University and its activities, as athletics when viewed by a Freshman [illegible] think it is perfectly correct to break rules?

If such is the case Freshman rules are of little avail. They are not to be blamed for trampling on tradition and devoting to breaking regulations.

Elizabeth White '28 and Lillian Marsh '28 will represent the local Y. W. C. A. at the New England Regional Conference to be held at North Field, Mass., on February 10, 11, and 12.

Professor G. G. Groat addressed the regular monthly meeting of the Unitarian Laymen's League last Thursday evening. He spoke on the political conditions in Russia.

ONE SLIPPERY DAY

"Oh!" she cried, "I m slipping!"

"Well why don't you fall then sir?" I asked maliciously.

I [illegible] she said "b. bu, but you [illegible]

"[illegible]

"I think you're mean, the meanest man I ever met!"

[illegible] I [illegible]

[illegible] I turned aside and blushed furiously. When she finally got up again I was still hiding my face.

"Why didn't you help me?" she taunted. "Are you laughing?" With [illegible]

"Well, aren't you ever going to get up?"

"How can I [illegible] a large chunk of her fur coat, "when you haven't moved since we landed? Besides I think it was here. She said not to get into any entanglin' alliances, but I won't tell her." I compromised.

Thereupon she got up again and started [illegible] her coat once more.

"Don't do that!" I exclaimed upon arising. "Remember what happened last time?" Rubbing my head where it had become acquainted with the pavement, I started to move away.

"[illegible] you aren't going to leave me like this!" she whined.

"C'mon then," I said grabbing her by the arm. "Where do you live?"

"It's down the hill," she replied, somewhat pacified.

About an hour later I left her at her home.

"I'm so glad that we met," she cooed.

"I think you're perfectly stunning," I said rubbing the sore spot on the back of my head. Turning, I left her. It sure had been a slick time!

Communications

To the Editor of the Cynic:

You will be interested in a letter which came to us this morning concerning your story on "Practical Jokes of a Half-Century Ago," which appeared in the Cynic and was reprinted in *The Alumni Weekly*.

A recent issue of *The Alumni Weekly* ran a story, quoted from the Cynic, entitled 'Practical Jokes of a Half-Century Ago.' Could you impress on the minds of those terribly young things who edit the Cynic that they should be accurate in their statements, or somebody's feelings might be hurt? Carl Harris and Dudley Hopkins [illegible] were the heroes of those jokes were in the class and we have not had our FORTIETH yet. An inch counts on the end of a man's nose.'"

E. C. W., '89.

Very truly yours,
MARGARET A. PATTEN
Secretary, Alumni Council

ATHEISM NOT IMPORTANT WITH COLLEGE STUDENTS

[illegible]

"Atheism among college students is of no important consequence," Dr Samuel Parkes Cadman, minister of the Central Congregational Church, of New York, told a reporter for the *Harvard Crimson*. As these students grow older they will come to realize that there is a God, he continued. "Students as well as other people often confuse the term God. It takes in a broad sweep of meanings. People who call themselves atheists really are not atheists at all. Any one who has any ideals at all, which are worth while, could not be an atheist."

Asked if he thought college chapel exercises should be made compulsory, Dr Cadman replied:

"They are no longer necessary in colleges. Many institutions still insist upon students attending chapel, but a great many have abolished the idea and in a university like Harvard it is indeed justifiable. The mere fact however, that there is no required chapel attendance does not mean that one must turn his back upon it. President Angell, of Yale, told me recently that voluntary attendance had proved more satisfactory at Yale than the old system.

"Oh, I Ain't Gonna Slip No More"

(Tune: It Ain't Gonna Rain No More)

Oh, it rained last night in Burlington,
[illegible] has turned to ice
You know the [illegible] down you fall
Now I ask you: Is that nice?

Chorus: Oh, I ain't gonna slip no more, no more
I ain't gonna slip no more
I fell the hall and I took a fall, but
I ain't gonna slip no more!

We saw a prof come down the street
A slipping just like drunk.
His feet flew out from under him,
Fell flatter than a flunk.

Chorus: Oh, I ain't gonna slip no [illegible]
I ain't gonna slip no more
My pants I tore, my back is sore, but
I ain't gonna slip no more!

A pretty coed wrapped in furs
Came out of the Old Mill.
One foot went north, one foot went South.
Gosh! What an awful spill!

Chorus: Oh, I ain't gonna slip no more, no more.
I ain't gonna slip no more
My girl, at last, is falling fast, but
I ain't gonna slip no more.

I slipped my barber five last night.
Asked him to buy me gin.
It must have slipped his mind, it seems
That was a barber's trim.

Chorus: Oh, I ain't gonna slip no more, no more.
I ain't gonna slip no more.
Ain't broke it yet--my hip ain't wet.
So I ain't gonna slip no more!

North: I'm gonna keep a quart of Scotch in my room.
South: How long—two hours?

The Dopefiend

NANI GILCAS

Now that the Black Panther has been tamed for a while, we can begin to see light of the state hoop championship. With only Norwich and Middlebury to defeat again to clinch the bunting there is little doubt but that it will be hung in good old Burlington again. By the size of the scores ran up against the state teams it is evident that no team could touch Vermont this season.

The score should have been much higher, but the Cats had a jinx on some of their shots, especially in the first half. Many of them would roll around the rim only to fall the wrong way. By quick, accurate passing, however, many baskets were made from the tap-off that sure did surprise the Boys in Blue.

In spite of all the coaching that the Middlebury mentor was giving his men from the sidelines, his quintet could not hold the Cats. Once Halligan started down the floor and then out, there was neither man nor beast that could hold. "Tim" and "Bunny" are going great, and in closing, watching Prentice many times, Halligan is forgotten and he slips away to get a two-counter.

The greatest amateur meet of the world opened last week when the Olympics made their entrance at St. Moritz, Switzerland. There are about 900 athletes there for the winter sports.

Basketball results for the weekend were:

Vermont 29, Middlebury 23.
Penn 34, Cornell 18.
Fordham 24, Holy Cross 18.
C. C. N. Y. 31, Catholic U. 29.
Navy 48, Lehigh 41.
Yale 40, Williams 30.
Dartmouth 44, Harvard 31.
Princeton 30, F. & M. 15.
Wisconsin 38, Minnesota 18.
Indiana 50, Iowa 33.

OUR FACULTY

DEAN HILLS

Joseph Lawrence Hills was born in Boston, Mass., on March 2, 1861. He received his secondary school training at Boston Latin High School and pursued a baccalaureate course at Massachusetts Agricultural College. He received his B.S. degree from M. A. C. and B. U. in 1881 and in 1903 a degree of D.Sc. from Rutgers.

He was assistant chemist of the Massachusetts Agricultural Experiment Station, 1882-83, and also of the New Jersey Agricultural Experiment Station, 1884-85. In 1885 he accepted a position as chemist for the Phosphate Mining Company of South Carolina, and in 1888 accepted a similar position in the Vermont Agricultural Experiment Station. In 1890 he was made instructor in Agricultural Chemistry at Vermont and professor, 1893-1902. In 1902 he was made Professor of Agronomy, which retained until 1913. He became Dean of the Agricultural College in 1902. He is a member of Kappa Sigma and Alpha Sigma fraternities.

He has traveled extensively through western Europe, has published reports and bulletins of the Vermont Agricultural Experiment Station, miscellaneous technical papers, addresses, etc. He has been Secretary of State Board of Agriculture and Forestry, and Secretary and Treasurer of the Association of American Agricultural Colleges and Experiment Stations.

What Price Education

(From the Daily Kansan)

Superiority of the lecture over the class discussion system is indicated in experiments carried on by Ralph B. Spence and Goodwin B. Watson, professors in Teachers College, Columbia University, according to a recent issue of *The New Student*.

A class in educational psychology was divided into two groups, one of which used the lecture system, and the other discussion. The order was reversed during the second semester, and in each case tests indicated greater learning from the lectures.

"This would seem to be a conclusive indication that the student learns more facts from a lecture than he does from a discussion course. It does not show how much he has lost in the lecture course through being able to learn facts without having to understand them.

Merely to sit recording words while an instructor lectures does not require mental labor to any great extent. Because one student has learned more dates and details in a course than another it does not follow that he is the more educated.

In a course where discussion is lively and intelligent, where students are urged to give their opinions freely, there is an educational value derived which cannot be measured adequately but which is of prime importance to the students.

The value an individual has received from a college training cannot be estimated by a fact or [illegible] criterion. This is a point which is often forgotten by people who say [illegible] money spent educating certain students is wasted; that their education has done them no good.

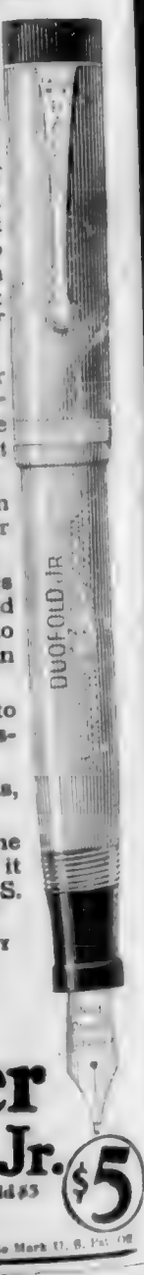
Is all you need to pay for the world's finest pen!

Here's the world's easiest writer due to Parker Pressureless Touch! A fine ink channel ground between the prongs of the point brings capillary attraction to the aid of gravity feed, causing an immediate and steady ink flow at touch of point to paper. No pressure from the fingers. The light weight of the *pen itself* is sufficient.

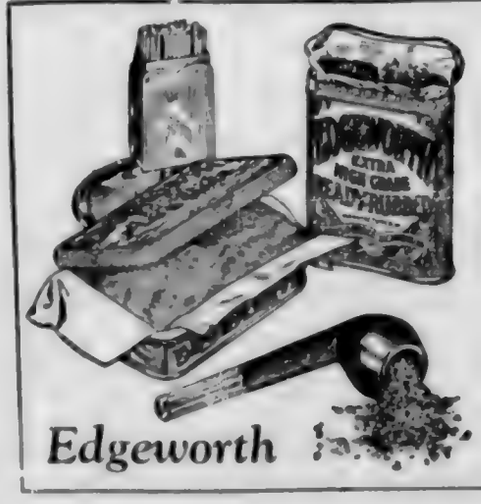
Here, too, is Parker Permanite Material—*28% lighter* than the rubber formerly used, yet *100 times* as strong.

Parker Precision in manufacture still further insures accuracy.



5 flashing colors, 3 sizes of pen barrels, 6 graduated points, leave nothing to be desired in a fountain pen *at any* price.

So pay $5 or $7 only to get a *permanently* satisfactory pen.



Pencils to match Pens, $3, $3.50, $4.

Be careful to get the *genuine*. You'll know it by the imprint, "Geo. S. Parker—DUOFOLD."

Coolidge Favors Narrow Trousers

President Coolidge's stab at collegiate trousers when he complemented a preparatory student for not wearing them is not to be taken with extreme seriousness by Temple men. "Oxford bags" will continue to sweep the streets in spite of the executive's remark. They are as much a part of the student's individuality as his interest in learning.

That the President should take time to criticize college and preparatory boys' apparel gives us a glimpse of the type of humor he expresses. While the statement is not as witty as some of the things a Congressman might say, it does show that the chief government official is a keen observer in the little details of American life, even though his discussion contains no "food for thought."

Fordham repelled Holy Cross last night for its twelfth victory in thirteen starts, 24-18. It was a hotly-contested game and the Purple quintet threatened to clinch a victory in the final quarter

receive. Being one of such a group develops the capacity for contribution and develops character.

The Floating University will arrive in Japan at the time of the Coronation of the Emperor. This event will occupy twenty days. It will be a great occasion and a most favorable time for us to visit Japan. The Coronation of an Emperor in Japan has a meaning to the Japanese people far beyond any similar event that could occur in any other country, as the present dynasty goes back to the beginning of known history in direct line of accession.

The latest addition to the faculty of the University Afloat is Dr. Edward Allsworth Ross the eminent sociologist of the University of Wisconsin.

On the coming trip there will be students from all the Central and South American countries visited by Colonel Lindbergh with the addition of Brazil.

THIRTY-SIX CHAPTERS AT ALPHA ZETA CONCLAVE

On the 29th, 30th, and 31st of December last, Alpha Zeta, the national honorary agricultural society, held its thirtieth anniversary conclave in New Orleans. Delegates from 36 states were in attendance. Vermont being represented by L. I. Peet, president of the local chapter.

Alpha Zeta was founded thirty years ago to foster scholarship and leadership among the men in the agricultural colleges of the country. From its first chapter at Ohio State University the movement has spread to 36 chapters in as many states. It has 8,000 alumni and active members as well as honorary members throughout the colleges and among the leaders of the nation. The 550 members now active in its 36 chapters are the highest ranking students in the two upper agricultural classes of their colleges.

One delegate from each chapter was present at the conference to discuss the agricultural problems of state and nation and the place of unified action and leadership in agriculture today. The keynote of the convention was service.

Dr. Thompson, speaking before the conference declared:

"The people of America are endangered by the idea of *getting* in stead of *serving*. America needs leaders in Agriculture; not merely chemists but business men and marketing experts. There must be efficient exchange and distribution. Fraternity was first fellowship, then scholarship, and now fraternity."

Alpha Zeta stands for scholarship as a primary requisite without which no one is eligible to membership. It is to this group that Agriculture must look for its future leaders, for substantial aid and general improvement.

PLATTSBURG NORMAL BEATS KITTENS 35-29

[illegible] defeat was handed to the [illegible] Tuesday night, when they [illegible] to Plattsburg to battle with [illegible] Plattsburg State Normal School [illegible]. The final score stood 35-29. [illegible] is an excuse for the defeat, as [illegible] game was the climax of a hectic [illegible].

[illegible] Freshmen used the frozen lake [illegible] road, and unfortunately struck [illegible] soft spot in the ice, the rear end [illegible] the last car going through. It took [illegible] an hour and a half to pull the [illegible] on the surface and resume [illegible] journey, so the game, which was [illegible] scheduled for 7:30 actually began at [illegible] 9:45.

[illegible] Kittens played a good brand of [illegible] throughout the first half, the [illegible] ending 15-13 in favor of Vermont [illegible] the whistle blew, but in the [illegible] period they were unable to [illegible] their opponents, who forged [illegible] ahead slowly but steadily.

Sargent played the same brand of [illegible] that he has exhibited throughout [illegible] season. He was high scorer for [illegible] teams, having 13 points to his [illegible] when the final gun went off. [illegible] also showed up well in the [illegible] leaving the floor with 10 [illegible] to his credit.

[illegible] was plainly handicapped [illegible] harrowing experiences and the [illegible] of the floor, which was much [illegible] than that to which they were [illegible] accustomed.

(Continued on page 3)

KAPPA SIGMA HOLDS ANNUAL INITIATION

[illegible] Lambda of Kappa Sigma held [illegible] annual initiation last Monday [illegible]. The new members are A. E. [illegible] '30, F. H. Woodward, '30; [illegible] burg, Mass.; W. E. Craig, [illegible] Mass.; R. W. Allerton of [illegible] Grange, N. J.; R. G. Adams of [illegible] F. Lynch of Burlington; [illegible] of Burlington; all of the [illegible]. The formal banquet will [illegible] Saturday and delegates [illegible] from various other chap[illegible] district.

[illegible] Nu Fraternity has definitely [illegible] for their formal initiation [illegible] which will take place on [illegible]. It is expected that numer[illegible] will come to the Vermont [illegible] House at that time to wit[illegible] event. An informal initia[illegible] the usual indoor type, was [illegible] February 8 at the Sigma Nu [illegible].

ENTRANCE EXAMINATION RESULTS MADE PUBLIC

The winners of the prizes in the Howard Entrance Examinations for Freshmen as announced in chapel Wednesday morning by President Bailey are as follows:

First prize in the Latin exam went to Esther C. Mandigo of Richford, the second prize to Caroline S. McGennis of Lyndonville. The mathematics prize was earned by Sarah L. Wescott of Burlington.

CATAMOUNTS TO PLAY SPRINGFIELD QUINTET

Green and Gold Hoopsters Will Attempt to Raise Their Number of Consecutive Victories to Eight

The Catamounts will attempt to bring their total of consecutive victories to eight when they meet the strong and aggressive Springfield hoopsters this evening at the U. V. M. gym.

The Springfield team is undoubtedly the strongest team that Vermont has to meet this season. Critics have placed this year's Bay State quintet among the best in the country. Fordham is the only team to defeat the Y. M. C. A. team which has won twelve straight games to date. Springfield has conquered such fast outfits as Upsala, Dartmouth, Rutgers, B. U., Harvard, Mass. Aggies, Amherst, Northeastern and R. P. I. Most of the wins annexed by Coach Hickox's men have been decisive. Several of the men who will appear on the floor tonight were seen here in last year's game which was so hotly contested and finally won by the local five with a three point margin. Wagner and James are exceptionally high scorers and so far have had no trouble in running up enormous totals against all opponents. An interesting shooting battle is expected between Prentice and Halligan and the two Springfield cracks.

After the first few games on the Vermont schedule the Green and Gold team was not conceded a chance to win over a few of their remaining rivals one of which is Springfield, but, at the present time, in view of the manner in which the Catamounts are passing, shooting, and defeating all their opponents with ease, they will take the floor this evening with an even chance to show that they should be classed with the topnotchers.

The probable line-ups:

VERMONT		SPRINGFIELD
Prentice, r. f	.....	Clark, l. g.
Halligan, l. f.	.....	Nordyke, r. g.
Marvin, c.	.....	Wagner, c.
Estabrook, r. g.	.....	James, l. f.
Price, l. g.	.....	Duncan, r. f.

NEWS IN BRIEF

The Newman Club, composed of all the Catholic students at the University, will hold its next regular monthly meeting next Sunday morning in the Cathedral High School gymnasium. The meeting will be preceded by communion at the eight o'clock mass at the Cathedral, and a breakfast to be served in the High School gymnasium. It is expected that much important business will be transacted at this meeting.

News comes from Norwich to the effect that the cadets can not burn lights in their rooms after 11 o'clock at night. Poor things!

H. A. Mayforth has received an invitation from the Rutland Exchange Club inviting the Vermont basketball team to attend their annual Carnival and play against the University of New Hampshire. Vermont has one open date on February 19, and if it can be arranged they will play New Hampshire at Rutland on that date.

There will be no more dances after basketball games for the rest of this season.

The Glee Club is working on the comic opera "Le Medicin malgré lui," (The Mock Doctor) by Gounod, composer Faust, text after Molière. Professor Metcalf will be the dramatic director, as last year. This will be given May 4.

Work has started on the Lenten Easter Concert, which the choir will give March 25th, assisted by the glee clubs.

JUNIORS!

Questionnaires and honor lists must be given to Charlotte Cleveland or to R. E. Young immediately.

UNIVERSITY BAND MEN READY FOR KAKE WALK

With Kake Walk but a single week away, the University Band is very busy these days, rehearsing, and it looks as though the people were going to be given a musical treat. A program of special music will be rendered by the band, which will include classical selections, and many of the recent popular hits. Very little needs to be said as to how the band can pep things up, and it might be wise to bolt down the gymnasium roof more securely in preparation for the promised musical for the 58 pieces, which make up the band, sure can get things to shaking and flying. The entire band is doing its all, all that three seniors, seven juniors, 17 sophs, 21 freshmen, and four medics, especially the frosh, can do, to put Kake Walk over big. Of course the band will play "Cotton Babes," this year; Kake Walk wouldn't be Kake Walk without that!

The band has other matters upon its mind, just now, but for the present they are subordinated to the event of events, Kake Walk. There is the matter of the spring concert, for instance and, too, there's all those out-of-State engagements to pull off.

A fine spirit of co-operation prevails in the band, between the members, who are eager and restless to help show the world what U. V. M. can do in the way of entertainments, and "Joe" Lechnyr who has already shown that he has the interest of Vermont at heart. At the rehearsal of February 7, 57 of the 58 members of the band were present, and last Friday, 56 were present.

ETA SIGMA PHI ELECTS OFFICERS AND MEMBERS

Zeta Chapter of Eta Sigma Phi, which won much distinction several weeks ago, with its splendid production of "Iphigenia Among the Taurians," held initiation for eighteen new members, on February 14, at the home of Harriet and Susan Howard.

The neophytes were as follows: From the Class of 1929, Elizabeth B. Hazen, Clinton, Mass., and Genevieve P. Hook, Burlington. From the Class of 1930, Elizabeth P. Butler, Danvers, Mass.; Marion Cooney, Burlington; Marion Harran, Burlington; Ethel Heller, Claremont, N. H.; and Julia Waterman, Vergennes. From the Class of 1931, Jetta C. Buckley, Wilmington; Dorothy M. Brown, Montpelier; George R. Brush, Arlington; Lena E. Cochran, Stowe; Helen Drugg, Winchester, N. H.; Virginia A. Goodenough, Jewett City, Conn.; C. W. Knapp, Freeport, N. Y.; E. E. Mack, Orleans; Esther Mandigo, Richford, and Jean Wappler, Rutherford, N. J. Dorothy Cottrell of Boston was elected associate member.

The initiation ceremony was followed by the installation of the following officers by Professor Samuel E. Bassett: Prytanis, Elizabeth S. White, '28; Epi-Prytanis, Muriel E. Richardson, '28; Epistolographus, Margaret A. Durick, '29; Pylordes, E. O. Bundy '30.

REDSTONE HALL SCENE OF SENIOR WOMEN'S TEA

A tea for the senior women, was held by the Burlington Branch of the American Association of University Women, at Redstone, on February 14. Mrs. F. D. Carpenter, with Miss Patterson and Miss Storms as hostesses. A very interesting report of the meeting of the North Atlantic section of the Association, which was recently held at Boston, was given by Mrs. F. D. Carpenter.

Harvard Bans Initiations

We are informed by an exchange that Harvard University is considering doing away with all initiations on the grounds that they are too childish and are out of keeping with the dignity of the institution.

Miss Mary Davis, '29, and Mr. G. Basilicato, '31, have been added to the University choir. There are a few more vacancies for men, especially tenors.

Eligibility Advisor Declares Marks of Athletes Better Than Average

Manager Fogg Receives High Praise for Year's Work and is Awarded V Sweater—A. W. Phelon, Jr., Elected to Succeed Him as Eligibility Manager

Professor D. B. Carroll, faculty advisor of the eligibility department stated that during the last semester the scholastic standing of athletes was higher than that of the whole student body. He supported his statement with the summary of the report of H. H. Fogg, retiring eligibility manager. This summary shows that of the freshman 44 given assistance, 24 are in good standing, 12 are under warning, and eight have left college. In the three upper classes, the corresponding figures are 51, 38, 13, and three.

A. W. Phelon '29 of Springfield Mass., was elected to succeed H. H. Fogg '28 as Eligibility Manager at the recent elections. Phelon is a member of Zeta Chi Fraternity and is prominent in several college activities.

E. O. Bundy '30, J. M. Moore '30 and H. M. Macomber '30 were elected assistant managers for the coming year. Bundy is an honor man. Moore is a member of Sigma Alpha Chi Fraternity and is also an assistant business manager of the Cynic; Macomber is a member of Delta Psi Fraternity and is an assistant manager of football and a news editor of the Cynic.

Fogg was awarded a sweater and a "V," similar except in color to that worn by the cheer leader, for his service in the department.

Fogg has left a record behind him which would be hard to equal. He devoted himself to his work and as a result he attained better results than any other former manager in the department.

Former eligibility manager H. H. Fogg '28 has tendered the following report of the work done by the department during his period of office to the Athletic Council:

One meeting was held with fraternity representation at which about twenty-five men were present. Plans were discussed at this meeting as to how the various fraternities might co-operate with the department in keeping their men up in their work. It was found that nearly all fraternities had study hours and that all but two had supervised study hours, that is, all low men were given help by their brothers.

Two sets of Grader were obtained during the first half of the college year. There were 69 men on the last list, that were looked up. A comparison of December marks showed that the Freshmen were doing better work than the Sophomores in the department in respect to their scholastic standing. Special attention was given last year to getting men out from under warning at finals. Also the department kept track of make-ups.

The department started with nine scrubs and finished with five, three of whom have been elected assistant managers.

Several new customs were adopted this year by the department.

First, letters were sent to all low men connected with the department advising them of their scholastic standing.

Second, conferences were held between the manager and faculty advisor and the low men who were of value to the department. Besides these conferences there were many held with the manager alone.

Third, letters of appreciation were sent to those men who assisted either in tutoring or coaching low men during the year.

For the first half of the college year 19 men had tutors outside of their own fraternity houses. This is an increase of 10 men over last year. About 20 men received special help in their own fraternities and some received both help in their fraternities and outside also. In all about 40 men were probably helped this year.

The approximate time spent by the manager this semester was 250 hours. Tutoring which the manager did alone amounted to about 100 hours.

A picture of the Athletic Council was taken at Burnham's studio on Wednesday afternoon at 1:15.

WINTER SPORTS TEAM SET FOR NORWICH MEET

As a result of the recent winter sports meets a team has been chosen to represent Vermont at Norwich in the annual meet at Northfield next Saturday afternoon the 18th.

L. G. Cowles '29, B. D. Smith '28, A. N. Phelon '29, N. C. Wood '29, R. J. Maynes '31, and C. S. Buxton '31 are the men selected for this meet. Buxton and Maynes, new men at the University, have shown up very well and will probably enter in ski-jumping events.

Vermont has been invited to be present at various other meets in the state and no doubt will add some of these dates to their schedule.

RIFLE TEAM SCHEDULE INCLUDES FORTY TEAMS

The University of Vermont announces the following schedule for its indoor Rifle Team for the season 1928:

Corps Area Match, Feb. 18, Kemper Military School, Feb. 18, Wofford University, Feb. 18, Creighton University Feb. 18, Ohio State, Feb. 18, Iowa State Feb. 25, Delaware University Feb. 25, California Feb. 25, Carnegie Institute of Technology Feb. 25, Conn. Agricultural College Feb. 25, North Dakota University March 3, Dennison University, March 3, Utah Agricultural College March 3, Mass. Institute of Technology March 3, Oregon Agricultural College March 3, Syracuse University March 10, Mass. Agricultural College March 10, Davidson College March 10, Nebraska University March 10, Rhode Island State March 10, Kansas State College March 17, Alabama Polytechnic Institute March 17, University of Nevada March 24, Lehigh University March 24, Mass. A. & M. March 24, Georgetown University March 24, Western Maryland College March 24, Coe College March 24, Depaw University March 31, Culver Military Academy March 31, Oklahoma A. & M. April 14, Hearst Trophy April 14, Virginia Polytechnic Institute April 14, University of Cincinnati April 21, Georgia School Technology April 21, and Johns Hopkins.

This institution has adopted the *new* fifty foot N. R. A. indoor target and will use it in all of their matches.

This schedule was drawn up by C. F. Morse '30 manager of this year's rifle team. The team is progressing nicely under the instruction of Sergeant Lindsay. This year's freshman class has ousted many of last year's regulars.

CONWAY AND PRENTICE ARE APPOINTED MAJORS

Promotions in the three upper classes of Military Science have been announced by the Military Department.

John T. Conway, a member of Sigma Phi fraternity, Boulder Society, Scabbard and Blade and captain of football has been appointed Major, also Howard A. Prentice, a member of Delta Psi, Boulder, Scabbard and Blade and captain of basketball.

Captains have been appointed as follows: Crawford M. Adams, Porter C. Greene, Lawrence H. Marvin, Rolfe W. Shoppe, Charles H. Stevens.

Rex Morse has been promoted to the position of First Lieutenant.

The following men, formerly corporals are now sergeants: E. G. Ball, F. E. Beckley, J. H. Chilson, C. W. Derose, A. L. Frechette, N. H. Gray, A. L. Knapp, H. M. Macomber, F. J. Reed, A. I. Sirois, P. M. Perry, E. H. Powell. Color corporals, N. K. Chaffee, J. E. Emmons.

Men appointed corporal are as follows: P. C. Andrews, M. L. Bullock, Jr., E. O. Bundy, H. M. Burstein, L. O. Clayton, L. M. Donahue, P. E. Mann, E. Mills, T. Olson, R. G. Lawrence, F. B. Peach, W. J. Slavin, A. D. Sterns, R. J. Stone, S. C. Towne, A. M. Wallace, and A. L. Hardwell.

FRESHMEN!

Class Pictures of the class of 1931 will be taken this afternoon at 1:30 in front of the Billings Library. Gold Key will take attendance.

Vol. 40 February 12, 1929 No. 31

CHAPEL.

Winners of the prize entrance examinations were announced in Chapel Wednesday morning. Along with the regular service the Men's Glee Club rendered an excellent selection with 123 students and about 20 members of the faculty in attendance. Does this seem to be a representative group of our University membership?

A week ago Wednesday Doctor Tuppet conducted the service and gave an inspiring talk. Perhaps 75 students and 12 faculty members were present.

Last year when mid-week chapel service first started we feared that it might be compulsory, but it was left to the student body whether or not they should attend. The Chapel hour was fixed in the middle of the forenoon, as it has proven more convenient to the students than an earlier hour. Those having an early classes are not asked to rise at eight o'clock to attend the service.

For students not attending the exercises during this period the thirty minutes is practically wasted. Little work can be accomplished in one-half hour and the ever present conversation may be carried on at another time.

Official Chapel is only once a week at Vermont [illegible] several other of the older New England universities have it but a day. This institution has received from early American history and has proved to be a blessing in helping to edify the undergraduate.

No other occasion brings the entire student body together. The unity of the undergraduate body has suffered and is being wrecked to the spirit as members of this University.

Undergraduates often fill our Chapel on Sunday afternoons for less reason than we to fill it on Wednesdays. Must we present other people to show us the way?

The Cynic will be very glad to print any comment pro or con on this subject.

The University of Delaware is again sponsoring a Foreign Study group for the fifth year. Courses are given at the University of Paris, Nancy, Berlenge and various other institutions for students. The latter go to France for a year's study under special tutorship of assigned professors.

Campus Comment

To the Editor of the Cynic:

Dazed as I was watching Gloria Swanson's expert portrayal of Sadie Thompson the team of admiration was rudely interrupted by loud and enthusiastic cheering in the lobby. Having heard so little genuine cheering since coming to Vermont I was a bit somewhat startled. When I inquired about the nature and cause of this uncouth outburst I was informed that a local high school had emerged triumphant from a basketball game and the students were taking this means of advertising the fact.

Yet while high schools cheer, we on the Hill gaze down upon them with lofty disdain. We're too old and sophisticated to show school spirit. Harvard, Dartmouth, Yale, Princeton are not. We have nothing to back? Oh, yes, we have—some of our teams are fairly good, others exceptionally good. What, then, is the matter? As far as I can see, there are two big reasons: 1. The Students. 2. How They are Treated.

It has been said that Vermont is a grown-up high school. This is essentially true; especially among the Frosh. Foolish meaningless jokes; nonsensical, yet biting remarks; lack of real effort or ability along any particular line; the desire to finish one's work as soon as possible doing no more than is absolutely necessary—all these are ready evidences of the spirit that abounds. We can't expect to draw the cream of young manhood—we haven't the attractions so necessary in this age of competition. Yet why take the sour milk? We're dead up here! That's why so many of our opponents leave us. That's why so many worth while men fail to return after their Freshman year.

Nor are we at all times to blame for our lack of vitality. We're sadly burdened with obsolete customs, false in important societies grossly overstepping their legal functions, six to eight hours weekly of extra-curriculum subjects and many inexplainable teaching methods.

We're required to arise at 6:30 in the morning to attend a Military Hygiene lecture on the importance of obtaining plenty of life-giving sleep. Here we also learn such new and startling facts as that modern cities have adequate garbage disposal and that carbon monoxide (fumes from automobile exhausts) kills many people annually. We must spend five or six hours on map work, which material could be grasped in a few minutes of sensible, concentrated study. With two or three quizzes or hour tests on the morrow, we (the frosh, at least) have to erect bleachers, attend the game, and then take the seats down, getting back to our studies at the time when we should all be asleep. It is vitally necessary that we erect bleachers during the progress of an outdoor athletic meet on the back campus.

During the first few weeks of school—that period so vital in obtaining a secure foothold in new surroundings—we met with upperclassmen's demands to do this or that, attend meetings and go on one-way automobile rides. Fair? Necessary? Wise? What do we get out of them?

Reform of any kind is unpopular. Human nature does not like to leave the well-trodden path. It's too easy to pursue. Every time some suggester of a reform puts in his oar he starts a row. But if we succeed in rowing up the current to reach a desirable point not merely drift lazily along with it, have we not accomplished something worth while?

Sincerely yours,
U. THINKAMY, '31

To the Editor of the Cynic:

Old Mother Nature must have taken pity on the Outing Club and its Winter Sports Meet for she sent about six inches of good old Vermont snow for the Owls and Kappa Sigs to do their stuff on. These two fraternities are to be congratulated on the splendid spirit in turning out for this meet.

It is about time that Vermont tried to make something out of the physical possibilities of our mountain state. Other New England colleges of even smaller size than Vermont have gained a high position in the world of out-door sports. Just why it is that Vermont has never been prominent in this line of athletics is hard to find out. Probably the biggest reason is the lack of an interesting and energetic person or organization. It would seem to the writer that the Athletic Department of the University would be the logical organization to sponsor such an enterprise.

However this particular body has not seen fit to make any financial appropriation so that this line of sport might function as a credit to the University and not otherwise as it has in the past. Just what is in store for the future is not known but I hope it will be something that will bring honor to the college and not a horse laugh as it has in the past.

—AN OBSERVER

To the Editor of the Cynic:

If one will somehow secure the last issue of *Boys' Life*, he will see that one of the short stories printed therein bears the signature of our own George R. Nelson, of the class of '31. The story, 'His Chance,' by name is full of spirit and fire; it is especially marked by its gayety, and somewhat subtle expression. Now, wouldn't it be just like George to say: "Weeding a garden' Work for thoughtless, unimaginative people. Didn't the noble Indians leave such work to their squaws?" No, we are not at all surprised that "His Chance" is one of the sixteen short stories which were judged prize-winners in the short story contest for boys conducted some little time ago by the *Boys' Life* magazine. Good work, George. Congratulations! —'31

Aunt (to Elsie, who is getting up very late): "When I was your age I watched the sun rise every morning."
Elsie: "Why, Auntie, I've never stayed out as late as that!"

Quality sent P.A. to the head of the class

YEARS ago, P. A. showed a clean pair of heels to the field of smoking-tobaccos. It has maintained its lead ever since putting more distance behind it every year. There must be a reason why P. A. is the world's largest-selling brand.

There *is!* Open a tidy red tin and get a full breath of that class-by-itself fragrance. Then tamp a load into the bowl of your pipe and light up. The first pull tells you why more men smoke P. A. than any other brand. Cool and smooth and mellow and mild—not for one pipe-load, but always. Try this long-burning tobacco, Fellows. You'll say so!

PRINCE ALBERT
—*the national joy smoke!*

If you vibrate to quality, you'll gravitate to P. A.

How Will You Pay Expenses Next Year?

Several hundred college men solved their tuition problems this year through the money-making opportunity offered by the Scholarship Department of GOOD HOUSEKEEPING and COSMOPOLITAN Magazines. A liberal salary, bonuses and prize awards are available to any man who wants work during the summer vacation.

Positions as salesmen and district captains are still open for men in your college.

If you are interested in making money next summer call and see or write for particulars to

J. G. GRAHAM, *District Manager*, 616 Province Bldg., Boston, Mass.

Track Dope

By E. R. L.

Need for Dash Men

Indoor track practice in preparation for the spring track meets will begin Monday after Kake Walk.

On paper this season's track team is far from promising primarily owing to the fact that it lacks balance, and that in many events there does not seem to be a field large enough to compete successfully in a dual meet.

The weights, jumps, and distances seem fairly strong, although we shall greatly miss the versatile, record smashing Simpson.

Vermont's greatest need, however, strange as it may seem, is candidates for the very ovents which are most popular in the track program, the 100, 220, and 440

Our two dash men from last year are lost to the team. Even last year, however, this was a weak department of the team. There must be plenty of men in college who are fairly fast and who should develop into sprint men with practice and coaching. Burt Morse may develop to fill the gap left by Costine and Bray. Also there may be some material in the freshman class. Last year Middlebury cleaned up in all three places in the 220 and 440 in the State meet. Granting the invincibility of their dash man, Smith, there is no reason why Vermont should not give them a run for second and third places. Middlebury's best 440 man, Goltry, never had done track work till a month before the State meet. There must be fellows in our student body just as naturally athletic and as willing to work as elsewhere. It is these men that we urge to show the spirit that has made our track team victorious in the past for track is a sport that thrives on spirit more than any other.

At present there isn't a man in view who can run a 440 in 54 seconds. Last year we had only three men out for this event, and even two of those are absent this year. There is a big opportunity here for someone to make a letter. It certainly cannot be a source of pride to our track team that Burlington High has a man who can beat any U. V. M. athlete by 20 yards in the quarter mile

The material is here—it is simply dormant and undiscovered because it doesn't give itself a chance to be discovered. Let's have a score out for the 440, and the shorter dashes, and results are bound to follow.

Incidentally the interfraternity relays come about a month from now, and a good runner will be a welcome addition to any fraternity team

Sorority Notes

A banquet was given at the Golden Pheasant Monday, February 13 by Alpha Gamma Sigma, in honor of its initiates. Dr. Bertha Chase was present at the banquet. Dr. Susan Howard, Mrs. Thomas Brown and Mrs. H. C. Pinkham were the patronesses.

Following dinner, pledging and initiation of the new members took place at the home of Yvonne Turk, '28, 98 South Willard Street.

The new members of Alpha Gamma Sigma are: Elizabeth Small, '30, Louise Prevost, '31, Elizabeth Pingree, '31, and Adele Cohn, '31.

Non-Fraternity Man Elected

Brown is probably unique among "fraternity" colleges in having as the president of its senior class a non fraternity man.

Compulsory Military In Russia

In the colleges and universities of Russia, or rather what is now left of them, over seventy-five thousand students are enrolled in compulsory military training as prescribed by the government. Approximately 180 hours per year is spent in such a manner by these unfortunates

CHAMBER OF COMMERCE TO PERMIT ADVERTISING

The Burlington Chamber of Commerce has made an exception in its customary rule to allow members to take advertising in the Kake Walk program this year as a result of an investigation by a special committee. According to the ordinary regulations members would be prohibited from taking advertising in the program which falls under the head of school and college publications. President Bacon recently received the following letter announcing that the exception had been made.

"To whom it may concern: For good and sufficient reasons an exception from the advertising rule of the Burlington Chamber of Commerce has been made with reference to the annual Kake Walk program of the University of Vermont. Members who desire may use advertising in the program without violating the rule.

"The Burlington Chamber of Commerce by Harry L. Ford,
Secretary"

It has been estimated that [illegible] the 300,000 students who make up the class of 1931 in all the colleges and universities of the country [illegible] or 60,000 students, will drop out during or at the end of this college year and that only one-half of the original number, or 150,000, will graduate in 1931.

The picture above shows workmen assembling one of the huge Conowingo stators in the Westinghouse Works at East Pittsburgh. The men in the picture will give an idea of the tremendous size of these generators.

YOUNGER COLLEGE MEN
ON RECENT WESTINGHOUSE JOBS

Conowingo

Where do young college men get in a large industrial organization? Have they opportunity to exercise creative talent? Is individual work recognized?

• • •

AT Conowingo, not far from where the Susquehanna River flows into Chesapeake Bay, the Philadelphia Electric Company is erecting a huge dam and power house. This hydro-electric development, one of the largest in the world, has an initial capacity of 281,000 kv-a. in seven units and an ultimate capacity of 440,000 kv-a. The generators, due to their very low operating speed of 81.8 r.p.m., are much larger physically than anything yet built, each machine being approximately 37 feet in diameter and weighing over one million pounds.

Only an organization of the size and resources of Westinghouse can undertake the building of such a large machine. Westinghouse offers great attractions to young men of enterprise and genius because it daily provides facilities and opportunities which smaller companies cannot offer.

ST SPRINGFIELD FIVE DEFEAT CATAMOUNTS IN SEASON'S BEST GAME

rmonters Give Tricky Y. M. C. A. Outfit Plenty of Opposition but Lose 28-26

brought its string of victories to thirteen by Vermont Firday evening at ym 28 to 26.

doubtedly one of the fastest and thrilling games ever played on even surface. Springfield's passand around floor work was Vermont played a better before this season, but proved too much for the in the first half and halted record of seven successwins. The secore at the end of first half stood 19 to 12 in favor Springfield. In the second half Verwith Captain "Bunny" Prentice ing every point, outscored the Bay 14 to 9 but that proved to be points shy from a Vermont point It was a heart-breaking game se, but the story might have been ferent if "Timmy" Halligan had not en sent to the showers in the middle the second half on fouls. Wallace up a good fight when he filled gan's position but lacked the exience necessary in such a hectic

Captains Wagner and James led the Springfield attack. Wagner who has average of twelve points per game sixteen games was high scorer for Red and White. James gave an exhibition of floor work that will be remembered by the fans. In ting he was held to two floor baskets, one in each half, by the ver guarding of "Red" Estabrook. Prentice scored seven field goals and five of his six tries from the foul line for a total of nineteen points. He played one of the best games of his career, directing the team play, breaking up Springfield plays and working the ball up the floor.

Prentice scored the first point of the game with a foul but Springfield soon took the lead 7 to 3. Vermont took time out and then tied the score at all. That was the last time during the game that Vermont was ahead or on even terms. Wagner got loose and Springfield ran its margin up to 19 to 12 at the gun. Near the beginning of the second half Prentice scored six points with a one-handed long shot, which was the most spectacular shot of the evening followed in a few seconds by another long heave, and two foul goals. The score stood 23 to and Vermont was struggling to overcome the lead in the last few minutes. Prentice scored six points to Springfield's five and the fans were pleading for one more basket but Springfield proved too adept at keeping possession of the ball during the last minute.

Springfield uses the dual captaincy system with Wagner and James alternating. Wagner was captain during the game.

VENERABLE SENIORS APPROACH SENILITY

Seniors at Vermont will blossom out with their canes shortly after the Easter recess, sometime around Founder's Day. It is an old custom at Vermont, a stately and dignified one. The Seniors suddenly become the old men of the University; they are ready to pass out.

At present the committee, George Gould, chairman, Whitney D. Safford, and Marjorie D. Tewksbury, are selecting from the many samples from the leading merchants of the town, the best of which will be put up for final selection by the Seniors at their next class meeting.

KAKE WALK TRY-OUTS THURSDAY EVENING TO ELIMINATE TWO STUNTS

Outlines of Kake Walking Costumes and Peerade Stunts in Hands of Chairman—Record Attendance Forecast by Preliminary Seat Sale

Plans for Vermont's annual and 31st Kake Walk are nearly completed. The judges have been chosen and everything is ready. All that remains now is to eliminate two of the stunts.

This elimination will be held on Thursday night, the 23rd. Fraternities which have stunts should be prepared to give them complete that night. It is hoped that by eliminating two of the stunts and thus shortening the Kake Walk that it will make it more interesting to the people.

Outlines for the costumes for Kake Walkers were due to A. W. Shaw Friday, and plans for stunts were due last Tuesday. Outlines for individual stunts in the Peerade should be given to R. M. Whitcomb today also.

The motto of the Kake Walk committee this year is "A Bigger and Better Kake Walk," and from all appearances so far that is just what it is going to be.

From the preliminary seat sale, it seems highly probable that on February 24 and 25, over two thousand will see this University of Vermont classic. It is one of the few Vermont activities managed entirely by the students. Over two hundred prospective freshmen will receive invitations and will be entertained royally under the auspices of the Key and Serpent Society. As in former years a banquet is being planned for them.

Kappa Sigma set the record at the 30th Annual Kake Walk. The first prizes for "stunts," Peerade and Kake Walking having been taken by one fraternity. The Leary Brothers easily won the Boulder Cup, while Lanou took the Wright Cup for the second consecutive year. His presentation was "The Lazy Man's Paradise." Moreover, he acted out the part before an unembarrassable audience that seemed to be more than amused. "The Unknown Soldier," by Kappa Sigma was awarded the Briggs Cup and the large Kake. The theme was highly emotional, involving much patriotic sentiment.

P. D. HAMMOND SELECTED FOR CHEMICAL SERVICE

Information has been received by Lieut. Colonel Black, P. M. S. & T., from the Corps Area Headquarters of the selection of student Phillip D. Hammond, '29, a member of the R. O. T. C. Advanced Course, Infantry, as one of four students from institutions in the First Corps Area (Maine, New Hampshire, Vermont, Rhode Island, Connecticut and Massachusetts) to be sent to Edgewood Arsenal, Maryland, to attend the C. W. S. training camp during June and July of this year.

Edgewood Arsenal is the training center for the Chemical Warfare Service of the United States Army. The laboratories, appliances, methods of instructions and other training facilities give to Edgewood Arsenal a rating as one of the most modern chemical training agencies in the country.

Mr. Hammond is to be congratulated upon being selected for this training that will be of value to him during his senior year in college and subsequent to his graduation and the University of Vermont should well be proud that one of her son's has been so selected.

DARTMOUTH-VERMONT FORENSIC ARTISTS TO CLASH IN OLD CHAPEL

Teams to Debate Possibility of "Al" Smith for President in Old Mill Chapel, Thursday Evening, February 23

That "Al" Smith is eminently qualified to be the next President of the United States will be the contention of the Dartmouth debaters who meet the U. V. M. Debating Team Wednesday evening, February 22 in the Old College Chapel. The Men's Glee Club will render several selections on the occasion. Admission will be by tickets only. These tickets will be reserved and may be secured free of charge at the University Book Store, the Comptroller's office, the Fletcher Free Library, and at McAuliffe's.

The Oregon system of debating, the remarkable feature of which is its cross-examination, and which was used earlier in the season in the class debate and in the women's debate with West Virginia, will be discarded temporarily for the conventional, popular Oxford system. Two features of the Oregon system, however, will be retained. There will be only two men on each team and there will be no decision by specially-appointed judges.

Lawrence W. Hince and John M Leavens, both '28, will uphold the negative side of the "Al" Smith question for Vermont. Both these men are veterans of last year's crack team which took five debates out of a schedule of six, turning in spectacular wins over M. I. T., Middlebury, Tufts, Waynesburg, M. A. C., and St. Lawrence. From this debate, which is Vermont's first engagement of the season with a men's team, it will be possible to determine what chances Vermont has for a successful debating season.

It is expected that this debate will prove highly interesting. With the memories of last year's debating season still fresh in their minds, the Vermont debaters are about to tackle one of the strongest of Eastern College teams, which in itself is enough to assure a good battle. The question, moreover, is one that is expected to draw a good crowd, being one of the most discussed questions in the country and of supreme interest at the moment.

FORTY-FIVE STUDENTS SUCCUMB TO MIDYEARS

Figures from the offices of the deans show that one student in the college of agriculture, five in the engineering college and 39 in the college of arts and sciences were dropped after the midyear examinations. Detailed information was furnished by Dean Swift concerning those who failed in the arts college. Of the total number, 22 were freshmen, including six women, 12 were sophomores, of whom two were co-eds, three were junior men, and two, one of each sex, were in the teacher training curriculum. Nine students were kept on trial until Easter this year. These figures do not include some students—probably five or six—who withdrew just before the exam period. Last year from this college, 43 succumbed to midyears, of whom 20 were frosh men, 9 were frosh women, seven were sophomore men and one was a 1929 co-ed, one was a senior, and two, a man and a woman, were teacher training students. Five individuals were dropped at Christmas time in 1927, but none at that time in 1926.

Dean Swift pointed out that there has been an increase in the number of casualties corresponding to the increase in the enrollment. He also made some interesting comparisons between the number dropped from Harvard and from Vermont. His data showed that approximately 206 out of 922 freshmen, or about 22% were dismissed from Harvard for studies or discipline during one year. During last year, both after midyears and finals, 49 first year students at Vermont were dropped; adding six as a conservative estimate of the number who withdrew before they could be removed by action of the faculty, this means that about 20% of the class dropped.

Sigma Alpha Chi announces the pledging of Charles Crockett '31 of Burlington.

LECTURE ON ACCOUNTING AS PROFESSIONAL WORK

Mr A. M Peisch Certified Public Accountant, will speak to the classes in Accounting and others who may be interested on opportunities for college men in the accounting field. Mr Peisch has served as Auditor for the State of Vermont, as expert consultant cost accountant for granite manufacturers in the Barre granite district and is connected with the faculty of Amos Tuck School at Dartmouth. At 2 o'clock Tuesday afternoon, February 21, 23 North College, a group conference will follow the address for those who are especially interested.

SPRINGFIELD AND HOLY CROSS OBJECTIVES OF CATAMOUNTS THIS WEEK

Basketeers Bent on Revenging Former Defeats by Massachusetts Teams

Vermont's hoop quintet invades Massachusetts this week to meet the strong Holy Cross and Springfield fives. Both of these teams have hung defeat on the Cats, but will not find it so easy to duplicate the performance this time. Springfield had one tough battle here last Friday and won only by one basket. Holy Cross won its game during the Yale tournament when Vermont did not have the quintet that it has now. It ought to be a different story this time.

Springfield has only been vanquished by the strong Fordham five, which boasts one of the best teams in the country. They have defeated such strong teams as Dartmouth, Amherst and Connecticut Aggies. They have a fast passing and shooting aggregation, as the fans here saw, and McAvoy's men will have to go like wildfire to defeat them on their own floor. This Wagner and James are marvels for handling the ball and can drop them in from all angles. Wagner is one of the highest scorers in the eastern colleges and the outstanding center.

The Maroon and White have also a giant pair of guards who keep close watch on their men and a forward has a tough time trying to freak into the scoring column with these hanging on their neck.

The first game they bump up against Holy Cross who boasts quite a fair quintet. They have not been going so well lately losing to Fordham twice, Harvard and Amherst but are always dangerous and have defeated some fast teams including our own Vermont. However the Green and Gold hoopsters have two more chances to vanquish the Crusaders and bury that defeat at the Yale tournament.

There are two Purple men who will have to be very closely watched. These are Captain Reilly at center and Clancy, a running guard. Both are fast and consistent scorers, Reilly seldom scoring less than 8 or 10 points a game.

In the Crusaders' second game against Fordham they gave the Rams a tough battle losing by a very narrow margain. They will have an advantage by being on their own court, but they are meeting an entirely different team.

The Worcesterites appear here in the last game on Vermont's schedule. The fans will then see another fast contest to close the season and it should to a triumph for the Green and Gold.

(Continued on page 3)

FRANK SHEDD ELECTED PHOTOGRAPHIC EDITOR

At a meeting of the Cynic board held in Four North College Friday afternoon Frank G. Shedd, '29 of Burlington was elected Photographic Editor. Shedd has been a member of the Cynic board for three years, and serves in a similar capacity on the 1929 *Ariel*. He is a member of the tennis team.

During the same meeting Richard Cowles '31, of Burlington, and Louis Lisman '31, of Burlington, were elected to the board as assistant editors.

The photographic department is a new one which has been made necessary in publishing the pictorial issues. These issues will appear more often than they have in the past.

MEN'S GLEE CLUB WILL GO TO INTERCOLLEGIATE CONTEST THIS WEEK-END

Vermont Singers Will Render Three Selections, Including "Champlain"—Candidates for Comic Opera Called

Posters advertising the Intercollegiate Glee Club Contest in Boston have been received and are to be found on the bulletin boards in the Medical Building and Gymnasium. They give the names of competing colleges and the prices of tickets. The men who make the trip will be entertained by the various Boston alumni, one having offered to take as many as five.

In the contest each club will sing a song of its own choice, then the prize song, and finally a college song, in turn. The choice song in the case of Vermont is "You Gentlemen of England," by Dr. Callecot, who wrote Glees for the original club in London. The prize song for all clubs is "Broken Melody," by Sibelius. The Vermont team will sing "Champlain" as the college song.

Last Wednesday in chapel the men's Glee Club sang "Broken Melody," the prize song. It will also sing several numbers, unaccompanied, at the debate with Dartmouth next Wednesday evening in the Old Chapel.

Tryouts for the women's rôles in the comic opera, "The Mock Doctor," will be held as soon after Kake Walk as possible. Exact descriptions of the songs are posted on the bulletin board in the Y. W. C. A. rooms. "The Mock Doctor" is to be given on May 4, by the combined men's and women's Glee Clubs. Members of the choir are eligible to the chorus as well as to solo parts, with the understanding that those who are not chosen for solo parts will be willing to sing in the chorus. The clubs have already been rehearsing the chorus. Announcements concerning the spoken dialogue required at the tryouts and concerning the men's rôles will be made soon.

ESTHER CAUKIN SPEAKS ON FOREIGN RELATIONS

Miss Esther Caukin of Washington, D. C., International Relations Secretary for American Association for University Women, Tuesday, February 14, was guest of honor at a tea given at Redstone for the senior women. Miss Caukin spoke on "Adventures in International and Intellectual Co-operation." This study of international relations, she said, provides opportunity for adventures, for those who are compelled to be fireside travellers.

Miss Caukin explained that when one becomes a member of the A. A. U. W. she is also a member of the International Federation. The American Association is the largest, while those in England and Germany are next in size. The building of club houses is a main project in the associations of every country. Crosby Hall in London was recently opened by the university women of England. Students from foreign countries reside in these houses, while attending the universities.

The American Association has instituted study groups for stay at home adventurers; and international economic and political relations are therein discussed.

The modern girl, Miss Caukin said, is in need of ingenuity in social and political side of international relations.

Professor B. F. Ladd and Mr. E. F. Groth of the German department were the guests of Tau Epsilon Phi at a dinner given on Monday at the chapter house, 16 Wilson Street.

The first baseball practice of the season is called by Coach Dresser for February 27, 1928.

NOTICE!

Senior and Junior questionnaires, coats of arms of local fraternities, and roster of local fraternities must be turned in right away. The editor and manager desire this in order for the publication of the Ariel on May 10.

THE MEN'S GLEE CLUB

For the first time in history Vermont is to enter a glee club in the song festival between New England colleges in Boston. It is fitting that it should happen this year because President Bailey with Professor Bennett has cooperated with the unnamed benefactor in working to produce a glee club that will be a credit to this University. A number have also stepped forward and have offered quarters to the members during their stay in the East.

During the past three weeks the organization has held nightly rehearsals. Professor Bennett has given no small part of his time in attempting to make this group the best. About thirty have been selected to sing at Symphony Hall this Friday evening.

Some of the men are seniors and will be unable to see or take part in the next Junior Week of their underclassmen. This is also more or less of a hardship to the undergraduates. They have given a large portion of their time which might have been used to good advantage for other purposes.

Three numbers will be given during the contest. The first one is a required song "Broken Melody" a selection sung at chapel last Wednesday. The second number is one chosen by the entrant and will be "Ye Gentlemen of England." The third selection is required to be a college song. "Champlain" being entered for Vermont.

Last year Middlebury College took first place in the New England festival. She has boasted a good glee club for several years while Vermont has been backward in this finer art. The latter college lost the coveted national title by a small margin to Wesleyan at Carnegie Hall New York last year. It is possible that if our own club makes a showing in Boston it will be entered in the national contest later.

There are 11 entrants in the festival including such colleges as Middlebury Wesleyan, Amherst New Hampshire and several New England colleges of note.

One thousand and ten dollars a year not including clothes, travel expenses, vacation costs or personal luxuries, is a "careful budget" for a student at Wesleyan - The Tech.

First, nation-wide employ- agencies; secondly, the construc- tion of public buildings during the slow time of production; thirdly, un employment insurance; and fourthly, regulations governing the introduction of machinery.

In the evening Mr. Van Dusen showed how to construct a philosophy of life. Reality presents itself to men first, as obvious facts and secondly as intangible values and meaning. There are two ways by which it is possible to discover reality. One is by analysis, the method of science; the other, by synthesis, which is appreciation, intuition, dividuation. By the scientific approach, certain conclusions are reached: the incredible size of the universe, its incredible complexity, its absolute orderliness, that it is an intelligible universe and that it is not static, but a universe of progress, regular, continuous, purposeful, the product of an intelligent, purposeful power.

Sunday morning a communion service was held at the Trinitarian Church, led by Mr. Eliot of the Y. M. C. A. of Boston, who was in Burlington recently. Later in the morning Norman Thomas urged people to think in world terms. He named a black list of occupations which included: salesmanship, advertising for social purposes, and bootlegging. On his white list were: men interested in housing, engineering, law, journalism and teaching; physicians, surgeons, educators, specialists and experts. Citizenship should be an avocation.

Pitt Van Dusen's last talk concerned the sources of power. It is necessary to depend upon clear honesty of thinking. The end does not justify the means. What does build eternally is a rigid attendance to truth and power of love. This honesty must be used in crucial situations, such as the choice of a career and choice of the particular person with whom one links his life. There is a point where religion moves out beyond rationality, there it reaches the attitude of faith.

RUSHING CULMINATES IN PLEDGING SATURDAY

Forsaking the precedent of observing neutral period from Wednesday at 10 P. M. until Saturday at noon, Pan Hellenic, women's interfraternity council, has shortened this period of non-communication between fraternity girls and Freshmen to Friday afternoon at four. Parties have been held during the past week, and will continue through February 22, when bids will be sent in.

The several fraternities place their bids in the hands of a lawyer, and through this agency, notices are sent to all girls who are bid by one or more fraternities. The notice, without mentioning the number of bids or names of the fraternities, merely informs the recipient that she has been bid by some fraternity, and requests her to list the societies of her choice in order of preference. The paper is taken to the office of the Dean of Women before five o'clock Thursday, where it is signed and returned to the lawyer in charge by messenger. The results are made known to the fraternities, and formal invitations and summons for pledging are issued immediately. Most fraternities plan to hold pledging at noon Saturday.

Signs of the time: "A fair peach will make traffic jam."

COMING JUNIOR PROM TO BE BEST IN HISTORY

Annual Junior Week Prom Gains Much Charm Through Elaborateness of New City Auditorium

Consent to hold the Junior Prom in the new City Auditorium has been obtained from President Bailey and Mayor Boucher. The advantages of staging the annual event here are many. The floor is smooth, making dancing easy, and is large enough to accommodate a great number of couples. Its newness and easy adaptability to decorate make it all the more desirable.

The choice of favorite has not yet been definitely made but the committee in charge is attempting to obtain the services of "Ernie" Andrews, probably the most popular team of syncopators in this section. Whatever the final decision may be, if the student body will only cooperate, the affair will be one of the finest of its kind yet held. As in the case of formals in the past the Prom will last from nine till one.

Committees and plans for the entire Junior Week have been completed. The program includes events on the 16, 17, 18, and 19 of May starting with a banquet on Wednesday night and ending with fraternity dances on Saturday night. Baseball games, tennis matches, Freirade, Class Play, Prom and Fraternity dances will take up most of the time. Wig and Ruskin is selecting a suitable play for presentation on the seventeenth. The Freirade will take place on the afternoon of the seventeenth.

Program and Favor Committees have been the most active so far in work on Junior Week activities, however, more work will be done by the whole class after Kake Walk.

MISS SARA M. HOLBROOK GIVES TALK OVER WCAX

The radio audience of WCAX, University broadcasting station, was privileged to hear recently a series of talks by Miss Sara M. Holbrook, A.M. Ed.B., of the Education Department on the "Problem Child." In the autumn of 1922, Miss Holbrook was appointed to act as Visiting Teacher in the schools of Burlington, the first demonstration city chosen in New England. The work is under the National Committee of Visiting Teachers as a part of the New York Commonwealth program for the prevention of juvenile delinquency.

Under Miss Holbrook's direction, classes in the Education Department study social service work among the families wherein types of problem children occur. Cases of physical and mental disability and maladjustments are studied and corrected. Laboratory work in this field requires visits to the state institutions at Vergennes and Brandon, as well as to the homes in the city where "cases" are known to exist.

The cases are of all natures, and each must receive individual treatment. The Visiting Teacher was asked to investigate a case where money had been stolen by a little girl from her teacher. An allowance was arranged for the child, and complaints of her stealing ceased.

A child, accused of "telling stories" was found by the Visiting Teacher to be very unhappy in her home. She had moved into the city from a farm and was finding it difficult to adapt herself to the city school system. The movies, something new and altogether thrilling, were the source of her stories, and she retold to her astounded classmates movie incidents which struck her fancy, making herself the heroine. The family upon the advice of the Visiting Teacher returned to the country, and found there a truer happiness than the city had offered them.

Miss Holbrook and her assistants have a varied program their work ranging from mental tests on children, to visits at home and school and interviews with teachers and parents. In 130 instances during the first year, the home was interpreted to the school and the school to the home, while in 1923-1924, the number was augmented to 276. At present cases of maladjustment are brought in almost daily, giving unmistakable evidence that social service is alleviating human misery and saving the taxpayers dollars by a sympathetic, wise and tactful treatment of "problems."

SIGMA PHI CLINCHES INTERFRATERNITY CUP

Sigma Phi, by defeating Kappa Sigma at the U. V. M. gym Friday evening 20 to 9, won the interfraternity championship and the handsome loving cup which goes with it. The first half of the final game was very close and ended in a 4 to 4 tie. In the second half Sigma Phi came back strong and played all around the Kappa Sigs. Allan with ten points was the star of the game. Smith and Chad were played well for the losers.

The summary:

SIGMA PHI

Referee: Mackey. Scorer: O'Neil. Time: 4 8-minute periods.

In the semi-final game Tau Epsilon Phi was defeated by Kappa Sigma in one of the closest fought contests of the tournament. Tau Ep took the lead at the beginning of the game 2 to 1. The Kappa Sigs led at the end of the first half 7 to 3. Tau Ep spurted in the third quarter and tied the score at 7 all. "Jack" Smith dropped two long throws and two foul goals for six points which were enough to win the game. Waterman was high scorer for Tau Ep. Bernstein looked like the best man on the floor and one of the fastest in the tournament. Smith and Tobin led for Kappa Sig.

The Key and Serpent Society met Wednesday noon and decided that the semi-finals and finals of the Interfraternity Basketball Series should be played off sometime this week.

In a certain French class it was announced that there would be a monthly exam this week because of the "promenado de gateau."

SEEK YE NO FURTHER, DIOGENES . . .

This jobbie Diogenes was a Greek who left his fruit stand for the commendable purpose of questing for honesty by good old-fashioned lamp-light. And now, loud and ever clearer, rings the cry from the housetops: "Diogenes — throw away your lantern . . . here's an honest cigarette! Have a Camel!"

Camels have but one raison d' être—*to pack the smoke-spots of the world with the "fill-fullment" every experienced smoker seeks. Fill your own smoke-spot with a cool cloud of Camel smoke, and hear it sing out—* "Eureka!" *(from the Greek, "Eureka," meaning—"Oboy, here 'tis!").*

WELCOME SUB-FRESHMEN

ERMONT LOSES TWO AMES ON FINAL TRIP

oly Cross and Springfield Repeat Earlier Victories Over Catamount Quintet—Price High Scorer in First Game

AY STATE QUINTETS TOO STRONG FOR CATS

Springfield handed Vermont a second defeat this year at its hands. ey swamped the Cats with a 43-27 ore outplaying them in all departments of the game. Displaying a passing game that could not be stopped the Maroon and White hoopsters ropped them in from all angles. Wagner James and Duncan, the "triple reats," had a great day and they are three of the cleverest basketeers in the East.

The Green and Gold hoopsters tried valiantly to get ahead of the Hichoxmen but the Home City boys were on their own floor and seemed to know every spot on it. Several times Vermont put on a burst of speed and passed with great skill, but the strain of a hard game with Holy Cross the night before told on them and they were not quite able to keep up the fast pace. Also the game was played in the afternoon, something that is very unusual for the Vermont quintet and they didn't like it so well.

Wagner and James were the stars for Springfield and could not be held down. Estabrook tried to hang onto James, but this boy is as slippery as an eel and knows all the tricks of the game. Wagner was always where you didn't want him to be and being fed by Duncan and James he dropped in several counters in spite of the efforts of "Doc" Marvin.

Prentice and Marvin played a good game and Estabrook also must be given credit as he had a hard man to keep an eye on. Springfield has one of the fastest quintets in the East this year and are almost unbeatable on their own court. They tied with Vermont for the New England championship last season, but are alone in claim the bunting this year as Vermont has suffered defeats at the hands of Holy Cross, who lost to Amherst, who lost to Springfield.

HOLY CROSS GAME

Holy Cross defeated the Vermont quintet 40 to 34 in their second meeting of the season at Worcester, Tuesday evening. The game went into an overtime period when Holy Cross came from behind in the second half and knotted the score. The Catamounts had a six-point advantage at the end of the first half but lost it when Connors of Holy Cross started peppering the basket. At the beginning of the extra period the Crusaders took the lead which they held throughout the remainder of the game.

It was one of the fastest and closely contested games seen on the Worcester floor this season. The fans were given an exhibition of clever basketball by both teams. Holy Cross was up against a team which was entirely different than the one it defeated at the Yale tournament and had to work hard for the victory.

Kiki" Price led both teams in scoring with sixteen points while Prentice played his usual heads up game. Connors and Dadi each scored five field goals for Holy Cross while Kelley was the main cog on the defense.

(Continued on page 5)

WOMEN'S RIFLE TEAM GO DOWN TO FIRST DEFEAT

In the first match heard from, the women's rifle team met defeat at the hands of the University of Nebraska with a score of 496-494. Other matches have not been heard from. Other matches were shot with Depauw, and Michigan State Vermont had 500, 600, and such scores. Those shooting a perfect score in all three matches were A. Burns '28, G. Hubert '31, E. Bishop '30, R. Seaver '31, and E. Shaw '30. C. O'Neil shot 100 in the last two contests. This week matches take place with Cornell and Minnesota.

WINTER SPORTS TEAM LOSES AT NORTHFIELD

Vermont's winter sports team came out on the small end of the triangular State meet at Northfield. Middlebury came out on top with 19½ points. Norwich was second with 15½, while Vermont was third with 9. Lack of snow made it impossible to run the snowshoe events.

Maynes won all of Vermont's points taking a first, a second and a fourth in the 4 events run off. Maynes is a freshman and proved himself very efficient on skis. He is a member of Sigma Nu. Vermont would perhaps have garnered more points but Maynes went over half the course with a broken ski in the downhill ski race and took a fourth place at that. Maynes took his first place in the ski proficiency test, and his second in the cross country ski race.

OUTLOOK BETTER FOR CHAMPIONSHIP TRACK TEAM THIS SEASON

Many Veterans Remain From Last Season—Summary of Last Year's Meets

Much remains to be seen as to how the Vermont track team will hold up under the loss of the men who have left college, either through graduation or other means. Captain Simpson, who has often been called "the one-man track team of Vermont" has gone, and has taken with him many of the bright lights of the team. Some of those that are not back are Archie Post and Dean Rowe, who featured in the middle distances, Bray, in the sprints, and Burbank in the hurdles.

However, the majority of the veterans are left to compete again this year. Some of those that are still eligible are Kropper, the weight man, O. T. Wood and Arnold in the two-mile run, Hastings in the pole vault and broad jump, Howard, in the high jump and the hurdles, Baldwin and Leary in the quarter-mile, Morse and Costine in the sprints, Lyman in the pole vault and high jump, and Mace in the weights and broad jump. With the aid of these veterans and the material that can be found in the Freshman class, Coach Latty should be able to form almost as good a team as last year.

The Green and Gold team competed in four meets last year. In their first contest they met the M. A. A. A. on the home grounds and were defeated by twenty-seven points, the final score standing 81-54 in favor of the Montrealers. Some of the men that took first places for the Canadian city were Montabane in the hurdles, Consiglio in the pole vault, Carruthers in the hurdles, Deveraux in the two-mile run, and McKechnie in the sprints. Simpson, Hastings and Mace were the outstanding men for Vermont. This contest was not a disappointment to the Catamounts, as the Montrealers are usually superior to the Green and Gold. Many of their men have been candidates for the Olympic games.

The second meet was held in Worcester, May 14. This was the Eastern Intercollegiate Meet, and the Catamounts were lucky enough to capture fourth place. Northeastern and Union tied for first with 32 points apiece. Rhode Island was second with 28 points, while Vermont nosed out Worcester Tech with 23 points to Tech's 21. Norwich, Tufts, and the Massachusetts Aggies followed with 12, 10, and 7 counters respectively. "Sonny" Simpson was the outstanding man of the meet. He broke his own record of 163 feet four inches for the javelin throw by tossing the bar 175 feet 6 inches. He was also high scorer of the meet for the second consecutive year.

The next battle was waged with St Lawrence University, at Canton, N. Y. Here the Green and Gold was victorious, the final score standing 76 1-3 to 58 2-3.

May 28, Vermont journeyed to Northfield for the Green Mountain Conference and captured second place. Middlebury stood high with 63 points, then came Vermont with 37, and Norwich with 25. As usual, "Sonny" was

DEBATERS AND SINGERS UNITE TO ENTERTAIN NUMEROUS GATHERING

"Al Smith Qualified as President" Subject for Non-decision Debate Wednesday Evening

Over 200 attended the open-decision debate between Dartmouth and Vermont last Wednesday evening in the Old Mill Chapel. Before a crowded audience, the four debaters: R. E. Ela and W. E. Briskin of Dartmouth and J. M. Leavens with L. W. Hince of Vermont won recognition as accomplished forensic artists, on the night of February 22.

Prior to the contest, the Glee Club lead by R. W. Albee, rendered three selections: "You Gentlemen of England," "Broken Melody," and "Champlain." The "Gentlemen of England" were a little tipsy, the "Broken Melody" was a bit cracked, but "Champlain" brought the assembly to its feet with just a trace of awe in its mien.

"Resolved, that 'Al' Smith is eminently fitted to be the next President of the United States." was the issue which Professor D. B. Carroll introduced to the public.

Roger E. Ela led off in the affirmative for Dartmouth.

"This is my first political speech," he said. Some few are inclined to believe him.

"We are here, not to demand or urge election, but to measure a man by the standards of a great office," were his next words. From then on he expounded three measures of quality in favor of Governor Smith.

John Leavens leading for Vermont countered, suavely, cleverly, and with a concise comprehension of his own command of the situation. The old vision of a schooner of foaming beer was presented with excruciating vividness.

Next came W. E. Briskin, of Dartmouth. He introduced a hitherto much needed element, viz.: humor. He knew his senators to the tune of unanimous applause and good humor, possibly to Mr. Leavens' discomfiture.

Lawrence W. Hince, of Vermont was, by far, the most convincing speaker of the evening. His sincerity and caustic humor caused much delighted comment among the spectators.

With a fitting rebuttal, Ela, of Dartmouth, recountered for the affirmative, and summed up the entire debate. No decision was rendered, but general opinion lists heavily toward the Vermont team.

TECHNICOLOR SECTIONS FEATURE 1929 ARIEL

The 1929 *Ariel* is rapidly nearing completion and is now finished up to the Junior section. Most of the group pictures have been taken with the exception of the different sororities, Military Batallion and the wearers of the V.

This issue is somewhat different from those of former years in that the first few opening pages and the Junior section will be done in color. This publication will contain a little over four hundred pages.

There will be seven hundred copies published this year and not more than twenty-five or thirty in excess so be sure to sign up for an *Ariel* if you haven't done so.

All printing matter and proofs go into the printers March 29 and the finished book will be given out at the Bookstore about May 15.

The Military Department is giving lectures to the Freshmen on Hygiene every Monday morning at 7:30 in the large lecture room in the Science Hall.

Dr William Townsend, Professor in Medical college, died last Monday.

Record Crowd Anticipated to Attend Thirty-first Kake Walk at Vermont

Directors Sell Out All of Better Seats for Saturday Evening—University Entertaining 200 Sub-Freshmen From All Parts of the State

Vermont's thirty-first annual Kake Walk will be presented tonight for the first time at the University gymnasium. A record crowd is expected by Directors Collins and Holden who have sold out all of the better seats for Saturday evening and the majority for tonight. Tonight the University is entertaining over 200 high school seniors from all over the state.

In entertaining the sub-freshmen the University is giving a banquet at the Hotel Van Ness at six o'clock this evening at which President Guy W Bailey and F. W Kehoe will speak. Following the banquet the sub-freshmen will be entertained at the Kake Walk.

During their stay in Burlington the high school men will be lodged in fraternity houses and the dormitory. A. R. Birchard, Jr., is chairman of the Key and Serpent Society committee in charge of the quartering of these men.

HIGH SCHOOL DEBATERS OUT FOR SCHOLARSHIPS

Debaters in fifteen high schools of the State are now in furious but friendly competition for the scholarships, offered by the University of Vermont to those students who are able to come out victorious in the contest. This season's schedule opened last Friday when Hardwick Academy met People's Academy, and will close some time in May when the finals will be held here in Burlington.

The question that is up for debate this year is: "Resolved, That a Federal Department of Education should be Established, with a Secretary in the President's Cabinet." Each team, entered in the Vermont Interscholastic Debating League will argue twice upon the negative, and as many times upon the affirmative side of the question, two of the debates to be held at home, one upon each side.

The debate will be judged upon the merits of the speakers and not upon the merits of the question. The judges are to discount apparently memorized speeches. In the letter of introduction to the judges, it is stated that they should award the decision to the team which shows the most effective combination of excellence in thinking and excellence in speaking in a vital give-and-take discussion.

The fifteen schools now entered in the League are grouped as follows: Group 1, Bellows Falls High School, Brattleboro High School, Leland and Gray Seminary at Townshend, and Woodstock High School; Group 2, Brandon High School, Fair Haven High School, Troy Conference Academy at Poultney, and Wallingford High School; Group 4, Enosburg Falls High School, Essex Junction High School, Hardwick Academy, People's Academy at Morrisville, and Burlington High School. All but Bradford and Orleans have withdrawn from Group 3, so this combination seems pretty well broken up, and it has not yet been finally decided whether any rearrangement will be made in this case.

There are many friends of the above named schools here at the University, and so, it is perhaps with a bit of hopeful expectancy that students await the outcome of this forensic contest, the finals and semi-finals being run off in the University gymnasium.

NEWS IN BRIEF

Dr. George K. Pratt, specialist in mental hygiene, will be at the University on Friday, March 2nd. Students desiring to consult Dr. Pratt should apply for appointments to Prof. Metcalf or to Prof. Holbrook.

Next week brings about the last of the basketball season with three games to be played. Two at home with Norwich and Holy Cross and Tuesday the team will go to Middlebury.

The debating season will open Wednesday night, February 22, 1928, against Dartmouth.

Prospects are looking very good for a successful baseball season with three pitchers, two catchers, an infield, and two outfielders back from last year's team.

The Frosh could be seen Sunday afternoon carrying Kake Walk bleachers from the Campus House to the Gymnasium.

After ample time devoted to class room work, the Sophomores will be given an examination in Musketry by the Military Department next Tuesday morning at 7 30 in the large lecture room in the Science Hall.

JUDGES FOR KAKE WALK CHOSEN BY DIRECTORS

Kake Walk Directors Holden and Collins announce the judges for the various Kake Walk events. Much care was taken in the selection of these men with the idea in mind that the judges should have seen a Kake Walk in order to judge as to originality. Everything is ready to the last detail and those who know Kake Walks forecast the best in its history.

Judges for the various parts of Vermont's 31st Kake Walk are as follows.

ELIMINATION JUDGES:

Professor J. T. Metcalf
Professor D. B. Carroll
M. J. Dean

"PEERADE" JUDGES:

Colonel Holden
L. P. Wood
D. A. Loomis

STUNT JUDGES:

Professor G. G Grout
Dr. J. N. Jenne
Dr. C. H. Beecher
Colonel R. M. McCuen
A. A. Grout

KAKE WALKING JUDGES:

Dr. E. T. Brown
J. E. Carrigan
Thomas Bradlee

PROFESSORS SEEK TO RENEW DEPARTED YOUTH

Has anyone noticed that the professional physique has declined greatly, during the past years? There will be a rejuvenated faculty soon because deans, professors, and younger instructors can be found secretly emulating Ponce de Leon in one of the rooms adjoining the large gym.

Every Tuesday and Thursday afternoons at 5 o'clock, try-outs will be held for the benefit of those who think they can pass the severe test. No one has flunked the exam as yet because there have only been two meetings. Each week from now on, there will be meetings at the time and place mentioned. Any other member of the erudite clan who feels that his physical vigor is failing below par ought to take an interest in it. The class has been formed especially for those who are afflicted with obesity. It can easily be foretold that close competition is going to exist between those of the juvenile state and those for whom old age is creeping on a pace. Too often men have wasted their usefulness in the tedious art of teaching and have neglected their body fitness.

A medical fraternity also petitioned Student Senate to put on a Kake Walking Couple but inasmuch as they are not required to pay a Students' Activity Fee this year it was decided that they should not be permitted to.

SUB-FRESHMEN

Not long ago many of us paid our first visit to this noble seat of learning as guests of the University of Vermont. It would therefore seem fitting that we should at this time turn this column over to the welcoming of the subfreshman. In behalf of the faculty and the student body we extend to you our most hearty greetings. It is only natural that you should wish to know a little about the educational institution which will be your home for the next four years; therefore learn all you can about the college, ask as many questions as you wish, and last but not least, have a good time.

Norwich has her cadet, Middlebury her Ingree of Modern Languages but Vermont can only offer you an education that will fit you for your future life work. If you will let your gaze wander up and down the state you will see that Vermont has done her share in putting the Green Mountain State on the map. Our doctors, our farmers, our engineers and our business men have come for the most part from Vermont. Even though we are a small institution, our faculty is made up of men of learning and also of men who understand human nature. They are always ready to help you, no matter what your difficulty is.

Do not think that we shine only in scholastic circles. Vermont athletic teams are as good if not better than most small college teams. In basketball, football or baseball Vermont meets some of the best institutions of learning in the country. Such teams as Harvard, Princeton, Yale and Dartmouth appear on her athletic schedules year after year.

If you should look into the history of Vermont you will see that she is knee-deep in tradition. The Old Mill bell has announced Green and Gold victories for years, even the corner stone on which the Old Mill stands is deep in tradition because of its connection with that great French statesman, Lafayette. Her buildings and campus are noted all over the world for their natural beauty.

You, who are seeking a place of learning, can make no mistake if you choose Vermont as your alma mater. With all its high standards it is hard to beat.

THE LAST KAKE WALK

[illegible] the Kake Walk [illegible] and Vermont[illegible] to be present a basketball game to the public. It is a tradition, along with singing the old Mill bell, [illegible] an attractive feature of the program at [illegible] the Sophomores [illegible] the campus [illegible]. It would be of interest perhaps to find reasons for this annual event to [illegible] any alma mater once [illegible] appears to be its very [illegible]. This idea was accepted by the last generation and continued to be developed by later classes. Impressed by their first vision of this yearly novelty each following group attempted to equal or surpass the performance of the preceding year. It is this spirit that has attracted capacity houses at every performance.

Perhaps another reason is the need for an outlet during the long winter season. At this time other universities are enjoying their Junior "Prom," Freshman Week or a Winter Carnival. We give vent to our stored up energies by competing in a friendly fashion and originating humorous and startling Parade ideas or stunts. The critics of modern university men and women that declare the students are all uniform in every respect would perhaps be startled to see an outcropping of originality among the coming generation.

Kake Walk seems to bring the student body into closer harmony than at other times of year, for they are working, not only in competition, but to "put across" the event to the audience. It is a time for good feeling and comradeship. A famous man once said "Nothing brings people together any better than to work for some common end."

Campus Comment

To the Editor of the Cynic:

Upperclassmen—No! the frosh are not guilty, this once, at least,—are having a grand time these Wednesday mornings between the eventful hours of 10 and 10:30, otherwise sometimes known as Chapel Hour. Anyone will see what a merry time they are having by strolling over to the Old Mill at this particular time of day, and by watching the proceedings, if not taking an actual hand in what happens intentionally or otherwise, mostly otherwise if at all, perhaps.

Somehow or other, a group of especially studious, and, mark, religious frosh is it not Chapel Hour?—students gather along the walk of the South corridor which starts at the Coffee Corner:—and, pity the poor fellow who finds he must run the gauntlet once he finds himself in the midst of this crowd. For various reasons, the little Miss is left unmolested.

What should be done is to erect in some manner a few bleachers on the sidelines so that curious spectators can look on, and with absolute safety to themselves. As it is, of course, all standing room is taken and the stair railing coursed with ever so many faces of our fair coeds.

It is rather a highly inspiring sight quite fitting one must remember, to the time and place, especially the time. The students do perhaps find this gay, although admittedly primitive, fun, just watchin', or throwin' a guy around. From appearances, it might be judged most students consider Chapel a bore, and a mighty big one. Perhaps it is because nothing exciting takes place at Chapel. For instance, there are no gauntlets. Whatever it is, many students find it very entertaining to spend Chapel Hour in the Old Mill.

—'31

To the Editor of the Cynic:

In considering seriously the interest and spirit shown by the freshmen, it seems that this said interest and spirit is decidedly lacking. The upperclassmen are wondering just why it is so. The students admit that Gold Key is very lax in the carrying out of their duties but should not the freshmen have enough pride and love for their Alma Mater to wear the prescribed frosh hats and to carry out the other traditions of which our campus is so full.

It has been heard on the hill that the frosh were opposed to the various tasks imposed upon them. The freshmen apparently do not realize that in the past years these tasks were prescribed to we who are now Juniors and Seniors. We, of the upperclasses have in the past always done our "duty" as it should have been done and therefore see no reason why the present underclassmen should not do so. If such disinterest and lack of spirit is continued, the college will of course deteriorate in every respect. The upperclassmen are carrying out their duties and why can't you frosh do so too.

Kake Walk and basketball bleachers are always to go up and come down. Certainly an hour spent for the benefit of U. V. M. is not torture or a hardship. Men before you have done it and surely you should be willing to do it. Now that you have practically no hand holding a paddle over you you are not it seems forced to do the few things you are supposed to do and you ought to be willing to participate in everything as tradition so describes as is the part of a freshman.

What's the matter with Gold Key!

AT THE DORM

By Converse Hall

[illegible] Lake Champlain [illegible] once again
[illegible]
[illegible] passed their happiness—
What tales they could unfold!

Have you [illegible] [illegible] many moon,
Both passion, love and hate?
Each heart doth beat,— O glorious treat!—
We list while you relate.

Champlain's ripples, Champlain's blue,
Has a message now for you.

It came to pass that Gardner, Mass.
Where all are making chairs,
To fill demand throughout the land,
Hold up the nation's cares,
Employed a youth, to tell the truth,
And hired him just for this—
He tried each seat so it might meet
Demands of restful bliss.

His type of mind the job did find
Congenial to his taste
But Gardner thought, and plans it wrought
To save the youth from waste.
The city then, the business men,
Did meet around a board.
Decided they to but obey
An omen from the Lord.
Had He not sent with good intent
This youth to Gardner fair?
Why spoil the boy, genius destroy,
By sitting in a chair?

His light blue eyes, his smile so wise,
Proclaimed him man of men;
In humble task his mind did bask,
Not so his features then.
No man so good in Hollywood
For laughing scenes to act.
While still a child, the girls went wild.
'Tis but an honest fact.

A youth like this could give such bliss,
To maids throughout the world;
An ad could he to Gardner be,
And Wave her flag unfurled!
Where should they send; how should they bend
This twig that oak would grow?
(A sapling he; a nutty tree;
with acorn on his toe.)
'Tis no surprise these men so wise
Should pick the proper haunt.
Each frosh cap doffs to Fool-The-Profs.,
Who came to old Vermont.

Champlain's ripples, Champlain's blue,
Continues its bold speech to you.

Into its fold the Green and Gold
Welcomed this princely dove.
If syke exam found him a ham,
The girls all fell in love.
Old Converse Hall, gray, sombre, tall;—
Our hero lived inside—
The dark stones grew and stretched anew,
With high and lofty pride
Full many hops he saved from flops
By gliding o'er the scene;
His presence meant where'er he went
Success with joy between.

In classroom he would foremost be;
He brought professors cheer.
"What ho!" quoth they, "as clear as day,
We have a Phi Bate here!"

And so days went with deep content
For Georgie—Cupid, though,
His arrows fixed; his drinks he mixed;
And let drive from his bow.
Nor looked he then to see what men
Were stricken with each dart;
It happened though, as many know,
One entered Foolem's heart.

The red blood poured all o'er the sward.
A love disease crept in.
His comrades gazed: they were amazed
To see the change in him.
He gentler grew, he spoke more true;
Was careful of his dress.
New ties he bought. This state had wrought
For him sheer happiness.
The maiden, too, with eyes of blue,
And hair of auburn shade;
So frail she; so virile he
A perfect match they made.

They went to shows and goodness knows,
To dances all galore.
When her he left he felt bereft
Of all worth living for.

One autumn day a picnic they
Resolved to take quite soon;
And Champlain's shore, as oft before,
Was quite the place to spoon.
So Sunday morn George left the dorm,
With lunch for both of them.
They reached the lake; did food partake,
But how their thirst to stem?
'Have you a flask?' the maid did ask.
A modern girl was she.
'Why no,' he said, and shook his head,
Old fashioned still was he.
'But look,' lurge, 'we're on the verge
Of Champlain, clear and still.
Hear these commands: just cup your hands;
Now stoop and drink your fill.'

The maid replies, 'Gee, but you're wise!'
And bends to liquid take.
What luckless move now does it prove
She tumbles in the lake!
Our hero stands aghast; his hands
Are filled with Angel cake.
'A chance, by Hem! to save the femme,
And her my wife to make!'
He ate the cake and plans did make
For future's rosy beam.
The girl cried, 'Help!'—Her lively yelp
Awoke him from his dream.
'Hold on!' he cried. 'I by your side
In one short breath will be!'
He jumped the bank and downward sank
'Neath Vermont's inland sea.

The girl, surprised, ope'd both her eyes,
And looked for him in vain.
She under sank close to the bank
And searched the wat'ry main.
Then up rose she, and powerfully
Her six-beat trudgeon crawl
Skimmed wat'ry bed straight for a head—
She saved him—that is all.

They reached the shore. 'Now evermore,
You're mine,' the hero said.
'Did I not save from icy grave
Your pretty brunette head?'
With love he sighed. 'Nay, nay!' she cried:
And fiercely turned to him.
"Fore on life's sea your wife I'll be
You'll first know how to swim!'"

When George awakes and shower takes
He tries with patience grim;
Minds not our jokes, but tries his strokes
He's learning how to swim.

YESTERDAY'S KAKE WALK COMPARED TO TODAY'S

Kake Walk of the year 1901 was a [illegible] success. Under a column entitled "About College" which appears in the January 11, 1902, The University Cynic, a note reads to this effect:

"The Kake Walk on December 18 was a success artistically and financially. About 450 people attended and $101.50 was netted for athletics. Peck, '02, and associates were awarded the specialty cake for the specialty 'Rails and Wretchedness Co.,' with honorable mention to the "Darktown Band" and the "Last Rites of the Defunct Glee Club." The cake for couples went to Messrs. Joyner and Beach."

Just prior to this Kake Walk of 1901, the Cynic published an article entitled "The Kake Walk," which reads in part, "The Sherman Band of 18 pieces has been engaged to furnish music for the "walk" and for dancing afterwards. The University of Vermont is indeed now very fortunate in having so splendid a band.

Dose of Own Medicine

When upperclasswomen at the University of Pennsylvania laid down a ban prohibiting frosh co-eds from the use of tobacco, they unknowingly instigated an action which was to fall upon them in turn. Upon complaint by the frosh to the faculty, the latter took up the matter and, evidently considering it a beneficial ruling, have prohibited the addition to the filthy weed for all female students.

OUR FACULTY

PROFESSOR BURROWS

George Howard Burrows [illegible] in Cincinnati in 1875. He [illegible] baccalaureate course at the [illegible] of Cincinnati for one year and [illegible] the remaining three years at [illegible] versity of Vermont. He did [illegible] graduate work at Cornell University [illegible] at Massachusetts Institute [illegible] nology. In 1899 he received his B. S. at U. V. M. and Ph. D. at M. I. T. in 1914.

He was instructor in [illegible] Pratt Institute, 1899-1900, and [illegible] ant in Chemistry at Cornell University, 1900-1903. Since 1903 he [illegible] Professor of Chemistry at the University of Vermont where he has [illegible] ized in Physical and Organic [illegible] istry. He has published [illegible] papers in the *Journal of* [illegible] *Chemistry* and the *Journal* [illegible] *American Chemical Society*. He is a member of Phi Beta Kappa.

Washington a Gentleman, Leader and Statesman

The year of 1732 witnessed the birth of one of the greatest men in history. George Washington, the founder of our nation, was born in Westmoreland, Virginia, on the twenty-second of February in the year 1732. His parents were fairly well off but they died before George was very old. His education was, perhaps, not as great as that of many men of his day but was, however, skilled in mathematics.

Courage and coolness were the characteristics of Washington which often showed themselves when Braddock's troops were being mercilessly slaughtered by the Indians. Washington ranged the whole field on horseback, making himself the most conspicuous mark for Indian bullets and in spite of what he called the "dastardly behavior" of the regular troops brought the little remnant of his Virginians out of action in fair order. In spite of his reckless exposure he was one of the few unwounded soldiers. Even three horses being shot from under him and bullets pierced his coat failed to stop him from doing his duty at a time when everyone was in a panic.

There was no such word as 'can't' in Washington's vocabulary. He never gave up in any attempt. He may have retreated through New Jersey but the manner in which he turned and struck his pursuers at Trenton and Princeton, and then established himself at Morristown so as to make the way to Philadelphia impassable; the vigor with which he handled his army at Chad's Ford and Germantown, the persistence with which he held the strategic position of Valley Forge through the dreadful winter of 1777-78, in spite of the misery of his men and all go to show the qualities which he possessed.

After the war Washington was elected first president of the United States. Congress, contrary to the belief of many, was already divided into two parties, although they had little influence or spirit of rivalry as compared to our present political parties. Washington's character is again displayed in the fact that he favored neither party. At heart he was a Federalist, but he divided all offices equally with members of the other party and his actions never betrayed the fact that he really was a Federalist. He always gave every one a square deal, as you might say, and never showed partiality. He served two terms and refused to serve a third, believing that some man more fitted to the office than himself should have a chance.

Summary of Athletics at Vermont

ASKETEERS TURNED IN NINE WINS AND SEVEN DEFEATS THIS SEASON

though Not as Successful as Usual Catamounts are More Than Breaking Even as State Champions

...ball has had only a mediocre ...n basketball thus far winning ... victories and falling by the way- ... seven contests. The Cats have ... about clinched the State Cham- ...ship and had little trouble in ...g it. However, the invasions that ... made into New Hampshire, New ... Massachusetts and Connecticut ... out rather disastrous, losing ... Dartmouth, Holy Cross twice, Yale, ... A. C., and Springfield twice. ... defeated all the state teams ...es two from Montreal, R. P. I., ... Hampshire, Conn. Aggies.

Before the Springfield contest the ... turned in 7 straight victories. ... then lost the next tilt to Spring- ... by the margin of one basket and ... was decidedly the best game of ... season here.

There remain three more games on ... schedule, Middlebury, Norwich ... Holy Cross. The Macmen should ... little difficulty in defeating the ... two, but the third game is a ques- ... as the Purple has already hung ... defeats on the Cat's tail. With ... contest on their own home surface, ... Cats should take the Crusaders ... camp this time as Coach Mc- ...s cohorts always give a much ... account of themselves on their ... playing grounds.

Prentice has played a wonderful ... of basketball this season and ... high point man of the team. He ... be sorely missed next season and ... will take quite a bit to fill his shoes. ... will be three veterans lost for ...28-1929 quintet. Besides Prentice ... will lose Price, our versatile guard ... has played many good offensive ... this season, the "Doc" Mar- ... the great defensive center and ... last year. These three have ... the mainstays of the quintet for ... last three seasons and nearly a ... new team will have to be de- ...oped.

Coach McAvoy will be lucky in ...ing Estabrook, a guard, and Halli- ... a forward, on this year's varsity ... to form a nucleus for next sea- ...n's team. He also has some fine ...terial in Manning, Morgan, Palmer, ... Pike that he can develop into ... string material. Also there will ... a few from the present Frosh ...intet that will be making strong ... for positions. Sargent played ... whale of a game at center for the ...tens and should make good. Allen, ...on and Durfee should also make ...ong bids as members in the ranks ... with this wealth of material a ...mising team should be had.

Team average through the Holy ... contests:

1928 BASEBALL SEASON SCHEDULE ANNOUNCED

Manager Sabin C. Abell announces the University of Vermont baseball schedule season for 1928:

March
31 Georgetown U. at Washington

April
2 U. S. Marines at Quantico
3 U. S. Marines at Quantico
4 Navy at Annapolis
5 Catholic U. at Washington
6 Drexel at Philadelphia
7 New York U. at New York City
9 Fordham at New York City
10 St. Johns at Brooklyn
11 Army at West Point
19 Tufts at Medford
20 Springfield at Springfield
21 Holy Cross at Worcester
28 St. Michael's at Burlington

May
5 Clarkson at Burlington
10 Middlebury at Middlebury
12 Boston College at Burlington
15 Norwich at Northfield
18 Northeastern at Burlington
22 Dartmouth at Hanover
25 Springfield at Burlington
26 M. A. C. at Burlington
28 Middlebury at Burlington
30 Dartmouth at Burlington

June
2 Williams at Burlington
9 Norwich at Burlington
15 St. Lawrence at Burlington
16 Alumni at Burlington

Last season's results are recorded below:

April		Vt.	Opp.
2	Catholic University at Washington	Rain	
4	U. S. Marines at Quantico	Rain	
5	U. S. Marines at Quantico	Rain	
6	Navy at Annapolis	1	3
7	University of Delaware at Newark	4	0
8	Drexel Institute at Philadelphia	13	8
9	Princeton at Princeton	3	0
11	Fordham at New York	7	19
12	N. Y. U. at New York	3	5
13	Army at West Point	9	4
22	Springfield at Springfield	8	3
23	Holy Cross at Worcester	3	0
May			
6	St. Lawrence at Canton	4	7
7	Clarkson at Potsdam	3	1
12	Middlebury at Middlebury	2	1
14	St. Michael's at Burlington	11	1
17	Norwich at Northfield	1	4
18	Northeastern at Burlington	Rain	
24	Dartmouth at Hanover	1	9
27	Springfield at Burlington	4	3
28	Massachusetts Aggies at Burlington	2	1
30	Dartmouth at Burlington	4	2
June			
1	Holy Cross at Burlington	1	4
4	Middlebury at Burlington	5	2
17	St. Lawrence at Burlington	4	5
18	Alumni at Burlington	7	1

Coach Dresser has not called definitely cor candidates as yet. However, everything seems to point to a successful season this year.

Girl Hikers

Over-night hikes are being planned by the physical education department of the University of Arizona for girls who are interested in hiking.

TRACK NOTICE!

Manager K. R. Stephens sends out his first call for SCRUBS in track. Those wishing to scrub, report at the gym, Monday, February 27, at 4:00 P.M.

The Dopefiend

NANI GUCCAS

Now that the Hoop season has nearly finished and all the teams that remain to play Vermont have already met the Cats once or twice, I have been asked to pick an All-Vermont team and All-Opponent team for this issue.

This is an extremely difficult task as I should say that for the All-Vermont team you could pick the University of Vermont's entire quintet, and not be far wrong as they have a team that none of the others in the state can really touch this year player for player. However, after some consideration I have picked two teams. These are:

All-Vermont First Team

Prentice, r. f. (Capt.)	Vermont
Johnson, l. f.	Middlebury
Marvin, c.	Vermont
O'Donnell, r. g	Norwich
Price, l. g	Vermont

All-Vermont Second Team

Hickey, r. f.	St. Michael's
Halligan, l. f	Vermont
Humiston, c	Middlebury
Estabrook, r. g	Vermont
Fanos, l. g.	Norwich

Connally of St. Michael's might have been picked if he had shown a little more pep during games. He has the ability but shows little interest. Fanos is one of Norwich's best all around men and can be used at either center or guard.

All-Opponent First Team

James, l. f	Springfield
Swarthart, r. f.	Dartmouth
Wagner, c. (Capt.)	Springfield
Reilly, r. g.	Holy Cross
Bridge, l. g.	New Hampshire

All-Opponent Second Team

Duncan, r. f.	Springfield
Connors, l. f.	Holy Cross
Robbin, c.	R. P. I
Williams, l. g. (Capt.)	Conn. Aggies
Nordyke, r. g.	Springfield

All-Opponent Third Team

Nassau, l. f.	Yale
Patch, r. f.	New Hampshire
Langdell, c.	Dartmouth
Godsell, l. g.	Montreal A. A.
Brady, r. g.	Holy Cross

Candidates for varsity baseball will report in the cage to Coach Dresser Monday at 4 P.M. to start the preliminary training for the coming diamond season.

Holy Cross will come here March 3, a strong favorite since they have hung two defeats on the Green and Gold. The second defeat came as rather a surprise, but it took an over time period to do it. With Vermont playing on their own surface they ought to trim the Crusaders. It should be a close contest.

Next game with Middlebury there on February 28 should be a victory.

HOCKEY TEAM DEFEATED ONCE IN THREE STARTS

The end of another hockey season is again approaching. Although the team may not be the best in the East they are showing up better each year. So far this year the sextet has been defeated once by Middlebury 9-0, and has come through with two tie games against Norwich University, 0-0 and 2-2.

This Saturday afternoon a third game will be played against Norwich to determine the winner. The game will be played on Shaw's Lot and it is expected that a good audience will be at hand.

The prospects of a fine team next year have gradually disclosed themselves to those in charge this year. Of this year's team, which includes Capt. Winchenbach, Wood, Perry, H. Schurman, Seigle, Ashcraft, Bassow and Howard. The only player who will not be able to play next year is Capt. Winchenbach and in addition to the players already mentioned several other scrubs are showing up well in practice.

Considerable interest has been shown in connection with the managing of the team this winter and Manager Unsworth has several competent assistants helping him who will take out the reins next year.

Outlook Better for Champ Track Team This Season

(Continued from page 3)

head and shoulders above the other athletes. He took a first in shot put, hammer, javelin and discus and a third in the running broad jump. Simpson garnered a total of 21 out of Vermont's 37 points. The other men that placed for Vermont were Hastings, Wood, Kropper and Lyman.

Coach Latty certainly deserves a lot of credit for the way he developed his material. With a few breaks and a new man to take the place of Simpson, Vermont should make a good showing.

CROSS COUNTRY TEAM LOSES BUT ONE MAN

Vermont's Cross Country season ended very well for the Green and Gold harriers, both varsity and frosh teams. The meet with Middlebury resulted in a win for the varsity 28-27, and a loss for the Freshmen 26-29. The course was wet and spongy but the time, nevertheless, was quite fast. The first of the runners in both races were not badly scattered so the finish was interesting.

Capt. O. T. Wood of U. V. M. had no trouble in taking first place in the varsity meet and his nearest competitor was Capt. Donald of Middlebury who finished several yards behind Wood. The two leaders were closely followed by Rowe and Arnold, both Vermont men. The remaining field was pretty well scattered and were not at all dangerous.

The Frosh competition was less interesting than the varsity but Davis nearly equaled the time of the varsity winner. Aside from Davis there was nothing remarkable in the race although the field was not very open.

The winners were Wood of Vermont, time 15 minutes 16⅘ seconds and Davis of Vermont time, 15 minutes 5 3-9 seconds.

Next year a fine representation is expected. The only man to be lost is O. T. Wood and several freshmen will be recruited. Ed Rowe has been elected captain for next year and some of the better of the others will be Davis, Arnold, S. Martinetti, O. Martinetti, Blakely, Hammond, and Morse.

MANY NEW TEAMS ADDED TO FOOTBALL SCHEDULE

The varsity football schedule for 1928 has been completed by Manager Otto and as has been the custom in the past, the Catamounts will meet Columbia in New York for the first game of the season. Princeton, one of the newcomers to the Green and Gold schedule, replaces Harvard as Vermont's second opponent. Following the Princeton contest Vermont will line up against Boston University at Centennial Field, Union College at Schenectady, and Connecticut Agricultural College at Centennial. Neither one of these three teams were on last year's schedule and they all have aggressive teams which will make the 1928 schedule one of the most difficult in years. Norwich will be here November 3rd for the first state championship game and on November 17 Vermont meets Middlebury for the second state contest. A trip to Rensselaer will be made November 10th. The annual Thanksgiving day battle with Springfield will take place in the Bay State city.

The schedule:

Sept.	29	Columbia—there
Oct.	6	Princeton—there
Oct.	13	Boston U.—here
Oct.	20	Union—there
Oct.	27	Conn. Agri.—here
Nov.	3	Norwich—here
Nov.	10	Rensselaer—there
Nov.	17	Middlebury—there
Nov.	25	Springfield—there

The Old Bee Hive

Smart semi-service weight, silk comes well above the knee, all leading colors.

BRIGHT OUTLOOK FOR 1928 FOOTBALL SEASON

The football season of 1927 was not a very successful one, but Coach McAvoy has a squad which he is constantly developing to rate with Vermont's best. The 1927 line will be available for the coming season with the single exception of Winchenbach, who has starred for the past three years at tackle. Capt. Smith and Conway are the regular backfield men who will graduate this June but the material coming up from the reserves is quite promising with "Hot Dope" Mace and "Cal" Macomber in line for halfback positions.

The 1927 season opened with defeats by Columbia, Harvard, and Williams. In the Williams game Vermont was on her opponents' goal line several times but lacked the punch necessary to put the ball over the last white marker. With a share of the breaks Vermont would have emerged victoriously. The first home game, with Providence, resulted in an overwhelming victory for the Catamounts. Everything they did was right and the Rhode Islanders were outclassed in every department of the game. Tufts was the next Green and Gold rival to appear at Centennial Field and succeeded in pinning a defeat on the locals after "Jack" Smith was injured and forced to leave the game. Vermont lost the first state championship game at Northfield. The Cats were without the services of their captain during a part of the game and the Norwich cadets managed to score two well earned touchdowns. On account of the flood the game with Amherst was postponed and the next game took place at Centennial against the Middlebury Panthers. This game ended in favor of Vermont and gave the Burlingtonians second place in the state race. The last game of the season with Springfield was played in the Bay State City on Thanksgiving Day. Vermont played without mud cleats which were made necessary by the wet weather and the Springfield backs got loose time and time again for large gains. Under more favorable conditions the Vermont team might have been more successful.

The scores:

Columbia 32	—	Vermont 0
Harvard 21	—	Vermont 3
Williams 12	—	Vermont 0
Vermont 40	—	Providence 0
Tufts 22	—	Vermont 0
Norwich 13	—	Vermont 0
Vermont 13	—	Middlebury 7
Springfield 24	—	Vermont 0

Vermont's total—56
Opponents' total—131
Vermont's average—7
Opponents' average—16

Pacifist Expelled

A student at the City College of New York has been indefinitely suspended by the faculty for expressing his opinion against military training at the college.

Re-discovers His Favorite Tobacco

Charleston, W. Va.,
March 4, 1927

Larus & Bro. Co.,
Richmond, Va.
Gentlemen:

Recently I stopped in a little village that consisted of about nine houses and a small hotel, which I entered.

A little old man wearing a skull cap was seated in a rocking-chair smoking an enormous pipe. I had come to buy a can of Edgeworth, but when I caught a whiff of the tobacco he was smoking I changed my mind. The aroma of that tobacco was so delightful that I made up my mind right then and there that I wanted some of the same brand, regardless of the cost.

I began with: "I beg your pardon, sir, but I came in to buy a can of tobacco, and I would like the same brand you are smoking if you don't mind telling me." He looked at me for a moment, grasped his pipe with one hand and said: "I'm smoking Edgeworth. Would you like some?"

Of course I did, and I secured a supply from the old fellow. The joke, of course, was on me, but I went on my way rejoicing.

Yours very truly,
Dr. John R. Koch

Edgeworth
Extra High Grade
Smoking Tobacco

Representative Morrill of Vermont Father of University Military Act

Whereas training in the universities and state college and university given by the officers of the regular army is authorized by the passage of the National Defense Act in 1916, sponsored by Representative Morrill of Vermont. This act provided for the organization and training of reserve officers' corps in each state in schools for the purpose of providing a military training open to all male students of suitable age and physique. Colleges operating under the Morrill Act are called land grant colleges. Military training has been given at the University of Vermont since 1866. The purpose of the National Defense Act is in the words of Representative Morrill as follows:

"Systematic military instruction has been incorporated in the bill in consequence of a new conception of its necessity based upon the attention of the United States by the history of the past year. A total unprepared peace presents the same temptations even to a foe otherwise weak. The success which at West Point may suffice for the Regular Army is of doubtful value when a large army is to be suddenly put into service. If we ever expect to reduce the Army to its old dimensions and again rely upon the volunteer system for defense each state must have the means within it self to organize and officer its own force. These colleges founded in every state will to some extent guard against the sheer ignorance of all military art which shrouded the country and especially the North at the time when the tocsin of war sounded at Fort Sumter."

With the passing of the National Defense Act of 1916, a Reserve Officers Training Corps was organized at [illegible] state college and university giving a course in military science. Sixty-five such colleges and universities are scattered within the borders and possessions of the United States. Of the colleges in the First Corps Area which includes all of New England, Massachusetts Institute of Technology has the largest and most varied military courses. It has an Infantry Coast Artillery Corps, Ordnance Department, Coast Artillery Corps, Artillery Corps, Engineering Corps, and a Chemical Warfare Division.

The unit at Vermont is essentially an Infantry Unit. It consists of three infantry companies and one machine gun company and an R O T C Band. The infantry companies are made up of freshmen and sophomores commanded by Juniors and Seniors of the advanced military course. Those Juniors not assigned to a company are organized into the machine gun company, the unassigned Seniors make up a headquarters platoon. The R O T C unit at Vermont has made an enviable record during its establishment, being in the distinguished class the majority of the time. The arms and equipment of the Battalion are valued in excess of $40,000. Suitable room for an office armory, store rooms, recitation rooms, shooting galleries, and a drill hall is provided for in the gymnasium. A three hundred to five hundred yard out door range is provided for in back of Centennial field. The present corps is in command of Lieutenant-Colonel Frederick F. Black and assisted by Captain William V. Rattan, Captain Walter E. Lauer, Lieutenant John D. Frederick, Sergeant R. T. Conner, and Sergeant E. C. Lindsey.

NORWICH TIES VERMONT IN HOCKEY SATURDAY

Saturday afternoon the Vermont hockey sextet went to Norwich University to play their second game with the Crahamites. After two overtime periods the score stood a two to two tie so the game was called. It was a fast game and at times was rather rough. Seigal and Wood were the centers for Vermont. Both teams played good hockey although the ice was rather poor.

Seigal made a pretty goal after receiving a neat pass from Captain Winchenbach and Moodie tallied with a long shot which literally wobbled over the goalie's stick.

Winchenbach and Schurman showed up remarkably well on the defense but did not get in good positions for scoring.

Only one substitution was made for the Green and Gold, Bassett for Seigal but the Crahamites changed many times in their endeavors to put a more successful aggregation on the ice.

Several Maroon and Gold players suffered two-minute penalties for rough playing and Captain Winchenbach was penalized once.

All in all the game was good and plenty of fight was shown by both sides. It was with some satisfaction that the Vermonters got their forward line in good working order.

Vermont and Norwich will play off their tie next Saturday afternoon on Shaw's lot. The game will be an added attraction to the Kake Walk and good attendance is hoped for.

PROFESSOR GIVES VIEWS ON MILITARY TRAINING

(By New Student Service)

An opponent of compulsory military training has been discovered by the *Daily Princetonian* in Captain L. Wardlaw Miles former professor of English at Princeton whose bravery during the war won for him the Congressional Medal.

"I am against compulsory Military training in the colleges" said Captain Miles "because I am not convinced that compulsory training is desirable for America in general, and because I am sure it would be a bad thing for the colleges in particular. Colleges ought to be places where young men go to satisfy intellectual curiosity. The less compulsion except the compulsion to make intellectual slackers get out the better.

"On the other hand I am for optional military training in colleges because I am glad to believe there are a certain number of college men who want voluntarily to prepare themselves for war should it come."

Fraternities Denounced

The Yale News student publication at Yale has recently issued a scathing denunciation of college fraternities. They are definitely termed destructive influences and are accused of overshadowing college itself.

Fraternity Initiations

PHI MU DELTA

Nu Gamma of Phi Mu Delta held its annual initiation and banquet at the Chapter House Monday evening, February 20. Thomas D. Cook '25 was the toastmaster for the evening. Lemuel J. Post delivered the President's address after which Odino Martinetti welcomed the initiates into the fraternity. Kenneth Stevens '31 responded to the welcome in behalf of the freshmen. Professor Lester M. Prindle represented the faculty at the banquet. A brief talk on the Constitution was given by Robert M. Tracy '29 after which Professor Evan Thomas spoke on "Fraternity Ideals." Impromptus were given by Lloyd A. Woodward '18 and Leon W. Dean '15. The Phi Mu Delta orchestra furnished music during the banquet.

The initiates are: Allen C. Johnson '29 of North Grafton, Mass., Richard M. Blakely of Ticonderoga, N. Y., Gilbert C. Gross of Orleans, Willis W. Howard of White River Junction, Lewis Jones Jr. of South Poultney, Maxwell T. Kendall of Newport, and Kenneth M. Stevens of Barton, all of '31.

DELTA PSI

The Delta Psi Fraternity held its seventy-eighth annual initiation Saturday. The initiation ceremonies were followed by a banquet at the fraternity house at which about twenty alumni were present. Among those who spoke were Max L. Powell, J. H. Macomber, R. L. Soule, Dr. P. K. French, J. G. Baldwin, D. F. Scribner, E. H. Powell, and several of the new members.

The initiates all in the class of 1931 were: H. W. Adams of Rutland, F. A. Bolles of Bellows Falls, R. C. Bostwick of Burlington, W. C. Brasor of Brattleboro, J. L. Cogland of Burke, N. Y., S. S. Corbin of Burlington, R. F. DeWitt of Shoreham, H. P. Dow of Cambridge, Mass., N. P. Park of South Ryegate, T. H. Tellier of Cambridge, N. Y., A. B. Wheeler of Holyoke, Mass., and W. J. Willetts of West Hartford, Conn.

JEWISH WOMEN'S CLUB INITIATION BANQUET

In honor of six initiates of the K. E. L. Society, a banquet was held February 26 in the private dining room of the New Sherwood. Mollie S. Levin '29 presided as toastmistress. A welcome to the new members was extended by Theresa Schneller '29 to which Lucille E. Fine '31 responded for the initiates. "Reflections" was the title of a toast by Lillian Cohen '30. Bertha M. Klein '29 toasting "K E L at Vermont." Mrs. M. Machanic, a patroness was present.

The society which was founded in 1925 initiated the following members of the Freshman class: Lucille Fine, Burlington, Gertrude R. Levin, Burlington, Sally Pereiman, Burlington, Gladys J. Press, St. Albans, Gertrude D. Rosen, New Britain, Conn., and Ina Wolfe, Burlington.

Pat—Do you ever get homesick?
Bat—Naw, I'm never home enough.

DRAMATIC SOCIETY TO INITIATE ELEVEN MEN

On Tuesday evening, February 28, there will be a meeting of Wig and Boom, the dramatic society. At this meeting those new members will be initiated. Frank O'Keefe '29, R. T. Keneah '29, Walter Lester '28, Ben Gladstone '29, Woodall H. Hall '29, Gerard Van Nesse '29, Herrick Macomber '29, Lawrence Claxton '29, Frank Otto '29, Leon Cousins '29, and Lloyd Turner '29. Election of officers for next year will occur after which reports will be received from the committee on the revision of the constitution, Chairman Salon Abell, and from the committee on the Junior week play, W. Safford, chairman. The meeting will be followed by a banquet.

FRESHMAN HOOPSTERS HAVE WON FIVE GAMES

Freshman basketball is nearly over and the Green and Gold boys have had a fairly successful season. They played eight games of which five ended in victories, two in defeat and one ended in a tie. Coach Dresser had some good material this year and he made good use of it. He was ably assisted by Manager George Talcott, who arranged games that furnished plenty of action and pep.

The new system of having Freshmen preliminaries to the varsity games evidently went over big, as at one or two of the games, the crowd actually refused to let the big game go on the floor until the tie score was played off.

There are several men who are going to make a strong bid for positions on the varsity next year. Sargent was easily the outstanding man on the team. In almost every game he has kept his man from the hoop and at the same time knocked in many a step shot. Allan is another man who has shown up well. He plays a clean close guarding game and is one of the leaders in the basket gathering. He seems to make a specialty of long shots. Durfee was easily the outstanding forward of the season, and has a good chance at varsity next year. Tobin is the other outstanding player of the five.

The games were all good ones, one ending in a tie, and others ending with one team only two or three points ahead. The first game with the Community Boys was easily the best of the lot. Five overtime periods were needed to play off the tie, the final score being 30 to 29 in favor of the town team.

The total points scored by the Frosh and their points are surprisingly close. The Kittens have a total of 244 points, while their adversaries scored 202.

It is to be hoped that the Frosh teams from now on will show as much talent as this year's.

Language Courses at Middlebury

We should like to bring to the attention of the college an enterprise in the field of education which has been carried out with remarkable success during the past few summers, the establishment of the French and Spanish summer schools of Middlebury College. These institutions aim to give to the teacher of languages in the secondary school a familiar and intimate knowledge of French and of Spanish. The seven-weeks course has been carefully planned with this idea in mind, and during the session the student finds himself in an atmosphere and a life thoroughly French or Spanish. The faculties of the school include only native French and Spanish instructors with the exception of a few Americans nationally known in their departments. The courses offered include composition, phonetics, national background, teaching methods, classroom equipment and help in outlining courses to be used later in teaching. No entrance examinations are required, but the courses are understood to be essentially advanced work, very nearly approximate in worth to seven weeks spent abroad.

FOUNDATION REPORTS ON ATHLETES' STANDING

(By New Student Service)

The Carnegie Foundation's report prepared by Dr. Howard J. Savage, which was expected to settle the mooted relationship between athletics and scholarship, has been issued after a year of preparation. But it does not settle the question, even though it covers investigations in forty-four colleges and universities. Dr. Savage advances several reasons, among them lack of objectivity and absence of common grounds of comparison, why his results may not be considered as final.

After presenting checked figures, the report draws this conclusion:

"Although the athletes and the non-athletes may be regarded as practically on the same level of intelligence, the non-athletes averaged C— in their course grades, whereas the athletes averaged C. This difference is also small, but the likelihood that it has some significance is enhanced by the fact that such scholarship differences are found favorable to the non-athletes in nine out of ten semesters."

Indian Students Favor Prohibition

"India's freedom from alcohol and other intoxicating drinks," is the slogan which students in India are trying to put into effect. Their method of attack is entirely different than any used in the United States.

In India one can turn almost any street corner and run into a wine house which is filled with old men squandering their good money on worthless booze.

"Where does the student enter in the question?" You may say an Indian student never touches a drop of liquor. High School and University students know better. They know the effect which drinking has.

All day long a certain number of students stand in front of the wine houses and try to persuade every individual who comes along that it is for his own good and the good of his family to stop drinking. He explains to each and every individual the evils which alcohol brings about. After they get a good beating out of it they may even have to spend a few days in the hospital recuperating. But slowly they are bringing about a change which will greatly affect the future of the country. A noticeable falling off is already evident and it is hoped that in a few years they will have entirely freed their country of the alcoholic habit.

—*International Student*.

Last year New York University and Bellevue Hospital Medical College succeeded in placing every one of its graduates as an interne in one of the hospitals around New York, it is reported.

CO-ED BASKETBALL TEAMS CHOSEN BY DEPARTMENT

A report comes from the Athletic Department that the following co-eds have been chosen for 1928 Basketball Teams.

Seniors: f. Hayes, Martin; g. White; c. Westin; s.c. Mildon; subs. A. Burns, P. Darling, Marsh, Peters.

Juniors: First, f., Zielonka; g., Everest, Morgan; c., Wheat; Corbin, subs., Upton.

Second, f., Nelson, How; Smith, Klein; g., Hazen, Sc[illegible]; subs., Turner, I. Fiske.

Sophomores: First, f., [illegible] Gurney; g., Kibbe, Bostwick; fer; s.c., Munn; subs., Robi[illegible] lor.

Second, f., Dailey, Cam[illegible]; Strong, McKee; c., Dean, [illegible] ardson; subs., Martin, Kee[illegible] Fishman.

Freshmen: First, f., Wri[illegible] ling; g., Wappler, Abbott; c., McKee; s.c., Warhurst; subs., Johnston, Rivers, Cohoe, and Buck.

Second, f., Burns, Nash; [illegible] brown, Drugg; c., Wescott; [illegible] subs., Howley, D. Davis, Putnam and Paul.

WOULD CHANGE METHOD OF CHOOSING SCHOLARS

A bill is now being prepared to be presented to the present session of the English Parliament, which seeks to alter the present method of selecting Rhodes Scholars to Oxford especially those students from the United States. It is said that the bill aims to improve the class of Rhodes Scholars.

The measure would end the selection of scholars by States. Such sparsely settled states as Nevada and Utah, it is said, have the same number of scholars as New York or Pennsylvania. The plan would district the United States into eight areas. The bill provides instead of picking one man from each state two out of every three years, that four men be selected from each of the eight districts every year.

It need scarcely be said that Vermon would undoubtedly and perhaps seriously, be affected by this law, were it passed. The bill seems to favor the more popular centers and seems too, to discriminate against the farm regions. There is much hope however, that the present method will not be changed, as to pass the law it will be necessary first to secure the right to alter Cecil Rhodes' will.

There will be no gridiron contest between West Point and Annapolis this coming fall. The Army claims that Annapolis, by its attempt to include a three-year eligibility rule in the contract, broke their existing football contract which would not otherwise have expired till 1930.

TRI STATE LITERARY CONTEST IS ANNOUNCED

Annual Contest Between New Hampshire, Maine and Vermont Will Close on March 15 for All Contestants

This literary contest was established by the state Universities of New Hampshire, Maine and Vermont two years ago, with competitors for honors in short story writing, essays and poetry. It was decided to establish this contest as an annual event to encourage interested students to write. Prizes of $25, $15 and $10 are awarded to the three best entrees in each type of writing.

The restrictions for submitted articles are lenient enough to warrant attempts by many aspiring authors. Short stories may consist of simple and plotless narrative sketches as well as the more conventional type. A limit of 5,000 words has been fixed as the maximum length of stories. Poetry not to exceed 100 lines in length, but of any type or style is eligible. The essays are to be of the familiar, conversational or personal kind as illustrated by the works of Holmes, Irving and Stevenson, as opposed to the type associated with MacCauley, Arnold and Emerson.

The English Department wants all the poems, short stories and essays handed in to them by March 15. They will select three of each kind to be sent in to the contest. Also one copy is all that is necessary when they are handed in to this Department but three copies will be necessary when they are sent. This year Vermont selects poetry judges, Maine essay, and New Hampshire short stories.

RULES

1. All contributions must be in triplicate and in typewritten form.
2. Neither the name of the competitor nor any indication of his university shall appear on or in the manuscripts submitted. Each manuscript must be signed with an assumed name, which, together with the student's real name shall be enclosed in a sealed envelope and passed in with the manuscript.
3. Each manuscript shall be accompanied by a signed statement on a separate sheet that the author has recieved no assistance of any kind in writing the paper submitted.
4. Contributions must not be used for any other purpose prior to their being submitted in this competition. No restriction is placed on their use after the awards of the contest have been announced.
5. No restriction is placed on the number of contributions which may be submitted by any one student, but no student may be awarded more than one place in each of the three contests.
6. All contributions submitted by each university must be in the hands of the official designated not later than April 1, 1928.

NEWS IN BRIEF

Dr. George K. Pratt, specialist in mental hygiene, will be at the University on Friday, March 2. Students desiring to consult Dr. Pratt should apply for appointments to Professor Metcalf or to Professor Holbrook.

Miss Sara Holbrook left Friday to attend the National Superintendents' Conference which is being held in Boston this week. While there Miss Holbrook will address a Visiting Teachers' Association on "Some of the Most Interesting Developments of the Visiting Teachers' Work in Vermont."

At this conference will gather principals, supervisors, and superintendents from all over the United States. Several thousand people will be present, including several well-known educational authorities.

New Stadium for Notre Dame

The University of Notre Dame is to build a new football stadium with a seating capacity of 50,000 at a cost of $800,000.

SUB-FRESHMEN GUESTS AT UNIVERSITY'S BANQUET

Sub-freshmen" were royally welcomed to the home of the Green and Gold, Friday, February 24. Key and Serpent and Gold Key men met the several trains arriving in Burlington throughout the morning and afternoon. After being met at the station the "sub-freshmen" or more aptly high school seniors, were escorted to various points of interest on the Vermont campus, and then taken to the fraternity houses in which they were to lodge Friday night.

Under the auspices of the University, a banquet was served at the Hotel Van Ness early Friday evening at which the "sub-freshmen" were guests. About 175 of the visitors were present. J. T. Conway '28 presided at the banquet acting the official capacity of toastmaster. Dr. A. K. Aldinger, dean of athletics, and F. W. Kehoe, registrar at the University were the speakers. Dr. Aldinger outlined the athletic program of the University touching upon the major sports, track, baseball, basketball, and football. Mr. Kehoe stated that he hoped to see the guests again next fall enrolled as students in the University of Vermont.

Following the banquet, each one of the guests was given a free ticket to the Kake Walk at the University gymnasium.

CANDIDATES FOR TRACK, BASEBALL RECEIVE CALL FOR EARLY PRACTICE

Latty and Dresser Summon All Men With Any Ability in Either Branch of Sport

Candidates for track and baseball were called out yesterday and will report daily from now on, the ball tossers in the cage and track men on the track. Coach Dresser and Coach Latty want to get a good early start as the prospects look better this year than they have for some time.

With all veterans back but two of the last season's ball team things look mighty bright for a fast nine this year. Roarke, an outfielder and Fogg, a pitcher, will be missing this year and with the reserve material of last year these places will be easily filled. Some of the battery candidates have been limbering up each day taking different exercises and this department should be strong this season with Moriarty, Schoppe and Talcot throwing the pill and Oranson, Winchenbach and Young on the receiving end.

The infield is intact with Prentice at first, Smith at the keystone sack, Coggwell at the hot corner and Captain Conway at short. In the outfield Price at right and Macomber at center will be hard to oust out leaving only left vacant. Besides this there is a lot of reserve material from last year, including Schuman, O'Keefe, Morse, Valenti, Chadwick, Sirois, Whitcomb, Knapp and Burr. It is also rumored that there are several clever ball players among the Frosh and some of the veterans might be pushed hard for their position.

In about a month more the Cats will leave for their southern trip which will be a strenuous affair due to the fact that they play ten games in twelve days. Their entire schedule calls for twenty-eight games which is one of the largest that the Vermont nine has ever had.

Coach Latty has just received some good news in track when he learned that two of his former stars, S. Martinetti and "Freddie" Robbins came out from under warning at mid-years. Martinetti is a fine half miler while Robbins competes in the hurdles and pole vault. This greatly brightens the prospects for a good track season. Although there are only three meets, omitting the Eastern Intercollegiate this year, Vermont should make a little better showing than last season. "Sonny" Simpson will be greatly missed and Jack Latty is trying hard to find someone that will fill his shoes, but it will take more than one man.

It remains to be seen what the Freshman class contains in the way of promising material. The interfraternity meet that comes in March and the outdoor later usually results in a few finds. However, if a man has had any track or not if he is interested he should turn out for he might have some hidden ability of some kind.

Briggs and Boulder Cups Won by Phi Delta Theta

Wright Cup Is Taken By Delta Psi For "Old Ironsides" Entry In The Grand Peerade

RECORD CROWD IN ATTENDANCE SATURDAY EVE

STUNTS

The six fraternity stunts which survived the preliminary tryouts were of various degrees of excellence. On the whole, this department of the thirty-first Kake Walk was hardly up to the average set by former productions. One stunt, Phi Delta Theta's "Transformatory Phantasmagoria," which won the Briggs cup and large cake, was well above the others, and would have made a strong bid for first place in keener competition. This stunt concerned the marvelous invention of one Professor Squeegee, which would change a personality in the twinkling of an eye. The scientific genius whose mind had evolved this triumph of his art had on the very first day several clients who desired a change of personality, and were eager to go through the machine. The audience watched with wonder as two separate individuals came out of the machine into which one who complained of a dual personality—had gone. All of the clients had their wishes satisfied except an old maid who desired to change her sex. Here the machine fails and Professor Squeegee admits that "It can't be done."

Tau Epsilon Phi won the second prize for the stunts with its presentation of "There's One Borne Every Minute," an amusing picture of the typical sideshow. The opening scene showed the barder an exceptionally effective one—attracting his audience and explaining what was going on inside the tent. The following acts portrayed the advertised attractions, a strong man, a magician, a hair tonic vender who produced hair on a billiard ball, and a family of acrobats.

The Sigma Phi stunt was a take off on "Julius Caesar" but it followed the facts of history less closely even than Shakespeare's tragedy. Caesar and Mark Antony are represented as rivals in politics and in love, with Cleopatra the object of their infatuation. Caesar, of course, gets first place in both events and he and Cleopatra live happily (?) ever after.

"Heaven Bent for ——!" was the title of the Zeta Chi stunt. Here Hamlet and Juliet, under the custody of William Shakespeare, are given permission by St. Peter to revisit the Earth. They observe, first, a national boxing match, and then a night club in full swing. When they return late to Heaven, St. Peter, in anger, sentences them to Hell. They go to Hell where Hamlet and Shakespeare are put to work while Juliet's charms soon bewitch Satan, who falls in love with her.

"When the Women Wear the Pants," the Sigma Delta stunt, portrayed the broadcasting of a play by a radio station. The play portrayed life at some time in the future when men and women have completely changed places. The theme of the play is the courtship, marriage and life after marriage of a young man and woman. In the opening scene and between scenes suitable announcements are made by the announcer. The final scene shows the radio program being interrupted by distress signals, causing the listener to become angry and smash the receiving set on the floor.

The Alpha Tau Omega stunt was called "A Parody on Justice." In the first act a freshman is sent down town to roll a peanut up Church Street with his nose, and is instructed what action to take if he is interrupted. He complies lustily when an officer of the law seeks to make him desist, and for the offense he is sentenced to twenty years at hard labor. A bootlegger who has murdered his wife is placed by the court on probation for six months. The final scene shows blind Justice viewed by the erring student and the erring bootlegger; the latter swings the scales of Justice with a roll of bills.

Against Hazing

A Baptist minister in Greenville, S. C., made a protest from the pulpit against the hazing of college freshmen. He said that the members of the faculty should sit up all night watching the students to prevent it.

Phi Delta Theta took two of the three first prizes in the thirty first Kake Walk, winning the Briggs cup with their stunt "A Transformatory Phantasmagoria," and also the Boulder cup for the Kake Walking. First place in the Peerade went to Delta Psi's "Old Ironsides," and second place in the Peerade, stunts and walking, went to Sigma Delta. Tau Epsilon Phi and Sigma Phi respectively. The gymnasium was filled to its capacity Saturday night by an enthusiastic audience. The R. O. T. C. Band furnished its usual excellent music in a preliminary concert, during the program, and for the colored steppers.

THE GRAND PEERADE

This year's Peerade added greatly to the interest and entertainment of Kake Walk enthusiasts, due to the great improvement in all stunts over previous years. Time and work was shown in many of these stunts.

"Old Ironsides," Delta Psi's contribution, easily won first prize as a very clever and original stunt. The best feature of this was that "Old Ironsides" rocked vigorously during the storm, much to the delight of some and fear of those who thought the craft was tipping over. The ship was in two parts, each a novelty. In the top of the balloon a sailor amused the crowd by his antics, while the passengers below appeared horror stricken during the storm, only to be calmed by the captain. Delta Psi was awarded the Wright cup for 1st prize in the Peerade.

Sigma Delta won second honors in the annual parade with "Air, Land and Water," a combination submarine auto and aeroplane feature which created much applause from the spectators. The most novel part of this stunt was the smoking chimney on the rear of the machine. Signs of every description were hung upon the machine. Pilot and observer had no difficulty in making their craft earn honorable mention.

Reminders of the Vermont flood were portrayed by an old torn down Ford which bore a noisy family of survivors. The Ford carried pontoons, life preservers, livestock, and the rest of the farm thrown in. "The Refugees" was presented by Kappa Sigma and received laughs and applause from the audience.

Sigma Phi certainly had the "Hot Dope" on the "football game" with their first entry to the grand Peerade. Here is the old, old story of a fellow trying to see a football game and answer his sweetie's questions patiently at the same time.

The "Death House," offered by Sigma Nu, executed Sacco and Vanzetti again. The contraption, a huge box-like affair, was augmented by the acting of those who ran it.

Phi Mu Delta first offered the going of "Hickman to Hades." Here Hickman was preceded by the devils who were impressive in costume bearing fork and shovels. A novelty performed by one of the devils went big with the crowd; this devil ran from the hall, his costume unwinding from around him as he left.

"An Intimate Glance at a Confederate Soldier in a 'Union' Suit" was given by Zeta Chi. Here the Confederate soldier was dressed in a union suit of a brilliant red which promptly attracted attention.

Kappa Sigma's second entry, "The Gentleman from Chicago," scared many of those present by shooting at an imaginary gangster. The huge metal protector was well equipped with rifles and swords to ably ward off the stray bullets of the underworld.

President Coolidge's saying, "I Do Not Choose to Run," was the title of Phi Mu Delta's next offering. One of Vermont's time-worn track men limped around the floor aided by his cane.

"A Pair of Dancers" encircled by a fence-like arrangement danced around the hall. This was offered by Phi Delta Theta as a new way to dance on a crowded floor, have plenty of room, and thus enjoy oneself."

"Companionate Marriage" was successfully portrayed by a single individual cleverly dressed, one-half of

MICHIGAN TO INTERPOSE PREPARATORY COURSE

(By New Student Service)

[illegible]versity of Michigan's university [illegible] project, which interposes a [illegible]ear preparatory course between [illegible]g students and the professional [illegible]ls has been sanctioned by the [illegible] committee of the University [illegible]. The faculties of the various [illegible] and colleges and the regents [illegible] add their approval before the [illegible] will go into effect. No opposition [illegible]cipated however, inasmuch as dur- [illegible]e two years spent in framing the [illegible] all the faculties had a part in [illegible].

[illegible] the new order, the College [illegible]erature, Science, and the Arts [illegible]es the status of a professional [illegible] to which admission will be [illegible]ed only upon successful comple- [illegible] two years of work in the new [illegible]s college. The same require- [illegible]ch control admittance to the [illegible] professional schools. Conse- [illegible] students who indicate inabili- [illegible]ciated with advanced and pro- [illegible] work can be eliminated at [illegible] of two years.

[illegible] students will be permitted [illegible]ate a major interest, on the [illegible] of which they will be assigned [illegible]advisers. Common interests in [illegible] matter and specialization will [illegible] appointments. The whole [illegible] permits variation, and it is [illegible]entually to grant its regis- [illegible] opportunity to work on their [illegible].

Do You Know—

[illegible] one-third of all the Nor- [illegible]s are freshmen and that [illegible]alf of the students at- [illegible] the university are taking [illegible] course which leads to [illegible] of bachelor of science? [illegible] Norwich University's [illegible] is 314.

[illegible] bronze statue of Lafayette [illegible]stands upon the north side [illegible]pus is said to be one of [illegible] productions of the leading [illegible] sculptor, J. Q. A. Ward? [illegible] was dedicated in June, [illegible] was the gift of Mr. John [illegible]ward of New York City. It will be remembered that the corner-stone of South College was laid by General Lafayette, June 29, 1825, when he was on a tour of the New England States.

Do you know—

That Rhodes scholars at Oxford are far better mixers than the English students? Someone has said that the reason was that Americans have drummed into them the idea of quality.

Do you know—

That the Norwich riflemen stand a good chance to repeat last year's record? They're coming along mighty fine. Just now they stand at the head of things.

MEN'S GL[illegible] CLUB

Who sang in the New England Intercollegiate Contest at Boston

Do you know—

That there is such a thing as a museum upon this little campus of ours? Most students don't. You might be surprised to hear, too, that there is a mummy from far off Egypt in that museum, a mummy which was bought for $400. Any one who goes to the museum can see it in a glass case there some-place.

Do you know—

To, that there are many fine pieces of statuary in that museum of ours, and a whole room full of swords—executioners' swords, Borneo head hunters' swords, and the like, wooden shoes, Indian drums, Oriental lamps, a whole jaw-bone, Chinese masks, Japanese armor suits, and a million and one other things? It might be worth your while to stroll into the place sometime.

Do you know—

That in 1901, the total number of students attending U. V. M. was 500? We have grown a bit, have we not? Now, we number some-thing like a thousand more.

Youth a Financier

William D. Stewart, Jr., 25 years of age, who graduated only three years ago from the University of Pennsylvania, has arranged to buy a stock exchange seat for $270,000, the highest price ever paid

PHI BETA KAPPA ELECT FIVE OF SENIOR CLASS

[illegible] Alpha of Phi Beta Kappa [illegible] met Thursday evening, February [illegible] and elected five members of the senior [illegible] class to the society. The following [illegible] were elected: Edith P. Hathorn [illegible] of Hinesburg, Mrs. Elizabeth M[illegible] of Essex Junction, Theodore H[illegible] of Burlington; Muriel E. Richardson of [illegible]ennes, and Cedric Wolfe of Bur[illegible]ton.

All of those elected this year have stood high in College activities as well as in studies, and are to be congratulated for having this honor conferred upon them.

In order to become a member of the honorary society it is necessary to have an average of eighty-nine and a half in all courses throughout the four years.

Middlebury recently elected eleven to Phi Beta Kappa, but this number is not to be compared with that of Vermont since the average required at that College is much lower than here.

NTHERS SECOND HALF RALLY DEFEATS GREEN AND GOLD BASKETEERS

r the First Time in Several ears Middlebury is Victorious Over Vermont in Basketball

ddlebury hoopsters sprang a sur- e on the Catamounts in the Pan- r lair Tuesday evening. After ding the entire first half the Cata- nts lost ground slowly to lose a e game. Vermont started off in r usual style leading by a good argin. Just before the half time ssie Swede" Sorenson who starred r the Panthers dropped a pretty ng shot through the hoop.

After the half opened Middlebury me back with a dazzling attack, assing, passing and shooting to per- ction taking the lead 15-13. Then rmont came through with two step- nts to take the lead for the last me. With Sorenson-Casey combina- n working fine for Midd they com- etely outplayed the Vermont team. Doc" Marvin played a great game r Vermont making three pretty ts from the middle of the floor. Tommy" Prentice and "Tim" Halli- an just were not able to get their ual great combination going. Per- aps this was due to the strange floor nd exceptionally close guarding.

For Vermont Marvin and Halligan re best while Sorenson and Casey ere stars for Midd. "Smiles" Wallace ent in for Halligan in the last quar- er and played a great game causing Vermont rally.

(Continued on page 4)

NEWS IN BRIEF

Lectures to the Freshman class by ajor Stanley have been discontinued nd beginning next Monday, March 5, lasses will meet at regular hours. A test has been announced for the end f the month to cover platoon drill nd the first aid talks by Major Stan- ley.

The librarian at the Billings Li- rary earnestly desires to announce hat all of the most current periodicals nd magazines are kept on file for the se of the general public and student ody. The librarian urges the use of hese but desires that they be not mu- ilated through use. There seems to ave arisen a contention of doubt as o whether such magazines were to be ept on file.

The Women's Rifle Team of the Uni- ersity of Vermont received their econd defeat of the season at the ands of Cornell University by a score f 498-496. Annette Burns, '28, has he distinction of being the only oman to fire a perfect score in both matches last week, the other contest eing with the North Dakota Agricul- ural College.

Anyone wishing to purchase pic- ures of any of the women's organiza- ions must place orders with Dorothy orrell, '29, before Saturday, March 3.

The Vermonters, led by Joe Lech- er are making quite a début in Middlebury. After furnishing music or one sorority formal there two eeks ago, they played again last aturday night and now have received ore requests for music. This roves that U. V. M. leads Midd. in jazz as well as in sports.

W. C. A. cabinet announces that Dr. Hart regarded by delegates as the most popular leader at Silver Bay last summer, will visit the campus of the University of Vermont, March 17 and 18. Dr. Hart is particularly interested in the problem of co-education. A definite program for his visit will appear in the CYNIC for next week.

Dr. George K. Pratt, specialist in mental hygiene, will be at the University Friday, March 2. Students wishing to consult Dr. Pratt should make appointments to Professor Woodruff or to Professor Holbrook.

The proofs of the junior panels have been returned to Manager Bissell and the results are very pleasing. If these are a sample of what took the class of 1929 will have one of the best publications in years. According to all the dope the book will be out on time this year despite the fact that the books are being made up by a western firm.

MME ELLY NEY

World famous pianist who will appear at the gymnasium next Tuesday.

WORLD FAMOUS PIANIST TO PLAY IN GYMNASIUM

Mme. Elly Ney, the world famous pianist, is to appear at the university gymnasium on Tuesday evening, March 6. It will be Madame Ney's first concert in this state and the last concert of the local season. Student tickets are now on sale at the university store.

The *New York American*, in its annual review of the music world, awards the title of "greatest woman pianist" to Madame Ney.

Certainly few artists who have come to America in recent years have made so deep and lasting an impression as this pianist. She came to America after many years of European successes, and proved in her opening New York recital that the eulogies which had been heaped upon her by the European press were not without reason. Last year the world-wide Beethoven centenary observances gave her a prestige perhaps greater than that of any other pianist on the concert stage. For Madame Ney's whole life has been linked with the name and music of Beethoven.

She was born in Beethoven's birthplace, the city of Bonn, Germany, and she showed devotion to his music from her earliest years.

She was a musical prodigy at ten, but her parents, unlike the parents of certain musical prodigies, declined to force the girl's extraordinary talents or to impede them. She received a thorough musical education without neglecting general schooling. She is well versed in literature and art, is a linguist of great talent, and is a world authority on Beethoven.

At the age of ten, she received a scholarship in the largest conservatory in Germany. The young pianist was below the age limit, but her exceptional gifts were recognized and the authorities suspended the rules to accommodate the brilliant young student.

Six years later she won the Mendelssohn prize—the greatest musical award in Europe—against a field of much older students. This prize immediately marked her as a musical "find," and since that time she has been continually in the public eye.

Yet her road to fame was not always easy. Her parents were not willing to have the young pianist venture into the concert field and her early struggles in Vienna were typical of those undergone by many newcomers. She found a powerful friend, however, in the great Leschetisky, with whom she studied. From Vienna as a center, she made preliminary excursions as an itinerant concert artist, and these led to an engagement for a tour of Holland. Here she met the Dutch violinist and conductor, Willem van Hoogstraten, and soon afterwards they were married.

American managers had been inviting Mme. Ney to America for almost a decade, but she consented only after her husband had decided to come here. The reception which they both received from the American music world proved that they were not mistaken in their decision.

Mme. Ney at home is a charming wife and mother, with none of the eccentricities which are attributed to great artists. She practices many hours every day, but her devotion to music has not destroyed her fine home life with her husband and little daughter. The van Hoogstratens are "home folks," they tell you very proudly. They even pay a weekly visit to the movies!

SYMPHONY SOCIETY TO ISSUE STUDENT TICKETS FOR MUSICAL CONCERTS

Burlington Symphony Society to Present Soon Two Concerts in the New Memorial Auditorium

At a recent meeting of the Directors and Executive Committee of the Burlington Symphony Society it was decided to again issue a Student's Ticket, same as last year.

The Symphony Orchestra of 70 musicians now in their seventh season will be presented in two concerts at the New Memorial Auditorium, and the Society anticipates a record audience.

The regular membership ticket is $3.00 but the Student ticket is $1.00 which entitles a Student to attend both concerts.

The soloist at the first concert will be Miss Marion Keeler, soprano, of New York City and Burlington, who appeared with the Symphony here two years ago and made a decided hit with the large audience. Miss Keeler has been re-engaged for this year's first concert because of the public demand.

Miss Keeler is the leading lady of the "*White Eagle*," an operetta which has appeared in the leading cities of Canada and the United States and is to appear shortly in London, England.

In her appearance here with the Symphony, Miss Keeler will sing the famous "*Aria Ah Fors'e Lui*" from the Opera "*La Traviata*" by Verdi and will be accompanied by the entire symphony.

At the second concert another talented young artist will be heard. Miss Gertrude Sternbergh of New York city and Burlington will appear as pianist. Miss Sternbergh has appeared in concert in the leading cities with Symphony orchestras and has been acclaimed by her hearers and critics.

Miss Sternbergh and Miss Keeler both have a host of friends in Burlington and especially on the Hill and no doubt a large number of them will greet their favorites at the concerts this season.

The student tickets will be on sale at the Book Store in the Old Mill, also by a committee to be announced in the next issue of the CYNIC.

VERMONT WELL UP IN GLEE CLUB CONTEST

The Vermont Glee Club finished well up in the upper half at the New England College Glee Club, which was held in Boston last Friday evening. The first place was accorded by the judges, Ralph L. Baldwin, Malcolm Lang, and Thompson Stone, to Amherst, and honorable mention was given to Wesleyan. The winning club sang, besides the prize song, "The Broken Melody" which was required, "Now in the Month of Maying," and for their college song the familiar "Lord Jeffrey Amherst." Wesleyan, last year's national champion, sang "It is the Lord's Day," and the college anthem, "Twilight Song."

Vermont's optional song proved a happy choice, and after singing "Ye Gentlemen of England," it was tied for first place. The song is lively, and well adapted to glee club rendition. The Green and Gold singers were a little weaker on "The Broken Melody," and could not regain their position with "Champlain," in competition with such rollicking melodies as "Lord Jeff."

The men who made the trip for Vermont were Professor H. G. Bennett, R. H. Allbee, M. '31, E. W. Allen, '30, B. Baker, '31, G. Basilicato, '31, '30, R. S. Beck, '30, W. K. Bicknell, '30, J. R. Brooks, '31, C. M. Crothers, '30, E. O. Dalrymple, '28, H. C. Dalrymple, '30, L. M. Donahue, '30, H. E. Goddard, '30, N. C. Hoxie, '31, M. B. Jenks, '30, R. T. Krogh, '30, U. R. Merikangas, '31, W. W. Parker, '29, W. D. Safford, '28, S. Segel, '31, A. T. Shaw, '28, E. C. Slack, '28, and W. A. Walker, '31.

Flying Contest in England

Oxford and Cambridge universities are said to be planning a new form of intercollegiate competition. The two institutions are arranging flying contests, which will take place annually. Each school at present has its own air squadron.

DEMAND FOR STUDENT LABOR ON THE INCREASE

With the approach of spring there is a noticeable increase in the number of calls from the residents of the city for student labor. All students who wish to avail themselves of the free service of the employment bureau conducted by the college Y should call at the office and check up their application card. It is important to have on file the correct address and telephone number, also what hours one is available for employment.

Up to mid-years $1,500.00 had been earned by students through this agency. It is hoped this figure may be doubled before the end of the year.

TWICE VICTORIOUS HOLY CROSS QUINTET INVADES LAIR OF CATAMOUNTS

Strong Crusader Five Confident of Making Victories Three in Number

Holy Cross comes here, for the final hoop contest, Saturday night. The Purple has already hung two defeats on the Cats and are out to make it three straight. They defeated Vermont in the Yale tournament 44-32 and again at Worcester last week 40-34 in an overtime game. This meeting should be a whale of a battle as the teams are about evenly matched, both having about broken even on the number of games played. However, Vermont is in sort of a slump and they will have to pull themselves together if they hope to annex this final battle. The Cats will be back on their home court again so that ought to mean something as they always put up their best battles here.

In Reilly, the Purple captain, Holy Cross has a fine basketman and he seems like poison to Vermont always tallying a large number of points. He can be used at either center or guard effectively. He is a clever handler of the ball and has a wicked eye.

"Zeke" Connors, the Crusaders' right forward, has been another main cog in the defeats of the Cats. In the last game he got five baskets from the floor, which shows that he has a dead eye for the hoop. He also, along with Capt. Jack Reilly, decided the fate of the Vermonters at the Eli tournament. The fans will see a clever player when he appears here and he will bear watching by the Macmen or they will be able to chalk up another defeat.

The Purple has always offered a stiff defense against Vermont holding Prentice and Halligan down to very few baskets. They have two good guards in Clancy and Brady, both being fine offensive performers as well as defensive men.

This is also the Crusaders' closing game and they will be out to wind up the season with a successful win.

The probable line-ups:

HOLY CROSS	VERMONT
Clancy, r. g.	Halligan or Wallace, l. f
Brady, l. g.	Prentice, r. f.
Reilly, c.	Marvin, c.
Connors, r. f.	Price, l. g.
Morris, l. f.	Estabrook, r. g.

CO-EDS HOLD WINTER CARNIVAL SATURDAY

Providing weather deities are propitious, the winter carnival of the Women's Athletic Department will be staged on the lawn in front of Redstone, Saturday afternoon. Last year no carnival date coincided with King Sol's plans, and because of the omission of the 1927 event, this year's carnival is being keenly anticipated.

The dormitories and classes will compete in skiing and snowshoeing contests; and ribbon awards will be presented the highest individual scorers. The class which piles up the largest number of points will win the carnival credits toward the interclass cup.

Senior and Juniors will recall the very successful carnival of 1926, when among other contests, veteran athletes, armed with suitcases and umbrellas, hustled on snowshoes over the various obstacles, spurred on by cheering sidelines.

Doris E. Kibbee, '30, is chairman of the carnival.

DEBATERS WILL INVADE BAY STATE NEXT WEEK TO MEET THREE TEAMS

Vermont Will Debate Springfield, M. A. C., and Clark on Questions of Press Censorship and Philippine Independence

Vermont's debating team leaves Sunday, March 4, for a four day trip through Massachusetts visiting three colleges. On Monday night the team will debate Springfield College at Springfield on the question, "Resolved that there should be an official censorship, state and national, of the press and theatre." This debate will be of the two man Oregon type with no decision. The Green and Gold speakers will be L. A. Hinco '28 and H. M. Macomber '30. They will uphold the affirmative side of the question.

Another team composed of G. A. Gould, Jr., '28, J. M. Leavens '28, and F. A. Sears '30 will debate the Massachusetts Agricultural College at Amherst on the same night. The question brought forward for discussion will be "Resolved that the Philippine Islands should be given their independence, limited by the Platt Amendment, within five years." Vermont will argue on the negative side of this question. In this case, the debate will be a three-man Oxford style no decision type.

On Tuesday night, March 6, a combination of the two above teams will meet Clark University at Worcester on the same question of censorship as was used in the Springfield engagement. Hinco, Macomber, and Sears will uphold the affirmative side of the question employing the Oregon type of debate.

Vermont has Colby, Massachusetts Institute of Technology, Saint Michael's, and possibly Yale yet to meet. The debate with Yale is not certain, but it is probable that a meeting can be arranged. The men have been preparing for quite some time for these debates and there is no doubt but what Vermont will make a good showing. If the Green and Gold debators speak as interestingly, as forcefully, and as clearly as they did in the Dartmouth meeting Vermont may rest assured that she will keep her coveted position in the forensic artistry that last year's team gained for her.

COLLEGIATES TO SPEND SUMMER IN ENGLAND

Incessant warfare waged by Mayor Thompson of Chicago upon King George for the past several months has succeeded in keeping both of those gentlemen in the limelight but to date no loss of territory, cutting off of food supplies, or loss of prestige has been noticed by supporters of King George. And now to make matters worse, at least, as far as the mayor is concerned, a group of 100 American college students have declared their intention of setting sail from Montreal on June 22 to celebrate July 4 in old "Lunnon."

The entire party, which is being planned by College Humor and the Art Crafts Guild, will extend over a period of twenty-nine days. From Montreal the group will go direct to Liverpool and a trip through many of the cities and towns made famous by the writings of Shakespeare, Scott, and Gray will begin. Among the places to be included in the sight-seeing journey will be Leamington, Warwick, Stratford-on-Avon, Shottery and Stokes Poges. An inspection trip will also be made of Eaton and Oxford Universities.

Other places made famous in history and fiction included in the itinerary are Trafalgar Square, Pall Mall, the National Galleries, Tates, Marlborough House, York Palace and Piccadilly Circus. At the First Avenue Hotel, London headquarters of College Humor, will be held the mammoth Fourth of July party with a huge banquet entertainment and dancing to the music of an American college jazz band which will accompany the tour through four countries. A few days will be spent in Belgium and Paris and on July 14 the S. S. Australia will start back to America with its collegiate cargo.

Vol. 46 March 9 1928 No. 25

GOLD KEY

Gold Key as usual is receiving a lot more criticism than any of the other so-called honorary societies. It would be an abnormal year if this didn't happen because this Sophomore society has the nearly impossible task of supervising the shaping of "prep" school boys into men of Vermont.

It is possible that Gold Key is partially to blame for the lack of respect for rules, meted out to the Freshmen, but it is certain that lack of cooperation on the part of the rest of the student body aids the Freshman's idea that it is "smart" to disobey regulations. This lack of cooperation is either due to little interest in the future student body or the belief that the rules are unjust and should be abolished. If the former is true, then the proper Vermont Spirit isn't present. If the latter is true the continuance of the rules is a farce and they should be abolished. A demonstration on the part of interested students could easily influence the senior society into revoking Gold Key's Charter or limiting it, abolishing the rules (with the consent of the student body) and leaving Gold Key as merely a social society.

The peculiar part of the criticism is that to all destructive and a mere repetition of criticism that has become trite with repetition. Gold Key is composed of over twenty members which is an unwieldy group to say the least. Perhaps one-half of the group is really active, the remainder hanging on in order to have the right to wear a cap rarely seen about the campus. This fifty per cent act as a dead weight and help bring the group under the critical stare of the campus onlookers.

To combat this the membership has been lessened to one from each fraternity and three from the Independents for the coming year. It will be interesting to watch this limited number and see if it functions as well as the present system.

Two hundred and eighty new study desks are failing six or more hours, according to statistics at the Junior Dean's office at Iowa State University. Only 42 out of the 700 are girls, leaving a high percentage of boys that are failing.

COOPERATION

Tuesday night's game with Middlebury was a fitting climax to a very disastrous basketball season. Vermont has without a doubt the best collection of individual stars ever to represent the Commonwealth in an athletic contest. Captain Prentice is probably one of the best basketball players in the East if not the entire country. Bruce is a guard well above the average. Martin is an excellent defensive center while Estabrook and Flanigan are both good basketball players. Yet with all these players Vermont has made a miserable flop of the schedule. They have yet to win a major contest and as a grand finale the Green and Gold loses to Middlebury for the first time in years. If the Blue and White had an experienced good team the defeat might be excusable but they haven't. In fact, they are just average.

Let us briefly review the schedule and see just what the results have been to wins and loses. Starting off against two weak quintets from Montreal Vermont went just fair. They went to Hanover and took a sound beating. Next came the Yale Tournament and Vermont was easily the choice of the field, but again the Green and Gold failed to come through and Vermont was treated to defeat twice in two days. Against such teams as St. Michael's, Conn. Aggies, New Hampshire and Norwich, Vermont was a winner but when it came to Springfield they looked "tough." During the last half of the Springfield game Vermont played real basketball for the first time this season but the Red and White had too much of a lead and the Green and Gold lost another game. They went to Worcester and Springfield and lost another brace of games when they should have won at least one game. AND THEN CAME MIDDLEBURY.

In all fairness to the team let us state that we do not think that the trouble lies entirely with the individuals who make up the team. After looking over the men who make up the squad and watching them play real basketball (Springfield last half) it would seem that some of the trouble lies in the method of coaching. Something is radically wrong and this seems to be a week spot in the chain. Animosity between the players and the coach and also among the players themselves also plays a large part in Vermont's disastrous basketball season.

The Green and Gold's chances for a banner year in basketball has passed and with it some of the best supporters that Vermont ever had. Perhaps this is the best thing for the college for next year most of the players will be on an equal basis and cooperation should be the result.

Tony was having his second son christened and being very anxious to have his name recorded correctly on the birth certificate remarked to the clergyman:

"Will you pleeze name my baby same as I give ya?"

Tony, why do you make such a request?" asked the minister.

"Well, ya see—it's like dis, my first boy I tella ya I wanta heem christened Tom and ya put Tomass on heesa paper. Now I wanta dis boy names Jack and no more."—*Tech News*.

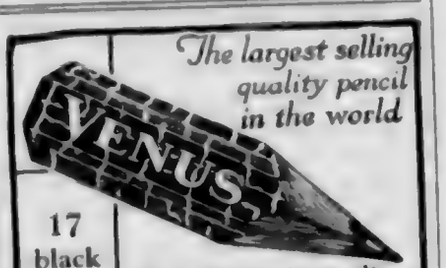
TO A FAIR CO-ED

Oh fair co-ed thy cupid bow,
Makes one think he's hovering low.
Thy rosy cheeks seem made to kiss
Yet I know there can't be such bliss.

For thy rosy cheeks, I dare to say,
Are not rosy in nature's way.
Thy pretty little cupid's bow
Looks as if you had made it so.



Tho' I would not wish to spoil
Your art, yet if it's not too much toil
I hope you'll wash your painted face
With soap and water remove every trace.

Then, somehow I know so very well
That behind the paint, there is a well
Of Nature's beauty that you slight
By always hiding it from sight.

By N. K. Chaffee, Jr., '30

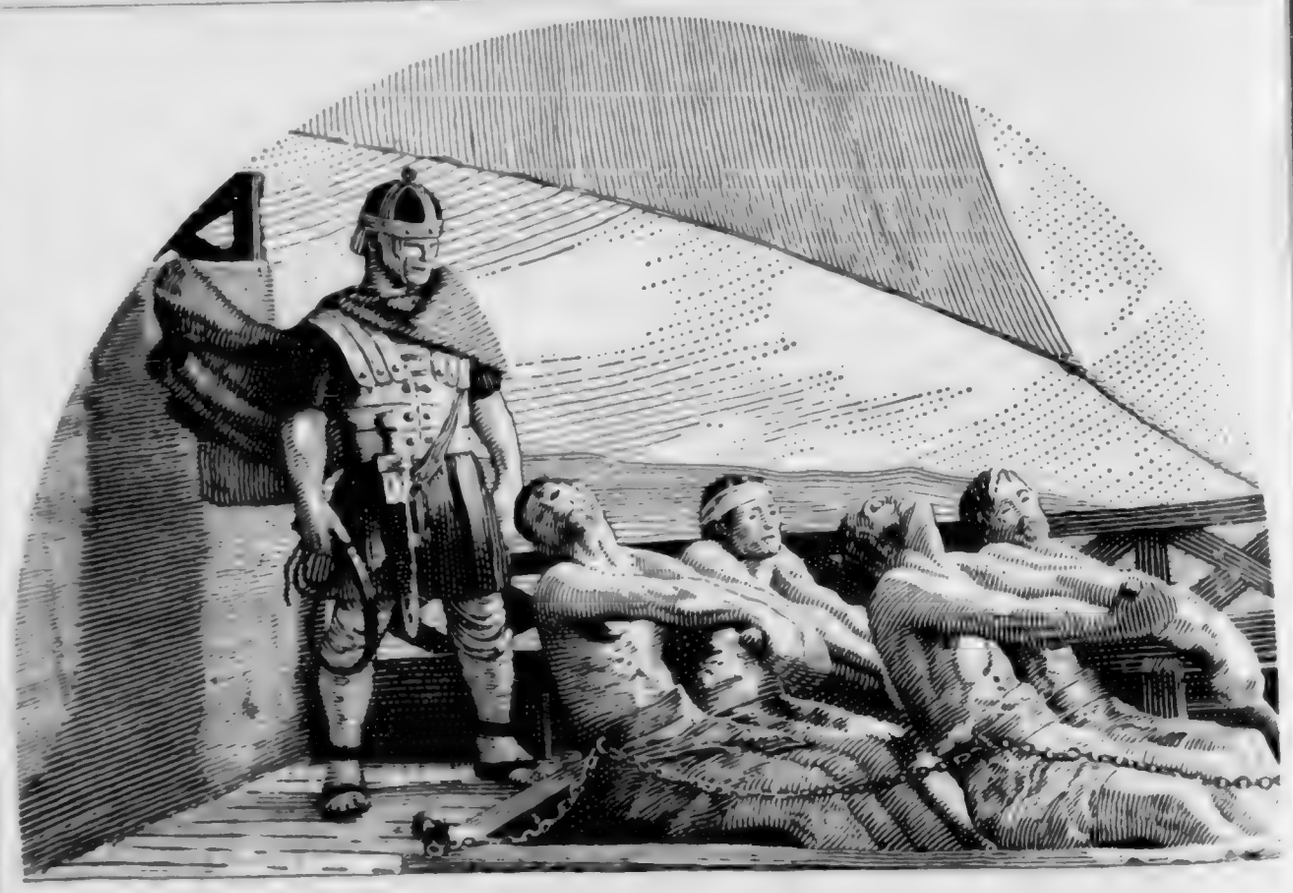
Man Riled by Rivals' Time Claims

Rutherford, N. J.
March 9, 192[illegible]

Larus & Bro. Co.
Richmond, Va.
Gentlemen:

I sure get some riled when I see where some fellow is crowing over the fact that being older, and having come into Edgeworth sooner than us less fortunate compatriots, he challenges the world as the champion long-time member of the Edgeworth Club.

He doesn't deserve any medals. He got his reward in the enjoyment of his smoking for the added number of years. He was just lucky in starting sooner, that's all.



However, if you care to delve into ancient history, look up when they first started to pull down the old Grand Central Station in New York,* then add at least six months to that, and you will arrive at the approximate time when I first joined the club.

I have smoked at least one pipeful of every other tobacco I have seen advertised, sometimes through necessity, but most of the time to prove to myself that I have been right in sticking to the old blue tin.

Yours truly,
H. M. Wittridge

Galley Slaves

Chained to their seats, cringing under the lash, the galley slaves slowly propelled the heavy hull of a Roman warship.

Today, the electric motors of an American battleship have the energy of a million men, and drive thousands of tons of steel through the water at amazing speed.

Man is more than a source of power in civilized countries. Electricity has made him master of power. In coming years, the measure of your success will depend largely on your ability to make electricity work for you. Competition everywhere grows keener, and electricity cuts costs and does work better wherever it is applied.

In industry, transportation, the professions, the arts, and in the home, you will find General Electric equipment helping men and women towards better economies and greater accomplishments.

[illegible] freshmen of Vermont Beta of [illegible] Phi held a tea for the pledges [illegible] other fraternities, Wednesday [illegible]noon, February 29.

SIGMA GAMMA

[illegible] Swift, a patroness of the fra[illegible] entertained the pledges and [illegible] chapter of Sigma Gamma at a [illegible] Sunday afternoon, February 26.

The Dopefiend

NANI GLUCAS

[illegible] has been learned that W. W. [illegible]sty" Yarnall '26 has just been [illegible]sted to coach baseball at Lowell [illegible]ttle School. Yarnall is now coach [illegible] all three major sports, basketball, [illegible]tball and baseball.

While at Vermont "Rusty" was one [illegible] outstanding athletes in the col[illegible]ge. He played football as a back[illegible]d man, was a pitcher on the nine [illegible] the high scorer on the basketball [illegible]ad. He was also one of the most [illegible]pular men on the campus.

Since handling sports at the textile [illegible]stitution there has been a vast im[illegible]vement in the teams with the re[illegible]t that athletics are being entered [illegible] more by the school. "Rusty" is [illegible] popular with the men at the [illegible]ool and his appointment as three-[illegible]rt coach was greatly welcomed.

[illegible] H. Beck, coach of Medford, Mass., High School has been chosen as ath[illegible] mentor in all three major sports at Middlebury. He replaces Marshall M. Klevenow, football and baseball [illegible]ch, and Charles Hargraves, who [illegible] care of basketball. We wait with [illegible]erest to see what sort of teams Mr. [illegible] will turn out. He comes to Mid[illegible]bury with a high reputation as a [illegible]ch turning out many fast teams [illegible] the Bay State country.

Now that we have lost to Middle[illegible]ry the best we can do is tie for the [illegible] hoop title. It is hoped that [illegible]re will be a play-off for the Cats [illegible] trample all over the Black Pan[illegible]s when they play the brand of [illegible]ball and they will if they can [illegible] another chance.

[illegible]ass" Latty and his cohorts are [illegible] burning the track up every night. [illegible]d track season is looked for this [illegible] probably bring more interest back [illegible] the cinder path than there has been [illegible]e last few years.

33 Letters Granted

Williams College granted thirty-[illegible] letters this season, a tendency [illegible]h is to be commended in that it [illegible]uld less emphasis on individual per[illegible]rmance, frequent and en masse sub[illegible]stitutions being made.

Compliments of

Track Dope

By E. R. L.

The annual inter-fraternity indoor track meet will be held in the gym on Saturday, March 24. There should be plenty of rivalry and competition in this meet, for last year's winners, the Phi Mu Delts, have lost Simpson and Rowe, which ought to leave the events well split up for new comers.

It will be a requirement of competitors in this meet that they shall have reported at 10 regular track practices. In other words, no one shall be allowed to enter unless he has two weeks of intensive training in preparation. Further rules and regulations of the meet will be announced later.

The inter-fraternity relays will be held the week ending March 24. The trials and eliminations will probably take place the first part of that week, say Monday, Tuesday, or Wednesday, and the finals on Friday. The winner of this relay shall be awarded 10 points toward its total in the inter-fraternity meet held the following day. In other words it will be twice as advantageous to a fraternity to win this event as to win any other. In addition there is a cup awarded for the winning relay team, as there is for the team winning the entire meet.

Of special importance is this training requirement of every member of competing relay teams. No competitor shall be admitted unless he has reported for track practice continuously for two weeks before the relay finals. It is therefore up to the fraternities to get their men out by the first of next week, i. e., March 5.

There should be plenty of competition this year for the relay championship. Last year's winner, Sigma Nu, has lost every member of its championship team, and Phi Mu Delta, runner-up, has lost Simpson and Rowe, two of its mainstays. As matters now stand, it looks like an even break for anyone.

MASQUE AND SANDAL INITIATE EIGHT MEMBERS

Masque and Sandal, honorary dramatic society, initiated at the Kappa Alpha Theta house, February 28, eight girls who have been outstanding in college theatricals. The initiates were as follows: Marion W. Backus of West Hartford, Conn.; Jeanette R. Beecher, '30, of Burlington; Anna M. Darling, '31, of Port Jefferson, N. Y.; Mabel L. Freeman, '30, of Norristown, Pa.; Gladys E. Hogaboom of New Britain, Conn.; Beverly Householder, '30, of Burlington; Mildred H. Huntley, '28, of Fairfax, and Carolyn Z. Whitney, '31, of Essex Junction.

Margaret Wood, Dorothy Cottrell, and Annette Rosenberg were chosen to serve with a committee of Wig and Buskin in the selection of a Junior Week play.

Beverly Householder was made chairman of the committee for a Masque and Sandal banquet which will take place in April.

Problems of University Welfare Discussed at Alumni Council Meeting

[illegible] met at a meeting of the Alumni [illegible] at the Ethan Allen Club the [illegible] of February at which several im[illegible] were discussed and [illegible] had by various officers.

Mr. [illegible] brought up the matter of redrafting the constitution of the council in order to correct the fact that the council as now organized with a number of committees that could well be concentrated into one executive committee which would take over the functions of the various ones now existing. This one committee would control the business of the council from its headquarters and would meet more regularly than at present.

It was also suggested that the provision which prohibits the re-election of members for more than one term be eliminated and in this way give a chance for a capable worker to carry out plans that would otherwise be interrupted by change of chairmen and new officers.

Mr Brennan also suggested to add members of active alumni clubs throughout the country to the Council to get outside views on the Council and on the University in general.

These plans were accepted by those attending the meeting and the committee in charge will report later on steps taken toward carrying them out.

K S Isham, secretary of the Council, gave a complete report of money on hand, pledges and subscriptions to the *Alumni Weekly*. He reported 879 paid subscribers and said that about 2,000 copies are issued because it was agreed that the *Weekly* should be sent free to all alumni who contributed $5 or more to the Loyalty Fund and the paper is sent to libraries, schools and some other institutions free of charge.

John H Innes '21 of this city, chairman of the committee on undergraduate activities gave consideration in his report to the need of ways and means of creating a better college spirit among the undergraduates at U V M. He suggested several ways in which a better spirit might be produced including the informing of undergraduates about the traditions of the college through talks by members of the faculty, alumni and even students themselves; keeping the members of the lower classes together to a greater degree in dormitories and eating places.

Mr. Patrick said he realized that under the present arrangement of dormitories and eating places this is practically impossible. He urged that the council turn its attention to the securing of a Commons Hall at the college as a central eating place which would accommodate several hundred students, with extra rooms for offices of undergraduate managers of college activities, a trophy room, etc.

This point was discussed by several members and Mr. Frank Wells said that he did not think Vermont is lacking in college spirit as much as many people try to make out. It was voted to put this matter in the hands of a committee for further investigation.

Dr. John S Horner of West Pawlet was elected representative on the council for the class of 1892 to fill a place made vacant by resignation.

Professor Leon W Dean told of the publicity being sent out to newspapers throughout the New England States and praised the Girls' Press Club of the University in particular. Mr Isham reported an addition to the publicity fund which will help this work materially.

Tough Courses and Profs.

The Dartmouth College daily has distributed 600 questionnaires to the students. In the questionnaires the students are asked their opinion of the various courses and professors. The paper then intends to publish the answers that are fit to print. Students of high scholastic standing, such as the Phi Beta Kappa men, will be favored in the search for information.

WIG AND BUSKIN SOCIETY INITIATES MEMBERS-ELECT

Wig and Buskin initiates were paraded about the campus Tuesday, February 28, wearing tuxedoes and black masks as a part of their initiation into the dramatic society. A few of those recently elected into the society were compelled to sing on the gym steps to an admiring and ever-increasing throng.

In the evening the members-elect of Wig and Buskin were formally received into the society at the Phi Delta Theta fraternity. Following this, came the election of officers for the ensuing year. B. W. Gustafson '29 was elected president, G. B. R. Van Name '29, vice president, and R. T. Krogh, secretary.

The society adjourned to the annual banquet served at Hotel Vermont. Professor Tupper officiated in the capacity of toastmaster. Professor Myrick gave the principal address.

℞

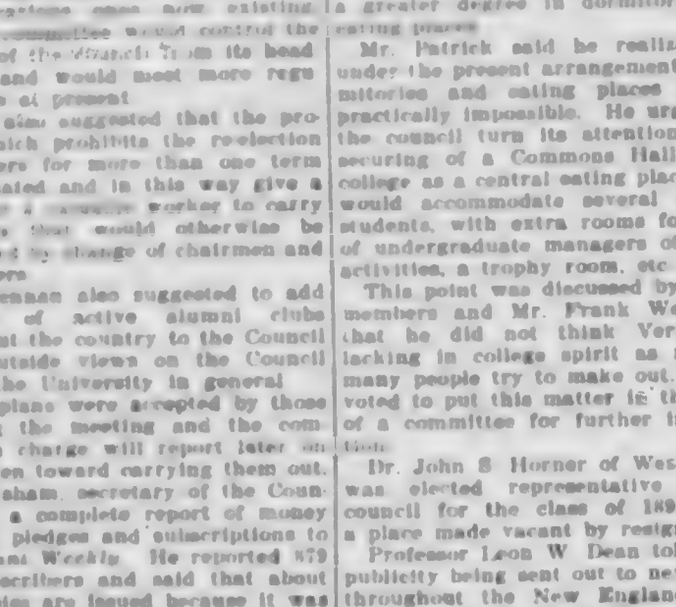
By C. L. Monat '30

Alpha Phi Chi held a formal dinner dance at the Ethan Allen Club Friday evening, February 24. The chaperones were Major and Mrs. Stanley. Beaded bags were enthusiastically received by the young ladies as favors. "The Vermonters" furnished the music for this dance which was one of the most successful of the season.

Since Mid-years Phi Chi has been experimenting with a new system which, because of its marked success, has been inaugurated as a part of their regular program.

After their fraternity meeting is over it is their plan to secure prominent medical men to come to their rooms and give informal talks on medical lines.

The first talk was given by Garfield Defoe '28 who presented a brief résumé of the 25th Phi Chi Convention. This convention was held during the Xmas vacation at Dallas, Texas. The local chapter which is the Mother chapter of the only International Medical Fraternity was represented by Defoe.



The next talk was given by Dr. H. Butt, Professor of Pathology. Dr. Butt pointed out the future in medicine which lay before the Doctors. His talk was of extreme interest because it gave a brief [illegible] of the various branches and opportunities from which a medical man must make his choice.

On February 27 Dr B [illegible] was scheduled to give his [illegible] of the life led by a practicing physician but unfortunately an [illegible] case prevented his coming.

The Alpha Phi Chi has proved itself what unlimited benefits are derived from these [illegible] talks given by men who have been through the mill and it is the intention to continue this program in the future.

P. A. wins on every count

ANY way you figure it, P. A. is better tobacco. Take fragrance, for instance. Your well-known olfactory organ will tell you. And taste—who can describe that? And mildness—you couldn't ask for anything milder.

Yes, Sir, P. A. is cool and comfortable and mellow and mild. Long-burning, with a good clean ash. You never tire of P. A. It's always the same old friendly smoke. Get yourself a tidy red tin and check everything I'm telling you!

PRINCE ALBERT
—no other tobacco is like it!

The more you know about tobaccos, the more you appreciate P. A.

ANOTHER ENGINEERING SOCIETY BEING FORMED

Plans are being made to organize a student branch of the American Institute of Electrical Engineers at Vermont to promote interest in Electrical Engineering.

Professor Dickinson is calling a meeting of all those interested at the Engineering Annex Tuesday evening, the 6th, at 7:30. All students interested are invited to be present, particularly the Electrical Engineers.

This society has student members at practically all the leading Engineering Colleges and would offer many valuable opportunities to its members.

The Radio Club would be discontinued if a branch is organized so that interest could be centered on the Engineering club.

SCHOOLBOY BASKETBALL TOURNAMENT THIS WEEK

For the past few years the best schoolboy basketball quintets have come to Vermont annually to fight out their differences and in the end to select a winner from among themselves. This year, as usual, a similar contest will take place upon our gym floor and indications are to the effect that spectators will see speedy and snappy basketball.

The schools which made application to enter the contest are Burlington High, Wells River, Northfield, Rutland, Cathedral, Hardwick Academy, Springfield High, St. Johnsbury, Barton Academy, Spaulding, Black River, Groton High, Winooski High, Lyndon Institute, Goddard Seminary. Eight of these teams will participate in the contest. To be able to participate in the contest a team must have played the season under the established rules of the Headmasters' Club of Vermont.

The first play-off will take place at 7:00 o'clock this Friday evening, the semi-finals will be played on Saturday afternoon, and the finals will occur on Saturday night. The winner will get the University of Vermont Interscholastic Basketball Cup, and each member of the team will receive gold basketballs.

Student season tickets will not be honored at the door as this is entirely an interscholastic affair, it is said. Tickets for the single game will cost fifty cents while $1.00 will give admission to all three games.

May the best team win the seventh annual Vermont Interscholastic Basketball tournament!

Following is a schedule for the interscholastic basketball tournament to be held at the University gymnasium March 9-10:

Springfield vs. Burlington at 7:00 o'clock

Cathedral vs. Hardwick at 8:00 o'clock.

Black River vs. Spaulding at 9:00 o'clock

Rutland vs. Northfield at 10:00 o'clock.

JUDGE PICKETT CLEARS YALE'S PAMPHLETEERS

(By New Student Service)

The nineteen Yale students arrested by New Haven police for distributing pamphlets describing conditions in the city's neckwear industries were cleared when Judge Walter M Pickett, of the Criminal Common Pleas Court, sustained their appeal from the City Court justice's conviction. Only one case was tried as a test.

Judge Pickett did not hand down his decision without taking opportunity to indicate that he looked with disfavor on the undergraduate action that brought the case into the courts. He denied that civil liberties were involved, and on the contrary accused the students of having taken uncivil liberties. In concluding he said: "Be this extra-mural activity attributable to the throes of experimental sociology, undergraduate effervescence or unseasoned solicitude, under the ordinance as I interpret it, the defendant is guilty of no offense punishable by the court."

From Largest to Smallest

After having had the heaviest football team in the Pacific Conference the University of Idaho believes it has the lightest basketball quintet in the association. The biggest man on the squad weighs only 160 pounds and is five feet ten inches tall. The other members are in the so-called "runt" class.

LITERARY SOCIETY OF GREY FRIARS APPEARS ON VERMONT CAMPUS

New Club Formed to Promote Interest in Literature and Writing Among the Men

A mens literary society known as "The Grey Friars" has appeared on the campus. Recently the University Senate granted a charter to form the club to six members of the senior class who have been busy in promoting the society. The men who were active in organizing the society are George A. Gould, Lewis G. Leary, Jr., Evo A. Lucchina, Whitney D. Safford, Albert D. Pingree, and Orville Wood. All six are prominent in literary circles in Vermont. George Gould is an instructor in military science as well as a member of the senior week committee. Lewis Leary is a member of Scabbard and Blade and has written several articles in the Literary Magazine. Evo Lucchina was managing editor of the Cynic and a contributor to the *Literary Magazine*. Whitney Safford has been very prominent in literary work and has written many special articles for various magazines. Albert Pingree has also done much quality writing of one sort or another. Orville Wood, besides being a writer is captain of the track team.

According to the president of the organization, the purpose of The Grey Friars is to promote and stimulate interest in literature and the art of writing among the men of Vermont, as well as to offer a medium where men of literary leanings may meet. The organization is self-perpetuating, the members being accepted from the men of the three upper classes, although freshmen of exceptional merit are accepted the second semester. Admission into the society is based upon the submission of an acceptable short story. However, although the short story is the test for membership, other forms of writing will be sponsored. Besides this requirement, the membership of the society is limited to sixteen.

At a meeting held at the Marsh Room last Friday evening the following officers were elected: G. A. Gould, president; L. G. Leary, vice-president; A. Pingree, treasurer; and E. A. Lucchina, secretary. A constitution, by-laws and ritual were passed and accepted by the society. It was also voted to extend invitations to membership to two members of the faculty. Considerable other business was also transacted at the meeting.

Anyone who is interested in the new society should get in touch with any officer of the society at once. The dates when qualifying short stories will be accepted is to be announced in the near future.

With the organization of "The Grey Friars," the Vermont campus again has a literary club distinctly for men.

Since the Great War there has been no literary society on the Hill, although before the war period, several literary societies were flourishing.

STUDENT UNION VOTES ON HOUSE RULES FRIDAY

A Student Union meeting will be held Friday afternoon, March 9, at 4 o'clock in the old chapel for the purpose of voting on the proposed affiliation of the Vermonters' Club with Student Union. This plan is suggested with the approval of the President of Vermonters' Club and the S. U. Council. Four new house rules are also to be voted upon at this time.

1. The week is to begin on Monday.

2. All University women are allowed a night out until ten on Sunday evenings. (Previously the rule stated that Sunday evenings until 9:45 did not count as nights out, but that nights out until 10 did count.)

3. The House Presidents shall choose the Senior and Junior members of the house committee, the remaining members to be chosen by the house.

4. Light cuts are to be allowed after fraternity meetings provided there is no date after the meeting.

A professor at Boston University has recently violently denounced the popular, almost universally given intelligence tests as the "bunk." He also states that if he had stayed away from school for all but five days of his nineteen years he would have derived as much benefit therefrom.

STATE TITLE TO REMAIN A TIE

Middlebury College declines to accept the invitation of the Rutland Chamber of Commerce to play off the basketball tie with Vermont on a neutral floor in Rutland on March 7 or 8. This decision was announced in a letter from Arthur M. Brown, director of athletics at Middlebury to Harold A. Mayforth, the Vermont graduate manager. Mr. Brown stated that his college did not care to play a third game after the close of the regular season. He further pointed out that their coach would have left for the south before March 7, and that the gymnasium would be put to other uses than basketball practice. He urged that the Vermont Conference come to some agreement about the playing off of ties, and made clear his own position as one opposed to post season games, pointing to the similar attitude of Amherst, Wesleyan, and Williams.

MORE STOUT PADDLES REDUCED TO SPLINTERS

Some delinquent Frosh were warmly entertained at the Sigma Alpha Chi house last Wednesday night. It appears that Gold Key is getting after the Freshmen much better than before and they seem to be keeping their promise of making the catamount pups live up to their rules. The party last Wednesday was essentially only a paddling affair for not much other business was brought up except to make arrangements for entertaining Archie Post's basketball team from Proctor which played as a preliminary to the Norwich game. And those present can certainly testify that the society meant business, for, not only were paddles wielded but placards were ordered to be worn by the worst of the law breakers. There is no doubt but that if this continues, the Frosh will soon be as good as Kittens should be.

The society announces that it still has quite a few paddles left which have recently been found stored away and would like to use them up before the year is over and advises the Frosh to see to it that they do not come in touch with them.

NEWS IN BRIEF

There will be a meeting of Key and Serpent this evening at the Sigma Phi Place.

Last Thursday's game against Norwich, upon which, it was stated, the State title practically depended turned out to be quite a tame affair except for the last few minutes of play. Our boys got a little exercise though, and that's something, anyhow. It was suggested during the evening that the riflemen, that is the Norwichers, learn how to shoot straight. (Nothing is aimed at Norwich's crack rifle team by this.) All in all, if one did not fall asleep during the fray, he got a little entertainment from this amusing performance, anyhow. What pretty long shots Norwich tried! Oh well!

And while we are talking about last Thursday's game, we might mention that during the affair, spectators at the game found it far more exciting to watch the scoreboard tender up upon the track. It got so, Vermont's lead was piling up so fast that the fellow up there could not keep up with the ball. And poor Norwich, alas! Once the scoreboard tender made a slight mistake by crediting Norwich with 01 instead of 10. The crowd noticed the error and made its intelligence known this was the nearest thing to real cheering that took place that night.

What's all this talk about the frosh not caring a hoot for Vermont tradition!! Shoot the whole bunch of them, if this is so!!! Ahem! Well, perhaps it is so, and perhaps it isn't. The bleachers do come up and down despite all, though. Try to point out the frosh who does not wear his cap, just try! Oh yes! You will find he does not wear it in university buildings! But, of course, he isn't supposed to! Let us, at least, give the frosh as much credit for what they do do, as for what it is claimed by some few that they don't do!!!!

FINAL GAME OF SEASON LOST TO HOLY CROSS SATURDAY EVE 35-27

Prentice, Price and Marvin Play Last Basketball Game for Vermont

Vermont's basketball quintet took another defeat from the fast Holy Cross team. This makes the results of the season ten wins and 9 setbacks. In every closely contested game the Catamounts seemed to have the breaks of the game against her.

However Vermont tied the state championship which came as a result of losing to Middlebury in a tough game. As it is understood now there will be no playoff of the tie. This is because Middlebury could not arrange a game as her coach has left for southern baseball practice.

The game Saturday night was exceedingly fast and interesting to watch. Holy Cross had a smooth aggregation. Their pass work was very efficient. After the first quarter they were never headed by the Catamounts. The score was anywhere from a six to a twelve point lead all the way through.

It was the last game in which Vermont's stellar men Prentice, Price and Marvin did service for old Vermont in basketball. These men will be greatly missed next year. However, Coach McAvoy has a large amount of splendid material for next year. In the forward court he has "Tim" Halligan who did great work this year for his premier season. Also he has "Smiles" Wallace and "Johnnie" Pike.

For centers he has the rangy "Hick" Morgan. In the back court he has "Seely" Estabrook, "Phil" Manning, "Sap" Palmer and "Al" Mackay all varsity men who have seen service. Everything looks good for a great season next year. Besides this material one must also remember the reserve in this year's frosh quintet.

An individual record of the players will be in the next issue of the Cynic.

(Continued on page 3)

45 RESPOND AT FIRST BASEBALL PRACTICE

Coach Dresser is fast rounding his ball tossers into condition by workouts in the cage every afternoon. Close to 45 men answered the call and in looking them over it is easily seen that there is some fine material out for the nine. Coach Dresser himself believes that Vermont will have one of the best baseball years that it has ever experienced. With the string of veterans he has and the reserves of last year's junior varsity nine plus the new material "Hunk" will no doubt show us his ability as a mentor by turning out a championship team.

Manager Abell has a fine schedule on hand with a hard southern trip to face. Last year it rained the first three games, but it is hoped that old Jupe Pluvius will have a heart this year and reserve his floods. The squad will probably leave here about March 28 and make their first stop for a contest at Washington with Georgetown University. This institution always turns out one of the fastest nines in that district and it will be a tough pill for the Cats to swallow at the start.

Then they face Coach Keady's Quantico Marines twice in two days and on the following four days the Navy, Catholic University, Drexel and New York University in the order named. The last three contests of the trip are played April 9, 10 and 11 with Fordham, St. John's and Army. This is one of the stiffest southern schedules that the Catamounts have ever had to face and it remains to be seen how many hacons can be brought back.

This trip will be exceedingly tough on the battery men and the hurlers will have to be in top form to stand the strain of such steady pitching at the opening of the season.

Just now the practice consists of simply tossing the ball around, a little batting and then some jogging around to get off the excess fat and develop the wind. About next week things will begin to take form and the hurlers will be putting a little more "beef" behind their throws.

SPIRIT

Why is it that a referee will return to supervise more than one game on one courts? Why is it that a team will play a second game at this University? It is one of the marvels of this age and the reason is still to be found.

The Holy Cross game, Saturday evening, culminated one of the most distressing seasons in the basketball history of Vermont. It was also one of the most successful "razzing" years that could take place anywhere. Is it possible there is some connection between the two?

If demonstration of spirit is to show poor sportsmanship it would be better to forget school spirit for sportsmanship. But it isn't true! Students may become intensely interested in a game but why take the childish way to express their interest? The vehement protests taking place after any adverse decision on the part of the official raises a demonstration that would inform anyone as to what a well-regulated cheering section shouldn't be.

In turn the players feel the distaste with which visiting teams view such outbursts. They feel their school is open to criticism and they cannot help in brushing away such a viewpoint. It reflects on the morale of the team. Why shouldn't it?

Students defend themselves by saying the ill-bred "razzing" comes from townspeople when it generally starts in the middle of the student cheering section. Shall Vermont be subject to contempt from her rivals in sport or shall she show better sportsmanship?

We regret the loss of the three senior players on the basketball team. They have all given their time and energy for four years in working and fighting to win games and honor for their Alma Mater. Their sportsmanship could easily be taken as a lesson by some of the over-zealous fans who engage in verballs criticizing the opposing teams and the referee.

Winooskings will meet Thursday evening at Redstone. Entertainment will be presented and refreshments served. Every member is urged to be present and to bring in material which is due at this meeting.

BOOK REVIEW

THE MASTER AS MAN

LUDWIG VAN BEETHOVEN
by Harvey Grace

This excellent biography of Beethoven written by an English critic is one of a series of studies entitled Masters of Music. In it Mr. Grace has presented a full-length brilliantly colored and masterfully executed portrait of the great German composer. A thing that seems after more than a hundred years not only common but the usage here steadily growing increased personal appreciation.

It is here to note that a biography for it includes a compact yet interesting and authoritative discussion of the text of Beethoven's music. This applies added to the unbiased treatment and understanding presentation of the basic facts of Beethoven's life-makes this biography instructive not only for the general reader but also for one more deeply interested in his music.

Beethoven has long been held up as a paragon. Like countless other great figures of history many of the less favorable facts of his hectic troubled life have been covered up. Without malice yet with praiseworthy honesty this biographer who has spent hours for his material from the standard three volume biography by Thayer has shown how Beethoven was deliberately dishonest on more than one occasion in dealings with various music publishers how he often took gross advantage of his friends how many of his personal habits and characteristics were positively revolting to the sensitive mind of persons with whom he was thrown into contact.

But during the course of his chronological survey of Beethoven's life—from the time of his birth in 1770 through his early years as a child prodigy and his later years as a great composer to the time of his tragic death in 1827 Mr. Grace also stresses the unfavorable circumstances that profoundly affected the composer. His childhood was unhappy he was in poor health throughout the greater part of his life and there were times of poverty. Though some attention is paid to Beethoven's deafness this study does not attribute as much importance to this physical limitation as it presumably played in his life.

In the preface to his study Mr. Grace remarks that before undertaking this work he feared that Beethoven was an overrated composer but he states that his investigation of the composer's life and examination of his music have removed this feeling and that he is once more an enthusiast. He points out that Beethoven wrote much mediocre and some poor music in addition to certain musical masterpieces that have persisted as supreme examples of musical genius. There is nothing lost through the fact that most of his second- and third-rate music is seldom if ever presented, but Mr. Grace justifiably points out that many of his great works are too occasionally performed.

New York: Harper & Brothers. 1927. $2.50.

COLLEGE STUDENTS START WORK TOO LATE

American college students begin active life work entirely too late, according to Dr. A. Lawrence Lowell, president of Harvard University.

American secondary schools, he says in his annual report to the Harvard Board of Overseers, "do not complete the secondary teaching that ought to be done at the age our young men come to college. The result is that with the preparation now required for professional and business life—much longer than it was formerly—the young man does not begin his active career until a later age than is wise. An artisan at the age of 20 may be earning as large an income and be as well able to support a family as he ever will be, but his contemporary who is looking forward to the bar or to medicine for example is only half way through college at that time. The ordinary age of entering an American college is over 18, so that if the young man completes his four years before beginning his professional studies he is over 22 at graduation."

President Lowell went on to explain that it is a fallacy to believe that sending a boy to college at the age of 17 is to make him at a disadvantage socially and athletically. He said that to wait a year after high school graduation before entering college is a mistake.—*Daily Aggie*

BEDTIME STORY

(Suggested by a note in our Spanish reader.)

On the shores of Lake Champlain just outside the city of Burlington where away from the noise and clatter of that tremendous metropolis one may pursue the lures of nature at her best and find roads at their worst there was a lighthouse situated upon a rocky crag that jutted out into the lake thus causing the pretty little lakes to swirl around its rough sides to escape stepping such heads which lighthouse contained an elderly man named Mr. Lang Ainsworthy and his daughter Fanny a brave little girl who played with her dolls all day and set the nightly lamps while mother was alone while her father when his daily chores were done would leave for the thriving city of Winooski to buy provisions food and such feminin necessities but one day while he was gone a band of wreckers people who live by stealing things from ships that are founded on the rocky and treacherous coast much as many unfortunate students are founded on the rocky coast of Spanish I their professors robbing them of their well-deserved high A's well anyway be that as it may these wreckers determined to do bodily harm assault and injury with malice aforethought to the poor defenseless lighthouse and its poor defenseless occupant who poking one ear out of the window (yes she had to break a pane of glass to do so) heard them planning to walk off with the whole affair for they said. "We can easily take it up and walk off with it; it is only a lighthouse", but the girl said to herself "No before they can walk off with this structure, and leave the *Ticonderoga* to be wrecked upon the rocks I'll first be d——, er, they quest first step over my phosphate body" with which words she decided that the story was getting altogether too long and pouring kerosene all over the place she did a hot Black Bottom Heh' Heh', until all caught fire and was consumed in the conflagration period. (Thank Heavens')

Not Enough Work at Oxford

Charges of too much entertainment and not enough work were made against Oxford University students by Canon Chatterton Richards in an address at Durham.

The Canon, formerly a professor at Oxford, has just been appointed Professor of Greek and classical literature at Durham University.

He said he had seen so many interesting things announced for term time at Oxford that he wondered how undergraduates could get any work done. These entertainments included concerts, dramatic performances, political meetings, lectures on all kinds of subjects and an extraordinary variety of athletic contests.

Gentleman Jim was polite to the last. He even offered his chair to the warden when he was about to be electrocuted.—*Holy Cross Purple*

Excerpt From
CORNELL DAILY SUN
January 13th, 1927

ANENT THE MUETZE

A seven hundred year old University tradition is gracing a football in Cornell here starting in the twelfth century with the German students at the University of Bologna who formed a national fraternity and distinguished themselves from their fellows by the wearing of a peaked velvet cap. This custom has grown and spread until it has reached the New World. It was adopted by the students of different nations at the University of Paris in the thirteenth century. It was revived in Germany after the Napoleonic era to promote patriotism, and today students in German universities have not one such cap but three. There is the Muetze for street wear, the Stiefmuetze for dress occasions and a third for fencing attire.

A [illegible] picturesque and colorful caps have appeared on the Campus. Many have enough regard for the traditions of the ancient custom, while never observing traditions such as hazing and town and gown rows between students and burghers have been relegated to the past, no one has had a tradition as this one and he inaugurated here. In Germany these caps are considered dignified enough for the president and the vice-president of the university to wear. In America they will offer the same amount of stimulus in pursuits for perfection which caused the original to the Princeton Bone Saw or the Dartmouth Derby. These caps are coming and will give a zest to dull examination days. Let's have a Swing Out Day for the Muetze.

See these caps on the Vermont Campus

THE CAMPUS SPECTATOR

By ME

No more pathetic sight could one ever see were he to circle the globe twice over than the sight of that poor Soph who came up to the University in the cold of last Saturday morning to attend his classes.

When some sub-freshmen beheld some few frosh last week-end those sub-frosh just had one big grin upon their faces. The pertinent question just now is what the deuce was behind that big, big grin.

At one of the hygiene lectures given to freshmen enrolled in Military, instruction was given as to how to open a first-aid kit such as is used in the service. Then an illustration of the process was attempted. One of the instructors pulled away at the thing for a time and then finally gave it up as a bad job. The kit just wouldn't be opened. And then an ambitious frosh got a hold of the thing. He opened it alright, but only after cutting his hand. This was O. K., though, as the instrument was a first aid kit. Some device!

The various lecturers must be all taking a vacation, or perhaps it is just that they avoid Vermont.

Wonder how much student tickets for the Elly Ney concert will cost in the book store?

Hunts 2 Years for the Right Tobacco

Dallas, Texas
March 22, 1927

Larus & Bro. Co.
Richmond, Va.
Gentlemen:

The worst thing in the world to try to find is a good pipe tobacco that is well within the reach of everybody, and at the same time does not taste like it had just come out of the cabbage patch.

I have been smoking a pipe for two years and have just this month started to smoke a real smoke, Edgeworth. If at first you don't succeed, try, try again. Believe me, I tried for two years, but finally success is more than mine.

I have just been looking around, and have found to my delight that I can get Edgeworth practically anywhere. I even found it out at the lake near Dallas where I go fishing. Oh boy, what a combination—a perfect day, a can of good tobacco, and your pipe.

I always thought these ad letters were the bunk, but this time I know somebody is wrong and that is me.

Here's to old Edgeworth,
Edmund Condon

What the Well Dressed Ed Will Wear

(By Fairchild News Service)

The single-breasted box overcoat, a garment familiar to most college men, is preferred by more than half the students of midwestern universities, according to a survey recently made for the *Daily News Record*, only daily paper in the world devoted to the men's wear industry.

Figures compiled by style observers engaged in the survey showed that ... per cent of the students wore this type of coat. Of these 85 per cent favored lengths from 49 to 50 inches, while 15 per cent wore coats extending only 46 to 47 inches in length.

Twenty-two per cent of the students observed wore double-breasted ulsters, ... per cent the dark single-breasted Chesterfield model with velvet collar, ... per cent the double-breasted Chesterfield, 8 per cent had coonskin ulsters, and 7 per cent wore coats of black ... or pony fur.

Short jackets favored by these university men were mostly corduroy, either with self or sheepskin collars. ... of the men wearing short jackets, ... per cent favored the canvas model, with sheepskin collar.

Examinations of the statistics gathered showed that there is a marked tendency toward the shorter coat among students at these universities, which included the Big Ten institutions. By this is meant a coat 46 to ... inches in length.

In many cases well-dressed students of the type who set styles for their associates were observed to favor ...-finished, or fleece fabrics for their outercoats. During the past season most of the college men preferred hard finish fabrics, so that during the coming spring and the winter of 1928-29 the fashion may swing with more definiteness toward the softer ...rics.

A third trend observed by the style observers who looked over the mid-western situation was in the direction of the velvet-collared Chesterfield coat ... has already established itself ... in the east.

The two tendencies already well ...ed and noticed, those toward ... fabrics and toward shorter coats ... of course conflict on one item ... seems bound to become popular ... students in all parts of the ...try, namely, the tan camel's hair ... This double-breasted garment is made of soft and wooly fabric, ... is worn rather long, nevertheless.

Experts of the Fairchild Publications, largest fashion organization in the world, will be glad to answer questions of style for college students. Address E. R., *Daily News Record*, ... East ... Street, New York City.

YOUNG AUTHOR SCORES FIRST EDITION HOUNDS

(By New Student Service)

Two months after the publication of his second novel, *The Bridge of San Luis Rey*, Thornton Wilder's book has become a collector's item, and is being held at a premium. The idea for the novel, Wilder told a reporter for the *Daily Princetonian*, "came to me while I was studying for an M.A. in French at the Princeton Graduate School. It was in a course conducted by that admirable man Professor Louis Cons that I received the suggestion for the first sketch in the book."

Although Wilder believes the literary trend toward emotionalism is "admirable," he thinks "there is one fad that people are affecting which seems to me harmful—collecting first editions. This is hardly a way to express one's admiration for books, but rather a minor indication of an age that is losing the essential approach to them. It reminds me of the type of interest they had in old Alexandria, the city that was a library, where books ceased to be a vehicle of conviction, a comment on experience, or the expression of an attitude toward living."

OUR FACULTY

Elbridge Churchill Jacobs was born February 15, 1873. He pursued a baccalaureate degree at Massachusetts Institute of Technology. His post graduate work was done at Columbia University. He received B.S. degree at M. I. T. in 1897 and was an assistant instructor in mining and metallurgy at M. I. T. from 1897 to 1899; an instructor at Vermont, 1899 to 1901; assistant professor, 1901 and 1903; professor of analytical chemistry and mineralogy since 1903. He has been prominent in investigating the talc deposits of Vermont. He is a member of the American Chemical Society, Alpha Tau Omega fraternity, and the Ethan Allen Club.

Champion Hiker

"Over 18,000 miles, 6,000 of which have been to every football game in the past four years, is the record of William C. Woolfson, senior at Boston University, who claims the championship of college hitch-hikers."

He: Were there many pretty girls on the boat?
She: No, only five of us.

BUSINESS EXECUTIVES LECTURE TO STUDENTS

Invited to organize a course in Retail Merchandising as part of the work in Marketing for the Graduate School of Business at Stanford University, the Retail Merchants Association of San Francisco is conducting a unique series of weekly talks by the executives of the larger stores, each of whom is a technical expert on his particular phase of management. Not only are the men who are selected as lecturers thoroughly experienced technicians in their field, but also they have had much experience in presenting their ideas in an educational manner to students and to junior executives in their stores.

Fraternity Initiations

LAMBDA IOTA

The annual initiation of Lambda Iota was held Sunday afternoon at the fraternity house. The initiates were F. G. Shedd, '29, of Burlington; G. R. Brush, Jr., of White River Junction; H. M. Chatterton, Jr., '31, of Rutland; L. E. Davis, '31, of Burlington; R. W. Hendrick, '31, of Newtonville, Mass.; O. S. Massey, '31, of St. Johnsbury; J. O. Percival, '31, of Springfield, Mass.; G. W. Tarleton, Jr., '31, of Arlington, Mass.

Tough on Co-eds

Co-eds at the Ohio Wesleyan University have to show the President of that institution a written permission from their parents in order to attend any dance. Last week three truckloads of mail were unloaded upon the President's doorstep.

A fountain of youth for industry . . . .

Ponce de Leon would not have searched for a tangible fountain of youth if he had realized that youth is an attitude of the mind—that it may express itself in the ardent enthusiasm with which the pioneer undertakes to explore and develop new fields.

To men of the Bell Telephone System the inspiration of the pioneering spirit is a lasting fountain of youth. This impelling force has already brought about such developments as the modern multiple switchboard, long distance cables and the permalloy loading coil ring.

The telephone needs of the nation grow constantly greater. To meet them telephone men must continue to be pioneers — developing better tools of service and guiding the entire industry to higher levels of usefulness.

Society Notes

KAPPA ALPHA THETA

The pledge dance of Kappa Alpha Theta will be held on March 10 at the Hotel Vermont Roof Garden. Professor and Mrs. B. H. Wallace and Mr. and Mrs. Earl Biggar will chaperone.

DELTA DELTA DELTA

Eta chapter of Delta Delta Delta will hold a pledge dance on Saturday, March 10 at the Nu Sigma Nu rooms. Professor and Mrs. Paul C. Squires will be chaperones.

PI BETA PHI

The chapter gave a dance in honor of its pledges Saturday evening, March 3 at the Elks' rooms. Professor and Mrs. Daniel B. Carroll and Mr. and Mrs. Robert Patrick chaperoned.

ALPHA XI DELTA

Alpha Xi Delta held its pledge dance on Saturday, March 3, at the rooms. Professor and Mrs. George V. Kidder and Lt. and Mrs. J. D. Fredericks were the chaperones.

The pledges of Alpha Xi Delta will entertain the pledges of all other fraternities at a tea Wednesday afternoon, March 7.

ALPHA CHI OMEGA

Alpha Iota chapter of Alpha Chi Omega announces the pledging of Dorothy Crandall, '28, of Essex Junction on Sunday, March 4. A pledge breakfast was served at the rooms before pledging.

The pledge dance was held Saturday, March 3, at the Eastern Star rooms. The chaperones were Professor and Mrs. B. C. Douglass and Mr. and Mrs. P. M. Stoughton.

KAPPA DELTA

Kappa Delta held its pledge dance on Saturday evening, March 3, at the Nu Sigma Nu rooms. Professor and Mrs. J. B. Deforest and Mr. and Mrs. Leon Dean chaperoned.

SIGMA GAMMA

Sigma Gamma will hold a pledge dance at the Catholic Daughters of America's rooms on Saturday, March 10. Mr. and Mrs. Elijah Swift and Major and Mrs. O. H. Stanley will chaperone.

STUDENTS!

The Editor of the Vermont Literary Magazine urges all students to contribute to the publication. Material should be sent to Rachel Skinner, Editor, at 215 South Prospect Street.

Ban on Honorary Societies

Six underclass honorary societies at the University of Nebraska are on the verge of death their fate now resting in faculty hands.

Their abolition was recommended by the student council, following long agitation against purposeless organizations by *The Daily Nebraskan*. The faculty has delayed action to permit defense plans. In announcing the council action *The Nebraskan* said editorially:

"There was little justification for these societies which had existed solely because certain ambitious men and women students wished to have important sounding club names placed among their achievements in college activities."

The Nebraskan used the past tense because it expected—and hoped—that the faculty would impose death immediately.

The honoraries in question are distinguished by such fine names as Vikings, Silver Serpents, Iron Sphinx, Xi Delta, Green Goblins and Mystic Fish.

"My girl's a fanatic for thoroughbred things."

"Yes?"

"Why she even has all her letters registered."—*McGill Daily*.

Experiment in Education

The unique Ashland School for Adult Education to be conducted next summer from July 10 to September 8 near Grand Rapids, Mich., will undoubtedly attract a great many of those persons who are wanting to find themselves and the meaning of life and who seem to be baffled by their experience thus far.

Any one 18 years old will be admitted if he is willing to divorce himself from the usual means and methods of education including textbooks, formal lectures by professors and examinations, and to strive side by side with his teachers, to solve personal problems.

The experiment is under the supervision of Dr. J. E. Kirkpatrick, whose book, "The American College and Its Rules" based on his experiences as a professor at Harvard caused much comment when it appeared.

The major life situations to be discussed during the course of study include sex, marriage, and home. Here is surely a program that is worthy of the earnest participation of all persons who are seeking for a better understanding of themselves and life.

"I found a letter in a woman's hand writing in your pocket this morning," she began angrily.

"But what—where why—I didn't know—did you open it?" he asked, in confusion.

"I did not—it was the one I gave you to mail a week ago."—*Hill News*.

When "Verdmont" For Green Mts. Changed To Signify Maggot Hills

[illegible] Vermont, April 10 [illegible]

It is generally understood that Verdmont was named from the Green Mountains. But how the name came to be generally understood is a matter of controversy. Some claim that Samuel de Champlain, when he first saw the mountains, gave it that name. Others claim that Ira Allen, founder of the Republic of Vermont, called it Verdmont. Dr. Mason Green, Mount Royal Physician, A. M. & C. by Rev. Samuel Peters, LL. D. New York [illegible] Dr. Green [illegible] account.

Verdmont was a name given to the Green Mountains by Champlain [illegible] the first white man who gazed on the thickly wooded mountains of Vermont. [illegible] the occasion was performed on the top of a rock standing on a high mountain that bounds Plymouth township on the southeast. A great eagle perched on the summit of the west and of the Connecticut River to the east, and overlooked all the trees and hills in the vast wilderness at the south and north.

The baptism was performed in the following manner and form: Priest Peters stood on the pinnacle of the rock, where he received a bottle of spring water. Captain Ogden, Chief [illegible] the company with a short [illegible] history of the infant settlement and the prospect of its becoming an important barrier between the British Province to the South and the intended [illegible] to the North, he [illegible] We here have met on the top of [illegible] standing on Mount Royal, which makes a part of the everlasting hills, the spirits of African [illegible] and American hailing together the [illegible] hill, and dividing the Atlantic from the Pacific Ocean to meditate and consecrate this extensive wilderness to God manifested in the flesh, and to give it a new name worthy of the Athenians and ancient Spartans, which new name is Verd Mont or Green, that her mountains and hills shall ever be green and never die. And then poured the spirits around him and cast the bottle at the rock of Ages.

The ceremony being over the company descended Mount Pisgah and took refreshments in a log house kept by Captain Ogden where they spent the night with great pleasure.

After this Priest Peters passed through most of the settlements preaching and baptizing for the space of eight weeks in which time he baptized nearly one thousand two hundred children and adults.

Since Verdmont became a state its General Assembly have seen proper to change the spelling of Verdmont Green Mountains to that of Vermont, Mountain of Maggots.

Intercollegiate News

Co-eds Exchange Quests With Men

[illegible] at the University of Wisconsin have devised the plan of exchanging co-guests for Sunday dinner with the fraternity men. The innovation will become a regular feature of [illegible] life in the future.

Sells Angle Worms

A student at Columbia University has a novel way of earning his way through college. He is the official worm supplier of the zoology department, and sells the students angle worms at 10 cents a dozen.

Smokers For Women

Students at Vassar College are raising a thousand dollars for completing a smoking room for the women students.

$1,000,000 a Month Spent at California

University of California students are spent $1,000,000 a month for the past eight months a survey disclosed. The students spent $400,000 in entertaining, totals about $50,000 a day. The girls spent $25,000 for dresses and beauty treatments. About 12,000 students are enrolled.

Courses for Prisoners

The extension department of the State College of Pennsylvania has offered for a period of four years a number of courses to prisoners in the State penitentiary.

On Universities

In a letter from Lord Bryce, dated August 7, 1918, reported in the recent life of this great man, these sentiments are found:

A university is organized thought organized for practical as well as character aims, as in many an American city one finds that the university professors represent the organized [illegible] spirit and civic zeal of the community. Universities exist largely for the purpose of clarifying and testing out new ideals for schemes looking to the moral and social welfare of mankind. Whatever strengthens them and extends their influence benefits a nation. They are its intellectual life blood. This is nowhere better understood than in America.

Since [illegible] the enrollment in American universities and colleges has kept its numbers since than American alumni have contributed more than $100,000,000 in gifts to the institutions of learning. Since the war, alumni work has become a conspicuous factor in higher education.

Cow Queen of Beauty

No more dirty work will take place at the cow beauty contest that will be held at Ohio State University in the near future. Last year the judges, either hard pressed for a winner or just trying out a new joke, elected a cow to reign as queen. This year the authorities will see to it that a real human beauty is picked.

SUCCESSFUL SEASON IN STORE FOR RIFLE TEAM

[illegible] Dec. were ending February [illegible] the University rifle team with its match with Iowa State, Delaware, California, Carnegie Institute and Connecticut Aggies and also the one with Worcester Polytechnic are the matches.

Vermont	[illegible]
Delaware	[illegible]
California	[illegible]
Conn. Aggies	[illegible]
Carnegie Inst.	[illegible] (Vermont 1845)

In the match with Worcester Vermont scored 1476 against her opponents 1,469.

Thus far in the Intercollegiate League eight matches have been won and four lost with 41 left to be shot. In the National Rifle Association two have been won, one lost and four remain to be shot.

A shoulder to shoulder match is to be shot here with Norwich as well as one with the women's team.

Following are last week's scores:

1 Brown	[illegible]
2 Barclay	[illegible]
3 Rann	[illegible]
4 Rowand	[illegible]
5 Leslie	[illegible]
6 Vander	[illegible]
7 Perceval	[illegible]
8 Green	[illegible]
9 Spear	[illegible]
10 Wardwell	342
	3595
Ball	[illegible]
Wheeler	324

Highest scores were:

Brown	381
McGee	380
Vander	373
Ball	370
Huey	360
Wardwell	356
Wheeler	35[illegible]
Wilhelm	355

The highest score prone was 100, made by McGee and Vander; sitting, 97, by Brown and Donaldson; kneeling, 95 by Brown, and standing, 96, by McGee.

NEW CYNIC DELIVERY

An opportunity is given to the students of the College of Agriculture and Engineering College to obtain their Cynics, due to a new system of delivery inaugurated by the Business Staff. The Cynics will be left on the second floor of the Morrill Hall and also in the office on the second floor in the Engineering College.

Students No Longer Rule

Student government at the University of Wisconsin is no more. The faculty has accepted the self-deposed student senate's recommendation that its charter be considered defunct, and thereby has seconded the opinion of student leaders that there is no reason for maintaining an unimportant and unnecessary institution. Since 1916 the men's student senate has been the highest council in student affairs. In October, the members voted to disband, after deciding that their actual powers were few and of little import. Self-government will be administered by five administrative boards. Centralization will be had by the union of the chairmen of these five bodies in the supervision of student election. Otherwise, there will be no central board of control.

CATAMOUNT HOOPSTERS FINISH SEASON WITH TEN WINS, NINE DEFEATS

Captain Prentice, Price, and Halligan Lead Individual Scores With Higher Records Than In Any of Past Years

[illegible] Cross game Saturday [illegible] Green and Gold hoopsters [illegible] season, winning 10 [illegible] games. In some contests [illegible] looked like world-beaters [illegible] others it seemed to go to pieces. Prentice, and Marvin played last varsity basketball game Saturday and next year's team will be around Estabrook and Halligan the nucleus. The freshman team this year's second string will [illegible] Coach McAvoy with some men expected to make up a fast team the next couple of years.

After defeating the Montreal A. A. and Y. M. C. A. teams and losing to Dartmouth, Crescent A. C., Yale and Holy Cross at the New Haven tourney the Catamounts turned in a string of seven successive victories. Springfield Vermont its first home defeat of the year and then Holy Cross repeated in the second meeting of the teams. Springfield again came out on the long end of the score in the Capital State city. A disastrous defeat at Middlebury resulting in a tie for the state championship was followed by a clean cut victory over the Norwich cadets. The last game with Holy Cross gave the latter team a clean sweep of the three game series between the two aggregations.

Captain Prentice led the team in scoring with 210 pointers for an average of 11 points per game. Price and Halligan followed with 138 and 134 points respectively. Prentice dropped 75 of his 80 shots from the foul line throughout the season.

Individual scores:

	Gls.	Fls.	Pts.
Prentice	75	60	210
Price	53	32	138
Halligan	56	22	134
Marvin	24	11	59
Estabrook	12	10	34
Wallace	12	4	28
Manning	10	5	25
Moran	6	2	14
Lee	4	4	12
Palmer	1	2	4
Whitcomb	1	0	2
Murray	0	0	0

The scores:

Vermont	32	Montreal A. A. A.	20
Vermont	21	Dartmouth	35
Vermont	38	Montr'l Y. M. C. A.	21
Vermont	30	Yale	34
Vermont	32	Holy Cross	44
Vermont	28	Crescent A. C.	52
Vermont	25	Rensselaer	20
Vermont	45	St. Michael's	19
Vermont	30	New Hampshire	24
Vermont	45	Conn. Agri.	28
Vermont	40	Norwich	15
Vermont	61	St. Michael's	21
Vermont	39	Middlebury	23
Vermont	26	Springfield	28
Vermont	34	Holy Cross	40
Vermont	27	Springfield	43
Vermont	35	Middlebury	44
Vermont	43	Norwich	20
Vermont	27	Holy Cross	35
Total	658	Total	566
Average	34.6	Average	29.8

Press Club to Meet

The Women's Press Club will meet at four o'clock Monday afternoon, March 12, at the Pi Beta Phi rooms on Pearl Street. This is to be a combined business and social meeting. The new members will be received and officers for the coming year elected. Members are reminded that [illegible] unexcused absences from the organization [illegible] advised, if unable to attend, to get in communication with [illegible] Bates, President, or Dorothy [illegible], Secretary.

[illegible] Francais will meet Monday, March 12, at the Vermont House. A novel program has been arranged. La conversation will be called for 7:30.

The International Relations Club met Thursday afternoon in 37 North College. Phelps, '28, gave an interesting address on "The New Germany" was followed by an animated discussion.

WOMEN'S RIFLE TEAM TO CONTEST VARSITY SQUAD

The Women's Rifle Team closes their season this month and will at that time have shot a total of seventeen matches. This week scores have been exchanged with the University of Michigan and the University of Nebraska. During the week ending March 17 the team will shoot against the University of Delaware, and they will finish their season with a shoulder to shoulder match against the men's team of this University. The ten highest scores so far this season have been turned in by R. Seaver '31, A. Burns '28, E. Robelen '30, G. Hubert '31, K. Wright '28, E. Shaw '29, L. Aldinger '29, D. Hart '28, E. Milden '28, and E. Cory '31

UNIVERSITY GYMNASIUM SCENE OF THE ANNUAL BASKETBALL TOURNEY

Seventh Annual Interscholastic Basketball Tournament to be Held Tonight and Tomorrow on University Floor

Friday evening at the University gym the seventh interscholastic basketball tournament will be held Dopesters pick either Cathedral or Springfield to get the coveted U. V. M. Interscholastic Tournament cup. This function put on by the University has proven a great success in times past.

The winning team will receive gold basketballs. In addition to this the Hood Rubber company has donated a gold charm for members of the mythical all tournament team. This team is picked by the various coaches of the teams represented. No coach may vote for a member of his own team.

The records of the various teams represented in the tournament follow:

(Continued on page 3)

WOMEN'S STUDENT UNION MEETS THIS AFTERNOON IN OLD MILL CHAPEL

Meeting to be Held at Four O'clock to Discuss Dormitory Rules and Affiliation of Vermonters' Club With Student Union

By far the most important meeting of the Women's Student Union which has been called within the last few years is to be held this afternoon at four o'clock in the Old Chapel, at which time business of intimate concern to every co-ed is to be proposed and voted upon. Because little over 7% of the University women attended the meeting called before Christmas, the proposed measures were left in abeyance until a more favorable date for the meeting might be selected.

Perhaps the paramount interest has been aroused by the suggestion of changes in dormitory rules, as follows.

1. The Social Week shall begin on Monday.

2. All University women shall be allowed until 10 o'clock on Sunday nights; and this shall not count as a social evening

3. House Presidents shall choose the Senior and Junior members of their house committees; the remaining members of the committee to be chosen by the house

4. Light cuts shall be allowed after fraternity meetings, provided there is no date after the meeting.

Interpretation: (Section 2)

d. All guests shall leave dormitories and places of residence at 10 o'clock.

e. After 10:15 on all nights, except Saturday; and after 10:30 on Saturday, absolute quiet shall be maintained.

The proposition of the affiliation of Vermonters' Club with Student Union will be submitted for discussion and voting. Vermonters' Club main *raison d'être* is the supervision of the Big Sister Movement, which, as has been suggested, might be carried out under the chairmanship of the Vice President of Student Union. At present, the latter organization is purely administrative, while Vermonters' Club was founded to fill a social need. The combining of both functions into one strong active organization is the proposal of the leaders of the two societies.

Election of delegates to the Student Union Conference of the Co-educational Colleges of New England will take place at this time.

CATAMOUNT NINE FAST ROUNDING INTO SHAPE

Catamount ball-tossers may be seen throwing the horse-hides around every afternoon in the cage under the direction of Coaches Dresser and Collopy in preparation for what is expected to be a very successful season. The material on hand now is the most promising of several years.

Coach Dresser has cut the squad twice and now has a group of 25 men which he is rapidly whipping into a team to open the season March 31 against Georgetown on the southern trip.

The men who have been retained are: pitchers Talcott, Schoppe, Santoire, Wood, Kendricks, Moriarty; catchers Aronson, Winchenbach, Kendall, Young, Stroh; infielders—Prentice, Sargent, Conway, Smith, Cogswell, O'Keefe, Schurman; outfielders—Macomber, Price, Howard, Dinniman, Halligan, Heaton, Carrigan.

It is too early to predict what the starting line-up will be or who will make the southern trip on account of the early date. Several of the veterans are being driven hard by new men and present indications are that there will be excellent reserve material.

Columbia wrestlers won from the Army last Saturday, 12-11, in the last mat match of the season

NOTICE!

Rifle team picture to be taken Friday morning during Military hour. All out!

"V" MEN

V men picture Wednesday morning at 10 o'clock without fail. Due to a misunderstanding the picture was not taken this week but will be taken next Wednesday.

PIANO CONCERT IN GYM DRAWS LARGE CROWD

Burlington music lovers were given a treat last night when Madame Elly Ney, world's greatest woman pianist entertained in the University gymnasium Tuesday evening, March 6. Before a crowded house, Madame Ney who is famous for her playing of Beethoven, rendered her selections in such a manner as to call forth applause lasting for minutes at a time

Her one ambition is her desire to give the best possible interpretation of her art to the waiting audience as she stated Tuesday evening. "What I do desire is that my music may talk to their hearts and stir their emotions," are her words. She certainly had the satisfaction of fulfilling her ambition if one were to judge from the expressions on the faces of the listeners as each note was echoed throughout the hall. Her splendid interpretation of every one of the numbers rendered was well appreciated by an audience which, above all, liked to hear good music. Every anticipation and expectation was amply fulfilled by her personality, technique, and style

The following program was rendered

Passacaglia in C minor	*J. S. Bach*
Sonata in C minor	*W. A. Mozart*
Allegro moderato	
Andante cantabile	
Allegretto	
Etudes symphoniques	*R. Schumann*
Sonata quasi una Fantasia	
C sharp minor	*L. van Beethoven*
Adagio sostenuto	
Allegro	
Presto agito	
Marche	*S. Prokofieff*
Danse	*C. Debussy*
Danse d'	*R. Pick-Mangiagalli*
Etude in A flat minor	*F. Chopin*
Nocturne in G minor	*F. Chopin*
Scherzo in B minor	*F. Chopin*

Madame Ney was born in Boun, Germany, the birthplace of the great Beethoven, and although she has been in this country but a few years, she speaks English with great fluency She has just enough accent to make her pronunciation interesting, and her pleasant low-pitched speaking voice makes it a pleasure to listen to her Her utter simplicity and lack of temperamental affectations so common in great artists makes her seem all the more human and natural. She plays without theatrical effect although her passionate love of music causes her to show some signs of emotion. This only adds to the enjoyable features of the concert.

It was to be noted that there was a goodly sprinkling of University students at the concert showing that Vermont men and women thoroughly appreciate good music. May it be said that those who did not attend, missed a rare treat

JUNIOR WOMEN DEFEAT SENIORS IN FIRST GAME

The women's interclass basketball tournament opened with the Senior Junior game on Monday, which resulted in a 27 24 victory for the 1929 The line-up was as follows

Seniors	Juniors
"Lib" White, r.g.	r.g. Marion Everest
"Betty" Burke, l.g.	l.g., Lucy Morgan
"Lib" Mildon, s.c.,	s.c., "Peg" Corbin
Ruth Westin, c.	c., "Diff" Wheatley
"Del" Martin, r.f.,	r.f., "Jack" Lanou
"Bell" Hayes, l.f.,	l.f., Emela Dielonko
Sub., Annette Burns, f.	
Sub., g., Laura Smith	

The Freshman second team won over that of the Sophomores by a score of 12-9

First and second teams of each class will play those of the three other classes, the final game of the series being scheduled for March 23, the night of the Indoor Meet.

The basketball banquet, a yearly affair, to which W. A. A. Council and the personnel of all the first and second teams are invited, will be held at Robinson Hall, March 27

A meeting of the Pi Delta Rho was held Thursday night at 7:30 at the Sigma Nu Lodge. The society discussed topics of literary work that is being done around the campus

FRATERNITIES EXHIBIT UNUSUAL INTEREST IN INDOOR TRACK MEET

Over 100 Men Enter Training for Events—Relay Preliminaries Next Friday

The great interest exhibited by the fraternities in the interfraternity relays and track meet to be held soon, give evidence that this year's event will be one of the most successful ever run off. More than 100 men have entered their names to Coach Jack Latty, indicating that there will be more participants in each event than ever before

The relays seem to have more attention focused upon them than any of the other events, undoubtedly because there is no outstanding fraternity team on the hill. As it is now, all stand an even chance

A change has been made from the regulations published in last week's Cynic

The preliminaries of the interfraternity relays will be held on Friday, March 16, a week from today. Seven practice sessions are required for participation in the trial relays. If more than eight fraternities compete, a second elimination will be held on the following day, Saturday, March 17. If less than eight compete on the 16th, the four winning teams will run in the semi-finals on Monday the 19th, and the two winners in the semi finals will compete for the championship on Friday, March 23. This will enable all entered in the 440 to take their time trials on Wednesday the 21st. The six running this event in the fastest time will take part in the finals. The field must be reduced to six owing to the difficulty and danger attached to a larger number running on the indoor track

All contestants will be limited to participation in two events in addition to the relay. Points will be awarded for the first four places: five points for a first, three for a second, two for a third, and one for a fourth place.

All regulation track events will be held with the exception of the 220 yard dash, the javelin throw, and the discus, regulation substitutions being made for these, as, for instance, the 30-yard dash substituted for the 100, and the 35-pound hammer for the 16-pound.

The entire program at present is as follows

Friday, March 16, trial relays

Monday, March 19, semi-final relays

Wednesday, March 21, 440 elimination time trials

Friday, March 23, final interfraternity relays

Saturday, March 24, 30 yard dash, 30-yard high hurdles; 30-yard low hurdles; pole vault; high jump; broad jump; shot-put; 35-pound hammer throw; 440 (finals); half-mile run; mile run; two-mile run

CHAPEL ADDRESS GIVEN BY PROFESSOR THOMAS

To do one's work well, to do the best of which one is capable, was the theme of the address given by Professor Evan Thomas at Chapel last Wednesday morning. Professor Thomas said that it was not enough to do the work but that it should be done perfectly. In every case the person should ake the matter in hand and see that that which should be accomplished is done and done right

Professor Thomas cited the case of a bootblack, who it seemed had plenty of business and did his work well Upon being asked why he did his work so thoroughly he replied that he shined every shoe as though it were the Lord's shoe. There is a great deal to learn from this message. The service was attended by probably the largest group of students this semester

To Have Artificial Lake

Students at Emory University have pledged $20,000 for a new artificial lake on their campus. When the pledges are paid, work will be begun. Two thousand dollars is yet to come in. While there's life—

The Vermont Cynic

Vol. 46 March 9, 1925 No. 37

CHAMPIONSHIPS

With the basketball season over and no definite state champions in sight we wonder who will be the first one to proclaim themselves state champions. Norwich and St. Michael's are definitely out of the way because of overwhelming defeats by both Middlebury and Vermont, therefore there are only two teams left, Vermont and Middlebury. The Green and Gold defeated Middlebury at Burlington while the Blue and White in turn beat Vermont at Middlebury. Therefore we are right back where we started from. Now let us turn back about three months on the calendar and see what the football results were.

Norwich defeated Vermont at Northfield while Vermont defeated Middlebury at Burlington. The deciding game between Norwich and Middlebury was cancelled and this left the football championship of the state in a tangle. Norwich then came to the rescue and proclaimed herself state champs. They even went so far as to give gold footballs to the varsity men but how the Norwich Athletic Council came to this conclusion no one knows and for that matter no one cares. Now why is it not right that Vermont should say, "Well, we have always won the state title so we claim it now, what difference does a tie make?" They might do this and it would carry just as much weight as the statement of the Norwich Athletic Council.

Now to get to the point. Just who should decide state championships? Why that is easy, the Green Mountain Conference. But the Green Mountain Conference has done nothing of the kind, when the football season was over they did nothing and now that the basketball season is over again they have failed to function. Just what this body has done for the betterment of state athletics is hard to figure out. They have a banquet once or twice a year and after everybody has had a square meal each representative gets up and spends an hour telling how much this and that body is going to do to make the athletic situation better in Vermont. After the effects of a good meal have died out, the matter is forgotten and state champs are decided by whoever has the most nerve.

LITERARY CONTEST

Contributors to the Tri-State Literary Contest have less than a week to prepare their work, for the last day material will be accepted is next Thursday. Vermont has won several first prizes as well as many of the smaller awards, in the two previous contests.

This year we have the *Literary Magazine* which has undoubtedly developed some talent, as well as the *Grey Friars* men's society, established to promote discussion and interest along literary lines. But all of the talent in the University is not being used at the present time. Several of the smaller New England colleges have displayed more interest in this field than we.

For the betterment of the student, who may find out for himself how he compares with others, and for the benefit of the University, as many students as possible should contribute. The rules are very simple, requiring little out of the ordinary.

The short story group is made to include short narrative sketches without a plot. Essays are to be written in a conversational style, similar to the ones every Freshman writes in English. Poems include nearly every class and a good one would be practically assured of a place.

Contributions are to be handed in to the English office not later than Thursday, March 15. The rules are repeated below.

RULES

1. All contributions must be in triplicate and in typewritten form.
2. Neither the name of the competitor nor any indication of his university shall appear on or in the manuscripts submitted. Each manuscript must be signed with an assumed name, which, together with the student's real name shall be enclosed in a sealed envelope and passed in with the manuscript.
3. Each manuscript shall be accompanied by a signed statement on a separate sheet that the author has received no assistance of any kind in writing the paper submitted.
4. Contributions must not be used for any other purpose prior to their being submitted in this competition. No restriction is placed on their use after the awards of the contest have been announced.
5. No restriction is placed on the number of contributions which may be submitted by any one student, but no student may be awarded more than one place in each of the three contests.
6. All contributions submitted by each university must be in the hands of the official designated not later than April 1, 1925.

BETTER SCHOLARS AIM OF NEW RHODES PLAN

Oxford, Eng.—The Rhodes trustees are preparing a bill for submission to Parliament, authorizing a change in the method of selecting Rhodes scholars, particularly from the United States, so as to improve their standard.

The bill would enable the Rhodes trustees to rearrange the system of choosing the scholars, not only in the United States, but also in the colonies, without reducing the aggregate.

The plan proposed by the trustees with regard to the United States would abolish the present method of each State selecting two Rhodes scholars during a period of three years and would group the States into eight districts of six States each, each district to select four Rhodes scholars every year.

The idea is to make competition keener and thus make it possible to select a higher type of American student to carry Cecil Rhodes' ideal of international friendship.

The present basis for choosing Rhodes scholars, by college credentials, letters of recommendation, proof of athletic ability of participation in college activities and finally a personal interview, will be left unchanged.

Fraternity Man (testing character of rushee): Now before you become a pledge of the fraternity, you must pledge yourself not to drink, smoke, or swear.

Rushee: I—er—don't believe I care to join.

Fraternity Man: Perhaps I had better be more explicit. You must not drink milk, smoke cubebs, or swear in a foreign language. Will you join?

Rushee: Sure!

—*Hill News*

He—Have you ever heard the theory of necking?

She—No. I care only for applied science.—*Maine Campus*

AT THE DORM

By Converse Hall

It is rumored about the campus that another girl at Robinson Hall has become engaged. "Robinson Trousseau," n'est-ce pas?

And speaking of girls' dorms, have you ever tried *Allen's* Foot Ease or *Dunn's* Little Liver Pills to tone up that down in the mouth and hoof condition?

English Prof.: "Thomas, give a sentence to illustrate the phrase 'so to speak.'"

Thomas: "The man opened his mouth so to speak."

Such is Life

French Prof.: "You can install a horse, stall in a Ford, but you can't install in any place a human being."

Mr. R. F. Rand, proprietor of the well known Rand's Home Lunch, announces the initial performance of a new event to be held annually at his establishment. This innovation will be known as "Runnin' fo' De Banana Pie," and in consideration of the fact that we owe said proprietor for five bucks for a meal ticket, we have consented to advertise the coming event as widely as possible. Behold our initial endeavor:

"Runnin' Fo' De Banana Pie"

R. F. D. Rand of Burlington,
By his host of cooks he swore
That his great crowd of frequenters
Should Pluto buy no more.
By his many cooks he swore it
And named a baking day.
Then bade the fellows tell him just
What they desired. He would, if must
Be, search the corners of the land
To find the food that they could stand.

They thought a bit and then they said,
"In Military we bite lead.
It's bad enough to eat it there—
Come, make us something sweet and rare;
To tempt our palate, whet desire
For tasty food. Man, we require
Both vitamines and proteins too;
Home wreckers know that this is true.
Just call them into conference here.
(The Crowd will come if *they* draw near)
And ask them what they think is best,
Then bake the stuff—we'll do the rest."
Bob scratched his head, and thought awhile,
His face lit up with sudden smile.
I bowl a bit, you fellows know,
I like the solid balls to throw
Straight down the alley; hear them smash,
As spares and strikes I mildly crash.
I like the He-Sport of it all;
I like to hear the big pins fall!
Well, one day as I tossed 'em down,
I scarcely could repress a frown.
'What ball is this?' My thumb scarce fits
Inside one of its rounded slits.
Oh, well—here goes!" With form so fine,
I dashed straight forward to the line;
And swing my arm, but, what the Deuce!
My thumb was stuck! There was no use
To fight to draw it out. I slid
Faster than skaters ever did
Behind the ball that pulled me on
Straight toward the pins. We came upon
Them in a rush, as down I fell
And knocked them flying—all to—Well,
I claimed a strike; I claimed a spare.
It seems I had no friends right there;
In accents harsh my game to spoil,
They loudly cried, 'Banana Oil!'
This shout went up on every side,
Was echoed from them far and wide
'It seems,' I said, as deep I thought,
'These crowd doth holler not for naught.
And though the not and naught sound ill,
I've an idea I feel will fill—
(Yes, feel and fill are foolish too,
But what's a body gonna do?)
All men's delight, I'll bake a pie
Crisp and alluring to the eye
Then on the filler shall I toil—
I'll fill it with Banana Oil!'
You'll see,' I thought, 'what I shall make—
The finest thing I e'er did bake'

This is how I conceived the thing.
And now—list' to the welkin ring
In glad response for what I've done.
In sooth, it pleaseth everyone!
To celebrate such great event
With fitting, lasting monument.
A holiday I do declare
We'll gather here some evening fair.
We'll have our peerade, stunts, and such;
Perhaps these won't amount to much.
But then to capture ear and eye—
We'll Run Fo' De Banana Pie!
We'll step, we'll twist, we'll kick, we'll strut—
Runnin' Fo' De Banana Pie, Man,
Nothin' Else But!

Blind dates are like bee-hives you may get honey, but you may get stung.

—*Y News.*

THE CHRONIC CALL

Advice to the Lovelorn and Seasick

By Lily Lee

My dear Lily Lee:

I know you can help a poor distracted girl out of a terrible situation. My boy friend and I are at logger heads. He said so and it must be true for he is the very swellest boy friend that.... well never mind. You see we were engaged and had already picked out the hall furniture. You see I had a little money saved up and was going to buy the furniture for the living room, parlor and bed rooms and Arthur was to furnish the hall and the closets. Fifty-fifty, that's the way we always was.

One day, I put a nickel in a Salvation Army tambourine. Really, you should have seen Arthur. He was furious. I told him that I was not a regular commuter of that church and he quieted down somewhat.

The next Sunday I went to church with his family. Would you believe it, they were Nazarenes. During the first prayer I went down for the count of eight but recovered in time for a hymn. The second prayer hit me hard. Arthur's mother was so religious that she fell flat in the middle of it and bore me along with her. As I tried to unravel myself, I heard a voice, "Hey, Get off my ear," and there was poor Arthur under the pew. I can never marry a man like that with his mother what she is and going into religion so actively.

I have told all I know, Miss Lee and I hope that you can tell me what to do, I am that frantic.

Anxiously, a puzzled little girl,
Elsie.

Dear Elsie:

I have thought and pondered over your little problem and my advice is this: If you are good looking, drop Arthur. If you are just a plain, substantial, old-fashioned girl try to get rid of Arthur's family and marry him. If you are doubtful use Murphy's Emulsion of Watermellon Rinds as a facial massage each morning before retiring. (Adv.)

Hoping my advice will make you happy.

Sisterly,
Lily Lee.

BOOK REVIEW

TWO ANSWERS

(By New Student Service)

Here it is. A thoroughly good book on the younger generation,* by a member of it. Here is no weeping willow, lamenting for her fallen sisters, and no elderly cat-briar, snatching at the sinful silk stockings as they pass. Here, vigorous and authentic, is what the younger generation thinks about itself—and what it thinks about its elders.

I have been told before what youth thinks about itself, by people from twenty to seventy-five; but never have I seen such an exhilarating panning of rejuvenated middle age. The cruelest enemy of youth is not old age, as we have been misled into believing in our cradles; it is that fake younger generation which reduces and has its face lifted and gets maritally involved with chorus girls. These middle-aged folks bring their musty middle-aged vices into their efforts to be young again, drag them through the newspapers, and try to pin them to the young folks with all the Puritans looking on; and the young folks, meanwhile, are joyously driving their latest car at fifty miles an hour down the road to wisdom. They have no need to stop at beauty parlors, nor do they care to be permanently lit up at the wheel. The innocence of newness and experimentation and clean minds is with them; therefore, let them not be daubed with the crapulous scandals of the forties.

And let their natural enemies, their parents, mind their steps and walk sedately and let them severely alone. Away with this heavy father stuff! And yet, let not parents pay youth the servile compliment of too much imitation. Young people want dignified parents, engaged in some worthy occupation, and serenely content with the years they have. Much laborious chumming is a bad thing, though at worst it is only clumsy. There is an accusing catalogue of really bad parents, all of whom have forfeited their children's respect. I'm glad to see it. It is seldom that a youngster has the combination of nerve and patience and surgical ability to give the head of the family what for, and I'm sure they deserve it. One-sided lectures are always a patter of platitudes, and it takes the salt sting of opposition to fillip the habitually parental mind to reason.

There is nothing furtive about these young people, and nothing reprehensible. Their frank necking is as different from the feverish wild oats of their fathers as a mountain spring from a malarial swamp. The difference between this younger generation and all previous ones is that in sex matters, these youngsters know what they are about; they understand their bodies; they are not licentious. They have downed the hobgoblins of unwanted pregnancy and disease. They are vigorous in mind as well as in body, and they accept the world eagerly where they like it, and with a generous tolerance where they don't. If only *all* the young people of today were the sort described in this book the ointment would be spicy and entirely free from flies.

I rather hesitate to reveal that Elizabeth Benson, who wrote this book is only thirteen. She is most emphatically NOT to be classed with the Ora Whitelys and Daisy Ashfords. She is not an infant prodigy, with all the hatefulness that implies. She is a sophomore at Columbia, and a very well informed person; she knows the college generation, and her writing is brisk, vivacious, and sure. In his introduction, Frank Crowninshield hints that her endocrine glands are responsible for her unusual development. It doesn't matter. If she can produce a book like this, I don't care whether she is thirteen or thirty. I take my hat off. So would you.

*The Younger Generation. By Elizabeth Benson. Greenberg. $1.75.

OUR FACULTY

PROF. ALLISON W. SLOCUM

By C. L. Morse '30

Prof. Allison W. Slocum [illegible] years head of the Department of Physics at Vermont, was born [illegible] mouth, Mass., in 1866. [illegible] from Haverford in 1886 with an A. B. degree, he spent the next few years in post-graduate work in physics at Haverford, Harvard, and Berlin. From Harvard he received his A.M. degree. From 1888 to 1890 he taught at Haverford College Grammar School, during 1893-94 he was connected with Westchester State Normal School, the latter year he came to Vermont as Professor of Physics and has held that position ever since. Prof. Slocum is a charter member of the American Physical Society.

The most popular courses at Radcliffe are those in English and foreign literatures according to a report issued by the office of the assistant dean.

No classes were held in the Medical college Wednesday because of Dr. Townsend's funeral.

Phi Chi, Medical Fraternity will hold a formal dance Friday, February 24 at the Ethan Allen Club on College Street. Major and Mrs. Stanley will be chaperones; dancing from nine to one. Music will be furnished by "The Vermonters."

Medic class pictures were taken last Friday on the Medical Building steps. These may be obtained from H. S. Twitchell.

Dean Jenne has returned from Chicago where he attended the Council of Education. Medical curriculum and hospital administration were discussed. Several changes which [illegible] must go before the Faculty Committee will soon be forthcoming.

A chap was arrested for assault and battery and brought before the judge. Judge (to prisoner)—What is your name, occupation, and what are you charged with?

Prisoner—My name is Sparks. I am an electrician, and I am charged with battery.

Judge (after recovering his equilibrium)—Officer, put this guy in a dry cell.—*Wesleyan Argus.*

Y. W. C. A. Notes

Miss Rogers, a national secretary of Y. W. C. A. will be on the campus Friday afternoon and evening and Saturday morning, March 9 and 10, to give a course in Discussion Group Leadership Technique. This course will be open to Seniors and Juniors if the class is not too large. Some of the members will be chosen to go to Rutland to help in the leading of discussion groups at the Older Girls' Conference there in May. There is no obligation involved, however, and the work will be of great value in any profession. Meetings will be arranged for the convenience of the class, and the hours for the meetings will be posted later.

Y. W. C. A. regrets to announce that Dr. Hornell Hart will be unable to visit Vermont this year due to a change in the schedule of his own college.

"VAGABONDING" FAVORITE SPORT

Instituted by Harvard and rapidly spreading to include Vassar, Massachusetts Institute of Technology and Bowdoin, "vagabonding" is the newest sport found among colleges today. It in no way refers to the college man's well known method of hobo-traveling, but merely to the innocent amusement of "setting in on a course." From an editorial in the *Bowdoin Orient*, we learn a few of the general principles and benefits of vagabonding—as follows:

"The idea simply means voluntary attendance at worthwhile and interesting lectures without incurring or assuming the responsibility of actually taking the course. The college man of today is not tied down as was his father or grandfather to any fixed schedule or standard routine. There is undoubtedly more room for choice in one's curriculum activities. But even at that, there are those who may find themselves unable to take a course that interests them—or else become interested, perhaps only temporarily in a course which they are not taking and who are desirous of some contact with the subject and knowledge of it. Needless to say, the practice has many advantages. There is always and often the chance that a so-called vagabond lecture may prove to be stimulating and may awaken a real interest in the subject concerned. Doing the thing that doesn't have to be done is usually an additional incentive. Finally, if one finds himself in the course of his vagabonding uninterested in something which he had hoped would prove of interest, there is nothing to prevent him from giving something else a try."—*Bates Student*

Customer: It's tough to pay fifty cents a pound for meat.

Butcher: Yes, but think how much tougher it is when you pay twenty-five.

OFFICERS RE-ELECTED IN KEY AND SERPENT

Key and Serpent, Junior honorary society, has voted to retain the officers of the previous semester. As a result of this decision J. S. Estabrook continues in office as president and F. J. O'Neill remains secretary of the society.

It was Key and Serpent which had charge this year of the reception and entertainment of the Sub-Freshmen who were invited to the University at Kake Walk time from every high school in the state. A large number of sub-freshmen this year accepted the invitation of Key and Serpent to attend the annual sub-freshman banquet and the Kake Walk, and so well did the society discharge its functions that letters have been received from high school students and from schools throughout the State thanking the society for its hospitality.

In compliance with another custom of the society, Key and Serpent has awarded a cup to the winner of the Interfraternity Basketball Tournament. The cup was presented, at the request of Key and Serpent, between the halves of the Holy Cross game, by Dr. Aldinger, and went to Sigma Phi fraternity.

STUDENTS!

The Editor of the Vermont Literary Magazine urges all students to contribute to the publication. Material should be sent to Rachel Skinner, Editor, at 215 South Prospect Street.

EXCHANGES

"I beg your pardon, sir, but my roommate wants me to help her clean our room this afternoon. Would you let me off?"

"I certainly would not."

"Thank you, sir, I knew I could depend on you."

"I hear your sister married a struggling young lawyer."

"Yes, he did struggle, but he didn't get away."—*The Tomahawk*.

Doctor (presenting his bill to his patient)—Here you are—$10 for medicine and $100 for calls.

Patient—That's fine, doc. Here's a check for the medicine now, and I'll pay the calls back when I'm well.

—*Bowdoin Orient*.

"When I hit a man he remembers it."

"You aint said nothing at all, bo. When ah hits a man, he don't."

The rules of the teams practicing for the preliminaries follow.

Burlington and Springfield will practice eleven minutes before their game which will start promptly at seven o'clock.

Cathedral and Hardwick will practice eight minutes between halves of the Burlington-Springfield game and three minutes before their game at about eight o'clock.

Black River and Spaulding will practice eight minutes between halves of the Cathedral-Hardwick game and will also have three games before their game at 10 o'clock or thereabouts.

Northfield and Rutland will practice 8 minutes between halves of the Black River-Spaulding game and three minutes before their game.

The semi-finals will start at 2:00 o'clock Saturday afternoon. The finals start at eight o'clock Saturday night.

The rules which govern the tournament are:

1. The athletic council will have control of games.
2. Rules of National Collegiate A. A. will govern.

3. Games consist of eight minute quarters.

4. Protests settled by *Chief* Official.

Tickets are selling at a great rate the Hardwick aggregation are reserving a section and of course the Burlington and Cathedral supporters will be present in force. Manager Castle and his efficient force of assistants and scrubs will assist the athletic council in making the tournament a rousing success again this year. The teams here are represented by many alumni here at Vermont and there is much rivalry being displayed at the various dormitories and fraternities.

All these teams have appeared in tournaments before so there is liable to be upsets to all the dope that can be predicted, for example, teams from the northern part of the state last year who were not given a chance to overcome their opponents put up a great scrap.

Freshmen will put up bleachers Friday afternoon at 4:00 o'clock. They will come down Monday afternoon at 4:00.

ORGAN RECITAL TO BE HELD SUNDAY IN CHAPEL

Miss Miriam Nattlee Marston, Instructor of Piano and Organ, will give an organ recital in the Ira Allen Chapel next Sunday, March 11, at 4 o'clock. The public is cordially invited. The program will be as follows:

Toccata and Fugue in D Minor	*Bach*
Sœur Monique	*Couperin*
Serenade	*Germani*
Cantilène	*Guilmant*
Pièce Héroique	*Franck*
Clair de Lune	*Karg-Elert*
Midnight	*Torrenson*
Dawn	*Lemare*
Within a Chinese Garden	*Stoughton*
Finale from the First Symphony	*Vierne*

In the Roaring West

Big Bill Jones were a hard hard man
With his arms of iron, and his skin of tan
He once't with bare hands did ten men fell
At least that's what the sheriffs tell

Now Big Bill's wife was the timid type
'Bout five foot tall, just a little mite
Her eyes, they always seemed to say
If you say 'boo', I'll fade away

Here's Big Bill with his anger fierce
With his brawny fists he'd a steel plate pierce
And his little wife so mild and meek
Who climbed the chairs when a mice did squeak

But strange enough it was, "Bill, come here
Or I'll tear you, man, from ear to ear
Iest you build that fire, and get that wood
And Bill would whimper, Don't! I'll be Good"

It goes to show we all are weak
There are caverns in the mountain peaks
Now Bill war in that selfsame pot
That wife of his'n war his weak spot.

He: Why is your face so red?
She: 'Cause
He: 'Cause why?
She: Causemetics.—*McGill Daily*

HANK DRESSER'S KITTENS FINISH SEASON WINNING MAJORITY OF GAMES

Freshman Hoop Team Lose Four Games and Tie One—Not Usual Record

[illegible] Dresser's Scrapping Kittens [illegible] basketball team ended a successful season [illegible] Saturday by defeating the Community Boys of Burlington 30 to 23. The game was [illegible] and was the last game of the season for the Kittens. The game was fast and rough throughout. Both teams were [illegible] but after a few minutes of play the Kittens found their basket and from then on the game was [illegible] Dresser used his entire squad in the game and all saw action. Both teams were [illegible] and the Kittens were [illegible] to shoot from the floor. Dresser's men were [illegible] and took [illegible] rebounds. The guards were [illegible] after [illegible] by the pass of Dayton who Jackson who filled the forward positions.

Sargent who completed the [illegible] position for the entire season was the outstanding star of the game. He played a fine defensive game and in addition he [illegible] high scorer of the match. He has earned the record of [illegible] one field [illegible] and [illegible] through the season for a team [illegible] Many of his baskets were made in this manner.

Dayton started with the quintet [illegible] he was forced to leave because of illness. He was easily the best forward that Dresser produced and ought to make a good fight for the varsity next year.

Dave Allen of the Fitchburg [illegible] champions, also showed up well. He started as a guard, but was shifted to an offensive position which Hank lost some of his material. He was [illegible] up in the scoring column.

The other members of the five who will probably make a try for a varsity berth are Agel, from Burlington High; Linneman, a guard from New Haven Conn.; Tobin, of Cathedral High; and Bolton a forward from Pelham New York.

The record for the season is as follows:

Freshmen	62	Company K	29
	29	Community Boys.	30
	49	Waterbury	45
	23	Community Boys.	19
	14	DeMeray	24
	29	Plattsburg	35
	28	Company K.	9
	24	K of C.	19
	14	K of C.	20
	26	Clark School.	28
	19	Dartmouth.	43

The Dopefiend

Nash Gilman

[illegible] Manager Harold Mayforth [illegible] a letter from Middlebury stating that they refuse to play Vermont for the championship of the State. They claim that they do not believe in post-season games and play-offs for titles. Also their coach has left for the Sunny South, where he is to train with the Brooklyn National League baseball team.

In all fairness to Middlebury, I think that a play-off should be had, however. It is not too late and it would be an interesting windup for the season. Where it would also be played on a neutral floor, would not give either quintet any advantage. A lot can be said by not having their coach with them but many teams have fought and won without their mentor at their side why couldn't the Black Panther take a chance? I wouldn't want to say that they were afraid, but I think that they realize that Vermont did not play the brand of basketball that they are capable of the night that the Boys in Blue defeated them. I maintain and believe that I have points of backers, that Vermont would trounce Middlebury if she met them again. Although not having an over successful season outside of the State the Cats however had the best team in the State.

Norwich who did not finish her football schedule this year, and who might have suffered a setback, claimed the gridiron title. Why not Vermont claiming the hoop title then? We did tie Middlebury yes, but that was probably the luckiest break that they ever had and they know it. The Cats could defeat them nine times out of ten any day in the week, any place. This was shown by the fact that it was the first hoop loss to the Black Panther in 13 years.

So at this time I wish to say that I consider the State title to belong to the University of Vermont and if anyone thinks differently I wish they would state their reasons.

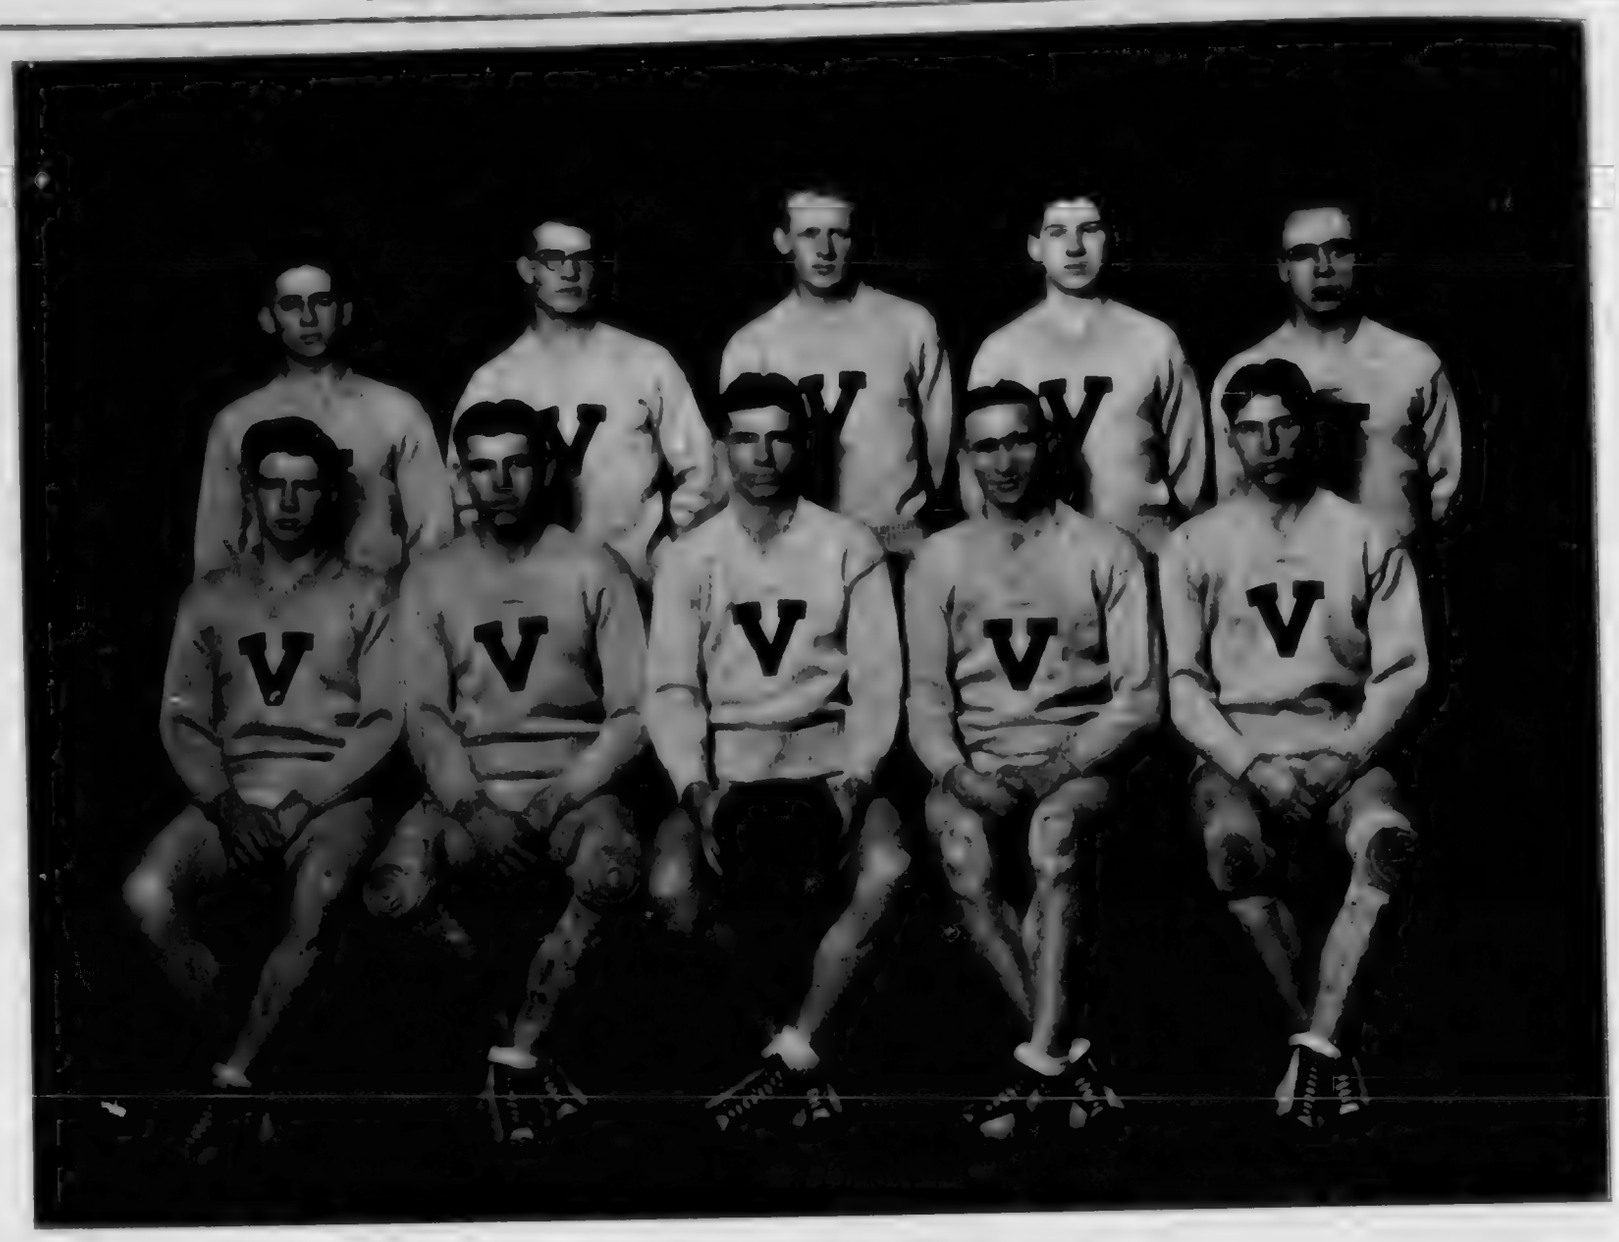
At this time I wish to pay respect to the three veterans, Prentice, Marvin and Price, who will not be with us next year. They have been three shining lights on the Green and Gold court four years and will be greatly missed next year. Prentice is a three letter man, basketball baseball and track. Price two letter man, basketball and baseball, and Marvin a two letter man baseball and basketball. With these there will be a number of other prominent athletes departing such as Conway Smith O T Wood Cornwell Talcott, Schoppe Winchenbach, and many others. The coaches will have to form nearly all new teams.

St Michael's and Norwich closed the State hoop series Tuesday night. The Purple vanquished the soldiers 41-37 in a rather close contest. Hickey and O'Brien excelled for the Mikes, while Capt. O'Donnell starred for the losers.

Graduate Manager Mayforth is rapidly rounding the next year's hoop schedule into form. He has already secured games with Dartmouth, Montreal A A A, McGill, Springfield, Holy Cross, besides the State series. It will probably be finished in another week and promises to be even a better schedule than the one just finished.

The seventh annual State Interscholastic basketball title will be held this Friday and Saturday at the Gym. It promises to be one of the best yet and Burlington, who was the winner last year is going to be given a close battle this time. Here is a chance to look over some of the boys that Vermont may get next year and pick out the cream of the State.

MEN'S LITERARY SOCIETY TO HOLD FIRST MEETING



The "Grey Friars," the men's literary organization of the University, will hold a meeting on Friday, March 9, at 7:45 P M in the Marsh Room of the Billings Library.

Men who have been picked as possible members will be invited to attend this meeting as guests so that they may become acquainted with the members and the purpose of the organization.

Professors Dean and Tupper are the Faculty members of the new organization. Both will be present and Professor Dean will give a talk on the value of the organization and Professor Tupper will give a short talk on "Conrad."

Talk about some fast acting! You should see a Hawaiian dancer with her grass skirt on fire.

VARSITY BASKETBALL SQUAD

Standing—Manning, Pike, Morgan, Wallace, Palmer.
Sitting—Estabrook, Marvin, Prentice, Price, Halligan.

LAMBDA IOTA TAKES WINTER SPORTS CUP

For the second consecutive year the Owls have carried off the cup given by the Student Senate Committee for the winner in the Interfraternity Winter Sports Meet. The decision was reached Monday afternoon after the tie between the Lambda Iotas and Kappa Sigs from the meet of February 11 was run off on the front campus.

A large number of delegates from each of these fraternities and a group of interested spectators were present to see the results of what proved to be a close contest. The snowshoers seemed to have the advantage over the skiiers considering the ice under a small amount of snow.

No particular order was followed so that a skiier and a snowshoer were together several times. The last two men came in very close, but the Owls' team proved to be the faster and this fraternity will hold the cup another year when it will either be forfeited or retained permanently.

The two teams were as follows: Lambda Iota, H. M. Chatterton, M. C. and R. W. Hendrick, all with skiis, and W. M. Loudon, H. D. Crandall and B. D. Smith, snowshoes. Kappa Sigma, M. C. Wood, L. G. Leary and L. A. Eliot, snowshoes, and R. B. and H. G. Adams and E. W. Connell, skiis.

RIFLE TEAM WINS THREE AND LOSES SIX MATCHES

Recent Rifle Team scores are posted on the Military bulletin board and the high scores by U. V. M. may be noticed as fired in the Intercollegiate and National Rifle Association Matches.

Past scores in the New England League shows Vermont as having won three matches and lost six. The scores are: U. V. M. 1230, Norwich 1316; U. V. M. 1340, Amherst 0; U. V. M. 1340, Worcester 1206; U. V. M. 1372, Boston 1320.

Matches fired during the week ending March 3, were with the following colleges: North Dakota U., Dennison U., Utah Agricultural College, Nebraska U. and Rhode Island State. Vermont's score in this competition is 3682 and those of the other competitors are to be sent in later. This week Dartmouth and Williams will compete with Vermont.

Members of the team in order of highest scorer are: C. E. Brown, A. B. Wheeler, J. O. Percival, J. B. Vander Y. Spear, P. G. Rowand, R. B. Aiken, M. L. Joslin, A. L. Wardwell and J. L. Riani.

She: "Who wins in a chess game?"
He: "The one who lives the longest."—*Pennsylvania Punch Bowl*

NEWS IN BRIEF

Prof. Metcalf is now working on a comparison between the results of the psychological exams and the semester grades. The intelligence quotients of those who were dropped or went under warning will be compared with those of the students on the honor roll. Prof. Metcalf has not yet had time to get very far in his investigations, but expects to have them completed in two or three weeks.

Everything so far is up to the schedule which Editor James of the *Ariel* has laid out. The first 30 pages of the book have gone to the printer, and the fraternity section will soon follow. The football and baseball sections are finished, while the Junior part is soon to be started. Most of the Junior pictures have gone to press, the 20 delinquents should take notice and get busy. It is desired to get the sorority pictures in as soon as possible.

Spring football practice at Fordham will begin next Monday and continue through three weeks, until the Easter vacation.

Tuition at Middlebury College will be $250 next year. This is an increase of $50. In 1925, the tuition was raised from $150 to $200. The new tuition rate will be more than three times what the tuition cost when the college was opened in 1880.

More news from Middlebury is to the effect that their debating team will shortly leave on a trip to debate New York University, Albright College, Temple, Rutgers, Trinity, and the Massachusetts Agricultural College.

Yale track men recently broke the world's relay mark for the half mile by clipping three seconds from the former mark of 1 minute, 35⅘ seconds, made in 1912.

By defeating McGill University in a dual meet held in Montreal last week, 44½ to 26½, swimmers of the University of Toronto captured the Canadian intercollegiate championship.

Holy Cross will end its basketball season next Wednesday when its fast quintet meets Brown.

At the University of Wisconsin there is one teacher for every ten students.

THERE IS ALWAYS A BIRTHDAY TO BE REMEMBERED. WE HAVE VERY ATTRACTIVE GIFTS WITH THE UNIVERSITY SEAL WHICH WOULD BE APPROPRIATE FOR SUCH OCCASIONS

VERMONT ALUMNI WED IN IRA ALLEN CHAPEL

In the second wedding to be solemnized in the Ira Allen Chapel, Carolyn Jameson Strong of Northfield was married to William Jarius Clark of Craftsbury, Saturday at two o'clock by Doctor Chauncey C. Adams of the First Congregational Church. The couple were unattended. Immediately after the ceremony, a luncheon was served to the wedding guests at the Golden Pheasant Tea Rooms.

The bride was graduated from Northfield Seminary, Northfield, Mass., in 1922 and from the University of Vermont in 1926. Members of Nu Fraternity, Alpha Chi Omega, both actives and alumnae, attended the wedding in a body.

Mr. Clark was graduated from Vermont in 1926 and was a member of Alpha Zeta, honorary agricultural fraternity.

Mr. and Mrs. Clark will reside in Chatham, N. Y.

OPEN FORUM PLEASES MASSACHUSETTS PEOPLE AT VERMONT DEBATES

Vermont Loses to Springfield Only Decision Debate of Three-day Massachusetts Trip—M. A. C. and Clark Other Opponents

Five Vermont debaters returned Thursday morning after a three day trip in Massachusetts, on which they met M. A. C., Springfield, and Clark. Of these debates, the only one in which there were judges, and a decision was rendered, was at Springfield, where Vermont lost by a vote of two to one. At all of the debates, one of the features was the open forum which followed the formal speaking. The audience took great interest in the discussion, entering into the spirit of the occasion. Many questions were put to the members of both teams.

Monday night at Springfield, a Vermont team composed of L. A. Hince, '28, and H. M. Macomber, '30, upheld the affirmative of the question, Resolved, that there should be an official censorship, state and national, of press and theater, to cover morals and crime, but not politics and religion," against Ted Burton, '28, and Walter Lake, '29, the representatives of Springfield College. The Oregon system, an experiment with the debaters of both teams, was used, and proved very popular, both with the speakers and the audience. The Oregon plan, which has been followed in two debates at Vermont this year, involves a cross-questioning of an affirmative speaker by a negative, and of a negative speaker by an affirmative.

On the same night, another team, composed of G. A. Gould, '28, J. M. Leavens, '28, and F. A. Sears, '30, met the M. A. C. debaters, using the proposition, Resolved, that the Philippines should be given their independence within five years, restricted by the Platt amendment. Vermont opposed the granting of independence. The men on both sides displayed a thorough knowledge of the subject, real ability as speakers, and a ready wit. The discussion was carried on under the Oxford system, and the audience was enthusiastic for informal method of presentation which now prevails in place of the strict formality which has been the rule of years past.

Clark University at Worcester was the scene of the final debate on the trip. Here Vermont, represented by Hince, Macomber, and Sears, again upheld the affirmative of the censorship question. The feature of the evening was the entirely extemporaneous address of Hince, the third speaker for the visitors. Before and after the debate, the audience cast a ballot on the merits of the question, not of the debaters. The results of the vote before the debate were: I believe in the affirmative of the resolution, 36; undecided, 17; I believe in the negative of the resolution, 31. After the debate the vote was cast as follows: I believe more strongly in the affirmative of the resolution than I did, 10; I believe in the affirmative of the resolution, 27; I believe more strongly in the negative of the resolution than I did, 11; I believe in the negative of the resolution, 19; undecided, 7.

TWO FACULTY MEMBERS ADDRESS MEETING OF NEW LITERARY SOCIETY

Professor Frederick Tupper and Leon W. Dean Speak to Grey Friars — Semi-monthly Meetings Planned for Future

Last Friday night in the Marsh Room of Billings Library, Grey Friars, the new literary organization on the hill, assembled, with twelve members and prospective members present, for the first meeting of the organization.

Grey Friars was first conceived by the members of the class in English 117, Mr. Dean's course in Short Story Writing. It received the instant blessing of Mr. Dean and the English department and recognition from the Faculty Council as an organization for the stimulation of writing and of appreciation of literature. The members of the Friars immediately elected officers, limited the membership of the society to sixteen, and provided a short story test for prospective members. G. A. Gould, president of the literati, opening the meeting Friday night, told how the members of the newly-organized literary society, mindful of the part the monks had played in the Middle Ages in their efforts to stimulate learning, had named their society, the "Grey Friars."

The reading of a fantastical little tale, anonymously submitted by a member of the society, and talks of the Art of Writing by Professor Tupper and by Mr. Dean, who is well known at Vermont as an authority on the Short Story, featured the meeting. The manuscript was a pleasing little piece, fantastic and perhaps allegoric. It was one of the types which the society requires to be submitted to it as a test for admission, a type of short story depending on characterization and atmosphere, with plot as a minor element. When the paper had been read, the members submitted their criticism, largely of a commendatory nature.

That he got more out of his literary society than from any one course at college, was one of the conclusions arrived at by Professor Tupper in his address to the society. Dr. Tupper declared himself "tremendously in sympathy" with the purposes of the organization which, as he saw it, meant the "fanning of any spark of creation" that might be in any one of aspiring authors of Grey Friars.

Throughout his address, Prof Tupper stressed the necessity for observation, reflection, and simplicity and accuracy in the choice of words. Everything that he said, Dr. Tupper illustrated with examples from classic literature. Observation, explained the doctor, might be either of two kinds: observation at first hand the observation of an "experiencing nature" or observation from the printed page. Inability to observe means failure in writing. Coupled with observation is reflection—thinking upon and generalization from experience. This is the step preliminary to actual writing. Finally, reading the Bible narrative of Jacob and Rebecca, which Prof. Tupper declared to be the greatest love story in the world, and a selection from Sir James Barrie's "Sentimental Tommy," he showed how the finest efforts are often the product of simple and well-chosen expressions.

Much in the same view spoke Mr. Dean who, in opening his address, told the Friars to select what may often seem to be the more theoretical in preference to that which may be purely practical. He coupled the Grey Friars with the Courses in Short Story and Dramatic Composition, with the *Literary Magazine* and the writer's workshop. But, above all, he praised the aim of the society to promote the appreciation of literature. Then, turning to the more practical side of things, he advised the members, if they wished to break into print, to put their efforts into the writing of articles for which there is a great demand and which is easier than the short-story.

Meetings of the Grey Friars will be held twice a month—once in the Marsh Room and once at some tea-room. The members of the club are to submit one paper a month for reading and criticism by the Friars. Extensive programs are now being prepared. There will also be faculty speakers at each meeting with Prof. Aiken and Prof. Metcalf delivering the next series of talks.

CHEER-LEADING SCHOOL TO TRY OUT NEW MEN

The cheer leading school announced elsewhere in this issue is to train candidates for next year's cheer-leader who will be chosen from among the Sophomores and Juniors towards the end of the current year, by Student Senate. The leader will be chosen on the basis of the merits of work done at the Student Senate smoker just before the southern trip and at baseball games this spring. Although it is required that the cheer-leader be an upperclassman, Frosh may take advantage of the school to help them next spring. Cheer-leader Miller would like to see at least one man from each fraternity attending the school.

VERMONT RIFLE TEAM ENTERED IN NATIONAL MARKSMANSHIP MEETS

After firing elimination matches with twelve other colleges, the University of Vermont rifle team has shown a remarkable record and has qualified second to shoot with Norwich, and Massachusetts Institute of Technology in the Intercollegiate National contest.

The eleven other universities with which the team has competed are: Boston U., Connecticut Agricultural College, Harvard, Harvard Medical School, M. I. T., Norwich, Rhode Island State, University of Maine, New Hampshire University and Yale.

Under the coaching of Captain Lauer an unusually fine team has been turned out this year and the individual scores as fired each time have been exceptionally good. The scores for the past week as given below show a continuance of high ratings.

Scores for the week of March 3 have not all been received but Vermont has only lost one of those sent in thus far, Dennison, Nebraska and Rhode Island State have not reported but the other scores are:

University of Vermont 3682, North Dakota University 3546, Utah Agricultural College 3205, U. V. M. 1859, M. I. T. 1804, U. V. M. 2742, North Dakota Agricultural College 2683.

Individual scores for these matches are:

C. E. Brown	380
A. B. Wheeler	376
J. O. Percival	371
J. B. Vander	366
Y. Spear	366
P. G. Rowand	365
R. B. Aiken	365
M. L. Joslin	365
A. L. Wardwell	363
Riant	

FRATERNITY STANDINGS ISSUED BY UNIVERSITY

Scholastic standings of the various fraternities on the hill have just been published. As usual, the sororities have a higher standing than those of the men's fraternities. The Pi Phis head the list, while the Phi Mu Delts have the best average of any of the men's fraternities. The list of fraternities in order of their scholastic standing follows:

1. Pi Beta Phi
2. Delta Delta Delta
3. Alpha Chi Omega
4. Kappa Alpha Theta
5. Kappa Delta
6. Alpha Xi Delta
7. Sigma Gamma
8. Phi Mu Delta
9. Sigma Delta
10. Sigma Alpha Chi
11. Delta Psi
12. Kappa Sigma
13. Lambda Iota
14. Sigma Nu
15. Phi Delta Theta
16. Tau Epsilon Phi
17. Alpha Tau Omega
18. Zeta Chi
19. Sigma Phi

There will be a special meeting of the Key and Serpent society at the Sigma Nu house today.

NOTICE!

Cheer leading school starts this Wednesday, March 14, at 4:00 o'clock in the gymnasium. Sophomores and Juniors wishing to try out report to Jack Miller at that time.

NEW HAMPSHIRE BISHOP ACCEPTS INVITATION TO GIVE BACCALAUREATE

Rev. John T. Dallas Will Preach Sermon at University's Hundred and Twenty-Fourth Commencement Exercises

Rt. Rev. John Thompson Dallas, bishop of New Hampshire, has accepted the invitation to deliver the Baccalaureate address at Vermont on Sunday, June 17 next, as a part of the Commencement program at the University. Bishop Dallas conducted the vesper service at the Ira Allen chapel on February 5 and made a very good impression among college students, members of the faculty and townspeople who heard him at that time.

Bishop Dallas worked for several years among the students at Dartmouth College and was very successful in that branch of his work. He has, therefore, the college point of view and has been in great demand as a speaker to college men and women.

Bishop Dallas was graduated from Yale University in 1904 and from Union Theological Seminary, New York, in 1908. In the same year he was ordained a deacon. He was ordained a priest in 1909 by Bishop Brewster of Connecticut.

He was a chaplain in the Taft School, Watertown, Conn., in 1910, was associate headmaster of the same school in 1912, did religious work in training camps during the war in 1917, was curate of St. John's Church in Waterbury, Conn., 1918 to 1920, was rector of St. Thomas' Church in Hanover, N. H., 1920 to 1925, was vicar of St. Paul's Cathedral in Boston in 1925, on May 4, 1926, was consecrated bishop of New Hampshire.

PI DELTA RHO HOLDS FIRST SEMESTER MEETING

A meeting of Pi Delta Rho, the Honorary Journalistic Society of the University, was held Thursday, March 8, at 7:30 P.M. at the Sigma Nu Lodge.

A great deal of business was transacted at this meeting. A committee, consisting of J. O. Phelps, '28, W. R. Doane, '28, and H. D. Crandall, '28, was elected to amend the constitution.

Plans were discussed whereby an organization should be formed to give the athletic department of the University more publicity in the larger newspapers. A committee was appointed to look into the matter.

The matter of the Men's Press Club was brought up and it was decided that since the club has been adopted by the women that the old Press Club should be abolished.

The matter of providing insignia for the members of the society was brought up and it was recommended that the various journalistic organizations on the campus buy the insignia for their staff members. A. R. Birchard was elected to arrange for this.

New members were brought up for a preliminary discussion.

There will be another meeting held between now and vacation sometime.

ELECTRICAL ENGINEERS TO FORM NEW SOCIETY

Electrical engineers of the University met last Tuesday night at the Radio Building to discuss the formation of the student branch of the American Institute of Electrical Engineers.

A committee consisting of R. J. Siebert Morgan, '28, F. L. Sulloway, '29, M. L. Joslin, '31, C. W. Deltose, '30, and Professor Dickenson was chosen to draw up the by-laws for the new organization. These were to be submitted for approval at the next meeting, held Tuesday night, March 13.

Students from all four classes taking electrical engineering can become candidates for membership to the A. I. E. E. and are invited to attend the meetings.

The new automobiles are coming in in a variety of colors, but the pedestrians will still have to be content with black and blue.—*Wet Hen*

IGNORANCE

In a recent dispatch by the Associated Press President Arnold Bennett Hall of the University of Oregon, stated that the primary purpose of college education was to develop in students a resistance against the forces of darkness—ignorance, prejudice, bigotry and intolerance. Along with this he proposed a plan whereby the first two years of college were to be reorganized, including in every course at least one scientific study such as Botany, Biology, Physics or Chemistry. In this manner the students could realize their duty to fight these forces of darkness instead of yielding to superstition and mysticism.

At Johns Hopkins there has been a movement to do away with English courses for Freshmen, the students believing that they were unnecessary and undesirable. The faculty compromised with the students and ruled that any person entering the University would take an examination in English, and if passing by a 75% grade, would not have to take the course their first year. One hundred and twenty-five failed to pass the examination and at this time it has been found they were all quite deficient in English—which certainly would reflect on their University after they had graduated.

On one side we have a college president advocating science in the first college years and by another's experience we find unscientific subjects necessary. For the average college student this means the necessity of both to have complete education. It is impossible for Vermont students to graduate without English courses but it is true that many graduate without taking a single hour's work in Biology, Chemistry, Physics and courses of a similar nature.

Science has aided the progress of the world enormously in the past century and it is quite possible that it will continue its good work. An intimate working knowledge of the fundamentals will do no one any harm and if it accomplishes what President Hall contends it is very desirable.

Several colleges have recently permitted students to "vagabond" outside of their regular courses, which means they may listen in at lectures on other subjects than the ones they are taking. In this manner they get at least a bird's-eye view of the other side and undoubtedly a broader perspective on life.

The "Crusader" of Holy Cross College, mentioning our entertainment of sub-freshmen at Kake Walk, points out the advantages in letting the would-be student judge for himself rather than through an alumnus or student. This body often paints the wrong picture, if an athletic type or follower, he will understress and criticize the sporting program and a literary type will think scholarship is understressed. Instead of speaking of the virtues they talk of one subject they are a crank about and thus may have lost a valuable addition to the student body.

Middlebury has adopted a course in compulsory etiquette for Freshmen this semester. Perhaps from the outside this would seem unnecessary for college students but an observer, inside of the ranks, will find this is a dire need. It would be advantageous if our Freshmen were instructed in some such course.

Campus Comment

To the Editor of the CYNIC:

That the Green Mountain Conference fails to settle disputed state championships is no reason, so it seems to me, why Mr. "Nani Glucas" or any other Vermonter should take it upon himself to decide such issues. The matter of state championships is rather a delicate question for one person, whoever he may be, to decide. Whether Middlebury should have played off the tie and whether we have the best team in the state are certainly rather doubtful points and should be considered as such. Vermont undoubtedly has a better record for the season than Middlebury, but any team which has been as erratic as ours cannot be hailed as the best team, everything considered. The "Dope-fiend" asked for reasons why we shouldn't claim the state title in basketball. Only one reason is needed. It is poor sportsmanship!

The editorial in last Friday's CYNIC just about hit the nail on the head regarding the Green Mountain Conference. If that body can't decide how championships shall be settled, it doesn't justify its existence. Two disputed titles in one year ought to stir up that organization to a little action.

G. E. S., '28.

To the Editor of the CYNIC:

Dear Sir:

It seems that in every institution one finds defects, some of which are inherent and others only temporary. Fortunately many obvious defects may be remedied. And there is one here in this University which if eliminated will increase the respect of the students for the University and elevate the general atmosphere, if you know what I mean.

The immortal Virgil said to the genius, Dante:

I, for thy profit pondering, now devise
That thou mayst follow me; and I, the guide
Will lead thee hence through an eternal space.....
"Lead on, one only will is in us both.
So spake I, and when he had onward moved,
I enter'd on the deep and woody way."

Canto I of Dante's *Divine Comedy*.

We have a professor in this University who may be likened to Virgil, who kindly offered his services to Dante when the latter was lost in a gloomy forest. Many students are still in the gloom in regard to some subjects which they are studying. They are as Dante, when upon spying a she-wolf he fell in despair until he suddenly saw the spirit of his master, Virgil, and then said:

"See the beast from whom I have fled.
O save me from her, thou illustrious sage!
For every vein and pulse throughout my frame
She hath made tremble."

Virgil tells Dante what course to pursue in escaping the she-wolf. In so far as I know there is as I said before only one professor that will take the trouble to go to the library with a student and help him or her to pick out books shedding further light on a subject, who will discuss in a conference manner any phase of the course, who in other words will take an individual interest in a student instead of adopting a mass production idea of education.

Objections as to the time of the professors being limited, that students do not care for conferences, private or en masse, will be raised. The professor I have in mind is the busiest on the hill and all will agree to it, and it does not take him long in directing students toward the right path in acquiring knowledge. You may say that it depends what viewpoint you take of education. My viewpoint is that education is the salvation of the human race.

The defect is obvious, so is the remedy. Let the powers that be do something about it.

The torrent of criticism showered upon the Faculty last semester indicated a lack of understanding between teacher and pupil. A love for the Alma Mater would be either revived or kindled if professor and student could realize, practically, that we are all here for our mutual benefit.

RECRUITING NUMBER

Join the Army and See the World Through a Peepsight!

Men never travel so fast as in the Army. The bullet behind you makes a lot of difference.

Build up Your Health, Morals and Energy!

Be a Real Red Blooded, Two-fisted He-man!

The Army builds real men—see the recruiting officer inside.

This was the poster that confronted us outside the local postoffice one afternoon in late autumn. Having just come from a lengthy tutoring session in Physical Training, we felt rather despondent, and so the more we contemplated the notice the more determined we became to run off and join the old forces. But first we must investigate. Thus, we mounted the post office steps, and after a dizzy encounter with the revolving door, finally reached the officer in charge of enrolling Real He-men prospects.

"Good day, sir."

"Ah—good day. Want to see me?"

"Yes, sir. I'm seriously thinking of joining the army."

A shadow of regret flitted across the veteran's face. He paused as if attempting to recall the bygone days of his own youth. But then—a man must live!

"Well, well," he exclaimed heartily. "I'm sure glad to see that you're on the right road to health, happiness, and—."

He hesitated uncertainly. I feared for a moment that he had been about to say "Heaven," but after consulting a handbook, he went on enthusiastically.

"Think of what awaits you if you but heed that right impulse and join up with Uncle Sam's bulldogs. Why, men learn more than a phi bate and you'll live properly, come into intimate contact with Heinz of Boston. You see, we use our beans in the Army. Yess, Yes, by all means—"

"Just a moment, sir. May I ask you a few important questions?"

"Certainly, sir. Better ask 'em now while you get the chance."

"What good could I do to myself by joining?"

"It would benefit you mentally, physically and morally. We made Phi-Betates from Fools, Wrestlers from Wrecks and Priests from Perverts. We absolutely guarantee in thirty short days to grow hair on your chest or your money cheerfully refunded. Ladies and Gentlemen—step right up!"

"Very well. Now, how can I benefit humanity by joining?"

"Ah, now we have it! We are striving to make the world safe for Democracy.—Always striving to make the world safe for Democracy! Even now are we not rushing men and munitions to Nicaragua to protect the sanctity of glorious American womanhood, and to help the barbarous natives from swarming and pillaging Washington? Come and join us, brother, and eternal happiness shall be yours!"

I was nearly convinced.

"Just one more query, please. How will the Army strive to protect my health?"

"In many ways. First of all, we encourage proper rest by not allowing our men to arise until 9:30. Then we equip them with various surgical devices. Among these is a first aid kit. This in itself is a unique contrivance, containing the usual first aid material, and being well sealed. Every Saturday night in camp we hold a contest to see which man can first succeed in opening his case. The record is now held by I. Cutter Finger who accomplished his task in the unusual time of one hour, eight and seven-eighths minutes. Do you see, sir?"

"Yes, sir, I do. And now I am ready to join."

"Good! What is your name, sir?"

"Oh, just call me totally dumb!"

OUR FACULTY

PROFESSOR EVAN THOMAS

Professor Evan Thomas was born in Cardiganshire, South Wales, August 25, 1853, the son of [illegible] Margaret (Griffith) Thomas. He received his B.S. degree at Denison University, Granville, Ohio, in 1[illegible] his B.D. from Yale University [illegible] years later, in 1880. He is a member of Phi Beta Kappa. June [illegible] he married Inez M. Doby at [illegible] Vermont. He has served in the [illegible] gregational ministry, has done [illegible] nalistic work, and has spent a [illegible] erable portion of his life in [illegible]. He became an instructor in [illegible] matics at the University of [illegible] in 1892, and has since 1910 been [illegible] of the department of mathematics and mechanics at the same institution. He wrote a paper on the pedagogy of mathematics. He is a member of the American Mathematics Society, the American Association for the Advancement of Science, of the Society for the Promotion of Engineering Education, and of the Vermont Society of Engineers.

THE CHRONIC CALL

A Freshman With a One Track Mind
A Tragedy in One Lap

(Setting—Indoor track in gym; lights, no air, lots of noise from women's basketball team on floor below; dull thuds as feet fall upon the track and occasionally upon another runner. Entrance Frosh from anywhere wearing knee guards and galoshes. He approaches Coach Latty.)

Latty—What's you name?

Frosh—Must I answer, sir?

Latty—No, of course not. What do you do?

Frosh—Well I go to classes and to the movies and....

Latty—I mean what's your main event?

Frosh—When I was born, I think.

Latty—No you don't but what makes you believe that you can run?

Frosh—You see sir, I used to live six miles from school in Blooptown and I used to run to school and so..

Latty—We'll see. First take off those chest protectors and then do your exercises.

Frosh—But sir, I haven't done exercises for last week yet already have three comps due.

Latty—Never mind, get out and try a lap.

Frosh (Looking at co-eds playing basketball)—I do not think they are in the mood, sir. May I wait until tonight?

Latty—I mean to run once around that course, foolish.

Frosh (Disappointedly)—Oh.

Latty—Just for that, run around eighteen times.

Frosh—Do you want me to sprint?

Latty—No. Take it easy.

Frosh (Drops after first lap and chokingly whispers)—I knew those six chocolate sodas would get me.

Latty (Smiling on recumbent form) (Then brusquely)—Take him to the showers.

Curtain or Window Shade Down

Lured by Aroma of Neighbor's Tobacco

Boston, Mass.,
April 21, 1927

Larus & Bro. Co.,
Richmond, Va.
Gentlemen:

This morning I had a smoking adventure worth recording.

Next to me in the smoking car a gentleman was puffing his pipe contentedly. I was not smoking at the moment, and the aroma of his tobacco intrigued me exceedingly. For twelve years I had smoked Edgeworth without being tempted by any other brand, but the fragrance emanating from the pipe of the gentleman beside me was so agreeable that I could not resist the temptation to speak of it.

"That is wonderfully fragrant tobacco you have there," I remarked. "Would you mind telling me the name of it?"

"It is Edgeworth," he answered.

We then congratulated each other upon our mutual good taste, and I decided that I would continue to use his brand and mine.

Sincerely yours,
S. H.

Rutland vs. Black River

Rutland came through again with another victory when they defeated Black River Academy 19-18. The B. R. A. boys apparently played rings about the Marble City five but the steady, sure onslaught of their opponents told in the end. It is apparently the campaign of Hal O'Brien's players to play a slow defensive game for the first two or three quarters and then dash to the front by a sudden spurt in the last moments of play. The outcome of the games was very much of a surprise to many of the fans, as Rutland did not appear as fast or as accurate in their shooting as they might be. However, they must have the sheer grit to keep on playing when it seems that they haven't a chance to win the game.

Layden and Crowley again came through in the last few minutes and uncocked some speed that put them one point in the lead and gave them their chance at Cathedral for the championship. Layden and Crowley again starred for Rutland, while Zamielo and Kolstrom were the outstanding men for Black River.

The box score:

TRY-OUTS FOR OPERA!

Try-outs for the principal men's and women's roles in the comic opera "The Mock Doctor," to be given by the Men's and Women's Glee Clubs, will be held in the music building Wednesday, March 14 at 4 P. M. Candidates should consult bulletin board in Old Mill for dialogue and songs to be used. The dialogue should be given with action but need not be memorized. Only candidates for the roles of Sganarelle, Leandre, Lucinde, Martine and Jacqueline will be tried out on Wednesday.

NOMINATIONS MADE FOR CO-ED UNION OFFICERS

The new officers of Student Union, Y. W. C. A. and W. A. A. for the coming year are being voted on this week Balloting for Student Union officers will take place on Tuesday and Wednesday. A check list has been placed in the Y room on which are the names of all women. As each girl votes she is to check off her name on this list. The following nominations have been made by the Council:

President:
Marion Backus, '29
Katherine Bassett, '29
Florence Scott, '29

Vice-President:
Mabel Freemann, '30
Janice Goodrich, '30
Ruth Strong, '30

Secretary:
Lucy Bracken, '29
Lucy Morgan, '29
Mildred Whitney, '29

Treasurer:
Elzada Fiske, '29
Ruth Churchill, '30
Phoebe Flint, '30

Chief Justice:
Dorothy Cottrell, '29
Dorothy Wheatley, '29

Chairman Program Committee:
Marian Everest, '29
Frances Howley, '29
Doris Kibbe, '30

Chairman Social Calendar:
Charlotte Cleveland, '29
Dorothy Strong, '29
Joyce Richardson, '30

On Thursday, the nominees for offices in W. A. A. and Y. W. C. A. will be posted. Balloting for both will take place on the next two days, Friday and Saturday. Only members of these two organizations are eligible to vote at this time. A separate check list will be posted for these two elections.

THE CAMPUS SPECTATOR

By ME

Frosh: The girls having gym this period?

Soph: Yeh! They have it every period!

Said the professor, elbowing his way with much speed through the dense mob at the Coffee Corner on a Wednesday morning, as the students were all attempting to enter through the wide door of the bookstore at once to get their CYNICS, "A traffic cop is badly needed here!"

As per usual, an endless stream of students flowed over the walks to Chapel last Wednesday, and roaring waters filled the Chapel, filling every seat, every tiny space!

Breath while you may! And if you're one of those unfortunates who has make-up exams to take during the joyous Easter vacation, take especially long breaths! But few weeks remain before vacation and those exams!

TOURNAMENTERS

There were so many at the games the first night that there was hardly any air to breath left on the inside Humans were hanging, sitting and standing every place possible and some in places that looked impossible. The door to the gym threatened to be pushed down at 5.30 p. m. by the loyal rooters of the teams and there was a steady stream from that time until after the first contest had started. All three sessions of games the place was just jammed to the doors.

Spirit was flowing in abundance Every quintet was well backed by its loyal rooters with dishpans, tin horns automobile horns, megaphones and everything available to make plenty of noise. Different colored banners were in evidence and cheer leaders were bouncing about decked in the colors of their school. There was so much noise that it nearly pushed the roof from the structure. The games were so close that the people were cheering or groaning most of the time, sometimes standing, other times sitting. The spirit was probably the best seen in these parts for some time, except at certain times there was a little razzing

During the final fray something went wrong with the lights, and their was darkness for several minutes ex for a few lights from matches, flash lights or cigarette lighters

During the Cathedral-Springfield contest there was a near riot. However the angry mob was finally persuaded to go back to their places This was probably the hardest game that the officials had to handle during the entire tournament

Much credit must be given to the Springfield player as they were a clean bunch of players and never crabbed over a decision. They lost the game in a peculiar way, but were very good about it. Due to the unthoughtfulness of one of the Springfield substitutes the game was lost. He rushed on the floor before it was over

A lot of credit must be given Ollo of Cathedral who had to shoot the point that meant whether his team played an overtime period or not with Springfield. He was already to shoot when he was stopped by the referee. Then he allowed him to shoot and it went through without touching the rim. He saved that game for Cathedral by later putting in the basket that clinched the contest for the Greenand White

Zamielo, Black River's captain showed gameness when he played three-quarters of a game with a broken bone in his foot.

Cynic's All-Tournament TEAMS

FIRST TEAM

Tarro, left forward, Springfield
Crowley, right forward, Rutland
Dunn, center, Cathedral
Dressell, left guard, Springfield
Niles, right guard, Burlington

National Student Federation In Favor of University Fraternities

At the Third Annual Congress of the National Student Federation of [illegible] meeting at Lincoln Neb. a report was adopted which was an endorsement of college fraternities. The [illegible] Federation of America is composed of delegates and representatives from the student councils and student governing bodies from the colleges and universities all over the country. Every Third Annual Congress was attended by [illegible] which represented institutions from every section.

The discussion group whose topic was "The Fraternity and its Problems" was led by Park W. Judah president of the student body at Purdue and [illegible] of the Congress. This report of the discussion group in defining a fraternity as a social group, [illegible] and [illegible] and [illegible] together with [illegible] of more than common mutual interests, for the purpose of fostering the economic, social, scholastic and fraternal [illegible] of the individual members.

The fraternity was discussed from the standpoint of a problem to itself and from the standpoint of the problem which it causes. It was the general opinion of opinion that the fraternity was justified on the university campus for the following reasons.

1. Because it fills an economic requirement in a group of men mutually interested in the [illegible] and [illegible] unconsciously [illegible] the [illegible] interests of that group [illegible] as well.

The general trend in fraternities all over the country is toward sound economical building of their house [illegible] rather than toward the rule of [illegible] that has prevailed, and this trend is making the fraternity into a [illegible] importance to the university community.

The [illegible] of unreasonable [illegible] by local chapters was discussed and it was shown that although there is a tendency, with due reason behind it, for chapters to build [illegible] that there was a counter action on the part of university authorities and national fraternity headquarters, to discourage and limit such projects as [illegible] opposed.

It was unanimously determined that in a good many of the institutions represented on the discussion that the general scholastic average of fraternity men was higher than that of the all-university average, indicating that fraternities are a scholastic asset to the university. However, there seemed to be a tendency on the part of fraternity [illegible] to lower their average by immoderate participation in extra-curricular activities.

Extra curricular activities. It was thought that fraternities fostered a degree and percentage of participation in extra-curricular activities that is not to be found among a group relying solely on the initiatives of the individuals in that group; which participation leads to a very beneficial development in the student body as a whole.

As a problem apart from the justification of the fraternity, one peculiar to the fraternity itself, and yet one that might have serious bearing on what economic and scholastic benefits the fraternity might render its [illegible] and institutional community was the question of deferred rushing. It was thought that on paper the average system of deferred rushing looked particularly advantageous and that it had within it the solution of numerous perplexing problems, but that in actual practice in the majority of cases it did not altogether solve these problems and did give rise to more serious problems than those it tried to solve.

This report was accepted by the Congress at its general session.

Mother -Mary! I'm surprised that you let him kiss you.

Mary - Why, ain't he healthy?

—*McGill Daily.*

NEWS IN BRIEF

By Easter vacation the entire *Ariel* will be in the hands of the printer, and the proofs will be back by the time college opens again. The men's junior section has been sent; the medic and women's sections will soon be completed. Thus it is assured that the book will appear on the scheduled date, May 10.

What proofs have been returned by the publishers have been exceptionally good, so that it is practically certain that the *Ariel* will be much above standard this year.

The classes in wrestling have been discontinued. The members of these classes have now taken up the other forms of physical training offered, baseball and track.

The Lafayette Chapter of DeMolay will hold a dance in the Masonic Temple tonight at eight o'clock. The DeMolay orchestra will furnish music and admission will be one dollar a couple. Everyone is welcome, and DeMolays from other chapters are particularly invited.

Students in Mr. Crockett's class in [illegible] recently visited the *Free Press* newspaper building in this city.

The Grey Friars, the men's literary society, held a meeting in the Marsh room of the Billings Library last Friday evening.

The meeting of the International Club scheduled for last week was postponed and will meet Thursday, March 15.

Some person made the remark that St. Michael's College has a good chance of capturing the state title in baseball this year. Evidently, this person hasn't the slightest idea of what the Vermont nine will do this season!

Girl: "Why didn't you answer me?"
Boy: "I did shake my head."
Girl: "Well, I couldn't hear it rattle over here.—*N. Y. State Lion*

FOOTBALL SCHEDULES OF MIDDLEBURY, NORWICH

Middlebury and Norwich have announced their football schedules for the 1928 season. Both teams will play eight games starting September 29 and ending November 17. The opponents common to the Vermont State teams are Boston University on the Vermont and Norwich schedules, Springfield on the Vermont and Middlebury lists and M. A. C. on the Middlebury and Norwich cards, besides the usual State series.

The schedules:

		Middlebury
Sept.	29	Amherst at Amherst
Oct.	6	Williams at Williamstown
Oct.	13	M. A. C. at Amherst
Oct.	20	Springfield at Middlebury
Oct.	27	Norwich at Northfield
Nov.	3	Hamilton at Middlebury
Nov.	10	Tufts at Medford
Nov	17	Vermont at Middlebury

		Norwich
Sept.	29	Dartmouth at Hanover
Oct.	6	Providence at Northfield
Oct.	13	Colby at Colby
Oct.	20	M. A. C. at Northfield
Oct.	27	Middlebury at Northfield
Nov.	3	Vermont at Burlington
Nov	10	C. C. N. Y. at New York
Nov	17	B. U. at Boston

Ole Oleson, hanging on a strap in a crowded street car, lost his balance as the car rounded a curve, and sank slump into the lap of a lady passenger.

"Who and what do you think you are?" demanded the woman hotly.

"Har, har," chuckled Ole, "Aye taught Ay bane a Svede, but Ay am a Laplander, Ay guess."

CGILL NEWCOMER ON NEXT YEAR'S SCHEDULE OF BASKETBALL GAMES

mplete List of Games Are Now eady Except for a Few Minor Changes

basketball schedule for 1928-29 is rapidly nearing Hal" Mayforth, Graduate Athletics, has but a details to arrange and the schedule will be ready for to the University Athletic for its approval

ands now, the list is an im- over that of last season, ally the games coming prior to Christmas vacation.

season will open on December 8 Montreal A. A. A., opposing here A week later, Decem- McGill, a newcomer, will in- Burlington, followed closely by mouth on the 19th, this game also played in Burlington.

ew colleges begin active inter- competition before January As a result, it is generally difficult arrange a satisfactory schedule for to be played before the holidays. and Dartmouth as opponents satisfy the students and public

doubtful if the Yale Tourna- will take place next year. Until word is received, the tentative are January 1 and 2. As before, New York University, Yale, Vermont and Holy Cross will be the four teams part

The Crescent A. C. will not be next year if the Yale Tourna- is discontinued. However, such as Middlebury, Norwich, St. Springfield, Holy Cross and Connecticut Aggies will again be seen action and possibly Massachusetts Aggies and Upsala.

Of the teams that opposed Vermont year, the majority boasted ex- quintets, finishing their sea- well up in collegiate circles, with exception of the Montreal Y. M. A a decidedly total loss.

Springfield was especially outstand- A faster, smoother-working com- bination would be hard to find. Individually, the Catamounts were prob- ably superior, but the marvelous ordination that characterized Springfield's playing, giving evidence excellent coaching, was missing in local team. Holy Cross, which de- feated Vermont three times, also had a fine smooth-working five. Connecti- cut Aggies, after losing a fast game the local gym, travelled to Spring- field and handed that team a drub- bing. New Hampshire was good throughout the winter.

Middlebury, Norwich and St. Michaels did nothing startling. Mid- dlebury however, gave Vermont the worst trimming it was able to admin- ister to it in 12 years when the two met on the Middlebury floor near the end of the season. Middlebury made the basis of a claim for a share in the state championship, the only time in seven years that Vermont's claim has been disputed.

Although Vermont suffered an on- off season, it had a better collec- tion of individual stars, possibly, than any other college in New England, but something was missing and the lack of something spoiled what should have been the most successful basket- ball team Vermont has owned or will own for a long, long time.

NEWS IN BRIEF

For the benefit of several students who are considering aviation as their profession the Military Depart- ment has secured a pamphlet entitled "Cadets of the Air Corps." The pamphlet explains in detail the instruction given to flying cadets at the flying schools. It also shows the method of making application and the application required. Those who are interested in this training school may get the pamphlet at the Mili- tary office.

There will be an important meeting of the Outing Club on Friday after- noon at 4 o'clock in 3 North College. The constitution will be up for revision. All men are invited to at- tend the meeting.

The Chapter of Eta Sigma Phi held its regular meeting Tuesday evening, at which Cottrell, '29, spoke on "Chauffeurs."

HONORARY SCHOLASTIC FRATERNITY INITIATES

About sixty attended the annual in- itiation banquet of Vermont Alpha of Phi Beta Kappa Wednesday night. An address, "Religion and Science— a Dialogue and an Epilogue," was given by Professor H. E. B. Speight a member of the faculty of Dartmouth College in the department of philoso- phy. Professor G. V. Kidder was chairman of the committee in charge of the banquet

The seniors who were taken into Phi Beta Kappa at this time were Faith P. Baldwin, Mrs. Elizabeth War- ner Morrill, Theodore F. Rich, Muriel E. Richardson, and Cedric Wolfe

FACULTY MEMBER HEAD OF ORGANIZATION GROUP

At the meeting for Teachers of History and of the Social Studies, held during the Teachers' Conference in Burlington last October, there was a large and rather enthusiastic attend ance and it was suggested that a per manent organization of some kind should be effected and steps were tak en then for the appointment of a com mittee to make plans for such an or ganization and report at a subsequent meeting.

The responsibility for getting this committee together at a proper time and place was put in the hands of Pro- fessor Arthur I. Andrews, head of the Department of History at the Univer- sity of Vermont. A letter was sent to each of the persons selected, all but one of whom immediately replied ex- pressing their interest in the project and their readiness to attend a meet- ing in Burlington on a date set in November. Before this date arrived, however, the floods made travel in the State difficult and the meeting was therefore postponed.

In January, it was decided by the committee to meet at the time of the spring convention of teachers and con- sequently a meeting has been called for this Saturday, March 17, at the Ethan Allen Club, 298 College Street, Burlington. At 11 o'clock there will be an opportunity for visiting teach- ers of history to meet with this com- mittee and make any suggestions that they wish in regard to the new or- ganization. At twelve, this committee on organization will hold a luncheon conference at which definite plans for the future will be formulated. Al- ready suggestions for the agenda of this session have been coming in. It is expected that many of these ques- tions will have to be put over until the October meeting which will be the formal institution of the new organiza- tion. Those who are interested, should make every effort to be at the Ethan Allen Club on Saturday at eleven, in order to assist the commit- tee with such ideas as they have ready for consideration

PROFESSORS TAKE PART IN TEACHERS' MEETING

The twenty-third conference of the schools of Vermont with the Univer- sity, combined with the Champlain Valley Teachers' Association, is being held at the Burlington High School today and tomorrow. Several mem bers of the University faculty will take part. At the group conferences this afternoon, Professor S. E. Bassett, head of the Greek department will give an address entitled, "A Message from Some Ancient Teachers." Pro- fessor Catherine F. Nulty will lead the commercial round table discussion to- morrow morning, and Professor L. M. Prindle will be in charge of the group of Latin teachers, and he will speak on "The Teaching of Vocabulary and Derivatives." The head of the mathe- matics department at Vermont, Pro fessor Elijah Swift, will lead the dis- cussion in the round table discussion in mathematics, and the conference of teachers of modern languages will be under the leadership of Professor A. B. Myrick. Professor A. I Andrews is in charge of the conference and luncheon of history teachers.

Professor B. Holmes Wallace is a member of the executive committee, and the representatives of the Uni- versity on the conference committee are Professors Evan Thomas, E. C. Jacobs, F. B. Jenks, and B. C. Doug lass.

TEN MEN GET LETTERS AT BASKETBALL DANCE

Under the basketball management, a gala affair in the form of the annual Basketball Hop will take place at the gym tomorrow night. Dancing will be in order from 8:30 until midnight The management has decided upon an appropriate decorating scheme which will present a basketball atmosphere

The Algonquin Night Club Orches tra will be the evening's entertainers with Coach and Mrs. McAvoy and Doctor and Mrs. Aldinger as chaper ones.

During the course of the evening, basketball letters will be given out to those men to whom they were awarded by the Athletic Council. The follow ing men will receive letters: Captain Prentice, Price, Marvin, Estabrook, Palmer, Morgan, Pike, Halligan, Man- ning and Wallace.

The committee expects a large at- tendance of students interested in showing their appreciation of the players' work. This is the last time that three of the team will appear in their official capacity as Vermont basketeers. The admission is one dol- lar.

HONOR LIST FOR LAST SEMESTER ANNOUNCED

An honor list containing the names of all students in the Freshman and Sophomore classes who received a grade of B or above in all their courses has recently been posted on the bulle- tin boards. This honor list is posted there twice a year by the registrar's office, once as soon after midyears as it is possible to compute the marks received by the students, and again in the early fall showing the results of the last semester of the preceding col- lege year. The list is divided into two parts, Group A and Group B. Under Group A are the names of those students who have received no grade below A in any subject. Under Group B are the names of those students who have received no grade below B in any subject. This honor roll con- tains the names of Freshmen and Sophomores only.

Following is the list as issued by the registrar's office.

GROUP A
1930

Herrick M. Macomber.

GROUP B
1930

Lorraine Asselin, P. B. Baker, E. C. Ball, R. S. Beck, Georgia Bostwick, E. O. Bundy, Alice Dean, A. L. Fre- chette, Mabel Freeman, Harriet How- ard, Susan Howard, Magdalene Orvis, E. H. Powell, F. V. Rich, Joyce Rich- ardson, Anna G. Tracy, and Julia Waterman.

GROUP A
1931

Jettn Buckley.

GROUP B
1931

Dorothy Brown, G. R. Brush, Jr., Lena Cochran, L. M. Foster, Harriet Johnston, C. W. Knapp, L. Lisman, Esther Mandigo, J. B. Vander, and Jean Wappler.

ORGAN RECITAL SUNDAY IN UNIVERSITY CHAPEL

Miriam Natalee Marston, instructor of piano and organ, gave an organ recital last Sunday afternoon in the Ira Allen Chapel. Miss Marston played the following beautiful selections:

Toccata and Fugue in D Minor	*Bach*
Soeur Monique	*Couperin*
	Grasse
Serenade	*Guilmant*
Cantilene Pastorale	*Franck*
Piece Heroique	*Karg Elert*
Clair de Lune	*Torjussen*
Midnight	*Lemare*
Dawn	*Stoughton*
Within a Chinese Garden	*Vierne*
Finale from the First Symphony	

The recital was attended by an at- tentive audience of fair size, made up mostly of townspeople, with a handful of students intermingled.

ANDREWS WILL COACH ANNUAL SPRING PLAY

At a meeting of the joint committee of Wig and Buskin and Masque and Sandal Societies, Tuesday evening, Max Andrews was selected to coach the Junior Week play Mr Andrews formerly a member of the University faculty, has had a wide experience in this line, both in coaching public speakers and plays. Many students will be familiar with his work, inas- much as he coached a play for the Theatre Club last year The committee meets again next Tuesday, and it is expected that at that time the play will be selected in order that tryouts may be held before the Easter recess, and rehearsals may commence immedi ately after the reopening of college.

STUDENTS MAY VOTE FOR NEXT PRESIDENT

Republican and Democrat aspirants for presidential nominations are anxi- ously awaiting the outcome of the primaries in the various states this month. Along with this the *Inde- pendent Magazine* is conducting a uni- versity poll on the favored candidates in the larger universities of the coun- try. Vermont has been asked to par- ticipate in this national student poll and during the next week a count will be taken of the student's choice for the next president.

To make the decision easier for the students and to give them an idea for whom they will vote the CYNIC will run a series of articles on the aspir- ants of both major parties on one of the inner pages of the paper.

Among the most prominent aspir- ants for the Republican nomination are: Senator Curtis, Vice-President Dawes, Secretary of Commerce, Her- bert Hoover and Lowden.

The Democrats wishing the nomina- tion include, Governor Alfred Smith, Governor Doheny, Senator Reed of Missouri, Governor Ritchie of Mary- land and Senator Walsh of Montana.

FRATERNITY INITIATIONS

PHI DELTA THETA

Vermont Alpha of Phi Delta Theta held a formal initiation at the chapter house on Saturday, March 10, 1928. A large representation of alumni were present at this ceremony, by which the following men became full mem- bers of the fraternity: R. F. Bigwood '31, Winooski; R. T. Krogh '30, Omaha, Neb.; W. M. Sargent, Jr. '31, Morris- ville; C. W. Walker '31, Belmont, Mass.; and T. S. Webster '31, Shel- burne.

SIGMA NU

At a formal initiation held at the fraternity house on March 10, 1928, Beta Sigma of Sigma Nu initiated nine men into the fraternity. Those who were on this occasion admitted to full membership were: M. R Covert '31, New Britain, Conn; R. A. Dailey '30, Derby; S. F. McQuestion '31, Law rence, Mass.; R. J. Maynes '31, Wood- stock; W. J. Slavin '31, Horseheads, N. Y.; H. C. Smith '31, Stockbridge, Mass.; C. A. Steele, Jr. '31; Gloucester, Mass.; D. J. Vignone '30, Franklin, Mass.; P. G. Willets, Jr., '31, West Hartford, Conn.

The March séance of the Cercle Français was held Monday, the 12th, at the Vermonters' Club rooms. The French instructors turned out better than the French students; however, a pleasant evening was spent in French conversation and games. Mr. Doyle, instructor in the Romance Language department, entertained for several minutes by telling about his experi- ences in French. He also directed one of the games. Any student majoring in French or otherwise interested in the French club is invited to attend the meetings. There are no special memberships or initiation.

Tryouts for the principal rôles for both men and women in Gounod's comic opera, "The Mock Doctor," to be given by the Men's and Women's Glee Clubs, were held in the music building last Wednesday, March 14, at 4 o'clock. Candidates for the rôles of Squarcelle, Leandre, Martine, Lucu cele, and Jacqueline were tried out at this time. Although some excellent material tried out, no decision was reached. There will be further try- outs for all parts on Tuesday evening, March 20, at 8:00 P.M. in the music building. Copies of the necessary dia- logue may be obtained in the writing room of the music building.

SENIOR CLASS CHOOSES REPRESENTATIVES TO GIVE LAST FAREWELLS

Last Year Students Elect Conway to Give Address to Under- graduates—Leary Founder's Day Speaker

Wednesday afternoon at 4 o'clock, in the Old Chapel, Class Day speakers for the 1928 Commencement were elected by the Senior class

J. T. Conway was chosen to deliver the Address to Undergraduates Con way is a Sigma Phi man, is a member of Boulder, president of Scabbard and Blade, Major in the R. O. T. C. bat talion, and has played football for the last four years. He also captains this year's baseball men

The address to Ira Allen will be given by J. M. Leavens. Leavens is a Delta Psi man, is president of Tau Kappa Alpha, has been a member of the debating team for the last two years, and is a Cadet Lieutenant

L. A. Hince, who will deliver the address to Lafayette, is a member of Lambda Iota and has also spoken on the debating team the last two years.

W. F. Reagan, a member of Phi Mu Delta, who was business manager of the 1928 *Ariel* and has been prominent in class activities, was chosen to give the Pipe Oration

E. A. Lucchina will deliver the Campus Oration. Lucchina is a mem ber of Sigma Alpha Chi, was manag ing editor of the CYNIC, is president of Pi Delta Rho, is a member of Wig and Buskin, and is secretary of the newly-organized Grey Friars.

Founder's Day speaker will be L. G Leary, Jr. Leary is a Kappa Sigma man, is a member of Scabbard and Blade, battalion adjutant, president of the John Dewey Club, vice-president of Grey Friars, and a contributor to the *Vermont Literary Magazine*.

Class Marshall will be H. C. Col lins, a member of Phi Mu Delta, and Boulder, a Kake Walk director, and manager of freshman football.

Eleanor T. Lockwood was elected Class Historian. She is a member of Kappa Alpha Theta, is secretary of Student Union and is a member of Mortar Board

Class Poet is Laura T. Bliss, a mem ber of Kappa Alpha Theta, president of Bluestockings and an editor of the CYNIC.

Delia E. Martin will deliver the Ivy Oration. She is a member of Pi Beta Phi, president of Mortar Board and was president last year of Student Union.

CATAMOUNT MARKSMEN WIN SEVERAL MATCHES

Vermont's rifle team is forcefully demonstrating its ability to hold its own even with colleges of a more mili- tary nature than the Green and Gold. For the week ending March 10, the rifle team shot six matches and is known to have lost but one and that to Norwich. These matches were shot under the auspices of the New Eng- land League of the National Rifle As sociation. As yet, Williams and Dart mouth have failed to turn in their scores. Amherst forfeited. Following is the score of the contest:

Vermont	1230	Norwich	1316
	1340	Amherst	0
	1347	Worcester	
	1271	Boston	
	1376	Williams	
	1376	Dartmouth	

Intercollegiate matches were also shot. Vermont was victorious in every one of these matches. The score is as follows

Syracuse University 1359 to Ver- mont's 1381. With a score of 3667 the Green and Gold marksmen de- feated Massachusetts Agricultural Col lege 3233; Cornell, 0; Davidson Col- lege, 3384; Nebraska University, 3559; Rhode Island State 3569.

On March 17 Saturday, the Cata mount marksmen will fire a match with Massachusetts Institute of Tech nology who is at present leading in the National Rifle Association's New England League Norwich is second, and Vermont third If Vermont wins this match, they will be tied for first place with M. I. T. If they lose they will remain in third place

STUDENT POLL

In view of the fact that the college students of today are the voters of tomorrow, and that a national campaign is under way to select candidates for the Republican and Democratic nominees for president, the *Independent* is conducting a student poll among college students. This is significant, and the conscientious student will vote after considering each candidate carefully.

One of the criticisms of American Democracy today is that manhood suffrage results in a preponderance of unthinking or unintelligent voting and the absence of the people who should vote. Votes are said to have been bought and sold or traded for offices. College students are free from this desire, they should have the intelligence to vote for the man they consider the most capable for the office. The expression of the candidates selected from the universities and the candidates selected at large will make extremely interesting data for future reformers of suffrage in the United States.

The Cynic believes that the students of this University are interested enough to cooperate to gain a representative poll. To aid in the students selection of candidates this paper is to conduct an instructive series of articles on the activities of the most probable men. During the latter part of next week, ballots will be furnished and every student is requested to vote for the candidate he favors for the presidency. The results will be sent to the *Independent* and a complete poll of all the participating universities will be published in the near future in the Cynic columns.

From observation of the Vermont newspapers the candidate most favored by the people of this state appears to be Herbert Hoover unless President Coolidge will consent to be drafted. Dawes and Lowden have their following in the Middle West, although Hoover is said to be strong in some of these states. The remainder of the list of candidates are either "favorite sons" or men of national repute, capable of carrying some districts.

In the Democratic party Governor Alfred Smith of New York, appears to have the strongest following, although Governor Ritchie of Maryland and Senator Walsh of Montana have followings in their respective regions. One-half of the Vermont delegation cast their votes for "Al" in the selection of a Democratic nominee in that historical convention held in 1924 in New York City.

The next issue of the Cynic will be the annual women's issue. At that time the new women's editor comes into office. Much praise must be given to the outgoing editor for her capable direction of the women's department during the past year.

Chapel attendance, although nowhere near the amount it should be, appears to have increased because of the publicity on the bulletin boards and in the fraternity houses. Knowing who he is going to hear attracts the student who remains away simply from inertia.

OUR FACULTY

SAMUEL E. BASSETT

Prof. Samuel E. Bassett, professor of Greek language and Literature since 1905, was born at Wilton, Conn., August 11, 1873. Graduating from Yale A.B. the succeeding year, he spent the next four years in study at Yale graduate school, the University of Berlin, and the American School of Classical Studies, at Athens. Before coming to Vermont, he was an instructor in Greek at Yale, and a tutor in Greek. He received the degree of Ph.D. from Yale in 1905. In 1903, he married Bertha Raymond of New Haven. Prof. Bassett holds a prominent place among the classical men of the country, he being a member of the American Philological Association, of which he was president in the year 1923-24, the New England Classical Association, the Association of American University Professors, the Linguistic Society of America, the Classical Association of Great Britain, and the Managing Committee of the American School of Classical Studies at Athens. He is also a member of Alpha Delta Phi, Delta Psi, Eta Sigma Phi, and Phi Beta Kappa.

THE DAILY CHRONIC CALL

An Affair of Europe

The Count walked up and down, his eyes on the floor. Suddenly an idea popped into his head and turning his eyes to Margarite he flung out, "Well, do you think I can stand all this and keep my mouth shut? The truth is sure to crop out in time. Every time that I walk among people my ears burn and my heart is in my mouth."

Margarite, with great control, held back her anger and quietly remarked, "What of me, do I not deserve credit for keeping a cool exterior? You make my blood boil when you talk to me like that, as if you alone had suffered. What if they do know that you are a Count?"

"But my enemies would throw sneers, aye, even sniffles, at me. I, who once held the throne of Petrograd, I mean St. Petersburg, I mean Leningrad—what name is attached to the place now, Margarite?" queried the Count chokingly, his collar button leaping up and down.

Margarite grasped the Count's dilemma. "Why can't you hold the throne now? Surely you have the same strong way as in the days when men were men, etc., haven't you Arthur? I think you a noble man."

"No," whimpered the Count, "I can never no more hold the throne of St. Lenninburg, I mean Paint Lenningrad or whatever it is, because, well, because you see, er, well, they sold the damned thing."

ADVERTISING SECTION

Sale—Will sell cheap, "The Love Affairs of Helen of Troy." The whole fifty-eight volumes are bound in tripe skin and embossed.

Car in good condition by owner with all accessories who is leaving for the west.

Wanted—Farm hands to plow and furrow.
(Bad for the nails.)

By C. L. Morse '30

Dr. A. L. Larner and Dr. Arthur Hogan left Burlington Tuesday, March 13 for Europe. They expect to study internal medicine in Vienna.

Dr. French and Dr. Ravey are leaving this country for Europe sometime during April. Their destination is also Vienna.

The Phi Chi medical fraternity will hold an Alumni banquet March 21, in honor of Dr. John Wheeler, Professor of Surgery. Dr. Wheeler is one of the oldest living members of the Phi Chi and at this banquet a silver loving cup will be presented to him in appreciation of the work he has done for the mother chapter of Phi Chi.

Many medics are being drafted by the academic fraternities to run in the college interfraternity relay races.

BOOK REVIEW NUMBER

Pre-Med(itation) by Doctor Founded
Characters:

Sue Oligy
Pete Atrics
Si Koligy
Phil Lossiphy
M. Bryology
Sim Ptomatology
Ann Esthetization
Hugh Genics
Kay Daver

Pre Med(itation) is really a review of "stiffs," the author having secured most of his material at the American Legion dances. Ann Atomy is a Swede little girl who hails from—well, from her window every time a youth passes. One day, when Sue Oligy, her girl friend, is visiting her they both poke their heads outside just as two Kollege-Kut-Klothed shieks are passing (not in their studies).

"Can a fat girl lean from a window?" demands Phil. Si does not choose to answer.

"But," remarks Hugh Genics, appearing suddenly on the scene and therefore among the seen, "I noticed a funny thing in Military today. The lieutenant kept saying, 'Detail—Attention!' Now what I want to know is why they give so much attention to details in the army."

"Don't mind him," says Ann. "He thinks a lot—of himself!"

"Let's all go the—the lab," suggests Pete Atrics.

On the weigh, as they pound the pavement, their discussion naturally turns to Mathematics.

"You know," remarks Kay, "I think all math teachers, especially those teaching analytics, are perfectly horrible. Why, they're *always* plotting something. And the crude way in which they discuss curves—"

Finally, they arrive at the lab.

"This place, Ann announces, "always reminds me of Granite Street, Barre. They're all either pickeled or dead."

"Barre, I'll have you know," defends Phil, "is the Queen City of Vermont."

"God save the King!"

"How about the Jack?"

"Oh, there's plenty of that; most of 'em are bootleggers."

"Stop! This is going much too far," exclaimed a taxidriver as he skipped the curb and smashed the window at L. P. Wood's.

A policeman approaches, having left for the first time in three hours, his post in front of the *New* Sherwood, where he kept a ready eye peeled (sure, you can peel the apple of your eye!) for all attempts at pick-ups by Converse Hallites.

"What's the charge, officer?"

"Dynamite, it seems. What were you trying to do—crash the gate?"

"No. Blame it on the Co-eds. I didn't see where I was goin'."

"Ah, I see you were in the Army; you know all about peep sights. What did you do during the war?"

COLLEGE HUMOR

Teacher—"I'm surprised, Sammy, that you can't tell me when Columbus discovered America. What does the heading of the chapter say?"

Sammy—"Columbus, 1492."

Teacher—"Did you ever see it before?"

Sammy—"Yes, but I also saw it was his telephone number."

TOODLEOO'

Two people
Two dates
To-night
Two exams
To-morrow
Too bad.

"I trained with the local [illegible] at the Vermont gym."

"You may go, my man, I have suffered enough. Next [illegible] case! What, Gooch, did you tell Frosh to kick me?"

The scene next shifts to the [illegible] and the referee and umpire [illegible] out to determine whether or not sufficient pause was taken during the manoeuvre.

"What's in this bottle?" asks Sap.

"No thanks, I don't indulge," Kay. "Dean Patterson really [illegible] countenance it, don't you know."

"S'all right," he gulps, "I'll do the best I can." He does nobly.

"What an awful pill!" exclaims Sap as a doctor leaves the room.

"Did you mean me?" demands Pill.

"Heavens no. I was just referring to a quinine tablet."

"Well," says the divorce court judge in the closing paragraph, "Sue your wife!"

Never Gets a "Bite" From This Tobacco

Jasper, Tenn.
March 23, 1927

Larus & Bro. Co.
Richmond, Va.
Gentlemen:

I have always wanted to smoke a pipe. After several attempts I gave my "taste" up, for with each trial I got a blistered tongue.

One evening, when looking over a certain outdoor magazine, I read that a certain fisherman could catch more fish when using "Edgeworth," so I decided I would try "his" tobacco for I am no poor fisherman!

The next day I tried to secure Edgeworth. The local country storekeeper did not have it, so I sent by a friend to the city for my first Edgeworth. Two things have happened: I still smoke Edgeworth, and the local storekeeper always has a supply.

I catch fish and never get "a bite" from Edgeworth!

Yours for keeps,
H. V. Massey

Miss Mary Lou Leslie, national inspector of Kappa Delta is a visitor of the local chapter.

There is a little college in the Middle West where all of the students have just killed themselves. Possibly the faculty had just passed a ruling prohibiting suicide.—*Cornell Widow.*

UNION FOR STUDENTS

In Germany, directly after the war, there grew up in the universities well organized student groups that gathered together all the money they could to help those whose family fortunes had been depleted to finish their education. In buildings of the university, or any others available, they set up cafeterias, lounges and recreation halls run by the students in order to assist others more in need. The days of extreme poverty have passed, but the student unions are still flourishing.

Although their main object is still to help those who have little money, they are gaining a new significance. In the dining halls and the recreation and meeting rooms there is mingling of students who would have never known each other at all with the Korps as the exclusive social unit.

The same idea of having one building for a cafeteria, the meeting places of all the various student organizations, and lounging rooms equipped with reading material has been used in American universities, to great advantage. An outstanding example is the Willard Straight Hall at Cornell which was built a few years ago.

—*Fordham Ram.*

Vermont barely outstrips Massachusetts in the number of students enrolled at Norwich University, it is revealed by figures appearing in the catalogue for the University's 109th year. In a total enrollment of 314 students, the Green Mountain State claims 123. One less than that number come from Massachusetts whose total is 122. The catalogue, published under the direction of Dean H. R. Roberts as a supplement to the current issue of the *Record*, Norwich alumni publication, carries a complete table showing the geographical distribution of cadets by classes together with the number of students in the various courses.

The Great Northern Electrification

Where do young college men get in a large industrial organization? Have they opportunity to exercise creative talent? Is individual work recognized?

* * *

SKYWARD from Skykomish climbs the Great Northern in Western Washington—up twenty miles of 2.2 per cent grade, around sharp 10-degree curves, scaling the Cascade Mountains, at an elevation of 3000 feet. The new 7¾ mile electrified Cascade Tunnel, now building, will be the longest railroad tunnel in America. Besides shortening the present route 7½ miles, it will bring the maximum elevation below the level of excessive snowfall. Preliminary to its construction, and as an earlier step in the ultimate electrification of all trans-Cascade trackage, the section between Skykomish and the entrance to the present tunnel was electrified in 1925.

The big jobs go to big organizations. Westinghouse attracts young men of enterprise and genius because it daily provides facilities and opportunities which smaller companies can seldom offer.

* * *

A noteworthy feature of the Great Northern electrification is the use of motor-generator electric locomotives. These new-type locomotives draw high-voltage alternating-current power from the wire and convert it, on the locomotive, into low-voltage direct-current power for the driving motors. This system eliminates the need of sub-station power-converting equipment along the railroad right-of-way

Westinghouse

PRESIDENTIAL ASPIRANTS

HERBERT HOOVER

(From Christian Science Monitor)

Mr. Hoover's beginnings were as humble as those of any star who has figured across the firmament of Administration. He was born to the village blacksmith of West Branch, Ia. His father was a descendant of Irish descent. His mother a Quaker preacher. Before he reached the age of 7 both had passed on.

Relatives took him under their wing and carried him to Salem (Ore.) where they saw to it that he received a good education. Young Hoover showed an aptitude for mathematics and at the age of 17 entered Stanford University. He was graduated in the first class to receive diplomas from the institution. He chose mining engineering as a career, always remembering the good counsel of his mother to "be honest and square with your fellow men."

Clerk to World Reputation

It took Herbert Hoover but a few years to rise from a clerkship to a position as one of the leading consulting engineers of the world. He had charge of operations in Australia, China, New Zealand, India, Mexico, Europe and the United States. Each year would see his return to London with the beginning of a new venture. In 1908 something like 175,000 men had worked for his enterprises under his direction and under a million others. Harbors, railways, cities even were created under his aegis and when the World War broke out the name of Hoover was known wherever in the profession of mining.

In early summer of 1914 found Mr. Hoover in London where he had gone to collect the interest of several foreign governments in the Panama Pacific exposition, held the following year in San Francisco. While he was there war broke out and at once his services were enlisted by Ambassador Page to help relieve and repatriate stranded Americans.

Career Started in 1914

That period marked the end of Mr. Hoover's professional career and the beginning of his public service. From that time to this he has never received a penny for any of his services, except the salary given by the United States government to one of its Cabinet officers.

Of the relief work that he performed during and after the war, of his services as United States Food Administrator, so much has been recorded that it would be futile for me to try to cover the same ground in this brief sketch of the man.

JAMES A. REED

(From Christian Science Monitor)

Termed an outcast by his party in 1920, Senator James A. Reed of Missouri, bitter-end opponent of the Wilson policy of international co-operation, has the unanimous indorsement of the Missouri State Democratic Committee for the presidential nomination by that party. Jim, as he is known to his friends, had a good political start by being born on a farm. The location of the farm was politically perfect—it was in Ohio, near Mansfield. Three years after his birth, which occurred on September 9, 1861, the family moved to Iowa and settled near Cedar Rapids. Not long afterward, the large flock of sheep which they had taken with them dwindled down to nothing, and the rosy dreams of the Reed family vanished. John A. Reed, the father, passed on when James was a youngster. He left a mortgaged farm, a widow and six children, the oldest 14.

James had learned to drive a drag on the field by the time he was 7. At 14 he was doing a man's work nine months in the year and going to school in Cedar Rapids the other three.

After an irregular attendance at the Cedar Rapids High School for four years, Reed entered Coe College in the same town.

Won 99% of Suits

Reed in 1887 married Lura M. Olmstead of Cedar Rapids and in the same year moved to Kansas City. Weathering the collapse of a boom, he built up a large law practice and became an outstanding figure in Democratic politics. He was appointed county counselor in 1896 and won every suit brought against the county. Elected prosecuting attorney on the strength of that record, he achieved the amazing total of 295 convictions out of 297 cases tried during his 15 months in the office.

Senator in 1910

In 1910 Reed defeated David R. Francis of St. Louis for the Democratic nomination for United States Senator and was elected. It tells something of his ability as a campaigner to recall that he has never been beaten on a direct appeal to his constituents; all his political defeats have been at the hands of conventions.

The first serious clash of the strong-willed Missouri Senator with the equally strong-willed President was brought on by the latter's demand for quick passage of the Federal Reserve Bill.

The hostility to him reached its climax in 1920, when the Missouri State Democratic Convention denied him election as a delegate-at-large to the National Convention at San Francisco and the National Convention, going a step further, refused to honor his credentials as a district delegate from Kansas City.

ALBERT C. RITCHIE

(From Christian Science Monitor)

It was no political accident that Albert C. Ritchie should have broken all precedents by achieving re-election as Governor of Maryland in 1923, nor was it a political phenomenon that he should compound the fracture by achieving a third term in 1926.

Ritchie ran for Governor in 1919—his first race—he was elected by the remarkably slender majority of 165 votes. And it was this same man who had squeezed into the governorship by a hair's breadth, who four years later braved precedent and tradition and offered himself as a candidate for a second term. Doubtful Maryland, which meanwhile had been carried by Warren G. Harding and which had elected another Republican United States Senator, not only re-elected Ritchie, but increased his majority from 165 to 41,000.

Of Distinguished Family

He comes from excellent stock—patrician stock one might call it. His father was a distinguished jurist of Maryland and his mother a Virginia Cabell, a family celebrated for famous sons and brilliant daughters. Senator William Cabell Bruce of Maryland comes from this same stock.

After taking his degree at Johns Hopkins University, Ritchie graduated from the University of Maryland Law School and began the practice of law in Baltimore in 1900. Three years later he was appointed assistant city solicitor of Baltimore, resigning after seven years service.

The first serious effort was then being made by the state to enforce its right to regulate the public service corporations. Mr. Ritchie as People's Counsel conducted the first great contest before the commission and carried it to a successful consummation. This triumph made Ritchie a state figure and in 1915 he was nominated in the direct primary on the Democratic ticket for Attorney-General and was elected by a majority of 25,000.

Favors States' Rights

He proposes to go back to states rights and to local self-government for the remedies which he believes conditions of today demand. The first of these to his thinking is prohibition and its effects upon the nation. He is catalogued as a wet and is a wet in the popular meaning of the term.

CABINET CREATES FUND FOR EDUCATIONAL WORK

Next year, the University Y M C A cabinet will create a fund to be used in foreign educational work either in India or South Africa. This idea had its origin at one of the intercollege Y M C A conferences. The University of Vermont delegate kept it in mind and in one of the joint cabinet and advisory board meetings, he brought up the idea for general discussion.

The findings were very favorable, but accompanied with the proviso that the preliminary demands stay below certain specified figures.

The custodian of the fund will be a Vermont alumnus. As yet, the names of the two possibilities are withheld until further investigation can be made.

Several of the New England Colleges support similar projects, so the idea is not entirely original with Vermont students. Amherst contributes 1800 dollars a year for the support of educational work in Japan. Williams College contributes 500 dollars toward a project in China. The University of Maine raises 1000 dollars a year for work done in Smyrna, Turkey.

Harvard to Have Swimming Team

For years Harvard has been the only large Eastern college which does not maintain a swimming team. This has always been attributed to the lack of proper facilities. Announcement was made last week, however, that an anonymous donor had given a large sum of money for the construction of a swimming pool.

TENNIS PRACTICE STARTS

With six letter men to back him Coach Carpenter can look forward to a successful tennis season. Until now practice has been light, but with the basketball season over it will begin this week in earnest on the gym floor. There is hope that some new and promising material will appear. The veterans who are back are: Captain Baldwin, Graves, Shedd, Taylor, Borkland and Goddard. Manager Gould announces a schedule that will provide plenty of action, and we can expect to see some fast matches on our courts. The schedule is as follows:

May	8	Dartmouth at Hanover
	12	Boston University at Burlington
	15	Norwich at Northfield
	16	Middlebury at Burlington
	17	Norwich at Burlington
	19	St. Stephen's at Burlington
	25	Worcester Tech at Burlington
	26	Tufts at Burlington
	29	Middlebury at Middlebury

Literary Traditions of Princeton Challenged

Princeton University:—The traditions of Princeton have been challenged! As a result of an editorial by Ernest Boyd's "Literary Blasphemy" printed in *The Daily Princetonian*, which seems to have stirred the ire of the Princeton intelligentsia, the editor of that paper has been flooded with bitter criticisms.

The editorial even aroused a member of the faculty who wrote that an intelligent undergraduate a few months before graduation can display naivete and frankness (in other words ignorance and impudence) to be more scholarly and accurate (in other words, less being serious and honest) than the college has failed and all the teachers of the humanities have failed.

An undergraduate adds the sarcastic comment: "You have also pointed out the fact that the cream of the campus literary talent is to be found in the editorial board of your paper."

"Will you have pie, sir?"
"Is it customary?"
"No, it's apple."—*Norwich Cadet*

The Vermont Cynic

VOLUME 46 — BURLINGTON, VT., TUESDAY, MARCH 20, 1928 — NUMBER 40

WOMEN'S NUMBER

WOMEN'S DEBATING TEAM GOES TO MIDDLEBURY FOR ANNUAL CONTEST

Debate to be Held as No Decision Affair Conducted According to American Style on Nicaraguan Policy

A women's debating team, consisting of Esther Nelson, '29, Lena Cochran and Ethel Blake, '31, will go to Middlebury March 23 to uphold the affirmative side of the question, Resolved: "That this house condemns the United States' policy in Nicaragua." The debate will be a no decision debate according to American style.

The most important debate to be held this year will be one with the University of Maine, which will take place on March 27 at Rutland. Frances Howley, '29, and Janice Goodrich, '30, will uphold the policy of President Coolidge in Nicaragua. Three neutral judges will be selected. The American style of debate will be used.

It is probable that an open forum will be conducted after both of these debates.

On Thursday, December 8, a team composed of Frances Dimick, '28, Lena Klein, '29, and Edith Thomas, '29, debated against the women's team of the University of West Virginia. For the first time in this college the Oregon style of debating was used. The question was, Resolved: "That this house condemns the use of armed force by our Government for the protection of investments by its citizens in foreign lands, except after formal declaration of war."

In accordance with the Oregon style of debating, the audience voted twice; once before the debate on personal belief and later, to indicate whether or not their convictions were changed during the course of the discussion. A check-up on the audience vote revealed that before the debate 31 were undecided, 28 were in favor of the affirmative and 20 upheld the negative. After the debate 14 changed in favor of the affirmative and 12 in favor of the negative. Eleven remained undecided. The debate, which was the first women's debate held at Vermont this year was well attended, which shows that the college students have at least a little interest in debating.

The members of the women's debating teams are all well qualified for their positions and it is to be regretted that they have not been given more opportunities to display their forensic ability. However, it is hard for Mr. Moore to coach both the men's and women's teams, as well as attending to his duties as instructor. Also, there is a lack of enthusiasm among the women of the University when debate candidates are issued. Several debates have been arranged by Mr. Moore for the women's team, but through conflicting dates and other causes all but three were cancelled by the competitors. It is hoped that next year more debates will be scheduled as Burlington and thus better opportunities will be given to the students of the University to hear debates on current questions.

PERENNIAL BASKETBALL DANCE BIG SUCCESS

About 400 couples attended the annual Basketball Hop held last Saturday night from 8:30 P.M. to 12 in the University gymnasium. Syncopation was furnished by the Algonquin Orchestra. Dr. and Mrs. A. K. Allen, Coach and Mrs. W. V [illegible] acted as chaperones.

For several years this dance has been in charge of the manager-elect, but this year the manager, C. F. Castle, '29, ran the Hop. This situation was due to the fact that basketball elections had not as yet been held because the equipment has not been

SLADE DORMITORY

To be built this spring, south of Robinson Hall by McKim, Mead and White, designers of the Ira Allen Chapel.

Proposed New Women's Dormitory to be Adjacent to Redstone Property

Ground will be broken this spring for a new women's dormitory, to be known as the Slade Cottage. Architects from the firm of McKim, Mead and White, who designed and built the Ira Allen Chapel have perfected plans for this new building, which will be constructed on the land south of Robinson Hall.

The new dormitory is to be a charming three-story white Colonial house, with green shutters and with wide Colonial doorway. The plans call for a large reception hall, and individual rooms, 9 by 12 feet, for 26 women.

Slade Cottage was made possible through the will of the late Mrs. William Gery Slade, who, in memory of her daughter, Mrs. Harriet Slade Crombie, bequeathed to the University $50,000.

Mr. William Mitchell Kimball, President of the firm McKim, Mead and White of New York City, has made three visits to the Redstone property in order to study its potentialities. Professor G. P. Burns of the Botany Department has spent much time there with a view to the possibilities of landscape gardening.

Since the purchase of the Buell estate of 66 acres in the fall of 1921, the administration has considered plans for concentrating women's activities in this unparalelled location. With a women's gymnasium, athletic fields, additional dormitories, and fraternity homes grouped around Redstone as a nucleus, there is strong evidence that a new campus at South Prospect Street will be the most important feature of the University of the future.

MARION B. POTTER TO LEAD CO-ED CHRISTIAN SOCIETY'S ACTIVITIES

Florence McKenzie to Serve as Vice-president—Georgina Hubert, Secretary

Y. W. C. A. in the recent elections chose Marion B. Potter, '29, of Middlebury to lead its activities for the coming year. "Joe" is a member of Alpha Xi Delta Fraternity, of Dramatic Club, and was treasurer of Y. W. during the past year. She has served on a House Committee for two years. Other officers are: Florence A. McKenzie, '30 of Hinesburg, vice-president; Georgina Hubert, '31, of Hartford, Conn., Secretary; and Margaret D. Parry, '30, of West Pawlet, treasurer.

The cabinet, which controls the policy and transacts the routine business of the Association, is made up of the officers and the heads of committees, appointed by the retiring and new presidents. These cabinet members will be selected soon and asked to pick their own committees.

Philanthropy

Among its activities, Y. W. C. A. sends delegates to conferences, brings speakers to the Vermont campus, and aids various organizations in and out of the city by money and service.

Every year, one hundred dollars is sent to a Women's Medical College in Vellore, India. There is an annual amount pledged to the Dean Wasson Memorial Fund, and this year a donation was made to the Flood Relief. Ten girls went to Silver Bay on Lake George in June, 1927, and a part of the expenses were paid from the treasury. In the fall of 1927, two delegates were sent to a week-end conference at Northfield.

In the city the work consists in cooperating with such organizations as may desire the aid of Y. W. C. A. Parties are given at the Orphanage and the Old Ladies' Home, and the

(Continued on page 3)

DOROTHY COTTRELL TO LEAD DRAMATIC SOCIETY

Dorothy Cottrell of Boston, Mass., was elected president of Masque and Sandal at a meeting held in the Marsh Room of the library Friday evening. She has been prominent in dramatics since her Freshman year, playing memorable rôles in "The Goose Hangs High," "Captain Applejack," and "Bab," 1927 Junior Week production. As the Duchess of Berwick she played a stellar part in the most recent of college theatricals, "Lady Windermere's Fan."

Beverly Householder was elected vice-president; Mabel Freeman is secretary; and Estabel Perelman, treasurer.

Muriel Cleveland, retiring president of Masque and Sandal, was elected as a member from the society to sit in on the try-outs for the Junior Week play.

PLANS FORMULATED FOR ANNUAL LILAC PAGEANT

Mortar Board has already formulated plans for Lilac Day, the biggest function that it performs being to perpetuate Dean Wasson's great contribution to the University.

Marion Backus, '29, has been chosen chairman of this May fête.

Lilac Day has become an annual event, and serves as a memorial to the woman whose ideals and service have ever been sacred to Vermonters. The festival, with all of its attendant pageantry of beauty and color, is a fitting token of respect to the joyous spirit of its founder.

The pageant, written by Florence G. Smith, '27, was used last year. Because of the beauties of nature and the ideals of service which it brings out, the pageant is to be used permanently. The principal character will be chosen by popular vote.

This year the Lantern Walk, in which all college women participate, will occur for the first time. Lilac

(Continued on page 5)

Catherine Bassett To Lead Women's Student Union

Vermonters' Club Merged With Union During Past Year—Janice Goodrich, as Vice-President, to Supervise "Big-Sister" Movement

DRAMATIC CLUB ELECTS NEW YEARLY OFFICERS

Dramatic Club, at a meeting Friday afternoon, elected the following officers for the coming year: President, Charlotte Cleveland, '29; vice-president, Marion Baldwin, '29; secretary, Agnes Wheeler, '29; treasurer, Lucy Morgan, '29.

Interest in dramatics has increased so much that there have already been suggestions for the acquisition of a Playhouse. The quality of the plays has increased proportionately. As more people try out for the class plays, presented annually by this group of women students, it will perhaps be possible for a more ambitious program to be arranged.

The past year the Freshman play was "Two Gentlemen of Soho," that given by the Sophomores, "For Distinguished Service," while the Juniors presented "Pearls." All members of the casts were elected to membership, the Sophomores with honorable mention, since theirs was the prize play. Others who made the club assisted in managing the productions.

CO-ED PRESS CLUB HOLD ANNUAL ELECTIONS FOR SEMESTER OFFICERS

Dorothy Cottrell Designated to Serve as President of Publicity Organization—Agnes Wheeler made Secretary

Press Club has chosen the following officers for the coming year: Dorothy Cottrell, '29, president; Agnes Wheeler, '29, secretary-treasurer; Florence McKenzie, '30, chairman of the program committee.

Dorothy Cottrell is a member of Kappa Alpha Theta, and is chief justice-elect of Women's Student Union. She is interested in journalism and in University publications.

Agnes Wheeler, a member of Pi Beta Phi, has been an active participant in Press Club since her first year at Vermont.

For the past three years Press Club has made itself a vital and necessary part of campus activities. It is connected with the publicity department of the University. Its duties range all the way from giving publicity to the University as a whole, to gaining personal interviews of campus favorites, both in the faculty and student body.

Besides communicating with high school papers about the doings of alumnae, Press Club sends to the leading newspapers of Massachusetts, New York, New Jersey, Connecticut, and Vermont, notices concerning those elected to offices in various organizations, such as Student Union, Y. W. C. A., W. A. A., and membership on important committees and societies.

Feature stories are also prepared for the important newspapers, so that the activities of both men and women of the University of Vermont are watched with interest by the general public.

So efficient has the Women's Press Club become, that the Men's Press Club has ceased to function, and the former has taken the duties of the latter, proving itself capable and worthy of the task.

Elections occur usually twice a year, once in the fall and again in the spring. Sophomores and Freshmen are eligible for the tryouts, which entail assignments in the Alumni Office in the Medical Building. There are usually two meetings a month, one

(Continued on page 3)

DOROTHY COTTRELL TO BE CHIEF JUSTICE

Catherine B. Bassett, '29, of Burlington, will head the Women's Student Union for the coming year. Dorothy Cottrell, '29, of Boston, Mass., was elected Chief Justice. The other officers of Student Union are: Janice M. Goodrich, '30, vice-president; Lucy E. Morgan, '29, secretary; A. Elizada Fiske, '29, treasurer; Doris E. Kibbee, '30, chairman of the program committee; and Charlotte E. Cleveland, '29, chairman of the social calendar.

The President-elect is one of the most popular co-eds in the University and is active in many fields. She has been vice-president of Student Union for the past year and is especially capable of meeting the dignity and importance which all Vermont women attach to the presidency of Student Union. Miss Bassett is a member of Kappa Alpha Theta Fraternity, Eta Sigma Phi, Bluestockings, Dramatic Club, was a grind editor of the 1929 *Ariel*, and has taken an active interest in athletics.

Chief Justice, Dorothy Cottrell, is also a member of Kappa Alpha Theta Fraternity and is very active on the campus. She is a member of Cynic Board, Masque and Sandal, Bluestockings, Eta Sigma Phi, *Vermont Literary Magazine* Board, W. A. A. Council, Press Club and is prominent in athletics.

Janice Goodrich, '30, of Richmond, as vice-president of Student Union, is to be director of the Big Sister movement next fall, an office formerly filled by the president of Vermonters' Club. Her fraternity is Delta Delta Delta. Miss Goodrich is well known in literary circles, being a member of Bluestockings, Cynic Board, and the *Literary Magazine* staff.

ORATORICAL CONTESTS TO COME AFTER EASTER

Two oratorical contests are getting under way at Vermont. The try-outs for both the National Oratorical Contest and the Kingsley Prize Speaking will be held shortly after the Easter vacation and all men interested in either should see Mr. Moore at once.

The Kingsley Prize Speaking is open to all freshman and sophomore men. Hon. Darwin P. Kingsley, a graduate in the class of 1881, has established prizes of twenty-five dollars, fifteen dollars, and ten dollars "for the best declamation of passages in oratorical prose." These selections must not be original and must be approved by Mr. Moore, who will assist the candidates in working them up, will conduct the try-outs, and will have charge of arrangements for the contest. Last year first prize went to H. M. Macomber, '30, and second prize to C. H. Overly, '29.

The oratorical speeches must be original. The contest is open to all men in the University. Speeches must be on some phase of the Constitution such as "The Relations of Washington and the Constitution," "Jefferson and the Constitution," Hamilton, Lincoln, or Webster and their contributions to the Constitution. The try-outs must be held by the middle of April, so contestants must see Mr. Moore at once for an explanation of the rules and conditions governing the contest. The winner in the local contest gets no prize but the regional winners get a trip to California and a cash prize that more than pays for the trip and to the winners in the national contest there are larger rewards. L. A. Hince, who represented Vermont last year at the New England contest at Dartmouth, merged third in this district.

Vol. 46 March 20 1928 No. 40

The Women's Staff asks all its gentle readers to keep ever in mind while perusing the columns of this issue of the Cynic, *the motto so well found in a Western Dance Hall*

"Don't shoot the pianist, he's doing his best."

NEW LEADERS

On other pages the Cynic brings the announcement of the new officers of the women's organizations. Through the editorial column, it wishes to congratulate the chosen leaders and to pledge to them the sincerest loyalty and support of the women of Vermont. During the past week, the old order has changed, and the big jobs, the little jobs, the medium-sized jobs have been redistributed once more. But we feel that no organization, grand or small, is worthy of existence if it has not at its head a personality of enthusiasm, wisdom, vision, conviction of the bigness of the work and of its place in the great scheme of things among the activities of a student body.

To quote Phillipps Brooks seems fitting, although these words were spoken years ago. "Do not pray for tasks equal to your powers, pray for powers equal to your tasks. Then the doing of your work shall be no miracle, but you shall be a miracle. Everyday you shall wonder at yourself at the richness of life which has come to you by the grace of God."

REDSTONE

The dream of a greater Redstone is to be realized soon. We've even held the blue prints on our hands, which signifies that much has been planned and done since the acquisition of the magnificent Buell estate as a part of the University of Vermont. With rumors of this and that, it is delightful to visualize the University of the future as far as the women are concerned.

Happy living conditions will be bettered by the building of new houses, rows of them, pretty colonial homes of white with green shutters and adorable knockers (we've supplied these fixins' to suit our taste), and within, an environment of ease and culture to satisfy the keen aesthetic sense of the college girl. Redstone will be lovelier than ever with these children, as it were, nestled about it. And gardens are mentioned! We believe no place in the world more blessed with possibilities than Redstone.

One of America's most skilful firm of architects is cooperating with the administration in the plans. In this Spring of 1928, the steady hand of the workmen will spell the beginnings of a greater Redstone. We trust that this progress will continue until the sun, rising behind the Founding Daughters and sinking into the West beyond the Lake, shall see each day a veritable community where "the quota of service, unselfishness, scholarship, culture and power which the world has the right to expect from college women" is freely found.

WHAT IS YOUR JOB?

In every senior there comes the question, "What shall I do when I graduate?" A direct answer to this is personnel work, which is rapidly assuming an important place in colleges, societies, and special commercial institutions. Among such institutions, the personnel office of Dean Florence Purington at Mount Holyoke College holds an important place, as it has long been securing positions of all sorts for its graduates. The reports from this office furnish interesting information on personnel work.

There are three principal ways of using a college education. The first is to go into the work for which one's education especially pre-pared one, the second is to begin at the bottom of some profession or business and the third is to start a business of one's own.

Majors in special subjects lead to positions in special fields. A major in banking, economics or statistics leads to a position as research assistant, a banking position or work in statistics. Students of psychology find places in child placement bureaus, and philanthropic organizations. Those receiving a degree in science may become analysts for manufacturing or advertising firms, public health employees. A major in psychology leads to a position in child clinics, penitentiaries, clinics and personnel work. The specialist in Education has a chance to work on text books, educational movies, or experiment in nursery and out-door schools. The extra curricular activity, too, has its place, for there are positions in summer camps and girls club work open to students who excel in athletics.

The college woman has assets that other women do not have. She is able to find friends almost anywhere and has personal and social relations superior to the average. Though she must start out as an untrained person, these conditions will allow her advantages which other women will not have.

There is no need for a girl to drift into teaching. It should never serve as a refuge for those who are too indolent to find the work they would prefer to do. A college education is an asset which will last all one's life.

RUSHING

Certain intrepid individuals among the seven women's fraternities are asking each other if there is not a way to tone down this tremendous endurance test called rushing. They ask if it is right to tax to the utmost the abilities, energy, health and scholastic standing of fraternity girls. The rushed excitement, once the glamour of lovely parties, the clever favors, "just a little cleverer, you know,"—all this is a joy for awhile.

But the aftermath! Jangling nerves, smiles too tired to be spontaneous and gay,—and in the bluebooks, X's and D's, rows of them, marching into position in the ranks where A's and B's should stand!

Too continue the martial figure, campus opinion does not attack the open house custom. War seems to wage about the third event of the rushing season, the party when a fraternity entertains its guests from four in the afternoon until eight in the evening as cleverly and hospitably as heart could wish.

Leaders of student opinion have recognized the over-elaborateness of the conventional party, and they stress the necessity for a change. An Alpha suggests that the fraternity be free to choose its own form of entertainment, within reasonable financial limitations. A Beta thinks Pan-Hellenic should probe the whole question. A Gamma does not wish to give up the party, but would prefer to have it a simpler affair; while Delta favors a short intensive open rushing. If the rushing rules for 1928-1929 are to be altered, an early discussion and settlement would be advisable.

DEAN'S LIST

It seems to us a wise gesture on the part of the faculty. We might even prophesy an epidemic of Phi Beta Kappa-itis, within the next year if this measure is adopted. For he talks to the winds who urges college students to work for the abstract honor of receiving high grades. "Phi Be-ta Kap-pa was not meant for me," merrily trills the Freshman; and each successive year thereafter makes it evident that there is more truth than poetry in the old song.

But let the students realize that a straight grade of 85% means a cut now and then, a day or two longer at Easter, the privilege of cutting the last hour class before the holidays in order to get the 11:40 out of town, in fact all reasonable privileges which universities and colleges such as Harvard, Dartmouth, Middlebury, Brown, Radcliffe and Vassar grant to the Royal Order of Free Cutters,—let the students know this, and the roster of the favored ones will serve as a magnet to attract the dormant capacity of the University.

At a recent Faculty-Student Council meeting, the proposal was made that a Dean's List be drawn up, to be composed of all Seniors and Juniors who have maintained a straight grade of 85%. Possibly the finished plan would include Sophomore and Freshman honor students. The faculty would reserve the right to withdraw a name at any time for the abuse of privileges.

The benefits of the Dean's list are two-fold. First, it is an honor, and secondly, it allows greater freedom in persuing one's education. We would not deny that the latter advantage would make the greatest appeal, since it produces tangible results, nor is practicality to be despised. But we feel confident that the student body would come also to appreciate the deeper significance of the honor, the intangible benefit of a place on the Roll of Honor of the University of Vermont.

The Women's Staff is grateful to the Editor of the Cynic and to his associates for their assistance in editing this issue; to Lenore Aldinger for drawings; and to Frank G. Shedd for photographic work.

OUR FACULTY

PROFESSOR A. D. BUTTERFIELD

Professor Arthur D. Butterfield was born at Dunstable, Mass., on October 13, 1870. He received his B.S. degree at Worcester Polytechnic Institute in 1895, and his M.S. from the same institution in 1898. He received an A.M. from Columbia in 1904. He is a member of Alpha Tau Omega. He was in the United States Lighthouse Service 1893-94. He instructed in civil engineering at Worcester Polytech. 1894-98 and from 1898-1908 he was with the mathematics department of the University of Vermont as instructor, assistant professor, and professor. He was professor of mathematics at Worcester Polytechnic Institute 1908-20, educational director for the Norton Company of Worcester, Mass., 1920-22. He has since been professor of mathematics and geology at the University of Vermont. During the summers of 1895-1903 he served with the Massachusetts Topographical Survey Commission on town and state boundary work; and he was field assistant in charge of the survey conducted by the Water Resources branch of the United States Geological Survey. He served with distinction in the world war, being made a Lieutenant-Colonel of the air force. He is a Chevalier of the Legion of Honor. Professor Butterfield is author of several books and papers. He is a member of the Society for the Promotion of Engineering Education, of the National Geographic Society, and of the American Association for the Advancement of Science.

The second year teacher training girls have begun practice teaching for the second semester. This teaching is done in the various schools of the city.

From the Old Mill Tower

In the year of our Lord 187[illegible] first women were admitted to the University of Vermont; an event considered of sufficient historical importance to be recorded in a Kake Walk stunt fifty-five years later. Two women entered in the spring and immediately became the young men's [illegible]. Six more were entered the following fall, making the first class of women eight in number. For a while the women clung to their ideals (of which a place being in the home) and for a while, the women not yet being bound together by the mysteries of sorority organizations nonchalantly packed their things and went home when vacation time came around.

However, the inevitable was not long in appearing, and in 1874 the first woman's society, Alpha Rho, was started as a local sorority and was granted a charter by Kappa Alpha Theta in 1882. Delta Delta Delta followed in 1893, Pi Beta Phi in 1[illegible], Alpha Xi Delta in 1915, Alpha Chi Omega in 1921 and Kappa Delta in 1926. Sigma Gamma, the remaining local sorority, was founded in 19[illegible]. K. E. L. a society of Jewish women gained recognition on campus last year.

In addition to these eight sororities various other organizations have been founded in the last few years. The Vermont Y. W. C. A. has been a member of the greater national organization since 1892. Akraia, the Senior women's honorary society came into being in 1913. Women's Student Union and the Vermonters' Club were both organized at the same time in 1920. There has always been a musical club of some kind, Mrs. Calvin Coolidge (Grace Goodhue) at one time serving as business manager. There has also been some form of a literary club appearing and disappearing at intervals throughout the years, and a debating club is recorded in the files of the Cynic, although there is no mention of a woman's team earlier than last year.

The origin of W. A. A. is of especial interest to all aspiring young women athletes. Physical training courses were offered as early as 1902. Two years of work were required and the courses were given by the men's athletic director and chaperoned by some lady of the faculty. A revolution in this department took place in 19[illegible] when Mrs. Myrick began teaching physical training, and the department has reached its present state of efficiency only through the greatest effort on the part of Miss Cummings who has been with us for eight years.

The growth of the women's department at the University has been very rapid. When one considers that scarcely a half century ago there was not a woman in the University and that now they threaten to outnumber the men, one cannot wonder that the latter guard their supremacy so jealously. Women have been admitted into every department of the University. They are in medicine. Yes, in agriculture. Yes, there has been one woman graduated from the engineering department in the year 1915. But not only have women entered the departments already established but they have formed their own. In 1909 the Home Economics department was inaugurated by Miss [illegible] and in 1922 a two-year teacher training course was firmly established.

Women's organizations have advanced and expanded until we wonder if there is room for more. The literary society of Bluestockings at one time seemed so uncertain. The only stable club which has done much toward the promotion of literary interest on the campus. The women's debating team was organized this year and as yet stands undefeated. One of its members is already

COLLEGE CONFERENCE ELECTS NEW OFFICERS

Major R. D. Potter, Director of Athletics of Norwich University was elected president of the Green Mountain College Conference to succeed Dr. A. K. Aldinger of the University of Vermont at a meeting of the Conference held here Thursday, March 15, and Dewey Graham, football and basketball mentor of the Cadets was elected Secretary to succeed H. A. Mayforth of the University of Vermont.

The big item up for consideration at the conference was the discussion of title playoffs. It was decided that the conference would play off its regular schedule and would not hold playoffs in case of ties. Therefore the basketball title this year remains a tie between Middlebury and Vermont, the first time in 13 years that the Catamounts have not captured the court bunting. The grid title also remains in obscurity because of this decision as the final game of the State title series between Middlebury and Norwich was cancelled last year due to the flood.

There was also a heated discussion among members of the conference as to whether the conference would join the New England Colleges for conferences on officials or the Eastern Association for selection of football officials of which Walter Okeson, famous football czar, is at the head. It developed however that Middlebury had already joined the New England body while Norwich is a member of the Eastern Association. It was therefore left to the individual members of the conference as to which body they should join but a list of officials was approved from which officials will be selected to handle the conference title series next fall.

Norwich extended the other members of the conference, an invitation to attend a Winter Sports Carnival again next year at Northfield.

VERMONT GAINS SECOND PLACE IN NEW ENGLAND RIFLE CHAMPIONSHIP

Catamount Musketeers are Second Only to Norwich in R. O. T. C. Rifle Contest.

Vermont's rifle team has placed second in the New England R. O. T. C. rifle championship for this year, by firing a score of 7355 out of a possible 8000. Norwich placed first with the score of 7546, only 191 more than that score made by Vermont. Norwich has been capturing the title for some few years now so their victory this year is not so much out of the ordinary.

The standing of the eight teams entered into the competition is as follows:

Norwich	7546
Vermont	7355
M. I. T.	7313
Rhode Island	7145
Maine	7076
Boston University	7055
Conn. Aggies	7028
M. A. C	6966

Brown, of the Vermont rifle team, ranks fifth of the high point men in the league, with 766.

Vermont at the present time ranks third in the firing competition being conducted by the National Rifle Association. Vermont is credited with a percentage of .750, to Norwich's .833, and M. I. T.'s 1.000. M. I. T. at present seems slated to capture the championship title in this league.

"How would you measure a pound of kisses?"

"Oh, by compress'on."—*B. U. News*

It was suggested that all track meets of the conference be governed by the rules of the New England Intercollegiate Athletic Association

BASEBALL SQUAD SHOWS UNUSUAL GOOD FORM

Those who frequent the baseball cage after school hours will see that Coach Dresser is developing a nine which should compare very favorably with all opponents this spring and summer. Coach Dresser's methods are bringing results and he has his squad of twenty-five men working out daily with a spirit that is most inspiring.

Much attention has been paid of late to the offensive. A batting order was drawn up, consisting mostly of veterans. Friday afternoon this line-up had a valuable batting practice and was hitting the horsehide squarely and consistently to the second string infield. The batting order is as follows: Prentice, Smith, Macomber, Cogswell, Howard, Dinniman, Conway, Price, Aronson, Winchenbach, Talcott, Moriarity, Schoppe. Howard and Dinniman are freshmen who have been displaying fine form both in fielding and hitting.

Although the list of men who will go South will not be made known until a few days before the trip, the above mentioned men have the edge at present. On the whole the team should make an impressive showing on the southern invasion considering the lack of outdoor drill.

Co-ed Press Club Hold Annual Elections for Semester Officers

(Continued from page 1)

for business and the other for social purposes.

Under President Irene Bates, special committees, composed of three members each, have been assigned to cover feature stories for newspapers and high school papers. To the former committee, Gertrude Bingham, '31, has been elected recently, and to the later, Barbara LeBaron, '31.

ELECTRICAL ENGINEERS WANT PROPOSED SOCIETY

A very enthusiastic and representative group of the electrical engineers met last Tuesday evening, March 13, to organize the proposed student branch of the American Institute of Electrical Engineers.

Although the charter has not been granted by the parent organization as yet, a set of by-laws were adopted at the meeting and the following officers elected: Chairman, C. M. Adams, '28; assistant chairman, F. L. Sullaway, '29; secretary and treasurer, L. G. Cowles, '29; faculty councillor, Professor L. P. Dickinson of the Electrical Engineering Department.

Though strictly an electrical society, membership will include any engineer particularly interested in its activities. Meetings of the society will be held the second and fourth Tuesdays of each month in the engineering annex at 7:30 P. M. At this time engineers from all four classes are invited to attend and if interested to have their names presented for membership.

The A. I. E. E. is a national organization of prominent engineers with the purpose of advancing the science of electrical engineering and interest in its progress. In the leading engineering colleges of the country student branches have been organized and maintained at a high standard by a close supervision of all their activities.

The program at Vermont will probably take the form of a series of semi-technical talks by engineers, professors, and the students on interesting phases of the subject, inspection trips and illustrated lectures.

The next meeting will be held March 27, the entertainment probably consisting of an illustrated lecture.

WOMEN ATHLETES ELECT MARION BACKUS LEADER

To Continue Membership With National Conference—Convention to Be Held at Silver Bay

Marion Backus, '29, of West Hartford Conn., is the president-elect of the Women's Athletic Association. Other officers include Doris Kibbe, '30, vice-president; Narcissa Goodsell, '30, corresponding secretary; Dorothy Wheatley, '29, recording secretary; Lucy Morgan, '29, treasurer; Georgina Everett, 31, publicity manager; Harriet Puffer, '30, chairman of Health Council. Marion Baldwin and Margaret Corbin, senior representatives; Dorothy Gurney, '30, junior representative and Jean Wappler, '31, sophomore representative.

The newly elected president is a member of Pi Beta Phi Fraternity and has been active in campus activities for the past three years. She is vice-president of the junior class, a member of W. A. A. Council, of Masque and Sandal, and of Student Union Council and has played on several class teams.

The Women's Athletic Association, besides continuing membership with the Athletic Conference of American College Women and the National Amateur Athletic Federation, has kept in touch with the outside world by sending delegates to the above conventions as well as the Y. W. C. A. Conference held at Silver Bay. The first "V" was awarded by this Council, which was the first to enjoy social dinners at Grassmount. The requirements for awards were raised by the vote of this council, which has held two point days, one during an entire week devoted to advertising W. A. A. and its activities. A high standard of posture has been a requisite for all awards and for membership on all teams.

A novel feature just introduced this year is the initiation service for new members of W. A. A. held at the rallies.

Through the efforts of "Backy," the new president, the gymnasium office has an added attraction, the cabinet, in which the cleaned and polished loving cups are well arranged and properly displayed for the first time. In the center is the new All Sports Cup which is the largest and most graceful of them all. This is to be awarded for the first time this spring.

This year will determine among other things which class will be the honored one to have its numerals engraved on the new All Sports Cup. The prospects look hopeful for every class except for the Seniors who have not yet won anything towards it. At present, before the Indoor Meet or the final basketball game, the Juniors lead with a total of 20 points. Five points they won for hockey, ten for volley ball and five for tennis. The Sophomores follow with 15 points, five for volley ball and ten for tennis. The freshmen have ten points won for hockey.

In all probability the Freshman first team will come out on top in basketball, giving them 15 points. It has been unfortunate this year that there have been no chances to win points either in soccer or winter carnival because of the weather.

PRESENT WEEK CALLED CO-EDS' POSTURE WEEK

The annual Posture Week began this Monday and will last through Friday. Posters, showing the different phases of good posture, will be exhibited on W. A. A. board in the Y room. During the entire week observation will be carried on in all places and at all times in order to choose the girl with the best posture of each dormitory and among the town girls.

A Posture March will be a feature of the Indoor Meet Friday evening. After the meet all winners for Posture Week will be announced.

The Posture Week Committee will put on a fashion show at the Indoor Rally to show the effect of good and bad posture in the wearing of clothes.

There are to be prizes for essays and posters on posture if they are handed in at Miss Cummings' office on or before March 21. A two dollar and a half gold piece will be awarded for the best poster illustrating any phase of good posture. The slogan will be considered, as well as the artistic excellence, in judging the posters. A two dollar and a half gold piece will be awarded for the best essay on posture. The length must not be less than 300 nor more than 500 words.

Other novelties are assured. The posture board is announcing from time to time W. A. A.

NEW WOMEN'S SOCIETY IS RUMOR OF CAMPUS

There is a rumor about the campus that a new organization will soon take its place on the hill, a women's honorary athletic society for which athletic ability, sportsmanship, and scholarship will form the basis of selection. More definite plans will be formulated when Miss Cummings and Miss Blanchard return from the Conference of the National Association of Women's Colleges Directors in Physical Education, which is to be held at Skidmore April 13 and 14.

A club of this kind would do much to put Vermont on a level with other institutions, most of which support such an organization and find that it not only promotes better athletes but also tends to place sports on a cleaner and better standard.

CO-ED MARKSMEN HAVE SHOT FIFTEEN MATCHES ON INDOOR RIFLE RANGE

Women's Rifle Team Shoots 500 in Over Half of Its Matches—Several Contests Not Yet Heard From

The Women's Rifle Team of the University of Vermont has shot a total of fifteen matches with a score of 500 in over half of them. In each of these contests a team of ten girls fired with a five high count, except against the University of Cincinnati when a team of fifteen was used with a ten high count. During the next two weeks the team will shoot against the University of Delaware and the University of Tennessee. The latter match will be fired on signed targets with a bullseye of .15 inches. A shoulder to shoulder match with the men's rifle team will probably take place immediately before Easter vacation.

The record of the matches fired to date follows:

Vermont 489, University of Utah 473; Vermont 980, University of Cincinnati not heard from; Vermont 494, University of Indiana not heard from; Vermont 494, University of Nebraska not heard from; Vermont 488, University of Missouri not heard from; Vermont 494, Syracuse University 496; Vermont 500, University of Maine 494; Vermont 500, Depaw Institute not heard from; Vermont 500, Michigan State College forfeited; Vermont 496, Cornell University 498; Vermont 499, North Dakota Agricultural College forfeited; Vermont 500, University of Kansas 480; Vermont 500, Washington State College 474; Vermont 500, University of Michigan not heard from; Vermont 500, University of Nevada not heard from.

Basketball Banquet

Basketball will culminate Tuesday, March 27, in the Basketball Banquet, which is under the chairmanship of Lucy Morgan. The banquet will be held in the dining room at Robinson Hall and will be served to members of all teams.

"Flossie" Hard will be the toastmistress. Miss Patterson, Miss Cummings and Miss Blanchard will be guests of honor.

W. A. A. will take this opportunity to present silver basketballs to the players who are chosen for the varsity team.

LARGE INDOOR RALLY ADVENTS SPRING GAMES

All indoor gymnasium work ends March 22, a date which marks the beginning of the spring games. This advent of spring for the women's athletic world is celebrated by the great Indoor Rally. A buffet banquet for all interested in athletics will be given in the dining room at Robinson Hall.

Catherine Bassett, chairman of the rally, has hinted that after the banquet the different classes will give stunts. At this time, also, the W. A. A. Council publicly gives up its place and presents the W. A. A. keys to the newly-elected council. Sweaters, numerals and W. A. A. insignia of all kinds will be awarded at the Indoor Rally.

INDOOR MEET PROGRAM ANNOUNCED BY CO-EDS

Ancient rivalry between Freshmen and Sophomores will have a chance to show itself at the Indoor Meet to be held between Freshmen and Sophomores Friday evening, March 23 in the gymnasium at 7:30. The Sophomores will be over anxious to do their best as they won the Meet last year over the class of 1929.

The tentative program of the Indoor Meet resembles that of previous years.

1. Competition Posture Marching.
2. Marching Tactics.
3. Demonstration Danish Gymnastics.
4. Demonstration Dancing.
   Teachers Training.
5. Competition Apparatus Work.
6. Competition Dancing.
   Freshmen: Brown Bear and Sailor.
   Sophomores: Varia and Slovak.
7. Demonstration Dancing.
   Clogging.
8. Basketball Game.

All events will be judged by the members of the Sweater Club. The Indoor Meet cup, which was won last year by the class of 1930, will be awarded to the class winning the greatest number of points in the Meet.

BASKETBALL TOURNEY PROGRESSES RAPIDLY

The Basketball Tournament progresses steadily. In all probability the Freshman first team will win, however they have the Junior team yet to play. This game will come off Tuesday, March 20, when the Junior and Sophomore second teams will also play. So far the results of the Tournament are as follows:

FIRST TEAMS

Seniors vs. Juniors 24-27
Freshmen vs. Sophomores 16-3
Sophomores vs. Juniors 17-10
Freshmen vs. Seniors 15-6
Sophomores vs. Seniors 11-10

SECOND TEAMS

Freshmen vs. Sophomores 12-9
Freshmen vs. Juniors 16-13

The line-ups of the first teams in class basketball are as follows:

Seniors: f. Martin, f. Hayes, g. Burke, g. White c. Westin, sc. Mildon. Subs. Witters, Darling, Marsh, Burns.

Juniors: f. Lanou, f. Zielonka, g. Morgan, g. Everest, c. Wheatley, sc. Corbin. Subs. Smith, Upton.

Sophomores: f. Perelman, f. Gurney, g. Bostwick, g. Kibbe, c. Puffer, sc. Munn. Subs. Dailey, Robelen, Taylor.

Freshmen: f. Wright, f. Darling, g. Wappler, g. Abbott, c. McKeen, sc. Warhurst. Subs. Cohoe, Rogers, Johnston, Buck.

The line-ups of the second teams are as follows:

Juniors: f. Nelson, f. Howley, g. Smith, g. Klein, c. Hazen, sc. Kinder. Subs. Turner, Fiske.

Sophomores: f. Dailey, f. Cannon, g. Strong, g. McKee, c. Dean, sc. Richardson. Subs. Martin, Fishman, Huntley.

Freshmen: f. Nash, f. Burns, g. Chadburn, g. Drugg, c. Wescott, sc. Field. Subs. Howley, Davis, Putman, Paul.

Plans Formulated for Annual Lilac Pageant

(Continued from page 1)

trees will be planted by the vice-presidents of different classes, a custom appropriate to the day.

As preparations near completion, the first glorious May day will see the production of this traditional festival, so dear to the hearts of all Vermont women.

"Is that story one of De Maupassant's masterpieces?"

"No, it is one of his nasty pieces."

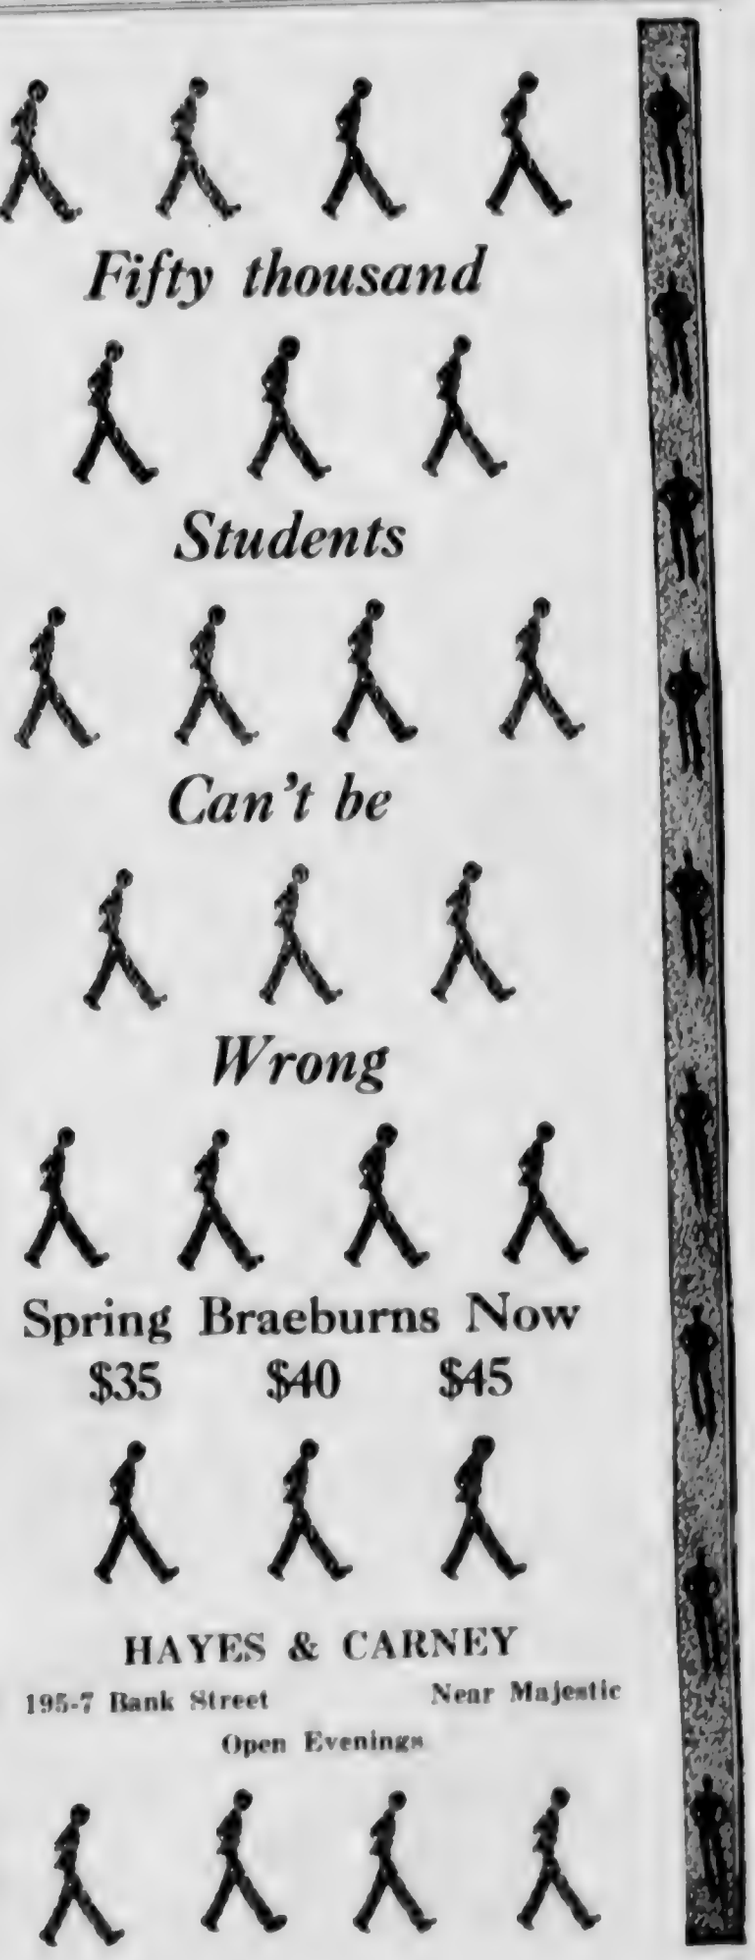
(Continued from page 2)

ber of Tau Kappa Alpha, the National honorary debating fraternity, which was instituted at Vermont by a group of men interested in forensic activities and other women are waiting for the spring initiations. A woman stands at the head of the new campus literary magazine, but there is one fortress which seems unconquerable—one of the fairer sex has never held the position as Editor-in-chief of the CYNIC—but there may come a day . . . .!

In speaking of the CYNIC, probably one of the most important moves for the women during the past year is the one which abolished the co-eds page. Formerly all news pertaining to the women's side of the college had to be placed on this page which surely was not the front page. However, under the new system, news is not placed in columns according to sex but according to importance, insuring equal representation and better co-operation.

A second very important move has just recently taken place, when the Vermonters' Club was affiliated with Student Union. It is hoped that Student Union will now be more active and that the Big Sister system will receive stimulus from added strength of the two organizations.

Now nearly at the end of another year, the women can look back upon it as one of great meaning to them, because they have reached a point where they are necessary to the campus, but more than this they can look forward to years of promotion in activity and enjoyment of the better living conditions which are daily being created for them. It is rumored that in the very near future there is to be another dormitory.



This year witnessed a return of the rifle team, and a brand new cement walk on the south side of the campus. Whether or not there is any correlation between these two facts we do not know, but we do know that the inhabitants of Robinson and Redstone who found this walk their main thoroughfare were getting to the point of desperation last spring and that one of the said inhabitants is captain of the rifle team.

It is difficult to determine just which one of the many things which the University has done for the co-eds this year has been most generally beneficent but when the administration consented to put that "homelike atmosphere" behind the white folding doors of the parlor at Grassmount, it surely did a lot toward eliminating that feeling of contention which has ever existed between the eds and the co-eds.

Necessity is also the mother of cribbing.—*Purdue Exponent*

Teacher—Who here can spell wrong?
Johnnie—Me. R-O-N-G.
Teacher—That's wrong.
Johnnie—Sure. That's what you asked me to spell.—*The Tech.*

I heard the other day that these college youths think it's mighty easy for them to get a skirt on the string. Girls do you reckon the poor sillies think we're taken in by their lines?

Most of the skirts are full but the bouffante taffeta period [illegible] is still evident. The favorite [illegible] shades for dance frocks are [illegible], French beige and coral.

FROM THE COLLEGE PRESS

Woman and the Weed

One symbol of her emancipation [illegible] has agreed voluntarily to cast away. No longer need weary travelling men vacate their habitat before a feminine puff, or harassed deans tear their hair at co-eds who refuse to obey non-smoking regulations; not, that is, if the vote of the National Convention of Sororities means anything.

A curious twist to the usual older-younger generation quarrel reveals itself here. The present upperclassmen apparently form the party of the right in the controversy on smoking, and they, in no uncertain terms, reprimanded the alumnæ whose visits to college are signaled by clouds of smoke hovering about the sorority houses. The conservative Juniors and Seniors complained that the alumnæ give incoming students a false impression and lead the young to overindulgence in the vice of tobacco. They cite evidence to show that college women are losing their health because of smoking. No doubt they gave graphic details of floors strewn with cigarette butts, of smoking bouts fought with grim determination, of gloomy morning afters from nicotine orgies. The alumnæ had no comeback; they meekly agreed to this drastic prohibition.

Drastic, that is, if the reactionary upperclassmen can enforce it. One wonders if they themselves really expect to.—*The Harvard Crimson.*

Co-ed Fraternity Notes

DELTA DELTA DELTA

A tea in honor of Miss Isabel Hallett, of Arlington, Mass., assistant deputy of Alpha province, was held at the rooms on Wednesday, March 14. Dean Patterson, ladies of the faculty, and officers of the women's fraternities were guests. Mrs. H. C. Tinkham and Mrs. Worthen, a patroness of the fraternity, poured.

PI BETA PHI

The Mother's Club entertained the members of the active chapter and guests at a supper at the rooms, on Friday, March 16.

The members entertained at a bridge party at the rooms on Saturday afternoon, March 17. About 20 couples were present.

ALPHA XI DELTA

The initiation of members into Upsilon chapter of Alpha Xi Delta, on Thursday, March 15, was followed by a banquet at the Hotel Vermont Roof Garden. Betty Kimball Kidder, '23, was toastmistress of the evening. Toasts were given by Eloise McGlaflin, '28, Bertha Hazen, '29, Dorothy Emery, '31, Natalie Owsley, '30, Alida Fairbanks, '21, and Alma Batten, '28. The guests of honor were Mrs. Anna Miller Knote, of Mansfield, Ohio, National Executive Secretary of Alpha Xi Delta, Mrs. Guy W. Bailey, a patroness; Muriel Harris and Bernice Munn, representatives from Alpha Pi chapter of Middlebury. Alumnæ present at the banquet were Marion Kidder Leonard, Thelma Matthewson, Louise Morgan, Martha O'Neil, Marion Way, and Marjorie Scott Way. Dorothy Weller, ex-'29, of Schenectady, N. Y. was in town for initiation.

The initiates were Jean Belden, of Bradstreet, Mass.; Janice Evelyn Davis, of Wallingford; Dorothy Emery, of Rutherford, N. J.; Amy Lorraine Guillett, of Winooski; Eleanor Lydia Hubbard, of Rutland, Dorothy Marie Park, of Barre; Isabelle Robertson Warhurst, of Peekskill, N. Y.; and Eleanor May Wood, of Waitsfield, all of the class of '31.

The members entertained Dean Patterson, the members of the faculty, and the officers of the other women's fraternities at a tea in honor of Mrs. Anna Miller Knote, on Friday, March 16. Mrs. Guy W. Bailey, Mrs. Arthur B. Myrick, patronesses, and Mrs. Marion Vogler, and Miss Martha O'Neil, alumnæ, poured.

ALPHA CHI OMEGA

Initiation services of Alpha Iota chapter of Alpha Chi Omega were held at the rooms on Friday, March [illegible]. A banquet at the Hotel Vermont Roof Garden took place on Saturday, March 17. Florence Smith, '27, acted as toastmistress. Evelyn Andersen, '28, Ruth Westin, '28, Elizabeth Clark, '30, and Dorothy Nash, '31, gave the toasts of the evening. Among the alumnæ present at the banquet were Claire Currier, Doris Harbour, Martha Leighton, Mabel Miles, Marjorie Perren and Marion Preston.

The initiates were Gertrude Bingham, '31, of Middlebury; Ethel Blake, '31, of Burlington; Dorothy Crandall, '28, of Essex Junction; Ruth Doherty, '30, of Waterbury, Conn.; Helen Drugg, '31, of Winchester, N. H.; Dorothy Nash, '31, of Concord, N. H.; Dorothy Roberts, '29, of Burlington, and Pauline Willis, '30, of Waterbury.

KAPPA DELTA

Miss Mary Lou Leslie, National Inspector of Kappa Delta, was guest of honor at a tea given at the Athena Club rooms, on Thursday, March 15. Dean Patterson, the woman faculty members, and officers of the other fraternities attended. Mrs. E. L. Ingalls presided at the tea table.

The tea was followed by a supper for Miss Leslie and the members of the fraternity.

Possible Uses of the Phi Beta Kappa Key

1. Use to open sardine cans at midnight spreads in graduate school.
2. Swallow to commit suicide on discovering that your health will prevent investigation of recreational reactions of whooping cough bacilli.
3. Remodel into stickpin for Him to wear in Abercrombie tie.
4. Give it to Lindbergh, to show orginality.
5. Smuggle into summer squash as practical joke, proving that one still has the human side in spite of everything. Contributed by Me-ow Chapter *Vassar Miscellany.*

"Lock me in cell 56."
"Why?"
"Father used to have it."

OFFICERS NOMINATED AT Y. M. C. A. MEETING

A meeting of the College Y [illegible] was held at the Sigma [illegible] House, on Wednesday, Mar[illegible] 1:30 P.M.

Various business was tra[illegible]. Secretary Powers gave a re[illegible] ticle on the subject of W[illegible] College Y. M. C. A.'s are D[illegible] this a general discussion [illegible] regard to the activities a[illegible] the Y for the coming year.

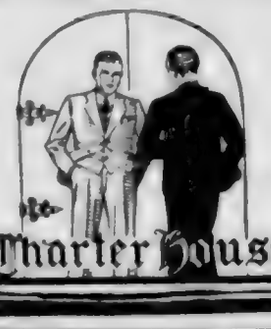
After the regular busine[illegible] a meeting of the nominating [illegible] tee was held. The following [illegible] nominated and will be vote[illegible] the next meeting, which w[illegible] the annual banquet which [illegible] place some time in the w[illegible] vacation.

For President: George E. [illegible]. For vice-president, A. R. Bu[illegible] '29, C. W. Irons, '29, and C. [illegible] '30. For secretary: J. A. [illegible]. For treasurer: A. E. Merrill, [illegible] co-editor of handbook: S. O. Clas[illegible] and C. H. Overly, '29. For [illegible] of handbook: W. A. Burr, '30.

TENNIS ENTHUSIASTS TO RECEIVE INSTRUCTION

Nineteen hundred and twenty-[illegible] is the year in which tennis [illegible] pions will test their skill at [illegible]. It is the year in which the great [illegible] pion of the tennis singles will [illegible] her name cut upon the tennis [illegible]. Only three names now adorn this [illegible] ing cup. They are: Bernardine K[illegible] ball, Ruby Howe, and Ruth H[illegible]. Followers of the racket are anxiously awaiting the contests which will [illegible] whose name will next be inscribed upon the trophy.

Old veterans at the racket may receive instructions from Miss Baldwin of Essex Junction, who will coach at regular hours during the week.



Regular classes for beginners will be given by Miss Cummings and Miss Blanchard every day until four in the afternoon.

The court in the cage is being used for practice. All signs predict that this will be a year of superlative enthusiasm in tennis.

"Do you love me?"
"No—it's only the hot weather."

WHEN AN OCCASIONAL WARM DAY OF SPRING COMES ALONG YOU CAN KID YOURSELF ALONG VERY NICELY WITH ICE CREAM OR A COLD SODA—THAT SUMMER IS MOST HERE.

PRESIDENTIAL ASPIRANTS

ALFRED E. SMITH

(*Christian Science Monitor*)

[illegible] ago, in the old [illegible] New York, under the ap[illegible] Brooklyn Bridge, an [illegible]om" Foley, one of [illegible] Tammany Hall, ap[illegible]ind uncouth man of [illegible] and ungrammatical [illegible] the best suit you [illegible] in the affirmative, he [illegible] and said: "Well, buy [illegible] and be sure you're [illegible] at the meeting to[illegible]ana be nominated for [illegible] And with that state[illegible] began to rise of the [illegible] candidate for the Dem[illegible]ation for President, Gov. [illegible] E Smith.

[illegible] education he has was ob[illegible] St. James parochial [illegible] was not extensive. His [illegible] the knowledge of hu[illegible] which gives him such a [illegible] personal appeal to both support[illegible] and opponents, was obtained on [illegible]sidewalks, in his experiences in [illegible] with the St. James Players, an [illegible]ation of amateurs that he was [illegible]mental in starting, and in his [illegible] years in the Legislature.

[illegible] was still a very young man, he [illegible]ated himself with the old Fourth [illegible] Tammany district club. For [illegible] he had gone about on house-to[illegible] canvasses, waited about the [illegible] done errands for his supe[illegible]s in the political organization, [illegible]performed generally the elemen[illegible] services that are required of [illegible] who want to get a start in the [illegible] York Democratic organization.

Speaking Ability

[illegible]cause of an ability to speak fer[illegible] and convincingly, even if with[illegible]ionary polish for the party's can[illegible] opportunities were frequently [illegible] around the ward at election [illegible] and he soon became well known. [illegible] national issues, he has said very [illegible] never having held an office in [illegible] National Government. On prohi[illegible] he has spoken frequently. His [illegible] as Governor shows that he [illegible] the bill repealing the Mullan[illegible] state enforcement act, that he [illegible] frequently in annual messages to [illegible] Legislature and on other occasions [illegible] memorials to Congress for [illegible] liberalization of the Volstead Act [illegible] permit the sale of light wines and [illegible] and that he has threatened sher[illegible]s and police officers of the State [illegible] removal if they failed to enforce [illegible] Volstead law the same as any [illegible] law, but has never removed any [illegible] for this reason. He also criticized the [illegible] Republican Legislature for ratifying the Eighteenth Amendment without submitting it to the people first [illegible] a referendum.

No Party Distinction

He has turned a cold shoulder to [illegible]s of Tammany men for considera[illegible] in appointments and his present [illegible]net includes six Republicans, and [illegible] or three Democrats that are even [illegible] odious to Tammany. His ad[illegible]s are not Tammany men. They [illegible] Robert Moses, a Republican, Mrs. [illegible] Moskowitz, a social worker, and [illegible]ers of this type.

CHARLES G. DAWES

(*From Christian Science Monitor*)

Although his severest critics may [illegible] him reactionary, seeker of the [illegible]ought, shooter of verbal pyrotech[illegible]s of uncontrollable wild man, Vice-President Charles Gates Dawes is consistently what he is. "There can be [illegible] reaction to the right," he said in [illegible] of his most pungent epigrams, [illegible]ven to an audience of one, "that is [illegible] the right reaction." That was [illegible]pped out shortly after the start of [illegible] 1924 election campaign when carrying the heavy end of the Coolidge-Dawes speaking tour. He had spoken [illegible] Maine none too pleasantly about [illegible] Ku Klux Klan, then a factor in Maine Republican politics. He had been asked what political reaction he expected to follow his speech, since [illegible] national committee had urged all participations to avoid that touchy [illegible].

To Dawes, who had startled the [illegible] by banging into this staid old Senate and demanding a reform of its rules to prevent filibustering, the situation was made to order. His friends said that the situation proved his contention. But Dawes took little profit from it. Instead, he called into his chambers advocates of the McNary-Haugen and McFadden bills, the industrial, financial East and the agronomist West, two groups having little in common. The East was opposed to the McNary-Haugen bill or cared little one way or another about it. The West cared little about the McFadden bill, or else was actively opposed to it but both arbitrated.

He comes from excellent American stock. His father was Brig.-Gen. Rufus R. Dawes who commanded the Iron Brigade of Wisconsin in the Civil War. His first American ancestor was William Dawes, who settled in New England in 1635. In 1745 was born another William Dawes, who rode with Paul Revere.

His Career in Brief Sketch

If not the greatest living American, Charles Dawes certainly is one of the most interesting. The terse chronology of his life's highlights is illuminating. Here it is:

1865—Born at Marietta, O., August 27.

1884—Graduated from Marietta College, Marietta, O., as a civil engineer.

1886—Admitted to the bar after studying law at Cincinnati Law School.

1887—Moved to Lincoln, Neb., beginning practice of law, counselor for farmers and later public utility organizer.

1896—First entry into politics, national campaign in one jump, managing William B. McKinley's campaign in Illinois for Mark Hanna, national chairman.

1897—Appointed Comptroller of the Currency by President McKinley.

1917—Declared himself in on the World War; appointed Lieutenant-Colonel of Seventeenth Railroad Engineers, transferred in France to Service of Supplies by General Pershing as purchasing agent.

1923—Chosen head of committee of experts of reparations commission. Dawes plan of German reparation to allied countries framed and put into effect by his committee.

1924—Nominated Vice-President by Republican National Convention and elected.

WILLIAM E. BORAH

(*From Christian Science Monitor*)

For a man like Mr. Borah, the Presidency must have a tremendous fascination. With his long varied experience in national affairs, his deep insight into government, his exhaustive knowledge of history, his rare talent for public address, his mental and physical vigor and confidence, and his profound faith in the fundamental integrity and patriotism of the people, the possibilities of that great office must inevitably have a vast attraction for him. To him the Presidency would mean the opportunity for positive action, the pressing of his ideas and ideals of democracy. The insurgency, the opposition, of which he is so commonly accused, would undoubtedly, in that office, give way to an affirmative leadership characteristically independent championship.

Conscious of these possibilities, he would like to be President. But he has no illusions about his chances.

Revolution to Nominate?

"It would take a revolution to nominate me," he said recently. And the group of newspapermen he was addressing smiled with him at his candor. Mr Borah has served as a United States Senator during the terms of five Presidents. He freely dissented from and opposed the policies and leadership of all, and yet, with all has he been on the most cordial personal terms. It has well been said, "Borah is the severest critic and the personal friend of Presidents."

He was not infrequently invited to the White House by President Taft to confer on various projects; but he rarely, if ever, supported the Executive. He settled in Boise in 1891. By 1899 he had won favorable notice and in 1903, by the narrow margin of four votes, he missed being sent by the State Legislature to Washington, as a United States Senator.

A Brilliant Lawyer

From the very start in Idaho Mr. Borah was recognized as a brilliant lawyer. By the time he was elected to the Senate, in 1907, he had become the leading attorney of the Northwest.

He was one of the authors of the amendment to the Constitution giving Congress the power to levy an income tax; one of the three authors of the resolution which provided for national prohibition. He was the author of the bill creating the Department of Labor, making its chief a member of the Cabinet. He was one of the authors of the bill which created the Children's Bureau. He is the author of the law providing for an eight hour day for government employees.

Money Root of Student Evils

The root of all evil, if one is interested in tracing out such a source, has been once more defined as "money." Dr. John G. Hibben, President of Princeton University, states that the chief contributory cause to the failure of undergraduates in their courses is having too much money to spend.

Way — "What is a parasite?"

Hack — "A parasite, me boy, is a fellow who walks thru a revolving door without doing his share of the pushing." — *Widow's Mite.*

The One Thing We Haven't Got

There is one thing we haven't got down at Turk's and that is a high-pressure salesman. So you can come in to take a look without fear of having the window curtains or the radiators, or for that matter, anything else you don't want sold to you.

So drop in some afternoon and see if you don't agree with us that our new ties and things are just about the cagiest to be found this side of the Avenue (we mean Fifth, not Winooski Avenue).

Vermont men are always welcome to come in, and paw around, and try things on. Of course way down deep we hope that you will buy something, but if you don't we'll try to be nonchalant and light a Murad.

MARGARET DURICK CONTINUES AS EDITOR

Margaret A. Durick, '29, of Fair Haven will continue to hold the office of women's editor to which she was elected in March, 1927. Her fraternity is Alpha Xi Delta.

Elizabeth D. Hager '29 of Clinton, Mass. and Mary A. Turner '29 of Montague City, Mass. were elected as [illegible]. The former is a member of Alpha Xi Delta and the latter of Pi Beta Phi. Hall assumed Helen [illegible]. The [illegible] of both girls has been proved by their work as reporters during the past two years.

Clarence M. Hooper '29 will serve as [illegible] for the coming year. He is a member of Sigma Phi and has been [illegible] during the coming year.

Lawrence Aldinger '29 of Burlington was chosen [illegible] and is the first to [illegible] in the women's field.

Elections to the women's board are made each year in January. Reporters from the class of 1931 will be chosen in the fall of 1928.

BLUESTOCKINGS ELECT STRONG PRESIDENT

At a meeting of Bluestockings held Thursday, March 15, the following officers were elected for the coming year: President, Dorothy Strong, '29; vice-president, Julia Waterman, '30; secretary, Margaret Corbin, '29; treasurer, Mary Freeman, '29, and chairman of program committee, Catherine Bassett, '29.

Dorothy H Strong, of Hyde Park, the president-elect, is a member of Kappa Alpha Theta fraternity. She is a grind editor for the 1929 *Ariel* and has been on several class committees.

Youth of Today not Godless

Princeton, N. J.—"I do not believe the youth of today is Godless; I believe that they are nearer the truth about religion than we of the older generation are," said Dr. Clarence Cook Little, President of the University of Michigan at the gathering of college presidents here recently to consider undergraduate religion.

"There is little difference between dogmatists," he said, "whether they are found in the laboratory or the pulpit of a too-highly organized church. The younger generation is discerning enough to recognize this fact."

Princeton Coach Resigns

The resignation of Coach Sullivan veteran swimming coach of Princeton, takes from active service one of the best known swimming experts instructing this sport in college circles. For years he was the editor of Spaulding's handbook on swimming.

NEWS IN BRIEF

A State Teachers' Conference was held at Burlington High School March 14 and 15. This conference was a combination of representatives of the schools of Vermont and the Champlain Valley Teachers' Association.

Dr. Walter F. Dearborn of Harvard spoke on "The Contribution of Psychology to Experiences in Teaching." Dr. Leona Zeiler of Columbia gave an address on "Objectives in the Teaching of Reading." There were also several addresses by members of the U. V. M. faculty.

A number of group conferences were held and several discussions.

Friday evening the School Masters' Club had a banquet in the Hotel Vermont Roof Garden, and the Vermont Women Teachers' Association held theirs in the main dining room.

Several exhibits were presented, an art exhibit by Miss Elizabeth Colburn and an exhibit of special methods of dealing with defective children by Miss Sara M. Holbrook.

One interesting feature of the conference was a travelogue movie, showing views of many foreign countries. An exposition on "Viking Life" was presented pictorially.

The final conference was held at 9:00 Saturday morning at which time discussion groups were held on various subjects.

Miss Sara M. Holbrook spoke at a meeting of the A. A. U. W. Tuesday evening. This meeting was held with Mrs. Morris on Williams Street. Miss Holbrook gave an account of the educational conference held recently in Boston, when the mother of Colonel Charles A. Lindbergh was presented with honorary membership in the National Education Association.

A banquet of the University Y. M. C. A. will be held at Sally's Restaurant, Wednesday, March 21, at 8 P.M. Professor D. B. Carroll will give the address. President D. J. Merrill '28, will officiate in the capacity of toastmaster. Election of the officers for next year is to take place at that time.

Dr. A. R. Aldinger spoke on "The Health Requirement for High School and College" to the members of the Civics and Health Department of the Athena Club at three o'clock in the afternoon last Friday.

Lectures at the Bread Loaf Summer School of English of Middlebury College will this summer include seven internationally known writers. They are Robert Frost, Dorothy Canfield Fisher, John Livingston Lowes, Charles Swain Thomas, N. Roy Ridley, Allan Nevins, and Isabel M. Paterson.

GLEE CLUB TO GIVE LENTEN CONCERT

A Lenten Easter concert will be given by the University choir assisted by members of the Men's and Women's Glee Clubs in the Ira Allen Chapel at four o'clock on Sunday, March 25.

Doctor Smart, pastor of the College street Congregational Church, and professor of Biblical Literature at the University will read the scriptures.

The concert soloists will be Catherine Bassett, Eleanor Koenig, Della Martin, Marion Miller, Marian E. Sargent, Roger Albee and J. H. Hoxie. A women's sextette made up of choir members is preparing a special number for this concert. The members of the sextette are Marion Baldwin, Margaret Corbin, Mary Davis, Dorothy Fowler, Cynthia Lynch, and Matilla R. Putnam.

Joseph F. Lechnyr, the popular leader of the University Band, took his dance orchestra, the "Vermonters," down to Middlebury, Saturday evening, March 17, to play for the Kappa Kappa Gamma sorority dance.

This orchestra seems to be in as great demand at Middlebury as at Vermont for this is the third time that they have played there this year.

It is rumored that the Vermonters will play at the coming Junior Prom, to be held in the new Memorial Auditorium during Junior Week.

PROFESSOR D. B. CARROLL SPEAKS AT LUNCHEON

Professor D. B. Carroll of the Political Science department spoke at the civic luncheon of the Burlington branch of the Vermont League of Women Voters held at Hotel Vermont, Wednesday noon, March 14. Professor Carroll stressed the point that only about one half of the entire voting population of the United States take the trouble to go to the polls. He suggested that the remedy for this situation is to have more intelligent civics taught in the public schools. As for the problem of political illiteracy, Professor Carroll says that the most advanced step in its solution is to restrict suffrage. If something is not done the lack of interest in political affairs will tend to threaten the democratic form of government in the United States.

"Where are you going, my pretty maid?"
"I'm going to sneeze," said she.
"At who? At who?" he said.
"A-choo! A-choo!" she said.

Waxes Poetic Over Favorite Tobacco
"A Prescription"

Have you ever noticed
right after a meal
How tired and lazy
you always feel?
I'm telling you folks
it isn't a joke,
It will freshen you up
if you try a good smoke.
But whatever you do
these lines you must heed,
There's a certain tobacco
of course, that you need.
It's packed in a tin,
the tin's colored blue.
Not only the smoking
but the chewing kind too.
Of course if you never
are bothered this way,
Just keep the prescription
for some other day.
Ask for tobacco,
the best that's on earth;
To shorten the story,
just call it "Edgeworth."

Relentless hunting found how to save platinum here.

Telephony, too, has its big game hunting

MANY a man in Bell telephone work feels the thrill of the Marco Polo hunt—big game too, because he may be trailing down the solution of a problem meaning greater convenience and conservation of time to millions of people.

Perhaps it is how to reduce the amount of precious metal required in the contact points on telephone transmitter springs.

Or it may involve some far-reaching question of management, the supervision of men and women, the need for a particular apparatus, the direction in which plant and personnel are to go to be ready for the needs of a coming generation.

The business of telephony is a continual hunt for the better way.

ASEBALL SMOKER FOR SOUTHERN TRIP TO BE HELD IN UNIVERSITY GYM

Smoker is in Charge of Student Senate Committee—A Program With Novelties is Promised

Senate Smoker will be March 27, in the Uniat 7:45 P.M. for giving the team a off on its annual south- This year the team will play almost as many days. ments will play such nines as Georgetown at Washington, two games United States Marines at Navy at Annapolis, Catholic at Washington, Drexel at Philadelphia, New York University at Fordham at New York, St. at Brooklyn, and the Army at

trip is taken annually by the invariably without any outdoor practice. The Stu- Senate deemed it only fitting at meeting that a smoker should held at this time and show the that the student body is be- them and will be anxiously fol- their games day by day in the papers during the Easter vaca- The men whom Coach Dresser to take the southern trip will leave sometime Thursday in for their first game with Georgetown University at Washington March 31.

committee in charge of the af- consists of W. C. Chadbourne, '28, man L. G. Leary, Jr., '28, and G. Sirois, '30. The committee has some good speakers and a novelties. Among the speakers from Coach "Hank" Dresser, Captain Jack" Conway, and Manager Abell, there will also be Mayor Beecher and "Doc" Newton, one famous pitcher of the Cata- and now signed up with the Pittsburgh Pirates. Refreshments consisting of ice cream and wafers will be served. As per usual smokes will be in vogue. The R. O. T. C. Band has been secured in full force to lend its aid to the din, besides helping out in the singing of old Vermont songs. Freshmen are required to attend.

RELAY FINALS BETWEEN OWLS AND SIGMA PHI

Coach Latty is getting a line on his track prospects as a result of the interclass indoor meet that is now being run off. Already the eliminations have taken place in the relay and the 440 yard dash. The finals of the relay will be run between the Owls and Sigma Phi, the Owls having defeated A. T. O., and the Sigs defeating Sigma Nu in the semi-finals. In the 440 yard dash Eaton, Morse, Sigman Woodward, Graves and a dark horse will try to be first to the tape on Saturday afternoon when the finals will be run off. In the time trials Woodward of Kappa Sigma has turned the best time when he traversed the four laps in 59.5 seconds.

The finals of the relay are to be run off Saturday at 4 P.M. and to the winner goes ten points toward the entire meet which will mean a lot this year with competition so close. To the winners goes five points toward the meet. The remainder of the track meet will be run off Saturday afternoon at 1:30 P.M. in the gym.

The Phi Delta clinched the cup last year as not favorites this year on account of their great track star, Simpson. So far it looks favorable for Sigma Phi, as it has the strongest team. Its weak point is in the distance in which the Phi Mu Delts excel.

The competition will be keen- est in the weights, with Parks, Kropper and Graves heaving the iron for Dame. From the looks of the men out for this track season on the hill should be one of the best for many years. There has been a lot of material out, close to thirty and some that have shown real ability. Coach Latty is just waiting for the time to come when he will be able to get his Cats outside where he might to make a better showing. With four hard meets, one coming in May, the Green and Gold men will have to do plenty of training before then.

ROCKNE NAMES DRESSER LOCAL REPRESENTATIVE

"Hank" Dresser, coach of the Catamount ball tossers, has been appointed by Knute Rockne as the representative in this section for the Olympic and European tour which the Notre Dame mentor is conducting in the coming summer. Some interesting data is procurable in "Hank's" business office in the gymnasium. Faculty members are invited to look into this matter as it offers not only an opportunity to witness the Olympics at Amsterdam but also a sightseeing tour through England, France, Belgium, Switzerland, Italy, and Holland

Coach Rockne will be in personal charge of this tour. The tour over will be taken on the *S. S. Carronia*, sailing from New York on July 20 On the return, the *Transylvania* will leave Glasgow, Scotland, on August 25. The trip will cost first class in toto $750, a reduction of a little under twelve hundred dollars from the ordinary expense

EIGHT FRATERNITIES ARE HOLDING EASTER DANCES

Eight fraternities are holding dances Saturday night and two more are to come off next Thursday. Kappa Sigma will have Frank Flagg's Orchestra to furnish the syncopation Saturday night and Prof. G. V. Kidder and Mr. and Mrs. Carleton will chaperone. Lechnyr's Orchestra will furnish the music for the Phi Delta Theta dance and Mr. and Mrs. Bean will chaperone. Phi Mu Delta will hold its dance Saturday night with Johnson's Orchestra playing. Prof. and Mrs. J. B. Detforest and Dr. and Mrs. Dalton will chaperone the Sigma Alpha Chi dance with the Algonquins furnishing the music. Buckley's Orchestra will play for the Sigma Delta dance. Prof. L. B. Puffer and Mr. and Mrs. F. H. Lawrence will be chaperones.

The Owls, Sigma Nu and Sigma Phi will also hold dances Saturday night. The Alpha Tau Omega and Delta Psi dances are coming off next Thursday.

Uppermost in the minds of the fraternities on the hill during the past week have been the Interfraternity Relays, in which such unusual interest was displayed this year.

STUDENT SENATE MEETING

Student Senate will meet Friday evening, March 23, at 7:15 P.M. at the Sigma Phi Place.

POSTPONED DEBATE WITH ST. MICHAEL'S WILL TAKE PLACE MONDAY

Women's Contest With Middlebury Also Changed to After Easter Because of Illness

Vermont's debate with St. Michael's on the censorship question which was to have taken place Thursday night has been postponed to Monday, March 26, because of the illness of two of the Vermont debaters. The contest, however, which is to be held at Winooski Park, will be none the less spirited as this is to be a decision debate. Thus far this year only one decision has been rendered out of the four or five debates that Vermont has held. The judges will probably be Justice S. R. Moulton of the Vermont Supreme Court, Principal Stackpole of Winooski, and Attorney G. L. Agel of Burlington With Hince, Leavens, and Nelson debating, and a good section of Vermont students expected, the Vermont debaters should have no hard time avenging last year's defeat at the hands of the Michaelmen. Vermont upholds the negative of the question of censorship of theatre and press.

Illness has interfered also with the women's debate at Middlebury. This debate will have to come off after the Easter vacation. Esther Nelson, Ethel Blake and Lena Cochran have been scheduled to debate Middlebury, no decision being rendered, however, in this debate against the United States policy in Nicaragua

Of the three debates scheduled for the next two weeks, only one will take place on the date originally set—the co-eds' debate at Rutland with the University of Maine. Janice Goodrich and Frances Howley will battle the Maine women in a decision contest on the Nicaraguan question.

National Intercollegiate Poll

BALLOT

CHOICE FOR PRESIDENT OF THE UNITED STATES

VOTE FOR ONE

Mark X after choice.

REPUBLICAN

Charles Curtis, Kansas

Herbert Hoover, California

Frank O. Lowden, Illinois

Charles G. Dawes, Illinois

Frank B. Willis, Ohio

DEMOCRAT

A. Victor Donahey, Ohio

James A. Reed, Missouri

Albert G. Ritchie, Maryland

Alfred E. Smith, New York

Thomas J. Walsh, Montana

Candidate other than listed

Students May Vote For President In National Intercollegiate Poll

Saturday Morning Set as Last Chance to Cast Vote—Results To Date Show Hoover Leading With Smith Second.

Students of Vermont are asked to perform the duty of a good citizen and vote for their choice as President of the United States on Friday and Saturday. The Cynic asks the students to designate their choice on the ballot which will be found on the bottom of the first page, and place the ballot in the Cynic box in the Old Mill hall, on the first floor. The result of the poll will be published in the Cynic Tuesday. Votes may be cast Friday afternoon from two to four o'clock and Saturday morning until 11:30

Simultaneous polls are being conducted in more than 70 colleges and universities throughout the country The list of these institutions include all the large universities of the East the State universities of the Middle West and Far West

The names of ten leading candidates, five Republicans and five Democrats, appear on the ballots, whose biographies in brief have appeared in the Cynic columns of the last three issues. The Republican candidates are: Charles Curtis, Kansas; Charles G Dawes, Illinois; Herbert Hoover, California; Frank O. Lowden, Illinois; and Frank B. Willis, Ohio. The Democrats include: A. Victor Donahey, Ohio; James A. Reed, Missouri; Albert C. Ritchie, Maryland; Alfred E Smith, New York; and Thomas J Walsh, Montana. Other candidates than those named may be indicated by the voters.

The report of the poll taken by the Cynic will be wired to *The Independent*, which is sponsoring the undergraduate vote. Reports from other colleges conducting the poll will be reported by *The Independent* several times each week until all of the returns have been submitted

Hoover Favorite To Date

Herbert Hoover continues as the presidential favorite in the colleges with Al Smith trailing along as outstanding Democratic choice. Of 2,210 ballots cast at the University of Cincinnati, Hoover received 1,281, which was 58 percent of all votes cast, and 75 percent of the Republican poll Smith stood second with 436 votes which represented 88 percent of the Democratic choice. The Anti-Saloon League might be interested to know that Smith's main support came from the law college Here Hoover defeated the New York governor by only four votes, whereas in the other schools he gathered many times the Smith vote. Coolidge and Dawes followed the two leaders in the order named. Willis did not fare well with his fellow Ohioans, receiving only 12 votes.

At Middlebury College the high men were again Hoover and Smith. Of 529 votes cast, Hoover received 357, and Smith 110. Smith's support came mainly from the men

Stanford University, which has high hopes of becoming alma mater of a president, will dedicate its 1928 year book to its most prominent alumnus, Herbert Hoover

COMPETITION KEEN FOR SOUTHERN TRIP BERTHS

"Hank" Dresser and his ball tossers are working out consistently in the cage. Several new men are showing up fine and Vermont's baseball prospects seem unusually bright. Among these men are W. W. Howard and Dinniman, a utility man either in the outfield or infield. "Hank" is very anxious to make this southern trip a rousing success to insure the advisability of taking this trip in years to come.

A very interesting Student Senate smoker is coming off on Tuesday evening, March 27, to give the boys a great send-off to their rampage into the South. The committee has secured an excellent list of speakers Refreshments will be served in the cage after the pep session. An effort is being made to raise money to get the team off a day early so as to get in some real practice. This is desirable, due to the fact that the recent snowstorm has curbed all chances for the outfielders to get in their practice.

The letter men, Captain Conway, shortfield man of four years' experience; "Jack" Smith, star second sacker; "Bill" Cogswell, great hot corner man and heavy hitter; "Bunny" Prentice, initial sacker; "Speed" Aronson, backstop; "Wink" Winchenbach, first sacker and catcher; "Don" Moriarty, George Talcott and "Lefty" Schoppe valuable pitchers; "Cal" Macomber and "Kiki" Price, garden tenders, are fairly sure of the southern trip. The remaining two of the fifteen men to be sent on the trip will be chosen from Frank O'Keefe, Harry Schurman, Dinniman, and Howard, depending on their showing in the next few days

The twenty men out now will continue until the squad leaves next Thursday to help the varsity work outs. Practice is being held every day from three to five and Saturday two to five until the time of departure

The team returns from the trip after the game with Army at West Point on April 11. The games scheduled are March 31, Georgetown University at Washington; April 2 and 3, U. S. Marines at Quantico; April 4, Navy at Annapolis; April 5, Catholic University at Washington; April 6, Drexel Institute at Philadelphia; April 7, N. Y. U. at New York City; April 9 Fordham at New York City; April 10, St John's at Brooklyn; April 11, Army at West Point

NEWS IN BRIEF

Miss Sara Holbrook of the department of education spoke last Monday afternoon before the members of the Protective League

At Chapel next Sunday afternoon, there will be a concert of Lenten and Easter music given by the University choir. The men's and women's Glee Club, under the direction of Professor H. G. Bennett, will assist. A sextette will also render a few selections and the scriptures will be read by the Rev I. C. Smart

Capt. W. F. Rattan instructed the members of the Exchange at their last weekly luncheon meeting held in this city, in the proper manner of saluting the American flag

Walter H. Crockett, editor of University publications, spoke before members of the Discussion Club of the College Street Congregational Church last Sunday

Wig and Buskin Society held a meeting last Tuesday night in the Marsh room of the Billings Library. The president of the society called the meeting

Baseball men are beginning to think quite seriously now about their southern trip

Lieutenant J. D. Fredericks will give the freshmen an examination in military science and hygiene March 26. Also the sophomores will have a practical on stripping and assembling, March 27

FRESHMEN GIRLS EASILY WIN INTERCLASS LEAGUE

Tuesday afternoon, the Freshman girls defeated the Juniors in basketball by a score of 18-3. The class of '31 displayed their usual good form and teamwork in such a manner as to hold the Juniors very effectively The line-ups follow

1931		1929
E. Abbott	l.s.	L. Morgan
J. Wappler	r.s.	M. Everest
H. Wright	r.f.	E. Zielonka
A. Darling	l.f.	J. Lanou
I. Warhurst	s.c.	M. Corbin
F. McKean	c.	D. Wheatley

The second game of the afternoon was played by the Junior and Sophomore second teams, which the former team won by a 10-8 score. The Juniors edged ahead just as the whistle blew ending the first half, when Nelson caged a free try

The Freshman team by defeating the strong Junior hoopsters established themselves as winners of the interclass tournament. They will meet an all-star team composed of upperclassmen and Sophomores at the indoor meet tonight

George R Hall has recently been pledged by Sigma Alpha Chi fraternity

Alumni and undergraduates are heartily invited to contribute. All communications must be signed by the writer, whose name will be withheld if so desired. Any brief notices should be handed in at the Cynic office or telephoned to 356 before 9 p. m. Sunday and Wednesday.

All business communications should be addressed to the Business Manager, Delta Psi House; all other correspondence to the Editor-in-Chief, Phi Mu Delta House.

VOTE!

Democracy and its future rests largely in the hand of the college students of today. "Stay-at-home" voters and disinterested citizens who stay away from the polls because of inertia are the reasons a little over half the eligible voters partook in the last presidential election. This sort of an election does not necessarily elect the man best fitted for the position. It is for this reason that "rings" and corrupt political machines often carry an election.

There is little cause to suspect that the ballots will be stuffed in the Vermont straw vote, but there is a chance that the man, preferred by the majority of the students, will not be selected if the greater number of students do not vote.

Does the student want Vermont represented by a "Wet" or a "Dry" candidate? Does he wish to see a Republican or a Democrat elected? Will he prefer State's rights or a government with a strong central head? Is he in favor or opposed to the Farm Relief Bill? These and several other issues rest in his choice as candidate.

The two institutions already reported are in favor of Hoover, although the Law College at the larger school went strongly for "Al" Smith. Nearly all of the larger Universities in the country are taking part in this poll, from the Radical Mid-West and the South with its Democratic to conservative New England.

SOCIAL CALENDAR

There is a very old and an exceedingly well-known adage to the effect that all work and no play makes Jack a dull boy. This might well be paraphrased that all play and no work makes Jack a dumb boy. But seriously speaking, would it not be a wonderful thing if extra-curricula activities and studies could be correlated so that the college student would escape an excess of mother? Under the present system everything seems to happen at once—social events, important meetings, and hour tests, and in the case of the least popular of these three—they all take place within an exceedingly brief interval of time. It has been suggested that a program might be arranged so that only in very exceptional cases two tests would occur on the same day. Might not an outline such as the social calendar be effected whereby each organization would have definite dates of meeting, thus avoiding conflicts in outside activities, and might not the same idea be applied to hour tests? If this method of solving the problem appears impractical, at least the fact must be recognized that there is such a condition and perhaps some brilliant mind may offer a better formula by which to attain the same result.

It is remarkable how long the possessor of Athletic equipment, used during basketball season and not returned is holding up the basketball elections. It is a disgrace at the present moment and continues to grow worse every day that the person holds off. Perhaps the return would have been hastened if the presentation of sweaters was postponed. What if the equipment is never returned?

AT THE DORM

By Converse Hall

Oh-De To Knowledge

Though I concentrate, meditate, ruminate, and cogitate,
Whenever I articulate, professor says,
"Sit down!"
And when there comes a gleam to me,
No matter what the theme may be,
How easy it may seem to me—
I encounter but a frown.

Let's take French for an example:
there's a terrifying sample
Of the stuff we'd like to trample underneath rebellious feet.
If the teachers would turn owlish,
There's a subject they'd abolish:
There's a language they'd demolish:
Many then need not repeat.

Anna Lyt's another worry. Gee! but how that makes you scurry!
Doing problems in a hurry, memorizing formulae
Letting X's equal Y's,
Making truly dumb replies
And other things that you despise
While the profs say 'claim you try!'

In Economics that we're taking, maps and reports always making.
Go to class and get a raking 'cause perhaps you didn't know
Processes of irrigation.
All the types of reclamation
Natural 'vironment situation
Price of wheat in Idaho.

In English, then soliloquizing, all around you realizing
You don't know what you're surmising, doesn't tend to make you cheer
While the question you're debating,
Some mild story you're creating,
Then evasively relating
'Midst a gloomy, doubting fear.

Pause a bit and I'll rail at Spanish, downright insult to the mannish
That's the junk profs ought to banish from our school and thus they'd free
It's from what's beyond believing: doing homework in the evening,
Night and morning always grieving;
Glad to get our paltry "D."

Next there's military training, all the hate of your remaining
In your bed and rest obtaining after half-past six A.M
Drilling, drilling, always drilling,
Hour requirements always filling,
Monotony they view as thrilling,
How about *our* drilling them?

Then the course in Public Speaking, where the chapel seats are creaking.
All the radiators leaking, doesn't tend to aid your voice
Learning gestures, signs and reaches,
Making up impressive speeches,
Reading Cynics while prof teaches—
But, of course, we have no choice.

Still this wicked domination, this enforced self-privation,
Has been labled education by the men who've gone before,
Who our studies are compounding,
Who our ideas our confounding,
Even our senses are astounding
With their wisdom all galore.

As I contemplate the estimate of all my work, and speculate
However shall I satiate requisites great and small—
Doth an Idea slowly penetrate,
And sorely doth it agitate,
Methinks I'll *never* graduate—
I won't get out at all!

HARVARD BROUSE PERIOD BECOMES SUCCESSFUL

(By New Student)

Harvard's "reading period" has carried the day. The deans of the University, in session to consider the new program after its first trial, have declared it successful. The setting aside of two and a half weeks before examinations for reading was regarded as a revolutionary step. Skeptics argued that it would mean only cramming, if any work was done at all. But the deans found that not only was the period taken seriously, and reading actually done in the elective manner hoped for, but the innovation in education reflected in the examination results, specifically in grades. So enthusiastic were the deans that they stated that "even if the grades had *not* shown any improvement, we could nevertheless regard it as a success."

Although anxious not to have one test accepted as conclusive, the teachers did say that "the upperclassmen have proved that they have the capacity and the interest to work independently and they have profited by their experience."

From the interest with which other institutions watched the Harvard plan in operation it may be inferred that the friendly report of the deans will lead to the institution of the "reading period" elsewhere.

OUR FACULTY

PROFESSOR ARTHUR B. MYRICK

Born in New York City on June 27 1875, the son of Franklin and Sarah Myrick. Arthur Beckwith Myrick graduated in 1900 from Harvard with the degree of A.B. The following year he received his A.M. from the same university; and two years later, having spent the intervening time as an Austin teaching fellow, he was awarded his Ph.D.

Previous to coming to Vermont in 1905, Professor Myrick was Professor incaricato of English Literature and Philology at the Accademia Scientifico-Letteratia in Milan, Italy. Since 1905 he has been professor of Romance Languages at Vermont.

Professor Myrick is a member of the Modern Language Association of America, the American Association of University Professors, the Ethan Allen and Theater Clubs of Burlington, and the Harvard Club of Vermont.

In 1903 he wrote a translation of Beaumarchais' Barber of Seville, and in 1916, Banville's Grigoire. He is also the author of Short Stories from French and Spanish.

WHAT IS A CYNIC?

(Henry Ward Beecher)

The cynic is one who never sees a good quality in a man, and never fails to see a bad one. He is the human owl, vigilant in darkness and blind to light, mousing for vermin, and never seeing noble game.

The cynic puts all human actions into only two classes—openly bad and secretly bad. All virtue, and generosity, and disinterestedness, are merely the appearance of good, but selfish at the bottom. He holds that no man does a thing except for profit. The effect of his conversation upon your feelings is to chill and sear them; to send you away sour and morose.

His criticism and innuendo fall indiscriminately upon every lovely thing, like frost upon the flowers. If Mr. A. is pronounced a religious man, he will reply: Yes, on Sundays. Mr. B. has just joined the church: Certainly, the elections are coming on. The minister of the gospel is called an example of diligence: It is his trade. Such a man is generous: Of other men's money. This man is obliging: To lull suspicion and cheat you. That man is upright: Because he is green.

Thus his eye strains out every good quality. To him religion is hypocrisy, honesty a preparation for fraud, virtue only a want of opportunity, and undeniable purity, asceticism. The livelong day he will cooly sit with sneering lip, transfixing every character that is presented.

It is impossible to indulge in such habitual severity of opinion upon our fellowmen without injuring the tenderness and delicacy of our feelings. A man will be what his most cherished feelings are. If he encourages a noble generosity, every feeling will be enriched by it; if he nurses bitter and envenomed thought, his own spirit will absorb the poison, and he will crawl among men as a burnished adder, whose life is mischief and whose errand is death.

He who hunts for flowers will find flowers; and he who loves weeds will find weeds.

Let it be remembered that no man, who is not himself morally diseased, will have a relish for disease in others. Reject then the morbid ambition of the cynic, or cease to call yourself a man.—*Review, University of Delaware.*

Odd Practices of Working Way Through Northwestern

Selling everything from blood to bonds; stoking everything from furnaces to stomachs; teaching everything from calculus to playground games to high school boys, and carrying everything from suitcases to hods, Northwestern's men students still manage to earn their way through college, though the new decree to raise tuition rates threatens to cause a financial panic next fall.

One fellow sells his own blood to a Chicago hospital, in transfusion cases. In a good week he is able to squeeze out two pints of vitalizing fluid provided the cash register rings up at least $35 a pint, which is his lowest flat rate. One of Garret Biblical Institute's students guards physical bodies on the Chicago "L" every morning, prepares himself to guard spiritual bodies in later life, during the day, and guards a wife and two children at night. On Sunday and on Wednesday nights he takes a little breathing spell and preaches in an Evanston church.

One of the Medill School of Journalism students is gathering shekels and plots for short stories by riding around on Brink's Bankers' Express, which carts huge sums of money from bank to bank in Chicago.

A sophomore has carried bags and suitcases to and from trains at the Union station so long he hailed a student carrying a brief case on the campus recently.

One of the upperclassmen vainly—he says—for the key knowledge during the day, and has equal success, sometimes, for guests' room keys at an Evanston hotel, for which he is night desk.

A husky freshman with no Chicago's sawed-off shotguns drives a Yellow cab through the morning stream of Chicago revellers, who lurch in the face as the milkman pounds on the kitchen door.

BOOK REVIEW

THE THINKER BECOMES CLEAR

PHILOSOPHY

By Bertrand Russell

(From N. Y. U. Critic)

In these days of devastations in the realms of iconoclasm in philosophy, it is refreshing to witness the effort of a thinker at formulating a *Weltanschauung*, in the light of latest theory propounded by men who have something to propound.

Behaviorism has displaced, not all, of orthodox psychology. Relativity has done away with ideas of force and gravity. Atoms and protons are dead, too, in the hands of German physicists, who see them "dissolved into systems of relations or into systems of waves." Matter ceases to be a "thing." The substitution of space-time for space and time has made the category of substance less applicable than formerly. For the essence of substance was persistence through time, and there is now no one cosmic time.

As a matter of fact, there is nothing left that is worth being called anything. Mind and matter are no longer entities, but are composed of a more primitive stuff which is neither mental nor material and which goes by the name of Events.

The sort of thing that used to go by the noble name of philosophy is slowly dying a sure death. Unfortunately, it persists in breathing its last in the colleges—where its death-rattle can be heard even by those who use their only intellectual nap during the lecture-hour. For Metaphysics asked by old man Logic is still the task of sophomores who persist in working out an individual philosophy of life. One that would help them justify the "ideas" back of their attitudes toward the "higher things."

Modern science reveals astounding facts, and modern philosophers pass them up as such and try to place them in a new scheme of things and thoughts. Undoubtedly a new Scepticism is being born in these days. Our conceptions of Truth are changing rapidly and as fundamentally as scepticism will permit. Man is being overhauled and his old intellectual baggage is about to go overboard. Whether the new man will be any better for his new knowledge any stabler is not yet the point. The mere fact that he is about to change his mental make-up is of tremendous significance. And the fact that "what passes for knowledge in ordinary life suffers from the defects of being cock-sure, vague and self-contradictory," is apt to shed new light before us and give us a new *raison d'être* altogether.

The new philosophy, as Bertrand Russell appraises it in the light of modern fact and speculation, is a disintegrating philosophy. Man will have to learn that his life is not governed by a merciless determinism; that he does not think himself powerless in the grip of cosmic forces. What man has done and believed until now was caused by man himself. Nature is indifferent to man—it is neither friendly nor hostile to him. It is man alone who can and must adopt a new attitude towards himself, towards the world surrounding him, if he wants to free himself of prejudice and intolerance.

Divested of dialectical and metaphysical claptrap, "Philosophy becomes a living thing. Of course we do not get a glimpse into the meaning of things," but we do obtain a clearer vision of this changing world. We may know today as much as the very absent-minded philosopher who walking on stilts caused a passer-by to fall into the gutter. "What do you think you are, anyway?", the fallen in the gutter asked. "I wish I could tell you," the stilt-walker replied and continued on his way.

TRAINED RESERVE MEN NATIONAL DEFENSE AIM

By [illegible]can Confederation)

[illegible] Organized Reserves compris[illegible] reserve officers of the army, the [illegible] States has available for emer[illegible] a supply of men trained to [illegible] the responsibilities of com[illegible] our troops. The greatest han[illegible] the United States faced in the World War was a lack of men who had sufficient training to assume a commission. As a result many of our [illegible] were commanded by men who had never had any military training before they entered the ninety-day of[illegible] training camps.

Inexperienced privates in the ranks [illegible] army are bad enough but to [illegible] green men under the command [illegible] green officers can never be defend[illegible] It is nothing short of criminal negligence and is unfair to both the men and the officers and to the people [illegible] the United States

The United States has 110,000 offi[illegible] enrolled in the reserve and of [illegible] 60,000 are on the active list and [illegible] to accept fifteen-day training [illegible] every three years. This requires a minimum of 20,000 to be trained [illegible] year in camp in addition to the correspondence and conference train[illegible]

Congressman Wurzbach, in advocating sufficient appropriation to provide [illegible] 20,000 reserve officers to get camp training each year, pointed out that the Organized Reserves increased from [illegible]000 in 1923, to 110,000 in 1927, but notwithstanding this steady growth, Congress, instead of making increased appropriations for the training of these men for two weeks each year, apparently seeking to cut down the appropriations and permitting a smaller number to train each year.

Congressman Barbour of California opposed the increase which would permit training 20,000 instead of 16,000. The House, however, by a vote of 268 to 85 approved the increase. By the time the bill reached the Senate, opponents to the increase apparently had seen the handwriting on the wall, as the Senate Committee immediately cut the appropriation to a figure which would permit the training of only 15,000 reserve officers in camp each year. Senator Wadsworth is urging an amendment to restore the House appropriation figure. The training of 20,000 reserve officers has been endorsed by all the leading national veterans' organizations and by many patriotic societies. The Board of Directors of the Better America Federation has given endorsement to this important factor in national defense.

Partiality

[illegible] we are often accused of having favorites, to gain good grades than [illegible] person across the way, the following information gleaned from the [illegible] *Hullabaloo* may be found amusing.

"[illegible] cannot secure higher grades [illegible] because they linger after class [illegible] with the professor and [illegible] intelligently at his worst [illegible] instructors at Wisconsin declare that this is untrue and that [illegible] cks never enter into the [illegible] of grades. One teacher [illegible] men are more unfair be[illegible] offer to bootleg for an in[illegible] ate an A. One professor, [illegible] recently wrote at the [illegible] an's theme, 'I should like [illegible] better grades because you [illegible] an exquisite soul—so do [illegible]

Radcliffe Daily

PRESIDENTIAL ASPIRANTS

GOVERNOR A. VICTOR DONAHEY

(From Christian Science Monitor)

Kindness personified to those about him, devoted to his family, his countenance beaming with smiles at all times, and his sterling honesty and fairness always manifest, these are the things that endear Governor Donahey to the people of his state.

Born in Westchester, O., July 7, 1873, the son of John Coulter and Harriet (Chaney) Donahey, and a grandson of James M. Donahey, of Scotch-Irish ancestry, young Donahey attained an education at New Philadelphia, taking up the printer's trade at Massillon after two years in high school. After a year as an employee of a newspaper at Massillon, he established a printing plant at New Philadelphia, and conducted a publishing business for many years.

He grew to manhood in the hills of Tuscaravas County with his brother William, the creator of "Teeny Weenies" in the *Chicago Tribune*, and J. H., or "Hal" Donahey, internationally famous cartoonist of the *Cleveland Plain Dealer*. At the age of 24 he was married to Edith Stirling Harvey, whose maternal grandfather, Jacob S. Stirling, is recorded in history as one of the founders of Canton, Stark County, O. Mrs. Donahey is active as a member of the Daughters of the American Revolution and other such organizations.

Started as Town Clerk

Becoming interested in politics, in 1900 he was elected by the Democrats as clerk of Goshen Township, overcoming a strong Republican majority, and serving two terms. He was county auditor for two terms, and a member of the New Philadelphia board of education, each succeeding election showing a gain in his majority.

His success as a member of the convention, where he often provided the right answers for perplexing questions, attracted to Donahey the friendship of public men, and established a bond of sympathy between himself and newspaper writers.

Expenses $38.40

In consequence, in 1912, when the leaders of his party were casting about for a suitable candidate for auditor of state, newspapermen suggested Donahey. Donahey attended the party convention and was nominated. His total expense was $38.40 his hotel bill. He overcame a Republican majority, and was elected. He became so popular with the people that he was re-elected in 1916 for a second four-year term, by nearly 50,000 majority.

Donahey suffered but one defeat in his political career. Early in 1920 he was petitioned from all parts of the State to stand for the Governorship. He was nominated in the primaries, but defeated in the election. In 1922 again he was nominated, and as the result of a campaign for lower taxes, less expense in government, and common honesty, was elected.

CHARLES E. HUGHES

(From Christian Science Monitor)

Charles E. Hughes began life in a Baptist parsonage in Glens Falls, N. Y. He was born neither to poverty nor to wealth, but into surroundings of modest comfort, sufficient to start him upon his career with gentle manners and an excellent education. That peculiar earnestness that later became one of his distinguishing characteristics showed itself in his earliest years. He applied himself to his studies in the public schools of Oswego, Newark and New York, won his Phi Beta Kappa as a junior at Brown University, and was graduated in 1881, at the age of 19, with honors in classics.

In 1884 he was graduated from Columbia Law School and admitted to the New York Bar, continuing in practice until 1891, when he temporarily relinquished his profession and became professor of law at Cornell University. The New York Legislature in 1905 appointed a special joint committee to investigate the gas and electric lighting companies of New York City. Mr. Hughes was chosen as its counsel.

Mr Hughes was elected governor of New York, receiving a plurality of 57,897 votes over William R. Hearst, Independent. On January 1, 1907, he assumed public office for the first time.

Supreme Court Justice

In 1910 President Taft appointed Mr Hughes an Associate Justice of the Supreme Court of the United States. He resigned as governor, and although his resignation occurred late in his second term, chagrin was expressed among his liberal supporters that he should have seen fit to leave the state.

From October 10, 1910 to June 10, 1916, Mr Hughes remained in the august seclusion of the Supreme Court, politically dormant. He had not been involved in the Republican conflicts of 1912, and thus became the obvious candidate to oppose Woodrow Wilson in 1916.

The final returns showed 277 electoral votes for Woodrow Wilson and 254 for Charles E. Hughes.

On March 4, 1921, he became Secretary of State in the Cabinet of President Harding. He was 59 years of age, easily the most commanding figure in the original group with which Mr. Harding surrounded himself. His record of public service, with his shining personal integrity, assured Mr. Hughes the admiration, confidence and respect of the country.

High Tariff Advocate

With respect to the issues that will figure in the election of 1928, his position is somewhat uncertain. In the series of political speeches he made in 1924, supporting the candidacy of Mr Coolidge, Mr. Hughes adverted most often to the problem of foreign affairs. He is opposed to American membership in the League of Nations. He is committed to a policy of "helpful co-operation" with Europe. He is a strong believer in a protective tariff.

He is a firm supporter of economy in government. On the issue of prohibition his position is not altogether definite. He is ordinarily considered dry, and he is, of course, committed to "law enforcement." It would not, however, be sound to assume that because of his religious background and high moral standards Mr Hughes believes in the kind of legislation represented in the Eighteenth Amendment and the Volstead Act. From a political standpoint he is probably the same kind of dry as President Coolidge.

CHARLES CURTIS

(From Christian Science Monitor)

Through all the cyclones of radicalism and insurgency that periodically have swept Kansas during the last half century, Senator Charles Curtis has kept his feet firmly on the solid soil of party regularity. Populists, [illegible]ember-eyed Free Silverites, Bull Moose aided and abetted from time to time by ravenous Kansas grasshoppers, have never driven him from the straight and narrow, though sometimes stony, path of orthodox Republicanism.

Senator Curtis takes satisfaction in tracing his ancestry back to the great chiefs who once ruled the plains. His great great grandfather on his mother's side was White Plume, chief of the Kansas tribe, and his great great great grandfather, also on his mother's side, was Pawhuska, chief of the Osage tribe.

His mother passed on when he was three years old and at the age of five years he went to live with her relatives at the Kansas Indian reservation in Morris County, Kan.

Those were lean years for the border folk and the boy had a hard struggle to get money to keep himself in school. After school hours he sold fruit at the trains and worked in stores.

Enters Politics

Politics beckoned to him early and before he was 25 he had been elected prosecuting attorney for Shawnee County. That was in 1884. Kansas had already banned saloons, but the law was virtually a dead letter. Within 30 days after his election Curtis had closed every saloon in town and he kept them closed throughout the four years of his term as prosecutor. In that time, he never lost a prohibition case. He was the first official in Kansas to enforce the dry law.

In 1892, when he was only 32 years old, he was elected a member of the Fifty-third Congress, and with the exception of two years he has served continuously ever since. Curtis climbed one more rung up the ladder of fame by election to the Senate in 1907.

Supports Prohibition

Throughout his term of service in both the House and Senate, Mr. Curtis has worked for all prohibition legislation. During the past session he was credited with saving the bill raising the prohibition enforcement unit to the status of a bureau when it was threatened with extinction in the filibuster.

Senator Curtis' most important service in the national legislative body perhaps has been in promoting the cause of women's rights. He was one of the first senators to declare for woman suffrage. When hardly more than a dozen of his colleagues favored it, he gave his assistance to national women's organizations by permitting them to use his name and frank to send out literature. He has been the author of numerous agricultural bills.

THOMAS J. WALSH

(From Christian Science Monitor)

He is a brilliant investigator, a great lawyer, a sound and skillful debater. His legislative achievements have been notable. But it seems to me that the best short description of Senator Thomas J. Walsh of Montana was that uttered a few years ago. He is almost fanatically high minded.

Nevertheless, this sound sense of propriety makes Walsh one of the Democratic Party's finest assets in Congress and in the country. Combined with aggressiveness, it makes him a square fighter. His style is smooth and compact. He is well-tooled. He knows not only what the goal is, but precisely what means are permissible in achieving it.

Attempts to explain individual characteristics on racial grounds never impressed me much, but for those who take delight in such games it may be interesting to learn that Walsh's father was a northern Irishman and hence heir to a certain hard-headedness sometimes attributed to that clan. His mother also was born in Ireland, but both came to this country in their youth. It was several years before they met, married, and settled in Two Rivers, Wis.

One Year Diploma

Educated in the common schools, Thomas supplemented his schooling with night study, was a country school teacher at 16 and a high school principal at 23. In one year he took the law course at the University of Wisconsin and was graduated. For five years he practiced at Redfield, in old South Dakota Territory, married, and moved to Helena, Mont., where he has lived ever since. He rapidly became one of the leading mining lawyers in the West.

1910 Blocked Election

In 1910 he campaigned and a Legislature was elected with a Democratic majority of seven, morally pledged to elect Walsh to the United States Senate. However, 16 members from "copper counties" bolted and a deadlock ensued for 60 days, at the end of which time Walsh released his followers and asked them to find a man upon whom the "copper crowd" would agree. Two years later he was elected to the Senate by the unanimous vote of the Legislature.

Walsh was the author and advocate of that section of the Federal Reserve Act which compels national banks to subscribe for stock in the federal reserve banks. He made the case for the constitutionality of the Farm Loan Act. He led the fight for the confirmation of Louis D. Brandeis as Associate Justice of the Supreme Court.

It is difficult to single out any man and say with certainty what sort of President he would be. The White House certainly has had less than a dozen occupants with Walsh's intellectual gifts.

NICHOLAS LONGWORTH

(From Christian Science Monitor)

There was a time, early in the present century, when the fame of Nicholas Longworth, member of Congress from Cincinnati, O., rested chiefly on the fact that he was the husband of Alice Roosevelt, popular daughter of a popular President. Today he has achieved national prominence in his own right, first as majority floor leader, and later, as Speaker of the House of Representatives, an office that has been rated as second in importance to the Presidency of the United States. His name now figures in the speculation concerning prospective presidential possibilities in 1928, though he is not an avowed candidate.

It is worthy of mention that Mr Longworth achieved his greatest prominence, as well as the maximum of his popularity, in the House during a period of the country's history when intolerance and party irregularity exerted a marked influence in political affairs, because he is neither intolerant nor irregular.

Floor Leader in 1923

The Republican majority which selected him to be its floor leader in 1923 was preponderantly dry. The same was true of the party caucus which elevated him to the speakership two years later, and of the one which renominated him for that office last March. During the 23 years Mr Longworth has served the House, he has been an avowed antiprohibitionist. He has represented a constituency that is overwhelmingly wet, and he has voted in accordance with that majority view.

Perhaps his most spectacular performance occurred in the last session when he left the Speaker's dais to take the floor in opposition to the naval program advocated by President Coolidge, the first time a Speaker has exercised his right to oppose a policy of a President of his own political faith. He lost the initial skirmish by a close vote, but when the question came before the House the second time as a Senate amendment to the naval appropriation bill he repeated his performance and was sustained by a majority vote of the House.

Preparedness His Policy

His views on national defense are heartily in accord with those advanced by his distinguished father-in-law, Theodore Roosevelt. He regards preparedness as the best guarantee for peace and tranquility that a government can give to its people.

Mr Longworth was born in Cincinnati, O., November 5, 1869. His father was Nicholas Longworth, Sr., outstanding lawyer, jurist, and a man of wealth and prominence in political and civic affairs. The future Speaker had the advantage of a most desirable education, graduating from Harvard in 1891 and subsequently attending Harvard Law School and Cincinnati Law School. He was admitted to the bar in Cincinnati in 1894.

The following year he was elected to the House of Representatives of the Ohio General Assembly, and two years later was elected to the Ohio Senate. It was while serving in the State Senate that he was nominated for Congress and his election followed in November. He took the oath of office in 1903 and has served continuously since except for two years 1913-1915.

FRANK O. LOWDEN

(From Christian Science Monitor)

When any man has been publicly proclaimed for eight years as worthy of filling the office of President of the United States, there must be something to the man who invites such confidence from so many persons. There must be a reason for this confidence which invites contemplation. Furthermore, when it is discovered that this same man began life as a farmer boy and raised himself by his own bootstraps" to this position in the estimation of his fellow citizens, there is ample food for reflection not only of the individual concerned but of the opportunities afforded those of merit in a democracy like our own. Such has been the experience of Frank Orren Lowden, former Governor of Illinois, who is again being importuned by his friends in all sections of the country to become a candidate for the Republican nomination for President next year.

Both in public and private life in war and in peace Mr Lowden has been a constructive citizen. He has never sought office or leadership in anything. He has declined more offices than he has ever held, including a cabinet position offered by President Harding and the post of Ambassador to Great Britain offered by President Coolidge.

Illinois Governor 1916

In 1916 Mr Lowden was elected Governor of Illinois. He declined several times to be a candidate. It was proved to him that a reform in the administration of the State and its financial system was seriously needed and he finally consented to be a candidate.

Today Mr Lowden comes primarily to the attention of the country as a presidential possibility as the champion of the farmer. His leadership in that movement is a most natural one. In 1904 when he was first heard of as a possible candidate for Governor of Illinois he was called a "gum shoe farmer." Today he is the owner and operator of his large farm at Oregon, Ill., where he specializes in thoroughbred dairy cattle and also of one of the largest cotton plantations in the South located in the flooded Mississippi River bottoms of Arkansas.

A Party Man

In politics Mr Lowden is essentially a party man. He is a believer in fundamentals. He is a protectionist. He was one of the first to sense the fact that the farmer, having tried out in vain the high tariff rates of the two tariff bills enacted since the war and finding himself buying in a dear market and selling in a cheap one, might turn on the protection principle and vote not only to lower the tariff on farm products but on all other products as well.

With a constructive record for economy and efficiency in government and administration, with a profound practical knowledge of taxation and economics in general, with a first hand knowledge of the problems of the farm and of the American farmer, with definite notions and a record on inland waterways and flood control and urging as he does a permanent reorganization of the Federal Government it is not at all remarkable that this Illinoisan should again attract public notice as a presidential possibility.

COLONEL BLACK TELLS OF SUCCESS OF CAMPS

[illegible] Black, Infantry [illegible] Professor of Military Science and Tactics.

[illegible] growth of the C. M. T. Camps. Colonel Black said [illegible] ago the first camp [illegible] 1,000 men. Last [illegible] were admitted to the camps and [illegible] 20,000 were turned away for lack of vacancies. He predicted that in even greater numbers will ever subscribe [illegible] of 15,000.

[illegible] have demonstrated the value of the C. M. T. Camps. No better proof of this is the increasing demand [illegible] year after year for the advanced courses. The [illegible] up [illegible] of the students who have [illegible] their camp training [illegible] stronger, men [illegible] mentally, and physically," Colonel Black declared.

"But it remains in the military features [illegible] of the camps," he went on. "Besides the purpose is to develop the [illegible] of the Nation by bringing together young men of high and different types from all sections of the country on a common basis of equality and under the most favorable conditions of outdoor life; to teach them the privileges, duties, and responsibilities of American citizenship and to inculcate the principles of self-discipline and obedience to proper authority.
